(Secs. 103, 307 (a), (b) and (c), 313(a), of the Federal Aviation Act of 1958, as amended (49 U.S.C. §§ 1303, 1348 (a), (b) and (c), and 1354(a)); Secs. 2 and 5 of the Act for the Administration of Washington National Airport, 54 Stat. 688 as amended by 61 Stat. 94; Sec. 4 of the Second Washington Airport Act, 64 Stat. 770; Sec. 6 of the Department of Transportation Act (49 U.S.C. 1655))

Note.—Since this rulemaking does nothing more than retain a current operating restriction at DCA for a short period of time pending review of the overall Metropolitan Washington Airports Policy, the Department has determined that: (1) It is not a major regulation under Executive Order 12291; (2) It is not significant under the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) It does not warrant preparation of a regulatory evaluation as the impact is so minimal; and (4) It will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on May 26, 1981.

J. Lynn Helms,

Administrator.

Correction

In FR DOC. 81–13189, appearing at page 24532 in the issue of Friday, May 1, 1981, please make the following change:

1. On page 24536, in the chart marked "Supplement No. 2", under the 3rd quarter column, the figure "10,927" for the country of New Zealand should be corrected to read "1,041".

2. On page 24536, in the chart marked "Supplement No. 2", under the 4th quarter column, for the country of New Zealand, where there are now dots, there should appear the figure, "1,220".

DEPARTMENT OF STATE

Bureau of Consular Affairs

22 CFR Part 41

[Departmental Regulation 108.807]

Visas; Documentation of Nonimmigrants

AGENCY: Department of State.

ACTION: Final rule.

SUMMARY: The Department is amending its regulations in Part 41 regarding the documentation of nonimmigrants under the Immigration and Nationality Act. Amendments are made to the definitions section and also to the regulations covering officials of foreign governments. These amendments are necessary so that the Bureau can specify with greater precision the classes of aliens covered by these rules. The purpose of these amendments is to establish more effective control over the classification of nonimmigrants qualifying under section 101(a)(15)(A) of the Immigration and Nationality Act in order to ensure that persons who are documented under this provision are clearly entitled to the status provided by these regulations.

EFFECTIVE DATE: May 28, 1981.

FOR FURTHER INFORMATION CONTACT: Gerald M. Brown, Chief, Legislation and Regulations Division, Visa Services, Washington, D.C. 20520, (202) 632–1900.

SUPPLEMENTARY INFORMATION: These amendments to § 41.1 and § 41.20 specify with greater precision the classes of aliens covered by, and clearly entitled to the status provided by these sections.

Section 41.20 further incorporates the statutory requirements relating to accreditation procedures.

On December 8, 1980 the Department published for comment in the **Federal Register** (45 FR 80834) a proposed rule containing revisions to the definition of "Immediate Family" as that term is used in section 101(a)(15)(A), 101(a)(15)(G) and 212(d)(8) of the Immigration and Nationality Act and with reference to classification under the symbols NATO–1, NATO–2, NATO–3, NATO–4, and NATO–5.

In addition, the proposed rule spelled out the criteria required for A–1, or A–2 status, and addressed statutory requirement for acceptance by the President or by the Secretary of State of an applicant's accreditation before a visa may be issued.

Since no written comments have been received the regulations are adopted as proposed.

Dated: April 16, 1981.

Robert E. Fritts,

Acting Assistant Secretary, Bureau of Consular Affairs.

1. In § 41.1, the definition of "Immediate Family" is revised to read:

§ 41.1 Definitions.

* * * * *

"Immediate Family", as used in sections 101(a)(15)(A), 101(a)(15)(G), and 212(d)(8) of the Act and with reference to classification under the symbols NATO–1, NATO–2, NATO–3, NATO–4, and NATO–5, includes the spouse and unmarried sons and daughters, whether by blood or adoption, who are not members of some other household, and who will reside regularly in the household of the principal alien. "Immediate Family" also includes, upon individual authorization by the Department, other close relatives who are members of the immediate family by blood, marriage, or adoption, who are not members of some other household, who will reside regularly in the household of the principal alien, and who are recognized as dependents by the sending Goverment as demonstrated by their eligibility for all rights and benefits, such as the issuance of a diplomatic or official passport and travel and other allowances, which would be granted to the spouse and children of the principal alien.

2. Section 41.20 is revised to read:

§ 41.20 Officials of foreign governments.

(a) *Criteria for classification of foreign government officials.* An alien shall be classifiable under section 101(a)(15)(A) (i) or (ii) of the Act if, in the case of the principal alien, (1) he has been accredited by a foreign government recognized de jure by the United States, (2) he intends to engage solely in official activities for said foreign government while in the United States, and (3) he has been accepted by the President, or by the Secretary of State, or by a consular officer acting on behalf of the Secretary of State. A member of the immediate family of a principal alien shall be classifiable under section 101(a)(15)(A) (i) or (ii) if the principal alien is classifiable under section 101(a)(15)(A) (i) or (ii).

(b) *Classification of status under section 101(a)(15)(A).* If an alien is entitled to classification under section 101(a)(15)(A) of the Act he shall be classified under this section even if he is eligible for another nonimmigrant classification.

(c) *Classification of attendants, servants, and personal employees.* An alien shall be classifiable as a nonimmigrant under the provisions of section 101(a)(15)(A)(iii) of the Act if he establishes to the satisfaction of the consular officer that he qualifies under that section of the Act.

(d) *Referral of certain cases to the Department.* In any case in which there is uncertainty about the applicability of these regulations to a principal alien applicant requesting nonimmigrant status, the matter shall immediately be referred to the Department for consideration as to whether acceptance of accreditation shall or shall not be granted.

(e) *Change of nonimmigrant status to that of a foreign government official.* In the case of an alien in the United States seeking a change of nonimmigrant classification pursuant to section 248 of the Act to a classification under section 101(a)(15)(A) (i) or (ii), the question of acceptance of accreditation shall be determined by the Department.

(f) *Termination of status.* The Department may, in its discretion, cease to recognize as entitled to nonimmigrant status under section 101(a)(15)(A) (i) or (ii) any alien who has such status.

(g) *Classification of foreign government officials for entry other than diplomatic.* A foreign government official or employee who seeks to enter the United States temporarily in a status other than that of a representative or employee of a foreign government shall

not be classifiable under the provisions of section 101(a)(15)(A).

BILLING CODE 4710-06-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 888

[Docket No. R-81-918]

Section 8 Housing; Fair Market Rents for New Construction and Substantial Rehabilitation

AGENCY: Office of Assistant Secretary for Housing—Federal Housing Commissioner, Department of Housing and Urban Development (HUD).

ACTION: Final rule.

SUMMARY: This Rule establishes revised Section 8 Fair Market Rents applicable to New Construction and Substantial Rehabilitation for the States of New Hampshire, Rhode Island, and Virginia, as well as for Market Areas within the States of Kansas, Louisiana, Michigan, North Carolina, and Pennsylvania, in compliance with the requirements of Section 8(c)(1) of the U.S. Housing Act of 1937. Section 8 Fair Market Rents are published annually in the **Federal Register**. HUD published the last annual revision of the Fair Market Rents applicable to New Construction and Substantial Rehabilitation on August 29, 1980, effective on October 1, 1980.

These revised Fair Market Rents reflect the changes which have occurred in the general levels of market rents for recently completed or newly constructed dwelling units of modest design within each market area since their last annual revision.

EFFECTIVE DATE: June 25, 1981.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT: Edward M. Winiarski, Chief Appraiser, Valuation Branch, Technical Support Division, Office of Multifamily Housing Development, 451 7th Street, SW., Washington, D.C. 20410, (202) 755-5743. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: HUD gave notice on August 29, 1980 at 45 FR 58040 that it was proposing to amend Title 24 of the Code of Federal Regulations by incorporating in Part 888, Subpart A, a revised Schedule A, "Fair Market Rents for New Construction and Substantial Rehabilitation (including Housing Finance and Development Agencies Program) for all Market Areas." The deadline for submitting comments was September 29, 1980. To ensure that the final rents were effective by the required anniversary date October 1, 1980, the August 29, 1980 publication stated that the rents in that publication would take effect automatically on October 1, 1980, unless HUD published a notice to the contrary. Today's publication modifies certain of the rents published August 29 in response to the comments received.

HUD received 36 comments by the deadline. After consideration of comments received from HUD Field Offices and from the public as a result of this publication, HUD has decided to modify the Schedule A rents for 13 market areas in the following states: Kansas, market area of Wichita; Louisiana; market area of New Orleans; Michigan, market areas of Bay City, Flint, and Saginaw; New Hampshire, Statewide; Pennsylvania, market area of Philadelphia; Rhode Island, Statewide; and Virginia, market areas of Harrisonburg, Stauton, Warrenton, Waynesboro, and Winchester. These modified Fair Market Rent Schedules are based upon supporting documentation.

Ten additional comments were received after the deadline. After consideration of additional comments received from HUD Field Office and from the public as a result of this publication, HUD has decided to modify the Schedule A rents for 21 other market areas in the following states: North Carolina, market area of Elizabeth City; Virginia, market areas of Bristol, Chesapeake, Charlottesville, Culpepper, Danville, Emporia, Franklin, Fredericksburg, Hampton, Lynchburg, Martinsville, Newport News, Norfolk, Portsmouth, Richmond, Roanoke, Suffolk, South Boston, South Hill, and Virginia Beach.

Proposals involving combinations of structural types and unit sizes by bedroom count for which Fair Market Rents have not been published for effect may not be approved until publication of the applicable Fair Market Rents as a Final Rule.

For all products where the Fair Market Rents are revised upward after the date of processing stage specified above, the revised Fair Market Rents shall apply to all subsequent processing in reviewing Contract Rents.

Since the amendments contained in this Final Rule are to apply to the Fiscal Year 1981 program, it is necessary that the Rule become effective as soon as possible, so that applications can be submitted and acted upon prior to the end of the Fiscal Year.

Accordingly, this Rule becomes effective immediately on the date set forth above.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50, which implements Section 102(2)(c) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection during regular business hours at the Office of the Rules Docket Clerk at the address set forth above.

Pursuant to Section 605(b) of the Regulatory Flexibility Act, the Undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities.

The Catalog of Federal Domestic Assistance program number and title is 14.156, Lower Income Housing Assistance program (Section 8).

Accordingly, Schedule A of Part 888 is amended as set forth below:

Authority: Sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d))

Issued at Washington, D.C., April 21, 1981.

George O. Hipps, Jr.,

Acting Deputy Assistant Secretary for Housing—Federal Housing Commissioner.

Schedule A—Fair Market Rents for New Construction and Substantial Rehabilitation (Including Housing Finance and Development Agencies Program)

These schedules of Fair Market Rents have been trended ahead to October 1, 1982, to update the current Fair Market Rent schedules which these revised Schedules will replace.

Note.—The Fair Market Rents for (1) dwelling units designed for the elderly or handicapped are those for the appropriate size units, not to exceed 2 bedrooms for the elderly, multiplied by 1.05 rounded to the nearest whole dollar, (2) congregate housing dwelling units are the same as for noncongregate units, and (3) single room occupancy dwelling units are those for zero bedroom units of the same type.

DEPARTMENT OF JUSTICE

Parole Commission

28 CFR Part 2

Paroling, Recommitting, and Supervising Federal Prisoners

AGENCY: Parole Commission, Justice.

ACTION: Final rule.

SUMMARY: The United States Parole Commission is adopting a regulation codifying the criteria that it presently uses in determining how long a prisoner released on parole shall remain under parole supervision before such supervision is normally terminated. These criteria were originally developed by the Commission's Office of Research so that the termination decisions required by statute could be placed upon an equitable and empirically justified basis. The regulation provides that jurisdiction over parolees initially placed in the most favorable parole prognosis category will normally be terminated after two years of difficulty-free supervision. Jurisdiction over other parolees will normally be terminated after three years of difficulty-free supervision.

EFFECTIVE DATE: August 1, 1981.

FOR FURTHER INFORMATION CONTACT: Barbara Meierhoefer, Office of Research, U.S. Parole Commission, 5550 Friendship Blvd., Bethesda, Maryland 20015, (301) 492-5980.

SUPPLEMENTARY INFORMATION:

Background

On September 12, 1980, the U.S. Parole Commission published in the **Federal Register** (FR 60427) an interim rule, with request for public comment, setting forth the Commission's criteria for the early termination of parole supervision.

The Commission is required under 18 U.S.C. 4211 (1976) to conduct a review of the status of each prisoner who is released on parole supervision two years after release on parole and at least annually thereafter. The Commission is empowered, in its discretion, to grant early termination of supervision, in addition to modifying conditions of parole and levels of supervisory contact.

In addition, the statute requires termination of supervision after five continuous years of supervision unless the Commission finds that there is a likelihood that the parolee will engage in conduct violating any criminal law.

The concern in termination of supervision decisions is whether or not the released prisoner continues to present a risk of further criminal behavior. Having compiled data on the post-release behavior of federal releasees, the Commission decided to utilize the available information to develop empirically based guidelines to assist in termination decisions.

The research was aimed at discovering at what point there seems to be a significant decline in the arrest rate of releasees which would justify the termination of supervision, and thus the Commission's jurisdiction over the parolee. Using the four parole prognosis (risk) categories which the Commission utilizes in making release decisions (see 28 CFR § 2.20—Salient Factor Score), releasees grouped by risk category were followed for six years from date of release from prison. Briefly, the research indicated that there was not a significant decline in arrest rate until after completion of a three year "difficulty-free" period for all groups except those who started out in the "very good" risk category. These "very good" risk offenders experienced a decline in arrest rate after a two year "difficulty-free" period. (See, Hoffman and Stone-Meierhoefer, "Post-Release Arrest Experiences of Federal Prisoners", *Journal of Criminal Justice*, V. 7, No. 3, pp. 193–216).

Based on this research, the Commission adopted criteria under which releasees with salient factor scores of 9–11 (very good risk category) should normally be terminated after two years of difficulty-free supervision; and that all others should normally be terminated after three years of difficulty-free supervision. These supervision periods state customary Commission policy, which may be overridden for good cause.

The interim rule specified the general conditions which could constitute "good cause" to override these termination guidelines. Decisions above the guidelines (i.e., decisions to continue on supervision for a longer period of time) may be rendered if case-specific factors indicate a continuing risk of new criminal conduct.

Decisions to terminate below the three year guidelines are permitted for case-specific factors showing that the parolee is a better risk than indicated by the salient factor score. However, a decision to terminate prior to two years will not be made in *any* case, regardless of salient factor score, absent a finding that further supervision would be counterproductive to successful community adjustment.

It should be noted that background factors may be used to override the supervision guidelines regardless of whether these factors were explicitly cited in making the parole release determination.

Public Comment

Comment was received from three federal judges, four Chief Probation Officers, two additional probation officers and one prisoner. The majority of the comment cited the need for a means to consider the severity and type of the commitment offense in making termination of supervision decisions. Specifically, the comment provided examples of large scale drug offenders, and other types of large scale "white collar" and organized criminal conspiracy cases which they felt should not be terminated after two years regardless of salient factor score or performance under supervision because of their continued risk to the community.

Other comments suggested less reliance on the salient factor score, with one suggesting that the Commission should rely heavily on the recommendations of the probation officers, asserting that the probation officer was in the best position to assess the case. One Chief Probation Officer mentioned that the guidelines should assist the probation officers in making termination recommendations and should eliminate the need to carry a case under supervision longer than necessary.

Changes From the Proposal

1. In response to comment received, the final rule clarifies that the guidelines for termination of supervision set forth the Commission's customary policy which may be overriden by case specific factors. It is specified that these factors may relate either to the parolee's behavior while under supervision, or to factors in the parolee's background which indicate that continued supervision is in the best interests of the public. Further, specific examples of meaningful case-specific circumstances are presented in the regulation itself.

In further response, it is noted that under 28 CFR § 2.42 probation officers are required to furnish a case supervision report which contains a request for a recommendation to the Commission and any reasons for departing from the Commission's guidelines.

2. Certain sections have been consolidated so that one subsection combines all information relating to youthful offenders.

Therefore, pursuant to 18 U.S.C. 4203(a)(1) and 4204(a)(6), 28 CFR § 2.43 (entire text) is revised and set forth below.

§ 2.43 Early termination.

(a)(1) Upon its own motion or upon request of the parolee, the Commission may terminate supervision, and thus jurisdiction, over a parolee prior to the expiration of his maximum sentence.

(2) A committed youth offender may be granted an early termination of jurisdiction (unconditional discharge) not earlier than after one year of continuous supervision on parole. When termination of jurisdiction prior to the expiration of sentence is granted in the case of a youth offender, his conviction shall be automatically set aside. A certificate setting aside his conviction shall be issued in lieu of a certificate of termination.

(b) Two years after release on supervision, and at least annually thereafter, the Commission shall review the status of each parolee to determine the need for continued supervision. In calculating such two-year period there shall not be included any period of release on parole prior to the most recent release, nor any period served in confinement on any other sentence. A review will also be conducted whenever early termination is recommended by the supervising probation officer.

(c)(1) Five years after release on supervision, the Commission shall terminate supervision over such parolee unless it is determined, after a hearing conducted in accordance with the procedures prescribed in 18 U.S.C. 4214(a)(2), that such supervision should not be terminated because there is a likelihood that the parolee will engage in conduct violating any criminal law. Such hearing may be conducted by a hearing examiner or other official designated by the Regional Commissioner. In calculating such five-year period, there shall not be included any period of release on parole prior to the most recent release or any period served in confinement on any other sentence.

(2) If supervision is not terminated under paragraph (c)(1) of this section the parolee may request a hearing annually thereafter, and a hearing shall be conducted with respect to termination of supervision not less frequently than biennially.

(3) A parolee may appeal an adverse decision under paragraphs (c)(1) or (2) of this section pursuant to §§ 2.25, 2.26, or 2.27 as applicable.

(d) The Regional Commissioner in the region of supervision shall have authority to make decisions under this section pursuant to the guidelines set forth below; except that in the case of a parolee classified under the provisions of § 2.17, an affirmative decision to terminate supervision under paragraph (b) of this section, or a decision to terminate or continue supervision under paragraph (c) of this section shall be made pursuant to the provisions of § 2.17.

(e) *Early termination guidelines:* In determining whether to grant early termination from supervision, the Commission shall apply the following guidelines:

(1) Absent case-specific factors to the contrary, termination of supervision shall be considered indicated when:

(i) A parolee originally classified as a very good risk (salient factor score of 9 or more) has completed two continuous years of supervision free from any indication of new criminal behavior or serious parole violation; and

(ii) A parolee originally classified as less than a very good risk (salient factor score of less than 9) has completed three continuous years of supervision free from any indication of new criminal behavior or serious parole violation.

Note.—As used in this section, an indication of new criminal behavior includes a new arrest if supported by substantial evidence of guilt, even if no conviction or parole revocation results.

(2) Decisions to continue the parolee under supervision past the period indicated above may be made where case-specific factors justify a conclusion that continued supervision is needed to protect the public welfare. Such case-specific factors may relate to the current behavior of the parolee (for example, a parolee whose behavior begins to deteriorate as the normally expected time for termination approaches) or to the parolee's background (for example, a parolee with a history of repetitive assaultive conduct or substantial involvement in large scale or organized criminal activity). In such cases, an additional period of supervision prior to termination of jurisdiction may be warranted.

(3) Decisions to terminate supervision prior to completion of the three year period specified in paragraph (e)(1)(ii) of this section may be made where it appears that the parolee is a better risk than indicated by the salient factor score as originally calculated. However, termination of supervision prior to the completion of two years of difficulty-free supervision will not be granted unless case-specific factors clearly indicate that continued supervision would be counterproductive.

(4) Cases with pending criminal charges shall not be terminated from supervision until disposition of such charge(s) is known.

(5) After five continuous years of supervision, decisions to terminate will be made in accordance with subsection (c) of this rule.

I certify that this rule will not have a significant economic impact on a substantial number of small entities.

Dated: May 21, 1981.

Cecil C. McCall,

Chairman, Parole Commission.

BILLING CODE 4410-01-M

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

33 CFR Parts 252, 264, 275, 278, 341

Internal Water Resources Planning Regulations; Audit Results

AGENCY: Corps of Engineers, DOD.

ACTION: Final rule; revocation.

SUMMARY: On March 27, 1981, the Civil Works Planning Division, Office of the Chief of Engineers completed an audit of all of its internal water resources planning regulations as a first phase of a Regulation Reform Action Program (RRAP). The objectives of RRAP are to streamline and consolidate planning guidance. As a result of the audit the U.S. Army Corps of Engineers, DOD hereby gives notice that its regulations covering framework and basin studies programs, urban studies programs, wastewater collection and treatment, separable recreation lands—completed lake projects and evaluation of beneficial contributions to National economic development for flood plain management plans are revoked and removed.

EFFECTIVE DATE: June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Dr. Robert D. Wolff, Planning Division, Directorate of Civil Works, U.S. Army Corps of Engineers, HQDA(DAEN-CWP), WASH, D.C. 20314, telephone (202) 272-0146.

SUPPLEMENTARY INFORMATION: 33 CFR Part 252, Framework and Basin Study Programs (Level A and Level B Studies) contains general guidance for the Corps of Engineers participation in multiagency studies. A review of the regulation has determined a regulation covering this general informational guidance is unnecessary. Corps field offices will operate under policies and procedures adopted by the U.S. Water Resources Council.

33 CFR Part 264, Urban Studies Program, provides policy and procedures for studies conducted under the Urban Studies Program. Separate

guidance on this subject is no longer required since the studies under this program are being completed. The subject is adequately covered by the Water Resources Council Principles and Standards, 18 CFR Part 711.

33 CFR Part 275, Wastewater Collection and Treatment Policy, provides guidance on water quality standards, goals and deadlines to be used in developing wastewater management plans. The regulation is out of date. Current guidance is available from the Environmental Protection Agency.

33 CFR Part 278, Separable Recreation Lands: Completed Lake Projects, provides guidance for land acquisition for a separable recreation purpose at completed projects. This regulation was developed to implement an opinion of the OCE Chief Counsel that Section 4 of the 1944 Flood Control Act does not give the Corps authority to acquire separable recreation lands. That opinion has been subsequently revised by the OCE Chief Counsel and, therefore, the regulation is no longer required.

33 CFR Part 341, Evaluation of Beneficial Contributions to National Economic Development for Flood Plain Management Plans prescribes the principles, standards, procedures and measurement techniques for evaluating beneficial contributions to National Economic Development for flood damage reduction. This guidance has been replaced by Water Resources Council procedures, 18 CFR Part 713. A separate Corps regulation is no longer required.

PARTS 252, 264, 275, 278 and 341 [Reserved]

Therefore, 33 CFR Parts 252, 264, 275, 278, and 341 are hereby removed, revoked, and reserved.

Dated: May 14, 1981.

John O. Roach II,

Army Liaison Officer with the Federal Register.

BILLING CODE 3710-92-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[AD-FRL-1778-5]

Approval and Promulgation of Implementation Plans; Ohio Revised Stack Height Policy

AGENCY: Environmental Protection Agency.

ACTION: Notice of policy revision and stay of regulation.

SUMMARY: On January 12, 1979 (44 FR 2608), EPA proposed stack height regulations to implement Section 123 of the Clean Air Act. Those regulations generally allowed sources automatic credit for stack heights up to a good engineering practice height, as determined by an EPA formula. On June 24, 1980 (45 FR 42279), as part of a rulemaking promulgating emission limitations for two power plants owned by the Cleveland Electric Illuminating Company (CEI), EPA revised its stack height policy to require existing sources seeking stack height increases to perform fluid modeling or field studies to justify stack height increases up to a good engineering practice height as calculated by the formula. The notice also promulgated two sets of emission limitations for the CEI plants, one based on credit for the new tall stacks and one based on the old stacks. The second set of limits was to be effective in one year unless CEI demonstrated through fluid modeling or field studies that it was entitled to credit for the new stacks. At the time, EPA expected to publish final stack height regulations incorporating the revised policy within a few months.

Unanticipated difficulties have significantly delayed promulgation of the stack height regulations. EPA has, therefore, determined to withdraw the requirement for fluid modeling or field studies to justify stack height increases up to good engineering practice formula height. In view of the change in policy, EPA is also staying the second set of emission limitations for the CEI plants.

EFFECTIVE DATE: May 28, 1981.

FOR FURTHER INFORMATION CONTACT: Lanny M. Deal, Control Programs Development Division, Office of Air Quality Planning and Standards, MD-15, Research Triangle Park, North Carolina 27711, (919) 541-5516 (FTS 629-5516).

SUPPLEMENTARY INFORMATION: On January 12, 1979, EPA proposed regulations to implement the stack height provisions of Section 123 of the Clean Air Act. *See* 44 FR 2608. EPA's proposed stack height regulations generally allowed sources automatic credit for stack heights up to a good engineering practice height, as determined by an EPA formula. *See* 44 FR 2610, col. 2. During 1979 and 1980, however, EPA became increasingly concerned that stack height increases allowed under the proposed regulations might contribute to long-range transport of pollutants and acid deposition. Accordingly, EPA decided to modify its stack height proposal. The revised policy required certain sources seeking to raise existing stacks to demonstrate through fluid modeling or field studies that the increased stack height was necessary to avoid excessive concentrations due to downwash, wakes, or eddies.

EPA announced this policy change as part of its final action promulgating sulfur dioxide (SO_2) emission limitations for the Avon Lake and Eastlake power plants owned by the Cleveland Electric Illuminating Company. *See* 45 FR 42279, June 24, 1980. EPA applied its revised policy in developing the emission limitations for the CEI plants. EPA determined it was appropriate to apply this new policy to CEI because CEI had replaced old stacks at each of the two plants with new taller stacks.

As a result of the policy revision, EPA promulgated two sets for emission limitations of the CEI plants: 4.10/4.65 lbs sulfur dioxide (SO_2) per million Btu (MBtu) (depending on the sulfur content of fuel burned) for Avon Lake and 5.64 lbs SO_2 per MBtu for Eastlake, based on modeling which included stack height credit for the new tall stacks (which qualify as good engineering practice height stacks under EPA's formula in the proposed stack height regulations); and 3.43/3.93 lbs SO_2 per MBtu for Avon Lake and 3.04 lbs SO_2 per MBtu for Eastlake based on modeling using the old stacks and assuming no credit for the new taller stacks. The first set of limitations was made immediately effective. The second set of limits was made effective one year later to provide CEI with an opportunity to demonstrate through fluid modeling or field studies that the new tall stacks were necessary to avoid excessive concentrations due to downwash, wakes, or eddies.

CEI and other parties petitioned EPA to provide an opportunity to comment on these new emission limitations and to reconsider the limitations in light of the comments received. CEI also requested EPA to stay the effectiveness of both sets of emission limitations during reconsideration. On January 27, 1981, EPA granted the request for an opportunity to comment. *See* 46 FR 8581. EPA denied the requests for a stay of the first set of emission limitations, but deferred action on any stay of the second set of emission limitations, which were based on the revised stack height policy. EPA hoped to resolve issues related to the policy change in the context of final action on the stack height regulations. However, EPA announced that it intended to rule on the requested stay of the second set of emission limitations well before their effective date of June 24, 1981, even if

the final stack height regulations were not yet promulgated.

At the time EPA adopted the CEI limitations, it expected to promulgate within a few months final stack height regulations which would incorporate the new stack height policy. The need for an expanded regulatory analysis, however, has delayed promulgation of those regulations. In view of the extended delay in issuing final stack height regulations which include a fluid modeling or field studies requirement, EPA has concluded that it is inappropriate to require sources to conduct fluid modeling or field studies at this time. Therefore, EPA is today withdrawing the requirement for fluid modeling or field studies by existing sources seeking credit for stack height increases up to good engineering practice height as determined by EPA's proposed formula. If EPA's final stack height regulations include a requirement for fluid modeling or field studies, all sources subject to the requirement will have at least one year to conduct the necessary fluid modeling or field studies. As provided in the proposed stack height regulations, fluid modeling or field studies continue to be required for sources seeking stack height credit above the height calculated by the formula.

In view of the withdrawal of the fluid modeling policy, CEI will no longer be required to perform fluid modeling or field studies to justify stack height credit for its new tall stacks, since those stacks are good engineering practice height as determined by EPA's formula. Due to the policy change, EPA believes it is appropriate to grant the requested stay for the second set of emission limitations that were scheduled to go into effect in June 1981. Those limits were based on air quality modeling which allowed stack height credit only for the old stacks. Since CEI is now entitled to credit for the new tall stacks, emission limitations for the plants should be based on modeling which provides credit for those stacks. The currently effective emission limitations promulgated in June 1980 allow credit for those stacks. Therefore, those limitations will remain in effect and will be the only limitations applicable to the plants. If the final stack height regulations incorporate a requirement for fluid modeling or field study by sources seeking stack height credit for increases up to EPA's good engineering practice formula, CEI, like other sources, would have one year to perform the necessary modeling for field studies.

EPA is taking these actions without first providing notice and opportunity to comment. The withdrawal of the fluid modeling policy for existing sources merely changes a general statement of policy which is not subject to the notice and comment requirements of the Administrative Procedure Act. (5 U.S.C. 551 *et seq.*) Similarly, EPA is not required to provide opportunity to comment on the stay of the second set of CEI emission limitations. The stay suspends, but does not alter or withdraw these requirements. EPA has already solicited public comment on these emission limitations in its January 27, 1981 notice of additional comment period. EPA will provide additional opportunities for comment, as appropriate, prior to taking final action to change or eliminate these emission limitations.

EPA also finds that it has good cause to make this action immediately effective in order to relieve CEI of the need either to comply with the stricter emission limitations or to justify its stack height increases.

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not Major because it is not expected to result in increased costs for any member of the regulated community or for consumers. This action preserves the status quo for CEI's plants, allowing them to continue to operate under the emission limitations that became effective on June 24, 1980. This action also relieves other existing sources affected by the June 24, 1980 policy change of the need to perform fluid modeling or field studies to justify stack height increases.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Dated: May 20, 1981.

Walter C. Barber,

Acting Administrator.

BILLING CODE 6560-26-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 5929

[CA-3536]

California; Partial Revocation of Reclamation Project Withdrawals

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order will partially revoke Bureau of Reclamation (now Water and Power Resources Service) orders which withdrew 673.25 acres of lands for the Central Valley Project in California. All of the lands involved remain subject to the withdrawal made by the Act of November 8, 1965 (79 Stat. 1295; 16 U.S.C. 460q.) from location, entry and patent under the mining laws for the Whiskeytown-Shasta-Trinity National Recreation Area.

EFFECTIVE DATE: May 28, 1981.

FOR FURTHER INFORMATION CONTACT: Marie Getsman, California State Office, 916-484-4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The order of the Secretary of the Interior dated November 16, 1932, as well as the orders of the Bureau of Reclamation dated July 14, 1948, February 19, 1952, and November 10, 1955, concurred in by the Bureau of Land Management on August 10, 1948, February 27, 1952, and March 12, 1956, withdrawing lands for the Central Valley Project, California, are hereby revoked so far as they affect the following described lands:

Mount Diablo Meridian

T. 32 N., R. 6 W.,
  Sec. 8, NW¼NE¼;
  Sec. 9, Lots 1, 2, and 3, N½NE¼, and SW¼NE¼;
  Sec. 20, Lots 1, 4, 5, and 7;
  Sec. 21, Lot 1.
T. 35 N., R. 7 W.,
  Sec. 18, NE¼NE¼NE¼.
T. 36 N., R. 7 W.,
  Sec. 10, NW¼NW¼NE¼.
T. 35 N., R. 8 W.,
  Sec. 24, NE¼NE¼, SW¼NE¼, S½SE¼, and E½NE¼SE¼.

The area aggregates approximately 673.25 acres in Shasta and Trinity Counties.

2. The lands described are within the Whiskeytown-Shasta-Trinity National Recreation Area established by the Act of November 8, 1965 (79 Stat. 1295; 16 U.S.C. 460q.), and are subject to the provisions of the statute and regulations attendant thereto.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

[FR Doc. 81-15900 Filed 5-27-81; 8:45 am]

BILLING CODE 4310-84-M

43 CFR Public Land Order 5923

[CA-3643]

California; Partial Revocation of Reclamation Project Withdrawal

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order will partially revoke a Bureau of Reclamation (now Water and Power Resources Services) Order which withdrew 903.93 acres of land for the Central Valley Project in California. All of the lands involved remain subject to the withdrawal made by Presidential Proclamation of October 3, 1905, for the Tahoe National Forest and all except 36.84 acres remain withdrawn by the Federal Energy Regulatory Commission from location, entry and patent under the mining laws for licensed Power Project 2079.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office, 916–484–4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The order of the Bureau of Reclamation dated February 19, 1952, concurred in by the Bureau of Land Management, February 26, 1952, withdrawing lands for the American River Division, Central Valley Project, is hereby revoked so far as it affects the following described land:

Mount Diablo Meridian

T. 15 N., R. 13 E.,
Sec. 24, Lots 3, 4, 7, 8, 13, 14, 18, and 19;
Sec. 25 SE¼SW¼;
Sec. 36, Lots 1 through 14, inclusive, and Lot 19.

The area described aggregates approximately 903.93 acres in Placer County.

2. The lands described are within the Tahoe National Forest established by Presidential Proclamation October 3, 1905, and are subject to the provisions of that proclamation and regulations attendant thereto. All of the lands except Lot 19, Section 24, T. 15 N., R. 13 E., are within licensed Power Project 2079, withdrawn for the Federal Energy Regulatory Commission and remain closed from location, entry and patent under the mining laws, 30 U.S.C. Ch. 2.

3. At 10 a.m., on June 23, 1981, Lot 19, Section 24, T. 15 N., R. 13 E., shall be open to such forms of disposition as may by law be made of national forest lands.

Garrey E. Carruthers,
Assistant Secretary of the Interior.
May 18, 1981

BILLING CODE 4310-84-M

43 CFR Public Land Order 5928

[CA-8649]

California; Partial Revocation of Public Water Reserve No. 114

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order partially revokes an Executive Order which withdrew certain lands as a public water reserve. The lands will be opened to operation of the public land laws generally, and to location under the nonmetalliferous mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office, 916–484–4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of February 23, 1928, which withdrew the following described public lands for a public water reserve is hereby revoked insofar as it affects the following described lands:

San Bernardino Meridian

Public Water Reserve No. 114

T. 9 S., R. 12 E.,
Sec. 28, S½SW¼, SE¼.

The area described contains 240 acres in Imperial County.

2. At 10 a.m. on June 23, 1981, the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered as simultaneously filed at that time. Those received therafter shall be considered in the order of filing.

3. At 10 a.m. on June 23, 1981, the lands will be open to nonmetalliferous mineral location under the United States mining laws. The lands have been and continue to be open to metalliferous mineral location under the United States mining laws and to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, Room E–2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

Garrey E. Carruthers,
Assistant Secretary of the Interior.
May 18, 1981.

BILLING CODE 4310-84-M

43 CFR Public Land Order No. 5932

[CA-3046]

California; Partial Revocation of Reclamation Project Withdrawals

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order partially revokes five orders which withdrew lands from all forms of disposition under the public land laws, including the mining laws. This action will restore 1,027 acres of public lands to operation of the public land laws, including the mining laws; 7,864 acres remain withdrawn from operation of the public land laws, including the mining laws, for the Whiskeytown-Shasta-Trinity National Recreation Area; and 6,394 acres of Forest Service land will be open to such forms of disposition as may by law be made of national forest lands.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office, 916–484–4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751, 43 U.S.C. 1714, it is orderd as follows:

1. The Orders of the Bureau of Reclamation (now the Water and Power Resources Service) dated November 10, 1932, February 19, 1952, September 25, 1954, and November 10, 1955, concurred in by the Secretary of the Interior on November 16, 1932, February 27, 1952, October 21, 1955, and March 12, 1956, respectively, and Public Land Order No. 2225, dated December 16, 1960, which withdrew public lands for reclamation project sites, are hereby revoked insofar as they affect the following described lands:

Mount Diablo Meridian

T. 32 N., R. 6 W.,
Sec. 2, Lots 6 and 10 and S½SE¼;
Sec. 6, Lot 1 and SE¼NE¼;
Sec. 10, Lot 4;

Sec. 12, Lots 1, 2, and 3, S½NW¼, and W½SE¼.
T. 33 N., R. 6 W.,
Sec. 31, N½NE¼SE¼ and N½N½NW¼SE¼.
T. 33 N., R. 7 W.,
Sec. 34, S½NE¼.

Sec. 27, SE¼SW¼;
Sec. 28, W½NE¼NW¼, NW¼NW¼, N½SW¼NW¼, and NW¼SE¼NW¼;
Sec. 29, E½NE¼, E½W½NE¼, and W½NW¼SW¼;
Sec. 32, W½SW¼NE¼ and E½SE¼NW¼;
Sec. 34, N½S½NE¼, SW¼SW¼NE¼, N½SW¼, SW¼SW¼, and W½SE¼SW¼;
Sec. 36, S½S½NE¼NE¼, S½NW¼NE¼, NE¼NE¼SW¼, and S½S½SW¼.
T. 34 N., R. 9 W.,
Sec. 1, S½;
Sec. 2, W½ Lot 4, W½SW¼NE¼, S½NW¼, and S½;
Sec. 3, Lots 1, 2, 3, and 4, and S½N½.
T. 35 N., R. 9 W.,
Sec. 26, S½;
Sec. 34, NE¼ Lot 1, S½NE¼NW¼, W½NW¼, Lots 3, 7, 8, and 9, and those portions of M.S. 4359 lying within the SW¼, within the NW¼SE¼, and within the SW¼SE¼ of said Section 34.

The area aggregates approximately 7,864 acres.

3. At 10 a.m., on June 23, 1981, the following described national forest lands, which lie within the boundaries of the Shasta-Trinity National Forest, shall be open to such forms of disposition as may be law by made of national forest land:

Mount Diablo Meridian

T. 35 N., R. 7 W.,
Sec. 2, SE¼.
T. 34 N., R. 8 W.,
Sec. 19, All;
Sec. 30, All;
Sec. 31, SW¼ and SW¼SE¼.
T. 35 N., R. 8 W.,
Sec. 19, N½SW¼SE¼, SW¼SW¼SE¼, SE¼SE¼;
Sec. 20, E½E½ and E½W½SE¼.
T. 34 N., R. 9 W.,
Sec. 10, All;
Sec. 12, All;
Sec. 13, S½;
Sec. 14, All;
Sec. 15, All;
Sec. 24, All.
T. 35 N., R. 9 W.,
Sec. 24, NW¼NE¼NE¼, S½NE¼NE¼, W½NE¼, SE¼NE¼, W½, and SE¼;
Sec. 26, N½.

The area aggregates approximately 6,394 acres.

4. At 10 a.m., on June 23, 1981, the following described public lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m., on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Mount Diablo Meridian

T. 32 N., R. 6 W.,
Sec. 2, Lots 6 and 10, and S½SE¼;
Sec. 6, Lot 1;
Sec. 12, Lots 1, 2, and 3, S½NW¼, and W½SE¼.
T. 33 N., R. 6 W.,
Sec. 31, N½SE¼SE¼ and N½N½NW¼SE¼.
T. 33 N., R. 8 W.,
Sec. 14, Lots 1, 2, 3, and 7, NW¼NE¼, N½NW¼, SW¼SW¼, and E½SE¼;
Sec. 15, NE¼ and S½NW¼.

The area aggregates approximately 1,027 acres.

5. At 10 a.m., on June 23, 1981, the public lands described in paragraph 4 will be open to location under the United States mining laws. All the lands have been and continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, Room E–2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

43 CFR Public Land Order 5935

[CA–371]

California; Partial Revocation of Reclamation Withdrawal

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order will partially revoke two Departmental Orders which withdrew 1,027.83 acres of land for the Shasta Division of the Central Valley Project in California. This action restores the lands to operation of the public land laws generally, including the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT:

Marie M. Getsman, California State Office, 916–484–4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Departmental Orders of November 6, 1947, and October 21, 1955, which withdrew lands for the Shasta Division, Central Valley Project, are hereby revoked insofar as they affect the following described lands:

Mount Diablo Meridian

T. 33 N., R. 5 W.,
Sec. 19, lot 1, SE¼NW¼, NW¼SE¼;
Sec. 20, lots 1, 2, 3, 4, 5, and E½NW¼.
T. 33 N., R. 6 W.,
Sec. 24, All, excepting therefrom that portion thereof lying within the boundaries of Mineral Surveys 3937, 5231, 5441, 5595, and 5597.
Sec. 25, NE¼, E½NW¼, NW¼NW¼, E½SW¼, SE¼ excepting therefrom those portions thereof lying within the boundaries of Mineral Surveys 3937, 5595, and 5597.

The area described aggregates approximately 1,027.83 acres in Shasta County.

The lands are located about 9 miles northwest of Redding, California. The primary use of these lands is recreation.

2. At 10 a.m. on June 23, 1981, the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. The lands will be open to location under the United States mining laws at 10 a.m. on June 23, 1981. They have been open to applications and offers under the mineral and geothermal leasing laws.

Inquiries concerning the lands should be addressed to the Bureau of Land Management, Room E–2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310–84–M

43 CFR Public Land Order 5936

[LA-0167426]

California; Partial Revocation of Reclamation Withdrawals

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order partially revokes the Departmental Orders which withdrew 2,080 acres of lands for the Colorado River Project. This action will restore 774 acres to operation of the public land laws, including the mining laws. The 1,306 acres of lands patented to the Metropolitian Water District pursuant to the Act of June 18, 1932, reserving all minerals to the United States will remain segregated from the mining and mineral leasing laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office, 916–484–4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Departmental Orders of August 26, 1902 and September 8, 1903, withdrawing lands for the Colorado River Project, California, are hereby revoked insofar as they affect the following described lands:

San Bernardino Meridian

T. 2 N., R. 27 E.,
Sec. 5, All;
Sec. 6, All;
Sec. 7, N½ and SW¼;
Sec. 8, N½.

The area aggregates 2,080 acres in San Bernardino County.

The lands are located in the extreme eastern part of the State at the edge of the Whipple Mountains near Parker Dam and the Colorado River. The topography of the lands vary from relatively flat to extremely steep slopes. Vegetation consists of scattered creosote, bursage, ironwood, palo verde, cholla, beaver tail and ephemeral forbs.

2. Of the lands listed in paragraph 1, the following described public lands shall at 10 a.m. on June 23, 1981, be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered in the order of filing.

San Bernardino Meridian

T. 2 N., R. 27 E.,
Sec. 5, N½SE¼NE¼, those portions of NE¼NE¼ not included in MWD patent;
Sec. 6, S½SW¼, SW¼SE¼;
Sec. 7, W½NE¼, SE¼NE¼, and W½;
Sec. 8, S½NW¼, SE¼NE¼, those portions of the SW¼NE¼ not included in MWD patent.

The area aggregates approximately 774 acres in San Bernardino County.

3. All the lands described in paragraph 2 will be open to location under the United States mining laws at 10 a.m. on June 23, 1981. They have been and continue to be open to applications and offers under the mineral leasing laws.

4. Of the lands described in paragraph 1, those lands patented to the Metropolitan Water District with minerals reserved to the United States remain segregated from the mining and mineral leasing laws pursuant to the Act of June 18, 1932, 47 Stat. 324.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, Room E–2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310–84–M

43 CFR Public Land Order 5925

[M–40963]

Montana; Partial Revocation of Public Water Reserve

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order partially revokes an Executive Order and a Secretarial Order as to 160 acres of lands withdrawn as public water reserves. This action will restore the lands to operation of the public land laws generally, including nonmetalliferous mineral location under the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Roland F. Lee, Chief, Branch of Lands and Minerals Operations, Montana State Office 406–657–6291.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of April 17, 1926, creating Public Water Reserve No. 107, as construed by Secretarial Order of January 18, 1935, as Interpretation No. 212, is hereby revoked insofar as it affects the following described lands.

Principal Meridian

T. 5 N., R. 48 E.,
Sec. 12, NW¼NE¼.
T. 6 N., R. 45 E.,
Sec. 26, S½NE¼.
T. 5 N., R. 52 E.,
Sec. 20, NW¼NW¼.

The area described contains 160 acres in Custer County.

2. At 10 a.m. on June 23, 1981, the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter, shall be considered in order of filing.

3. The lands will be open to nonmetalliferous mineral location under the United States mining laws at 10 a.m. June 23, 1981. The lands have been and continue to be open to metalliferous mineral location under the United States mining laws and to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310–84–M

43 CFR Public Land Order 5888

[OR 20233]

Oregon; Partial Revocation of Public Water Reserve No. 86

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes an Executive Order in part as to 240 acres of public lands withdrawn as a public water reserve. This action will restore the lands to operation of the public land laws generally, including nonmetalliferous mineral location under the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503–231–6905.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat.

2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of February 8, 1923, which withdrew certain lands for public water reserve purposes, is hereby revoked so far as it affects the following described public lands:

Willamette Meridian

Public Water Reserve No. 86

T. 39 S., R. 43 E.,
Sec. 11, SW¼SW¼.
T. 39 S., R. 44 E.,
Sec. 3, SE¼SE¼;
Sec. 11, E½NE¼NW¼ and W½NW¼NW¼;
Sec. 14, NW¼NE¼;
Sec. 24, E½NE¼.

The area described contains 240 acres in Malheur County.

2. At 10 a.m., on June 23, 1981, the public lands described above will be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m., on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10 a.m., on June 23, 1981, the public lands described above will be open to nonmetalliferous mineral location under the United States mining laws. The lands have been and continue to be open to metalliferous mineral location under the United States mining laws and to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310-84-M

43 CFR Public Land Order 5891

[OR 20237]

Oregon; Revocation of Public Water Reserve No. 94

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes an Executive Order which withdrew 160 acres of public land as a public water reserve. This action will restore the lands to operation of the public land laws generally, including nonmetalliferous mineral location under the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503-231-6905.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of September 25, 1925, which withdrew the following described public lands for public water reserve purposes is hereby revoked.

Willamette Meridian

Public Water Reserve No. 94

T. 20 S., R. 39 E.,
Sec. 22, N½NE¼ and NE¼NW¼;
Sec. 23, NW¼NW¼.

The area described contains 160 acres in Malheur County.

2. At 10 a.m., on June 23, 1981, the public lands will be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m., on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10 a.m., on June 23, 1981, the lands will be open to nonmetalliferous mineral location under the United States mining laws. The lands have been and continue to be open to metalliferous mineral location under the United States mining laws and to applications and offers under the mineral leasing laws.

Inquiries concerning the land should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

May 18, 1981.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA 6062]

National Flood Insurance Program; Final Flood Elevation Determinations; Correction

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Final Rule; Correction.

SUMMARY: In the Federal Register, FR Doc. 81-11032, appearing at pages 21605 thru 21617 in the issue of April 13, 1981, the heading above the table for the Final Base Flood Elevations is incorrect. The heading reads: Final Base (10-year) Flood Elevations. It should be corrected to the following:

Final Base (100-year) Flood Elevations.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, P.E. National Flood Insurance Program, (202) 755-5585, Federal Emergency Management Agency, Washington, D.C. 20472.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: May 13, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 31

[CC Docket No. 79-105; RM-3017]

Accounting for Station Connections, Optional Payment Plan Revenues and Related Capital Costs, Customer Provided Equipment and Sale of Terminal Equipment; Correction

AGENCY: Federal Communications Commission.

ACTION: Final rule, correction.

SUMMARY: The Commission has adopted amendments to its rules prescribing a uniform system of accounts for telephone companies. The Federal Communications Commission published these amendments at 46 FR 19481, March 31, 1981. This document makes necessary corrections because of omissions and inaccuracies which occurred in the preparation and printing of these amendments.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Michael Wilson, Common Carrier Bureau, (202) 632-3863.

Adopted: May 18, 1981.

Released: May 18, 1981.

In the matter of an amendment of Part 31, Uniform System of Accounts for Class A and Class B Telephone

Companies, of the Commission's Rules and Regulations with respect to accounting for station connections, optional payment plan revenues and related capital costs, customer provided equipment and sale of terminal equipment, CC Docket No. 79-105, RM-3017, errata.

On March 31, 1981, the Commission released the First Report and Order in the above-captioned proceeding (46 FR 19481; March 31, 1981). A number of inadvertent errors were contained in the rule revisions in Part 31 of the Commission's Rules, as set forth in the Appendix. The following items should be corrected to read as indicated.

On page 19490, in item 5, the Note in § 31.124 should have the words "customer provided" added after the word "connect".

On page 19491, in item 7, the second sentence of Note A in § 31.232 should have the word "not" added so that the sentence reads: "The cost of cables used in installing equipment includable in account 234, 'Large private branch exchanges,' shall be included in that account and shall *not* be included in whole or in part in account 232." Note C in this item should have the first word changed from "Provision" to "Provisional".

On page 19492, in item 11, the word "customer" in the third item in the items list in § 31.316 should be changed to "custom" and the word "same" in the fourth item should be changed to "sale".

On page 19492, in item 13, in paragraph (b) of § 31.6-61 the words "does not include" should replace the words "also includes" and the word "provided" should replace the word "owned" so that the sentence reads as follows: "The cost of repairs does not include expenses associated with the provision of repair services on customer provided telecommunications equipment. (Note also account 316)."

On page 19492, item 16, paragraph (c) of § 31.605 should have the word "disconnecting" added so that the sentence reads: "This account shall include also the cost of disconnecting or removing station apparatus and disconnecting inside wiring."

(Secs. 4, 220, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Federal Communications Commission.

BILLING CODE 6712-01-M

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

49 CFR Part 171

[Docket No. HM-22; Amdt. No. 62]

International Maritime Dangerous Goods Code; Matter Incorporated by Reference

AGENCY: Materials Transportation Bureau (MTB), Research and Special Programs Administration, DOT.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to update the reference in 49 CFR 171.7 to the International Maritime Dangerous Goods Code (IMCO Code) in order to recognize Amendments 17-79 and 18-79 to the IMCO Code. This document has been approved for incorporation by reference by the Director of the Office of the Federal Register.

EFFECTIVE DATE: June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Edward A. Altemos (202-426-0656), Office of Hazardous Materials Regulation, Materials Transportation Bureau, Department of Transportation, 400 Seventh Street, S.W., Washington, D.C. 20590. Office hours are 8:00 a.m. to 4:30 p.m. Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The Materials Transportation Bureau finds it necessary in the public interest to amend regulations in 49 CFR 171.7 to recognize Amendments 17-79 and 18-79 to the IMCO Code which have recently been published by the Inter-Governmental Maritime Consultative Organization (IMCO). These amendments promulgate numerous miscellaneous changes to the IMCO Code and address such matters as listing, classification, labeling, packaging and documentation. IMCO has established June 1, 1981, as the implementation date for these amendments. Since this rule does not impose additional requirements, notice and public procedure thereon are considered unnecessary.

In consideration of the foregoing, Title 49, Code of Federal Regulations, § 171.7(d)(17), is revised to read as follows:

§ 171.7 Matter incorporated by reference.

* * * * *

(d) * * *

(17) "International Maritime Dangerous Goods Code" (IMCO Code), Volumes I, II, III and IV, 1977 Edition, and Amendments 14-76, 15-77, 16-78, 17-79 and 18-79 thereto.

* * * * *

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53 and Appendix A to Part 1)

Note.—The Materials Transportation Bureau has determined that, since this rule does not impose additional requirements, the document will not result in a "major rule" under the terms of Executive Order 12291, nor is it a "significant regulation" under DOT's regulatory policy and procedures (44 CFR 11034). Furthermore, this rule does not require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321 et seq.). A regulatory evaluation and an environmental assessment are available for review in the docket.

Issued in Washington, D.C., on May 20, 1981.

L. D. Santman,

Director, Materials Transportation Bureau.

BILLING CODE 4910-59-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1048

[Ex Parte No. MC-37 (Sub. No. 34]

Charleston, SC, Commercial Zone

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: By petition filed November 17, 1980, the Charleston Trident Chamber of Commerce seeks redefinition and extension of the Charleston, SC, commercial zone limits which have been defined individually as set forth in 49 CFR 1048.3. Petitioner proposed to extend the partial exemption under 49 U.S.C. 10526(b)(1) of the Interstate Commerce Act to include points in Dorchester County. The present zone includes all points within 8 miles of Charleston, points in Charleston County, and a portion of Berkeley County. No statements in opposition to the petition were filed. The regulation set forth below is promulgated pursuant to the Commission's action on the evidence.

EFFECTIVE DATE: June 29, 1981.

FOR FURTHER INFORMATION CONTACT: Barbara Rue (202) 275–7919 or Edward E. Guthrie (202) 275–7691.

SUPPLEMENTARY INFORMATION: This regulation is issued under the authority of 49 U.S.C. 10321 and 49 U.S.C. 10526(b)(1) (the Interstate Commerce Act) and 5 U.S.C. 553 (the Administrative Procedure Act).

§ 1048.3 [Amended].

Accordingly, Part 1048 of Chapter X of Title 49 of the Code of Federal Regulations is amended by removing the period and inserting a semicolon at the end of paragraph 1048.3(c) and adding to the existing description the words "and all points in Dorchester County, SC".

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

James H. Bayne,

Acting Secretary.

[FR Doc. 81-15986 Filed 5-27-81; 8:45 am]

BILLING CODE 7035-01-M

49 CFR Part 1109

[Ex Parte No. 320 (Sub-No. 2)]

Market Dominance Determinations and Consideration of Product Competition

AGENCY: Interstate Commerce Commission.

ACTION: Decision.

SUMMARY: This proceeding covers two issues—revision of our market dominance regulations and possible consideration of product (including geographic) competition as an issue in rail rate cases. The proceeding stems from provisions in the Staggers Rail Act of 1980. The issue of product competition in rate reasonableness determinations must, under the terms of the Staggers Act, be resolved by May 18, 1981. As a result, the two issues have been separated for decision.

The Commission has determined not to consider product competition in determining rail rate reasonableness. A decision on the other matters raised in our **Federal Register** Notice of December 18, 1980, 45 FR 83342—namely, those with regard to revision of our market dominance regulations including the issue of product competition in this context—will be issued separately.

EFFECTIVE DATE: This action is effective June 29, 1981.

FOR FURTHER INFORMATION CONTACT: Richard Felder or Jane Mackall, (202) 275–7656.

SUPPLEMENTARY INFORMATION: In our notice in this rulemaking (45 FR 83342, 12–18–80 and 46 FR 10181, 2–2–81) we proposed to do two things: 1) amend our existing market dominance regulations (49 CFR 1109.1) and 2) determine to what extent and in what context we should consider "product competition" in a rate challenge. A proceeding to resolve this second issue was mandated by Section 205 of the Staggers Rail Act of 1980. Section 205 defines product competition such that it encompasses geographic competition as well. We did the same in the notice.

The Staggers Act requires that we issue a decision on product competition by May 18, 1981. In view of the May 18th deadline, we are deciding the product competition issue in advance of other matters raised in the notice.

We have carefully considered all the comments filed. Issues and arguments not discussed here have been analyzed and found unjustified or their discussion not necessary to resolve the limited issues addressed here.[1] We have concluded that product competition should not be considered as part of our rate reasonableness analysis. Its inclusion in our market dominance determinations will be addressed in the later decision in this proceeding.[2]

General Discussion

Product competition is defined in Section 205 of the Staggers Act as:

> [T]he availability to the consignee, at a competitive delivered cost and in sufficient quantities, of products or commodities which are of the same type as the commodity or product to which the rate in question applies, without regard to whether such products or commodities are available from the same or different origin as those to which the rate applies.[3]

In our notice, we indicated that, while we had declined to elevate evidence of product competition to the level of a rebuttable presumption of market dominance, we nevertheless had recognized it was a factor to consider in determining the extent to which railroads could exercise market power.[4] We also noted, and we continue to believe, that evidence on this subject is critical in certain cases. A finding of effective competition (i.e., the absence of market dominance) may depend on the shipper's ability to substitute one source or product for another. The shipper's ability to use alternative carriers or modes through access to substitute products or alternative geographic sources of supply may substantially affect a carrier's pricing decisions.[5]

We have two main reasons for concluding that product competition should not be a factor in our reasonableness determinations. First, as noted above, it bears on the question of effective competition—our jurisdictional limitation—and thus it is more appropriate to analyze it at this threshold stage. Second, we believe including it as a factor in a rate reasonableness determination would be inapposite and impractical because of the manner in which we currently assess a rate to be reasonable or unreasonable. Such assessments are based primarily on a comparison between the challenged rate and the cost of the movement to which it applies. In most instances, rates should be as close to costs as possible to insure efficient and

---

[1] The responses to our notice contained various motions, including requests to terminate the proceeding. As these motions were addressed to the market dominance issue, they will be resolved in the separate decision on that question.

[2] Concerns raised by the parties regarding practical application of the concept will also be addressed in the later decision.

[3] This definition thus includes geographic competition.

[4] "While certain evidence is not germane to computing market share, proponents of a rate may introduce evidence of potential competition, competition from private carriage, alternative product competition or geographic competition to show that effective competition exists." Special Proc. for Findings of Market Dominance, 359 I.C.C. 735, 736 (1979).

[5] See Railroad comments, V.S. of R.M. VanHook.

equitable pricing. Thus, our approach in prescribing maximum reasonable rates has been first to ascertain the cost of service and then to prescribe rates in terms of their relationship to cost. See Ex Parte No. 347 (Sub-No. 1), Coal Rate Guidelines—Nationwide, served November 18, 1980, and *Aggregate Volume Rate on Coal, Acco, Utah to Moapa, Nevada,* —— I.C.C. ——, served February 9, 1981.

Given the manner in which a rate is assessed, consideration of product competition would be difficult to quantify and would provide no additional insight since it has little, if any, bearing on the costs of a movement. Further, it would be of little or no use in evaluating those situations where rates in excess of costs are justified on efficiency grounds (e.g. common cost allocation). While the railroad commenters urge that it should be included, they offer no suggestions as to how it would relate to rate reasonableness based on cost analysis or how it could be quantified, and we cannot at his point develop a conceptual and practical framework for considering it.

There appears to be some confusion among the commenters regarding this issue. Bethlehem Steel Corp. and FMC Corp., for example, consider the product competition factor analogous to rate comparisons used in the past to judge reasonableness. The Bethlehem Steel Corp. argues that "the significance of product competition is a reaffirmation of the traditional concept that the primary standard for determining . . . reasonableness . . . is the comparison of rates applicable for similar traffic in the same territory". FMC Corp. suggests that the theory of product competition would compel us to equalize rates from different sources to the same destination. This interpretation is not germane to the issue of rate reasonableness as it applies to the concept of efficient and equitable (as opposed to equal) pricing. While it is true that product or source competition will restrain excessive pricing by railroads, this in no way implies that rates from different sources to the same destination would or should be equalized.

Product competition, as properly interpreted, would be of some relevance if rate comparison evidence were used to gauge the reasonableness of a rate. However, we have rejected use of rate comparisons as the primary test of reasonableness in favor of cost analysis. The 4R Act and the Staggers Act require us to consider railroad revenue need. Rate comparisons, standing alone, fail to reflect this consideration as they do not indicate whether rates are sufficiently high to cover costs. In a rate comparison, rates subject to product or any other form of competition could, theoretically be used as a standard to evaluate a challenged rate, the assumption being that such rates are, by definition, reasonable. Such an analysis, however, would tell us nothing about the adequacy of rates in terms of the revenue needs of a railroad. A rate could be competitive and, therefore, reasonable and, at the same time, insufficient to cover the costs of the movement to which it applies. Since cost analysis serves both purposes, its general usage is not only more practical but helps insure consistency between rate reasonableness and revenue need determinations.

Based on the foregoing, we conclude that product competition should not be included in our analysis of the reasonableness of a challenged rate. We are unable to develop a conceptual and practical framework to reflect the manner in which the existence of substitute products or alternative sources of supply relate to the relationship between a challenged rate and the cost of the movement to which it applies. In view of our tentative conclusions in Ex Parte No. 347 (Sub-No. 1), *supra,* and the record developed here, we conclude that consideration of product competition would be unsuitable for rate reasonableness determinations.

This decision will not significantly affect the quality of the human environment or conservation of energy resources.

(Section 205, Staggers Rail Act of 1980, 49 U.S.C. 10321, 10709, 5 U.S.C. 553.)

Dated: May 14, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Proposed Rules

Federal Register
Vol. 46, No. 102
Thursday, May 28, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Issuance of Quarterly Report on Proposed Rules

AGENCY: Nuclear Regulatory Commission.

ACTION: Issuance of Quarterly Report.

SUMMARY: The Nuclear Regulatory Commission has issued the April 30, 1981, Quarterly Report on Proposed Rules. The Report, which is a quarterly summary of proposed rules that are pending final action, is issued to provide the public with information regarding NRC's rulemaking activities.

ADDRESSES: A copy of this report, designated NRC Status of Proposed Rules—April 30, 1981, is available for inspection and copying at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C.

Requests for single copies of the report, or a request to be placed on an automatic distribution list for single copies of future reports, should be made in writing to the Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

FOR FURTHER INFORMATION CONTACT: John Philips, Chief, Rules and Procedures Branch, Office of Administration, Telephone 301–492–7086.

Dated at Bethesda, Maryland this 20th day of May 1981.

For the Nuclear Regulatory Commission.

J. M. Felton,

Director, Division of Rules and Records, Office of Administration.

[FR Doc. 81-15981 Filed 5-27-81; 8:45 am]
BILLING CODE 7590-01-M

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 329

NOW Account Eligibility

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Proposed interpretation.

SUMMARY: The FDIC is requesting comment from the public on a proposal made by the Board of Governors of the Federal Reserve System. This proposal seeks to clarify the rules concerning the class of depositors eligible to maintain Negotiable Order of Withdrawal (NOW) accounts. This proposed interpretation is prompted by requests from nonmember banks and their customers for rulings and opinions concerning the eligibility for NOW accounts.

DATE: Comments must be received by June 29, 1981.

ADDRESS: Comments should be addressed to Hoyle L. Robinson, Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429.

FOR FURTHER INFORMATION CONTACT: F. Douglas Birdzell, Counsel (202/389–4261), or Kathy A. Johnson, Attorney (202/389–4384), Legal Division, Federal Deposit Insurance Corporation, 550 17th Street, N.W., Washington, D.C. 20429.

SUPPLEMENTARY INFORMATION: The Consumer Checking Account Equity Act of 1980 (Title III of Pub. L. 96–221) ("Act") authorizes depository institutions (except credit unions which are authorized to offer share draft accounts) nationwide, effective December 31, 1980, to permit the owner of a deposit or account on which interest or dividends are paid, to make withdrawals by negotiable or transferable instruments for the purpose of making transfers to third parties (12 U.S.C. 1832(a)(1)). Presently, under Part 329, insured nonmember banks may offer NOW accounts to (1) individuals, (2) organizations operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes and not operated for profit, and (3) public units operated primarily for charitable, educational, or other similar purposes.

The FDIC has received a significant number of requests from insured nonmember banks and their customers for rulings and opinions concerning NOW account eligibility since the enactment of the Act. In many instances these requests have required the consideration of subtle distinctions that are not altogether practical for application on a uniform basis by a large number of depository institutions. In order to alleviate problems that have risen among insured nonmember banks concerning the class of depositors eligible to hold NOW accounts, the FDIC believes it is appropriate at this time to simplify and clarify the rules concerning NOW account eligibility.

The Federal Reserve has issued a proposed interpretation of Regulation Q which would clarify the eligibility requirements for NOW accounts. (Regulation Q authorizes member banks to offer NOW accounts.) This interpretation would provide that the following depositors are eligible to hold NOW accounts: (1) individuals, if the funds are not used primarily for business purposes, (2) nonprofit organizations described in Section 501(c) (3) through (13) and (19) and Section 528 of the Internal Revenue Code, and (3) public units, if the funds are funds of schools, colleges, universities, libraries, or hospitals. Under this interpretation, all businesses that are operated for profit, including sole proprietorships (which would also be excluded from eligibility for Automatic Transfer Service accounts (ATS accounts)), partnerships, corporations, and other organizations, and most public units would not be permitted to maintain NOW accounts. The Federal Reserve has also proposed a phaseout of all NOW and ATS accounts opened prior to April 8, 1981 which were eligible for those accounts at that time, but which would become ineligible upon the adoption of the proposed interpretation. These accounts could be maintained until December 31, 1981. These proposals were published in a notice on pages 22600–22602 of the **Federal Register** of April 20, 1981, and reference should be made to that notice for a more detailed explanation of the interpretation, its basis, and purpose.

Since the FDIC believes that clarification of the eligibiity requirements for NOW accounts is necessary, it is inviting interested parties to comment on the Federal Reserve's proposed interpretation and would also be interested in comments

on any alternative interpretations which would facilitate the determination of eligibiity for NOW accounts under Part 329 in an equitable manner. Any comments on the exclusion of sole proprietorships from ATS account eligibility and the proposed phaseout are also requested.

It should be noted that the FDIC does not propose to change the existing policy concerning eligibility for traditional passbook and statement savings accounts. Comments will assist the FDIC in the coordination of its NOW account eligibility policy with the other Federal financial institution regulatory agencies.

By order of the Board of Directors, May 18, 1981.

Hoyle L. Robinson,

Executive Secretary.

BILLING CODE 6714-01-M

FEDERAL TRADE COMMISSION

16 CFR Part 13

[File No. 782 3052]

Zale Corp.; Proposed Consent Agreement With Analysis To Aid Public Comment

AGENCY: Federal Trade Commission.

ACTION: Proposed Consent Agreement.

SUMMARY: In settlement of alleged violations of federal law prohibiting unfair acts and practices and unfair methods of competition, this consent order, accepted subject to final Commission approval, would require, among other things, that a Dallas, Texas retailer cease, in connection with the extension of open end credit, failing to comply with the billing error resolution procedures required by federal law. The firm would be required to send a prescribed "Billing Complaint Form" to specified customers and upon receipt of such forms, investigate each billing error claim and either refund or credit the amount in error, or provide the customer with proof that the claim was incorrect; take reasonable steps to correct any erroneous credit report; and pay all unpaid credit balances which existed after April 1, 1975, plus daily interest. The order would also require the firm to include a specified disclosure on all future periodic statements which reflect a credit balance, and pay all credit balances upon written request, or automatically after 7 months if no request has been made.

DATE: Comments must be received on or before July 27, 1981.

ADDRESS: Comments should be directed to: Office of the Secretary, Federal Trade Commission, 6th St. and Pennsylvania Ave., NW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: FTC/P, James H. Sneed, Washington, D.C. 20580, (202) 523-3727.

SUPPLEMENTARY INFORMATION: Pursuant to Section 6(f) of the Federal Trade Commission Act, 38 Stat. 721, 15 U.S.C. 46 and § 2.34 of the Commission's rules of practice (16 CFR 2.34), notice is hereby given that the following consent agreement containing a consent order to cease and desist and an explanation thereof, having been filed with and accepted, subject to final approval, by the Commission, has been placed on the public record for a period of sixty (60) days. Public comment is invited. Such comments or views will be considered by the Commission and will be available for inspection and copying at its principal office in accordance with Section 4.9(b)(14) of the Commission's rules of practice (16 CFR 4.9(b)(14)).

[File No. 782 3052]

Zale Corp., a Corporation, Agreement Containing Consent Order To Cease and Desist

The Federal Trade Commission having initiated an investigation of certain acts and practices of Zale Corporation, a corporation, and it now appearing that Zale Corporation, a corporation, hereinafter sometimes referred to as respondent or proposed respondent, is willing to enter into an agreement containing an order to cease and desist from the use of the acts and practices being investigated,

It is hereby agreed by and between Zale Corporation, by its duly authorized officer and attorney, and counsel for the Federal Trade Commission that:

1. Proposed respondent Zale Corporation is a corporation organized, existing and doing business under and by virtue of the laws of the State of Texas, with its office and principal place of business located at 3000 Diamond Park Drive, in the City of Dallas, State of Texas.

2. Proposed respondent admits all the jurisdictional facts set forth in the draft of complaint here attached.

3. Proposed respondent waives:

(a) Any further procedural steps;

(b) The requirement that the Commission's decision contain a statement of findings of fact and conclusions of law; and

(c) All rights to seek judicial review or otherwise to challenge or contest the validity of the order entered pursuant to this agreement.

4. This agreement shall not become a part of the public record of the proceeding unless and until it is accepted by the Commission. If this agreement is accepted by the Commission it, together with the draft of complaint contemplated thereby, will be placed on the public record for a period of 60 days and information in respect thereto publicly released. The Commission thereafter may either withdraw its acceptance of this agreement and so notify proposed respondent, in which event it will take such action as it may consider appropriate, or issue and serve its complaint (in such form as the circumstances may require) and decision, in disposition of the proceeding.

5. This agreement is for settlement purposes only and does not constitute an admission by proposed respondent that the law has been violated as alleged in the draft of complaint here attached.

6. This agreement contemplates that, if it is accepted by the Commission, and if such acceptance is not subsequently withdrawn by the Commission pursuant to the provisions of § 2.34 of the Commission's rules, the Commission may, without further notice to proposed respondent, (1) issue its complaint corresponding in form and substance with the draft of complaint here attached and its decision containing the following order to cease and desist ("Order") in disposition of the proceeding, and (2) make information public in respect thereto. When so entered, the Order shall have the same force and effect and may be altered, modified or set aside in the same manner and within the same time provided by statute for other orders of the Commission. The Order shall become final upon service. Delivery by the U.S. Postal Service of the compliant and decision containing the Order, to proposed respondent's address as stated in this agreement, shall constitute service. Proposed respondent waives any right it may have to any other manner of service. The complaint may be used in construing the terms of the Order, and no agreement, understanding, representation, or interpretation not contained in the Order or in this agreement may be used to vary or contradict the terms of the Order.

7. Proposed respondent has read the proposed complaint and Order. It understands that once the order has been served (1) it will be required to file two or more compliance reports showing it has fully complied with the Order and

(2) it may be liable for civil penalties in the amount provided by law for each violation of the Order.

Order

I

It is ordered, That respondent Zale Corporation, a corporation, its successors and assigns, and respondent's officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with any extension of "open end credit," including "consumer credit" extended on an account by use of a "credit card," as those terms are defined in Regulation Z (12 CFR Part 226), the implementing regulation of the Truth in Lending Act (15 U.S.C. 1601 et seq., as amended), do forthwith cease and desist from:

A. Failing, within 30 days after receipt of any proper written notification of a billing error (as defined in Regulation Z), to mail or deliver a written acknowledgment thereof to the customer's current designated address, as prescribed by § 226.14(a)(1) of Regulation Z, 12 CFR 226.14(a)(1), unless:

1. the customer has agreed, within such 30-day period, that the periodic statement is correct; or

2. respondent has taken the applicable action specified in Paragraph I.B.1–3 of this Order within such 30-day period.

B. Failing, not later than two complete billing cycles (and in no event more than 90 days) from the date of receipt of any proper written notification of a billing error, to resolve the dispute by:

1. Correcting the customer's account in the full amount indicated by the customer to have been erroneously billed, and mailing or delivering to the customer a written notification of correction(s) in the manner prescribed by § 226.14(a)(2)(i) of Regulation Z, 12 CFR 226.14(a)(2)(i); or

2. Correcting the customer's account by an amount different from that indicated by the customer as being erroneously billed, and mailing or delivering to the customer a written explanation of the change(s), accompanied by copies of documentary evidence of the customer's indebtedness if such evidence is requested by the customer, in the manner prescribed by § 226.14(a)(2)(ii) of Regulation Z, 12 CFR 226.14(a)(2)(ii); or

3. Mailing or delivering to the customer, after having conducted a reasonable investigation, a written explanation or clarification which sets forth the reason(s) why respondent believes the periodic statement is correct, and, if the customer requests, furnishing copies of documentary evidence of the customer's indebtedness, in the manner prescribed by § 226.14(a)(2)(iii) of Regulation Z, 12 CFR 226.14(a)(2)(iii).

Provided, however, That respondent need not perform the actions specified in this Paragraph I.B if the customer has agreed, not later than two complete billing cycles (and in no event more than 90 days) from the date of respondent's receipt of the proper written notification of a billing error, that the periodic statement is correct.

C. Taking or causing any action, prior to the time the dispute has been resolved as provided in Paragraph I.B. of this Order, to collect:

1. any portion of an amount indicated in the customer's notification as being a billing error; or

2. any finance charge, late payment charge, or other charge computed on such disputed amount.

D. Failing, in each instance where respondent has not complied with any requirement of § 226.14 of Regulation Z, 12 CFR 226.14, to forfeit the right to collect from the customer the amount indicated to be a billing error, including corresponding finance and other charges, up to $50 (the "forfeited amount"), as required by § 226.14(f)(1) of Regulation Z, 12 CFR 226.14(f)(1); and

1. If the customer pays or has paid all or part of the forfeited amount, to either credit that amount to the customer's account or refund it to the customer, and notify the customer as to why the credit or refund has been made; or

2. If the customer has not paid all or part of the forfeited amount, to act in a manner consistent with such forfeiture, including, but not limited to, continuing to reflect such amount in periodic statements, taking any collection action, or reporting nonpayment to any third party, and include an explanation, where appropriate, of what action has been taken.

E. Failing to comply with any requirement of § 226.14 of Regulation Z, as amended, 12 CFR 226.14, as amended.

F. Failing to mail or deliver to each customer who has an open end credit account, for each billing cycle at the end of which there is an outstanding debit or credit balance in excess of $1.00 in that account or with respect to which a finance charge is imposed, a statement which the customer may retain and which:

1. Sets forth the amount of the outstanding balance in the account at the beginning and closing dates of the billing cycle, and appropriately identifies any credit balance as such, as required by § 226.7(b)(1) (i) and (ix) of Regulation Z, 12 CFR 226.7(b)(1) (i) and (ix);

2. Sets forth the amounts and dates of crediting to the account during the billing cycle, as required by § 226.7(b)(1)(iii) of Regulation Z, 12 CFR 226.7(b)(1)(iii);

3. Sets forth an address to be used by respondent for the purpose of receiving billing inquiries from customers, preceded by the caption "Send Inquiries To:" indicating that the address is the proper location to send such inquiries, as required by § 226.7(b)(1)(x) of Regulation Z, 12 CFR 226.7(b)(1)(x); and

4. Sets forth all other items required by § 226.7(b) of Regulation Z, 12 CFR 226.7(b), in the manner prescribed by Section 226.7(c) of Regulation Z, 12 CFR 226.7(c).

G. Failing to comply with any requirement of § 226.7(a)(9), (d), (g), and (h) of Regulation Z, 12 CFR 226.7(a)(9), (d), (g), and (h).

II

It is further ordered, That respondent:

A. Shall prepare a form (hereinafter referred to as Billing Complaint Form) in exactly the wording set forth in Attachment A of this Order (except that the name of the issuing entity may change as appropriate), printed clearly and conspicuously in 10-point, .075 inch computer or larger type. This form shall be mailed in duplicate, accompanied by a pre-addressed return envelope, with no additional information to the contrary or in mitigation thereof, within 120 days after service upon it of this Order:

1. To each person to whom a periodic statement is mailed or delivered at any time during either of two consecutive billing cycles within the aforesaid 120-day period;

2. To each other person whose open end credit account has been administered by or assigned to respondent's Zale Division Central Credit Offices in Seattle, Washington, and Portland, Oregon, at any time between October 28, 1975, and the date of service of this Order: *Provided,* That where an account has been maintained in the names of more than one person, respondent may send one Billing Complaint Form; and

3. To each other person who makes a written complaint, other than a proper written notification of a billing error (as defined in Regulation Z), about a billing error that occurred on or after October 28, 1975, but before the date of service of this Order upon respondent: *Provided,* That if respondent receives such a written complaint more than 120 days after service upon it of this order,

respondent must mail the Billing Complaint Form within 30 days of receiving such complaint.

B. Shall send to all of respondent's retail store and credit center personnel, within 10 days from the date of publication in the **Federal Register** of the agreement containing this Order, a bulletin which instructs them that in the event they receive an oral complaint about a billing error that occurred on or after October 28, 1975, but before the date of service of this Order upon respondent, each such complainant is to be advised (1) to make the complaint in writing, and (2) to whom such complaint is to be mailed or otherwise delivered.

C. Shall, within 60 days after receipt of each Billing Complaint Form:

1. Conduct and complete a reasonable investigation of the claimed billing error(s).

2. If the claimed billing error(s) is (are) incorrect, mail or deliver a written explanation to the customer setting forth the reason(s) why respondent believes the customer was mistaken, and furnish copies of all documents which support respondent's conclusion.

3. If the claimed billing error(s) is (are) correct in whole or part, or if respondent does not have documentary evidence showing that such claim(s) is (are) incorrect:

a. Mail a check to the customer in the amount of the billing error(s); or

b. If an account for the customer exists, make a credit to the customer's account in the amount of the billing error(s); or

c. Open an account for the customer if no account exists therefore at that time, if the customer consents in writing to an account being opened, and make a credit to that account in the amount of the billing error(s).

4. If respondent makes a payment or credit pursuant to Paragraph II.C.3 of this Order, and the customer has indicated on the Billing Complaint Form that a disputed account has been reported to any third party as delinquent, correct respondent's records to show that the account was paid as agreed, and take reasonable steps to insure that the report to any third parties is corrected: *Provided,* The customer submits his/her address and account number or other information to enable respondent to identify such party (parties).

5. Notify the customer in writing of the action(s) taken pursuant to this Paragraph II.C. For purposes of this subparagraph, respondent may place the required writing, *inter alia,* on a check, payment voucher attached to a check, or on the front or reverse of a periodic statement.

III

It is further ordered, That respondent Zale Corporation, a corporation, its successors and assigns, and respondent's officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in the handling of credit balances arising subsequent to service of this Order, on open end credit accounts created or maintained in connection with the sale of merchandise or services to the public, in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, shall:

A. Include the following disclosure clearly and conspicuously in 10-point, .075 inch computer or larger type, separated from any other written matter, entirely on the front side of each periodic statement reflecting a credit balance, and accompanied by a pre-addressed return envelope:

To get your credit balance now, write "I want a refund" on this statement. Mail it back to us in the enclosed envelope.

B. Refund the full amount of each credit balance within 30 days after a customer requests a refund by mail, except to the extent that such amount has already been refunded or credited against further purchases on that account.

C. Refund the full amount of each credit balance in excess of $1.00 no later than 30 days after the end of the sixth consecutive month during which a credit balance existed. The amount to be refunded shall be the credit balance existing at the end of the sixth month.

D. Refrain from writing off, deleting or transferring any credit balance in excess of $1.00 until a refund has been made or until the customer has made a fully offsetting purchase, unless respondent has taken all applicable actions required by Parts III and V.B of this Order with respect to that account.

E. Refrain from writing off, deleting or transferring any credit balance of $1.00 or less until:

1. The customer has made a fully offsetting purchase; or

2. The credit balance has existed for seven consecutive months and the customer has been advised at least once in writing that such credit balance will be forfeited after it has existed for seven months unless a refund is requested by the customer.

F. Send to all of respondent's retail store and credit center personnel, within 10 days from the date of publication in the **Federal Register** of the agreement containing this Order, a bulletin which instructs them that in the event they receive a request for a refund of a credit balance they are to advise the person requesting such refund (1) to make the request in writing, and (2) to whom such request is to be mailed or otherwise delivered.

IV

It is further ordered, That respondent shall, with respect to each customer whose open end account had a credit balance in excess of $1.00 at any time between April 1, 1975, and the date of service of this Order (if such balance has not been refunded, no fully offsetting purchase has been made, or the attempts to locate the customer described in Part V.B of this Order have not been made):

A. Mail a check to the customer in the amount of the credit balance, including daily interest on such amount from the date of its creation, computed at an annual rate of 6 percent (simple) interest, no later than 90 days after the service of this Order.

Provided, however, That respondent need not pay interest on any credit balance for which a refund check in the amount of the credit balance was mailed by respondent to the customer prior to August 4, 1978.

B. Notify the customer in writing that the check represents a refund of the credit balance, plus interest on the credit balance (if any). This notification must be placed on the check, on the payment voucher attached to the check, or on a notice sent with the check.

C. Refrain from writing off, deleting or transferring any such credit balance until a refund has been made or the customer has made a fully offsetting purchase, unless respondent has taken all applicable actions required by Parts IV and V.B of this Order with respect to that account.

V

It is further ordered, That:

A. Each payment required by this Order shall be given to the customer in person or by mailing a check payable to the order of the customer.

B. Each check, Billing Complaint Form, disclosure, or notice required by this Order shall be sent by First Class mail in an envelope which clearly states that it is from respondent (or the entity of respondent which the customer did business with), to the customer's last address shown in respondent's records. Each check required to be sent by this Order, and each Billing Complaint Form required to be sent by Paragraphs II.A.2 and II.A.3. of this Order, shall include the notation "Address Correction Requested" on the envelope. In the event that any such check, disclosure or

notice concerning a credit balance or payment in the amount of $10 or more is returned to respondent undelivered, respondent shall obtain from a credit bureau the most current address(es) available for the customer by means of an in-file report or other report on information then existing in the credit bureau's files. If a new address is obtained, respondent shall then resend such check, disclosure, or notice by First Class mail to the customer at the most current address obtained.

C. For each credit balance refund unpaid despite performance of the steps set out in Paragraph V.B of this Order, respondent:

1. Shall, except as provided in Paragraph V.C.2 of this Order, make available to the customer as a credit to his/her account the full amount of the credit balance for one year from the date on which the most recent mailing was returned; and

2. Shall refund the full amount of the credit balance within 30 days of any subsequent oral or written request therefor by the customer.

VI

It is further ordered, That responent shall maintain complete business records relative to the manner and form of its continuing compliance with this Order, including but not limited to (1) the data enumerated in Paragraph VII.E of this Order; (2) the number and dollar amount of credit balances refunded, on an annual basis; and (3) the name and address of each customer who requested a refund of a credit balance but whose request was refused, the date and amount of the request, and the date and reason(s) for the refusal. With respect to Paragraphs I.A–I.D of this Order, such records shall include every written notification of billing error respondent received, copies of all notices, corrections and correspondence mailed or delivered in response thereto, documentation of "reasonable investigations," and all other evidence of compliance. Respondent shall retain all such records and data for at least three years and shall, upon reasonable notice, make them available for examination and copying by representatives of the Federal Trade Commission.

VII

It is further ordered, That:

A. For the purposes of this Order, every reference to the Truth in Lending Act or Regulation Z are understood to mean "as amended." "As amended" includes substantive as well as nonsubstantive (such as organizational) revisions to the current Act and Regulation.

B. Respondent shall forthwith distribute a copy of this Order to each of its operating divisions, and to all present and future personnel having policy responsibilities with respect to the subject matter of this Order, including but not limited to the manager of each central credit office and the manager of each retail store which handles its own billings or receives billing complaints.

C. Respondent shall notify the Commission at least 30 days prior to:

1. Any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation; and

2. Any other change in the corporation, including the creation or dissolution of subsidiaries, which may affect compliance obligations arising out of this Order.

D. Respondent shall file with the Commission, within 60 days after service of this Order, a written report setting forth in detail the manner and form in which it has complied with this Order.

E. Respondent shall file with the Commission, within 180 days after service of this Order, a written report setting forth all of the following data for each of its operating divisions:

1. The number and dollar amounts of credit balances which, pursuant to Paragraph IV of this Order, were:

a. Refunded;

b. Offset by further purchases made on the customer's account; and

c. Retained by respondent because the customer could not be located.

2. The number of Billing Complaint Forms received from customers pursuant to Part II of this Order.

3. The number and dollar amounts of payments made to customers and credits made to customers' accounts pursuant to Part II of this Order.

4. The number of Billing Complaint Forms received from customers pursuant to Part II of this Order for which no payments were made to customers and no credits were made to customers' accounts.

5. The number of Billing Complaint Forms received from customers pursuant to Part II of this Order which indicated that a disputed account has been reported to any third party as delinquent, and the names and addresses of all third parties respondent contacted pursuant to Part II of this Order.

Attachment A to Zale Corporation Order; Important Notice

This notice deals with mistakes we may have made in your bills since October 28, 1975. If you wrote to us about possible billing errors, we may not have handled your complaint as we should have under federal law.

If there was a mistake and we have not yet corrected it, we will do so now. We may also owe you money.

Please fill in the accompanying form. Be sure to include your name, account number and address. After you fill in the form, sign it, date it and send it back to us in the attached envelope. A copy of the form is also attached for your records. Please send copies of all letters, bills and other papers dealing with any billing errors. Keep the originals.

But be sure to send us this form even if you don't have other papers. If you can't remember the exact dates or amounts, please estimate.

1. My bill of ———— contained a mistake or month/year $——— which was never corrected.
The mistake was ————

(If we made more than one mistake, list the others on another piece of paper and explain in detail. Be sure to put your name on each piece of paper.)

2. If you think this mistake hurt your credit rating, we will tell the credit bureau that Zale settled the dispute in your favor.

Please provide as much of the following information as you can:

The city and state you lived in when the mistake on your bill occurred.

The location of the Zale store or Zale credit office involved.

The name and address of the credit bureau in that area, if you know.

Analysis of Proposed Consent Order To Aid Public Comment

The Federal Trade Commission has accepted an agreement to a proposed consent order from Zale Corporation of Dallas, Texas.

The proposed complaint and consent order have been placed on the public record for 60 days to receive comments by interested persons. Comments received during this period will become part of the public record. After 60 days, the Commission will review the agreement and any comments received, and decide whether it should withdraw from the agreement or make final the agreement's proposed order.

The Commission's complaint charges that Zale, a nationwide retailer of jewelry, footwear, sundries, and sporting goods, violated the billing error resolution procedures required by the Fair Credit Billing Act amendments to the Truth in Lending Act. The Act requires a creditor, after receipt of a consumer letter that claims a billing error, to conduct a reasonable investigation and to resolve the dispute within 30 days; or to acknowledge the letter within 30 days, conduct a reasonable investigation and resolve the dispute within two billing cycles.

The complaint also alleges that Zale did not always mail periodic statements to customers when their accounts had credit balances; and that Zale kept credit balances unless customers requested a refund. The first two charges allege violations of the Truth in Lending Act and the Federal Trade Commission Act; the third charge alleges violations of the Federal Trade Commission Act.

The proposed order requires Zale to correct these practices in the future and to take steps to ensure that instances of past violations are corrected. To remedy past failures to correct billing errors, Zale must send a "Billing Complaint Form" to customers asking if Zale ever failed to correct any mistakes on their bills. Zale will mail the Billing Complaint Form to three groups of people: (1) To all current, active accounts; (2) to people whose accounts were handled at any time after October 28, 1975 by Zale's credit offices in Seattle, Washington, and Portland, Oregon (where the alleged violations came to light); and (3) to anyone who writes to Zale about a billing error that occurred before this order becomes final. The Billing Complaint Form also asks whether an uncorrected billing error hurt the customer's credit rating.

Upon receipt of a Billing Complaint Form, Zale must investigate each claim about an uncorrected billing error. If the customer's claim is correct, or Zale does not have documentary evidence showing the claim to be incorrect, Zale must refund or credit the amount of the error. If Zale has documentary evidence that the customer's claim is incorrect, Zale must inform the customer in writing and include copies of the supporting documents.

Where Zale makes a payment or credit and the customer has indicated on the Billing Complaint Form that the dispute with Zale hurt his or her credit rating, Zale must correct its own records to show the account was paid as agreed. Zale must also take reasonable steps to correct any report of the dispute which may have been made to any third party, such as a credit bureau.

Zale must correct past failures to pay credit balances by paying all unpaid credit balances which existed at any time after April 1, 1975, plus daily interest. In the future, Zale will include the following message on all periodic statements that reflect a credit balance: "To get your credit balance now, write 'I want a refund' on this statement. Mail it back to us in the enclosed envelope." Zale must also pay all future credit balances upon written request or automatically after the credit balance has existed for 7 months.

The purpose of this analysis is to encourage and facilitate public comment on the proposed order. It is not intended to constitute an official interpretation of the agreement and proposed order or to modify their terms in any way.

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Parts 1610 and 1611

Standards for the Flammability of Clothing Textiles and Vinyl Plastic Film; Proposed Interpretations, Clarifications, and Exemption

AGENCY: Consumer Product Safety Commission.

ACTION: Proposed rule.

SUMMARY: The Commission proposes to amend the regulations implementing the standards for the flammability of clothing textiles and vinyl plastic film to explain how test results should be interpreted and how the standards should be applied to multilayer fabrics, especially fabrics with an exposed layer of film. The Commission is proposing this rule because it has received a number of inquiries about how these flammability standards should be applied and interpreted. The proposal would also exempt the outer layer of film or coated fabric of disposable diapers from the requirement of these standards that this layer be tested separately from the remainder of the diaper. Thus, the flammability tests of these standards would be performed only on the full thickness of the disposable diaper. This exemption is being proposed in response to a petition from the Procter & Gamble Company for a flammability standard applicable specifically to disposable diapers. The exemption would ensure that unwarranted and expensive changes to presently produced disposable diapers will not be required as a result of the Commission's proposed interpretation of the applicability of these standards.

DATES: Interested persons may submit written data, views, or arguments concerning the proposal by July 27, 1981.

If requested, there will be an opportunity for the oral presentation of data, views, or arguments on July 7, 1981. Persons who wish to present oral comments must notify Richard Danca in the Office of the Secretary, Consumer Product Safety Commission, third floor, 1111 18th Street NW., Washington, D.C. 20207 by June 30, 1981 (telephone: 202-634-7700). The oral presentation will be held in the third floor conference room at the above address.

The amendments are proposed to become effective 60 days after publication of any final amendments in the **Federal Register.**

ADDRESSES: Comments should be addressed to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207.

Copies of the staff briefing package and any other documents relating to the proposal may be obtained from, or inspected at, the Office of the Secretary, Consumer Product Safety Commission, third floor, 1111 18th Street NW., Washington, D.C. 20207.

FOR FURTHER INFORMATION CONTACT:
Harleigh Ewell, Office of the General Counsel, Consumer Product Safety Commission, Washington, D.C. 20207, phone (202) 634–7770.

SUPPLEMENTARY INFORMATION:

A. Background

The Flammable Fabrics Act as originally enacted became effective July 1, 1954 (Pub. L. 83–88, 67 Stat. 111–15), and incorporated the flammability requirements of Commercial Standard 191–53 and Commercial Standard 192–53 as mandatory flammability standards for wearing apparel and fabric intended for use in wearing apparel. These standards are intended to prohibit fabrics and articles of wearing apparel that have rapid and intense burning characteristics.

CS 191–53 was a voluntary commercial standard entitled "Flammability of Clothing Textiles," and CS 192–53 was a voluntary commercial standard entitled "General Purpose Vinyl Plastic Film." The flammability requirements of these standards became mandatory by virtue of the Flammable Fabrics Act.

As amended in 1967 by Pub. L. 90–189 (81 Stat. 568–574), the Flammable Fabrics Act (FFA), 15 U.S.C. 1191–1204, no longer specifically refers to CS 191–53 or CS 192–53. However, Pub. L. 90–189 contains a "savings clause" (section 11) which continues the applicability of any standard in effect under the original Act until the standard is superseded or modified. Since neither CS 191–53 nor CS 192–53 has been superseded or modified since the Flammable Fabrics Act was amended in 1967, CS 191–53 and CS 192–53 continue to be mandatory flammability standards for wearing apparel and fabric intended for use in wearing apparel.

CS 191–53 is now codified at 16 CFR Part 1610, Subpart A, and CS 192–53 is codified at 16 CFR Part 1611, Subpart A. Since the text of the original Flammable Fabrics Act contains flammability standards that are continued in effect by the "savings clause" of Pub. L. 90–189, the text of the original Act, as amended in 1954, has been codified at 16 CFR Part 1609.

Part 1610 (CS 191–53) is applicable to "textile fabric," which is defined as any coated or uncoated material subject to the Act, except "film" and fabrics with a nitro-cellulose fiber, finish, or coating. Part 1611 is applicable to film, which is defined in § 1611.31(i), and to fabrics having a nitro-cellulose fiber, finish, or coating. Coated fabrics, except those with a nitro-cellulose coating, may be tested under either Part 1610 or 1611.

A general description of Parts 1610 and 1611 is given below.

Part 1610 (CS 191–53). This Part requires 5 specimens, each 6 in. by 2 in., for each test. The samples to be tested have the long dimension of the specimens parallel with the lay of the surface fibers for textiles having a raised-fiber surface, and have the long dimension in the most rapidly burning direction for other textiles. If, in preliminary tests, the fabric does not ignite, is very slow burning, or should have a fire-retardant finish, the fabric should be tested both in its original condition and after a specified dry cleaning and washing procedure. The specimens are than cut, placed in a specimen holder, and conditioned by being heated in an oven for 30 minutes at 221°F (105°C) and then placed in a dessicator until cool.

The test apparatus holds the specimen holder at a 45 degree angle and applies a gas flame to the bottom portion of the specimen for 1 second. The aparatus starts a stopwatch when the flame is applied to the specimen, and the time required for the flame to burn along the specimen and then through a stop cord that stops the stopwatch is recorded.

The Flammable Fabrics Act, as enacted in 1953 and amended in 1954, prohibits the manufacturer for sale, offering for sale, importation, or distribution in commerce of any article of wearing apparel, or any item of fabric intended for use in wearing apparel, exhibits "rapid and intense burning" when tested in accordance with Part 1610. The standard classifies results as "rapid and intense burning" (that is, failing) when testing of a plain surface fabric yields a time of flame spread of less than 3.5 seconds, or when testing of a raised surface yields a time of flame spread of less than 4 seconds with ignition of the base fabric.

Section 1610.4(g)(7) states that the results shall be calculated as follows.

> The time of flame spread of the textile is taken as an average time for 5 specimens * * *. If the time of flame spread is less than 4.0 [3.5 for plain-surface fabrics] seconds or if the specimens do not burn, test 5 additional specimens. The time of flame spread is then taken to be the average time for the 10 specimens or for as many of them as burn. (Footnote omitted.)

Regulations implementing this standard (16 CFR 1610.35(a)) provide that any fabric which in its normal and customary use as wearing apparel would not be dry cleaned or washed need not be tested after being dry cleaned or washed, but if not so tested, the fabric or article of wearing apparel must be labeled "Fabric will be dangerously flammable if dry cleaned or washed."

Part 1611 (CS 192–53). Part 1611 uses 3 in. by 9 in. specimens, 5 of which are taken lengthwise, and 5 of which are taken transverse, to the direction of processing of the film or coated fabric. The test appartatus is somewhat similar to that of Part 1610, except that the bottom portion of the specimenholder is bent so that it is vertical and the flame impinges on the vertical surface. The burning rate is determined by a stop clock operated through microswitches mounted on the specimenholder rack. The clock is started when the flame burns through a first thread and is stopped when the flame burns through a second thread, located 6 inches from the first thread at the top of the holder.

Part 1611 provides that "[t]he rate of burning shall not exceed 1.2 in/sec as judged by the average of five determinations lengthwise and five determinations transverse." A procedure is also provided that eliminates doubtful test results that differ by a wide margin from the other test results.

Over the years, the Commission has received a number of inquiries about how Parts 1610 and 1611 should be applied and interpreted, especially in relation to multilayer fabrics with an outer layer of film, such as disposable diapers which commonly incorporate an outer layer of plastic film over a thick absorbent layer. These questions can be summarized as follows:

1. In evaluating the results of these tests by computing an "average" burning rate, should specimens that do not ignite, or that ignite but extinguish before burning through the stop cord, be counted, and, if so, how?

2. In Part 1611, which calls for taking "the average of five determinations lengthwise and five determinations transverse, should the lengthwise and transverse determinations be averaged separately (so that if the rate of burning in the direction that burns the quickest is in excess of 1.2 in/sec, the sample fails); or, should all ten determinations be averaged together?

3. In multilayer fabrics or garments, such as disposable diapers, where there is a layer of film over other material, is the fabric subject to part 1610 or 1611?

4. In multilayer fabrics and articles of wearing apparel, should only the full thickness of the fabric or the article be tested? Or should the item of fabric or article of wearing apparel be prepared for testing so that only the uncovered or exposed layer(s) will be separately tested? Or should both the full thickness of such an item of fabric or article of apparel and the uncovered or exposed

layer(s) of the fabric or article of apparel be tested?

5. Where Part 1610 is applicable to a fabric or article of wearing apparel, but the fabric would be damaged by the 221°F (105°C) conditioning temperature of Part 1610, is the fabric nonetheless subject to testing under that standard?

These problems resulted in a petition to the Commission from the Procter & Gamble Company (P&G), Petition No. FP 79–1, asking that the Commission issue a suggested standard applicable to disposable diapers. P&G's suggested standard is based on Part 1610, with modifications to accommodate the problems discussed above. The major changes to Part 1610 suggested by P&G are:

1. Washing and dry cleaning requirements are omitted as inapplicable to single-use products which are discarded after use.

2. The sample to be tested is specified as a swatch from the full thickness of the product. P&G argues that it is not appropriate to test the outer layer of film because it is unlikely that this film will be separately marketed and because full-thickness testing would more closely approximate the product's condition in use. P&G further alleges that changes in the outer film that might be necessary in order to pass a test of the outer layer alone would not improve the flammability characteristics of the entire diaper, since if the diaper ignites, the film merely melts and shrinks away from the advancing flame. P&G also submitted test data purporting to show that tests at different laboratories of identical films supposedly performed according to the standard produced different results. From this, P&G contends that the tests are not reproducible when the outer layer of a disposable diaper is tested separately.

3. The conditioning procedure would be to heat the sample at 150°F (65.5°C) for 1 hour in order to prevent damage to the film layer that would occur at the conditioning temperature of 221°F (105°C) provided in Part 1610.

4. In order to reduce the number of specimens that do not ignite with the 1 second ignition time provided in Part 1610, the ignition time would be increased to 3 seconds.

5. Specimens that did not ignite, or that took more than 60 seconds to reach the stop cord, would be counted as a 60 second burn time. P&G based this figure on its observations that burn times usually varied between 25 and 60 seconds. P&G reasoned that a value of longer than 60 seconds would give undue weight to a particular reading and that less than 60 seconds could lead to recording non-burn results as being faster than true burn times.

The Commission denied P&G's petition because it did not appear that action on a standard applicable only to disposable diapers would be a reasonable use of the Commission's resources since any uncertainty associated with the application of the standards in Parts 1610 and 1611 to disposable diapers can be alleviated by issuing a regulation clarifying how these standards apply. In addition, the features of P&G's suggested standard that would assign a value to nonburn results had a potential for reducing the stringency of the standard. The Commission's staff concluded that the test data submitted by P&G, using their suggested standard, did not establish any improvements over Part 1611 in repeatability or reproducibility.

However, the disposable diaper industry submitted data indicating that changes to the outer layer of the diaper that might be necessary to ensure that the layer could pass the tests of 1610 or 1611 when tested separately from the remainder of the diaper could result in a 10 percent increase in the price of the diaper, or an increase in the cost to consumers of 50–75 million dollars per year. Furthermore, it is not clear whether changes to the outer layer would increase the safety of the product and avoid introduction of additional hazards which might be associated with thicker films or with chemical flame retardants. Disposable diapers are not a major source of burn injury. In flammability incidents known to the Commission where disposable diapers have been involved, other products are usually the items first ignited and contribute more to the severity of the injuries than do the diapers themselves. Moreover, in view of the extensive use of disposable diapers today, the small number of incidents reported through CPSC data sources indicates that burns resulting from the ignition of disposable diapers are not a frequently occurring injury. Also, the outer layer or film on these diapers is never used as an article of wearing apparel in the separated state.

B. The Proposal

After considering all these factors, the Commission preliminarily finds that it is not necessary to test the outer plastic film layer of diposable diapers separately in order to adequately protect the public against unreasonable risk of the occurrence of fire leading to death, injury, or significant property damage. Therefore, the Commission decided to propose to exempt the outer layer of disposable diapers containing a plastic film from the requirements of Parts 1610 and 1611 that the uncovered fabric be separately tested. In view of the uncertainty that exists about how these standards apply to multilayer fabrics, the Commission also concluded that it is desirable to propose amendments to the regulations implementing both standards which will state explicitly the manner in which these existing standards will be applied and interpreted.

The Commission preliminarily concludes that these amendments are necessary and proper for the administration and enforcement of the flammable Fabrics Act. The Commission also preliminarily finds that the proposed amendments to Parts 1610 and 1611 will result in standards that are reasonable, technologically practicable, and appropriate and are stated in objective terms and limited to the fabrics, related materials, and products that present unreasonable risks of the occurrence of fire leading to death, injury, or significant property damage.

The way that the Commission proposes to interpret and apply the requirements of the FFA and Parts 1610 and 1611 to multilayer fabrics with a film or coating on the exposed layer is explained below.

1. *Full-thickness or outer layer.* The original FFA prohibits various acts in relation to any article of wearing apparel or fabric that does not comply with the applicable standard and also prohibits such acts in relation to articles of wearing apparel made of fabric which does not comply. CS 191–53 and CS 192–53 also contain language that make it clear that the standards are intended to apply to both the finished article of wearing apparel and to the individual fabrics used in the article. However, the original FFA also specified that the Act did not apply to fabric intended as an interlining between an outer shell and lining. Also, the FFA states that the flammability standards shall apply only to the uncovered or exposed parts of the article of wearing apparel.

The Commission interprets the Flammable Fabrics Act and Parts 1610 and 1611 as requiring that both the full thickness of the product and the outer layer of fabric of film must be able to meet all requirements of the applicable standard. Experience gained in testing under the two standards indicates that failures are more likely to result from separately testing an uncovered or exposed layer of fabric or film than from testing the full thickness of a multilayer fabric or article of wearing apparel. However, the Commission concludes that as a matter of law, both the full

thickness and any uncovered or exposed layer of fabric or film must yield passing results when tested for compliance with the applicable standard.

Additionally, the Commission interprets the Act as requiring the inner layer to be tested if the article of wearing apparel is constructed so that the inner layer of the fabric or film might be exposed to flame or other means of ignition during normal wear.

Therefore, the Commission proposes to revise § 1610.32 of the regulation implementing the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) to state explicitly that:

(a) The standard is applicable to items of fabric used or intended for use in articles of wearing apparel, and to articles of wearing apparel; and

(b) When testing an article of wearing apparel for compliance with the standard, the fabric of each uncovered, or outer, surface of the article shall be tested separately; the fabric of any other surfaces which could be exposed when the article is worn shall be tested separately; and the full thickness of the garment shall be tested with the outer surface exposed to flame. If another surface could be exposed to flame, the full thickness of the garment would also be tested with that surface exposed to the flame.

Similar provisions appear in the proposed revision of § 1611.32, applicable to film and coated fabrics and to garments made from film or coated fabrics which are subject to the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611).

Additionally, the Commission proposes to revoke existing §§ 1610.34 and 1611.34, which state that only uncovered and exposed surfaces of articles of wearing apparel shall be tested for compliance with the applicable standard. The substantive provisions of these two sections appear in proposed §§ 1610.32(b) and 1611.32(b).

For the reasons discussed in the preceding section of this notice, new §§ 1610.36(f)(3) and 1611.36(f)(3) exempt the outer layer of plastic film on disposable diapers from the requirement of proposed §§ 1610.32(b)(1) and 1611.32(b)(1) that the fabric, film, or coated fabric of the uncovered, or outer, surface of an article of wearing apparel be tested.

2. *Which standard applies.* To resolve the issue of which standard shall be applied to garments which are made from a multilayer fabric with a film or coating on the uncovered or exposed surface, the Commission proposes to amend §§ 1610.36 and 1611.36 by adding specific provisions addressing such products. Proposed §§ 1610.36(f) and 1611.36(f) state that when a specimen to be tested is cut from the article of wearing apparel, and an outer layer of film readily separates from the article, the film shall be tested under Part 1611, which is applicable to film. If the outer layer adheres to all or a portion of one or more layers of the underlying fabric, the adhered layers constitute a "coated fabric" which would ordinarily be acceptable if it met the requirements of either Part 1610 or 1611 (see §§ 1610.33 and 1611.33). However, if the "coated fabric" product would be damaged, or its physical characteristics changed, by the conditioning process of Part 1610, than 1610 cannot be applied to that product, and the product must be tested under 1611.

The proposed amendments to §§ 1610.36 and 1611.36 provide that the full-thickness product shall be tested according to the nature of the exposed layer(s) and with the exposed layer(s) facing the flame.

3. *How should specimens that do not ignite or burn the stop cord be counted.* Part 1610 specifically limits the results to those specimens that burn. Part 1611 does not address the computation of the average burn time, but it is apparent that only specimens that burn the stop cord under either Part 1610 or Part 1611 can be counted in computing an "average," since items that do not actuate the stop watch have, under the procedure of these standards, an undefined burn time. In addition, the consistent application of these standards from the time of adoption of the original FFA has been to exclude results of specimens that do not burn the stop cord from computation of the average burn time or burn rate.

The requirement that there be an "average" of results that is contained in both Part 1610 and Part 1611 implies that at least two specimens must burn the stop cord in order to compute the average. This raises the question of what should be done if only 1 specimen out of the 5 tested burns the stop cord. Part 1610 provides for the testing of another 5 specimens if "the time of flame spread is less than [the times established for the prohibited class of fabrics], or if the specimens do not burn." The Commission believes that the same procedure should be applicable to tests under Part 1611.

Therefore, provisions of proposed § 1610.32(c) and proposed § 1611.32(c)(2) state that the results of tests conducted under both standards should be interpreted in the following way:

(a) If 2 or more specimens burn to the stop cord, the "average" is computed from the results of these specimens that burn the stop cord.

(b) If no specimens burn, the fabric or film passes.

(c) If only one specimen burns, with passing results, the fabric or film passes.

(d) If only one specimen burns, with failing results, test another 5 specimens. If at least one more specimen burns, use the average of the specimens that burn the stop cord. If no more burn, the test is inconclusive. Depending on the probable cause of the failing result, it may be appropriate to do more testing, but the original failing result would not be averaged with the results of subsequent tests.

The Commission realizes that this interpretation can lead to the somewhat anomalous result that a product with 2 failing specimens and 8 specimens that did not ignite would fail the test, but that a product with 2 failing specimens and a number of specimens that burned with passing results could pass if its "average" was passing. Thus, a "passing burn" specimen can contribute to a product's passing the test, while a specimen that does not ignite will not. However, these test methods were designed primarily to prevent the marketing of fabrics that burn rapidly and intensely *if ignited* and not to serve as a measure of the ease with which the fabric would ignite. The degree to which a fabric resists initial ignition cannot be accounted for without a significant change in these test methods. However, no practical need for a standard addressing ease of ignition has been shown, and, in any event, the present standard should be clarified even if additional standards were being developed.

4. *When testing under Part 1611, should the lengthwise and transverse results be separately averaged.* The Commission has consistently interpreted the requirement of Part 1611 for averaging of the lengthwise and transverse directions as meaning that the directions should be averaged separately and that the average for the direction with the higher average rate of burning should be used to determine if the film or fabric complies with the standard.

This interpretation is set forth explicitly in § 1611.32(c)(1) of the regulations proposed below. The interpretation expressed in proposed § 1611.32(c)(1) is consistent with the intent of the Act to prevent marketing of film or fabrics that exhibit "rapid and intense burning." Although the literal wording of the standard can support an interpretation that both directions should be averaged together, the original

text of the proposed Commerical Standard contained additional punctuation that makes it apparent that the intent of the standard is to require separate averaging. This interpretation is supported further by the procedure provided in Part 1610, which requires testing in the direction with the most rapid rate of burning. The safety purpose of the standard, that of eliminating film and fabrics that are highly flammable, is better served by a specified maximum allowable rate of burning than by allowing different maximum rates of burning that could vary according to the rate of burning in another direction.

5. *Whether disposable products should be labeled to state that they will be flammable if dry cleaned or washed.* Provisions of existing §§ 1610.35(a) and 1611.35(a) state that if a fabric or article of wearing apparel subject to the requirements of Part 1610 would not ordinarily be dry cleaned or washed in its customary or normal use, samples taken from such fabric or article need not be subjected to the dry cleaning or washing procedures in §§ 1610.4(d) and 1610.4(e) when tested for compliance with Part 1610. However, existing §§ 1610.35(a) and 1611.35(a) further require that in such a case the article must be labeled with the statement: "Fabric will be dangerously flammable if dry cleaned or washed."

The petition from Procter & Gamble points out that fabrics and articles of wearing apparel intended for a one-time use, such as disposable diapers and disposable hospital or surgical gowns in adult sizes, are not dry cleaned or washed in customary or normal use. While the provisions of §§ 1610.35(a) and 1611.35(a) that excuse items intended for a one-time use from the dry cleaning and laundering provisions of §§ 1610.4 (d) and (e) are appropriate, the labeling provisions of §§ 1610.35(a) and 1611.35(a) should not be applied to disposable items.

Therefore, the Commission proposes to amend § 1610.35(a) by adding language to state that items of fabric and articles of wearing apparel intended for one-time use shall not be subjected to the dry cleaning or washing requirements of §§ 1610.4 (d) and (e) when tested for compliance with Part 1610, and need not be labeled to state that they will be dangerously flammable if dry cleaned or washed. The proposal would delete § 1611.35(a) since its provisions are already in § 1610.35(a) and are not applicable to Part 1611.

6. *How the Standards should be applied to articles of wearing apparel in small sizes.* The petition from Procter & Gamble also raised the question of how the flammability standards for clothing textiles and vinyl plastic film should be applied to diapers in sizes so small that specimens cannot be cut in both the lengthwise and transverse directions.

Existing § 1610.35(d) states that when testing for compliance with the clothing textile standard, if an item of fabric is less than six inches wide, it shall be tested in a lengthwise direction only. This provision is necessary because § 1610.4(a)(1) of that Standard states that specimens for testing shall have dimensions of six inches by two inches, and § 1610.4(a)(2) requires that fabrics without a raised fiber surface shall be tested in the direction in which they burn most rapidly.

The Commission believes, however, that existing § 1610.35(d) could be expressed more clearly, and in terms which would leave no doubt that the standard in Part 1610 is applicable to articles of wearing apparel as well as to the fabric from which they are constructed. Therefore, the Commission has proposed to modify the language of § 1610.35(d) in the amendments proposed below.

The regulations in Part 1611 implementing the flammability standard for vinyl plastic film have no provision analogous to § 1610.35(d). Section 1611.4(b) states that specimens for testing under Part 1611 shall have dimensions of nine inches by three inches. As noted earlier, § 1611.3 of that Standard requires testing of five specimens transverse to the direction of processing, and five specimens lengthwise.

Because smaller sizes of children's garments made from film or coated fabric, such as disposable diapers, may be less than nine inches wide, the Commission proposes to revise § 1611.35 to provide that any article of wearing apparel made of film or coated fabric subject to that Standard which is less than nine inches in width shall be tested in the lengthwise direction only.

Additionally, in the proposed revision of § 1611.35, the Commission has removed all existing provisions in that section relating to testing fabrics for compliance with Part 1610. All of those provisions now appear in § 1610.35 of the regulations implementing the flammability standard for clothing textiles.

The amendments to the regulations described above are proposed to become effective 60 days after any final amendments are published in the **Federal Register**.

The amendments described above are to the 1980 Edition of the Code of Federal Regulations. Additional amendments to these regulations were proposed by the Commission on October 17, 1978 (43 FR 47952). Since these previously proposed regulations contain editorial and clarifying amendments to the existing regulations and may become final before the amendments proposed below become final, when the amendments proposed below are issued, the text may contain additional editorial changes to conform to the editorial format of the previously proposed amendments.

Potential Economic Effects

The FFA does not require manufacturers of fabrics and articles of wearing apparel subject to Parts 1610 and 1611 to test their production unless they issue a guaranty under section 8 of the Act. Therefore, unless a guaranty is issued, the Act requires only that such products be capable of meeting the standard. However, even those manufacturers who do not issue guaranties probably test a portion of their production to assure themselves that the products meet the requirements of the applicable standard. To the extent that manufacturers may not have been testing in the past (because they did not view the standards as applicable to their product), or to the extent that they have not been testing both the exposed layers and the full thickness of the garment (because they did not interpret the standard as requiring this), additional costs for testing may be incurred as a result of the issuance of the Commission's clarification and interpretation of the standards. However, these additional costs are not expected to be unduly burdensome.

The Commission solicits comment on the potential economic effects of its proposed interpreting and clarifying regulation.

The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.* (94 Stat. 1164; Sept. 19, 1980), contains a number of provisions intended to reduce the adverse impact on rule making proceedings on small businesses, small organizations, and small governmental jurisdictions. One of these requirements is for a regulatory flexibility analysis that would examine the compliance burden on the small entities and explore alternatives that could accomplish the objectives of the rule while minimizing the impact of the rule on the small entities. However, under 5 U.S.C. 605(b), the requirement for a regulatory flexibility analysis does not apply if the agency certifies that the rule will not, if promulgated, have a significant economic effect on a substantial number of small entities. After considering the potential economic effects of the proposed rule, the

Commission has concluded that the requirement for a regulatory flexibility analysis should not apply to this proposal.

In the first place, the rule is not intended to have an adverse economic impact on any manufacturer. The portion of the rule which merely clarifies the existing requirements of Parts 1610 and 1611 is not expected to result in any substantial change in existing practices. Furthermore, to the extent that publication of this proposal may result in manufacturers concluding that they had previously been misinterpreting the requirements, the Commission is not aware of any product which would have to be modified as a result of the change in the manufacturers' interpretation.

The major effect of the proposal is to relieve the manufacturers of disposable diapers from the requirement to test the outer plastic layer of their product while it is separated from the remainder of the diaper. This action would relieve these manufacturers from an existing requirement, and thereby lessen the cost imposed by these standards.

Most producers of disposable diapers are subsidiary firms or divisions of large manufacturers. However, from time to time smaller firms may enter the market with production accounting for very small market shares. There tend to be few, if any, of these smaller entities in the market at any given time.

Therefore, the Commission certifies that the amendments proposed below, if promulgated, will not have a significant economic effect on a substantial number of small entities. However, the Commission invites comments on any potential effects of the proposal on small businesses and on alternatives that may minimize such effects.

Conclusion

Accordingly, under the authority of sections 4 and 5 of the Act (15 U.S.C. 1193, 1194), the Commission proposes to amend Title 16, Chapter II, Subchapter D, of the Code of Federal Regulations as follows:

1. Section 1610.32 is revised to read as follows:

§ 1610.32 Flammability requirements.

(a) *General requirement.* No item of fabric which is subject to the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610), and no article of wearing apparel subject to the Standard which is made of such fabric, shall be marketed or handled if such item of fabric or article of wearing apparel exhibits rapid and intense burning when tested in accordance with § 1610.3 of that Standard.

(b) *Uncovered surfaces, exposed surfaces, and full thickness of articles of apparel subject to testing.* When testing an article of wearing apparel subject to the Standard, the following parts of the article of wearing apparel shall be individually tested:

(1) The fabric of the uncovered, or outer, surface of the article of wearing apparel, with the flame applied to the uncovered surface;

(2) The fabric of any other surface which could be exposed when the article of wearing apparel is worn, with the flame applied to the exposed surface; and

(3) The full thickness of the article of wearing apparel, with the flame applied to the uncovered or exposed surface(s).

(c) *Interpretation of test results.* The provisions of § 1610.4(g)(7) of the Standard for the Flammability of Clothing Textiles, relating to results of testing, shall be applied to tests of fabrics and articles of wearing apparel subject to the Standard. To compute the average time of flame spread for each set of five specimens, at least two of the specimens must ignite and burn the stop cord for the specimen. However, if fewer than two specimens of any given set of five ignite and burn the entire length of the specimen, test results shall be interpreted according to the provisions of paragraph (c)(1) through (c)(4) of this section.

(1) If no specimen ignites and burns the stop cord, the results of that test shall be regarded as Class 1 (passing).

(2) If only one specimen of the five ignites and burns the stop cord with Class 1 results (see § 1610.3(a)(1)), the results of that test shall be regarded as Class 1 (passing).

(3) For raised-fiber surface fabrics, if only one specimen of the five ignites and burns the stop cord with a time of 4 to 7 seconds, both inclusive, the results of that test shall be regarded as Class 1 (passing), regardless of whether the base fabric ignites or fuses. See §§ 1610.3(a)(2) and 1610.4(g)(7)(ii).

(4) If only one specimen ignites and burns the stop cord in less than 3.5 seconds for plain-surface fabrics or less than 4.0 seconds for raised-surface fabrics where the base fabric ignites or fuses, test another set of five specimens. If one or more of the second set of specimens ignite and burn the stop cord, average the results from all specimens which ignited and burned the stop cord. See §§ 1610.3(a)(3) and 1610.4(g)(7). If no specimen from the second set of five ignites and burns the stop cord, the test is inconclusive, and the Commission will take no enforcement action on the basis of that test. The Commisson may conduct additional testing of the fabric or article of wearing apparel, but the results of any inconclusive test shall not be averaged with results obtained from any other test.

(Secs. 4, 5, 67 Stat. 112, 113; as amended 68 Stat. 770, 81 Stat. 571, 90 Stat. 515 (15 U.S.C. 1193, 1194))

2. Section 1610.34 is revoked, removed, and reserved.

§ 1610.34 [Removed].

3. The heading in § 1610.35 and paragraph (a) are revised to read as follows:

§ 1610.35 Procedures for testing special types of textile fabrics under the standard.

(a) *Fabric not customarily washed or dry cleaned.*

(1) Except as provided in paragraph (a)(2) below, any textile fabric or article of wearing apparel which, in its normal and customary use as wearing apparel, would not be dry cleaned or washed, need not be dry cleaned or washed as prescribed in §§ 1610.4(d) and 1610.4(e) when tested under the standard if such fabric or article of wearing apparel, when marketed or handled, is marked in a clear and legible manner with the statement: "Fabric will be dangerously flammable if dry cleaned or washed." An example of the type of fabric referred to in this paragraph is bridal illusion.

(2) Section 1610.4(a)(4), which requires that certain samples shall be dry cleaned or washed before testing, shall not apply to fabrics and garments intended for one-time use, such as disposable diapers and disposable hospital or surgical gowns in adult sizes. Additionally, such fabrics and garments intended for one-time use shall not be subject to the labeling requirements set forth in paragraph (a)(1) of this section.

* * * * *

(Secs. 4, 5, 67 Stat. 112, 113; as amended 68 Stat. 770, 81 Stat. 571, 90 Stat. 515 (15 U.S.C. 1193, 1194))

4. Section 1610.35(d) is revised to read as follows:

* * * * *

(d) *Items less than six inches wide.* Any article of wearing apprarel subject to the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) which is less than six inches in width shall be tested for compliance with the Standard in a lengthwise direction only.

(Secs. 4, 5, 67 Stat. 112, 113; as amended 68 Stat. 770, 81 Stat. 571,. 90 Stat. 515 (15 U.S.C. 1193, 1194))

5. Section 1610.35 is amended by adding a new paragraph (f), as follows:

§ 1610.36 Application of act to particular types of products.

* * * * *

(f) *Multilayer fabric and wearing apparel with a film or coating on the uncovered or exposed surface.* The following procedure shall be used to determine whether the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) or the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611) applies to multilayered fabrics which have a film or coating on a surface which will be uncovered or exposed when the fabric is used in wearing apparel, and to garments made of such fabric:

(1) If the uncovered or exposed surface is a film that completely separates from other layers or parts of the multilayered fabric when the specimens are cut and prepared for testing, test the separated uncovered or exposed film layer of the fabric or garment, and the full thickness of the fabric or garment, in accordance with the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611). See § 1611.32 for application of the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611) to the uncovered or exposed layer of film from such fabric and garments, and to the full thickness of such fabric or garments. When testing the full thickness of the fabric or garment, the item shall be tested with the uncovered or exposed layer facing the flame.

(2) If the uncovered or exposed layer of the fabric or garment has a film or coating (other than a nitrocellulose coating) which adheres to other layers or parts of the multilayer fabric or garment when the speciments are cut and prepared for testing, the adhered uncovered or exposed layers of the fabric or garment, and the full thickness of the garment, comply with the act if they meet the flammability requirements of either the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) or the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611). See §§ 1610.33 and 1611.33. In testing under either standard, the uncovered or exposed adhered film or coating of the fabric or garment, and the full thickness of the garment, will be tested with the flame applied to the exposed or uncovered surface(s) When testing under Part 1610, the uncovered or exposed adhered film or coating of the fabric or garment, and the full thickness of the garment, will be considered a coated fabric. See § 1610.35(b). However, if the conditioning procedures required by § 1610.4(f) of the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) would damage, or alter the physical characteristics of, the film or coating, both the uncovered or exposed layer and the full thickness of the garment shall be tested in accordance with the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611).

(3) Disposable diapers constructed with an outer layer of plastic film are exempt from the requirement of §§ 1610.32(b)(1) and 1611.32(b)(1) that the fabric or film of the uncovered surface of an article of wearing apparel must be tested separately in addition to being tested as part of the assembled article.

(Secs. 4, 6, 67 Stat. 112, 113; as amended 68 Stat. 770, 81 Stat. 571, 90 Stat. 515 (15 U.S.C. 1193, 1194))

6. Section 1611.32 is revised to read as follows:

§ 1611.32 Flammability requirements.

(a) *General requirement.* No item of film or coated fabric which is subject to the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611), and no article of wearing apparel subject to the Standard which is made of such film or coated fabric, shall be marketed or handled if, when tested in accordance with that Standard, it does not meet the requirements of § 1611.3 of that Standard.

(b) *Uncovered surfaces, exposed surfaces, and full thickness of articles of apparel subject to testing.* When testing an article of wearing apparel subject to the Standard, the following parts of the article of wearing apparel shall be individually tested:

(1) The film or coated fabric of each uncovered, or outer, surface of the article of wearing apparel with the flame applied to the uncovered surface;

(2) The film or coated fabric of any other surface which could be exposed when the article of wearing apparel is worn, with the flame applied to the exposed surface; and

(3) The full thickness of the article of wearing apparel, with the flame applied to the uncovered or exposed surface(s).

(c) *Test results.* (1) In the application of the requirements of § 1611.3 of the Standard to any item of film, coated fabric, or wearing apparel, compute the average burn rate from five specimens burned transverse to the direction of processing and the average burn rate from an additional five specimens burned lengthwise to the direction of processing. If either the average burn rate from the five specimens burned transverse or the average burn rate from the five specimens burned lengthwise exceeds 1.2 inches per second, the test results shall be interpreted as a failure.

(2) To compute the average burn rate for each set of five specimens, at least two of the specimens must ignite and burn the stop cord for the specimen. However, if fewer than two specimens of any given set of five specimens ignite and burn the stop cord for the specimen, the test results shall be interpreted according to the provisions of paragraphs (c)(2)(i) through (c)(2)(iii) of this section:

(i) If no specimen ignites and burns the stop cord, the test results of that set of specimens shall be regarded as passing.

(ii) If only one specimen of the set of five specimens ignites and burns the stop cord with passing results, the results of that set of specimens will be regarded as passing.

(iii) If only one specimen of the set of five specimens ignites and burns the stop cord with failing results, test another set of five specimens from the same direction of processing. If one or more specimens from the second set of five specimens ignite and burn the stop cord, average the results from all specimens of the two sets which ignited and burned the stop cords. If no specimen of the second set of five specimens ignites and burns the stop cord, the test is inconclusive and the Commission will take no enforcement action based on the results of that test. The Commission may conduct additional testing of the film, coated fabric, or article of wearing apparel, but the results of any inconclusive test shall not be averaged with results obtained from any other test.

(Secs. 4, 5, 67 Stat. 112, 113; as amended 68 Stat. 770, 81 Stat. 571, 90 Stat. 515 (15 U.S.C. 1193, 1194))

7. Section 1611.34 is revoked, removed, and reserved.

§ 1611.34 [Removed]

8. Section 1611.35 is revised to read as follows:

§ 1611.35 Testing certain classes of fabric and film.

An item subject to the Standard which is less than nine inches in width shall be tested for compliance with the Standard in a lengthwise direction only.

(Secs. 4, 5, 67 Stat. 112, 113; as amended 68 Stat. 770, 81 Stat. 571, 90 Stat. 515 (15 U.S.C. 1193, 1194))

9. Section 1611.36 is amended by adding a new paragraph (f), as follows:

§ 1611.36 Application of act to particular types of products.

* * * * *

(f) *Multilayer fabric and wearing apparel with a film or coating on the uncovered or exposed surface.* The following procedure shall be used to

determine whether the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) or the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611) applies to multilayered fabrics which have a film or coating on a surface which will be uncovered or exposed when the fabric is used in wearing apparel, and to garments made of such fabric:

(1) If the uncovered or exposed surface is a film that completely separates from other layers or parts of the multilayered fabric when the specimens are cut and prepared for testing, test the separated uncovered or exposed film layer of the fabric or garment, and the full thickness of the fabric or garment, in accordance with the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611). See § 1611.32 above for application of the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611) to the uncovered or exposed layer of film from such fabric and garments and to the full thickness of such fabric or garments. When testing the uncovered or exposed film or coating or the full thickness of the fabric or garment, the item shall be tested with the uncovered or exposed surface facing the flame.

(2) If the uncovered or exposed layer of the fabric or garment has a film or coating (other than a nitro-cellulose coating) which adheres to other layers or parts of the multilayer fabric or garment when the specimens are cut and prepared for testing, the adhered uncovered or exposed layer of the fabric or garment and the full thickness of the garment shall meet the flammability requirements of either the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) or the Standard for the Flammability of Vinyl Plastic Film (16 CFR Part 1611). See §§ 1610.33 and 1611.33. In testing under either standard, the uncovered or exposed adhered film or coating of the fabric or garment, and the full thickness of the garment, will be tested with the flame applied to the exposed or uncovered surface(s). When testing under Part 1610, the uncovered or exposed adhered film or coating of the fabric or garment, and the full thickness of the garment, will be considered a coated fabric. See § 1610.35(b). However, if the conditioning procedures required by § 1610.4(f) of the Standard for the Flammability of Clothing Textiles (16 CFR Part 1610) would damage, or alter the physical characteristics of, the film or coating, the uncovered or exposed layer and the full thickness of the garment shall be tested in accordance with the Standard for the Flammability of Vinyl Plastc Film (16 CFR Part 1611).

(3) Disposable diapers constructed with an outer layer of plastic film are exempt from the requirement of §§ 1610.32(b)(1) and 1611.32(b)(1) that the fabric or film of the uncovered surface of an article of wearing apparel must be tested separately in addition to being tested as part of the assembled article.

(Secs. 4, 5, 67 Stat. 112, 113; as amended 68 Stat. 770, 81 Stat. 571, 90 Stat. 515 (15 U.S.C. 1193, 1194))

Effective date: The Commission proposes that these amendments shall become effective 60 days after the final amendments are published in the **Federal Register.**

Dated: May 11, 1981.

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

[Docket No. RM81-27]

Incremental Pricing: Adoption of Single-Tier Alternative Fuel Price Ceiling; Extension of Time for Comments

May 21, 1981.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of Proposed Rulemaking; extension of comment period.

SUMMARY: On April 22, 1981, the Commission issued a Notice of Proposed Rulemaking involving incremental pricing and the adoption of a single-tier alternative fuel price ceiling (46 FR 23947, April 29, 1981). The comment period is being extended at the request of The Process Gas Consumers Group, The American Iron and Steel Institute and The Georgia Industrial Gas Group.

DATE: Comments must be submitted on or before May 29, 1981.

ADDRESS: Submit comments to: Office of the Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT:

Kenneth F. Plumb, Secretary, (202) 357-8400.

[Docket No. RM81-17]

Definition of Agricultural Use in the Commission's Incremental Pricing Regulations

May 21, 1981.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Informal Public Hearing.

SUMMARY: The Commission hereby notifies the public that an informal public hearing is scheduled to consider the Notice of Proposed Rulemaking issued on April 20, 1981, in the above-identified docket. Specifically, the rulemaking proposes to expand the list of agricultural uses of natural gas set forth in § 282.202(a)(1)(iii), which are exempt from incremental pricing, by adding certain stages in the manufacture of gelatin, glue and carboxy methyl cellulose. 46 FR 23487 (April 27, 1981).

DATE: An informal public hearing will be held at 9:30 a.m. on Tuesday, June 9, 1981.

ADDRESS: Federal Energy Regulatory Commission, Room 8402, 825 North Capitol Street, N.E., Washington, D.C. 20426.

FOR FURTHER INFORMATION CONTACT:

Colette Bohatch, Office of the General Counsel, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, (202) 357-8140.

BILLING CODE 6450-85-M

INTERNATIONAL TRADE COMMISSION

19 CFR Parts 201 and 207

Conduct of Investigations of Whether Injury to Domestic Industries Results From Imports Sold at Less Than Fair Value or From Subsidized Exports to the United States

AGENCY: United States International Trade Commission.

ACTION: Proposed revisions of procedural rules.

SUMMARY: The proposed rules sets forth changes and clarifications for the conduct of Commission investigations under section 303 of Title VII of the Tariff Act of 1930 (19 U.S.C. 1303 and 2501 *et seq.*) and sections 102 through 107 of the Trade Agreements Act of 1979 (Pub. L. 96–39, 93 Stat. 144). Several of the proposed changes in the procedural rules would affect the conduct of all investigations under the Commission's jurisdiction, including investigations carried out pursuant to the Tariff Act of 1930, the Agricultural Adjustment Act, and the Trade Act of 1974.

Comments are requested on any and all aspects of the rules for conducting antidumping and countervailing duty investigations and, especially, on the proposed changes set forth.

DATE: Comments on the proposed revisions to the procedural rules must be submitted on or before July 13, 1981.

ADDRESS: Comments and suggestions concerning the proposed revisions should be submitted to the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436.

FOR FURTHER INFORMATION CONTACT: Jack Simmons, Esq., Office of the General Counsel, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0350.

SUPPLEMENTARY INFORMATION: The Trade Agreements Act of 1979 (Pub. L. 96–39, 93 Stat. 144) approves and implements trade agreements negotiated by the United States in the Tokyo round of Multilateral Trade Negotiations. Upon acceptance by the United States of the negotiating instruments relating to subsidies and countervailing measures and to dumping and antidumping measures, the Trade Agreements Act has brought about extensive changes in U.S. countervailing duty and antidumping duty laws, primarily through amendment of the Tariff Act of 1930.

In order to implement procedures to carry out the provisions of the Trade Agreements Act, the U.S. International Trade Commission published proposed procedural rules in the **Federal Register** of October 15, 1979 (44 FR 59392). Following an analysis of the comments received, the Commission promulgated procedural rules effective January 1, 1980, and published a notice thereof in the **Federal Register** of December 26, 1979 (44 FR 76458). On August 27, 1980, the Commission published a notice in the **Federal Register** (45 FR 57148) that, on the basis of the administrative experience since January 1, the Commission was considering proposing amendments to specific portions of the rules. The notice requested public comments suggesting changes in the rules. Those comments are discussed below.

In order to present the proposed changes, whether suggested by the Commission and its staff or by public comment, a discussion by subject matter rather than a section-by-section analysis is most appropriate. Each proposal is discussed below.

Number of Copies of Complaint or Petition

It is proposed that the number of copies of the complaint or petition filed with the Commission be changed from 19 to 14. It is also proposed that an additional copy be served on each person named in the complaint as engaging in the act complained of. With recent experience in these investigations as a guide, compliance with this rule should entail no more than four or five additional copies, under normal circumstances. These changes will be carried out by amending §§ 201.8(d) and 210.10(a).

Filing of Documents

In order to eliminate confusion about public and confidential versions of a document, it is proposed that the requirement of an original and 14 copies refer specifically to the confidential version. The submitter of a document would be required to submit at least one copy, with confidential information deleted, for public inspection. The petition will not be considered "properly filed" until, among other requirements, the requisite number of copies is filed. These changes will be carried out by amending §§ 207.10 and 201.8(d).

Certificate of Service

The Commission proposes that a certificate of service be required for each document. Any document submitted to the Secretary which does not contain a certificate of service would not be accepted for filing. These changes will be carried out by adding a new subsection 201.16(b)(3) and by amending subsection 201.16(c).

Parties

Since the Commission proposes to require certificates of service, it is necessary to define "party." It is proposed to define "party" as any person with a proper interest in the subject matter of the investigation, including an "interested party" as used in Title VII, who files a notice of participation with the Secretary. The notice must state that the person has an interest in the subject matter of the investigation and intends to file a brief therein. It is hoped that by limiting the term "party" in this way, only those persons who have a direct interest in the investigation will become parties. All notices would be screened by the Chairman or other person to preside at the hearing.

It is proposed that the notices must be received at least 3 weeks prior to the date set for a hearing, or 3 weeks prior to the date on which prehearing briefs are due, or on the date a prehearing conference is scheduled, whichever occurs first. The Secretary would then prepare a service list containing the names and addresses of all the parties or their representatives. A late-filing provision is also proposed.

To accomplish these purposes, a new definition of "party" would be added as § 201.2(i) and § 207.2(i) would be deleted. § 201.13 would be redrafted in its entirety to relate to participation in investigations. The material currently in § 201.13 relating to hearings, as discussed *infra*, would be amended and moved to § 201.12.

Statements, Briefs, and Testimony

It is proposed that the term "statement" not be used in the rules, and that the terms "brief" and "testimony" be used exclusively. The proposed changes would occur in §§ 207.15, 207.22, 207.23, 207.24, and 210.12(d).

It is also proposed that prehearing briefs in 120-day final dumping or countervailing duty investigations be filed 10 days after service of the prehearing staff report. The current provision for 15 days appears to consume too large a portion of the final 45 days of an investigation. It further appears that, given their knowledge of the facts and issues in each case, the change should cause relatively little hardship on the parties. This change would be reflected in § 207.22.

Prepared Testimony

Given the apparently redundant nature of prepared testimony, as that term is currently used in Commission practice, the Commission is proposing to abolish prepared testimony in antidumping and countervailing duty cases. Although parties would be encouraged to have carefully prepared remarks ready for the Commission's hearing, a prohibition on prepared testimony would do away with lengthy documents, which could not be covered during the course of a hearing and which appear to be more like an additional prehearing brief rather than testimony.

The Commission is also proposing an exception to the rule to permit participants in a hearing to present graphs or other explanatory material to illustrate an argument or to clarify a matter in contention. A limit of five double-spaced pages is proposed.

Finally, it is proposed that each party submit a list of the witnesses it plans to call to testify at the hearing at least 3 business days before the hearing.

These changes would be accomplished by amendments to § 201.12(d).

Date of Institution of Final Investigation

It is proposed that the date established by the Trade Agreements Act for the institution of final countervailing duty or antidumping investigations be deemed the date on which the transmittal from the administering authority is recevied by the Secretary or the date on which the determination is published in the **Federal Register**, whichever occurs first. This proposal would be made by adding a new § 207.20(a) and redesignating the current § 207.20(a) as § 207.20(b).

Appearance at Hearings

The Commission proposes that, to eliminate ambiguity, the material regarding hearings in § 201.13 be revised and relocated in § 201.12(d). It is also proposed to state explicitly that the Chairman or the presiding officer at the hearing may determine who may appear. In cases where persons other than parties wish to appear, the Chairman could decide whether a sufficient showing of interest has been made. In certain cases—the appearance of Members of Congress, representatives of other Government agencies, and interested parties—this sufficient interest should be presumed. This proposal will be carried out by adding a new § 201.12(j) based on the current language in § 201.13.

Recommendation by the Director of Operations

The Commission proposes to amend § 207.16, which specifies that the Director of Operations will make a recommendation in preliminary antidumping and countervailing duty investigations. The rule was originally drafted because a recommendation was thought useful, since the Director of Operations conducts the preliminary investigation and is closest to it. The Commission no longer believes the formal recommendation is necessary. Thus, the proposed rule would only require the Director of Operations to prepare for the Commission a written summary of the information and arguments submitted by the parties at, or prior to, the conference, if one is held. This procedure will retain the advantage of having the person closest to the conference highlight the issues and the critical facts of record, without the need to form preliminary legal conclusions for the Commission. No comments were received regarding this proposal.

However, several comments urged the Commission to retain the general delegation to the Director of Operations of the duty to conduct preliminary investigations. The comments argued that due to the professionalism of the Commission's staff, the short time limits involved, and the fact that the preliminary determination of reasonable indication of injury does not result in fianl Commission action, the procedure is appropriate and efficient. In general, the Commission finds these comments persuasive and does not now propose to change the general delegation to the Director of Operations.

Service of Determinations

It is proposed that sections §§ 207.18 and 207.28 be amended to require that the Secretary "serve" all parties with copies of Commission actions.

Protective Orders; In-House Counsel

Section 777 of the Tariff Act of 1930 (19 U.S.C. 1677f) deals with confidential business information. Subsection (b) provides that information submitted to the Commission in confidence may not be released by the Commission without the consent of the submitter. Subsection (c), however, permits the release of confidential information under protective order, and authorizes the Commission to establish such requirements as it may determine by regulation to be appropriate to control such disclosure. Pursuant to this authority, the Commission promulgated § 207.7 of its rules of Practice and proceudre (19 CFR 207.7). This section has functioned very well, except for extensive criticism of the provision limiting access to confidential information to retained counsel.

Section 207.7 is designed to provide carefully limited access to confidential information by attorneys representing parties to Title VII investigations. The underlying purpose of § 207.7 is to permit counsel to present arguments to the Commission based on certain confidential price infomation, in addition to the information available in the public record. The Commission sought to preserve the integrity of that confidential information by insuring that it not be made available to the business competitors of the submitter. That is, the information would be made available to the attorney but not to the client. Therefore, in order to insure an "arm's length" relation between attorney and client, the Commission elected to prohibit the disclosure of information under protective order to "in-house counsel"—not because of distrust, but because the attorney may be, by virtue of his corporate position, the client. In addition, the Commission believes that shielding the confidential business information of a submitter from its competitors encourages voluntary compliance with Commission questionnaires and other requests for information.

The limitation was criticized by law departments of many corporations and several bar associations. Many comments stated that all attorneys, whether employed by corporations or by law firms, are members of the bar. All attorneys are subject to the highest standards of professional responsibility, and are subject to disciplinary proceedings by the appropriate licensing authorities for any breach of those standards. Failure to abide by the provisions of a protective order is clearly a ground for instituting disciplinary proceedings.

These comments are very persuasive. The Commission, in originally proposing and promulgating § 207.7, did not mean to imply that corporate consel are in any way less trustworthy or professional than retained counsel. It meant no disparagement of attorneys who are staff employees of corporations. As several comments stated, this is a distinguished segment of the bar, and many of the foremost attorneys in this country are emplyees of respected corporations.

As a result of those comments, the Commission has undertaken a search for a workable alternative to the current language. In its notice of August 27, 1980 (45 FR 57148), the Commission proposed

a new standard for release of information under protective order, one which eliminatd the distinction between in-house and retained counsel. It was proposed to limit disclosure to those counsel, corporate or retained, who do not advise "operating departments."

This proposal was criticized as vague and unworkable, since the term "operating departments" does not provide meaningful guidance; there would be inevitable disputes over what constitutes an operating department. The Commission has found this argument persuasive, and for this reason has not proceeded with the proposal. As a result, the Commission did not need to evaluate the merits of other objections to the proposed rule, and is exploring alternatives.

In so doing, the Commission's goals remain unchanged: (i) To gather the confidential business information needed in the course of its investigations; (ii) to scrupulously protect that confidentiality; and (iii) to encourage the voluntary submission of such information. In addition, because the time limits imposed by statute for these investigations are so short, usually 45 or 120 days, the rule should be self-executing. The Commission fears that it might not have time to conduct a proceeding and reach an informed, reasoned determination as to who should have access to confidential information under a protective order. Most important, the final formulation must insure that persons who have access to the information will not, even inadvertently, permit confidential information to be made available to their clients.

Thus, the issue faced by the Commission has nothing to do with the professionalism, trustworthiness, and ethics of one segment of the legal profession as compared with another; rather, the central issue is how best to guard against potential improper use of information. The Commission's task, therefore, is one of separating two distinct functions: that of legal advisor and that of corporate official. When the attorney is acting as an official of the client, instead of its legal advisor, the efficiency of the protective order is greatly diminished or nullified. Since no person can completely compartmentalize relevant information, it would be illusory to expect any person with access to confidential business data of another to be able to disregard that information when giving advice. Even the refusal to give advice could be a meaningful statement.

In this context, several comments noted that the very fact that corporate attorneys are employed full time by their clients lends itself to potential misuse of critical information. In-house counsel meet regularly with the personnel of the corporation on day-to-day matters and may, no matter how inadvertently, use the information in a context other than that of antidumping or countervailing duty investigations. This problem may reach critical proportions when in-house counsel, after receiving a competitor's confidential pricing information, is consulted on his own firm's pricing decisions.

Therefore, the Commission proposes a protective order rule with permits access to confidential information under protective order by any attorney, whether corporate counsel or retained counsel, who certifies under oath to the Commission that, in addition to the other protective order restrictions, he does not participate in the determination of the price of his client's products nor give advice regarding the pricing of his client's products. Because the confidential information generally released in these investigations relates to domestic prices, access to pricing information under protective order would be inconsistent with the protection of confidential information when the attorney advises on pricing decisions.

This formulation appears to offer several advantages. First, it is self-executing. Second, it is directed specifically at shielding that information which is actually released by the Commission under protective order and which is considered most sensitive—prices. Finally, it is an unambiguous formulation, providing a bright-line distinction that is immediately understood. The specific language appears in the proposal.

The Commission is considering three alternatives to this proposal. Depending on comments from the public and its own analysis, the Commission will select one of the four for its final rule. For ease of discussion, we will refer to the Commission's proposal as alternative A. The others will be denominated alternative B, alternative C, and alternative D.

Alternative B. This alternative would retain the current prohibition on the release of confidential business information to in-house counsel. The only change would be to redesignate "in-house counsel" as "corporate counsel." In other words, current practice would be retained.

Alternative C. This alternative would eliminate the phrase "except in-house counsel." Any attorney would be entitled to access to confidential business information under protective order without regard to his relation to his client.

Alternative D. This alternative, even though it does not appear to conform to the goal of being self-executing, was suggested in a written submission to the Commission by an attorney representing numberous corporate counsel. It would permit access to confidential business information by any attorney unless a submitter of information objected. The person resisting disclosure would need to make clear showing of a particular competitive injury resulting from disclosure, in which case the Commission may impose additional conditions upon disclosure. This proposal would be carried out by amending § 207.7(a), adding § 207.7(c), and by redesignating §§ 207.7(c)–(e), as §§ 207.7(d)–(f), as follows:

§ *207.7 Limited Disclosure* * * *

(a) *In general.* Upon request of an attorney of record of a party to the investigation . . . which describes with particularity the information requested, . . . the Secretary will make available confidential information concerning the domestic price and cost of production of the like product submitted by the petitioner or an interested party in support of the petitioner to such attorney under a protective order described in paragraph (b), subject to such restrictions as the Commission may impose under paragraph (c). Such requests shall name every attorney and every person described in subsection (1)(iv) of paragraph (b) to whom such information will be disclosed, and a copy of such request shall be served upon the petitioner or interested party whose confidential information is requested in the manner prescribed in § 201.16. Upon filing with the Secretary of an agreement * * *

* * * * *

(c) *Additional restrictions on disclosure.* Within five days of the date of service of a request for disclosure of confidential information under paragraph (a), the petitioner or interested party whose confidential information is sought may petition the Commission for an order denying disclosure of specifically identified information to any individual named in the request. If the party resisting disclosure makes a clear showing that it risks a particularized competitive injury as a result of disclosure of such specifically identified information to the challenged individual, and the Commission find the provisions of paragraph (b) to be inadequate as to such individual, the Commission may deny, limit, or impose additional

conditions upon the disclosure of such information to such individual.

The Commission specifically requests public comments on each of the four proposals in light of the criteria set forth above.

PART 201—RULES OF GENERAL APPLICATION

1. Section 201.2 is amended by adding paragraph (i) to read as follows:

§ 201.2 Definitions.

* * * * *

(i) Except for adjudicative investigations under subchapter C of this chapter, "party" means any person whose notice of appearance has been accepted pursuant to § 201.13 (a) or (c). The person who files a complaint or petition on the basis of which an investigation is instituted is hereby deemed a party.

2. In § 201.8, paragraph (d) is revised to read as follows:

§ 201.8 Filing of documents.

* * * * *

(d)(1) *Number of copies.* Except as provided in § 210.10(a), a signed original and fourteen (14) copies of each document shall be filed. In the event that confidential treatment of the document is requested under § 201.6, at least one additional copy shall be filed, in which copy the confidential business information shall have been deleted and which shall have been marked conspicuously "nonconfidential" or "public inspection." The name of the person signing the original shall be typewritten or otherwise reproduced on each copy.

(2) Except as provided in § 210.10(a), a copy of a petition or complaint, or a nonconfidential version thereof, shall also be served by messenger or by first-class mail on each person alleged therein to be committing the acts complained of. Such service shall be attested by a certificate of service as required in § 201.16 (b) and (c).

3. Section 201.12 is amended by revising paragraph (d) and by adding paragraph (j) to read as follows:

§ 201.12 Conduct of nonadjudicative hearings.

* * * * *

(d) *Witness lists and prepared testimony*—(1) *Parties. List of Witnesses.* Each party shall file with the Secretary a list of the witnesses it intends to call to testify at the hearing not less than three (3) business days prior to the hearing, unless the Commission establishes a different date for such submission in its notice of hearing.

(2) *Nonparties.* Persons other than parties who wish to testify at a hearing are requested to so notify the Secretary.

(3) *Supplementary material.* Up to five double-spaced pages of supplementary material, other than remarks read into the record, will be accepted for the record. Supplementary material exceeding five pages may be accepted upon a showing of such cause as may be deemed sufficient by the Chairman or other presiding official at the hearing.

* * * * *

(j) *Appearance at a hearing*—(1) *Who may appear.* A party may appear at the hearing, either in person or by representative. A nonparty who has testimony or arguments that may aid the Commission's deliberations may also appear, under such conditions as may be established by the Chairman or presiding officer at the hearing.

(2) *Requests to appear.* Requests to appear shall be filed with the Secretary. Requests shall be filed at least three (3) days in advance of the date set for hearing or by the date set in the notice of the investigation for a preliminary conference, whichever shall first occur, except that the Chairman, or presiding officer at the hearing, may waive this requirement for good cause. Witnesses on behalf of persons requesting to appear need not file separate requests to appear.

4. Section 201.13 is revised to read as follows:

§ 201.13 Participation in an investigation as a party.

(a) *Who may participate.* Any interested person may participate in an investigation as a party, either in person or by representative, by filing a notice of participation with the Secretary. Each notice of participation shall (1) state briefly the nature of person's interest in the subject matter of the investigation and (2) state the person's intent to file briefs with the Commission regarding the subject matter of the investigation. Each notice of participation shall be forwarded to the Chairman or other person designated to conduct the investigation, who shall promptly determine whether the person submitting the notice of participation has a proper interest in the investigation. If it is found that a person does not have a proper interest in the investigation, that person shall be so notified by the Secretary.

(b) *Time for filing.* Each notice of participation must be filed (1) not later than twenty-one (21) days prior to the date of the hearing, or (2) not later than twenty-one (21) days prior to the date established for filing the first prehearing brief, or (3) in the event that the Commission schedules a prehearing conference, not later than such conference or at such conference, whichever shall first occur.

(c) *Late filing.* Any notice of participation filed with the Secretary after the filing date established in paragraph (b) of this section shall be referred to the Chairman, who shall determine whether to accept such notice for good cause shown by the person desiring to file the notice. The Secretary shall promptly notify the submitter of the decision.

5. In § 201.16, paragraph (b)(3) is added and paragraph (c) is revised to read as follows:

§ 201.16 Service of process and other documents.

* * * * *

(b) *By a party other than the Commission.* * * *

(3) When service is by mail, it is complete upon mailing of the document.

(c) *Proof of service; certificate.* Each document served by a party shall include a certificate of service, setting forth the manner and date of such service. The certificate of service shall be deemed proof of service of the document. In the event a document is not accompanied by a certificate of service, the Secretary shall not accept such document for filing and shall promptly notify the offering party.

* * * * *

PART 207—INVESTIGATIONS OF WHETHER INJURY TO DOMESTIC INDUSTRIES RESULTS FROM IMPORTS SOLD AT LESS THAN FAIR VALUE OR FROM SUBSIDIZED EXPORTS TO THE UNITED STATES

§ 207.2 [Amended]

6. In § 207.2, paragraph (i) is removed and paragraph (j) is redesignated as paragraph (i).

7. In § 207.7, paragraph (a) is revised to read as follows:

§ 207.7 Limited disclosure of certain confidential information under a protective order.

(a) Upon request of an attorney of an interested party to the investigation, who certifies under oath that he does not participate in the determination of the prices of his client's products and that he does not give advice regarding the pricing of his client's products, which request (1) describes with particularity the information requested, (2) sets forth the reasons for the request, (3) demonstrates a substantial need for the information in the preparation of his case, and (4) demonstrates that he is unable without undue hardship to obtain

the substantial equivalent of the information by other means, the Secretary will make available confidential information concerning the domestic price and cost of production of the like product submitted by the petitioner or by an interested party in support of the petitioner to such attorney under a protective order described in paragraph (b).

* * * * *

8. Section 207.10 is revised to read as follows:

§ 207.10 Filing of petition with Commission.

Any interested party who files a petition with the administering authority pursuant to section 702(b)(1) or 732(b)(1) of the Act shall, in accordance with section 702(b)(2) or 732(b)(2) of the Act, file copies of the petition, pursuant to § 201.8, with the Secretary on the same day the petition is filed with the administering authority. If the petition complies with the provisions of § 207.11, it will be deemed to be properly filed on the date on which the requisite number of copies of the petition is received by the Secretary. The Secretary shall notify the administering authority of that date.

9. Section 207.16 is revised to read as follows:

§ 207.16 Summary of Conference.

The Director shall prepare for the Commission a summary of the information and arguments submitted by the parties in connection with the conference, if one is held.

10. Section 207.15 is revised to read as follows:

§ 207.15 Written briefs and conference.

Any person may submit to the Commission on or before a date specified in the notice of investigation issued pursuant to § 207.12 a written brief containing information and arguments pertinent to the subject matter of the investigation.

11. Section 207.18 is revised to read as follows:

§ 207.18 Notice of preliminary determination.

The Secretary shall serve copies of the Commission's preliminary determination under section 703(a) or 733(a) of the Act and of the facts and conclusions of law upon which the determination is based on the petitioner, other parties to the investigation, and the administering authority. The Secretary shall publish a notice of such determination in the **Federal Register.**

12. Section 207.20 is amended by redesignating the present text as paragraph (b) and adding paragraph (a) to read as follows:

§ 207.20 Institution of investigation; notice.

(a) Notice from the administering authority of an affirmative preliminary determination under section 703(b) or 733(b) of the Act and notice from the administering authority of an affirmative final determination under section 705(a) or section 735(a) of the Act shall be deemed to occur on the date on which the transmittal letter of such determination is received by the Secretary from the administering authority or the date on which notice of such determination is published in the **Federal Register** whichever shall first occur.

* * * * *

13. Section 207.22 the section heading and introductory text are revised to read as follows:

§ 207.22 Prehearing brief.

Within ten (10) days after the date of service of the public portion of the staff report by the Commission to the parties, each party may submit to the Commission a prehearing brief. A prehearing brief shall, to the extent possible, refer to the record and shall include:

* * * * *

14. In § 207.23, paragraph (b) is revised to read as follows:

§ 207.23 Hearing.

* * * * *

(b) *Procedures.* Any such hearing shall be conducted after notice published in the **Federal Register.** The hearing shall not be subject to the provisions of subchapter II, chapter 5, title 5, United States Code, or to section 702 of that title. Each party shall limit its presentation at the hearing to a nonconfidential summary of the information and arguments contained in its prehearing brief, to a nonconfidential analysis of the information and arguments contained in the prehearing briefs required by § 207.22, and to information not available at the time its prehearing brief was filed.

* * * * *

15. Section 207.24 is revised to read as follows:

§ 207.24 Posthearing briefs.

Posthearing briefs concerning the information reduced at the hearing may be filed with the Secretary within a time specified by the official presiding at the hearing, provided that no such posthearing brief shall exceed ten (10) pages of textual material, double spaced, on stationery measuring 8½ x 11 inches. In addition, the presiding official may permit persons to file within a specified time answers to questions or requests made by the Commission at the hearing. The Secretary shall not accept for filing posthearing briefs or answers which do not comply with this rule.

16. Section 207.28 is revised to read as follows:

§ 207.28 Publication of notice of determination.

Whenever the Commission makes a final determination under section 303 or title VII of the Act, the Secretary shall serve the determination and the facts and conclusions of law upon which the determination is based on the petitioner, other parties to the investigation, and the administering authority. The Secretary shall publish notice of such determination in the **Federal Register.**

17. In § 210.10, paragraph (a) is revised to read as follows:

§ 210.10 Commencement of proceedings.

(a) *Upon receipt of complaint.* A proceeding is commenced by filing with the Secretary to the Commission the original and fourteen (14) true copies of a complaint, plus one copy for each person named in the complaint as violating section 337 of the Tariff Act.

* * * * *

By order of the Commission.

Issued: May 20, 1981.

Kenneth R. Mason,

Secretary.

[FR Doc. 81-15982 Filed 5-27-81; 8:45 am]

BILLING CODE 7020-02-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Parts 1 and 7

[CC:LR-214-76]

Income Tax; Use of Property That Has Been Valued Under Section 2032A To Satisfy a Pecuniary Bequest

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed amendments to the Income Tax Regulations relating to the satisfaction of a pecuniary bequest with property that has been valued under section 2032A. The regulations would affect and provide guidance to trustees of trusts and executors of estates who satisfy a pecuniary bequest with property that has been valued under section 2032A.

DATES: Written comments and requests for a public hearing must be delivered or mailed by July 20, 1981. The amended regulations are proposed to be effective for decedents dying after December 31, 1976.

ADDRESS: Send comments and requests for a public hearing to: Commissioner of Internal Revenue, Attention: CC:LR:T Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Stephen J. Small of the Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, NW., Washington, D.C. 20224. Attention: CC:LR:T, 202–566–3238, not a toll-free call.

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 1040 of the Internal Revenue Code of 1954 (Code). these amendments are proposed to conform the regulations to section 401 (c)(2)(A) of the Crude Oil Windfall Profit Tax Act of 1980 (94 Stat. 300) which provides rules relating to the use of property that is valued under section 2032A to satisfy a pecuniary bequest and are to be issued under the authority contained in section 7805 of the code (68A Stat. 917; 26 U.S.C. 7805).

This document deletes the temporary regulations found at §§ 7.1023(b)(3)–1 and 7.1023 (h)–1 (26 CFR Part 7). These temporary regulations are deleted rather than revoked because they continue to be applicable for the estates of certain decedents whose executors or administrators elected carryover basis treatment for assets acquired or passing from decedents by filing Form 5970–A, election of Carryover Basis.

Comments and Requests for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably six copies) to the Commissioner of Internal Revenue. All comments will be available for public inspection and copying. A public hearing will be held upon written request to the Commissioner by any person who has submitted written comments. If a public hearing is held, notice of the time and place will be published in the **Federal Register**.

Regulatory Flexibility Act

Pursuant to 5 U.S.C. 605 (b), the Secretary of the Treasury has certified that the requirements of the Regulatory Flexibility Act do not apply to this Notice of Proposed Rulemaking as it will not have a significant economic impact on a substantial number of small entities. The proposed rules do not impose a significant economic burden on taxpayers. The rules affect only trustees of trusts and executors of estates who satisfy a pecuniary bequest with property that has been valued under section 2032A.

Drafting Information

The principal author of this regulation is Kyllikki Kusma of the Legislation and Regulations Division of the Office of chief Counsel, Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in developing the regulation, both on matters of substance and style.

Proposed Amendment to the Regulations

The proposed amendments to 26 CFR Part 1 and Part 7 are as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. There is added immediately after § 1.1039–1 the following new section:

§ 1.1040–1 General Rule.

(a) *Recognition of gain*—(1) *Estates.* If the executor of an estate satisfies the right of a qualified heir to receive a pecuniary bequest with property with respect to which an election was made under section 2032A (section 2032A valuation), the estate will recognize gain only to the extent that, on the date of the exchange, the fair market value of the property exceeds the fair market value such property had on the date of death or alternative valuation date, if applicable, determined without regard to section 2032A. See section 2032 for rules relating to the election of the alternative valuation date, section 2032A (e)(1) for the definition of qualified heir, and section 2203 for the definition of executor. For purposes of this paragraph (a)(1), the date of exchange is the earlier of the date the property is actually distributed or credited to the beneficiary.

(2) *Trusts.* If, by reason of the death of the decedent—

(i) A qualified heir has the right to receive from a trust a specific dollar amount which is the equivalent of a pecuniary bequest, and

(ii) The trustee of the trust satisfies such right with property with respect to which an election was made under section 2032A,

the trust will recognize gain only to the extent that the fair market value of the property on the date of the exchange exceeds the fair market value such property had on the date of death or the alternative valuation date, if applicable, determined without regard to section 2032A. For purposes of this paragraph (a)(2), the date of exchange is the earlier of the date the property is either actually distributed or credited to the beneficiary.

(3) *Scope.* If the fair market value of the property on the date of exchange is less than the fair market value the property had on the date of death or alternative valuation date, if applicable, determined without regard to section 2032A, but greater than the section 2032A valuation, the trust or estate will not recognize either a gain or loss on the exchange. A loss is recognized only if the fair market value of the property on the date of exchange is less than the section 2032A valuation. If a specific bequest of property is not satisfied with the specifically bequeathed property but, rather, is satisfied with property that has been valued under section 2032A, section 1040 will not apply to the transaction. See § 1.661 (a)–2 (f) for rules relating to distributions in kind. If the property used to satisfy the pecuniary bequest is subject to an allowance for amortization or depreciation and such deductions were taken by the estate or trust, see section 1245 and 1250 for the treatment of gain realized on the exchange, as determined under those sections.

(4) *Basis.* The basis of property acquired in an exchange in which gain realized is not recognized under section 1040 (a) and (b), is the basis of the property immediately before the exchange increased by the amount of the gain recognized to the estate or trust on the exchange.

(b) *Examples.* The provisions of this section may be illustrated by the following examples:

Example (1). C established a revocable inter vivos trust on February 14, 1978, which provided that D, a qualified heir, was to receive $150,000 of the corpus upon C's death and all of the income of the trust thereafter for life. Upon D's death, the remainder passes to E, a qualified heir. C died on August 15, 1982. During the 1984 taxable year, the trustee satisfied the $150,000 bequest with property which had been valued under section 2032A. At the time of C's death, the property had a fair market value for purposes of chapter 11 (determined without regard to section 2032A) of $140,000 and a section 2032A valuation of $80,000. On the date the bequest was satisfied, the property had a fair market value of $150,000. The trust must recognize a gain of $10,000 ($150,000 − $140,000) on the exchange.

D's basis in the property received is $90,000 ($80,000 (section 2032A valuation) + $10,000 (gain recognized by the trust)).

Example (2). H established a revocable inter vivos trust on April 20, 1977, which provided that upon H's death, P, a qualified heir, was to receive $25,000 yearly for life with the remainder being distributable to certain named qualified heirs. Any excess income was payable to J, a qualified heir. H died on June 23, 1980. The corpus of the trust consisted of property which was valued under section 2032A. The trust income for the 1985 fiscal year was only $17,000, which was not sufficient to satisfy the bequest of $25,000. Consequently, the trustee transferred to P property that had been valued under section 2032A. The property had a fair market value of $8,000 on the date of the transfer. On the date of death, the property had a fair market value for purposes of chapter 11 (determined without regard to section 2032A) of $5,000 and a section 2032A valuation of $3,000. The trust must recognize a gain of $3,000 ($8,000−$5,000) on the exchange. P's basis in the property received is $6,000 [$3,000 (section 2032A valuation) + $3,000 (gain recognized by the trust)].

Example (3). F died testate on January 3, 1980, leaving G, a qualified heir, a pecuniary bequest of $100,000, which the executor satisfied on June 14, 1982, with $20,000 in cash and property that had been valued under section 2032A. On the date of death the property had a fair market value for purposes of chapter 11 (determined without regard to section 2032A) of $90,000 and a section 2032A valuation of $60,000. On the date of the exchange the property had a fair market value of $80,000. The estate will not recognize a gain under these circumstances because the fair market value of the property on the date of exchange ($80,000) does not exceed the $90,000 fair market value the property had for purposes of chapter 11 (determined without regard to section 2032A). Additionally, the estate will not recognize a loss because the fair market value of the property on the date of exchange ($80,000) is not less than the section 2032A valuation of the property ($60,000). G's basis in the property is $60,000.

Example (4). A died testate on March 6, 1977, leaving B, a qualified heir, a pecuniary bequest of $500,000, which the executor satisfied on August 8, 1980, with property that had been valued under section 2032A and with cash of $150,000. On the date of death, the property had a fair market value for purposes of chapter 11 (determined without regard to section 2032A) of $250,000 and a section 2032A valuation of $100,000. On the date of the exchange, the property had a fair market value of $350,000. Under these circumstances, the estate will recognize a gain of $100,000 ($350,000−$250,000) on the exchange. B's basis in the property received is $200,000 [$100,000 (section 2032A valuation) + $100,000 (gain recognized by the estate)].

Example (5). The decedent, A, died testate on January 3, 1977. A's will established a trust in which B, a qualified heir, received the income of the trust for life. B also had a testamentary special power of appointment over the corpus of the trust which was exercisable in favor of C, D, and E. The potential appointees were also qualified heirs. The corpus of the trust consisted of property that was valued under section 2032A. B died on September 1, 1983. Pursuant to B's exercise of the special power of appointment, C received $200,000, D received one-third of the corpus and E received the residue of the corpus. The trustee satisfied C's right by distributing property that had been valued under section 2032A. On the date of the exchange, the property distributed to C had a fair market value of $200,000. On the date of A's death, the property had a fair market value for purposes of chapter 11 (determined without regard to section 2032A) of $75,000 and a value under section 2032A of $50,000. The trust must recognize a gain of $150,000 ($200,000−$50,000) on the exchange. Section 1040 does not apply to the exchange because C's right to receive $200,000 by virtue of B's exercise of the special power of appointment is not a right arising by reason of the death of A.

PART 7—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1976

§§ 7.1023(b)(3)-1 and 7.1023(h)-1 [Deleted but not Revoked]

Roscoe L. Egger, Jr.,
Commissioner of Internal Revenue.

BILLING CODE 4830-01-M

VETERANS ADMINISTRATION

38 CFR Part 21

Veterans Education; Time Limit To Submit Mitigating Circumstances

AGENCY: Veterans Administration.

ACTION: Proposed Regulation.

SUMMARY: The proposed regulation sets a time limit for a veteran to submit mitigating circumstances surrounding a withdrawal from a course or receipt of a nonpunitive grade which does not count toward meeting graduation requirements. The veteran must do this in order to receive educational assistance allowance for these courses. In assuring the orderly administration of benefits, the Veterans Administration may require a measure of diligence from the veteran. This proposal does this.

DATE: Comments must be received on or before July 27, 1981. It is proposed to make this proposal effective the date of final approval.

ADDRESS: Send written comments to: Administrator of Veterans Affairs (271A); Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420.

Comments will be available for inspection at the address shown above during normal business hours until August 6, 1981.

FOR FURTHER INFORMATION CONTACT: June C. Schaeffer (225), Assistant Director for Policy and Program Administration, Education Service, Department of Veterans Benefits, Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420 (202-389-2092).

SUPPLEMENTARY INFORMATION: Section 21.4136 is amended to require a veteran to report within 1 year mitigating circumstances surrounding a withdrawal from a course or receipt of a nonpunitive grade which does not count toward meeting the requirements for graduation.

The agency has determined that this proposed regulation is nonmajor in accordance with the requirements of Executive Order 12291, Federal Regulation. It has also been determined as required by the Regulatory Flexibility Act (Pub. L. 96-354) that it poses no compliance costs or reporting burdens upon the public and has no effect on businesses or State and local governments.

Additional Comment Information

Interested persons are invited to submit written comments, suggestions or objections regarding the proposal to the Administrator of Veterans Affairs (271A), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. All written comments received will be available for public inspection at the above address only between the hours of 8 am and 4:30 pm Monday through Friday (except holidays) until August 6, 1981. Any person visiting Veterans Administration Central Office in Washington, DC for the purpose of inspecting any such comments will be received by the Central Office Veterans Services Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office, and furnished the address and the above room number.

Approved: May 8, 1981.

Rufus H. Wilson,
Acting Administrator.

The Veterans Administration proposes to amend 38 CFR Part 21 as follows:

In § 21.4136, paragraph (k) is revised as follows:

§ 21.4136 Rates; educational assistance allowance; 38 U.S.C. Chapter 34.

* * * * *

(k) *Mitigating circumstances.* (1) The Veterans Administration will not pay benefits to any veteran for a course from which the veteran withdraws or

receives a nonpunitive grade which is not used in computing the requirements for graduation unless—

(i) There are mitigating circumstances, and

(ii) The veteran submits the circumstances in writing to the Veterans Administration within 1 year from the date the veteran withdraws or the date he or she completes the course for which the nunpunitive grade is given.

(2) The following circumstances are representative of those which the Veterans Administration considers to be mitigating provided they prevent the veteran or eligible person from pursuing the program of education continuously. This list is not all-inclusive.

(i) An illness of the veteran or other eligible person,

(ii) An illness or death in the veteran's or eligible person's family,

(iii) An unavoidable geographical transfer resulting from the veteran's or eligible person's employment,

(iv) An unavoidable change in the veteran's or eligible person's conditions of employment.

(v) Immediate family or financial obligations beyond the control of the veteran or eligible person which require him or her to suspend pursuit of the program of education to obtain employment.

(vi) Discontinuance of a course by the school,

(vii) Unanticipated active duty military service, including active duty for training.

(3) If the student fails to complete satisfactorily a course under subchapter V, chapter 34, title 38, United States Code, without fault, the Veterans Administration will consider the circumstances which caused the failure to be mitigating. This will be the case even if the circumstances were not so severe as to preclude continuous pursuit of a program of education. (38 U.S.C. 1780(a))

[ENH-FRL-1839-1]

Pesticides Enforcement: Proposed Rule Interpreting Sections 26 and 27 of FIFRA; Notification to the Secretary of Agriculture

AGENCY: Office of Enforcement, Environmental Protection Agency (EPA).

ACTION: Notification to the Secretary of Agriculture of a Proposed Regulation.

SUMMARY: Notice is hereby given, as required by section 25(a)(2)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA, 7 U.S.C. 136 *et seq.*), as amended, that the Administrator of EPA has forwarded to the Secretary of the U.S. Department of Agriculture a copy of EPA's Proposed Rule interpreting sections 26 and 27 of FIFRA. The Rule clarifies several of the operative terms in these sections relating to State primary enforcement responsibility for pesticide use violations.

FOR FURTHER INFORMATION CONTACT: Steve Leifer (EN-342), Pesticides and Toxic Substances Enforcement Division, Office of Enforcement, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, (202) 755-0970.

SUPPLEMENTARY INFORMATION: Section 25(a)(2)(A) of FIFRA states that the Administrator shall provide the Secretary of Agriculture with a copy of any proposed regulation at least 60 days prior to signing it for publication in the **Federal Register**. If the Secretary comments in writing regarding the proposed regulation within 30 days after receiving it, the Administrator shall publish in the **Federal Register** (with the proposed regulation) the comments of the Secretary, if requested, and the response thereto of the Administrator. If the Secretary does not comment in writing within 30 days after receiving the proposed regulation, the Administrator may sign such regulation for publication in the **Federal Register** any time after such 30-day period.

Pursuant to FIFRA section 25(a)(3), a copy of this proposed Rule has also been forwarded to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition and Forestry of the Senate. The Rule has also been submitted to the FIFRA Scientific Advisory Panel as required by section 25(d).

(Section 25 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, 7 U.S.C. 136 *et seq.*)

Dated: May 19, 1981.

AGENCY: Environmental Protection Agency

ACTION: Notice of availability of information and request for comments

SUMMARY: On December 17, 1980, the Environmental Protection Agency noticed in the **Federal Register** drafts of four Technical Resource Documents providing design and evaluation information related to hazardous waste disposal regulations promulgated by the Agency. These documents were noticed for public comment on the accuracy and usefulness of the information presented. The purpose of today's notice is to announce the availability of four additional draft Technical Resource Documents.

DATES: Comments on these reports are due on or before August 26, 1981.

ADDRESSES: Comments should be addressed to Deborah Villari, Docket Clerk, Office of Solid Waste (WH-562), U.S. Environmental Protection Agency, 401 M Street, SW, Washington, D.C., 20460. Communications should identify the document title, (e.g., "Closure of Hazardous Waste Surface Impoundments", SW-873).

Copies of these reports are available for reading at the EPA Library Public Information Reference Unit (Room 2404) and Subtitle C Docket Room (Room 2711), both located at 401 M Street, SW, Washington, D.C., and at all Regional Office Libraries during the hours of 9:00 a.m. to 4:30 p.m., Monday through Friday.

Copies of all the draft Technical Resource Documents are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia, 22161. The following is a list of currently available draft Technical Resource Documents with publication numbers:

	NTIS publication No.
1. Evaluating Cover Systems for Solid and Hazardous Waste (SW-867).	PB-81-166-340.
2. Hydrologic Simulation on Solid Waste Disposal Sites (SW-868).	PB-81-166-332.
3. Landfill and Surface Impoundment Performance Evaluation (SW-869).	PB-81-166-357.
4. Lining of Waste Impoundment and Disposal Facilities (SW-870).	PB-81-166-365.
5. Management of Hazardous Waste Leachate (SW-871).	PB-81-189-359.
6. Guide to the Disposal of Chemically Stabilized and Solidified Waste (SW-872).	PB-81-161-505.

	NTIS publication No.
7. Closure of Hazardous Waste Surface Impoundments (SW-873).	PB-81-166-894.
8. Hazardous Waste Land Treatment (SW-874).	PB-81-162-107.

The first four Technical Resource Documents were noticed December 17, 1980 and the comment period closed May 6, 1981. The last four documents are being noticed for availability today.

FOR FURTHER INFORMATION CONTACT: Les Otte, Office of Solid Waste (WH-564), U.S. Environmental Protection Agency, 401 M Street, SW, Washington, D.C., 20460, (202-755-9125).

SUPPLEMENTARY INFORMATION: EPA has promulgated a number of regulations for hazardous waste managment facilities under the authority of Section 3004 of RCRA. Regulations included in 40 CFR Parts 264, 265, and 267, addressing land disposal of hazardous waste have been promulgated on several dates beginning with May 19, 1980. While some of these regulations apply to interim status facilities (i.e., those in existence on November 19, 1980 which have complied with certain RCRA administrative requirements), others apply to facilities seeking a RCRA facility permit, either new or existing. Common to all these regulations are many technical requirements needing interpretation on a case-by-case basis. Information and guidance is needed both by the regulated facility owner or operator and by the state or Federal official making permit decisions. To provide this information and guidance the Agency has under development a series of Technical Resource Documents. Drafts of four of these documents were made available for public comment on December 17, 1980. The Agency is today making four additional draft documents available for public comment. In the future the Agency will notice the availability of still more such documents.

The Technical Resource Documents provide information on hazardous waste land disposal technologies and on techniques for evaluating facility designs and potential performance. They represent the current state of the art on these topics. Comments are requested on the accuracy and completness of the information presented, and usefulness of the information to state or Federl permit officials and facility owners or operators. Where inaccuracy or incompleteness is identified, commenters are requested to provide suggested remedies.

Dated: May 21, 1981.

Gary Dietrich,

Acting Deputy Assistant Administrator.

BILLING CODE 6560-30-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 81-168; RM-3561; RM-3608]

FM Broadcast Stations in Ellsworth, Farmington, Lewiston, and Skowhegan, Maine; Order Extending Time for Filing Comments and Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; extension of comments and reply comments period.

SUMMARY: Action taken herein extends the time for filing comments in a proceeding concerning the proposed assignment of FM channels in Ellsworth, Farmington, Lewiston and Skowhegan, Maine. Petitioner, Robert Harris, states that additional time is required to complete its preclusion study.

DATE: Comments must be filed on or before May 22, 1981, and reply comments on or before June 12, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

Adopted: May 19, 1981.

Released: May 20, 1981.

By the Chief, Policy and Rules Division.

In the matter of an amendment of § 73.202(b), table of Assignments, FM Broadcast Stations. (Ellsworth, Farmington, Lewiston, and Skowhegan, Maine), BC Docket No. 81-168, RM-3561, RM-3608, (46 FR 18743; 3-26-81), order extending time for filing comments.

1. On March 13, 1980, the Commission adopted a *Notice of Proposed Rule Making*, 46 FR 18743, published March 26, 1981, concerning the above-entitled proceeding. The date for filing comments expired on May 12, 1981, and reply comments are due June 1, 1981.

2. On May 14, 1981, counsel for Robert Harris ("Harris") filed a request for extension of time to and including May 22, 1981, in which to file supporting comments here. Counsel states that Harris' engineer has been engaged in other matters before the Commission, and therefore, completion of its preclusion study has been delayed. Additional time is now requested to permit its engineer to complete the required study. Counsel states that all parties to this proceeding have indicated no objection to the requested extension of time.

3. Section 1.46 of the Commission's Rules states that extension requests must be filed seven days in advance of the filing deadline. However, since the Commission feels it would be in the public interest to have this material available to it in arriving at a decision in this proceeding, we will grant the additional time.

4. Accordingly, it is ordered, That the time for filing comments and reply comments in BC Docket No. 81-168, are extended to and including May 22, and June 12, 1981, respectively.

5. This action is taken pursuant to authority contained in 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and section 0.281 of the Commission's Rules.

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

47 CFR Part 73

[BC Docket No. 81-239; RM-2859; FCC 81-170]

Amendment of Part 73, Subpart E of the Commission's Rules and Regulations Concerning the Operation of Television Broadcast Stations by Remote Control

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has proposed amending its rules to delete the requirement for TV broadcast stations operated by remote control to transmit, and log observations of, vertical interval test signals (VITS). Such a deletion should permit greater operating flexibility and reduce costs for these TV systems.

DATES: Comments are due on or before July 20, 1981 and replies on or before August 19, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Herbert Zeiler, Broadcast Bureau, (202) 632-9660.

Adopted: April 9, 1981.

Released: April 22, 1981.

By the Commission: Chairman Ferris not participating.

In the matter of an amendment of Part 73, Subpart E of the Commission's Rules and Regulations concerning the operation of television broadcast stations by remote control, BC Docket No. 81-239, RM-2859, notice of proposed rulemaking.

1. The Commission has before it a petition for rulemaking (RM-2859) filed by the American Broadcasting Companies, Inc. (ABC). The petition requests the amendment of §§ 73.676(f) and 73.699 of the Rules. Comments in response to the petition were filed by CBS, Inc. (CBS); Consumer Electronics Group of the Electronic Industries Association (EIA); Joint Committee on Inter-Society Coordination Ad Hoc Committee on Television Ancillary Signals (JCIC); National Broadcasting Company, Inc. (NBC); and the Public Broadcasting Service (PBS). Late comments were filed by the National Association of Broadcasters (NAB).

2. The rule modifications sought by ABC concern the particular test signals, commonly referred to as VITS (vertical interval test signals), that must be transmitted by television broadcast stations operated by remote control. Specifically, ABC proposes amending the rules to specify only two vertical interval test signals, the configuration and characteristics of which are different from the ones required under the present rules.[1] The proposal would reduce the space in the vertical blanking interval used for VITS from two lines to one. ABC also proposes to amend the rules to specifically allow the use of automatic measuring equipment to monitor and log signal observations.

3. The proposed test signals are presently used by the four major networks and AT&T to assess the quality of the video signals distributed through transmission facilities leased from the Bell System. The use of these test signals by TV stations would conform remote control operations to present network test signal practices. In further support of the proposal, ABC claims that these test signals can measure the same relevant transmission and transmitter performance characteristics as those presently prescribed by the rules as well as permit additional measurements to be made. Another advantage of the two test signal concept, it argues, is that the broadcaster can put a signal generator operating at line 18 at the transmitter, monitor both the composite and combination signals, and compare the results to the same signals inserted on line 17 at the control center. Finally, petitioner notes that the proposed test signals are in agreement with the International Radio Consultative Committee (CCIR) draft recommendations.[2]

4. With regard to automatic measuring equipment, ABC argues that automatic vertical interval transmission analyzers were not available when the rules governing these test signals were adopted. Such equipment, however, is available today that will automatically monitor the remote transmitter and transmission link as well as log the information. ABC states that it and others have had considerable experience in the use of such equipment over the past few years with favorable results.

5. All comments filed in response to the petition supported the proposal. CBS, NAB, and JCIC stated that the proposal would make available additional space in the vertical blanking interval that could be used to meet future requirements. Several parties argued that if licensees were permitted to transmit the same test signals used by the networks, an incentive would be provided for the further development of automatic VITS monitoring and correction equipment.

6. The Commission has reviewed the ABC petition and the responses to it. Rather than propose the rule changes sought, we believe that stations operated by remote control should no longer be required to transmit vertical interval test signals. Consequently, our proposal is to delete the present rule sections requiring VITS transmission and those specifying the particular VITS to be transmitted. Our rationale for this proposal follows.

7. The current rules requiring stations operating by remote control to transmit prescribed vertical interval test signals were adopted in 1971 in Docket 18425, *Second Report and Order* (31 F.C.C. 2d 391). That proceeding permitted the operation of VHF-TV stations by remote control and unified the rules governing the remote operation of UHF-TV stations with those adopted for VHF stations. At that time the Commission believed that continuous transmission of the VITS, *i.e.*, simultaneous with regular program transmissions, was necessary to supervise the performance of the television system on a continuous basis. The Commission felt that the VITS to be transmitted should be specified by its rules to encourage licensee's use and reliance on the test signals, to promote simplicity in test equipment, and since the VITS were to be transmitted continuously, to limit the possibility of their interferring with regular program material. The Commission was also concerned that distortion and noise inherent in the monitoring process could be minimized if particular test signals were used. To insure licensees would take advantage of the continuous tranmission of the VITS, observations were required at a minimum of every half hour. The rule amendments adopted in the *Second Report and Order* were reconsidered by the Commission in a *Memorandum Opinion and Order* released on December 13, 1971, and with one non-germane exception retained.

8. Now some ten years later, VITS are extensively used by broadcast stations even where there are no Commission requirements. The VITS used include both those contained in the Commission's rules and others, such as those suggested by ABC. Equipment is available that will generate a variety of vertical interval test signals and analyzers are available that will analyze particular test signals.

9. In the same time period, the Commission itself has undergone changes in its regulatory philosophy. Today we place greater emphasis on the inherent working of the broadcast marketplace to regulate licensee behavior and conduct and on deregulation to lessen the number of rules licensees must obey. With these twin goals the Commission's review of the ABC request and the requirements of the present rules suggests that specific VITS requirements may no longer be necessary.

10. Firstly, we now question the need for VITS to be transmitted continuously with program material. The rules requiring monitoring of the VITS on a half-hourly basis to insure proper supervision of the transmission system were modified 14 months after they became effective to require observation every three hours. From experience, the Commission has found that the observations performed by station employees are quite cursory. (Station operating logs reflect this. After inspection of the VITS, a common practice is to check a block in the operating log indicating "VITS OK.") We have found that VITS are used in a meaningful manner at most stations only during maintenance and testing periods when the whole transmission system is evaluated. Most aberrations in the TV station's transmitted signal occur with the program source, such as variations

[1] The proposed test signals consist of a composite signal on field 1, line 17, and a combination signal on field 2, line 17; while the present rules require a multiburst on field 1, line 17, color bars on field 2, line 17, composite signal on field 1, line 18, and a fourth signal, either a composite or other suitable test signal, on field 2, line 18.

[2] CCIR Recommendation 473-2 for 525 line systems, Volume XII, 1978.

in the color burst and in the synchronization pulses. Since the VITS are intended to only indicate malfunctions in the studio output to transmitting antenna portion of a station's equipment, observations of the VITS do not detect defects in the program source signal.

11. Secondly, the broadcast industry has through its comments in response to the ABC petition, indicated that there is agreement on the type of vertical interval test signal that should now be used. Each of the major networks filed comments supporting the ABC proposal. This industry agreement on standardization of VITS has arisen because of use in common carrier transmission facilities (see para. 3, *supra),* independent of our rules for certain broadcasting facilities. Thus, in view of the industry agreement, there may no longer be any need for Commission rules to achieve standardization.

12. Thirdly, the present rules require that the VITS be added to the program signal at the transmitter remote control location. This requirement was based on the assumption of a typical TV station having the remote control point at a nearby studio location from which all programs would originate or be route to the transmitter. Many complex TV station operations, particularly statewide public broadcast systems, do not follow this assumed station plan. Programs may originate from a central studio location and be distributed by microwave relay directly to several transmitter sites. The statewide system may be divided into regions each having a common remote control point for several transmitters. Extensive duplication of equipment and microwave circuits may be required for such systems to comply with the existing rules. The Commission has granted waivers to some statewide public television systems where effective alternative measurement procedures can be used. Deleting the present remote control VITS requirements would permit much greater operating flexibility and operating economies for many such TV systems.

13. Finally, the Commission recognizers that the rules place different requirements on licensees who operate by remote control and those who don't. Those who do must now transmit VITS continuously with regular program material and observe them every three hours. Licensees who do not operate by remote control and yet are under the same broadcast quality transmission standards as those licensees who do, are under no obligation to transmit vertical interval test signals except as necessary to determine if the transmitter is functioning properly. The VITS used by remotely controlled stations are not used by the Commission's Field Operations Bureau in its enforcement efforts. They may be used to see if there are any readily identifiable problems with a particular licensee's equipment buy they are not used as the basis for violation notices. The Commission now feels that the licensees as a group should be held responsible for the quality of their transmissions. This places the responsibility for the station's proper operation, whether it includes remote control links or not, directly on their shoulders. We no longer desire to separate those who operate by remote control from those who don't and to impose greater burdens on the former category. It is not unreasonable, in our opinion, to expect licensees of stations operated by remote control, as we do with other television operations, to employ on their own whatever measures are necessary to insure quality transmissions. After all, it is to the licensee's benefit to provide a high quality broadcast signal. We are proposing, therefore, to delete § 73.676(f) requiring stations operated by remote control to transmit test signals in the vertical interval along with § 73.699, Figures 13, 14 and 15.

14. By proposing to delete the VITS standards and the mandatory transmission requirements, it is not our intention to encourage laxity on the part of licensees with respect to monitoring system performance. Nor are we proposing in any way to relieve the licensee of its responsibility to take appropriate measures to insure a quality transmission. Elimination of these requirements, we believe, merely increases the licensee's flexibility in monitoring system performance. Thus, under this approach, when and how often test signals are transmitted, how often they are observed, and their exact characteristics and configurations will be left up to the licensee. We expect, however, all licensees to perform tests and observations as necessary to insure proper performance and the test signal characteristics to be such as to not cause interference.

15. ABC states that automatic VITS analyzers are now available and requests amendment of the rules to provide for such equipment. Our present rules, however, do not restrict the usage of such equipment by TV stations. On the contrary, § 73.1820 permits the use of automatic measuring devices to record entries into the operating log. We see no reason, therefore, to modify our rules to expressly allow the use of specific types of equipment which are otherwise permitted.

16. *Regulatory Flexibility Act Initial Analysis.*

I. *Reason for action.* The Commission believes that the mandatory requirement that television stations operated by remote control continuously transmit Commission specified test signals during the vertical blanking interval may no longer be necessary.

II. *The objective.* The objective is to lessen the regulatory burden on television stations operated by remote control and allow, to a greater extent, the broadcast marketplace to regulate licensee conduct.

III. *Legal basis.* Action is proposed in accordance with Sections 303 (g) and (r) of the Communications Act of 1934 as amended which charges the Commission to encourage the more effective use of radio in the public interest.

IV. *Description, potential impact and number of small entities affected.* The proposed rule change would have its direct effect on television stations operated by remote control (approximately 600 stations) by eliminating the additional Commission requirements now placed on such stations. Under this proposal when and how often test signals are transmitted, how often they are observed, and their exact characteristics and configurations would be left up to the licensee.

V. *Recording, record keeping and other compliance requirements.* The proposal would delete certain record keeping requirements and introduce no new ones.

VI. *Federal rules which overlap, duplicate or conflict with this rule.* None.

VII. *Any significant alternative minimizing impact on small entities and consistent with stated objectives.* The Commission's alternatives are to maintain the status quo or to propose to adopt the VITS suggested by ABC.

17. For purposes of this non-restricted notice and comment rule making proceeding, members of the public are advised that *ex parte* contacts are permitted from the time the Commission adopts a Notice of Proposed Rule Making until the time a public notice is issued stating that a substantive disposition of the matter is to be considered at a forthcoming meeting or until a final order disposing of the matter is adopted by the Commission, whichever is earlier. In general, an *ex parte* presentation is any written or oral communication (other than formal written comments/pleadings and/formal oral arguments) between a person

outside the Commission and a Commissioner or a member of the Commission's staff which addresses the merits of the proceeding. Any person who submits a written *ex parte* presentation must serve a copy of that presentation on the Commission's Secretary for inclusion in the public file. Any person who makes an oral *ex parte* presentation addressing matters not fully covered in any previously-filed written comments for the proceeding must prepare a written summary of that presentation; on the day of oral presentation, that written summary must be served on the Commission's Secretary for inclusion in the public file, with a copy to the Commission official receiving the oral presentation. Each *ex parte* presentation described above must state on its face that the Secretary has been served, and must also state by docket number the proceeding to which it relates. See generally, § 1.1231 of the Commission's rules, 47 CFR 1.1231.

18. This action is taken pursuant to authority found in Sections 4(i), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended.

19. Pursuant to applicable procedures set forth in § 1.415 of the Commission's Rules, interested parties may file comments on or before July 20, 1981, and reply comments on or before August 19, 1981. All relevant and timely comments will be considered by the Commission before further action is taken in this proceeding.

20. In accordance with the provisions of Section 1.419 of Commission's Rules and Regulations, an original and five copies of all comments, replies, or other documents filed in this proceeding shall be furnished to the Commission. Participants filing the required copies who also wish each Commissioner to have a personal copy of the comment may file an additional six copies. Members of the general public who wish to express their interest by participating informally in this proceeding may do so by submitting one copy of their comments, without regard to form, provided that the docket number is specified. Such informal participating who wish members of the staff to have a personal copy and to have an extra copy available for the Commission's may file an additional five copies. In reaching its decision, the Commission may take into consideration information and ideas not contained in the comments, provided that such information or a writing indicating the nature and source of such information is placed in the public file, and provided that the fact of the Commission's reliance on such information is noted in the Report and Order. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room (Room 239) at its headquarters in Washington, D.C. (1919 M Street NW.).

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix

§ 73.676 [Amended]

1. It is proposed to amend § 73.676 by removing paragraph (f) in its entirety.

§ 73.699 [Amended]

2. It is proposed to amend § 73.699 by removing Figures 13, 14, and 15.

§ 73.1820 [Amended]

3. It is proposed to amend § 73.1820 by removing paragraph (a)(4)(i)(C) in its entirety.

47 CFR Part 73

[BC Docket No. 78-155; RM-2809; FCC 81-171]

Common Use of TV Towers

AGENCY: Federal Communications Commission.

ACTION: Denial of proposed rule (proceeding terminated).

SUMMARY: FCC terminates proceeding without issuing a Notice of Proposed Rule Making, as requested, which would have required that construction permits involving towers of VHF television stations be conditioned on permitting UHF television stations, at their request and expense, to place their antenna on the VHF's tower. It is concluded that the present rule adequately covers the matter and that the record in the proceeding does not support further consideration of the proposed rule.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Steve Crane or Philip Cross, Broadcast Bureau, (202) 632-5414.

SUPPLEMENTARY INFORMATION:

Adopted: April 9, 1981.

Released: April 21, 1981.

By the Commission: Chairman Ferris not participating.

In the matter of Common Use of TV Towers, BC Docket No. 78-155, RM-2809, Report and Order, (Proceeding Terminated).

1. The Commission has under consideration its *Notice of Inquiry* adopted May 18, 1978, in the above captioned matter (FCC 78-351; 68 F.C.C. 2d 634) and the comments and reply comments filed in response to that *Notice.*

2. The *Notice of Inquiry* was adopted as a result of a petition for rule making filed by Triangle Telecasters, Inc.[1] It is requested the amendment of § 73.635 of the rules (Use of common antenna site) "to require that grants of construction permits for new or changed facilities for VHF television stations which involve construction or modification of a tower, be conditioned to permit UHF-TV stations, upon request and at their own expense, to place their antenna on the tower." Section 73.635 now provides:

§ 73.635 Use of common antenna site.

No television license or renewal of a television license will be granted to any person who owns, leases, or controls a particular site which is peculiarly suitable for television broadcasting in a particular area and (a) the site is not available for use by other television licensees; and (b) no other comparable site is available in the area; and (c) where the exclusive use of such site by the applicant or licensee would unduly limit the number of television stations that can be authorized in a particular area or would unduly restrict competition among television stations.

3. The Commission stated that "Triangle's proposal appears to warrant * * * investigation. Thus, although we are not fully persuaded that the petitioner has made a case for incorporating it [the proposal] in specific language in the rules, we are adopting this *Notice of Inquiry* to explore the proposal further." The Commission then asked a number of specific questions and asked interested parties to comment on them. Finally, the Commission expressed "its willingness to consider the proposition and if the record in the *Inquiry* supports consideration of a rule, specific proposals will be examined in a subsequent rule making proceeding." Twelve comments and one reply comment were filed. Nine were in opposition and three were in support.[2]

4. Petitioner and supporters of the change propose a rule which would read as follows:

* * * designate existing § 73.635 of the Commission's Rules as § 73.635(a), and add Subsections (b) and (c) to § 73.635 as follows:

(b) No construction permit will be granted for a new VHF television station or for a change in the facilities of an existing VHF

[1] Predecessor in interest to American Telecasters, Inc., who filed comments and the only reply comment in response to the *Notice.*

[2] See Appendix for list of commenters.

television station involving construction of a new or modified tower, except upon the condition that the VHF applicant allow placement on the tower to be used by it of the antenna of any existing or proposed UHF television station requesting such placement and making provision for payment of reasonable additional costs resulting from the adaptation or change, if any, in the tower design to permit the placement of such UHF antenna(s).

(c) Any UHF licensee or applicant seeking to place a UHF antenna on the tower of a VHF licensee or applicant pursuant to Subsection (b) of this Section, may be required to pay reasonable rental based upon allocation to such UHF licensee or permittee of a pro rata cost of construction or alteration of the tower and support facilities, except to the extent that provision for payment of such pro rata costs has otherwise been made as provided in Subsection (b) of this Section. The allocation of costs shall be made by dividing the incremental costs incurred for construction or alteration of the tower and support facilities to accommodate UHF antennas, by the total number of UHF antennas to be placed on the tower.

5. Such a rule, it was alleged, would result in "substantial public interest benefits," by affording existing UHF–TV stations a facilities-improvement "opportunity," or "provide for an additional UHF station in a community" by making such venture a financial possibility as a result of cost savings due to tower sharing. The proposed rule would allow the UHF–TV station common usage of the VHF station's tower for an expenditure of the amount equal only to "reasonable additional costs resulting from adaptation or change;" [3] and further would allow the pay-off to be based on a "reasonable rental." The rule change, it was stated, would "[equalize] UHF service with VHF service." It was purported to further the aims of the Commission and the Congress in encouraging UHF growth and likened it to such governmentally mandated equalization measures as the "All-Channel Receiver Law and the Comparable Tuning Regulations."

6. Initially, we note that arrangements for the sharing of antenna towers are desirable. Such agreements can reduce individual station costs, thereby making a better program product possible. Moreover, they also may permit utilization of more advantageous transmitter sites which can improve signal quality in the area to be served.[4] In this regard, supporters of the proposed rule could cite only one instance of a refusal to consider the joint use of a tower.[5] This leads us to believe that the economic forces which seem to compel licensee consideration of such sharing arrangements are working as we would expect.

7. We continue to believe that the public interest is furthered by the institution of new television service, UHF and VHF, and we will continue to seek means by which any inequalities between those services can be resolved. However, the proposal before us goes so far as to favor UHF over VHF in bearing the cost of any new construction. Even if the rule did not attempt to apportion the additional costs of modifying the new tower, the creation of a regulatory right of access to the tower skews the negotiations of the parties. In this regard, the record indicates that individual licensees have, in all but one case, adequately negotiated these matters without Commission intervention.

8. Under these circumstances, it does not appear that any further regulatory intrusion into this area is necessary. In fact, we believe that our current restriction strikes the proper balance between the exercise of a licensee's business judgment and the Commission's responsibility to regulate the broadcast industry in the public interest. That is, we would intrude in this area only in situations where the exclusive use of a unique site results in limitations of service to the public. Therefore, having considered the proposal, comments in support thereof and in opposition thereto, we conclude that there is insufficient reason to proceed to a Notice of Proposed Rule Making in this matter.

9. In view of the foregoing, it is ordered, That this proceeding is terminated.

Federal Communications Commission.

William J. Tricarico,

Secretary.

DEPARTMENT OF AGRICULTURE

Science and Education Administration

Joint Council on Food and Agricultural Sciences Executive Committee; Meeting

According to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92–463, 86 Stat. 770–776), the Science and Education Administration announces the following meeting:

Name: Executive Committee of the Joint Council on Food and Agricultural Sciences.
Date: June 10, 1981.
Time and Place: 8:30 a.m.–4:00 p.m., Room 3109, South Building, USDA, Washington, D.C.
Type of Meeting: Open to the public. Persons may participate in the meeting as time and space permit.
Comments: The public may file written comments before or after the meeting with the contact person below.
Purpose: Review results of GAO study *Long Range Planning for U.S. Agricultural Research and Development;* discuss Joint Council/Users Advisory Board interaction; hear reports from the Committee on Minority Affairs and the Study Group on Increasing Public Understanding of Agricultural Science and Education.
Contact Person: Susan G. Schram, Executive Secretary, Joint Council on Food and Agricultural Sciences, U.S. Department of Agriculture, Room 351–A, Administration Building, Washington, D.C. 20250, telephone (202) 447–6651.

Done at Washington, D.C., this 18th day of May 1981.

John G. Stovall,
Executive Director, Joint Council on Food and Agricultural Sciences.

BILLING CODE 3410–03–M

Soil Conservation Service

Critical Area Treatment on Public School Lands, Puerto Rico

AGENCY: Soil Conservation Service, U.S. Department of Agriculture.

ACTION: Notice of Finding of No Significant Impact.

FOR FURTHER INFORMATION CONTACT: Mr. Ivan R. Emmanuelli, Director, Caribbean Area, Soil Conservation Service, Room 609, Federico Degetau Federal Building and U.S. Courthouse, Carlos Chardon Avenue, Hato Rey, Puerto Rico 00918, telephone number (809) 753–4206.

NOTICE: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Critical Area Treatment on Public School Lands, RC&D Measure, Puerto Rico.

The environmental assessment of this federally-assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Ivan R. Emmanuelli, Director, Caribbean Area, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for critical area treatment. The planned works of improvement include land treatment measures such as shaping, liming, fertilizing, seeding to permanent vegetation of disturbed areas, and installation of temporary fences to protect treated areas. Sidewalks will be installed in selected school locations.

The Notice of Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Ivan R. Emmanuelli. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until June 29, 1981.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. Office of Management and Budget Circular A–95 regarding State and local clearinghouse review of Federal and federally-assisted programs and projects is applicable.

Dated: May 20, 1981.

Joseph W. Haas,
Deputy Chief for Natural Resource Projects.

BILLING CODE 3410–16–M

Lake Vernon Spillway Park Critical Area Treatment, Louisiana

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of a Finding of No Significant Impact.

FOR FURTHER INFORMATION CONTACT: Mr. Alton Mangum, State Conservationist, Soil Conservation Service, 3737 Government Street, Alexandria, Louisiana 71301, telephone 318–473–7751.

NOTICE: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Lake Vernon Spillway Park Critical Area Treatment RC&D Measure, Vernon Parish, Louisiana.

The environmental assessment of this federally-assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Alton Mangum, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for the stabilization of four acres of critically eroding land along Lake Vernon in the Lake Vernon Spillway Park. One segment of shoreline will be shaped and seeded to grass. Planned structures include a retainer wall, steps, and traffic barriers.

The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Alton Mangum. The FNSI has been sent to

various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until June 29, 1981.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. Office of Management and Budget Circular A-95 regarding State and local clearinghouse review of Federal and federally-assisted programs and projects is applicable.)

Dated: May 20, 1981.

Joseph W. Haas,

Deputy Chief for Natural Resource Projects.

[FR Doc. 81-15961 Filed 5-27-81; 8:45 am]

BILLING CODE 3410-16-M

Roadbank Stabilization Critical Area Treatment RC&D Measure, Pennsylvania

AGENCY: Soil Conservation Service, U.S. Department of Argiculture.

ACTION: Notice of Finding of No Significant Impact.

FOR FURTHER INFORMATION CONTACT: Graham T. Munkittrick, State Conservationist, Soil Conservation Service, Federal Building, 228 Walnut Street, Harrisburg, Pennsylvania 17108, telephone number (717) 782-2202.

NOTICE: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Counsel on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an enviromental impact statement is not being prepared for the Roadbank Stabilization Critical Area Treatment RC&D Measures, Allegheny, Fayette, Greene, Washington, and Westmoreland Counties, Pennsylvania

The environmental assessment of this federally-assisted action indicates that the measures will not cause significant impact on the environment. As a result of these findings, Mr. Graham T. Munkittrick, State Conservationist, has determined that preparation and review of an environmental impact statement are not needed for these measures.

The measures concern plans for critical area treatment. The planned works of improvement include soil and water conservation practices to stabilize bare eroding roadbanks, slips and roadbanks subject to meandering high velocity streams. Practices include grading, subsurface drains, riprap gabions, short sections of retaining walls and vegetative treatment with lime, fertilizer, seed shrubs, and mulch.

The Notice of Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Graham T. Munkittrick. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests.

Implementation of the proposal will not be initiated until June 29, 1981.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. Office of Management and Budget Circular A-95 regarding State and local clearinghouse review of Federal and federally-assisted programs and projects is applicable.)

Dated: May 20, 1981.

Joseph W. Haas.

Deputy Chief for Natural Resource Projects.

BILLING CODE 3410-16-M

Buckhannon-Upshur Intermediate and Academy School Grounds R.C. & D. Measure; West Virginia

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of a finding of no significant impact.

FOR FURTHER INFORMATION CONTACT: Mr. Craig M. Right, State Conservationist, Soil Conservation Service, 75 High Street, Morgantown, West Virginia 26505, telephone 304-599-7151.

Notice

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Buckhannon-Upshur Intermediate and Academy School Grounds RC&D Measure, Upshur County, West Virginia.

The environmental assessment of this federally-assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Craig M. Right, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns plans for the revegetation of about 2 acres of critical areas at the two school sites. A combination of structural and vegetative practices are necessary to establish adequate vegetation on the critical areas. Included in the planned works of improvement are vegetative practices, subsurface drains, and diversion.

The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Craig M. Right. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until June 29, 1981.

Dated: May 20, 1981.

BILLING CODE 3410-16-M

Canton Athletic Area Land Drainage R.C. & D. Measure; Oxford County, Maine

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of a Finding of No Significant Impact.

FOR FURTHER INFORMATION CONTACT: Mr. Billy R. Abercrombie, State Conservationist, Soil Conservation Service, USDA Office Building, University of Maine, Orono, Maine 04473, telephone (207) 866-2132.

Notice

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Canton Athletic Area Land Drainage RC&D Measure, Oxford County, Maine.

The environmental assessment of this federally-assisted action indicates that

the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Billy R. Abercrombie, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for subsurface drainage on an athletic field in the town of Canton, Maine. The planned works of improvement consists of installation of an underground tile drainage system to collect and dispose of subsurface water, surface grading, and seeding the area.

The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Billy R. Abercrombie. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until June 29, 1981.

BILLING CODE 3410–16–M

Crow Creek—Optimist Park Water Based Recreation R.C. & D. Measure; Wyoming

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of a Finding of No Significant Impact.

FOR FURTHER INFORMATION CONTACT: Mr. Frank S. Dickson, Jr., State Conservationist, Soil Conservation Service, Federal Building, 100 East B Street, P.O. Box 2440, Casper, Wyoming 82602, telephone number (307) 265–5550.

Notice

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Crow Creek—Optimist Park Water Based Recreation RC&D Measure, Laramie County, Wyoming.

The environmental assessment of this federally-assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Frank S. Dickson, Jr., State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure plan includes installation of 1,000 feet of concrete bikeway-walkway, curbing, parking lot, drain pipe, underground irrigation system, picnic shelter, and picnic tables. Also included are grading and shaping, grass seeding, tree plantings, fencing, and cleanup of Crow Creek along the park development area.

The project area is 2.5 acres in size and will be open to the public. Crow Creek runs for a distance of about 600 feet through the planned park.

The Notice of a Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Frank S. Dickson, Jr. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until June 29, 1981.

BILLING CODE 3410–16–M

Daviess County Lions Club Park RC&D Measure Plan, Kentucky

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of finding of no significant impact.

FOR FURTHER INFORMATION CONTACT: Eddie L. Wood, State Conservationist, Soil Conservation Service, 333 Waller Avenue, Lexington, Kentucky 40504, telephone (606) 233–2749.

Notice

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Daviess County Lions Club Park RC&D Measure Plan, Daviess County, Kentucky.

The environmental assessment of this federally-assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Eddie L. Wood, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for land drainage, water disposal areas, and vegetative cover. The planned works of improvement include critical area treatment, underground tile drainage, open ditch drainage, a riprap chute, a grass waterway, a diversion channel, and some land smoothing.

The Notice of Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Eddie L. Wood. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until June 29, 1981.

BILLING CODE 3410–16–M

Johnson Creek Watershed; Washington

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of Finding of No Significant Impact.

FOR FURTHER INFORMATION CONTACT:
Mr. Lynn A. Brown, State Conservationist, Soil Conservation Service, 360 U.S. Courthouse, West 920 Riverside Avenue, Spokane, Washington 99201, telephone (509) 456–3711.

Notice

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Johnson Creek Watershed, Whatcom County, Washington.

The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Mr. Lynn A. Brown, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for the accelerated application of water quality measures to reduce discharge of dairy waste into watershed streams. The water quality measures to be installed by individual farm owners and/or operators include rainwater handling facilities such as rain gutters, downspouts and diversion pipes, animal waste storage facilities, including ponds, concrete tanks and glass lined steel tanks, animal waste distribution facilities such as pipelines and risers, animal waste handling facilities including concrete curbs and slabs, roofs over dry stacked animal wastes, and fencing of stream corridors in selected reaches.

The Notice of Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Mr. Lynn A. Brown, State Conservationist. The FNSI has been sent to various Federal, State, and local agencies, and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until June 29, 1981.

Kinkaid Lake R.C. & D. Measure; Illinois

AGENCY: Soil Conservation Service, Department of Agriculture.

ACTION: Notice of Finding of No Significant Impact.

FOR FURTHER INFORMATION CONTACT:
Warren J. Fitzgerald, State Conservationist, Soil Conservation Service, Springer Federal Building, 301 North Randolph Street, Champaign, Illinois 61820, telephone (217) 398–5267.

Notice

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; The Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); The Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Kinkaid Lake RC&D Measure, Jackson County, Illinois.

The environmental assessment of this federally-assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, Warren J. Fitzgerald, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The measure concerns a plan for water based outdoor recreation facilities. The planned works of improvement include picnic tables, grills, picnic shelters, water wells, sanitary accommodations, roads and parking, overlook, boat launch ramp, canoe landings, primitive campsites, bicycle rack, and signs.

The Notice of Finding of No Significant Impact (FNSI) has been forwarded to the Environmental Protection Agency. The basic data developed during the environmental assessment are on file and may be reviewed by contacting Warren J. Fitzgerald. The FNSI has been sent to various Federal, State, and local agencies and interested parties. A limited number of copies of the FNSI are available to fill single copy requests at the above address.

Implementation of the proposal will not be initiated until June 29, 1981.

BILLING CODE 3410-16-M

DEPARTMENT OF COMMERCE

Office of the Secretary

Advisory Panels for the Caribbean, South Atlantic and North Pacific Fishery Management Councils; Reestablishment

In accordance with the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), and Office of Management and Budget Circular A-63 of March 1974, and after consultation with GSA, the Department has determined that the reestablishment of the Advisory Panels (APs) for the Caribbean, South Atlantic, and North Pacific Fishery Management Councils (FMPs) are in the public interest in connection with the performance of duties imposed on the Department by law.

The Magnuson Fishery Conservation and Management Act (MFCMA), signed on April 13, 1976 mandated the establishment of eight Regional Fishery Management Councils to serve as the instruments of Federal-State-private interaction in the conduct of fishery management in the U.S. Fishery Conservation Zone (FCZ). The Act also authorized the establishment of such advisory panels (APs) as are deemed necessary in assisting the Councils in carrying out their functions.

Each of the Advisory Panels was first established in April 1977. They will continue with a balanced representation of members, who are appointed by the parent Council. The purpose of each Panel is to advise the respective Council in the assessments and specifications contained in the fishery management plans (FMPs) for fisheries within the Councils' geographic area of concern, with particular regard to (1) the extent to which the fishing vessels of the United States will harvest the resources considered in FMPs; (2) the effect of such FMPs on local economies and social structures; (3) potential conflicts between user groups of a given fishery resource; and (4) enforcement problems peculiar to each fishery with emphasis on the expected need for enforcement resources.

Inquiries or comments regarding this notice may be addressed to Mr. Donald Humphries, Committee Liaison Officer, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Rockville, Maryland 20852, telephone: (301) 443-8731, or Mrs. Yvonne Barnes, Committee Management Analyst, U.S. Department of Commerce, Washington, D.C. 20230, telephone: (202) 377-4217.

Dated: May 26, 1981.

Hugh L. Brennan,

Director, Office of Organization and Management Systems.

Box 47, North East, Pennsylvania 16428, producer of grape juice and wine (accepted May 8, 1981); (5) Metalworks Manufacturing Corporation, 5800 W. Road 46, Bloomington, Indiana 47401, producer of heating stoves and

agricultural spray equipment (accepted May 8, 1981); (6) The Mica Corporation, 10900 Washington Boulevard, Culver City, California 90230, producer of plastic laminates (accepted May 11, 1981); (7) Princeton Gardens, Petersburg Road, Princeton, Indiana 47670, producer of cut flowers and potted plants (accepted May 12, 1981); (8) Moon Farm, 2615 Tacoma Road, Tacoma, Washington 98371, producer of raspberries and rhubarb (accepted May 12, 1981); (9) TACTEC Systems, Incorporated, Country Club Road, Meadow Lands, Pennsylvania 15347, producer of mobile two-way radio equipment (accepted May 18, 1981); (10) Lambertville Ceramic & Mfg. Company, Inc., P.O. Box 128, Lambertville, New Jersey 08530, producer of ceramic machinery and electronic parts (accepted May 18, 1981); (11) Ginther Farms, 1115 Benston Drive, N.E., Puyallup, Washington 98371, producer of raspberries and rhubarb (accepted May 19, 1981); and (12) Lake King Rod Company, Inc., 3530 S.E. 21st Street, Topeka, Kansas 66605, producer of fishing rods (accepted May 20, 1981).

The petitions were submitted pursuant to Section 251 of the Trade act of 1974 (P.L. 93–618) and Section 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315).

Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business June 7, 1981.

The Catalogue of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.309, Trade Adjustment Assistance. Inasfar as this notice involves petitions for the determination of eligibility under the Trade Act of 1974, the requirements of Office of Management and Budget Circular No. A–95 regarding review by clearinghouses do not apply.

Jack W. Osburn, Jr.,

Chief, Trade Act Certification Division, Office of Eligibility and Industry Studies.

BILLING CODE 3510–24–M

International Trade Administration

Tempered Sheet Glass From Japan; Preliminary Results of Administrative Review of Antidumping Finding and Tentative Determination To Revoke

AGENCY: Department of Commerce, International Trade Administration.

ACTION: Notice of Preliminary Results of Administrative Review of Antidumping Finding and of Tentative Determination to Revoke.

SUMMARY: As the result of an administrative review of the antidumping finding on tempered sheet glass from Japan the Department of Commerce has tentatively determined to revoke the finding. With the exception of one sale with a *de minimis* margin, all sales by the sole exporter, Asahi Glass Company, Ltd., were made at not less than fair value from September 25, 1971, through September 12, 1975, and there were no shipments to the U.S. for the 2-year period from September, 1978 through August, 1980. Interested parties are invited to comment on this decision.

EFFECTIVE DATE: May 28, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Arthur N. DuBois, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–3814).

SUPPLEMENTARY INFORMATION:

Procedural Background

On September 25, 1971, a dumping finding with respect to tempered sheet glass from Japan was published in the **Federal Register** as Treasury Decision 71–247 (36 FR 10913). A "Notice of Tentative Determination to Modify or Revoke Dumping Finding" with respect to this merchandise was published by the Department of the Treasury on September 12, 1975 (40 FR 42378). Treasury's investigations indicated that, with the exception of one sale with a *de minimis* margin, all sales by the sole exporter, Asahi Glass Company, Ltd., were made at not less than fair value for a period of four years from the finding of dumping. Reasons for the tentative determination were given in the notice and interested parties were given an opportunity to present written and oral views. Both sides presented arguments; however, Treasury took no further action on the proposed revocation.

On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 became effective. Title I replaced the provisions of the Antidumping Act of 1921 ("the 1921 Act") with a new title VII to the Tariff Act of 1930 ("the Tariff Act"). On January 2, 1980, the authority for administering the antidumping duty law was transferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the **Federal Register** of March 28, 1980 (45 FR 20511–12) a notice of intent to conduct administrative reviews of all outstanding dumping findings. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the finding on tempered sheet glass from Japan. The substantive provisions of the 1921 Act and the appropriate Customs Service regulations apply to all unliquidated entries made prior to January 1, 1980.

Scope of the Review

Merchandise covered by this review is tempered sheet glass in patio door sizes, currently classifiable under item 544.3100 of the Tariff Schedules of the United States Annotated (TSUSA). The Department knows of only one Japanese producer or exporter of tempered sheet glass covered by this finding to the United States, Asahi Glass Company, Ltd.

Since more than five years have elapsed since the original tentative revocation, we decided to inquire whether sales at less than fair value recurred since that time. Therefore, we requested that Asahi furnish data for the two-year period from September 1, 1978 to August 31, 1980. Their response indicated no shipments to the United States for this period.

Review of Prior Comments

The domestic producers objected to Treasury's proposed revocation for the following reasons:

First, they contended that the scope of the finding is not limited to tempered sheet glass in patio door sizes, but encompasses such glass for automotive purposes, shower/tub enclosures, etc. However, the original complaint received on September 9, 1969, was limited to tempered sheet glass in patio door sizes, as were the subsequent fair value investigation, the less than fair value determination, the injury investigation and determination, and subsequent appraisement instructions ("master lists").

Second, they contended that foreign market value should be based on home market sales rather than third country sales. However, the Custom Service ruled on June 30, 1979, that the proper basis of comparison should continue to be third country sales (Canada), as the sales in Japan were not of "such or similar merchandise", that is, tempered sheet glass in patio door sizes. We agree with that position.

Third, they contended that, in addition to Asahi, other Japanese firms were exporting this product to the United States. Our review indicates that Asahi Glass Company, Ltd. was and is the sole exporter of such merchandise and did not sell tempered sheet glass at less than fair value during that period of review, that is, from date of the finding, September 25, 1971, through September 12, 1975, a period of four years.

Preliminary Results of the Review

With the exception of one sale which resulted in *de minimis* duties being assessed, there is no record of any sales at less than fair value between the date of the finding, September 25, 1971, and September 12, 1975, and no shipments from September 1, 1978 to August 31, 1980, for a combined period of six years.

As provided for in § 353.54(e) of the Commerce Regulations, Asahi has agreed in writing to an immediate suspension of liquidation and reinstatement of the finding if circumstances develop which indicate that tempered sheet glass used in patio doors thereafter imported into the United States is being sold at less than fair value.

Tentative Determination

As a result of our review, we tentatively determine to revoke the finding on tempered sheet glass from Japan. If this finding is revoked, it shall apply to unliquidated entries of this merchandise entered, or withdrawn from warehouse, for consumption on or after September 12, 1975. Interested parties may submit written comments on these preliminary results on or before June 29, 1981 and may request disclosure and/or a hearing within 15 days of the date of publication. A request for an administrative protective order must be made no later than 5 days after the date of publication. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing.

This administrative review, tentative determination to revoke and notice are in accordance with section 751(a)(1) and (c) of the Tariff Act (19 U.S.C. 1675(a)(1), (c)) and § 353.54(e) of the Commerce Regulations (19 CFR 353.54(e)).

B. Waring Partridge III,

Acting Deputy Assistant Secretary for Import Administration.

May 21, 1981.

BILLING CODE 3510-25-M

National Oceanic and Atmospheric Administration

50 CFR Part 296

Fishermen's Contingency Fund

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of Agency Recommendation on Claim Filed Under Title IV, Outer Continental Shelf Lands Act Amendments of 1978 (Title IV).

SUMMARY: Notice is given that the Agency intends to recommend to the NOAA Office of Administrative Law Judges, which will decide the matter, that Title IV Claim No. FCF-63-79 be denied. Interested persons have 15 days to request the Administrative Law Judge (ALJ) to conduct an oral hearing concerning the claim or to request to be admitted as parties to any hearing on the claim.

DATES: Requests for oral hearing or to be admitted as a party must be received on or before June 12, 1981.

ADDRESS: Send requests to: NOAA Office of General Counsel (GCEL), Room 275, Page One Building, 2001 Wisconsin Avenue, NW, Washington, D.C. 20235.

FOR FURTHER INFORMATION CONTACT: Stephen J. Powell or Harry Feehan (address above). Telephone: (202) 254-8350.

SUPPLEMENTARY INFORMATION: Title IV, 43 USC 1841, established the Fishermen's Contingency Fund (Fund) to compensate commercial fishermen for vessel and gear damage and lost profits caused by items associated with oil or gas activities on the Outer Continental Shelf (OCS). On July 23, 1979, Claim No. FCF-63-79 was filed. The claim seeks compensation from the Fund of $6,164.60 for loss of a complete shrimp trawling rig and $14,256.00 for lost profits caused by Claimant's catching his gear on an obstruction on July 17, 1979, at coordinates 28°44.4' N and 91°37.6' W. As required by the 50 CFR Part 296 regulations implementing Title IV, notice of the claim was published on June 16, 1980 (45 FR 40632). This notice gave interested persons, as defined in 50 CFR 296.2, 30 days to advise the Chief of the National Marine Fisheries Service's Financial Services Division (FSD) that they wished to submit evidence concerning the claim or to be admitted as parties at any hearing held in respect to the claim. No response was received. This notice also advised that FSD may forward to NOAA General Counsel a proposed agency recommendation concerning the claim. FSD has done so in this case, with the proposal that the Agency recommend to the ALJ that the claim be paid in an amount agreed upon between Claimant and FSD. This was $9,335.48, consisting of $6,164.60 for damage to fishing gear and $3,170.88 for lost profits. The proposed settlement of a claim between a claimant and FSD is authorized by 50 CFR 296.8(c).

As provided by 50 CFR 296.8(d)(3), the Agency published notice in the **Federal Register** on October 27, 1980, that it had determined that this proposal would be the official Agency recommendation in this matter (45 FR 70956). However, since then, the Agency has obtained additional information which required reconsideration of the recommendation. This has led the Agency to the conclusion that Claimant's damage was caused by a sunken dredge not associated with oil and gas activities on the OCS.

Accordingly, pursuant to 50 CFR 296.8(d)(3), notice is given that NOAA General Counsel has determined that the claim should be denied, and will so recommend to the ALJ.

Any interested person who objects to this recommendation, or Claimant, may request that the ALJ who will be assigned to the case conduct an oral hearing concerning the claim. Any interested person may also request to be admitted as a party to any hearing concerning the claim. In either event, the request must be in writing and must be filed with General Counsel at the address and by the date set out above. If the request is for an oral hearing, the request must state the reasons why an oral hearing should be held. If the request is to be admitted as a party, the request must state why it was not filed in a timely manner under 50 CFR 296.8(a)(3)(v). The ALJ will rule on all such requests under 50 CFR 296.10(a)(3). Any interested person may obtain a copy of such portions of the claim as are disclosable by law by writing General Counsel at the above address.

No sooner than the close of the 15-day period referred to at the beginning of this notice, General Counsel will refer the claim, together with the agency recommendation and any requests received in response to this notice, to the NOAA Office of Administrative Law

Judges for adjudication. It is the present intention of the General Counsel to request the ALJ to decide this claim without oral hearing; but the General Counsel does not expect to have objection to a hearing if one is requested by Claimant or any interested party.

Final regulations governing the Title IV Program were published on January 24, 1980 (45 FR 6062), and July 2, 1980 (45 FR 44942).

Signed at Washington, D.C., this 21st day of May 1981.

William H. Stevenson,

Deputy Assistant Administrator for Fisheries.

BILLING CODE 3510-22-M

Marineland of New Zealand; Issuance of Permit

On September 3, 1980, Notice was published in the **Federal Register** (45 FR 58389), that an application had been filed with the National Marine Fisheries Service by The Marineland of New Zealand for a permit to take three (3) California sea lions (*Zalophus californianus*) for public display.

Notice is hereby given that on May 21, 1981, and as authorized ty the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a Public display Permit for the above taking to The Marineland of New Zealand, subject to certain conditions set forth therein.

The permit is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: May 21, 1981.

Richard B. Roe,

Acting Director, Office of Marine Mammals and Endangered Species, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Mid-Atlantic Fishery Management Council's Squid, Atlantic Mackerel, and Butterfish Subpanel; Public Meeting

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

SUMMARY: The Mid-Atlantic Fishery Management Council, established by Section 302 of the Magnuson Fishery Conservation and Management Act (Pub. L. 94–265), has established a Squid, Atlantic Mackerel, and Butterfish Subpanel, which will meet to discuss amendment #3 to the Squid, Mackerel and Butterfish Fishery Management Plans. The meeting may be lengthened or shortened, or agenda items rearranged, depending upon progress on the agenda.

DATES: The public meeting will convene on Tuesday, June 30, 1981, at approximately 10 a.m., and will adjourn at approximately 4 p.m.

ADDRESS: The meeting will take place at the Best Western Philadelphia Airport Inn, Philadelphia International Airport, Philadelphia, Pennsylvania.

FOR FURTHER INFORMATION CONTACT: Mid-Atlantic Fishery Management Council, Room 2115, Federal Building, Dover, Delaware 19901, Telephone: (302) 674–2331.

Dated: May 21, 1981.

William H. Stevenson,

Deputy Assistant Administrator for Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Regional Fishery Management Councils, Chairpersons and Executive Directors; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

SUMMARY: The eight Regional Fishery Management Councils were established by Section 302 of the Magnuson Fishery Conservation and Management Act (MFCMA), Pub. L. 94–265. The Council Chairpersons and Executive Directors will hold public meetings.

Council Chairpersons' Proposed Agenda

The Council Chairpersons will meet with the Assistant Administrator for Fisheries, NMFS, and with NOAA/NMFS legal and administrative representatives on the following:

1. MFCMA Amendments

General discussion and attempt to arrive at uniform Council policy on amendments necessary to increase the efficiency of the Magnuson Act, speed the development and amendment of fishery management plans (FMPs) and reduce paperwork and costs of developing and implementing plans.

2. Alternate Approaches to the FMP Process

General discussion of the current FMP process; consideration of other approaches to compliance with the Magnuson Act than the formal implementation of FMPs; definition of fishery management units; determination of the need for management of a fishery resource; avenues for increased cooperation with State fishery management systems; cooperative State/Federal law enforcement with NOAA.

3. Determination of Fishery Conservation Zone Boundaries

In several places around the U.S., there are areas now defined as being within the fishery conservation zone that are completely enclosed by State waters. A solution is needed for jurisdiction and management of those areas.

4. Council Funding and NOAA Budget

A review of the Council budget process, an estimate of funding available through the next budgeting cycles (3 years); similar review of NOAA/NMFS budgets with particular reference to research and resource survey programs. Anticipated NMFS personnel reductions under new administration; new directions and policies of new administrators.

5. Ancillary Acts to the MFCMA

Jurisdiction of other acts, executive orders, and regulations as related to the Magnuson Act; ways to improve performance through amendment of the Act; administrative relief or other alternatives; classification of FMPs under Executive Order 12291 and discussion of approach to development of cost/benefit ratio.

6. Environmental Affairs and Fisheries Development

Role of the regional councils in environmental affairs and fishery development programs; jurisdiction of the councils; need to get involved; general role of the councils in these areas.

7. Reduction of Foreign Fishing in the Fishery Conservation Zone

Phaseout of foreign fishing off the U.S. as provided by the American Fisheries Promotion Act and in the original MFCMA.

8. Fish 'n Chips Policy

Status of the policy, current overtures from foreign governments; summary of decisions made to date, and future of the policy.

9. Joint Venture Status Report

Present joint venture activity; what is a joint venture? future of joint ventures in the American fishing industry; short-term influence, long-term influence—are these influences good or bad?

10. Status Report on U.S. Fishing Industry

Financing problems in the industry for boats, shore plants, operating money

(pack financing); effect of increased fuel costs; quality control of U.S. fishery products. Where is it? Where is it going? Will voluntary progress work or will mandatory quality standards eventually be necessary?

11. Implementation of American Fisheries Promotion Act

Seed funding for an expanded observer program; schedule for expanded observer coverage; foreign fishing phaseout; implementation of the developing aspects of the Act, including Saltonstall-Kennedy monies, use of foreign fishing fees, etc.

12. Review of Previous Council Chairpersons' Meeting—Unfinished Business

A number of business items have been included in the past Chairpersons' meetings where further reports were promised or expected. Those that have not been completed should be reviewed and answered insofar as possible.

Council Executive Directors' Proposed Agenda

The Council Executive Directors will meet with NOAA/NMFS administrators and legal counsel for a general discussion of matters pertaining to the Councils.

DATES: The Council Chairpersons' meeting will convene on Monday, June 22, 1981, at approximately 9 a.m., and will adjourn on Wednesday, June 24, 1981, at approximately 5 p.m., at the Elks Hall, Homer, Alaska. The Council Executive Directors' meetings will convene on Sunday, June 21, 1981, at approximately 1 p.m., and will adjourn at approximately 8 p.m., at the Lands Inn, Homer, Alaska. These meetings may be lengthened or shortened depending upon progress on the agendas.

FOR FURTHER INFORMATION CONTACT: North Pacific Fishery Management Council, P.O. Box 3136DT, Anchorage, Alaska 99510, Telephone: (907) 274–4563.

Dated: May 22, 1981.

Terry L. Leitzell,

Assistant Administrator for Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–M

Richard H. Lambertsen; Issuance of Permit To Import Endangered Marine Mammals

On April 8, 1981, Notice was published in the **Federal Register** (46 FR 21052), that an application had been filed with the National Marine Fisheries Service by Dr. Richard H. Lambertsen, Woods Hole, Massachusetts, for a Scientific Research and Scientific Purposes permit to import an unspecified number of specimens from various cetacean species for scientific research.

Notice is hereby given that on May 19, 1981, the National Marine Fisheries Service issued a Scientific Research and Scientific Purposes Permit as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) to Dr. Richard H. Lambertsen subject to certain conditions set forth therein.

Issuance of this Permit as required by the Endangered Species Act of 1973 is based on a finding that such Permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which are the suject of this Permit; and (3) will be consistent with the purposes and policies set forth in Section 2 of the Endangered Species Act of 1973. This Permit was also issued in accordance with, and is subject to Parts 220–222 of Title 50 CFR, the National Marine Fisheries Service regulations governing endangered species permits.

The Permit is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Northeast Region, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930.

Dated: May 19, 1981.

Richard B. Roe,

Acting Director, Office of Marine Mammals & Endangered Species, National Marine Fisheries Service.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

National Museum of Natural History, Smithsonian Institution; Issuance of Permit To Import Marine Mammals and Endangered Species

On March 23, 1981, notice was published in the **Federal Register** (46 FR 18065), that an application has been filed with the National Marine Fisheries Service by the National Museum of Natural History, Smithsonian Institution, Washington, D.C. 20560 for a Scientific Research Permit to import specimen material from dugongs and cetaceans including some species listed as endangered.

Notice is hereby given that on May 21, 1981, the National Marine Fisheries Service and the Fish and Wildlife Service jointly issued a Scientific Research Permit, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) to the National Museum of Natural History, subject to certain conditions set forth therein.

Issuance of this Permit, as required by the Endangered Species Act of 1973, is based on a finding that such Permit: (1) Was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which are the subject of this Permit; and (3) will be consistent with the purposes and policies set forth in Section 2 of the Endangered Species Act of 1973.

This permit was also issued in accordance with, and is subject to Parts 220 and 222 of Title 50 CFR, the National Marine Fisheries Service regulations governing endangered species permits and Part 17 of Title 50 CFR, the Fish and Wildlife Service regulations governing endangered species.

In conjunction with this Permit, the Fish and Wildlife Service has issued a CITES permit to import specimen materials listed on the appendices of the Convention on International Trade in Endangered Species of Wild Fauna and Flora subject to Part 23 of Title 50 CFR.

The Permit is available for review by interested persons in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.;
Director, Fish and Wildlife Service, 1717 H Street, NW., Washington, D.C. 20240; and
Regional Director, National Marine Fisheries Service, Northeast Region, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930

Dated: May 21, 1981.

BILLING CODE 3510–22–M

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

Frequency Management Advisory Council;

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. App. (1976), notice is hereby given that the Frequency Management Advisory Council (FMAC) will meet from 9:30 a.m. to 3:30 p.m. on June 19, 1981, in the Aspen Room at the National Telecommunications and Information Administration, 1325 "G" Street, NW., Washington, D.C. (Public entrance to the building is on "G" Street, between 13th Street and 14th Street, NW.)

The Council was established on July 19, 1965. The objective of the Council is to advise the Secretary of Commerce on radio frequency spectrum allocation matters and means by which the effectiveness of Federal Government frequency management may be enhanced. The Council consists of 15 members whose knowledge of telecommunications is balanced in the functional areas of manufacturing, analysis and planning, operations, research, academia and international negotiations.

The agenda items for the meeting will be:

(1) Current developments within NTIA—Mr. Donald M. Jansky, Chairman.

(2) ITU Technical Assistance and Training of Foreign Personnel—Mr. John C. Hansen, NTIA.

(3) Discussion of FMAC Views on the Relationship of the USA with the ITU and on Preparations for the 1982 ITU Plenipotentiary Conference.

(4) Discussion of National Long Range Spectrum Planning.

(5) Any Procedural Business of the Council.

(6) Scheduling of the next meeting.

The meeting will be open to public observation; and a period will be set aside for oral comments or questions by the public which do not exceed 10 minutes each per member of the public. More extensive questions or comments should be submitted in writing before June 17, 1981. Other public statements regarding Council affairs may be submitted at any time before or after the meeting. Approximately 15 seats will be available for the public on a first-come first-served basis.

Copies of the minutes will be available on request 30 days after the meeting.

Inquiries may be addressed to the Council Control Officer, Mr. Charles L. Hutchison, National Telecommunications and Information Administration, Room 268, 1325 "G" NW., Washington, D.C. 20005, telephone 202–724–3301.

Dated: May 22, 1981.

Cloyd C. Dodson,

Committee Liaison Officer, National Telecommunications and Information Administration.

DEPARTMENT OF DEFENSE

Office of the Secretary

DoD Advisory Group on Electron Devices; Advisory Committee Meeting

Working Group A (Mainly Microwave Devices) of the DoD Advisory Group on Electronic Devices (AGED) will meet in closed session on July 1–2, 1981 at the Palisades Institute for Research Services, AGED, 1925 N. Lynn St., Arlington, Virginia 22209.

The mission of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group A meeting will be limited to review of research and development programs which the military propose to initiate with industry, universities or in their laboratories. This microwave device area includes programs on developments and research related to microwave tubes, solid state microwave, electronic warfare devices, millimeter wave devices, and passive devices. The review will include classified program details throughout.

In accordance with 5 U.S.C. App. 1, section 10(d)(1976), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552(b)(c)(1) (1976), and that accordingly, this meeting will be closed to the public.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

BILLING CODE 3810-70-M

DEPARTMENT OF EDUCATION

Special Education and Rehabilitative Services; Rehabilitation Long-Term Training—Training of Interpreters for Deaf Individuals

AGENCY: Department of Education.

ACTION: Notice of closing date for transmittal of noncompeting continuation applications for Fiscal Year 1981.

Applications are invited for noncompeting continuation projects under the Training of Interpreters for Deaf Individuals Program.

Authority for this program is contained in Section 304 of the Rehabilitation Act of 1973, as amended. (29 U.S.C. 774)

Awards are made under this program to any public or private non profit agency or organization or postsecondary institution.

The purpose of this program is to train skilled interpreters available for employment in public and private agencies involved in the provision of health, education, welfare, rehabilitation, employment and related services to deaf people.

Closing Date for Transmittal of Applications: To be assured of consideration for funding, an application for a noncompeting continuation award must be mailed or hand delivered by July 1, 1981.

If the application is late, the Department of Education may lack sufficient time to review it with other noncompeting continuation applications and may decline to accept it.

Applications Delivered by Mail: An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: 84.129W, Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the U.S. Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) A private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail.

Applications Delivered by Hand: An application that is hand delivered must

be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. 20202.

The Application Control Center will accept a hand delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time), daily except Saturdays, Sundays, and Federal holidays.

An application that is hand delivered will not be accepted after 4:30 p.m. on the closing date.

Available Funds: Approximately $900,000 is currently expected to be available for support of noncompeting continuation projects in Fiscal Year 1981. The President has proposed a budget rescission to the Congress that may eliminate part or all of the funds for this program. However, the deadline established in this notice will not be extended, applicants should prepare and submit applications pending further notification.

Application Forms: Application forms and program information packages will be mailed to grantees who have been conducting interpreter training progams during the 1980–1981 academic year and who are eligible to apply for noncompeting continuation grant support under this Notice.

Applications must be prepared and submitted in accordance with the instructions and forms included in the program information package. The Secretary urges that the narrative portion of the application not exceed 15 pages in length. The Secretary also urges that applicants not submit information that is not requested.

Applicable Regulations: Regulations applicable to this program include the following:

(a) Regulations governing the Rehabilitation Long-Term Training Program (34 CFR Parts 385 and 386); and

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 75 and 77).

Further Information: Paul R. Ackerman, Acting Deputy Assistant Secretary for External Affairs, OSERS, U.S. Department of Education, Room 3113, Mary E. Switzer Building, 330 C. Street, SW., Washington, D.C. 20201, Telephone: (202) 245–0341.

(Catalog of Federal Domestic Assistance No. 84.129W, Rehabilitation Long-Term Training Program)

Dated: May 18, 1981.

T. H. Bell,

Secretary of Education.

BILLING CODE 4000-01-M

National Advisory Council on Vocational Education; Meeting

AGENCY: National Advisory Council on Vocational Education.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the proposed agenda of a forthcoming meeting of the National Advisory Council on Vocational Education. It also describes the functions of the Council. Notice of this meeting is required under Section 10(a)(2) of the Federal Advisory Committee Act, and is intended to notify the general public of its opportunity to attend.

DATE: June 18, 1981.

ADDRESS: The Capital Hilton Hotel, 16th and K Streets NW., Washington, D.C., Executive Club Room, Lobby Level.

SUPPLEMENTARY INFORMATION: The National Advisory Council on Vocational Education is established under Section 104 of the Vocational Education Amendments of 1968, Pub. L. 90–576. The Council is established to:

(A) Advise the President, the Congress, and the Secretary of Education concerning the administration of, preparation of general regulations for, and operation of, vocational education programs supported with assistance under this title;

(B) Review the administration and operation of vocational education programs under this title, including the effectiveness of such programs in meeting the purposes for which they are established and operated, make recommendations with respect thereto, and make annual reports of its findings and recommendations (including recommendations for changes in the provisions of this title) to the Secretary for transmittal to the Congress; and

(C) Conduct independent evaluations of programs carried out under this title and publish and distribute the results thereof.

The meeting of the National Advisory Council on Vocational Education, in conjunction with the Annual Joint Meeting of National and State Advisory Councils on Vocational Education, is open to the public, and the proposed agenda is as follows:

Thursday, June 18, 1981; 1:00 p.m. to 5:00 p.m.

Discussion of Positions on the Reauthorization of the Vocational Education Act:

—Council of Chief State School Officers
—National School Boards Association
—National Governors' Association
—Council of the Great City Schools

NACVE Committee Reports:

—Legislative
—Federal Programs
—Special Populations
—Technical Assistance

Discussion of NACVE Comprehensive Policy Statement Prior to the Council meeting, the following Committees will meet:

Legislative: Caucus I Room—8:00 to 10:00 a.m.

Discussion of reauthorization issues and drafting preliminary recommendations.

Federal Programs: Caucus I Room—10:00 to Noon

Discussion of vocational education and employment training programs, and impact on reauthorization of the Vocational Education Act.

Special Populations: California Room—10:00 to Noon

Discussion of various issues regarding services to special populations; discussion of possible recommendations from the *Study of Vocational Education in Correctional Institutions.*

Records are kept of the Council's proceedings, and are available for public inspection at the office of the National Advisory Council on Vocational Education from 9:00 a.m. to 5:00 p.m., 425 13th Street N.W., Suite 412, Washington, D.C. 20004.

FOR FURTHER INFORMATION CONTACT: Viriginia Solt, NACVE Staff, at above address. Telephone (202) 376–8873.

Signed at Washington, D.C., on May 21, 1981.

Raymond C. Parrott,

Executive Director, National Advisory Council on Vocational Education.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

[ERA Docket No. 81-24-NG]

Tennessee Gas Pipeline Co., a Division of Tenneco Inc.

AGENCY: Department of Energy, Economic Regulatory Administration.

ACTION: Notice of Application for Authorization to Import Natural Gas From Canada.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy gives notice of receipt on April 22, 1981, of an application from Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee) for authorization to import natural gas from Canada. Tennessee proposes to purchase and import up to 300,000 Mcf of natural gas per day from TransCanada Pipelines Limited

(TransCanada) pursuant to the terms of two Precedent Agreements and Gas Purchase Contracts. This first agreement provides for the sale and purchase of up to 100,000 Mcfd, with deliveries commencing on November 1, 1981, or as soon as possible thereafter, for an initial period of five years, and an option to extend the contract for an additional five year period, subject to agreement by buyer and seller. The second agreement provides for the sale and purchase of up to 200,000 Mcfd, with deliveries commencing on November 1, 1982, or as soon as possible thereafter, and a contract term consisting of a single ten-year period. The application is filed with ERA pursuant to Section 3 of the Natural Gas Act and the Secretary of Energy's Delegation Order No. 0204–54. Protests or petitions to intervene are invited.

DATES: Protests or petitions to intervene are to be filed on or before June 29, 1981.

FOR FURTHER INFORMATION CONTACT:

John W. Glynn or C. Eric Hager (Division of Natural Gas), Economic Regulatory Administration, 2000 M Street, N.W., Room 7108, RG–55, Washington, D.C. 20461 (202) 653–3286

Sue D. Sheridan (Office of General Counsel), Department of Energy, 1000 Independence Avenue, S.W., Room 5E–074, GC–15, Washington, D.C.20585 (202) 252–2900.

SUPPLEMENTARY INFORMATION: Under its two agreements with TransCanada, Tennessee will be entitled to purchase a total daily quantity of 300,000 Mcf of natural gas for resale. With respect to the 100,000 Mcfd contract, the natural gas will be delivered to Tennessee at the international border near Niagara Falls, New York. The 200,000 Mcfd contract authorizes the delivery of natural gas to other points along the international border in addition to the Niagara Falls location. Both contracts provide that TransCanada may, in its sole discretion and on a best efforts basis, sell to Tennessee such volumes of gas in excess of its daily contract quantities, but under no circumstances can the volumes sold exceed the total contract quantities.

The primary term of the natural gas purchase contract of 100,000 Mcfd is five years (November 1, 1981 thru October 31, 1986), with an optional give year extension to October 31, 1991, pending agreement between the seller and buyer on or before May 1, 1985. The primary term of the 200,000 Mcfd contract is ten years from the date deliveries commerce. Both contracts have provisions allowing an additional year for the delivery of contract quantities of gas not delivered during the primary contract term.

Each contract provides that the gas will be sold at the international border price established by the National Energy Board of Canada (NEB) for natural gas exports, currently U.S. $4.94 per MMBtu. Both contracts require Tennessee to take and pay for, or nevertheless pay for, an annual quantity of gas equal to seventy-five percent (75%) of the total daily contract quantity (300,000 Mcf) times the number of days in the contract year, less any volumes requested by Tennessee, but not delivered by TransCanada.

Tennessee will own and operate all facilities needed to provide transportation of the imported natural gas. Tennessee is also filing at this time a related application with the Federal Energy Regulatory Commission (FERC) requesting authority to construct and operate additional facilities needed for receipt and marketing of the volumes of gas proposed to be imported.

Tennessee cites several bases for requesting the authority to import natural gas from Canada, including supportive market data and analysis. Among the specific reasons listed by Tennessee are the firm's past inability to meet its customer requirements, the expectation that its supply deficiencies will continue throughout the proposed import term, and the need for additional supplies to enable Tennessee to meet winter peak day and seasonal demands and thereby minimize its customers' reliance on imported fuel oil.

Other Information

Any person wishing to become a party to the proceeding or to participate as a party in any hearing which may be convened herein must file a petition to intervene. Any person desiring to make a protest with reference to the petitions should file a protest with the ERA. All protests filed with ERA will be considered in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.

All petitions or protests are to be filed with the Division of Natural Gas, Economic Regulatory Administration, Room 7108, RG–55, 2000 M Street, N.W., Washington, D.C. 20461, in accordance with the requirements of the rules of practice and procedure (18 CFR 1.8 and 1.10). Such petitions for intervention will be accepted for consideration if filed no later than 4:30 p.m., June 29, 1981.

A hearing will not be held unless a motion for a hearing is made by any party or persons seeking intervention and is granted by ERA, or if the ERA on its own motion believes that a hearing is required. If a hearing is required, due notice will be given.

A copy of Tennessee's petition is available for public inspection and copying in the Division of Natural Gas Docket Room, Room 7108, 2000 M Street, NW., Washington, D.C. 20461 between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., on May 20, 1981.

F. Scott Bush,

Acting Director, Office of Program Operations, Economic Regulatory Administration.

BILLING CODE 6450–01–M

Office of Assistant Secretary for International Affairs

Proposed Subsequent Arrangements

Pursuant to Section 131 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2160) notice is hereby given of proposed "subsequent arrangements" under the Additional Agreement for Cooperation Between the Government of the United States of America and the European Atomic Energy Community (EURATOM) Concerning Peaceful Uses of Atomic Energy, as amended, and the Agreements for Cooperation Between the Government of the United States of America and the Governments of Canada and Portugal Concerning Civil Uses of Atomic Energy, as amended.

The subsequent arrangements to be carried out under the above mentioned agreements involve approval of contractual arrangements for supply of materials as follows:

Contract Number S–EU–688, for 10 milligrams of uranium, enriched to 99.68% in U–236, for use as a standard for mass spectrometry for the study of rock chronology at the Office des Rayonnements Ionisants, France.

Contract Number S–CA–308, for 10 milligrams of thorium-230, for use in the mass spectrometric analysis of thorium-uranium oxide fuels from CANDU and research reactors by Atomic Energy of Canada, Ltd.

Contract Number S–PO–6, for 100 milligrams of uranium, enriched to 99.9% in U–235, to be used for determination of isotopic composition of uranium samples by the Laboratorio Nacional de Engenheria y Tecnologia Industrial, Portugal.

Contract Number S–PO–7, for 1 milligram of uranium-233, to be used for determination of uranium in organo-compounds by the Laboratorio

Nacional de Engenheria y Tecnologia Industrial, Portugal.

In accordance with Section 131 of the Atomic Energy Act of 1954, as amended, it has been determined that the furnishing of these nuclear materials will not be inimical to the common defense and security.

These subsequent arrangements will take effect no sooner than fifteen days after the date of publication of this notice.

For the Department of Energy.

Dated: May 21, 1981.

Harold D. Bengelsdorf,

Director for Nuclear Affairs, International Nuclear and Technical Programs.

BILLING CODE 6450-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission within fifteen [15] days after the date of publication of this notice in the Federal Register.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6460-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated Annual production (PROD) is in million cubic feed (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the receord on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 175.203 and 18 CFR 275.204, file a protest with the Commission within fifteen (15) days after the date of publication of this notice in the **Federal Register.**

Please reference the FERC Control Number (JD No.) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-01-M

[Project No. 2891-001]

City of Tallahassee, Florida; Application for license (Major)

May 21, 1981

Take notice that the City of Tallahassee, Florida (Applicant) filed on February 25, 1981, an application for a major license [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for the Jackson Bluff Dam Project No. 2891 located on the Ochlockonee River in Leon, Liberty, and Gadsden Counties, Florida. Correspondence with the Applicant should be directed to: Mr Kenneth W. Morgan, Director, Electric Department, City of Tallahassee, 2602 Jackson Bluff Road, Tallahassee, Florida 32301 and Mr. James V. Williams, R. W. Beck and Associates, Tower Building, 7th Avenue at Olive Way, Seattle, Washington 98101.

Project Description—The Jackson Bluff Dam Project would consist of: (1) an existing reservoir with a storage capacity of 150,000 acre-feet and a surface area of 10,200 acres at normal power pool elevation of 68.5 feet m.s.l.; (2) an existing earth embankment dam approximately 3,600 feet long with a maximum height of approximately 60 feet; (3) an existing powerhouse which consists of a brick superstructure and reinforced concrete substructure. The powerhouse is approximately 132 feet long and 33 feet wide, and will contain generating units having a total installed capacity of 10,900 kW; (4) an existing 69-kV transmission line; and (5) appurtenant facilities. The estimated average annual energy output of the proposed project would be 22,637,000 kWh.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 13, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than November 10, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (b) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980).

Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 13, 1981. The Commisssion's address is: 825 North Capitol Street, NE, Washington, D.C. 20426. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15830 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-317-000]

Columbia Gas Transmission Corp.; Application

May 22, 1981.

Take notice that on May 4, 1981, Columbia Gas Transmission Corporation (Columbia Gas), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, filed in Docket No. CP81-317-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of an additional compressor unit at its Seneca Compressor Station (Seneca) in Pendleton County, West Virginia, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Columbia Gas requests authorization to construct and operate a 13,750 horsepower gas turbine driver-centrifugal compressor unit at Seneca. Columbia Gas states that Seneca is located at a critical point on Columbia Gas' B System which partially supplies its Eastern Market Area, including the Washington-Baltimore Area, and that it is essential that this station have a high degree of reliability to permit operation at a high load factor during the winter period. Columbia Gas indicates that during winter/day design operations it would use the proposed 13,750 horsepower unit in firm service and the existing Seneca units, which consist of one 6,200 and two 3,165 horsepower units, in standby service.

Columbia Gas states that it would purchase a surplus GE Frame 3 turbine compressor unit from Columbia Gulf Transmission Company (Columbia Gulf), an affiliate, which can be upgraded to 13,750 horsepower. Such unit is currently at Columbia Gulf's Stanton Compressor Station and that the abandonment of said unit is currently pending before the Commission in Docket No. CP81-161-000, it is stated. Columbia Gas states that it also intends to purchase a surplus auxiliary equipment at its Seneca Compressor Station.

The application states that on February 26, 1981, a failure occurred in the regenerative unit of the existing 6,200 horsepower Seneca compressor unit, and that it has been estimated that this unit, which was installed in 1953, cannot be made operational until approximately November 1, 1981. Columbia Gas contends that without the availability of this unit, it would experience an approximate 113,000 Mcf per day reduction in the capability of the B System on a design day during the

1981–82 winter period. Additionally other major accessory components of the existing 6,200 horsepower unit are obsolete and efforts to keep the unit in condition have required repairs using material not specifically designed for the application, it is said. It is stated that a failure in one of the major components could render the compressor unit inoperable for periods of months, up to two years. The two existing 3,165 horsepower compressor units at Seneca are light duty Allison units primarily installed for peaking service, it is said.

Columbia Gas indicates that it intends to make every effort to complete installation of the Stanton unit at Seneca by November 1, 1980, in order to assure design day capabilities of the B system during the 1981–82 winter period.

Columbia Gas indicates that it would purchase the proposed facility from Columbia Gulf at its original cost less depreciation for an estimated net out-of-pocket cost of $861,831. The estimated total capital cost for installing and upgrading the proposed 13,750 horsepower compressor unit at Seneca would be $7,190,000 which cost would be financed from internally generated funds, Columbia Gas states.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15670 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-330-000]

Columbia Gulf Transmission Co., Southern Natural Gas Co.; Application

May 22, 1981.

Take notice that on May 11, 1981, Columbia Gulf Transmission Company (Columbia Gulf), P.O. Box 683, Houston, Texas 77001, and Southern Natural Gas Company (Southern), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP81–330–000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 3.76 miles of 12-inch pipeline in the South Pass Area, offshore Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicants state that they have acquired the right to purchase gas reserves underlying Blocks 57 and 58 in the South Pass Area. In order to attach such reserves to a 26-inch pipeline in South Pass Block 77 owned by Columbia Gulf and Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), Applicants propose to construct the subject facilities between the production platform in Block 57 and the 26-inch pipeline. The proposed 12-inch pipeline would have a design capacity of 100,000 Mcf of gas per day.

Columbia Gulf proposes to construct the facility. The application states that Columbia Gulf has requested Tennessee to operate it.

The proposed facility is estimated to cost approximately $5,000,000. Financing by Columbia Gulf would be with funds on hand. Financing by Southern would be initially by funds on hand or short-term obligations.

Ownership of the subject facility would be 80 percent by Columbia Gulf and 20 percent by Southern, which is said to be their approximate interests in the reserves to be attached. Reserves are estimated at 53,910,000 Mcf proven, 100,213,000 Mcf proven and shallow potential, and 125,213,000 Mcf proven and shallow/deep potential.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15631 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. SA81-36-000]

Coronado Transmission Co.; Application for Adjustment

May 22, 1981.

Take notice that on May 11, 1981, Coronado Transmission Company (Applicant), 8561 Long Point Road, Houston Texas 77035, filed in Docket No. SA81–36–000 an application pursuant to Section 502(c) of the Natural Gas Policy Act of 1978 for an adjustment to permit Applicant to elect, pursuant to Section 284.123(b)(1)(ii) of the Commission's Regulations (18 CFR 284.123(b)(1)(ii)), to use an existing rate for intrastate service, other than a city-

gate rate, for service rendered Southern Natural Gas Company (Southern) under Section 311(a) of the Natural Gas Policy Act of 1978, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it has commenced the gathering, compression, and transportation of natural gas for Southern, said to be reported pursuant to Section 284.126 of the Commission's Regulations (18 CFR 284.126) concurrently with the instant application, at a rate below that previously approved by the Alabama Public Service Commission for transportation services rendered by Applicant but which rate Applicant believes does not comport with the requirements of Section 284.123, because it is not for city-gate service. Applicant requests that an adjustment be granted so that the rate on file with the Alabama Public Service Commission may be used as the basis for the rate currently to be collected from Southern, pending Applicant's obtaining a determination by the Alabama Public Service Commission that Applicant's existing transportation rate is just and reasonable by a cost-based methodology under Alabama substantive law.

Applicant states that within 30 days after an affirmative order regarding the instant application would be issued, Applicant would file a request with the Alabama Public Service Commission for the purpose of obtaining from that Commission an order that Applicant's transportation rate is just and reasonable. Applicant states that it would file with that Commission all necessary and appropriate documentation to justify its rate on a cost basis. Applicant agrees to be bound by whatever order or determination the Alabama Public Service Commission issues, which order would be filed with this Commission.

Applicant submits that the Alabama Public Service Commission is familiar with Applicant and the services Applicant renders in Alabama and that an adjustment is required to prevent hardship, inequity, or an unfair distribution of burdens. Further, Applicant submits that this Commission's review of the rate methodology for the instant service would result in unnecessary, dual agency review.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15832 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4510-000]

Cosumnes River Water and Power Authority; Application for Preliminary Permit

May 21, 1981.

Take notice that Cosumnes River Water and Power Authority (Applicant) filed on April 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4510 to be known as the Cosumnes River Water and Power Project located on the Cosumnes River in Amador and El Dorado Counties, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Harold E. Colburn, Chairman of Board, Cosumnes River Water and Power Authority, Box 126, Plymouth, California 95669, with a copy to Mr. Joe Flynn, Vice Chairman, Cosumnes River Water and Power Authority, 330 Fair Lane, Placerville, California 95667. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 295-foot high by 1,800-foot long earth and rock fill structure, designated Pi-Pi Dam, to impound the Middle Fork Cosumnes River, creating a reservoir with a surface area of 445 acres and a storage capacity of 70,000 acre-feet; (2) the Pi-Pi Mini Hydroelectric Power Plant with an installed capacity of approximately 375 kW; (3) approximately 18,600 feet of pipeline to convey water to the Dogtown Creek Reservoir; (4) a 100-foot high by 500-foot long earthfill structure, designated Sopiago Dam, to impound the Sopiago Creek, creating a reservoir with a surface area of 150 acres and a capacity of 7,000 acre-feet; (5) an 80-foot high concrete gravity structure designated Dogtown Creek Diversion Dam, to impount the Dogtown Creek, creating a reservoir with a surface area of 5 acres and a capacity of 200-feet; (6) the Dogtown Power Plant with an installed capacity of 1,178 kW; (7) a 9,000-foot long, 60-inch diameter pipeline; (8) a 5,000-foot long, 8-foot diameter tunnel; (9) a 2,500-foot long, 60-inch diameter penstock serving; (10) the Clear Creek Power Plant with an installed capacity of 3,150 kW; (11) a 335-foot high, 1,800-foot long rock fill structure, designated Steely Dam, to impound the Steely Creek, creating a reservoir with a surface area of 475 acres and a storage capacity of 80,000 acre-feet (12) a 4,100-foot long, 9-foot diameter tunnel; (13) a 4,600-foot long, 84-inch diameter penstock serving; (14) the Steely Power Plant with an installed capacity of 41,200 kW; (15) a 190-foot high by 1,100-foot long earth and rock fill structure, designated Big Canyon Diversion Dam, to impound the Big Canyon Creek, creating a reservoir with a surface area of 210 acres and a capacity of 10,000 acre-feet; (16) a 130-foot high by 650-foot long earthfill dam, designated Camp Creek Diversion Dam, to impound the Camp Creek, creating a reservoir with a surface area of 40 acres and a capacity of 2,000 acre-feet; (17) a 6,500-foot long, 96-inch diameter tunnel diverting water to the Baker Ford Reservoir; (18) a 285-foot high by 1,550-foot long earthfill structure, designated Baker Ford Dam, to impound the Middle Fork Cosumnes River, creating a reservoir with a surface area of 1,400 acres and a storage capacity of 185,000 acre-feet; (19) the Baker Ford Mini Hydroelectric Power Plant with an installed capacity of 375 kW; (20) a 19,000-foot long, 10-foot diameter tunnel; (21) a 3,000-foot long, 8-foot diameter pipeline; (22) a 168-inch diameter surge tank; (23) a 2,000-foot long, 84-inch by 78-inch penstock leading to; (24) the Spanish Creek Power Plant with an installed capacity of 23,000 kW; (25) a 75-foot high by 500-foot long concrete gravity structure designated the Spanish Creek Diversion Dam, to impound the Middle Fork Cosumnes River, creating a reservoir with a surface area of 20 acres and a capacity of 140 acre-feet; (26) a 15,600-foot long, 120-inch tunnel; (27) a 2,000-foot long, 96-inch diameter steel penstock serving; (28) the Nashville Power Plant No. 1 with an installed capacity of 10,760 kW; (29) a 20-foot high by 300-foot long concrete gravity structure, designated the Nashville

Regulating Dam, to impound the Middle Fork Cosumnes River, creating a reservoir with a surface area of 10 acres and a capacity of 100 acre-feet; (30) a 215-foot high by 800-foot long structure, designated the Cape Cod Dam, to impound the Cosumnes River, creating a reservoir with a surface area of 2,340 acres and a storage capacity of 300,000 acre-feet; (31) the Cape Cod Power Plant with an installed capacity of 9,000 kW; (32) a 190-foot high by 800-foot long earthfill dam, designated the Scotts Creek Dam, to impound the Scotts Creek, creating a reservoir with a surface area of 180 acres and a storage capacity of 16,400 acre-feet; (33) a 40-foot high by 400-foot long concrete structure, designated the Aukum Diversion Dam, to impound the South Fork Cosumnes River, creating a reservoir with a surface area of 25 acres and a capacity of 160 acre-feet; (34) the Dry Creek Power Plant No. 1 with an installed capacity of 1,125 kW; (35) a 165-foot high by 750-foot long earthfill structure, designated Dry Creek Dam, to impound the Dry Creek, creating a reservoir with a surface area of 2,000 acres and a storage capacity of 17,000 acre-feet; (36) the Dry Creek Power Plant No. 2 with an installed capacity of 1,675 kW; (37) a 185-foot high by 1,880-foot long rolled earth, sand, and gravel structure, designated the Irish Hill Dam, to impound the Dry Creek, creating a reservoir with a surface area of 2,000 acres and a storage capacity of 100,000 acre-feet; and approximately 55 miles of transmission line beginning from the Pi-Pi reservoir to the existing Folsom Dam Switch Yard. The proposed project would have a total installed capacity of 91.8 MW.

The Applicant estimates that the average annual energy output would be 372.3 million kWh.

Purpose of Project—Applicant states that the power produced by the project would be marketed to either a publicly-owned or an investor-owned utility.

Proposed Scope and Cost of Studies under Permit—The Applicant has conducted some reconnaissance studies of the site. The Applicant now seeks issuance of a preliminary permit for a period of 36 months, during which it would prepare a definitive project report that would include engineering, economic, and environmental data. The cost of these activities, the preparation of an environmental report, obtaining agreements with various Federal, State, and local agencies, and preparation of an FERC license application is estimated by the Applicant to be about $1.9 million. No new road construction would be required to conduct the studies. The impact upon the environment by preliminary field studies would be minor and temporary. Any land disturbed while conducting test pits, field surveys, and borings would be returned to its original condition upon completion of the preliminary studies.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 10, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 8, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be received on or before July 10, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4510. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4586-000]

Dennis V. McGrew, Tom M. McMaster, and Kenneth R. Koch; Application for Preliminary Permit

May 20, 1981.

Take notice that Dennis V. McGrew, Tom M. McMaster, and Kenneth R. Koch (Applicant) filed on April 23, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4586 to be known as Swamp Creek Project located on Swamp Creek in Whatcom County, Washington. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Dennis V. McGrew, P.E., 2623 Yew Street, Bellingham, Washington 98225. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements

specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 5-foot high concrete diversion weir and intake structure; (2) a 3,600-foot long and 36-inch diameter concrete pipeline; (3) a surge tank; (4) a 2,000-foot long and 30-inch diameter steel penstock; (5) a powerhouse containing one generating unit rated at 3.7 MW; and (6) a 6-mile long transmission line. The Applicant estimates that the average annual energy output would be 22 million kWh.

Purpose of Project—The energy generated by the project would be sold to the Puget Sound Power and Light Company.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time it would conduct engineering and geotechnical studies, perform preliminary designs, conduct environmental studies, make an economic and feasibility analysis, and prepare an FERC license application. No new roads would be required to conduct the studies. The cost of the work to be performed under the preliminary permit is estimated to be $190,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the aplication may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 30, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 28, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 30, 1981.

Filing and Service of Responsive Documents—Any comments notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4586. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ST81-268-000]

Dow Intrastate Gas Co.; Application

May 22, 1981.

Take notice that on May 5, 1981, Dow Intrastate Gas Company (Applicant), Route 1, Box 35, Plaquemine, Louisiana 70764, filed in Docket No. ST81-268-000 an application pursuant to Section 311(a)(2) of the Natural Gas Policy Act of 1978 for authorization to transport 50,000 Mcf of natural gas per day in interstate commerce for Natural Gas Pipeline Company of America (Natural) for 365 days, unless extended, from Lafayette to Iberville Parishes, Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that under authorization sought in Docket No. CP81-302-000, Natural would deliver gas to Texas Gas Transmission Corporation (Texas Gas) at Henry, Louisiana, and that under authorization to be sought by Texas Gas, Texas Gas would deliver gas to Applicant at a connection to be established where their pipelines cross in Lafayette Parish. Applicant would redeliver the gas to Natural's customer, The Dow Chemical Company, at its plant near Plaquemine in Iberville Parish.

Applicant proposes to charge a transportation rate of 15 cents per million Btu equivalent of gas. This rate is said to be the same as that contained in a transportation rate schedule now effective for intrastate service on file with the Louisiana Conservation Commission, which covers service comparable to that to be performed for Natural. Applicant states that it will file an application for approval of this rate pursuant to Section 284.123(b)(2) of the Commission's Regulations (18 CFR 284.123(b)(2)).

Applicant states that it believes that the instant service may be accomplished on a self-implementing basis within the contemplation of Section 284.122 of the Commission's Regulations (18 CFR 284.122); however, if specific authorization is required, Applicant requests such authorization.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will

be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4595-000]

Hat Creek Hydro, Inc.; Application for Preliminary Permit

May 20, 1981.

Take notice that Hat Creek Hydro, Inc. (Applicant) filed on April 27, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 4595 to be known as Hat Creek Power Project located on Hat Creek in Shasta County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Floyd Bidwell, Box 547, Cassel, California 96016. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 5-foot high, 60-foot long natural fill and concrete diversion structure; (2) a 52-inch diameter, 1,800-foot long penstock; (3) a powerhouse containing a single-generating unit with a rated capacity of 1,500 kW; and (4) appurtenant facilities.

The Applicant estimates that the average annual energy output would be 12.5 million kWh.

Purpose of Project—Project energy would be sold to a private utility.

Proposed Scope and Cost of Studies Under Permit—Applicant has requested a 24-month permit to prepare a definitive project report including preliminary designs, results of geological, environmental, and economic feasibility studies. The cost of the above activities, along with preparation of an environmental impact report, obtaining agreements with the Forest Service and other Federal, State and local agencies, preparing a license application, conducting final field surveys, and preparing designs is estimated by the Applicant to be $45,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 30, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 28, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 30, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4595. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ID-1895-001]

Henry C. Schwemm, Jr.; Application

May 20, 1981.

The filing individual submits the following:

Take notice that on May 7, 1981, Henry C. Schwemm, Jr. filed an application pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Vice-President, Atlantic City Electric Company
Vice-President and Director, Deepwater Operating Company

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protest should be filed on or before June 10, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party

must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4540-000]

Imperial Irrigation District; Application for Preliminary Permit

May 21, 1981.

Take notice that Imperial Irrigation District (Applicant) filed on April 20, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4540 to be known as the All American Canal Drop No. 1 Project located on the All American Canal in Imperial County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Leroy Edwards, President, Imperial Irrigation District, P.O. Box 937, 333 E. Main Street, Imperial, California 92251. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a channel diverting flows from the Water and Power Resources Service's existing All American Canal 170 feet upstream of Drop No. 1; (2) a powerhouse containing two generating units with a total rated capacity of 3.6 MW; (3) a tailrace channel discharging into the canal 200 feet downstream of Drop No. 1; and (4) associated electrical and transmission equipment. The Applicant estimates that the average annual energy output would be 28,900 MWh.

Purpose of Project—Project energy would be used by Applicant.

Proposed Scope and Cost of Studies under Permit—Applicant has already determined that the project would be technically and economically feasible. Further studies would be conducted to determine the financial and environmental feasibility of the project. Applicant estimates that the studies conducted under a permit would cost $60,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Mitchell Energy Company, Inc.'s Project No. 3773 filed on December 21, 1980, and Energenics Systems, Inc.'s Project No. 3949 filed on January 9, 1981, under 18 CFR (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before June 25, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4540. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15836 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4534-000]

Industrial Rehab Partnership; Application for Preliminary Permit

May 20, 1981.

Take notice that Industrial Rehab Partnership (Applicant) filed on April 15, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4534 to be known as the Stillwater Hydroelectric Project located on the Clear River in the Town of Burrillville, Providence County, Rhode Island. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Industrial Rehab Partnership, 50 New River Road, Manville, Rhode Island 02838. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed run-of-the-river project would consist of existing project works including: (1) a dam, 135 feet long and 23 feet high; (2) a reservoir with a surface elevation of 340 feet m.s.l. and 180 acre-feet of storage; (3) an intake structure leading to a headrace, 200 feet long and 15 feet wide; (4) a tailrace about 75 feet long, and new project works to include; (5) a headrace extension about 25 feet long; (6) a powerhouse having units with an installed capacity of 115 kW; and (7) other appurtenances.

The Applicant estimates that the average annual energy output would be about 707,000 kWh.

Purpose of Project—Project energy would be utilized by the Applicant's facilities at the site for internal

commercial or industrial manufacturing purposes or sold to the Blackstone Valley Electric Company.

Proposed Scope and Cost of Studies under Permit—Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time it would perform hydraulic, construction planning, economic, environmental, historic, and recreational studies, and if the proposed project is determined feasible, prepare an application for a FERC license. Applicant estimates cost of studies under the permit would be $43,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 30, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 28, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 30, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4534. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 3852-000]

Jorges Sanchez; Application for Preliminary Permit

May 21, 1981.

Take notice that Jorges Sanchez (Applicant) submitted on December 9, 1980, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for the proposed Structure 77, Moore Haven Lock, Project No. 3582 to be located at the U.S. Army Corps of Engineers' Moore Haven Lock, a flood control project, on the Caloosatchee River, Moore Haven, Glades County, Florida. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Jorges Sanchez, 239 Southland Road, Palm Beach, Florida 33480. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would utilize an existing U.S. Army Corps of Engineers' Lock Project and would consist of: (1) a proposed powerhouse located on the Northern bank of the river; (2) a proposed penstock extending 40 feet in length; (3) transmission lines owned by Florida Power & Light Company; (4) appurtenant facilities. Applicant estimates the capacity of the proposed project to be 3.95 MW. The proposed project is located on Federal lands. The Applicant estimates that the average annual energy output would be 10.0–14.2 x 10^6 kWh.

Purpose of Project—Energy produced at the proposed site would be sold to Florida Power and Light Company or other industrial users.

Proposed Scope and Cost of Studies under Permit—Applicant has requested a 36-month permit to prepare a definitive project report, including preliminary design and economic feasibility studies, hydrological studies, environmental and social studies, and soil and foundation data. The cost of the aforementioned activities along with obtaining agreements with other Federal, State, and local agencies estimated to be $60,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be

made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 3, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than October 2, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 3, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capitol letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 3852. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

BILLING CODE 6450-85-M

[Docket No. ER81-282-000]

Montana Power Co.; Order Accepting for Filing and Suspending Revised Rates, Denying Waiver of Notice, Denying Request for Rejection, Granting Intervention, and Establishing Procedures

Issued: May 19, 1981

On March 20, 1981, Montana Power Company (Montana) completed its filing of a proposed rate increase [1] for firm power service to Big Horn Electric Cooperative (Big Horn) and Central Montana Electric Generation and Transmission Cooperative, Inc., (Central Montana).[2] Based on the Period I test year ending December 31, 1979, the revised rates would increase revenues to Montana by approximately $178,591.[3] In its March 20 submittals, Montana requested waiver of the notice requirements to permit the rates to become effective on March 15, 1981.

Notice of Montana's filing was issued on February 26, 1981, with responses due on or before March 20, 1981. On March 20, 1981, Central Montana filed a petition to intervene and protest, followed by a supplementary protest on April 10, 1981, concerning Montana's completed filing.

Central Montana asserts that Montana's rate proposals should be rejected because only some of the cost support required by the Commission's filing regulations has been submitted. Alternatively, Central Montana objects to Montana's request for waiver of the notice requirements and the proposed effective date. Central Montana asks that the Commission suspend the rates for the full five-month statutory period. In support of its requests, Central Montana raises various cost of service issues including the price of coal purchased by Montana from a wholly-owned subsidiary, the company's requested working cash allowance, and the determination of Central Montana's demand cost responsibility.

Discussion

Initially we find that Central Montana's participation in this proceeding is in the public interest and, accordingly, the cooperative's petition to intervene will be granted.

We shall deny Central Montana's request to reject the filing because we find that Montana's submittal, as supplemented on March 20, 1981, substantially complies with our filing requirements. *See Municipal Light Boards of Reading and Wakefield, Massachusetts* v. *FPC*, 450 F.2d 1341 (D.C. Cir. 1971). We shall also deny Montana's request for waiver of the notice requirements because good cause for such waiver has not been demonstrated.

Particularly in view of the substantive matters raised by Central Montana, we find that the proposed rates submitted by Montana have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Accordingly, we shall accept the proposed rates for filing and suspend them as directed below.

In a number of suspension orders,[4] we have addressed the considerations underlying the Commission's policy regarding rate suspensions. For the reasons given there, we have concluded that rate filings should generally be suspended for the maximum period permitted by statute where preliminary study leads the Commission to believe that the filing may be unjust and unreasonable or that it may run afoul of other statutory standards. We have acknowledged, however, that shorter suspensions may be warranted in circumstances where suspension for the maximum period may lead to harsh and inequitable results. Such circumstances have been presented here. While Central Montana has raised issues which are appropriate matters to be considered at an evidentiary hearing, our preliminary review indicates that the filing may not yield excessive revenues. Under these circumstances, a nominal suspension and a refund obligation should provide adequate protection to the affected customers pending the outcome of the hearing. We

---

[1] Montana initially tendered its revised rates on February 17, 1981. By letter dated March 3, 1981, Montana was informed that its filing was deficient.

[2] *See* Attachment A for rate schedule designations.

[3] The abbreviated filing requirements of § 35.13(a)(2) of the Commission's regulations apply in this instance because the proposed rates reflect an annual increase of less than $200,000.

[4] *E.g., Boston Edison Company*, Docket No. ER80-508 (August 29, 1980) (five-month suspension); *Alabama Power Company*, Docket Nos. ER80-506, *et al.* (August 29, 1980) (one-day suspension); *Cleveland Electric Illuminating Company*, Docket No. ER80-488 (August 22, 1980) (one-day suspension).

shall therefore suspend Montana's submittal for one day from sixty days after completion of the filing to become effective thereafter on May 21, 1981, subject to refund.

The Commission orders:

(A) Central Montana's request for rejection of Montana's filing is hereby denied.

(B) Montana's request for waiver of the notice requirements is hereby denied.

(C) Montana's rate schedules tendered for filing on March 20, 1981, are hereby accepted for filing and suspended for one day, to become effective on May 21, 1981, subject to refund.

(D) Central Montana's petition to intervene is hereby granted subject to the rules and regulations of the Commission, *provided, however,* that participation by Central Montana shall be limited to matters set forth in its petition to intervene and *provided, further,* that the admission of Central Montana shall not be construed as recognition by the Commission that the cooperative might be aggrieved because of any order or orders by the Commission entered in this proceeding.

(E) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act [18 CFR, Chapter I (1980)], a public hearing shall be held concerning the justness and reasonableness of Montana's rates.

(F) A presiding administrative law judge, to be designated by the Chief Administrative Law Judge, shall convene a conference in this proceeding to be held within approximately fifteen (15) days of the issuance of this order in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Such conference shall be held for purposes of expediting discovery, establishing procedural dates, including the filing of testimony and exhibits by Montana, and resolving other appropriate matters. The designated law judge is authorized to establish procedural dates and to rule on all motions (except motions to consolidate or sever and motions to dismiss), as provided for in the Commission's Rules of Practice and Procedure.

(G) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. CP81-325-000]

Mountain Fuel Resources, Inc.; Application

May 20, 1981.

Take notice that on May 8, 1981, Mountain Fuel Resources, Inc. (Resources), Suite 1540, 36 South State Street City, Salt Lake, Utah 84111, filed in Docket No. CP81-325-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing (1) storage service from the Clay Basin Storage Project, Daggett County, Utah, for Mountain Fuel Supply Company (Mountain Fuel), (2) expanded storage service to Nortwest Pipeline Corporation (Northwest), (3) the construction and operation of 18 new injection/withdrawal wells, two 2,600 horsepower compressors (4) installation of valves, meters, and appurtenances at the Kastler compressor station, and (5) the extension of the 1980-81 Clay Basin interim storage arrangements to provide continued storage service to Clay Basin Storage Company (Storage Company) through the 1981-82 heating season, all as more fully set forth in the application which is on file with Commission and open to public inspection.

Resources has developed and desires to continue to develop the potential gas storage capabilities of the Dakota formation of the Clay Basin field. In the instant docket Resources proposes the following.

(1)The use of existing and proposed facilities to render storage service to Mountain Fuel and in so doing to inject for Mountain Fuel's account up to a maximum of 300,000 Mcf of gas per day for no more than 225 days during any injection period and to withdraw and deliver to Mountain Fuel up to a maximum of 75,000 Mcf per day for no more than 150 days during any withdrawal period. Such storage service is required to provide base load storage service for Mountain Fuel's firm distribution.

(2) The use of existing and new facilities to render expanded storage service to Northwest and in so doing to inject for Nortwest's account up to a maximum of 225,000 Mcf of gas per day for no more than 225 days during the 1982 injection period and thereafter and to withdraw and deliver to Northwest up to a maximum of 225,000 Mcf per day for no more than 150 days during the 1982-83 withdrawal period and thereafter.

(3) The use of existing facilities to extend 1980-81 Clay Basin interim storage arrangements between Resources, Northwest, El Paso Natural Gas Company (El Paso) and Storage Company (Resources' Rate Schedule S-2, as amended) through the 1981-82 winter season in order to provide another year of storage protection for El Paso's East of California (EOC) customers.

It is indicated that Resources is currently authorized to inject for Northwest a maximum of 225,000 Mcf of gas per day for a minimum of 150 days and withdraw a maximum of 150,000 Mcf of gas per day for a maximum of 150 days. A 20,000,000 Mcf maximum annual total withdrawal has also been approved. Further, Resources indicated that it is currently authorized to inject on a best efforts basis for the account of Storage Company the maximum volume of gas which can be injected through existing facilities in excess of those volumes delivered by Northwest and to withdraw and deliver to Northwest on the best efforts basis for the account of Storage Company the maximum volume of gas which can be withdrawn in excess of those volumes withdrawn for Northwest's account utilizing existing facilities.

Resources provides storage service to Nothwest under an agreement between Resources and Northwest, dated June 8, 1976, as amended (S-1 agreement) and for El Paso, through Storage Company, under Resources' Clay Basin Interim Storage Service Rate Schedule, dated March 15, 1978 (S-2). Clay Basin has potential natural gas storage capability beyond that currently being utilized, it is asserted; therefore, Resources has entered into the Clay Basin Storage Service Rate Schedule S-3 (S-3 agreement) which provides for Mountain Fuel's participation in the Clay Basin storage operations of Resources. It is asserted further that Resources, Northwest, Storage Company, El Paso, and Mountain Fuel have amended the S-2 agreement to (1) extend the term of the S-2 agreement to October 31, 1982,

(2) permit Mountain Fuel to become a party to the S–2 agreement, (3) allow Mountain Fuel the right to use as cushion gas, for approximately one year commencing May 1, 1981, a maximum of 10,300,000 Mcf of gas owned by Storage Company, and (4) allow Mountain Fuel to take title to such cushion gas commencing after April 30, 1982, in return for which Mountain Fuel would exchange equivalent volumes prior to November 1, 1982.

Resources states that the total estimated cost of the proposed new facilities is $22,689,120 which cost would be financed from funds on hand, as supplemented by short-term borrowing, if necessary.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 1, 1981, file with the Federal energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15828 Filed 5-27-81, 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-326-000]

Mountain Fuel Supply Co.; Application

May 20, 1981.

Take notice that on May 8, 1981, Mountain Fuel Supply Company (Applicant), 180 East First South Street, Salt Lake City, Utah 84139, filed in Docket No. CP81–326–000 an application pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to operate under a natural gas storage agreement with Mountain Fuel Resources, Inc. (Resources), construct and operate certain interstate transmission facilities, use certain volumes of gas through an agreement with Clay Basin Storage Company (Storage Company), and exchange natural gas with Storage Company and for permission and approval to abandon certain interstate transmission facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes the following:

(1) The operation under a storage agreement with Resources to effectuate the receipt by Applicant of 3,600,000 Mcf of gas from Resources' storage facility utilizing the Dakota formation of the Clay Basin Field in Dagget County, Utah, at a rate up to 75,000 Mcf of gas per day for a period not to exceed 150 days during the 1981–82 heating season.

(2) The operation under a storage agreeement with Resources, which agreement provides for the delivery of up to 300,000 Mcf of gas per day to Resources for storage at Clay Basin for a period not less than 150 days nor more than 225 days and for the redelivery by Resources of such stored gas to Applicant at the rate of up to 75,000 Mcf per day for not more than 150 days.

(3) The construction of 38.5 miles of 20-inch pipeline for injections and withdrawals at Clay Basin. The 20-inch line would replace 16.60 miles of 10-inch pipeline and be connected to 4.08 miles of existing 20-inch pipeline for a total length of 42.58 miles from Clay Basin to Applicant's Nightingale compressor station in Sweetwater County, Wyoming. Applicant states that the 16.60 miles of 10-inch line would no longer be useful as transmission line and due to its age and inaccessibility would not be salvaged.

(4) The abandonment of the 16.60 miles of 10-inch pipeline.

(5) The use of 10,300,000 Mcf of natural gas in place through an agreement with Storage Company for a period of one year commencing May 1, 1981.

(6) The exchange of 10,300,000 Mcf of gas with Storage Company during the summer of 1982.

Resources provides storage service to Northwest Pipeline Corporation (Northwest) under an agreement between Resources and Northwest, dated June 8, 1976, as amended (S–1 agreement), and for El Paso Natural Gas Company (El Paso), through Storage Company, under Resources' Clay Basin Interim Storage Service Rate Schedule, dated March 15, 1978 (S–2). Clay Basin has potential natural gas storage capability beyond that currently being utilized, it is asserted; therefore, Resources has entered into the Clay Basin Storage Service Rate Schedule S–3 (S–3 agreement) which provides for Applicant's participation in the Clay Basin storage operations. It is asserted further that Resources, Northwest, Storage Company, El Paso and Applicant have amended the S–2 agreement to (1) extend the term of the S–2 agreement to October 31, 1982, (2) permit Applicant to become a party to the S–2 agreement, (3) allow Applicant the right to use as cushion gas, for approximately one year commencing May 1, 1981, a maximum of 10,300,000 Mcf of gas owned by Storage Company, and (4) allow Applicant to take title to such cushion gas commencing after April 30, 1982, in return for which Applicant would exchange equivalent volumes prior to November 1, 1982.

Applicant states that it is in immediate need of natural gas storage capacity to balance its available supply of natural gas with the seasonal requirements of its existing distribution customers and that it has therefore contracted with Resources for service at Clay Basin.

Applicant estimates the cost of the 20-inch pipeline and appurtenant facilities would be $10,833,400 which would be financed through funds on hand, as supplemented by short-term borrowing, if necessary.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 1, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a

proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commissioner on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[FR Doc. 81-15829 Filed 5-27-81; 8:45 am]
BILLING CODE 6450-85-M

[Project No. 4323-000]

Northeastern Minnesota Municipal Power Agency; Application for Preliminary Permit

May 21, 1981.

Take notice that Northeastern Minnesota Municipal Power Agency (Applicant) filed on March 12, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4323 to be known as Mississippi River Lock and Dam No. 2 located on Mississippi River in the Dakota County, Minnesota. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Norman G. Schroeder, Chairman, Northeastern Minnesota Municipal Power Agency, c/o City of Staples, Staples, Minnesota 56479. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a proposed powerhouse, located adjacent to the riverward lock, containing generating units having a total installed capacity of 5,200 kW; (2) proposed 69,000-volt transmission lines; and (3) appurtenant facilities. Applicant would utilize an existing dam owned by the U.S. Army Corps of Engineers, and the Applicant's facilities would be located mostly on U.S. lands. The Applicant estimates that the average annual energy output would be 35,000,000 kWh.

Purpose of Project—Energy produced at the project would be used by the Applicant to replace capacity and energy purchased under wholesale purchase contracts and to supplement existing coal-fired generations of Applicant's electric system.

Proposed Scope and Cost of Studies under Permit—Applicant seeks issuance of a preliminary permit for a period of 36 months. During this time studies would be made to determine the engineering, economic, and environmental feasibility of the project. In addition, Federal, State, and local government agencies would be consulted concerning the environmental effects of the project. Applicant estimates the cost of the studies under the permit would be $53,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Mitchell Energy Company, Inc. Project No. 3650, filed on November 3, 1980. Anyone desiring to file a competing application must submit to the Commission, on or before May 18, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than July 17, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions to Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before June 26, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4323. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative

of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15840 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-305-000]

Northern Natural Gas Company, Division of InterNorth, Inc., and Natural Gas Pipeline Co. of America; Application

May 22, 1981.

Take notice that on April 24, 1981, Northern Natural Gas Company, Division of InterNorth, Inc. (Northern), 2223 Dodge Street, Omaha, Nebraska 68102, and Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603 (Applicants) filed in Docket No. CP81-305-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain pipeline facilities necessary to attach a new offshore gas supply, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicants indicate that they have contracted to purchase all of the natural gas reserves in West Delta Area Blocks 137 and 138 (Block 137 or Block 138), offshore Louisiana.[1] In order to attach these natural gas reserves, Applicants propose to construct and operate approximately 9.5 miles of 10-inch pipeline extending from the producer's platform in Block 138 to a subsea valve on Trunkline Gas Company's (Trunkline) existing 16-inch pipeline in Grand Isle Area Block 82,[2] and metering facilities and appurtenances. Such facilities would provide a capacity of 39,000 Mcf of gas per day, which capacity is needed to transport the estimated maximum daily volumes that are expected to be available to the Applicants, it is stated. Applicants estimate that proved reserves and potential gas supply attributable to Block 137 and Block 138 is approximately 26,989,000 Mcf. These reserves, which are expected to be ready for production this summer, are said to be in the federal offshore domain and would be transported in interstate commerce.

The application states that the proposed facilities would be constructed by Northern and owned jointly by Applicants pursuant to a construction and ownership agreement, which agreement is being negotiated at this time. The cost, ownership, and capacity entitlement of the proposed facilities would be based on the estimated deliverability of 36,000 Mcf per day from Northern's Block 138 reserves and 3,000 Mcf per day from Natural Block 137 reserves, it is said.

Applicants estimate that the total cost of construction of the proposed facilities would be $8,820,000, which cost Applicants would finance from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ID-1957-000]

Robert C. Young; Application

May 20, 1981.

The filing individual submits the following:

Take notice that on May 12, 1981, Robert C. Young filed an application pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Director—Vermont Electric Power Company

Director—Vermont Yankee Nuclear Power Corporation

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capital Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 or 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protest should be filed on or before June 8, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15841 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-320-000]

Tennessee Gas Pipeline Co., a Division of Tenneco, Inc.; Application

May 22, 1981.

Take notice that on May 5, 1981, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), filed in Docket No. CP81-320 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for El Paso Natural Gas Company (El Paso), all as more fully set forth in the application on file with the Commission and open to public inspection.

[1] It is stated that Northern has the right to purchase 100 percent of the gas reserves underlying Block 138, and that Natural has the right to purchase 100 percent of the gas reserves underlying Block 137. Production of gas volumes attributable to both Block 137 and Block 138 would be performed at the producer's platform in Block 138, it is said.

[2] It is stated that Applicants are negotiating transportation agreements with Trunkline to effectuate delivery of their Block 138 and Block 137 gas onshore into their respective systems or into the system of another pipeline company for further transportation.

Pursuant to the terms of an existing gas transportation agreement dated December 31, 1980, between Tennessee and El Paso, Tennessee would receive daily, as permitted in its sole opinion by operating conditions on its system up to the lesser of 20,000 Mcf of natural gas per day or 50 percent of the daily deliverability of the South Marsh Island Block 60, offshore Louisiana, source, not to exceed a total volume of 30,000,000 Mcf during the term of the agreement at a point of interconnection between Tennessee's existing pipeline facilities and Tenneco Oil Company's (TOC) platform in South Marsh Island Block 60 (SMI 60 Receipt Point); and up to 8,000 Mcf per day of gas from the point of interconnection (at Subsea Valve 504A-1301) of the existing Vermilion Block 241 20-inch pipeline owned by Tennessee and Michigan Wisconsin Pipeline Company and a line to be built by El Paso extending from East Cameron Block 237, offshore Louisiana, to such point of interconnection (EC 237 Receipt Point). Tennessee proposes to transport and redeliver such gas less volumes for its fuel use requirements for El Paso's account at a point of delivery in Cocodrie, Terrebonne Parish, Louisiana (Cocodrie Delivery point); and at Tennessee's option, for deliveries not requested at the Cocodrie Delivery point, at the Sabine Delivery Point [1] or at an existing interconnection between El Paso and Natural Gas Pipe Line Company of America (Natural) in southeastern New Mexico (Jal Delivery point).

The application states that El Paso would construct the afore-mentioned line extending from East Cameron Block 237 to the existing Vermilion Block 241 20-inch pipeline at subsea valve 509A-1301 owned by Tennessee and Michigan Wisconsin Pipe Line Company under its current budget-type certificate authorization in order to facilitate the proposed transportation service. El Paso has agreed to reimburse Tennessee for all cost incurred by Tennessee in establishing the point of receipt, it is stated.

For providing the proposed transportation service, Tennessee indicates that El Paso would pay Tennessee each month a volume charge equal to 7.16 cents per Mcf, with provision for a minimum monthly bill.

Tennessee states that the proposed transportation and delivery of gas to the Cocodrie Delivery Point as proposed herein is dependent upon receipt of requested authorization in Docket No. CP75-23-008 to add Cocodrie as a new receipt point, and for the exchange of gas between El Paso and TOC as proposed in Docket No. CP81-243. TOC would make gas available to Tennessee at Cocodrie through a proposed exchange agreement between TOC and El Paso, it is stated.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15842 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[1] The Sabine Delivery point is the existing interconnection of the facilities of Tennessee with the facilities of Channel Industries-Houston Pipeline Company in Newton County, Texas, it is stated. The application states that Tennesee has no existing arrangements with Natural whereby Natural could deliver gas to El Paso at Jal for Tennessee's account. Such deliveries, however, would be initiated under Order 60 authorizations or as a result of subsequent Section 7(c) authorizations, it is said.

[Docket No. CP80-503-001]

Arkansas Louisiana Gas Co.; Petition To Amend

May 21, 1981.

Take notice that on May 4, 1981, Arkansas Louisiana Gas Company (Arkansas), P.O. Box 21734, Shreveport, Louisiana 71151, filed in Docket No. CP 80-503-001 a petition to amend the order of April 27, 1981, issued in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to authorize the construction and operation of 24 additional taps on its jurisdictional pipeline system and related delivery facilities, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Arkansas indicates that the order of April 27, 1981, granted it authorization to construct and operate tap facilities in order to provide natural gas service to 80 residential and commercial customers. Subsequently, 24 additional customers have requested that Arkansas provide similar natural gas service to them. The proposed customers and their locations are as follows:

Name and Location

Wilson Johnson, Pittsburg County, Oklahoma
Jim Phillips, Pittsburg County, Oklahoma
Charles Warren, Latimer County, Oklahoma
Tracy M. Johnson, Latimer County, Oklahoma
Eugene Lee Coplen, Haskell County, Oklahoma
Jeanette M. Hlavaty, Stephens County, Oklahoma
Alber J. Marsh, Pontotoc County, Oklahoma
Bod Cody, Atokoa County, Oklahoma
Truman J. Ely, Pittsburg County, Oklahoma
Wilbur S. Ellerbe, Latimer County, Oklahoma
Gene Boyd Adams, Pittsburg County, Oklahoma
James H. Hall, Atokoa County, Oklahoma
Randal Prince, Phillips County, Arkansas
Richard King, Columbia County, Arkansas
Jim Agee, Jefferson County, Arkansas
Sam L. Popham, Jr., Faulkner County, Arkansas
James R. Woodward, Logan County, Arkansas
B. C. Smith, Clairborne Parish, Louisiana
Pilgrim Farms, Camp County, Texas
R. M. Ferguson, Caddo Parish, Louisiana
Matlack Pipeline, Morehouse Parish, Louisiana
Flenwood Baptist Church, Upshur County, Texas
Ron Mason, Clairborne Parish, Louisiana
Dennis Mix, Morris County, Texas

Arkansas states that the construction and operation of the proposed 24 taps would be similar to the taps and service previously authorized hereunder, and that they would enable it to provide natural gas service to these 24 customers who are outside of Arkansas' distribution system, but along Arkansas'

pipeline to receive needed gas service. All of these customers would receive residental or small commercial service of less than 300 Mcf per day, it is said. Arkansas indicates that deliveries for a residential tap service on days of peak day sales are estimated to be 1 Mcf and deliveries for commercial tap on days of peak day sales are estimated to be 3 Mcf, with deliveries for average day sales being 1.1 Mcf. Arkansas states that the gas supply for service to the proposed customers would be provided from its system supply. The 24 customers would be classified in priorities 1.1 and 1.2 categories for curtailment purposes, it is stated.

Arkansas states that the total estimated cost of construction of each tap would be $720, which cost Arkansas would finance from cash on hand.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15843 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 3519-001]

Beaver Valley Power Co.; Application From Exemption From Licensing of a Small Hydroelectric Project of 5 Megawatts or Less

May 20, 1981.

Take notice that the Beaver Valley Power Company filed with the Federal Energy Regulatory Commission on March 23, 1981, an application for exemption for it's Patterson Hydro Project No. 3519-001 from all or part of Part I of the Federal Power Act pursuant to 18 CFR Part 4 subpart K (1980) implementing in part section 408 of the Energy Security Act of 1980.[1] The proposed project would be located on the Beaver River in Beaver County, Pennsylvania. Correspondence with the Applicant should be directed to: Mr. L. Gerald Tarantino or Mr. Robert Gonze, Beaver Valley Power Company, P.O. 561, Sixth Street and Second Avenue, Beaver Falls, Pennsylvania 15010.

Project Description—The proposed project would be run-of-the-river utilizing existing facilities and would consist of: (1) an existing dam, approximately 700 feet long and 19 feet high, constructed of rock-filled timber cribs with masonry buttresses and concrete facings; (2) a reservoir having negligible pondage and normal water surface elevation of 718.4 feet m.s.l.; (3) an old intake structure with three headgates at the entrance of (4) a forebay channel approximately 500 feet long; (5) a new powerhouse containing three horizontal quadruplex turbines and generators having a total rated capacity of 3,000 kW (a possible 1,500 kW capacity may be added in the future); (6) a tailrace; (7) new transmission lines; and (8) appurtenant facilities. The Applicant estimates that the average annual energy output would be 20,000,000 kWh.

Purpose of Project—Project energy would be sold to the Duquesne Light Company and possibly to the nearby Mayer China Company and Republic Steel Company.

Purpose of Exemption—An exemption, if issued, gives the Exemptee priority of control, development, and operation of the project under the terms of the exemption from licensing, and protects the Exemptee from permit or license applicants that would seek to take or develop the project.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for exemption. (A copy of the application may be obtained directly from the Applicant). Comments should be confined to substantive issues relevant to the issuance of an exemption and consistent with the purpose of an exemption as described in this notice. No other formal requests for comments will be made. If an agency does not file comments within 60 days of the date of issuance of this notice, it will be presumed to have no comments.

Competing Applications—Any qualified license applicant desiring to file a competing application must submit to the Commission, on or before July 9, 1981, either a competing license application that proposes to develop at least 7.5 megawatts in that project, or a notice of intent to file such a license application. Submission of a timely notice of intent allows an interested person to file the competing license application no later than November 6, 1981. Applications for a preliminary permit will not be accepted. A notice of intent must conform with the requirements of 18 CFR 4.33(b) and (c) (1980). A competing license application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 9, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for exemption for Project No. 3519. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the

Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc 81-15844 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4559-000]

Clear Creek Community Services District; Application for Preliminary Permit

May 20, 1981.

Take notice that Clear Creek Community Services District (Applicant) filed on April 17, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)-825(r)] for proposed Project No. 4559 to be known as Rainbow Lake Power Project located on North Fork of Cottonwood Creek in Shasta County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Arlan W. Tift, General Manager, Clear Creek Community Services District, 5880 Oak Street, Anderson, California 96007. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) an existing hydraulic fill dam with a 92 acre reservoir impounding appoximately 3,600 acre-feet; (2) a 3,500-foot long penstock with a 36-inch diameter carrying water from the outlet to a tunnel; (3) a 7,000-foot long tunnel with a 5-foot by 6-foot horseshoe section carrying water to a penstock; (4) an 18,500-foot long penstock with 36-inch diameter carrying water from the tunnel to the power plant; (5) a powerhouse containing a total installed capacity of 3.5 MW; (6) a switchyard containing a 3,750 kVA step-up transformer, line side disconnects and transmission line pull-off to boost the voltage to 12-kV; and (7) a one-half mile long 12-kV transmission line to connect with an existing 12-kV transmission line of the serving utility. The Applicant estimates that the average annual energy output would be 20.4 million kWh.

Purpose of Project—The energy produced by this project would be sold to the Pacific Gas and Electrical Company, the City of Redding or other northern California distribution systems.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a period of 36 months during which time it would conduct engineering, geotechnical, economic and environmental studies, negotiate an agreement with the servicing utility for wheeling arrangement for the power generated, prepare State Water rights permits application, and prepare FERC license application. Field studies to rehabilitate the spillway and outlet structure of this existing dam include dynamic analysis of construction materials. No new roads would be required to conduct the studies. The cost of studies to be performed under this preliminary permit would be $20,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 9, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 8, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 9, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4559. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE, Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW, Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15845 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-318-000]

Columbia Gulf Transmission Co.; Application

May 21, 1981.

Take notice that on May 4, 1981, Columbia Gulf Transmission Company (Columbia Gulf), P.O. Box 683, Houston, Texas 77001, filed in Docket No. CP81-318-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of pipeline and appurtenant facilities offshore Louisiana, all as more fully set forth in

the application which is on file with the Commission and open to public inspection.

It is indicated that Columbia Gulf's affiliate is negotiating for the right to purchase natural gas in Block 99 in the South Marsh Area, offshore Louisiana. In order to attach these gas supplies, Columbia Gulf says it is proposing to construct and operate approximately 7.6 miles of 16-inch pipeline and related measurement facilities to connect the production platform A in South Marsh Island Block 99 to an underwater side-tap on the existing 36-inch pipeline in South Marsh Island Block 74 owned by Columbia Gulf and Tennessee Gas Pipeline Company, a Division of Tenneco Inc., known as the Blue Water Project.

The estimated total cost of the proposed facilities is $6,514,000, which cost will be financed by Columbia Gulf, it says, from internally generated funds.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15846 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-313-000]

El Paso Natural Gas Co.; Application

May 21, 1981.

Take notice that on May 1, 1981, El Paso Natural Gas Company (El Paso), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP81-313-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the operation of certain existing meter facilities, with appurtenances, in order to provide natural gas service to Salt River Project Agricultural Improvement and Power District (Salt River) at its Agua Fria Power Plant in Maricopa County, Arizona,[1] all as more fully set forth in the application on file with the Commission and open to public inspection.

El Paso indicates that pursuant to the order of June 3, 1957, in Docket No. G-10808, it constructed and operated, among other things, the Agua Fria meter station in order to measure certain quantities of natural gas sold and delivered by it to Arizona Public Service Company (APS) for resale to Salt River for electric power generation at Salt River's Agua Fria Power Plant. El Paso further states that in 1974, Salt River advised it that Salt River was undertaking the installation at its Agua Fria Power Plant of two Westinghouse ECONO-PAC 501-B1 gas turbine-powered electric generators and one Westinghouse ECONO-PAC 501-B3 gas turbine-power electric generator to be used for intermittent peaking operations, so as to offset peak electrical system loads that occur in Salt River's service area. El Paso also states that it was informed by Salt River that all three gas turbine-power generators would be operated on distillate fuel oil, and that volumes of natural gas would be required for use as an alternate fuel source. El Paso indicates that it agreed at such time to install a new meter run at the Agua Fria Meter Station, after receipt of any necessary regulatory approval, in order to provide APS on behalf of Salt River with sales in interstate commerce of natural gas for resale to be used for the operation of the three turbines. It is indicated that shortly thereafter, however, Salt River reexamined its needs for natural gas supplies as an alternative fuel source in order to operate its three gas turbine-powered generators and such reexamination concluded that the alternative high pressure fuel source at its Agua Fria Power Plant should not be pursued at that time; therefore, the high pressure meter run was no longer necessary to provide a jurisdictional service, it is said. El Paso states that prior to notification of such reexamination, its field personnel installed the high pressure meter run in March, 1974.[2] Because the new meter run was not presently intended to provide a jurisdictional service and would not affect jurisdictional rates, El Paso states that filing an application with the Commission was not necessary. El Paso further states that field personnel were instructed that the high pressure meter facilities could not be operated, unless and until any necessary regulatory authorization was received.

The application states that Salt River recently requested El Paso to provide high pressure natural gas for utilization in its gas turbine-powered generators on a continuous basis. Salt River advised El Paso that the utilization of natural gas in lieu of distillate fuel oil in its gas turbine-powered generators is more advantageous for consumers directly served by Salt River. Consequently, El Paso requests authorization to operate the aforementioned high pressure meter facilities, with appurtenances, in order to provide volumes of high pressure natural gas as required for the operation of Salt River's gas turbine-power electric generators. El Paso avers that there would be no increases in deliveries above those quantities previously authorized at the Agua Fria Power Plant delivery point.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All

[1] The facilities which El Paso proposes to operate is a 12-inch dual orifice meter run, with appurtenances, at Salt River's Agua Fria Power Plant as milepost 4.5 on El Paso's 16-inch O.D. Agua Fria Power Plant pipeline, in Maricopa County, it is stated.

[2] El Paso states that at the time it agreed to install the new meter run at the Agua Fria Power Plant, Section 157.7(c) of the Commission's Regulations permitted interstate pipelines that complied with certain requirements of said regulation to add sales meters for existing customers under their budget-type certificate authorization.

protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commision's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.k

Under the procedure provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. CP81-312-000, etc.]

El Paso Natural Gas Co., et al.; Public Conference

May 18, 1981.

In the matter of El Paso Natural Gas Company (Docket No. CP81-312-000), Clay Basin Storage Company (Docket No. CP81-314-000), Mountain Fuel Resources, Inc. (Docket No. CP81-325-000), Mountain Fuel Supply Company (Docket No. CP81-326-000), and Northwest Pipeline Corporation (Docket No. CP79-277); Public Conference

Take notice that on May 27, 1981, a public conference will be held to discuss issues raised by the applications of EL Paso Natural Gas Company, Clay Basin Storage Company, Mountain Fuel Resources, Inc., Mountain Fuel Supply Company and Northwest Pipeline Corporation, for certificates of public convenience and necessity in the above captioned proceedings. All of the above proceedings relate in some manner to the operation by Mountain Fuel Resources, Inc. of the Clay Basin gas storage field in Dagget County, Utah.

The conference will be held at 10:00 a.m. at the Commission's offices at 825 N. Capital Street, Washington, D.C., in a room to be announced.

BILLING CODE 6450-85-M

[Project No. 4547-000]

Hydro Light, Inc.; Application for Preliminary Permit

May 20, 1981.

Take notice that Hydro Light, Incorporated (Applicant) filed on April 20, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 4547 to be known as Madden Creek Power Project located Madden Creek in Humboldt County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. C. Donald Nelson, 50 Wilshire Drive, Redding, California 96002. Any person who wishes to file a response to this notice should read the entire notice and must comply with requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a six-foot high concrete wall to divert the water into the outlet structure; (2) a 5,000-foot long, 42-inch low pressure pipe for transporting the water to the head of the penstocks; (3) a 2,600-foot long, 42-inch diameter penstock to the powerhouse; (4) surging facilities; (5) a powerhouse containing a total installed capacity of 2.4 MW; (6) a one-mile long 12.5-kV transmission line to connect with an existing Pacific Gas & Electric transmission line. The Aplicant estimates that the average annual energy output would be 10.5 million kWh.

Purpose of Project—The energy produced by this project would be sold to the Pacific Gas and Electric Company.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a period of 24 months during which time it would conduct engineering, economic, and environmental studies, conduct property surveys, prepare State water rights permit applications, negotiate with Pacific Gas and Electric Company, and prepare an FERC license application. No new roads are expected to be required to conduct the studies. This project does not involve construction of a dam or a reservoir. The cost of studies to be completed for preliminary permit is estimated to be $60,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 30, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 28, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or

petition to intervene must be received on or before July 30, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4547. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15849 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4332-000]

Long Lake Energy Corp.; Application for Preliminary Permit

May 20, 1981.

Take notice that Long Lake Energy Corporation (Applicant) filed on March 13, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 4332 known as the Chateaugay High Falls Project located on the Chateaugay River in Franklin County, New York. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Donald E. Hamer, Long Lake Energy Corporation, 330 Madison Avenue, 7th Floor, New York, New York 10017.

Project Description—The proposed project would consist of: (1) an existing 44-foot high masonry dam, having a crest length of 700 feet; (2) an existing reservoir with negligible storage capacity; (3) and existing intake structure with headgates; (4) an existing penstock leading to; (5) a new powerhouse having units with an installed generating capacity of 2,140 kW; (6) an existing tailrace; (7) new transmission lines and switchyard equipment; and (8) appurtenant works. The existing project facilities are owned by the New York State Electric and Gas Corporation. The Applicant estimates that the average annual energy output would be 9,860,000 kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of three years, during which time Applicant would investigate project design alternatives, financial feasibility, environmental effects of project construction and operation, and project power potential. Depending upon the outcome of the studies, Applicant would decide whether to proceed with an application for FERC license. Applicant estimates the cost of studies under the permit to be $50,000.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 30, 1981, either the competing application itself [See 18 CFR 4.33(a) and (d)(1980)] or a notice of intent [See 18 CFR 4.33(b) and (c)(1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than September 28, 1981.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies only directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 C.F.R. 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protest, or petition to intervene must be received on or before July 30, 1981.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15850 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4472-000]

Niagara Mohawk Power Corp.; Application for Preliminary Permit

May 20, 1981.

Take notice that Niagara Mohawk Power Corporation (Applicant) filed on April 9, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4472 to be known as the Saranac Project located on the Saranac River in the Towns of Black Brook, Franklin, and St. Armand in Essex, Franklin, and Clinton Counties, New York. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: John H. Terry, Esquire, Niagara Mohawk River Corporation, 300 Erie Boulevard West, Syracuse, New York 13202. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would redevelop the existing Applicant-owned facilities and would consist of two developments:

A. The Union Falls Development at river-mile 38 comprising: (1) a 151-foot long and 24-foot high dam having a spillway with crest elevation 1,408.5 m.s.l.; (2) an integral 36-foot long intake structure at the dam's left (west) side; (3) a reservoir having a surface area of 1,630 acres at pool elevation 1,409.5 m.s.l.; (4) an 11-foot diameter 1,433-foot long pipeline; (5) a new surge tank; (6) a powerhouse containing two new

generating units having a total rated capacity of 3,500-kW; (7) a new substation; and (8) appurtenant facilities. The Applicant estimates that the average annual energy output would be 11,600,000 kWh.

B. The Franklin Falls Development at river-mile 45 comprising: (1) a 148-foot long and 45-foot high dam having crest elevation 1,463.2 m.s.l.; (2) an integral 28-foot long intake structure at the dam's right (south) side; (3) a reservoir having a surface area of 485 acres at pool elevation 1,465.2 m.s.l.; (4) a 10.5-foot diameter 300-foot long pipeline; (5) a surge tank; (6) two short 10-foot diameter penstocks; (7) a powerhouse containing two new rebuilt generating units having a total rated capacity of 2,485-kW; (8) a substation; and (9) appurtenant facilities. The Applicant estimates that the average annual energy output would be 10,500,000 kWh.

Purpose of Project—Project energy would be sold to Applicant's customers within its service area.

Proposed Scope and Cost of Studies Under Permit—Applicant seeks issuance of a preliminary permit for a period of two years, during which time it would review its completed feasibility study, refine the economic feasibility, assess the environmental impact, collect additional data, consult with Federal, State, and local agencies, and prepare an application for an FERC license. Applicant estimates the cost of the work under the permit would be $210,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 30, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 28, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 30, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions, to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4472. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15851 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-307-000]

Northwest Pipeline Corp.; Application

May 21, 1981.

Take notice that, on April 28, 1981, Northwest Pipeline Corporation (Northwest), 315 East 200 South, Salt Lake City, Utah 84111, filed in Docket No. CP81-307-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corporation (Texas Eastern) and Transwestern Pipeline Company (Transwestern), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Northwest states that its total, present and projected gas supply available to its transmission system exceeds present system requirements on most days during the calendar year. This excess supply, it says, is attributable to reduced sales requirements due to a loss of certain industrial loads with alternate fuel capability and gas supply in excess of its on-system requirements due to increased domestic deliverability and the continued availability of Canadian gas supplies at levels currently authorized for export by the National Energy Board of Canada. Northwest proposes to maximize its purchases from Westcoast Transmission Company Limited (Westcoast) at the international boundary near Sumas, Washington, during the term of an agreement among it, Texas Eastern and Transwestern entered into on March 27, 1981. Northwest says that when it has a total gas supply in excess of its total requirements, inclusive of, but not limited to, all sales requirements under all presently effective rate schedules, direct sales requirements, exchange balancing, storage injections and line pack requirments, it then would tender the gas for sale and delivery to Texas Eastern and Transwestern.

Northwest states that the March 27, 1981 agreement provides for the sale by Northwest, on an as available basis, of volumes of natural gas to Texas Eastern and Transwestern during the three-year

period commening on the date of any authorization granted herein, and then year to year thereafter. Northwest says that the agreement provides for a volumetric limitation of up to 200 million Btu equivalent of gas per day. However, it says there is no obligation, firm or otherwise, on the part of Northwest to sell and deliver to Texas Eastern or Transwestern a specified volume of natural gas during the term of the agreement or on any day thereof. According to Northwest, Texas Eastern and Transwestern are obligated only to accept volumes which either or both determine they would be able to accept. Northwest says the volumes to be sold and delivered may be utilized by either Texas Eastern or by Transwestern as the requirements on their respective systems dictate.

Northwest says that it is presently negotiating a long-term sales contract with Texas Eastern and Transwestern which would provide for the firm sale and delivery of natural gas through October 31, 1989. Northwest also says that, upon execution of the firm contract, it would make the requirement applications to the Commission for the necessary authorization to effectuate the firm sale to Texas Eastern and Transwestern, and that the sale pursuant to the March 27, 1981 agreement would terminate upon the initiation of such firm sale to Texas Eastern and Transwestern.

To the extent that Northwest has volumes of natural gas available for sale, it states that such volumes would be delivered to El Paso Natural Gas Company (El Paso) for the account to Texas Eastern and Transwestern for subsequent transportation and redelivery at a point or points to be agreed upon between El Paso and Texas Eastern and Transwestern. Northwest states that deliveries to El Paso by it would be at an existing point of interconnection between the facilities of Northwest and El Paso in the vicinity of Ingnacio, La Plata County, Colorado, and that no new facilities would be required by it to effectuate the proposal herein. Northwest says that deliveries by it can commence immediately upon the grant of the authorization requested herein.

Northwest says that it proposes to charge Texas Eastern and Transwestern for all gas delivered to El Paso for their accounts a rate consisting of the following components: (a) an amount equal to the price per million Btu paid by Northwest (currently $4.94 per million Btu U.S.) for Canadian gas delivered to Northwest by Westcoast at the Canadian border and (b) 20.34 cents per Mcf of gas delivered which is equal to Northwest's presently effective direct mainline transportation charge currently set forth in Sheet 2 of its FERC Gas Traiff, Original Volume No. 2; and (c) a charge for compressor fuel utilized in the transportation of the volumes of natural gas sold and delivered hereunder based on a current fuel usage of one percent for volumes transported. Compressor fuel would be priced at Northwest's overall system average gas purchase cost. The estimated initial cost of gas delivered to El Paso for the account of Texas Eastern and Transwestern would be approximately $5.17 per million Btu, Northwest says. These charges are set forth in the agreement dated March 27, 1981, and are subject to change as authorized by the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rule of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take futher notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules and Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate authorizing the sale and delivery of natural gas is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, of if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15852 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP78-546-005]

Northwest Pipeline Corp.; Petition To Amend

May 21, 1981.

Take notice that on May 7, 1981, Northwest Pipeline Corporation (Northwest), 315 East Second South, Salt Lake City, Utah 84111, filed in Docket No. CP78-546-005 a petition to amend the order of April 5, 1979, as amended November 9, 1979, issued in the instant docket pursuant to Section 7(c) of the Natural Gas Act so as to authorize Northwest to transport natural gas for Southwest Gas Corporation (Southwest) from additional wells located on additional specified acreage in Uintah County, Utah, Grand County, Utah, and Garfield County, Colorado, as listed and described in Exhibit C to the transportation agreement dated September 12, 1978, as amended, between Southwest and Northwest and to grant authority to transport natural gas for Southwest from areas accessible to its Bar X and Grand Valley Gathering System which may be added to Exhibit C, all as more fully set forth in the petition to amend.

Northwest states that by order of April 5, 1979, as amended November 9, 1979, in the instant docket it was granted authorization to transport up to 20,000 Mcf of natural gas per day for Southwest's account from wells located on specified acreage in Uintah County, Utah, Grand County, Utah, Garfield County, Colorado, and Mesa County, Colorado, as listed and described in Exhibit A to the transportation agreement, to Southwest at either the point of interconnection between Southwest and Northwest on the Idaho-Nevada border in Owyhee County, Idaho, or the point of interconnection between El Paso Natural Gas Company (El Paso) and Northwest in La Plata County, Colorado, pursuant to the terms of a gas purchase, gathering and transportation agreement dated September 12, 1978, as amended April 24, 1979, between Northwest and Southwest.

By the instant amendment, Northwest requests authorization to transport volumes of gas for Southwest from the expanded area in Uintah County, Grand County and Garfield County, described in Exhibit C to the transportation

agreement, as amended May 12, 1980, August 14, 1980, and March 19, 1981. Additionally, Northwest requests authorization to transport gas for Southwest from areas accessible to its Bar X and Grand Valley Gathering Systems which may be added to Exhibit C by future amendments, it is said. Northwest states that the instant proposal would permit the timely connection of volumes of natural gas acquired by Southwest in the vicinity of Northwest's facilities and would obviate the need for Northwest to file for petitions to amend each time Exhibit C is amended to make additional acreage subject to the transportation agreement.

Northwest states that it would continue to transport Southwest's gas to either the redelivery point in Owyhee County, Idaho, or the redelivery point in La Plata County, Colorado. However, from the acreage not listed on Exhibit A but which is listed on Exhibit C of the transportation agreements, Northwest states that it would transport Southwest's gas to only the La Plata County, Colorado redelivery point.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance wtih the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15853 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4441-000]

Pacific Power and Light Co., Agent; Application for Exemption for Small Hydroelectric Power Project Under 5 MW Capacity

May 20, 1981.

Take notice that on March 30, 1981, Pacific Power and Light Company, Agent (Applicant) filed an application, under Section 408 of the Energy Security Act of 1980 (Act) [Public Law 96-294, 94 Stat. 611] (16 U.S.C. 2705, and 2706 *as amended*), for exemption of a proposed hydroelectric project from licensing under Part I of the Federal Power Act. The proposed Skookumchuck small hydroelectric project (FERC Project No. 4441) would be located at the existing Skookumchuck Dam on the Skookumchuck River in Thurston County, Washington. Correspondence with the Applicant should be directed to: Leighton and Sherline, 1701 K Street, N.W., Washington, D.C. 20006; and Mr. Dexter Martin, Esq., Stoel, Rives, Fraser and Wyse, 2200 Georgia-Pacific Building, 900 S.W. Fifth Avenue, Portland, Oregon 97204. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) the existing 160-foot high and 1,340-foot long earthfilled embankment Skookumchuck Dam with an ungated sided channel spillway and fish trapping facilities, and impounding a reservoir with a storage capacity of 35,000 acre-feet; (2) a steel-lined concrete outlet conduit; (3) a powerhouse to be located at the foot of the dam containing one generating unit rated at 980 kW; and (4) a 1.9-mile long three-phase transmission line.

Purpose of Project—The energy generated by the project would be banked with the Puget Sound Power and Light Company.

Agency Comments—The U.S. Fish and Wildlife Service and the Washington Departments of Fisheries and Game are requested, for the purposes set forth in Section 408 of the Act, to submit appropriate terms and conditions to protect any fish and wildlife resources. Other Federal, State and local agencies that receive this notice through direct mailing from the Commission are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—This application was filed as a competing application to Pacific Hydro, Inc. and the City of Tenino's preliminary permit application for Project No. 3654-000 filed on November 3, 1980, under 18 CFR 4.33 (1980), and, therefore, no further competing applications or notices of intent to file a competing application will be accepted for filing.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before June 24, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for exemption for Project No. 4441. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15854 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4555-000]

Rust Hydro Generation Co.; Application for Preliminary Permit

May 20, 1981.

Take notice that Rust Hydro Generation Company (Applicant) filed on April 17, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for proposed Project No. 4555 to be known as Potem Creek Power Project

located on Potem Creek in Shasta County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Terrance A. Rust, Rust Hydro Generation Company, 2315 N. Bechelli, Redding, California 96002. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 3–foot high natural rock-fill diversion dam creating negligible impoundment; (2) a 3,400-foot long, 36-inch diameter penstock; (3) a powerhouse containing a total installed capacity of 500 kW; and (4) a 12-kV transmission line to an existing Pacific Gas and Electric Company transmission line. The Applicant estimates that the average annual energy output would be 4.25 million kWh.

Purpose of Project—The energy produced by the project would be sold to the Pacific Gas and Electric Company.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks issuance of a preliminary permit for a period of 24 months, during which time it would conduct engineering, economic, and environmental studies, apply for State water rights permit, negotiate with Pacific Gas and Electric Company, conduct property line survey, and prepare FERC license. No new roads would be required for these studies. The cost of the studies to be performed under the preliminary permit is estimated to be $45,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before July 30, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than September 28, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before July 30, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4555. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket CP81-331-000]

Tennessee Gas Pipeline Co., a Division of Tenneco Inc.; Application

May 21, 1981.

Take notice that on May 12, 1981, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Applicant), P.O. Box 2511, Houston, Texas 77001, filed in Docket No. CP81–331–000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon the transportation of natural gas in interstate commerce for United Gas Pipe Line Company (United) from Colorado County, Texas, to Ouachita Parish, Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant proposes to abandon the transportation of 10,000 Mcf of gas per day for United at the request of United. The service was authorized in Docket No. CP78–248 to be made pursuant to Applicant's Rate Schedule T–65.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the

Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-15856 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

Office of Hearings and Appeals

Issuance of Decisions and Orders by the Office of Hearings and Appeals; Week of April 13 Through 17, 1981

During the week of April 13 through 17, 1981, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Borton, Petrini & Conron, 4/16/81, BFA-0636

Borton, Petrini & Conron (Borton) filed an Appeal from a denial by the Assistant Administrator for Energy Operations of the Energy Information Administration of a request for information that the firm had submitted pursuant to the Freedom of Information Act (FOIA). Borton has requested data concerning the prices charged during a particular period by refiners and resellers of butane and propane in specified areas in Region IX. In considering the Appeal, the DOE found that (i) none of the data contained on Form FEA-P302-M-1, Form FEA-P314-M-0, EIA-14 and FEO-96 were responsive to Borton's request and (ii) the Office of Special Counsel, the Office of Enforcement, and the Special Investigations Division of the Office of General Counsel might have documents responsive to the request. Accordingly, the DOE determined that the request should be forwarded to these offices for a determination whether they have any responsive material.

Consumers Power Company, 4/14/81, BEA-0612, BES-0612

Consumers Power Company filed an Appeal from a denial by the ERA to include the firm in the Entitlements Program for the period February 1, 1976 through June 16, 1976. The firm also filed an Application for Stay of the January 1981 Entitlements Notice. The DOE denied the Appeal because it determined that the ERA action was neither erroneous in fact or in law, nor arbitrary or capricious. Since Consumer's Appeal was decided on the merits in the decision, its Application for Stay was no longer necessary and was therefore dismissed.

Engelhard Minerals & Chemicals Corporation, 4/17/81, BFA-0633

Engelhard Minerals & Chemicals Corporation (Engelhard) filed an Appeal from a denial by the Chief Enforcement Counsel to the Northeast District Office of Enforcement of the Economic Regulatory Administration of a request for information which the firm had submitted under the Freedom of Information Act (FOIA). In considering the Appeal, the DOE found that the documents and portions of documents withheld by the Chief Enforcement Counsel are properly exempt from mandatory disclosure pursuant to Exemptions 5 and 7(A) of the FOIA, and furthermore, that public interest considerations do not warrant their release. However, the DOE also found that the Chief Enforcement Counsel failed to search the files of the Office of General Counsel and the Offices of Regional Counsel for Regions II and III for documents responsive to Engelhard's request. Accordingly, the DOE determined that the Engelhard Appeal should be granted in part and that the Chief Enforcement Counsel should conduct a search of the General and Regional Counsels' files for reponsive documents and either release such documents to Engelhard or issue a determination explaining why release would be inappropriate.

Hudson, Creyke, Koehler, Tacke & Bixler, 4/16/81, BFA-0620

Hudson, Creyke, Koehler, Tacke & Bixler filed an Appeal from a denial by the Acting Manager of the Idaho Operations Office of a request for information which the firm had submitted under the Freedom of Information Act. In considerating the Appeal, the DOE determined that the Acting Manager correctly whitheld the requested documents pursuant to the qualified privilege for government-generated confidential, commercial information incorporated by Exemption 5. The DOE also determined that the documents were exempt from mandatory disclosure pursuant to the Exemption 5 privilege for predecisional memoranda.

Indian Wells Oil Company, Inc., 4/16/81, BFA-0631

Indian Wells Oil Company, Inc. filed an Appeal from a partial denial by the District Manager of the Economic Regulatory Administration's Central Enforcement District of a Request for Information which the firm had submitted under the Freedom of Information Act (the FOIA). In considering the Appeal, the OHA found that certain of the documents which were initially withheld under Exemption 5 contained factually segregable material which should be released to the firm. In addition, the District Manager was directed to search for responsive documents generated subsequent to December 1979 and if any are found, to identify them and make a determination regarding their release. In all other respects, the Appeal was denied.

Standard Oil Company of Ohio (Sohio), 4/14/81, BEA-0203

The Standard Oil Company of Ohio (Sohio) filed an Appeal of a Temporary Exception issued to Energy Cooperative Inc. (ECI) on January 21, 1980. In considering Sohio's request, the DOE noted that Temporary Exceptions are not appealable. Sohio's Appeal was therefore dismissed. However, its submission was incorporated into the objection stage of the ECI proceeding related to the January 21 Temporary Exception.

Request for Modification and/or Rescission

Mid-Continent Systems, Inc., 4/16/81, BRR-0120

Mid-Continent Systems, Inc., filed a document styled as a "motion for reconsideration" of a final Decision and Order issued by the Office of Hearings and Appeals of the Department of Energy. The DOE found that Mid-Continent had failed to proffer any reasons why a final Decision and Order issued over twenty months prior to the filing of its motion should be reconsidered. Accordingly, the firm's request was denied.

Requests for Exception

Kentucky Oil & Refining, Inc., 4/15/81, BEE-0565

Kentucky Oil & Refining, Inc. filed an Application for Exception from the provisions of 10 CFR 211.67 in which the firm sought entitlement exception relief under the *Delta* standards. In considering the request, the DOE found that exception relief was necessary to relieve the firm of its net entitlement purchase obligation in its 1980 fiscal year.

Ramona Public Works Authority, 4/13/81, BEE-1288

Ramona Public Works Authority filed an Application for Exception in which the municipality sought an exemption from the requirement that if file Form EIA-50 with the DOE. In considering the request, the DOE found that the municipality had failed to demonstrate that it would suffer an unfair or onerous administrative burden if it were required to complete Form EIA-50. Accordingly, the exception relief was denied.

Sentry Refining, Inc., 4/13/81, BEE-1339

Sentry Refining, Inc. filed an Application for Exception from the provisions of 10 CFR 211.67 in which the firm sought additional entitlements for crude oil purchased for use in its expanded refinery. In considering the request, the DOE found that the firm had failed to demonstrate that any additional volumes of crude oil purchased by the firm were connected with an increased crude oil inventory for its expanded refinery capacity. Accordingly, exception relief was denied.

Warrior Asphalt Company of Alabama, Inc., 4/13/81, BXE-1052, BXE-1477

Warrior Asphalt Company of Alabama, Inc. filed Applications for Exception from the provisions of 10 CFR 211.67 in which the firm requested that it be excused from fulfilling its obligation under the DOE Crude Oil Entitlements Program. In considering the request, the DOE found that exception relief was appropriate under the *Delta* standards to

relieve Warrior of its net entitlement purchase obligation. Accordingly, exception relief was granted.

Witco Chemical Corporation, 4/16/81, BEE-1308

Witco Chemical Corporation filed an Application for Exception from the provisions of 10 CFR Part 212 in which the firm sought entitlements relief which would bring the firm's crude oil acquisition costs into substantial parity with those of other refiners. In considering the request, the DOE found that the firm had not demonstrated that any crude oil acquisition cost disparity which it was experiencing was attributable to the DOE regulatory programs. Accordingly, exception relief was denied.

Request for Stay

Independent Terminal Operators Association, 4/17/81, BES-0149

ITOA filed an Application for Stay of the provisions of an agreement entered into by the Office of Enforcement and the National Oil Jobbers Council on March 23, 1981. The Department of Energy concluded that ITOA had not convincingly demonstrated that it was likely to succeed on the merits of an Appeal of the March 23 agreement or that a stay was warranted on any other grounds. Accordingly, the Application for Stay was denied.

Motion for Discovery

Earl E. Wall, 4/15/81, DRD-0188, DRH-0188

On June 18, 1979, Earl E. Wall filed a Motion for Discovery and a Motion for Evidentiary Hearing with the Office of Hearings and Appeals of the Department of Energy. These Motions were filed in connection with a Proposed Remedial Order which was issued to Wall. In his Motion for Discovery, Wall requested the identity of all documents and persons involved in the enforcement proceedings against Wall and in the promulgation of certain regulatory definitions and records of all communications between DOE personnel and Congress regarding enforcement actions involving the petroleum price regulations. In his Motion for Evidentiary Hearing, Wall states that evidentiary hearing is necessary for him to present the testimony of Joseph Sheldon, a petroleum geologist, of himself, and of any other expert witness deemed necessary.

In considering the Motion for Discovery, the DOE found that a substantial amount of the material requested by Wall was publicly admissible and therefore available to him. The DOE also determined that the requested material would be of little help in resolving issues involved in the PRO proceeding. Consequently, the Motion was denied. In considering the Motion for Evidentiary Hearing, the DOE found that Wall had not presented any factual disputes in his Motion, and therefore, pursuant to 10 CFR 205.64, determined that an evidentiary hearing would be inappropriate. Consequently, the Wall Motion for Evidentiary Hearing was also denied.

Interlocutory Order

Murphy Oil Corporation; Marathon Oil Company, 4/15/81, BRZ-0094, BRZ-0095

Murphy Oil Corporation and Marathon Oil Company filed similar Motions to Strike submissions filed by the Office of Special Counsel (OSC) in connection with Proposed Orders of Disallowance issued to the firms by OSC. Specifically, the firms requested that the Office of Hearings and Appeals strike Motions for Discovery filed by OSC on the ground that memoranda accompanying the discovery motions allegedly failed to demonstrate the relevance or materiality of the information sought. In considering the Motions to Strike, we stated that Motions to Strike materials in the record of an enforcement proceeding would be granted only upon a showing of prejudice to the moving party. Since the firms could not demonstrate prejudice resulting from consideration of the OSC discovery motions, the Motions to Strike were denied.

Supplemental Orders

Husky Oil Company of Delaware, 4/17/81, DEX-0007

On April 17, 1981, the Department of Energy issued a Supplemental Decision and Order which determined that the level of exception relief previously granted to Husky Oil Company of Delaware under the *Delta* standards should be reduced. Under the *Delta* standards as applied to Husky's 1976 fiscal year, the controlling test for calculating the appropriate level of exception relief was the firm's net entitlement purchase obligation. However, the DOE concluded that Husky had received exception relief in excess of its net purchase obligation and that Husky should therefore purchase entitlements worth $840,768.38 to repay the relief which resulted in a net entitlement sale obligation for the firm's 1976 fiscal year.

Husky Oil Company of Delaware, 4/17/81, BEX-0179

Pursuant to an order of the U.S. District Court for the District of Wyoming and an order of the Temporary Emergency Court of Appeals, the Husky Oil Company of Delaware was issued a Supplemental Order which reconsiders the method used to calculate the amount of entitlements exception relief granted in previous decisions issued to the firm on December 15, 1976 and June 2, 1977. The Supplemental Order provides that Husky be relieved of its obligation to purchase any entitlements during the period January 1977 through March 1978. The Order further provides that any obligations to purchase entitlements incurred by Husky during the period April 1978 through December 1980 be stayed, and that Husky be required to submit financial and operating data to enable the DOE to evaluate Husky's eligibility for entitlements exception relief for that period.

Laketon Asphalt Refining, Inc., 4/14/81, DEX-0097

The DOE reconsidered a portion of a Decision and Order issued to Laketon denying the firm's request for entitlement exception relief. Specifically, the DOE reconsidered whether the data used to calculate Laketon's historical profitability should be adjusted to account for an expansion of the firm's refinery facility and whether the "Net Sales" figure which Laketon reported for its 1975 fiscal year should be recalculated. The DOE determined that the expansion of the Laketon's refining facility did not meet the criteria of the *OKC* precedent for an adjustment to a firm's historical financial measurements and that Laketon's "Net Sales" figure for its 1975 fiscal year had been properly calculated.

Navajo Refining Company, 4/13/81, BEX-0189

On its own motion, the Department of Energy issued a Supplemental Order to Navajo Refining Company which relieved the firm of its total entitlement purchase obligation for the period August 1980 through January 1981.

Texas City Refining, Inc., 4/15/81, BEX-0192

The DOE issued a Supplemental Order to Texas City Refining, Inc. in which it rescinded a stay issued to the firm on June 22, 1978 (DES-0071) because it found that the basis for the stay was no longer present.

Petitions Involving the Motor Gasoline Allocation Regulations

The following firm filed an application for Exception from the provisions of the Motor Gasoline Allocation Regulations. The request, if granted, would result in an increase in the firm's base period allocation of motor gasoline. The DOE issued a Decision and Order which determined that the request be granted.

Company Name and Case No.

Colstrip Town Pump, DEE-5883

Petitions Involving the Motor Gasoline Allocation Regulations

The following firms filed Applications for Exception from the provisions of the Motor Gasoline Allocation Regulations. The DOE issued Decisions and Orders which determined that the requests be dismissed:

Company Name and Case No.

Dennis McMillen, BEO-0674
Wolff Development, Inc., BEE-1498

Dismissals

The following submission was dismissed:

Company Name and Case No.

Mosbacher Production Company, BRO-1336

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street, N.W., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except Federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercially published loose leaf reporter system.

George B. Breznay,

Director, Office of Hearings and Appeals.

May 21, 1981.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[PH-FRL-1836-6; OPP-30035A]

Bibliographies for Registration Standard Cases; Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Office of Pesticide Programs (OPP), EPA, has prepared preliminary bibliographies of relevant published and unpublished technical data for each of the 27 pesticide chemicals listed in the "SUPPLEMENTARY INFORMATION" section of this notice. These bibliographies are publicly available to assist those interested in submitting additional relevant data. The Agency published the notice in the **Federal Register** of April 18, 1980 (45 FR 26370), initially listing the pesticide chemicals for which registration standards are being prepared. The notice solicited public comments and data, and announced that bibliographies for the pesticide chemicals were being prepared.

DATE: Requests for a bibliography should be made by July 27, 1981. To obtain a copy of a bibliography, send requests to the contact person named below.

FOR FURTHER INFORMATION CONTACT: Marcia Edwards, Information Services Section (TS-757C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, D.C. 20460, (703-557-7155).

SUPPLEMENTARY INFORMATION: The first step in developing a registration standard is the compilation of a comprehensive data base to support science and regulatory reviews. EPA initiates this effort by assembling summaries of the following information into a consolidated bibliography: (1) Data submitted to EPA and its predecessor agencies in support of past regulatory decisions, (2) selections from the published technical literature, and (3) other relevant data from EPA or other agency files.

When this step is completed, the resulting preliminary consolidated bibliographies are sent to all affected registrants and, by request, to interested persons.

This notice announces the availability of consolidated bibliographies for the registration standards cases listed below. These materials are available to assist in the submission of additional documents that should be considered in the development of a regulatory position concerning each chemical case.

0042 acephate (*O,S*-Dimethyl acetylphosphoramidothioate)
0041 bromacil & salts (5-Bromo-3-*sec*-butyl-6-methyluracil) (includes: lithium, sodium, and dimethylamine salts of bromacil)
0051 chlorobromuron (3-(4-Bromo-3-chlorophenyl)-1-methoxy-1-methylurea)
0040 chloropicrin (Trichloronitromethane)
0048 chloroxuron (3-(*p*-(Chlorophenoxy)phenyl)-1,1-dimethylurea)
0038 cycloheximide (3-(2-(3,5-Dimethyl-2-oxocyclohexyl)-2-hydroxyethyl)glutarimide)
0035 dicrotophos (Dimethyl phosphate ester with 3-hydroxy-*N,N*-dimethyl-ciscrotonamide)
0046 diuron (3-(3,4-Dichlorophenyl)-1,1-dimethylurea)
0049 fluometuron (1,1-Dimethyl-3-(alpha, alpha, alpha-trifluoro-*m*-tolyll)urea)
0029 hypochlorites (includes: calcium, lithium, and sodium hypochlorites)
0056 karbutilate (*tert*-Butylcarbamic acid, ester with 3-(*m*-hydroxyphenyl)-1,1-dimethylurea)
0047 linuron (3-(3,4-Dichlorophenyl)-1-methoxy-1-methylurea)
0043 methamidophos (*O,S*-Dimethyl phosphoromidothioate)
0034 methidathion (*O,O*-Dimethyl-*S*-2-methoxy-1,3,4-thiadiazol-5(4H)-onyl-4-methyl-dithiophosphate)
0028 methomyl (*S*-Methyl *N*-((methylcarbamoyl)oxy) thioacetimidate)
0030 methoprene (Isopropyl (*E,E*)-11-methoxy-3,7,11-trimethyl-2,4-dodecadienoate)
0050 metobromuron (3-(*p*-Bromophenyl)-1-methoxy-1-methylurea)
0045 monuron (3-(*p*-Chlorophenyl)-1,1-dimethylurea) (includes: Monuron and monuron trichloracetate)
0052 neburon (1-Butyl-3-(3,4-dichlorophenyl)-1-methylurea)
0055 norea (3-Hexahydro-4,7-methanoindan-5-yl)-1,1-dimethylurea)
0044 OBPA (includes: 10,10'-Oxybisphenoxarsine, 10,10' Oxybisphenoxarsine, phenarsazine chloride)
0027 phosalone (*S*-(6-Chloro-3-(mercaptomethyl)-2-benzoxasolinone)*O-O*-diethyl phosphorodithioate)
0053 siduron (1-(2-Methylcyclohexyl)-3-phenylurea)
0031 sulphur
0054 tebuthiuron (*N*-5-(1,1-Dimethylethyl)-1,3,4-thiadiazol-2-yl)-*N,N'*-dimethylurea)
0039 terbacil (3-*tert*-Butyl-5-chloro-6-methyluracil)
0026 zinc phosphide

Persons who have technical documents that they wish the Agency to consider in developing a standard should request a copy of the appropriate bibliography. They should review the bibliography to determine if the Agency already has the document(s) in its collection. Any non-duplicate documents submitted will be added to the EPA collection and, if received on time, will be given full consideration in the standards development process.

When requesting bibliographies, refer to this notice's control number "[OPP-30035A]" and specify whether the bibliography is desired on microfiche or hard copy. The Agency encourages the use of microfiche because it costs less to produce and may be provided more quickly.

The mention of trade or proprietary names does not imply an endorsement by the Environmental Protection Agency or any other Federal Agency.

Dated: May 18, 1981.

James M. Conlon,

Acting Deputy Assistant Administrator for Pesticide Programs.

[FR Doc. 81-15908 Filed 5-27-81; 8:45 am]

BILLING CODE 6560-32-M

[PH-FRL-1838-7; PP 9G2160/T298]

Fluridone; Extension of Temporary Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: A temporary tolerance has been extended for residues of the herbicide fluridone [1-methyl-[3-phenyl-5-(3-trifluoromethyl) phenyl]-4(1H)-pyridinone] in or on the raw agricultural commodity fish at 0.1 part per million (ppm).

DATE: This temporary tolerance expires June 1, 1983.

FOR FURTHER INFORMATION CONTACT: Richard F. Mountfort, Product Manager (PM) 23, Registration Division (TS-767C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 412D, CM#2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703-557-7070).

SUPPLEMENTARY INFORMATION: EPA issued a notice that published in the **Federal Register** of October 28, 1980 (45 FR 71422), that Elanco Products Co., A Div. of Eli Lilly and Co., P.O. Box 1750, Indianapolis, IN 46206, had submitted a pesticide petition (PP 9G2160). The petition proposed that a tolerance be established for residues of fluridone in or on fish at 0.1 part per million.

Elanco Products Co. has requested an extension of the temporary tolerance to permit the continued marketing of the above raw agricultural commodity when treated in accordance with the experimental use permit (1471-EUP-67) which is being extended under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended

(92 Stat. 819; 7 U.S.C. 136). A food additive regulation (FAP 9H5202) has been extended for residues of fluoridone in potable water resulting from the use of the pesticide under the experimental use.

The scientific data reported and other relevant material have been evaluated and it has been determined that the temporary tolerance will protect the public health. Therefore, the temporary tolerance is extended on the condition that the pesticide be used in accordance with the experimental use permit with the following provisions:

1. The amount of the pesticide to be used will not exceed the amount authorized in the experimental use permit.

2. Elanco Products Co. will immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company will also keep records of production, distribution, and performance, and on request make these records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This temporary tolerance expires June 1, 1983. Residues remaining in or on the raw agricultural commodity after the expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerance. This temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicates that such revocation is necessary to protect the public health.

As required by Executive Order 12291, EPA has determined that this temporary tolerance regulation is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this temporary tolerance from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-534, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

(Sec. 408(j), 68 Stat. 516, (21 U.S.C. 346a(j)))

Dated: April 20, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

[FR Doc. 81-15907 Filed 5-27-81; 8:45 am]

BILLING CODE 6560-32-M

[AMS-FRL-1840-1]

Fuel Economy Retrofit Devices; Announcement of Fuel Economy Retrofit Device Evaluation for "Autosaver"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Fuel Economy Retrofit Device Evaluation.

SUMMARY: This document announces the conclusions of the EPA evaluation of the "Autosaver" Device under provisions of Section 511 of the Motor Vehicle Information and Cost Savings Act.

Background Information

Section 511(b)(1) and Section 511(c) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2011(b)) requires that:

(b)(1) "Upon application of any manufacturer of a retrofit device (or prototype thereof), upon the request of the Federal Trade Commission pursuant to subsection (a), or upon his own motion, the EPA Administrator shall evaluate, in accordance with rules prescribed under subsection (d), any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations (if any) made with respect to such retrofit devices are accurate."

(c) "The EPA Administrator shall publish in the **Federal Register** a summary of the results of all tests conducted under this section, together with the EPA Administrator's conclusions as to—

(1) the effect of any retrofit device on fuel economy;

(2) the effect of any such device on emissions of air pollutants; and

(3) any other information which the Administrator determines to be relevant in evaluating such device."

EPA published final regulations establishing procedures for conducting fuel economy retrofit device evaluations on March 23, 1979 (44 FR 17946).

Origin of Request for Evaluation

On April 16, 1980, the EPA received a request from Mr. Y. Mori for evaluation of a fuel saving device termed "Autosaver." This Device is designed for use on conventional, contact point, ignition systems. This Device is claimed to save fuel and reduce pollution by instantaneously providing the high voltage to the spark plugs in an "ideal" manner.

Availability of Evaluation Report

An evaluation has been made and the results are described completely in a report entitled: "EPA Evaluation of the Autosaver Under Section 511 of the Motor Vehicle Information and Cost Savings Act," report number EPA-AA-TEB-511-81-3 consisting of 33 pages including all attachments.

Copies of this report may be obtained from the National Technical Information Service by using the above report number. Address requests to:

National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161, Phone: Federal Telecommunications System (FTS) 737-4650, Commercial 703-487-4650.

Summary of Evaluation

EPA fully considered all of the information submitted by the Device manufacturer in the Application. The evaluation of the Autosaver Device was based on that information.

The Applicant submitted no valid data to support the claim for improved fuel economy or reduced emissions. The Applicant was advised by letter on several occasions of EPA's requirement that the Applicant submit valid test data following the proper EPA test procedures.

Therefore, there is no technical basis to support any claims for a fuel economy improvement due to the use of the "Autosaver" Device.

Fuel Economy Retrofit Devices; Announcement of Fuel Economy Retrofit Device Evaluation for "Gas Meiser I"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Fuel Economy Retrofit Device Evaluation.

SUMMARY: This document announces the conclusions of the EPA evaluation of the "Gas Meiser I" device under provisions of Section 511 of the Motor Vehicle Information and Cost Savings Act.

Background Information

Section 511(b)(1) and Section 511(c) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2011(b)) requires that:

(b)(1) "Upon application of any manufacturer of a retrofit device (or prototype thereof), upon the request of the Federal Trade Commission pursuant to subsection (a), or upon his own motion, the EPA Administrator shall evaluate, in accordance with rules prescribed under subsection (d), any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations (if any) made with respect to such retrofit devices are accurate."

(c) "The EPA Administrator shall publish in the **Federal Register** a summary of the results of all tests conducted under this section, together with the EPA Administrator's conclusions as to—

(1) the effect of any retrofit device on fuel economy;

(2) the effect of any such device on emissions of air pollutants; and

(3) any other information which the Administrator determines to be relevant in evaluating such device"

EPA published final regulations establishing procedures for conducting fuel economy retrofit device evaluations on March 23, 1979 [44 FR 17946].

Origin of Request for Evaluation

On December 17, 1980, the EPA received a request from Gas Meiser Corporation for evaluation of a fuel saving device termed "Gas Meiser I." This Device is claimed to ". . . increase fuel economy by pre-heating the fuel." The Device consists principally of a gasoline hose wrapped around the vehicle's upper radiator hose.

Availability of Evaluation Report

An evaluation has been made and the results are described completely in a report entitled: "EPA Evaluation of the Gas Meiser I under Section 511 of the Motor Vehicle Information and Cost Savings Act," report number EPA–AA–TEB–511–81–1 consisting of 18 pages including all attachments.

Copies of this report may be obtained from the National Technical Information Service by issuing the above report number. Address requests to:

National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161, Phone: Federal Telecommunications System (FTS) 737–4650, Commercial 703–487–4650.

Summary of Evaluation

The stated method of operation of the "Gas Meiser I" is that the "Gas Meiser I" is designed to preheat the fuel and thereby increase a vehicle's fuel economy.

The Applicant submitted no test data with the application for evaluation. Analysis of the information submitted by the Applicant did not *prove* that use of the "Gas Meiser I" would enable a vehicle operator to improve a vehicle's fuel economy.

Previous EPA testing of another device that preheated the fuel showed that preheating the fuel gave no emissions or fuel economy beneifts.

Thus, there is no technical basis to support any claims for a fuel economy improvement due to the use of the "Gas Meiser I" devise.

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 81–342; File No. 21778–CD–P–(01)–80]

AAA Anserphone, Inc.—Jackson; Designating Application for Hearing on Stated Issues

Memorandum Opinion and Order

Adopted May 15, 1981.

Released May 19, 1981.

By the Common Carrier Bureau:

1. Presently before the Chief, Mobile Services Division, pursuant to delegated Authority, is the above-captioned application of AAA Anserphone, Inc.—Jackson (AAA).

2. The only issue for our consideration is whether the Applicant has demonstrated a sufficient public need for the proposed facility.

3. AAA operates two-way Station KSW215, at Brookhaven, Mississippi, offering service to 30 mobile units and 51 one-way paging units. AAA proposes to transfer the 51 paging units to a new one-way facility to be operated on frequency 158.700 MHz in Brookhaven. Pursuant to 22.501(d)(2) of the Rules, an applicant who already provides two-way service must, provide "full information" to show why paging could not be provided in connection with the base station facilities used for two-way communications. *Airsignal International, Inc.*, 46 FCC 2d 1, 29 RR 2D 1303 (Rev. Bd. 1974). AAA has not provided information as to why it cannot continue to serve its one-way users on its two-way facility. AAA has not shown that it is holding any orders for additional units, and the loading study provided by AAA, pursuant to § 22.516 of the Rules, for its existing facility does not show sufficient loading to justify the grant of another frequency. Consequently, AAA has not justified the grant of the facilities proposed in the referenced application.

4. Accordingly, it is ordered, that the above-referenced application of AAA Anserphone, Inc.—Jackson, File No. 21778–CD–P–(01)–80 is designated for hearing, pursuant to Section 309(e) of the Communications Act of 1934, as amended, upon the following issue:

(a) To determine whether the applicant has demonstrated a sufficient public need for the proposed facility.

5. It is further ordered, that the hearing be held at the Commission offices at a time and place and before an Administrative Law Judge to be specified in a subsequent order.

6. It is further ordered, that the Chief, Common Carrier Bureau, is made a party to the proceeding.

7. It is further ordered, that the applicant may avail itself of an opportunity to be heard by filing with the Commission pursuant to § 1.221(c) of the Rules within 20 days of the release date hereof, a written notice stating an intention to appear on the date for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

8. The Secretary shall cause a copy of this Order to be published in the **Federal Register**.

Sheldon M. Guttmann,

Chief, Mobile Services Division, Common Carrier Bureau.

BILLING CODE 6712–01–M

Advisory Committee on Radio Broadcasting; Canceled Meeting

May 20, 1981.

At the May 12, 1981, meeting of the Advisory Committee on Radio Broadcasting, it was decided to recess and to reconvene the meeting on May 27, 1981, if subsequent developments indicated that it would be useful to resume discussions on that date.

Mr. Henry L. Baumann, Chairman of the Advisory Committee has announced that a review of the scheduling of preparations for the forthcoming Second Session of the I.T.U. Administrative Conference on AM Radio Broadcasting in Region 2, has indicated that the resumption of the Advisory Committee meeting on May 27, 1981, may not be useful given the short period of time between the May 12 meeting and the scheduled date. Accordingly, Mr. Baumann has announced that the meeting tentatively scheduled for May 27, 1981, will not be held. The next meeting of the Advisory Committee will be announced upon the call of the Committee Chairman.

Copies of additional studies of adjacent channel daytime and nighttime interference completed by the Commission staff, will be available for inspection in Room 8010–D, 2025 M Street, N.W., Washington, D.C. by 9 a.m. Thursday, May 28, 1981. Further information may be obtained by contacting William Hassinger at 632–6460.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712–01–M

[CC Docket Nos. 81–338—81–341; File Nos. 20416–CD–P–79, etc.]

Moore's Service, et al.; Consolidated Hearing on Stated Issues

In re applications of Allen C. Moore d/b/a Moore's Service [1] for a construction permit to establish additional facilities for one-way Station KLF592 to operate on frequency 158.70 MHz in the Domestic Public Land Mobile Radio Service (DPLMRS) at Fort Wayne, Indiana, CC Docket No. 81–338, File No. 20416–CD–P–79; Better Beepers, Inc., for a construction permit to modify facilities of one-way Station KWT926 operating on frequency 158.70 MHz in the DPLMRS at Marion, Indiana, CC Docket No. 81–339, File No. 20854–CD–P–79; South Shore Radio-Telephone, Inc., for a construction permit to establish a new one-way station to operate on frequency 158.70 MHz in the DPLMRS at Fort Wayne, Indiana, CC Docket No. 81–340, File No. 20857–CD–P–79; Noah Corporation, for a construction permit to establish a new one-way station to operate on frequency 158.70 MHz in the DPLMRS at Fort Wayne, Indiana, CC Docket No. 81–341, File No. 20865–CD–P–79.

Adopted: May 14, 1981.

Released: May 19, 1981.

1. Presently before the Chief, Common Carrier Bureau, acting pursuant to delegated authority, are the above-captioned applications for construction permits for one-way facilities to operate on frequency 158.70 MHz in the Domestic Public Land Mobile Radio Service (DPLMRS) in Fort Wayne and Marion, Indiana. South Shore Radio-Telephone, Inc., (South Shore) and Allen C. Moore d/b/a Moore's Service (Moore) each filed pleadings protesting the applications of the other and of Noah Corporation (Noah). Responsive pleadings were also filed. By a separate order released today, we denied the petitions and informal objections, found each applicant to be qualified, and determined that a comparative hearing will have to be held since the applications are electrically mutually exclusive. *Allen C. Moore d/b/a Moore's Service,* —— FCC 2d ——, Mimeo 000944, adopted May 14, 1981; released May 19, 1981.

2. Accordingly, it is ordered, that pursuant to Section 309(e) of the Communications Act of 1934, as amended,[2] the above-referenced applications of Allen C. Moore d/b/a Moore's Service, File No. 20416–CD–P–79, Better Beepers, Inc., File No. 20854–CD–P–79, South Shore Radio-Telephone, Inc., File No. 20857–CD–P–79, and Noah Corporation, File No. 20865–CD–P–79, are designated for hearing in a consolidated proceeding upon the following issues:

(a) To determine on a comparative basis, the nature and extent of service proposed by each applicant, including the rates, charges, maintenance, personnel, practices, classifications, regulations, and facilities pertaining thereto;

(b) To determine on a comparative basis, the areas and populations that each applicant will serve within the prospective 43 dBu contours, based upon the standards set forth in § 22.504(a) of the Commission's rules,[3] and to determine and compare the need for the proposed services in said areas; and

---

[1] The Commission recently granted consent to the *pro forma* assignment of Moore's Stations KLF592 and KSJ628, at Fort Wayne, to Better Beepers of Fort Wayne, Inc., which Moore controls (File No. 20229–CD–AL–2–81). *Public Notice*, Report No. 48–A, released December 31, 1980. The assignee is unrelated to Better Beepers, Inc. the Marion applicant. For the sake of clarity, we shall continue to refer to the assignee as Moore.

[2] 47 U.S.C. 309(e).

[3] Section 22.504(a) describes a field strength contour of 43 decibels above one microvolt per meter as the limits of the reliable service area for base stations engaged in one-way signaling service. Propagation data set forth in § 22.504(b) are the proper bases for establishing the location of service contours F (50,50) for the facilities involved in this proceeding.

(c) To determine, in light of the evidence adduced pursuant to the foregoing issues, what disposition of the above-referenced applications would best serve the public interest, convenience, and necessity.

3. It is further ordered, that the hearing shall be held at a time and place and before an Administrative Law Judge to be specified in a subsequent Order.

4. It is further ordered, that the burden of proceeding with the introduction of evidence and the burden of proof shall be upon the respective applicants with respect to each issue.

5. It is further ordered, that the applicants may avail themselves of an opportunity to be heard by filing with the Commission pursuant to § 1.221(c) of the rules within 20 days of the release date hereof, a written notice stating an intention to appear on the date for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

6. It is further ordered, that the Secretary shall cause a copy of this Memorandum Opinion and Order to appear in the Federal Register.

Joseph A. Marino,

Acting Chief, Common Carrier Bureau.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Fire Administration

Board of Visitors for the National Fire Academy; Open Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting:

Name: Board of Visitors for the National Fire Academy
Date of meeting: June 4-5, 1981
Place: National Fire Academy, 16825 South Seton Avenue, Emmitsburg, Maryland 21727
Time: 9:30 a.m. to 5:00 p.m.

Proposed Agenda

June 4: Superintendent's Report/Overview of Academy Operations, Budget FY-1981, Budget FY-1982, Administrator's Report/U.S. Fire Administration, Board of Visitors Annual Report, and such other items that may be of interest to the Board.

June 5: Uncompleted Agenda and Administrative Items.

The meeting will be open to the public with approximately ten seats available on a first-come first-serve basis. Members of the general public who plan to attend the meeting should contact Mr. Clem R. Lakin, National Fire Academy, 16825 South Seton Avenue, Emmitsburg, Maryland 21727 (phone: 301/447-6771) on or before May 28, 1981.

Minutes of the meeting will be prepared by the Board and will be available for public viewing in the Superintendent's Office, National Fire Academy, Emmitsburg, Maryland. Copies of the minutes will be available upon request thirty days after the meeting.

Joseph A. Moreland,

Acting Administrator, United States Fire Administration.

May 19, 1981.

FEDERAL RESERVE SYSTEM

Affiliated Bankshares of Colorado, Inc.; Acquisition of Bank

Affiliated Bankshares of Colorado, Inc., Boulder, Colorado, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of First Colorado Bank, National Association, Colorado springs, Colorado. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than June 19, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, May 19, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweight possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation

would not suffice in liew of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be agrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and received by the appropriate Federal Reserve Bank not later than June 15, 1981.

A. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

Citicorp, New York (consumer finance, insurance and industrial loan company activities; Washington): to engage through a *de novo* office of its indirect subsidiary, Citicorp Washington Industrial Loan Company, to be located in Lacey, Washington, in the following activities: the making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the extension of loans to dealers for the financing of inventory (floor planning) and working capital purposes; the purchasing and servicing for its own account of sales finance contracts; the sale of credit related life and accident and health or decreasing or level (in the case of single payment loans) term life insurance by licensed agents or brokers, as required; the sale of credit related property and casualty insurance protecting real and personal property subject to a security agreement with Citicorp Washington Industrial Loan Company, to the extent permissible under applicable state insurance laws and regulations; and the originating, for its own account or for the account of others, of first mortgage loans secured by residential or commercial properties. The service area of the *de novo* office would be comprised of the entire state of Washington. Citicorp also wishes to expand the previously approved service area of the existing office of Citicorp Washington Financial Center, Inc., at the same location in Lacey, Washington, to include the entire state of Washington. The previously approved activities of that office include all the aforementioned activities. Credit related life, accident, and health insurance may be written by Family Guardian Life Insurance Company, an affiliate of Citicorp Washington Financial Center, Inc., and Citicorp Washington Industrial Loan Company.

B. Citicorp, New York, New York, (consumer finance, insurance and industrial loan company activities; Washington: to engage through a *de novo* office of its indirect subsidiary, Citicorp Washington Industrial Loan Company, to be located in Federal Way, Washington, in the following activities: the making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the extension of loans to dealers for the financing of inventory (floor planning) and working capital purposes; the purchasing and servicing for its own account of sales finance contracts; the sale of credit related life and accident and health or decreasing or level (in the case of single payment loans) term life insurance by licensed agents or brokers, as required; the sale of credit related property and casualty insurance protecting real and personal property subject to a security agreement with Citicorp Washington Industrial Loan Company, to the extent permissible under applicable state insurance laws and regulations; the originating, for its own accout or for the account of others, of first mortgage loans secured by residential or commercial properties. The serviuce area of the *de novo* office would be comprised of the entire state of Washington. Citicorp also wishes to expand the previously approved service area of the existing office of Citicorp Washington Financial Center, Inc., at the same location in Federal Way, Washington, to include the entire state of Washington. The previously approved activities of that office include all the aforementioned activities. Credit related life, accident, and health insurance may be written by Family Guardian Life Insurance Company, an affiliate of Citicorp Washington Financial Center, Inc., and Citicorp Washington Industrial Loan Company.

C. Citicorp, New York, New York (consumer finance, insurance activities; California) to expand the activities of an approved office of its subsidiary, Citicorp Person-to-Person Financial Center, Inc., located at San Jose, California, engaged in the following previously approved activities: the making or acquiring of loans and other extensions of credit, secured or unsecured, for consumer and other purposes; the extensions of loans to dealers for the financing of inventory (floor planning) and working capital purposes; the purchasing and servicing for its own account of sales finance contracts; the sale of credit related life and accident and health or decreasing or level (in the case of single payment loans) term life insurance by licensed agents or brokers, as required. The new activity in which the office proposes to engage *de novo* is: the sale of credit related property and casualty insurance protecting real and personal property subject to a security agreement with Citicorp Person-to-Person Financial Center, Inc., to the extent permissible under applicable state insurance laws and regulations. Credit related life, accident, and health insurance may be written by Family Guardian Life Insurance Company, an affiliate of Citicorp Person-to-Person Financial Center, Inc. The previously approved service area of the office is comprised of San Mateo, Santa Clara, and Alameda Counties.

B. *Federal Reserve Bank of Richmond* (Lloyd W. Bostian, Jr., Vice President), 701 East Byrd Street, Richmond, Virginia 23261:

The Wachovia Corporation (mortgage banking, North Carolina): a bank holding company, proposes to engage through a subsidiary known as Wachovia Mortgage Company in the following activities: Providing mortgage banking services, including the origination and processing of residential, construction, development, and income property mortgage loans, the purchase and sale or placement of mortgage loans, the administration and servicing of mortgage loans, the management and sale of properties acquired through foreclosure or transfers in lieu of foreclosure, and acting as agent for credit life and accident and health insurance and for property and casualty insurance related to extensions of credit. Such activities will be conducted at an office in the following locations: 400 East Main Street, Elizabeth City, North Carolina 27909; 1505 South York Road, Gastonia, North Carolina 28052; 139 West Walnut Street, Goldsboro, North Carolina 27530; and would service the cities in which these offices are located,

C. *Federal Reserve Bank of San Francisco* (Harry W. Green, Vice President), 400 Sansome Street, San Francisco, California 94120:

U.S. Bancorp, Portland, Oregon (financing and leasing activities, Kansas, Missouri, Oklahoma): to engage, through its subsidiary, U.S. Bancorp Financial, Inc., in the making, acquiring, and servicing of loans and other extensions of credit, either secured or unsecured, for its own account or for the account of others, including, but not limited to, commercial, rediscount, installment sales contracts and other

forms of receivables, and leasing of personal property and equipment in conformance with the provisions of section 225.4(6)(a) of the Board's Regulation Y. These activities would be conducted from an office in Kansas City, Missouri, serving Kansas, Missouri, and northeastern Oklahoma.

D. *Other Fedral Reserve Banks:* None.

Board of Governors of the Federal Reserve System, May 20, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Citicorp; Proposed Check Guarantee and Check Authorization Activities

Citicorp, New York, New York, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843)c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to expand the activities of its subsidiary, Citicorp Financial Inc., Towson, Maryland.

Applicant states that the existing subsidiary would engage in the additional activities of retail check guarantees and check authorizations. These activities would be performed from offices of Applicant's existing subsidiary in Towson, Maryland, and the geographic areas to be served are Maryland, Pennsylvania, Virginia, Delaware, and the District of Columbia. Such activities have been approved by the Board as permissable for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of New York.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 21, 1981.

Board of Governors of the Federal Reserve System, May 21, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Security Pacific Corp.; Proposed Acquisition of A. J. Armstrong Co., Inc.

Security Pacific Corporation, Los Angeles, California, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of A. J. Armstrong Co., Inc., New York, New York.

Applicant states that the proposed subsidiary would (perform) (engage in) the activities commercial finance and factoring, as well as arranging letters of credit for use in international trade, and holding a full pay-out lease. These activities would be performed from offices of Applicant's proposed subsidiary located in New York, New York, serving the northeastern region of the United States; Chicago, Illinois, Southfield, Michigan, and Cleveland, Ohio, serving the midwest region; Minnesota, serving the north central region; and Beverly Hills, California, serving the western region. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices."

Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 20, 1981.

Board of Governors of the Federal Reserve System, May 21, 1981.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

"Tar", Nicotine and Carbon Monoxide Content of the Smoke of 187 Varieties of Cigarettes

AGENCY: Federal Trade Commission.

ACTION: Publication of "Tar", Nicotine and Carbon Monoxide Content of the Smoke of 187 Varieties of Cigarettes.

SUMMARY: The Federal Trade Commission publishes the "Tar", Nicotine and Carbon Monoxide Content of domestic cigarettes.

FOR FURTHER INFORMATION CONTACT: Matthew L. Myers, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580 (202-724-1490) or Harold Pillsbury, Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580 (202-523-3559).

SUPPLEMENTARY INFORMATION: The Federal Trade Commission's Laboratory has determined the "tar" (dry particulate matter), total alkaloid (reported as nicotine) and carbon monoxide content of 187 varieties of cigarettes. The laboratory utilized the Cambridge filter method with the following specifications as set forth in the Commission's announcement of July 31, 1967:

1. Smoke cigarettes to a 23 mm. butt length, or to the length of the filter and overwrap plus 3 mm. if in excess of 23 mm.

2. Base results on a test of approximately 100 cigarettes per brand, or type.

3. Cigarettes to be tested will be selected on a random basis, as opposed to "weight selection".

4. Determine particulate matter on a "dry" basis employing the gas chromatography method published by C. H. Sloan and B. J. Sublett in Tobacco Science 9, page 70, 1965, as modified by F. J. Schultz' and A. W. Spears' report published in Tobacco Vol. 162, No. 24, page 32, dated June 17, 1966, to determine the moisture content.

5. Determine and report the "tar" content after subtracting moisture and alkaloids (as nicotine) from particulate matter.

6. Carbon Monoxide is determined by non-dispersal infrared spectrophotometer.

Concerning the 187 varieties tested, 18 were capable of being smoked to 23 mm. The butt length of the other 169 varieties tested ranged from 24.5 mm. to an average of between 47.8 and 48.5 mm. The butt lengths of 146 of the 187 varieties tested exceed 30 mm.

The samples used were obtained by attempting to purchase two packages of each variety of cigarettes as distributed by domestic cigarette manufacturers during October and November 1979 in each of 50 geographic locations throughout the country. All varieties of cigarettes were not available in each of the 50 geographic locations and in these instances, one or more additional packages of cigarettes were purchased in those geographic locations where respective varieties were available. The samples utilized in the tests were representative of the 187 varieties of cigarettes as available throughout the country at the time of purchase.

Due to the initiation of the carbon monoxide testing program, the length of the time between the pick up of the cigarettes tested for this report and the publication of the test results has been longer than normal. Every year some cigarette brands are reformulated, introduced or withdrawn from the market during the testing period. In light of the duration of the current testing period, the number of cigarette brands included in this report which have been reformulated since the cigarettes tested were picked up in late 1979 is higher than normal. The retesting of these brands prior to the issuance of this report would have resulted in a substantial delay in both the issuance of this report and the preparation and issuance of the next report later this year. However, to insure that both consumers and competitors are aware that some of the cigarettes tested for this report have been reformulated, this report also includes a list of those cigarettes which the manufacturers informed the Commission both have been reformulated and now have lower levels of "tar" and/or nicotine according to tests conducted by their manufacturer. Accordingly, consumers and cigarette manufacturers should note that the "tar," nicotine and carbon monoxide figures in the tables of this report for the following brands are based on tests conducted by the FTC on cigarettes which we are advised have subsequently been reformulated. the FTC has not independently verified the statements by the cigarette manufacturers that these brands have been reformulated or the test results submitted by the cigarette manufacturers and, therefore, by the publication of the list of reformulated cigarettes below, the Commission does not attest to the accuracy of the cigarette manufacturers' test results:

Camel, Regular size, non-filter
Camel, King size, filter
Camel Lights, King size, filter
Carlton, King size, filter
Chesterfield, Regular size, non-filter
Chesterfield, King size, non-filter
Chesterfield, King size, filter
Chesterfield, 100mm., filter
Half and Half, King size, filter
Kool Milds, King size, filter, menthol
Kool Super Lights, King size, filter, menthol
L&M, King size, filter
L&M, 100mm., filter
Lark, King size, filter
Lark, 100mm., filter
Marlboro Lights, King size, filter

Oasis, King size, filter, menthol
Pall Mall Lights, 100mm., filter
Salem, King size, filter, menthol
Salem, 100mm., filter, menthol
Salem Lights, King size, filter, menthol
St. Moritz, 100mm., filter
Tareyton Lights, King size, filter
Tareyton Long Lights, 100mm., filter
Vantage, King size, filter
Vantage, King size, filter, menthol

Vantage, 100mm., filter
Virginia Slims Lights, 100mm., filter, menthol
Winston, King size, filter
Winston, 100mm., filter
Winston Lights, King size, filter

The degree of change in the reported "tar," nicotine and carbon monoxide level of those brands listed above varies from brand to brand. In some cases the change as reported by the respective cigarette manufacturer is only 1 milligram tar and/or .1 of a milligram nicotine. In other cases the change is larger. To obtain information on the current "tar" and nicotine levels of these cigarettes according to the manufacturer, consumers and cigarette manufacturers should check the most current advertisements for those brands.

In this table the varieties of cigarettes are arranged in alphabetical order with "tar" and carbon monoxide values rounded to the nearest whole milligram and nicotine values rounded to the nearest tenth of a milligram.

We were informed that the formulation of two varieties of True and two varieties of Golden Lights cigarettes were changed and samples were collected according to the prescribed procedure. Results yielded by the new formulation appear in the body of the tables. The results yielded from the old discontinued formulation are as follows:

Brand and type	TPM dry milligram per cigarette	Nicotine milligram per cigarette	Carbon monoxide milligram per cigarette
True, 100mm, filter	9.1	0.69	12.0
True, 100mm, filter menthol	9.7	.70	13.1
Golden Lights 100's, 100mm, filter	8.6	.79	9.3
Golden Lights 100's filter menthol	8.5	.80	10.2

BILLING CODE 6750-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Biotechnology Resources Review Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Biotechnology Resources Review Committee, Division of Research Resources, June 5, 1981, Landow Building, 7910 Woodmont Avenue, Bethesda, Maryland 20014.

This meeting will be open to the public from 8:00 a.m. to approximately 11:00 a.m. June 5 for discussion of the Biotechnology Resources Program activities in 1981, discussion of the recent meeting of Principal Investigators, and to plan future Committee activities for 1981 and 1982. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public from approximately 11:00 a.m. to adjournment on June 5 for review of 1981 funding plans and the review, discussion, and evaluation of individual research prospectuses submitted by organizations seeking access to PROPHET System services. These prospectuses and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the prospectuses, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. James Augustine, Chief, Office of Science and Health Reports, Division of Research Resources, Bldg. 31, Rm. 5B-13, National Institutes of Health, Bethesda, Maryland 20205, telephone area code 301 496-5545, will provide summaries of meetings and rosters of committee members.

Dr. Charles L. Coulter, Executive Secretary, Biotechnology Resources Review Committee, Division of Research Resources, Bldg. 31, Rm. 5B-41, National Institutes of Health, Bethesda, Maryland 20205, telephone area code 301-496-5411, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.371, Biotechnology Research, National Institutes of Health)

NIH programs are not covered by OMB Circular A-95 because they fit the description of "programs not considered appropriate" in section 8(b)(4) and (5) of that Circular.

Dated: May 21, 1981.

Thomas E. Malone,

Deputy Director, National Institutes of Health.

BILLING CODE 4110-08-M

Pharmacological Sciences Review Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Pharmacological Sciences Review Committee, National Institute of General Medical Sciences, National Institutes of Health, July 9-10, 1981, Building 31C, Conference Room 6, Bethesda, Maryland.

This meeting will be open to the public on July 9 from 8:45 a.m. to 10:00 a.m. for opening remarks and general administrative business. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Section 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public for approximately 12 hours for the review, discussion, and evaluation of individual grant applications. It is anticipated that this will occur on July 9, from approximately 10:00 a.m. to 5:00 p.m. and on July 10, from 9:00 a.m. to adjournment. These applications and the discussions could reveal personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Ms. Ellen Casselberry, Public Information Officer, NIGMS, Westwood Building, Room 9A10, Bethesda, Maryland 20205, Telephone: 301, 496-7301, will provide a summary of the meeting and a roster of committee members. Substantive program information may be obtained from Dr. Anthony Demsey, Executive Secretary, Pharmacological Sciences Review Committee, Westwood Building, Room 950, Bethesda, Maryland, Telephone: 301, 496-7125.

(Catalog of Federal Domestic Assistant Program 13-859, Pharmacology-Toxicology Research, National Institute of General Medical Sciences, National Institutes of Health)

NIH programs are not covered by OMB Circular A-95 because they fit the description of "programs not considered appropriate" in section 8(b) (4) and (5) of that Circular.

BILLING CODE 4110-08-M

President's Cancer Panel; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the President's Cancer Panel, June 12, 1981, in conjunction with the Board of Scientific Counselors, Division of Cancer Treatment, in the Lobby Room, at the Holiday Inn, 5520 Wisconsin Avenue, Bethesda, Maryland 20014.

The entire meeting of the Panel will be open to the public from 8:30 a.m. to adjournment. The meeting will include a discussion of the Division of Cancer Treatment Toxicology Testing Protocol. Attendance by the public will be limited to space available.

Mrs. Winfred Lumsden, Committee Management Officer, National Cancer Institute, Building 31, Room 10A06, National Institutes of Health, Bethesda, Maryland 20205 (301/496-5708) will provide summaries of the meeting and rosters of Panel members, upon request.

Dr. Richard A. Tjalma, Executive Secretary, National Cancer Institute, Building 31, Room 3A16, National Institutes of Health, Bethesda, Maryland 20205 (301/496-5854) will furnish substantive program information.

Dated: May 21, 1981.

Public Health Service

National Center for Health Care Technology; Evaluation of Medical Technology

The National Center for Health Care Technology (Center) announces that it is conducting an evalution of what is known of the safety and clinical effectiveness of ambulatory blood pressure monitoring using a semiautomatic portable recording device for evaluation of hypertension in patients with evidence of cardiovascular disease.

Based on this evaluation, a recommendation will be formulated to assist the Health Care Financing Administration (HCFA) in establishing Medicare coverage policy. Any person or group wishing to provide the Center

with information relevant to this evaluation should do so in writing no later than August 26, 1981. To enable the Center's staff to give appropriate consideration to any literature references or analyses of clinical data, a written summary no longer than 10 pages should be attached to any such material submitted.

Written material should be submitted to: Division of Medical and Scientific Evaluation, National Center for Health Care Technology, Room 17A29, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857.

For further information contact: Stephen P. Heyse, M.D., M.P.H., Health Science Analyst, at the above address or by telephone (301) 443–4990.

Dated: May 20, 1981.

Wayne C. Richey, Jr.,

Acting Executive Secretary, Office of Health Research, Statistics, and Technology.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[AA-27284]

Alaska Native Claims Selection

This document entitled "Terms and Conditions for Land Consolidation and Management in the Cook Inlet Area" was ratified by Pub. L. (Pub. L.) 94–204 (89 Stat. 1145, 1151) on January 2, 1976, and clarified on August 31, 1976. Section II of the Terms and Conditions authorized reconveyance by the United States to Cook Inlet Region, Inc., of lands conveyed by the State of Alaska to the United States. On November 15, 1977, Sec. 3(a) of Pub. L. 95–178 (91 Stat. 1369) authorized the Secretary of the Interior to identify and reserve within two years after initial conveyance of such lands to Cook Inlet Region, Inc., any easement he could have lawfully reserved prior to conveyance and to issue immediately thereafter a revised conveyance reflecting such reservation.

On July 24, 1979, Patent No. 50–79–0124 and Interim Conveyance No. 216 were issued to Cook Inlet Region, Inc., for approximately 214.30 and 3,118.08 acres respectively, of the surface and subsurface estates of lands conveyed to the United States by the State of Alaska. The lands conveyed pursuant to Secs. 14(e) and 22(j) of the Alaska Native Claims Settlement Act of December 18, 1971 (85 Stat. 688, 704, 715; 43 U.S.C. 1601, 1613(e), 1621(j)) (ANCSA), and Sec. 12(c) of Pub. L. 94–204 (89 Stat. 1145, 1152), as amended by Sec. 3(a) of Pub. L. 95–178 (91 Stat. 1369) and are described as follows:

Patent Number 50–79–0124 of July 24, 1979

Seward Meridian, Alaska

T. 13 N., R. 4 W.
Sec. 3, Lots 6, 11, 12, and 19, SW¼NW¼, W½SE¼NW¼, NW¼NW¼SW¼;
Sec. 4, Lots 14 and 17, E½SE¼SE¼SE¼.
Containing 98.65 acres.

T. 14 N., R. 4 W.
Sec. 35, E½NW¼SW¼;
Sec. 36, Lot 1,
Containing 57.90 acres.

T. 15 N., R. 4 W.
Sec. 26, Lot 2, NW¼SW¼.
Containing 57.75 acres.
Aggregating 214.30 acres.

Interim Conveyance No. 216 of July 24, 1979

Seward Meridian, Alaska (Surveyed)

T. 14 N., R. 4 W.
Tract C–2 excluding N½N½ of Sec. 9;
Tract 1–C, Terrane Terrace Alaska Subdivision;
Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, and 11, Block 4, Terrane Terrace Alaska Subdivision;
Lots 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, and 14, Block 5, Terrane Terrace Alaska Subdivision;
Sec. 16, that portion of the NE¼ easterly of Block 5, Terrane Terrace Alaska Subdivision.
Containing approximately 515.09 acres.

T. 15 N., R. 4 W.
Those portions of Tract "A" more particularly described as (protracted):
Sec. 4, that portion westerly of the Tract "A" survey line;
Sec. 28, SE¼SE¼;
Those portions of Tract "B" more particularly described as (protracted):
Secs. 5 and 6, all;
Sec. 8, all;
Sec. 17, NE¼;
Sec. 33, E½ portion of Tract A–1, and Block 1, Terrane Terrace Alaska Subdivision.
Containing approximately 2,602.99 acres.
Aggregating approximately 3,118.08 acres.

There are no easements to be reserved pursuant to Sec. 17(b) of ANCSA. When this decision becomes final, revised conveyance documents will be issued to Cook Inlet Region, Inc., for the above-described lands with no Sec. 17(b) easements reserved. The revised conveyance documents will remain subject to all other rights, terms, conditions, and covenants contained in Patent No. 50–79–0124 and Interim Conveyance No. 216, respectively.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Anchorage Daily News. Any party known or unknown who is adversely affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Alaska Native Claims Appeal Board, P.O. Box 2433, Anchorage, Alaska 99510, with a copy served upon both the Bureau of Land Management, Alaska State Office, 701 C Street, Box 13, Anchorage, Alaska 99513, and the Regional Solicitor, Office of the Solicitor, 510 L Street, Suite 408, Anchorage, Alaska 99501. The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until June 29, 1981, to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Alaska Native Claims Appeal Board.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the party to be served with a copy of the notice of appeal is:

Cook Inlet Region, Inc., P.O. Drawer 4–N, Anchorage, Alaska 99509.

Ann Johnson,

Chief, Branch of Adjudication.

[FR Doc. 81-15889 Filed 5-27-81; 8:45 am]

BILLING CODE 4310-84-M

Application for Public Land Withdrawal; Public Hearing

May 15, 1981.

Notice is hereby given that public hearings will be held on Tuesday, July 14, 1981 and on Wednesday, July 15, 1981, for the purpose of obtaining public testimony on an application for public land withdrawal. The hearings will be held as follows:

Tuesday, July 14, 1981—Picuris Room, Albuquerque Convention Center, 2nd Street NW., Albuquerque, New Mexico, sessions begining at 10:00 a.m., 1:00 p.m. and 7:00 p.m.

Wednesday, July 15, 1981—Civic Center Auditorium, National Park Highway, Carlsbad, New Mexico, sessions beginning at 1:00 p.m. and 7:00 p.m.

On November 7, 1980, the U.S. Department of Energy filed application

number NM–43012 to withdraw approximately 8,960 acres of public land from settlement, sale, location or entry under the general land laws, including the Mining and Mineral Leasing Laws and the Geothermal Steam Act of 1970. It was published in the Federal Register on November 17, 1980. The lands are described as follows:

New Mexico Principal Meridian, New Mexico

T. 22 S., R. 31 E.,
Sec. 15;
Sec. 17;
Sec. 18, lots 1, 2, 3, 4, inclusive, E½, and E½W½;
Sec. 19, lots 1, 2, 3, 4, inclusive, E½, and E½W½;
Sec. 20;
Sec. 21;
Sec. 22;
Sec. 27;
Sec. 28;
Sec. 29;
Sec. 30, lots 1, 2, 3, 4, inclusive, E½, and E½W½;
Sec. 31, lots 1, 2, 3, 4, inclusive, E½, and E½W½;
Sec. 33;
Sec. 34.

The area described contains approximately 8,960 acres in Eddy County, New Mexico.

The Department of Energy requests that this land be reserved for the exclusive use of the DOE for the purposes of protecting the geological integrity of the site for the research and development of a Waste Isolation Pilot Project and performing a Site and Preliminary Design Validation Program. The site is in Eddy County, New Mexico, approximately 25 miles southeast of Carlsbad.

Persons who wish to comment on the proposed land withdrawal may do so by presenting public testimony at one of the above hearing sessions or they may submit their written comments for the record to the State Director, Bureau of Land Management, Santa Fe. Comments must be received by July 31, 1981 in order to be considered.

Persons who wish to testify at one of the hearing sessions should contact the State Director (912) at the address below and indicate the preferred time and place of their testimony. Every attempt will be made to schedule testimony so that all may be heard at the approximate time requested. Oral presentations will be limited to a 10 minute summation of key points.

Complete written testimony may be made a part of the record at the hearings by submitting a copy to the legal reporter at the time of testimony.

Persons who do not make an advance request to present their testimony will be allowed to speak providing there is time remaining. The persons must register at the beginning of each hearing period and will be placed within the schedule if time allows. Persons are urged to make advance registrations to speak.

The testimony taken must relate only to the withdrawal question as that is the issue to be decided by the Bureau of Land Management. Comments on the feasibility of the nuclear program in general, or other issues outside of the responsibility of the BLM and the Department of the Interior will not be heard. The hearings will be conducted by an administrative law judge of the Department of the Interior and all comments both oral and written will be made a part of the record used to make the final decision on the withdrawal.

All requests for information or scheduling for this project should be addressed to the undersigned, Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501.

Charles W. Luscher,

State Director.

BILLING CODE 4310–84–M

New Mexico; Albuquerque District, N. Mex.; District Advisory Council Meeting

The Albuquerque District Advisory Council will meet July 1, 1981, at The Inn, 700 Scott Avenue, Farmington, New Mexico, from 9 a.m. until 3 p.m. The morning session will be a joint meeting with the San Juan River Regional Coal Team, during which both groups will receive a briefing on the BLM Farmington Resource Area's Planning Update of Coal.

The public is welcome to attend all portions of the District Advisory Council meeting which is expected to formulate coal-related recommendations to the Albuquerque District Manager during the afternoon session. Statements by the public may be made to the council at 1 p.m. A time limit may be imposed for each statement depending on the number of people wishing to speak to the Council.

The agenda will include: a joint briefing with the Regional Coal Team on the BLM Farmington Resource Area Office's coal-related land use recommendations; comments from individual Advisory Council members to the Regional Coal Team; comments from the public to the Advisory Council; discussion of protection mechanisms available for valuable archeological sites located in regions of high coal potential and Bureau policy mitigating displacement of Native Americans for surface mining; and recommendations by the Advisory Council to the Albuquerque District Manager concerning the BLM Farmington Resource Area's land use recommendations.

Minutes of the meeting will be prepared and made available for review within 30 days following the meeting.

L. Paul Applegate,

District Manager.

New Mexico; Termination of Classification of Public Lands for Multiple Use Management

May 18, 1981.

1. On March 9, 1967 (FR Vol. 32, No. 46, pages 3894–3895), the public lands described in the notice aggregating approximately 1,053,000 acres were classified for multiple use management under the Act of September 19, 1964, and segregated from appropriation under the agricultural land laws (43 U.S.C. Parts 7

and 9, and 25 U.S.C. 334), and from sale under section 2455 of the Revised Statutes (43 U.S.C. 1171).

2. Pursuant to the regulations set forth in 43 CFR 2461.5(c)(2), the classification referred to under Item 1 above is hereby terminated. This action will restore the lands to operation of the public land laws generally, subject to valid existing rights and the requirements of applicable law. The lands have been open continually to the mining laws and to applications and offers under the mineral leasing laws.

Inquires concerning these lands should be addressed to the Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501.

Leroy C. Montoya,

Chief, Division of Technical Services.

Roseburg District Advisory Council Meeting

Notice is hereby given that in accordance with Section 309 of the Federal Land Policy and Management Act (as amended), the Roseburg District Advisory Council will meet June 16, 1981. The meeting will convene at 9 a.m. in the conference room at the Roseburg District Office, 777 NW Garden Valley Blvd., Roseburg, OR. Focus of the meeting will be the four land use alternatives recently drafted and published in summary form.

All Council meetings are open to the general public and news media. Interested persons or organizations may make oral statements to the Council at 11:15 a.m., or they may file written statements for the Council's consideration. Anyone wishing to make an oral statement must notify the District Manager by June 9, 1981. Depending upon the number of persons wishing to make statements, a per person time limit may be established by the District Manager.

Summary minutes of each Council meeting will be maintained in the Roseburg District Office and will be available for public inspection and photocopying during regular business hours within 30 days following the meeting.

For additional information, contact Gary Majors, Public Information Officer, telephone (503) 672-4491.

Dated: May 18, 1981.

Melvin D. Berg,

Acting District Manager.

BILLING CODE 4310-84-M

Utah; Redelegation of Authority by State Director

Pursuant to the authority contained in Section 1.1 of BLM Order No. 701 dated July 23, 1964, as amended, authority to take action under Section 2.6(K) as to mining claim instruments filed for record with BLM under 43 CFR 3833 was redelegated to the Chief, Branch of Records and Data Management (FR Doc. 77-25067 filed August 29, 1977: 8:45 am).

The above redelegation (effective August 30, 1977) is revoked as follows: "The authority to reject filings and void claims located on lands not available for mineral location on the dates of location."

The authority to take action on the item above is hereby redelegated to the Chief, Branch of Lands and Minerals Operations.

Dated: May 15, 1981.

Dean Stepanek,

Acting State Director.

BILLING CODE 4310-84-M

INTERSTATE COMMERCE COMMISSION

Motor Carriers; Finance Applications; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931, and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules. This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell.

MC-FC-79111. By decision of May 1, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132 Review Board Number 3 approved the transfer to PREMIER HOMES, INC., of Bozeman, MT, of Certificate No. MC-124790 issued April 7, 1970, to Premier Homes, Inc., of Bozeman, MT, authorizing the transportation of *mobile homes and house trailers*, between Bozeman, MT, and West Yellowstone, MT, serving no intermediate points: from Bozeman over U.S. Highway 191, to West Yellowstone, and return over the same route; and mobile homes and house trailers between points in Yellowstone National Park, located in Idaho, Montana, and Wyoming. Applicant's representative is: James J. Screnar, Attorney, 215 West Mendendenhall—P.O. Box 1122, Bozeman, MT. 59715. TA application has not been filed. Transferee presently holds no authority from the Commission.

MC–FC–79116. By decision of May 1, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to SCOTT'S TRUCKING, INC. of Permit No. MC–139247 (Sub-No. 1) issued March 3, 1977 to Cooper Brothers, Inc. authorizing the transportation of *such merchandise* as is used, sold, or dealt in by wholesale, retail, and chain grocery and food business houses (except commodities in bulk), from points in Minnesota, Iowa, Missouri, Arkansas, Louisiana, Wisconsin, Illinois, Kentucky, Tennessee, Mississippi, Michigan, Indiana, Alabama, Ohio, Georgia, Florida, New York, Pennsylvania, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, Maine, Delaware, Maryland, West Virginia, Virginia, North Carolina, South Carolina, New Jersey, and District of Columbia, to the warehouse, storage, and distribution facilities of Colonial Stores, Inc., at Atlanta and Thomasville, GA, Columbia, SC, Raleigh, NC, and Norfolk, VA, under continuing contract(s) with Colonial Stores, Inc. of Atlanta, GA. Note: (1) Transferee is a non-carrier (2) An application for temporary authority has not been filed. Applicant's representative: Jack K. Huff, 1776 W. Peachtree St. NW, Atlanta, GA 30309.

MC–FC–79117. By decision of May 1, 1981, issued under 49 U.S.C. 10926 and transfer rules at 49 CFR, Review Board Number 3 approved the transfer to BROWN TRANSPORT, INC., West Alexander, OH of Permit MC–144211 (Sub 2F issued May 17, 1979 and MC–144211 Sub 3) issued March 16, 1981 to Brown & Sons, Inc. authorizing (1) the transportation of slag (except scrap metal), in bulk, in dump vehicles, from Middletown, OH, to Gas City, Marion, Winchester, and Dunkirk, IN, under continuing contract(s) with the Calumite Company, of Trenton, NJ, and (2) the transportation of scrap metal, in dump vehicles, between points in OH, IN, KY, WV, MI, and PA, under continuing contract(s) with The David J. Joseph Co. of Cincinnati, OH. Applicant's representative: Lewis S. Witherspoon, 88 E. Broad St., Columbus, OH 43215. Transferee holds authority under No. MC–146893 and Subs. TA lease is not sought.

MC–FC–79120. By decision of April 30, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to SELBY INVESTMENTS, INC. of Certificate No. MC–42710 (Sub-No. 1F) issued August 12, 1980 to Normadic Enterprises, Inc. authorizing the transportation of passengers and their baggage and camping equipment, in special operations, in camping tours between specified points in ME, NH, CT, RI, CA, NY, MA, NJ, GA, FL, LA, TX, MI, CO, WA, MN, OR, AK, NM and DC on the one hand, and, on the other points in the United States including AK but excluding HI restricted at Logan International Airport, MA to transportation having a prior or subsequent movement by air. Applicant's representative is: David M. Marshall, Esq., Marshall & Marshall, 101 State Street, Suite 304, Springfield, MA 01103.

MC–FC–79121. By decision of May 1, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132 Review Board Number 3 approved the transfer to JOHN J. VETERI LEASING CORP., West Paterson, NJ of Certificate No. MC–7680 (Sub-No. 5F) issued on February 23, 1981 to Bowman Bros. Trucking Co., Inc., West Paterson, NJ authorizing the transportation of flat glass and glass glazing units from Cinnaminson and Pansauken, NJ; Stone Mountain, GA; and Miami, FL; Lancester, OH; St. Louis and Truesdale, MO; Carson and Fullerton, CA; to points in the U.S. (except AK and HI). Applicant's representative is: Joseph Veteri, 48 Harding Ave., Totowa, NJ 07512. Transferee is not a carrier. Transferee is not seeking TA lease authority.

MC–FC–79122. By decision of April 30, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to D.M.R. TRANSPORT (1975) LTD., of Grindrod, B.C., Canada, of Certificate No. MC–143415 (Sub-No. 1F) issued December 19, 1978 to Wholesale Delivery Service (1972) LTD., of Burnaby, B.C., Canada, authorizing the transportation, by irregular routes, of *general commodities* (except motor vehicles, commodities in bulk, classes A and B explosives, household goods as defined by the Commission, articles of unusual value, and commodities which because of size or weight require the use of special equipment), between the port of entry on the International Boundary line between the United States and Canada at or near Blaine, WA, on the one hand, and, on the other, Blaine, WA, subject to the restrictions that the traffic has a prior or subsequent movement in foreign commerce and it either originates at or destined to Blaine, WA, or Vancouver, British Columbia, Canada. Applicant's representative is: Ben R. Brown, P.O. Box 68927, Riverton, Heights Br., Seattle, WA 98188.

MC–FC–79123. By decision of May 1, 1981, issued under 49 U.S.C. 10924 and the transfer rules at 49 CFR Part 1133, Review Board Number 3 approved the transfer to ALL WORLD TRAVEL, INC. d.b.a. ALL WORLD TOURS of Sulphur Springs, TX 75482 of License No. MC–130305 issued to Louise K. Whitefield d.b.a. Travel Sophisticates of Dallas, TX 75238 authorizing *Passengers and their baggage*, in sightseeing and pleasure tours, beginning and ending at Dallas, TX, and extending to points in the United States (including Alaska and Hawaii), engaging in brokerage operations at Dallas, TX. Applicant's representative: James E. Pulis, Jr., 4700 First International Bldg., Dallas, TX 75270. Transferee is not a carrier.

MC–FC–79126. By decision of May 1, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to SUE ROBERTS and ROBERT K. DIEHL, d.b.a. GEORGE F. ROBERTS TRUCKING, of Walnutport, PA, of Certificate No. MC–22611 issued September 21, 1942 and April 9, 1943 to George F. Roberts, of Walnutport, PA, authorizing the transportation of (1) *slate and slate products*, from Slatington, PA, and points within 15 miles of Slatington, to New York, NY, Washington, D.C., points in Connecticut and New Jersey, and points within 10 miles of Washington, D.C.; (2) *Empty barrels*, from Lehigh Gap, PA, to Jersey City, NJ; and (3) *Chemicals*, in truck loads, from Bayonne, Grasselil, and Jersey City, NJ, to Lehigh Gap, PA. Applicants' representative: William A. Steckel, 1036 Main Street, Slatington, PA, 215–767–3861.

MC–FC–79129. By decision of May 1, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to PARKER BROTHERS TRUCKING CORPORATION, of Lake City, MI, of Permit No. MC–146574 (Sub-No. 2F) issued December 15, 1980 to Orin Gray Trucking Co., of Lake City, MI, authorizing the transportation over irregular routes, transporting (1) *raw forgings*, from the facilities of Lake City Manufacturing Co., at or near Lake City, MI, to Allentown, PA, Louisville, KY, and Fort Wayne and Mishawaka, IN; (2) *steel*, from Cleveland and Canton, OH, Lackawanna and Buffalo, NY, Gary, IN, and Johnstown, PA, to the facilities of Lake City Manufacturing Co., at or near Lake City, MI, under continuing contract(s) in (1) and (2) with Lake City Manufacturing Co., of Lake City, MI; and (3) *steel*, from the facilities of Republic Steel Corporation at or near (a) Buffalo, NY, (b) Canton, Cleveland, and Youngstown, OH, (c) Chicago, IL, and

(d) Gary, IN, to the facilities of Lake City Manufacturing Co., at or near Lake City, MI, under continuing contract(s) with Republic Steel Corporation, of Cleveland, OH. Transferee holds no authority from this Commission. No application for temporary authority was filed. Applicant's representative is: Karl L. Gotting, 1200 Bank of Lansing Building, Lansing, MI 48933, (517) 489-5724.

James H. Bayne,

Acting Secretary.

[Ex Parte MC 43]

Lease and Interchange of Vehicles by Motor Carrier

Decided: May 19, 1981.

Road Rail Transport, Ltd. (No. MC-151037) has filed a petition for waiver of paragraph (d)(1) of § 1057.12 of the Lease and Interchange of Vehicle Regulations (49 CFR Part 1057) with respect to equipment augmentation between petitioner and various non-petitioner authorized carrier lessors, including any potential authorized carrier lessors, who have agreed to be, or will become, agents of petitioner in performing pickup and delivery services in conjunction with subsequent or prior rail movement.

Findings

1. The evidence presented does not warrant granting the waiver requested between petitioners and authorized carrier lessors, including future authorized carrier lessors, who are not parties to this petition.

It is ordered

1. The petition of Road Rail Transport, Ltd., for waiver of paragraph (d)(1) of Section 1057.12 is denied.

By the Commission, Motor Carrier Leasing Board, Board Members Joel E. Burns, Robert S. Turkington, and John H. O'Brien.

James H. Bayne,

Acting Secretary.

BILLING CODE 7035-01-M

[Notice Finance Docket No. 29653]

Railroad Car Service Pooling Application; Filing and Proposed Special Rules of Procedure

May 21, 1981.

An application, as summarized below, has been filed by certain railroad companies (in their own names or through Trustees) under 49 U.S.C. 11342(a) for authority to enter into an agreement for the pooling of car service with respect to multi-level cars ("pooling agreement") and (b) for approval of said agreement. The railroads listed as applicants are:

The Baltimore and Ohio Railroad Company
Burlington Northern Incorporated
The Chesapeake and Ohio Railway Company
Chicago and North Western Transportation Company
Consolidated Rail Corporation
The Denver & Rio Grande Western Railroad
Detroit, Toledo & Ironton Railroad Company
Member Railroads of the Family Lines Rail System (Seaboard Coast Line Railroad Company, Louisville and Nashville Railroad Company and Subsidiary Railroads)
Florida East Coast Railway Company
Grand Trunk Western Railroad Company
Illinois Central Gulf Railroad Company
Missouri Pacific Railroad Company
Norfolk and Western Railway Company
Richard B. Ogilvie, Trustee of the Property of Chicago, Milwaukee, St. Paul and Pacific Railroad Company, Debtor
St. Louis Southwestern Railroad Company
Southern Pacific Transportation Company
Southern Railway Company
Union Pacific Railroad Company
Western Pacific Railroad Company

The Application and the pooling agreement propose to enable the applicants to pool multi-level car service to the extent specified by the pooling agreement and subject to its terms and limitations. The applicants seek to improve distribution of multi-level railroad cars utilized to transport motor vehicles in order to achieve greater efficiency consistent with equitable treatment of participating railroads, satisfy customer and public needs, and minimize unproductive empty car mileage and unproductive fleet investment. The applicants also seek to collect such information and conduct such research and development projects and experiments as may further improve the design, acquisition, assignment, distribution and use of multi-level cars.

Under the proposed pooling agreement, the applicants will agree with each other (a) to establish and implement means for distributing multi-level cars in a more cost-efficient manner than could be achieved by action of individual railroads, (b) to permit the employment of individuals or companies with management experience in car utilization in order to achieve the more cost-efficient distribution of multi-level cars assigned to shippers, (c) to collect information and conduct research and development in order to improve the design, acquisition, assignment, distribution and use of multi-level cars, and (d) to share the costs and expenses associated with the Pooling Agreement.

Participation in the pool will not be limited to the railroads which have joined in the filing of the application, but will be open to other United States railroads who become signatories to the pooling agreement and comply with its provisions. If the Application is approved, applicants have requested that a period of 180 days following the effective date of the Commission's order to be provided for this purpose.

A copy of the Application is on file and can be examined in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. In addition, applicants have offered to mail each interested party a copy of the Application upon receiving a request therefor addressed to counsel for the Applicants: Michael Boudin, Esq., Covington & Burling, 888 Sixteenth Street, N.W., Washington, D.C. 20006.

Any person desiring the participate in the proceedings with respect to the Application may file a pleading stating the nature of its interest and its position with respect thereto, within 30 days after this notice is published in the **Federal Register**, with a copy to be served on Applicants' counsel, Michael Boudin, at the address stated above.

In the opinion of applicants, the requested Commission action will not constitute a major regulatory action within the meaning of the Energy Policy and Conservation Act of 1975 (42 U.S.C. 6201 *et seq.*) and the Commission's regulations (49 CFR 1106.1 *et seq.*) nor will it constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (49 U.S.C. 4321 *et seq.*) and the Commission's regulations (49 CFR Parts 1108 *et seq.*). Any protest may include a statement indicating the presence or absence of any impact of the requested Commission action on energy conservation, energy efficiency or the environment. If any such impacts are alleged, the statement shall be accompanied by supporting data indicating the nature and degree of the anticipated impact and, if alleging the presence of a significant impact on the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, shall include the data required by the Commission's regulations (49 CFR 1108.12(e)).

The Commission has adopted the following Special Rules of Procedure for this proceeding:

1. Evidence will be gathered through the submission of written verified statements in accordance with the following provisions: (1) Applicants'

verified statements are those accompanying their application; (b) other verified statements in support of the application shall be due 20 days after this notice is published in the **Federal Register**; (c) any protests submitted shall be filed with the Commission 30 days after this notice is published; (d) verified reply statements by all parties shall be due 20 days thereafter; and (e) no oral hearing is contemplated.

2. If the application is approved, a period of 180 days following the effective date of the Commission's order shall be provided during which other carriers of property by railroad shall be authorized to join the pooling agreement.

By the Commission.

James H. Bayne,

Acting Secretary.

BILLING CODE 7035-01-M

[Docket No. AB-19 (Sub-No. 52)]

Baltimore & Ohio Railroad Co.—Discontinuance of Operations and Abandonment Between Copperweld and Fairport Harbor, OH; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a decision dated May 26, 1981, the Commission, Review Board Number 3, found that the public convenience and necessity require or permit abandonment or discontinuance of operations by the Baltimore and Ohio Railroad Company of its line of railroad known as the Lake Branch, in Trumbull, Geauga and Lake Counties, OH. The segments of line proposed for abandonment line between Copperweld, OH (milepost 94.38) and Painesville, OH (milepost 136.34), and between milepost 137.38 and milepost 139.01 at Fairport Harbor, OH. Discontinuance of operations is proposed between milepost 136.34 and milepost 137.38 at Fairport Harbor, OH. The abandonment and discontinuance of operations are subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). A certificate of abandonment will be issued permitting this abandonment unless within 15 days from the date of this publication, the Commission also finds that:

(1) a financially responsible person (or government entity) has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and

(2) it is likely that:

(a) if a subsidy, the assistance would cover the difference between the revenues attributable to the line and the avoidable cost of providing rail freight service on the line, together with a reasonable return on the value of the line, or

(b) if a purchase, the assistance would cover the acquisition cost of all or any portion of the line.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice.

If the Commission makes the findings described above, the issuance of an abandonment certificate will be postponed. An offeror may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made for the Commission to set conditions or amount of compensation, an abandonment certificate will be issued. Upon notification to the Commission of the execution of a subsidy or purchase agreement, the Commission shall further postpone the issuance of a certificate for such time as the agreement is in effect. Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96-448) and 49 C.F.R. 1121.38.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Volume No. 88]

Motor Carrier; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: May 22, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 88747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings: We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

James H. Bayne,

Acting Secretary.

MC 19550 (Sub-11)X, filed May 13, 1981. Applicant: THE OBSERVER TRANSPORTATION CO., 1001 Pressley Rd., P.O. Box 34245, Charlotte, NC 28234. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Ave., Memphis, TN 38137. Applicant seeks to remove restrictions in its Sub-No. 9 certificate to broaden the commodity description from (a) newspapers, magizines, periodicals, and other publications to "printed matter" and (b) general commodities, with exceptions to "general commodities (except classes A and B explosives)" and remove the general commodity weight restriction.

MC 23618 (Sub-66)X, filed May 7, 1981. Applicant: McALISTER TRUCKING COMPANY, d.b.a. MATCO, P.O. Box 2377, Abilene, TX 79604. Representative: Edwin M. Snyder, P.O. Box 45538, Dallas, TX 75245. Applicant seeks to remove restrictions in its Sub-Nos. 10, 24F, 39F and 54F certificate by broadening the commodity descriptions from earth drilling machinery and equipment and machinery, equipment materials, supplies and pipe in Sub-No. 10, part 3 of Sub-Nos. 24F, 39F and Sub-No. 54F to "machinery and metal products."

MC 32882 (Sub-166)X, filed May 11, 1981. Applicant: MITCHELL BROS. TRUCK LINES, 3841 North Columbia Boulevard, Portland, OR 97217. Representative: David J. Lister, P.O. Box 17039, Portland, OR 97217. Applicant seeks to remove restrictions in its Sub-Nos. 128 and 149 certificates to (1) broaden the commodity description from tractors (except tractors used in connection with highway trailers), lift trucks, excavators, motor graders, scrappers, engines, generators, road rollers, pipe layers, and dump trucks, designed for off-highway use, parts, attachments, and accessories to "machinery and transportation equipment" in Sub-No. 128; (2) eliminate the facilities limitation and expand one-

way to radial authority between Vermillion, Macon, Tazewell, Coles, Peoria, and Sangamon Counties, IL, Scott County, IA, and Lake County, OH, and, points in OR, WA, ID, MT, WY, CO, UT, NV, AZ, and CA in Sub-No. 128; and (3) remove the restrictions "except commodities in bulk, automobiles, trucks, and buses", "except on traffic moving in foreign commerce", and against traffic having a prior or subsequent movement by rail or water in Sub-No. 149.

MC 46200 (Sub-4)X, filed May 11, 1981. Applicant: NEEDLES MOVING & STORAGE COMPANY, P.O. Box 7855, Cambers Station, St. Louis, MO 63106. Representative: Robert J. Gallagher, 1000 Connecticut Ave., N.W., Suite 1200, Washington, DC 20036. Applicant seeks to remove restrictions in its lead and Sub-No. 2 certificates to broaden the commodity description from household goods to "household goods and furniture and fixtures" in each certificate.

MC 69107 (Sub-15)X, filed May 14, 1981. Applicant: ALL STATES ASHPHALT, INC., Amherst Road, Route 116, P.O. Box 91, Sunderland, MA 01375. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Applicant seeks to remove the restrictions in its lead and Sub-Nos. 13 and 14 certificates to: (1) broaden the commodity descriptions to "petroleum, natural gas, and their products", from petroleum products and heating oils; (2) remove the "in bulk" restrictions in Sub-Nos. 13 and 14; (3) replace county-wide authority of Hartford, New Haven, and Middlesex Counties, CT, Hampden and Hampshire Counties, MA, and Rensselaer and Albany Counties, NY, for the specific point authority of Hartford, East Hartford, New Haven, Wethersfield, Middletown, Portland, Glastonbury, and Rocky Hill, CT, Springfield and Holyoke, MA, and Rensselaer, NY wherever they appear in the above numbered authorities; and (4) authorize radial service in lieu of one-way authority between the above named counties, and, NH, VT and 4 counties in MA.

MC 95876 (Sub-401)X, filed May 15, 1981. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, MN 56301. Representative: Stephen F. Grinnell, 1600 TCF Tower, Minneapolis, MN 55402. Applicant seeks to remove restrictions in its Sub-No. 328 certificate in order to (1) broaden the commodity description in part (1) from iron and steel articles to "metal products" (2) eliminate the AK and HI exception, and (3) delete the in bulk restriction.

MC 107064 (Sub-150)X, filed May 8, 1981. Applicant: STEERE TANK LINES, INC., P.O. Box 220998, Dallas, TX 75222. Representative: Hugh T. Matthews, 555 Griffin Square, Suite 850, Dallas, TX 75222. Applicant seeks to remove restrictions in its Sub-Nos. 125F, 126F, 128F certificates to (1) remove the restriction limiting service to the transportation of traffic originating at and/or destined to named points, in Sub-Nos. 125F and 128F, (2) replace facility or city-wide authority with county-wide authority: (a) facilities at or near Port Neches, Conroe and Austin, TX, with Jefferson, Montgomery and Travis Counties, TX, in Sub-No. 125F, (b) facilities at or near Pasadena, TX, with Harris County, TX, in Sub-No. 126F, and (c) facilities at or near Texas City, TX, with Galveston County, TX, in Sub-No. 128F, (3) authorize radial authority to replace existing one-way service between specified coutnies in TX and points in various combinations of States throughout the U.S., in Sub-Nos. 125F and 128F and (4) remove the exceptions of AK, HI and the origin State of TX in Sub-No. 126F.

MC 110144 (Sub-23)X, filed May 11, 1981. Applicant: JACK C. ROBINSON d.b.a. ROBINSON FREIGHT LINES, 3600 Papermill Road, Knoxville, TN 37912. Representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Ave., Memphis, TN 38137. Applicant seeks to remove restrictions in its Sub-Nos. 7, 9, 11F, 13, 14, and 15 certificates, and in Sub-No. 19 which was issued pursuant to MC–F–12963 in which no certificate has yet been issued, to (1) remove general commodity restrictions, except Class A and B explosives, (2) remove the restriction in Sub-No. 11F, which is restricted to the transportation of traffic received from or delivered to connecting carriers at Memphis, TN and Jackson, MS, (3) allow service at all intermediate points on its regular-route authority as follows: between Chattanooga and Memphis, TN; Calderwood, TN and junction TN 58 and I–40 near Kingston, TN; Knoxville and Kyles Ford, TN; and between junction TN hwy 33 and U.S. hwy 25E and Morristown, TN; (4) delete "serving junction I–40 and TN hwy 40 for joinder only" in Sub-No. 9; and (5) change off-route points to county-wide authority as follows: Holiday Industrial Park to DeSoto County, MS, in Sub-No. 13; Tennga to Murray County, GA, in Sub-No. 14.

MC 112304 (Sub-259)X, filed May 5, 1981. Applicant: ACE DORN HAULING & RIGGING CO., 1601 Blue Rock St., Cincinnati, OH 45223. Representative: A Charles Tell, 100 E. Broad St., Columbus, OH 43215. Applicant seeks to remove restrictions from its certificates in various Sub-Nos. mentioned below to (1) broaden the commodity descriptions from (a) used contractor's equipment, modular mausoleum crypt systems, precast reinforced concrete trenching systems, and parts and accessories, cement asbestos pipe and fittings, beams, piling, rails, railway track accessories, bridge railing, highway railing pipe drivers, and pipe extractors to "contractors' equipment, materials and supplies, and parts and accessories therefor" in Sub-Nos. 1, 94, 112, 122, 178F and 198F; (b) uncrated new office and institutional furniture, fixtures, and equipment, uncrated cooling or freezing boxes and refrigerators, with or without freezing apparatus, and other uncrated new store fixtures and equipment to "office, institutional and store furniture, fixtures and equipment, and cooling and refrigeration equipment" in Sub-No. 1; (c) cooling towers and fluid coolers and parts and accessories, heat exchangers and equalizers for air, gas, or liquids, machinery and equipment, blast, open hearth or electric furnace machinery, equipment and parts, foundry machinery, equipment and parts, valves, and machinery parts, electrical substations, self-propelled hydraulic cranes, lift trucks, hoist, refrigeration, air conditioning, and heating systems, industrial storage batteries, cranes, pipe making machinery, vehicle lifts, material handling equipment, tractor and agricultural machinery parts and attachments, fireplace air heaters and ventilators, and parts and accessories, pollution control equipment, and pollution control products, and grain, milling and processing machinery, components and supplies to "machinery" in Sub-Nos. 6, 42, 56, 69, 82, 84, 86, 87, 97, 103, 104, 121, 123, 137F, 146F, 162F, 189F, and 244F; (d) iron and steel and iron and steel articles, guard rail, prefabricated steel buildings, aluminum and aluminum products, aluminum tubing when shipped in mixed loads, structural steel, iron and steel angles, bars, channels, conduit, lath, piling, pipe, posts, rails, rods, roofing, tubing, and wire in coils, lead, lead alloys, fabricated aluminum products, copper articles, scrap aluminum, pipe, fittings, valves, hydrants, castings, zinc, zinc alloy, zinc products, fabricated metal products, ferro alloys, zinc alloy ingots and aluminum ingots, metal buildings and component parts of metal buildings, steel pipe, couplings, well castings, well screens and tubing, metal roofing and siding, nickel iron chromium alloys, cast iron valves and hydrants, aluminum billets and aluminum ingots to "metal products" in Sub-Nos. 7, 11, 17,

25, 27, 32, 33, 37, 40, 41, 43, 45, 49, 50, 51, 52, 53, 57, 62, 65, 87, 97, 106, 107, 109, 117, 118, 121, 127, 128, 130F, 131F, 138F, 139F, 140F, 141F, 150F, 152F, 154F, 158, 159, 162F, 166F, 168F, 170F, 174F, 175F, 176F, 178F, 181F, 185F, 186F, 187F, 189F, 192F, 194F, 196F, 203F, 206, 207F, 211, 217F, 218F, 224F, 233F, 234F, 235F, 236F, 239F, 240F, and 243F; (e) general commodities, with exceptions to "general commodities (except classes A and B explosives)" in Sub-Nos. 23, 71, 105, 116 and 179F; (f) truck cabs, railway track materials, tractor, motor vehicle parts and motor vehicle accessories, railway materials, railway equipment, and railway accessories, railway car wheels, locomotive wheels, railway axles, and railway bearings to "transportation equipment" in Sub-Nos. 27 (page 2), 88, 146F, 155F, 169F and 184F; (g) plywood, hardboard, and lumber to "lumber and wood products" in Sub-Nos. 35, 38, and 156F; (h) refractories and refractory products to "clay and refractory products" in Sub-Nos. 44, 58, 61, 70, and 198F; (i) silicon carbide and brick to "clay, concrete, glass or stone products" in Sub-Nos. 54 and 237F; (j) plastic pipe, and hydrants, valves, fittings, couplings, to "plastic and metal products" in Sub-Nos. 55, 76, and 113; (k) plastic conduit, plastic or iron fittings and connections, valves, hydrants and gaskets to "plastic, rubber and metal products" in Sub-Nos. 68, 110, and 125; (l) electric precipitators and parts of electric precipitators to "pollution control equipment" in Sub-Nos. 59 and 87; (m) buildings, building panels, building parts, metal buildings, complete, knocked down, or in sections to "metal products and building materials" in Sub-Nos. 72, 73, and 74; (n) lead oxide and litharge to "chemicals and related products" in Sub-No. 97; (o) brick facing and bricking facing mounted on panels, and equipment, materials and supplies used in the installation and sale of the foregoing commodities to "building materials" in Sub-Nos. 100 and 120; (p) buildings, building panels, building parts, and materials, accessories and supplies to "metal products and building materials" in Sub-Nos. 102 and 134F; (q) reinforced fiberglass, plastic and fabricated metal articles to "fiberglass and fiberglass products, plastic and plastic products, and metal articles" in Sub-No. 101; (r) asbestos fibre cement pipe and concrete cylinder pipe to "pipe" in Sub-Nos. 163F and 195F; (s) sweeping machines, power brooms, power sweepers, road maintenance equipment, and road materials handling equipment to "machinery, self-propelled vehicles and equipment, and parts attachments and accessories" in Sub-No. 180; (t) electric light poles and electric wire poles, parts, accessories and supplies to "electrical equipment" in Sub-No. 214F; (u) storage and warehouse pallet racks, bins and shelving to "lumber and metal products, and equipment, materials, and supplies" in Sub-No. 219F; (v) wood pulp, and wood pulp and paper products to "lumber, wood and paper products" in Sub-No. 245; (w) water heaters, boilers, glass-lined tanks, and garbage disposals to "heaters, boilers, tanks and machinery" in Sub-No. 136F; and (x) ferro alloys, silico maganese, silicon metal, and scrap metal to "alloys, ores and metal products" in Sub-No. 147F; (2) eliminate the facilities limitations in Sub-Nos. 6, 7, 17, 23, 27, 35, 38, 40, 41, 42, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 62, 68, 71, 72, 73, 74, 82, 84, 87, 88, 101, 102, 103, 105, 107, 109, 110, 111, 113, 116, 118, 121, 122, 123, 124, 125, 126, 127, 128, 130F, 131F, 134F, 135F, 136F, 138F, 139F, 140F, 141F, 142F, 143F, 144F, 145F, 146F, 147F, 150F, 152F, 153F, 154F, 155F, 156F, 158F, 159F, 160F, 162F, 163F, 166F, 168F, 169F, 170F, 174F, 175F, 177F, 178F, 179F, 180F, 181F, 184F, 185F, 186F, 189F, 192F, 194F, 195F, 196F, 197F, 203F, 206, 207F, 211F, 214F, 217F, 218F, 219F, 220F, 234F, 235F, 236F, 239F, 240F, and 244F; (3) change one-way to radial authority between points in numerous States; (4) replace city with county-wide authority wherever it appears from Norwood, OH and points within 3 miles of Norwood to Hamilton County, OH, and Campbell and Kenton Counties, KY; Louisville to Jefferson County, KY; Evansville to Vanderburgh County, IN; Flint to Genesee County, MI; Winchester to Clark County, KY; Hickman to Fulton County, KY; Lima to Allen County, OH; New Albany to Floyd County, IN; Springfield to Washington County, KY; New Orleans to Orleans Parish, LA; Wilimington to New Hanover County, NC; Hawesville to Hancock County, KY; Bowling Green to Wayne County, KY; Benton to Marshall County, KY; Eminence to Henry County, KY; Kokomo to Howard County, IN; Carrollton to Carroll County, KY; Hicksville to Defiance County, OH; Murphysboro to Jackson County, IL; Buckhannon to Upshur County, WV; South Strabane Township to Washington County, PA; BILLING CODE 7035-01-M

Motor Carrier; Temporary Authority Application; Important Notice

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an applicantion may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

[Notice No. F-123]

The following applications were filed in Region 2. Send protests to: ICC, Fed. Res. Bank Bldg., 101 North 7th St., Rm. 620, Philadelphia, PA 19106.

MC 146328 (Sub-II-2TA), filed May 18, 1981. Applicant: ALLIED DELIVERY SYSTEM CO., 6200 Roland Ave., Cleveland, OH 44127. Representative: David A. Turano, 100 E. Broad St., Columbus, OH 43215. *Office products and supplies,* between Cleveland and Columbus, OH, on the one hand, and, on the other, pts in WV. Supporting shipper: Boise Cascade, Office Products Division, 12021 Centron Pl., Cincinnati, OH 45246.

Kehl, 1660 Lincoln St., 1600 Lincoln Center, Denver, CO 80264. *Cement, in bulk,* from Laramie (Albany County), WY to Roosevelt (Duchesne County), UT, for 270 days. Supporting shipper: Monolith-Portland Cement Co., 2480 W. 26th Ave., Denver, CO 80211.

MC 139895 (Sub-6–1TA), filed May 11, 1981. Applicant: BAYLINER MARINE CORP., Rt, 5 Arlington Airport, Arlington, WA 98223. Representative: Wallace B. Farbo, 1298 5th Tee Burlingtion, WA 98233. *Boats, boat molds, boat trailers, and boat accessories,* between WA, GA, AZ, CA, CT, FL, IL, IN, LA, MA, MI, MN, NC, OH, OR, PA, SC, TX, UT, VA, MD & WI for 270 days. Supporting shippers: Grady-White Boats, Inc., P.O. Box 1527, Greenville, NC 27834; Bertram Yacht/ Div of Whittaker Corp, 3663 NW 21st St. Miami, FL 33152.

MC 155934 (Sub-6–1TA), filed May 11, 1981. Applicant: C.J.'S TRUCKING & HOTSHOT, a division of C.J.'S WELDING SERVICE, INC., P.O. Box 1031 Evanston, WY 82930. Representative: C.J. Reece (same as applicant). *Equipment, materials, and supplies used in or in connection with the discovery, development, production, refining, manufacturing, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products and (2) materials, equipment, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines, including the stringing and picking up thereof,* between points in UT, ID, VN, CO, TX, ND, MT, NM, AZ, OK, SD, LA, and WY, for 270 days. An underlying ETA seeks 120 days authority. Supporting shippers: Oilfield/ Leed Rental Services, Star Route 2 Box 147–C, Evanston, WY 82930; Oncor Corporation, Box 732, Evanston, WY 82930.

MC 145054 (Sub-6–10TA), filed May 13, 1981. Applicant: COORS TRANSPORTATION COMPANY, 5101 York St., Denver, CO 80216. Representative: Leslie R. Kehl, 1660 Lincoln St., Suite 1600, Denver, CO 80264. *Containers, container closures, container components, and packaging products;* between Springfield, MO on the one hand, and, on the other, points in CO for 270 days. An uderlying ETA seeks 120 days authority. Supporting shipper: Lily Division of Owens Illinois, Inc., National Bank Building, 606 Madison Avenue P.O. Box 1035, Toledo, OH 43666.

MC 124679 (Sub-6–45TA), filed May 12, 1981. Applicant: C. R. ENGLAND AND SONS, INC., 975 W 2100 S., Salt Lake City, UT 84119. Representative: Robert H. Cannon (same as applicant). *Paper and paper products* from Menands and Mechanicsville, NY. to OR, WA, CA, UT, AZ, and CO for 270 days. Supporting shipper: Tagson Papers, Inc., P.O. Box 1989, Albany, NY. 12201.

MC 155954 (Sub-6–1TA), filed May 14, 1981. Applicant: GREGG E. HERIFORD d.b.a. G & H SAND AND GRAVEL, 5312 N.E. 66th, Vancouver, WA 98661. Representative: Peter H. Glade, One SW Columbia, Suite 555, Portland, OR 97258. *Building Materials:* between points in OR, WA, ID, and CA for 270 days. Supporting shipper: Cascade West Materials, Inc., P.O.B. 1586, Lake Oswego, OR 97034.

MC 155935 (Sub-6–1TA), filed May 13, 1981. Applicant: HUTCHINSONS TRUCKING LTD., 6033–30 St., Edmonton, Alberta CD T6C 4J5. Representative: Ronald Ticknor (same as applicant). *Oilfield equipment and related supplies, such as drilling rigs, modular housing (camp) units, drill pipe and all equipment required in operation of a drilling rig,* (1) between U.S.-Canada border at Sweetgrass, Coutts, Regway, MT; Emerson, Portal, ND; on the one hand, and, on the other, points in MT, ND, SD, CO, WY, KS, OK, TX, NM, NE, and MO, (2) between U.S.-Canada border at Tok, AK, on the one hand, and, on the other, points in AK, for 270 days. An underlying ETA seeks 120 days. Supporting shippers: There are eight shippers. Their statements may be examined at the Regional Office listed.

MC 119639 (Sub-6–5TA), filed May 14, 1981. Applicant: INCO EXPRESS, INC., 3600 So. 124th St., Seattle, WA 98168. Representative: James T. Johnson, 1610 IBM Bldg., Seattle, WA 98101. (1) *Tobacco and related products;* (2) *Toiletries, cosmetics and perfume;* (3) *Alcoholic beverages; and* (4) *Equipment, materials and supplies* used in the manufacture and distribution of the above commodities, between points in OR, CA, WA, AZ and NV for 270 days. Supporting shippers: Fairn & Swanson, Inc., 1035–22nd Ave., Oakland, CA 94606; I.S.S. Inc., 510 East "D" St., Wilmington, CA 90744; Kansas Packing Co. Inc., 1505 E. 14th St., Oakland, CA 94606.

MC 151428 (Sub-6–3TA), filed May 12, 1981. Applicant: J & H TRUCKING, INC., 12425 Telephone, Chino, CA 91710. Representative: Miles L. Kavaller, 315 So. Beverly Dr., Suite 315, Beverly Hills, CA 90212. *Contract Carrier,* Irregular routes: *Frozen prepared meats,* from Los Angeles County, CA to points in FL, LA, MS, TN and TX, for 270 days. Supporting shipper: Best Western, Inc., 3425 E. Vernon Ave., Los Angeles, CA 90058.

MC 155957 (Sub-6–1TA), filed May 14, 1981. Applicant: NATIONWIDE DRIVEAWAY, INC., 3400 So. Federal Blvd., Englewood, CO 80110. Representative: Steven E. Napper, 718—17th St., Suite 1700, Denver, CO 80202. (1) *Automobiles, Trucks,* and *Motor Homes* in a secondary driveaway service between points in CO on the one hand and points in the U.S. (except HI) on the other, for 270 days. Supporting shippers: There are six shippers. Their statements may be examined at the Regional office listed.

MC 155988 (Sub-6–1TA), filed May 14, 1981. Applicant: OREGON FREIGHTWAYS, INC., 2706 David Lane, Medford, OR 97501. Representative: John Paul Fischer, 256 Montgomery St, 5th Floor, San Francisco, CA 94104. *General Commodities* (except commodities in bulk, those requiring special equipment, commodities of unusual value, classes A & B explosives, and household goods as defined by the Commission) between points in Clark County, WA; Multnomah, Washington, Clackamas, Marion, Linn, Lane, Douglas, Coos, Klamath, Jackson, and Josephine Counties, OR; and Del Norte and Humboldt Counties, CA, for 270 days. Applicant seeks authority to interline freight with other carriers under the authority. An underlying ETA seeks 120 days authority. There are 21 supporting shippers. Their statements may be examined at the Regional Office listed.

MC 151155 (Sub-6–2TA), filed May 15, 1981. Applicant: PHILLIPS TRUCKING COMPANY, 100 Edison Ave., Alamosa, CO 81101. Representative: Nancy P. Bigbee, 1600 Sherman St, Suite 450, Denver, CO 80203. *General commodites,* between points in AZ, CA, CO, ID, NE, NM, NV, TX, UT and WY, for 270 days. Supporting shippers: Malouff's High Valley Paving Co., P.O. Box 120, Alamosa, CO 81101; Energy Xpress, Etc., 2115 South Standard Avenue, Santa Ana, CA 92707; J.M.C. Development,

Inc., 2115 South Standard Avenue, Santa Ana, CA 92707; and Grefco, Inc., Antonito, CO division.

MC 125561 (Sub-6–4TA), filed May 13, 1981. Applicant: SUNNYSIDE TRANSFER, INC., P.O. Box 526, Sunnyside, WA 98944. Representative: James M. Peterson, 520 Franklin, Richland, WA 99352. *General Commodities* (except those of unusual value, classes A & B explosives, household goods as defined by the Commission, commodities in bulk, hazardous wastes and commodity which, because of size or weight, require special equipment) between Benton, Franklin, and Yakima Counties, WA, and Clackamas, Multnomah, and Washington Counties, OR, for 270 days. Supporting shipper: (a) There are 18 shippers. Their statements may be examined at the Regional Office listed.

MC 127738 (Sub-6–1TA), filed May 11, 1981. Applicant: TWA SERVICES, INC., Yellowstone National Park, WY 82190. Representative: Michael McCarty, P.O. Box 550, Cody, WY 82414. *Contract Carrier,* Irregular routes: *Persons and their baggage in the same vehicle in charter and special operations* to and from points in Salt Lake, Davis and Morgan Counties, UT, to and from points in Yellowstone National Park, Grand Teton National Park, and Park and Teton Counties, WY, and to and from the City and County of Denver, Jefferson County, Arapahoe County and Adams County, Co, for 180 days. An underlying ETA seeks 90 days authority. Supporting shipper(s): Grand Targhee Resort, Alta, WY 83422; Old West Tours, P.O. Box 3322, Jackson, WY 83001; California Parlor Car Tours, 1101 Van Ness Ave., San Francisco, CA 94109.

MC 155733 (Sub-6–1TA), filed May 14, 1981. Applicant: TRAIL BLASERS, INC., 7990 Overland Rd., Boise, ID 83709. Representative: Timothy R. Stivers, P.O.B. 1576, Boise, ID 83701. *Hides, green salted,* from points in ID to CA, OR and WA, for 270 days. An underlying ETA seeks 120 days authority. Supporting shipper: Southwest Hide Company, P.O.B. 7946, Boise, ID 83707.

MC 155743 (Sub-6–1TA), filed May 14, 1981. Applicant: VENEER CHIP TRANSPORT, INC., 7117 40th West #7, Tacoma, WA 98466. Representative: Jim Pitzer, 15 S. Grady Way—Suite 321, Renton, WA 98055. *Sawdust, in bulk* from Tacoma, WA to St. Helens, OR, for 270 days. An underlying ETA seeks 120 days authority. Supporting shipper: West Coast Lumber Operations Co., 4215 East—West Rd., Tacoma, WA 98421.

MC 153628 (Sub-6–3TA), filed May 12, 1981. Applicant: JIM LARSEN d.b.a. WIND RIVER TRUCKING, 215 First Ave., S.W., Park City, MT 59063. Representative: Charles M. Williams, 665 Capitol Life Center, 1600 Sherman Street, Denver, CO 80203. *Contract carrier,* irregular routes, *lumber, lumber products and wood products,* from points in WA, OR, ID, and MT, to points in IA, IL, IN, OH, KY, MI, and WI, for 270 days, restricted to traffic moving under a continuing contract or contracts with Prentice Lumber Co., Inc. An ETA seeks 120 days authority. Supporting shipper: Prentice Lumber Co., Inc., P.O. Box 4125, Missoula, MT 59806.

MC 155811 (Sub-6–1TA), filed May 5, 1981. Applicant: TOM McCARTY TRUCKING, 436 Alcazar S.E., Albuquerque, NM 87108. Representative: Thomas D. McCarty (same as applicant). *Refractories,* from IN & MO to: WA, OR, CA, NV, UT, MT, WY, AZ, for 270 days. Supporting shipper: Harbison Walker, #2 Gateway Center, Pittsburgh, PA 15222.

James H. Bayne,

Acting Secretary.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-94]

Certain Wet Motor Circulating Pumps and Components Thereof; Prehearing Conference and Hearing

Notice is hereby given that a prehearing conference will be held in this case at 9 a.m. on June 29, 1981, in the Dodge Center, Room 201, 1010 Wisconsin Avenue NW., Washington, D.C., and the hearing will commence immediately thereafter.

The purpose of the prehearing conference is to review the trial memoranda submitted by the parties, to stipulate exhibits into the record, and to discuss any questions raised by the parties relating to the hearing.

The Secretary shall publish this notice in the **Federal Register.**

Issued: May 21, 1981.

Janet D. Saxon,

Administrative Law Judge.

BILLING CODE 7020-02-M

[Investigation No. 337-TA-102]

Certain Wheel Locks and Components Thereof; Investigation

AGENCY: International Trade Commission.

ACTION: Institution of investigation pursuant to 19 U.S.C. 1337.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on April 16, 1981 and amended on May 4, 1981, under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), on behalf of McGard, Inc., 852 Kensington Avenue, Buffalo, New York 14215. The complaint alleges unfair methods of competition and unfair acts in the importation of certain wheel locks and components thereof into the United States, or in their sale, by reason of alleged (1) infringement by said wheel locks of the claims of U.S. Letters Patent 3,241,408, (2) palming off, and (3) false designation of origin. The complaint further alleges that the effect or tendency of the unfair methods of competition and unfair acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States.

The complainant requests that the Commission institute an investigation; conduct an expedited hearing to determine whether there is reason to believe that there is a violation of section 337; upon the conclusion of said expedited hearing, issue a temporary cease and desist order and a temporary exclusion order prohibiting importation of the articles in question into the United States, except under bond, during this investigation; and, after a full investigation, issue an exclusion order prohibiting the importation of said articles from entry into the United States and a cease and desist order.

Authority: The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930 and in § 210.12 of the Commission's rules of practice and procedure.

Scope of the investigation: Having considered the complaint, the U.S. International Trade Commission, on May 13, 1981, ordered that—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, an investigation be instituted to determine whether there is reason to believe that there is a violation and whether there is a violation of subsection (a) of section 337 in the unlawful importation of certain wheel lock combinations and components thereof into the United States, or in their sale, by reason of (1) alleged infringement by said wheel lock combinations and the wheel locks

themselves of the claims of U.S. Letters Patent 3,241,408, (2) alleged palming off, and (3) alleged false designation of origin, the effect or tendency of which is to destroy or substantially injure an industry, efficiently and economically operated, in the United States;

(2) For the purpose of this investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainant is—

McGard, Inc., 852 Kensington Avenue, Buffalo, New York 14215

(b) The respondents are the following persons, alleged to be in violation of section 337, and are parties upon whom the complaint is to be served:

Kyo-Ei Industrial Corp., 41 Nishi-Shimizumachi, Minami-Ku, Osaka, Japan
Mackin Industries, 17727 Susana Road, Compton, California 90221
Superior Industries, International Inc., 7800 Woodley Avenue, Van Nuys, California 91405
Custom Plating Corp., C–P Auto Production Division, 1636 Bonnie Beach, Los Angeles, California 90063

(c) M. Brooke Murdock, Unfair Import Investigations Division, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, shall be the Commission investigative attorney, a party to this investigation;

(3) For the investigation so instituted, Donald K. Duvall, Chief Administrative Law Judge, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, shall designate the presiding officer.

(4) With respect to the complainant's request for expedition of the temporary relief hearing, action on such request is deferred to the presiding officer.

The phrase "wheel lock combinations" has been used in paragraph (1) above on the basis that the claims 1–4 in U.S. Letters Patent 3,241,408 are directed to a wheel lock and claims 5–8 of said patent are directed to the wheel lock in combination with a wrench that cooperates therewith. The latter combination is referred to as "wheel lock combinations."

Responses must be submitted by the named respondents in accordance with section 210.21 of the Commission's rules of practice and procedure (19 CFR 210.21). Pursuant to §§ 201.16(d) and 210.21(b) of the rules, such responses will be considered by the Commission if received not later than 20 days after the date of service of the complaint. Extensions of time for submitting a response will not be granted unless good and sufficient cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the presiding officer and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both a recommended determination and a final determination containing such findings.

The complaint, except for any confidential information contained therein, is available for inspection during official working hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, telephone 202–523–0161.

FOR FURTHER INFORMATION CONTACT: M. Brooke Murdock, Unfair Import Investigations Division, U.S. International Trade Commission, telephone 202–523–0113.

Issued: May 22, 1981.

By order of the Commission.

Kenneth R. Mason,

Secretary.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 81–51]

NASA Advisory Council, Space Systems and Technology Advisory Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of Meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Space Systems and Technology Advisory Committee, Informal Executive Subcommittee.

DATE AND TIME: June 16, 1981, 8:30 a.m. to 5 p.m.; June 17, 1981, 8:30 a.m. to 2:30 p.m.

ADDRESS: National Aeronautics and Space Administration, 600 Independence Ave., Room 625, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. C. Robert Nysmith, National Aeronautics and Space Administration, Code R, Washington, DC 20546 (202/755–3238).

SUPPLEMENTARY INFORMATION: The Informal Executive Subcommittee was established to provide overall guidance and direction to the space research and technology activities of the Space Systems and Technology Advisory Committee. The Subcommittee, chaired by Mr. Robert L. Johnson, is comprised of seven members.

The meeting will be open to the public up to the seating capacity of the room (approximately 50 persons including the Subcommittee members and participants).

Type of Meeting: Open
Agenda:

June 16, 1981

8:30 a.m.—Chairperson's Remarks
9 a.m.—Current Status of NASA FY 1982 Budget and Long Range Planning Activities
9:30 a.m.—Subcommittee Chairperson's Reports
5 p.m.—Adjourn

June 17, 1981

8:30 a.m.—Discussion and Consolidation of Subcommittee Reports
12:30 p.m.—NASA Project Management Study
1:30 p.m.—General Discussion of NASA Policy and Program Status
2:30 p.m.—Adjourn

Gerald D. Griffin,

Acting Associate Administrator for External Relations.

May 20, 1981.

NASA Advisory Council, Aeronautics Advisory Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92–463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Aeronautics Advisory Committee, Informal Executive Subcommittee.

DATE AND TIME: June 18, 1981, 8:30 a.m. to 5 p.m.; June 19, 1981, 8:30 a.m. to 4:30 p.m.

ADDRESS: NASA Headquarters, 600 Independence Ave., Room 625, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Mr. C. Robert Nysmith, Executive Secretary of the Subcommittee, National Aeronautics and Space Administration,

Code R, Washington, DC 20546 (202/755-3238).

SUPPLEMENTARY INFORMATION: The Informal Executive Subcommittee was established to provide overall guidance and direction to the discipline and vehicle class oriented activities of the Aeronautics Advisory Committee. The Subcommittee, chaired by Dr. Robert Loewy, is comprised of eleven members.

The meeting will be open to the public up to the seating capacity of the room (approximately 50 persons including the Subcommittee members and participants).

Type of Meeting: Open
Agenda:

June 18, 1981

8:30 a.m.—Chairperson's Remarks
9 a.m.—Current Status of NASA FY 1982 Budget and Long Range Plan
9:30 a.m.—Subcommittee Chairperson's Reports
5 p.m.—Adjourn

June 19, 1981

8:30 a.m.—Discussion and Consolidation of Subcommittee Reports
12:30 p.m.—Discussion of Subcommittees' Review of NASA Technology Demonstration and Validation Programs
2:30 p.m.—Office of Aeronautics and Space Technology Facility Productivity Improvement Program
4:30 p.m.—Adjourn

Gerald D. Griffin,

Acting Associate Administrator for External Relations.

NATIONAL SCIENCE FOUNDATION

NSF Advisory Council, Task Group #19; Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Task Group #19 of the NSF Advisory Council
Place: Room 543, National Science Foundation 1800 G Street, N.W., Washington, D.C. 20550
Date: Tuesday, June 16, 1981
Time: 9:00 a.m. to 5:00 p.m.
Type of meeting: Open
Contact person: Ms. Jeanne Hudson, Executive Secretary of the NSF Advisory Council, National Science Foundation, Room 518, 1800 G Street, N.W., Washington, D.C. 20550. Telephone: 202/357-9433

Purpose of task group: The purpose of the Task Group, composed of members of the NSF Advisory Council, is to provide the full Advisory Council with a mechanism to consider numerous issues of interest to the Council that have been assigned by the National Science Foundation.

Summary minutes: May be obtained from the contact person at above stated address.

Agenda: The Task Group is asked to consider the needs of organizations requiring policy research and analysis and to survey those NSF programs providing it. This will involve questions of coordination, possible overlap, and policy-making procedures as well as those of substance. In addition, the Council is asked to provide suggestions for the future development of NSF's science and technology policy resources.

M. Rebecca Winkler,

Committee Management Coordinator.

May 22, 1981.

NATIONAL TRANSPORTATION SAFETY BOARD

[N-AR 81-22]

Sunshine Skyway Bridge; Reports, Recommendations, Responses; Availability

• *Marine Accident Report—Ramming of the Sunshine Skyway Bridge by the Liberian Bulk Carrier SUMMIT VENTURE, Tampa Bay, Florida, May 9, 1980 (NTSB-MAR-81-3).*—As a result of its investigation of this accident, the Board reiterates recommendation M-80-78, issued to the U.S. Coast Guard following collision of two vessels in Tampa Bay, Fla., Jan. 22, 1980: Reevaluate the proposed level of vessel traffic service (VTS) in Tampa Bay and determine if a higher level of VTS is needed. (Ref. 45 FR 63583, Sept. 25, 1980.) Further, on April 22, 1981, the Board recommended that—

U.S. Coast Guard: Improve navigational aids for vessels passing under the Sunshine Skyway Bridge. (M-81-11)

Prohibit ships from meeting near the Sunshine Skyway Bridge. (M-81-12)

In cooperation with local port and bridge authorities, determine the feasibility of installing nonstructural bridge protection devices for the Sunshine Skyway Bridge. (M-81-13)

Seek legislation to allow the Coast Guard to act against a pilot's Federal license for acts committed while serving under the authority of his State license. (M-81-14)

In cooperation with the Federal Highway Administration, develop standards for the design, performance, and location of structural bridge pier protection systems which consider that the impact from an off-course vessel can occur significantly above as well as below the water surface. (M-81-15)

In cooperation with the Federal Highway Administration, conduct a study to determine which existing Bridges over the navigable waterways of U.S. ports and harbors are not equipped with adequate structural pier protection. (M-81-16)

Distribute a copy of the results of the Coast Guard's studies regarding bridge and pier protection systems to each appropriate member of the American Association of State Highway and Transportation Officials. (M-81-17)

Federal Highway Administration: Develop standards for the design, performance, and installation of bridge span failure detection and warning systems. (M-81-18)

Establish criteria to evaluate the need for installing bridge span failure detection and warning systems on existing and proposed bridges. (M-81-19)

In cooperation with the U.S. Coast Guard, develop standards for the design, performance, and location of structural bridge pier protection systems which consider that the impact from an off-course vessel can occur significantly above as well as below the water surface. (M-81-20)

In cooperation with the U.S. Coast Guard, conducts a study to determine which existing bridges over the navigable waterways of U.S. ports and harbors are not equipped with adequate structural pier protection. (M-81-21)

Use the results of the study conducted under recommendation M-81-21 to advise appropriate bridge authorities of the benefits of installing additional pier protection systems. (M-81-22)

State of Florida: Provide structural pier protection for the cantilever arm piers and the anchor arm piers of the Sunshine Skyway Bridge. (M-81-23)

National Weather Service: Establish a program to disseminate the contents of all convective SIGMETs which pertain to coastal areas to mariners by NWS weather radio broadcasts and by other appropriate means as the severity of the weather may require. (M-81-24)

Tampa Bay Pilots Association: Provide radio equipment capable of receiving NWS weather radio broadcasts at the Egmont Key pilot station. (M-81-25)

Instruct member pilots regarding the importance of complying with Article 15 of the Inland Rules of the Road which states, in part: "In fog, mist, falling snow, or heavy rainstorms, whether by day or night . . . a steam vessel under way shall sound, at intervals of not more than one minute, a prolonged blast." (M-81-26)

• *Railroad Accident Report—Rear-End Collision of Union Pacific Railroad Company Freight Trains Near Hermosa, Wyoming, October 16, 1980 (NTSB-RAR-81-3).*—As a result of its investigation, the Board on April 22 recommended that—

Union Pacific Railroad Company: Establish rules and procedures which require enginecrews to communicate fixed signal aspects to conductors while trains are en route on signalized track. (R-81-41)

Amend and clarify rules to require dispatchers and train crewmembers to communicate with each other about conditions affecting the movement of their train. (R-81-42)

Expand the rules and instructions governing the use of the dynamic brake to

include conditions of when to apply the dynamic brake on a descending grade, at what speeds the brake is most effective, and what action to take when the dynamic brake has failed prior to or while being applied. (R-81-43)

Improve training, evaluation, and examination of train crewmembers so that they become and remain proficient in the train handling and special instruction aspects of their territories. (R-81-44)

Modify event recorders to record activation of the cab signal acknowledging lever. (R-81-45)

Relocate event recorders so as to lessen the likelihood of their becoming damaged in an accident. (R-81-46)

Provide the cabs of locomotives with emergency power so that emergency lights, radios, and event recorders continue to operate when normal power is lost. (R-81-47)

Association of American Railroads: Encourage member railroads to establish rules that require enginecrews to communicate fixed signal aspects to conductors while trains are en route on signalized track. (R-81-48)

Encourage member railroads to have event recorders which record activation of cab signal, automatic train stop, or other similar safety system devices. (R-81-49)

Encourage member railroads to install or relocate event recorders so as to lessen the likelihood of their becoming damaged in an accident. (R-81-50)

Encourage member railroads to provide the cabs of locomotives with emergency power so that emergency lights, radios, and event recorders continue to operate when normal power is lost. (R-81-51)

In addition, the Board reiterates and reemphasizes the importance of the following recommendations issued to the *Federal Railroad Administration* as a result of other train collisions:

Promulgate rules to require engine crews to communicate fixed signal aspects to conductors while trains are en route on signalized track. (R-76-50)

Promulgate regulations which require an adequate backup system for mainline freight trains that will insure that a train is controlled as required by the signal system in the event that the engineer fails to do so. (R-76-3)

Promulgate regulations to require locomotives used in trains on main tracks outside of yard limits to be equipped with operating event recorders. (R-78-44)

Each of the above-noted recommendations is designated "Class II, Priority Action."

• *Recent Recommendation Responses from the Federal Aviation Administration—*

A-75-51 (May 11).—FAA is evaluating need for dynamic testing of seats in ongoing crashworthiness program. (Ref. 44 FR 23394, Apr. 19, 1979.)

A-79-44 (May 11).—FAA last fall formed a committee of NTSB, TSC, and FAA representatives to identify human factors/exposure data. FAA's Office of Aviation Safety is assessing an analytical study of General Aviation Safety and will soon inform the full committee. (Ref. 44 FR 53319, Sept. 13, 1979.)

A-81-12 and -13 (May 11).—A research program is underway to evaluate the detection, extinguishment, and flammability of cargo compartment liners. (Ref. 46 FR 13053, Feb. 19, 1981.)

A-81-18 (May 11).—FAA holds that established programs have regulatory control over the weight and balance procedures approved for U.S. certificate holders and that additional action is not needed. (Ref. 46 FR 22296, Apr. 16, 1981.)

Note.—Single copies of Board reports are available without charge as long as limited supplies last. Copies of recommendation letters, responses and related correspondence are also free of charge. All requests must be in writing, identified by recommendation or report number. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington, D.C. 20594.

Multiple copies of Board reports may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22161.

BILLING CODE 4910-58-M

NUCLEAR REGULATORY COMMISSION

Abnormal Occurrence Report; Section 208 Report Submitted to the Congress

Notice is hereby given that pursuant to the requirements of Section 208 of the Energy Reorganization Act of 1974, as amended, the Nuclear Regulatory Commission (NRC) has published and issued the periodic report to Congress on abnormal occurrences (NUREG-0090, Vol. 3, No. 4). The release date is May 21, 1981.

Under the Energy Reorganization Act of 1974, which created the NRC, an abnormal occurrence is defined as "an unscheduled incident or event which the Commission (NRC) determines is significant from the standpoint of public health or safety." The NRC has made a determination, based on criteria published in the **Federal Register** (42 FR 10950) on February 24, 1977, that events involving an actual loss or significant reduction in the degree of protection against radioactive properties of source, special nuclear, and byproduct materials are abnormal occurrences.

This report to Congress is for the fourth calendar quarter of 1980. The report identifies the occurrences or events that the Commission determined were significant and the remedial action that was undertaken. The report indicates that the following incidents or events were determined by the Commission to be significant and reportable:

(a) There was one abnormal occurrence at the nuclear power plants licensed to operate. The event involved significant flooding of a reactor containment building. The event was determined reportable during report preparation and therefore has not previously been noticed in the **Federal Register**. Using the abnormal occurrence criteria published in the **Federal Register** on February 24, 1977 (42 FR 10950), the incident satisfies Example I.D.3 ("For all Licensees") of Appendix A: serious deficiency in management or procedural controls in major areas. In addition, Example II.B.1 ("For Commercial Nuclear Power Plants") of Appendix A notes that discovery of a major condition not specifically considered in the Safety Analysis Report (SAR) or Technical Specifications that requires immediate remedial action can be considered an abnormal occurrence.

(b) There were no abnormal occurrences at the fuel cycle facilities (other than nuclear power plants).

(c) There were no abnormal occurrences at other licensee facilities.

(d) There were no abnormal occurrences reported by the Agreement States.

The report to Congress also contains updating information on some abnormal occurrences reported in previous reports.

Interested persons may review the report at the NRC's Public Document Room, 1717 H Street, NW, Washington, D.C. or at any of the more than 120 local Public Document Rooms throughout the country. Single copies of the report, designated NUREG-0090, Vol. 3, No. 4, may be purchased from the National Technical Information Service, Springfield, Virginia 22161, on or about June 5, 1981.

A year's subscription to the NUREG-0090 series publication, which consists of four issues for $8.00, is available from the NRC/GPO Sales Program, Division of Technical Information and Document Control, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Dated at Washington, D.C., this 21st day of May, 1981.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

BILLING CODE 7590-01-M

[Docket No. 50-336]

Northeast Nuclear Energy Company, et al.; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 69 to Facility Operating License No. DPR-65 issued to the Northeast Nuclear Energy Company, the Connecticut Light and Power Company, the Hartford Electric Light Company, and the Western Massachusetts Electric Company (the licensee), which revised Technical Specifications for operation of the Millstone Nuclear Power Station, Unit No. 2 (the facility) located in the Town of Waterford, Connecticut. The amendment is effective as of its date of issuance.

The amendment consists of changes to the Technical Specifications with respect to decay heat removal capability.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR § 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated October 17, 1980, (2) Amendment No. 69 to License No. DPR-65, and (3) the Commission's letter dated May 19, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Wshington, D.C., and at the Waterford Public Library, Rope Ferry Road, Waterford, Connecticut. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 19th day of May, 1981.

For the Nuclear Regulatory Commission.

Robert A. Clark,

Chief, Operating Reactors Branch No. 3, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-344; DD-81-6]

Portland General Electric Company (Trojan Nuclear Plant); Issuance of Director's Decision Under 10 CFR 2.206

On April 20, 1981, the Trojan Decommissioning Alliance requested the Nuclear Regulatory Commission (NRC) to order the immediate shutdown and launch an investigation of the Trojan Nuclear Plant of the Portland General Electric (PGE) Company. Concern regarding certain electrical problems experienced at the plant formed the basis for the request. After evaluating the request and related information, I have determined not to grant the relief requested. Accordingly, pursuant to 10 CFR 2.206 the requested action is denied.

The reasons for this decision are stated fully in the "Director's Decision Under 10 CFR 2.206," which is available for public inspection in the Commission's public document room at 1717 H Street, NW., Washington, DC 20555. The decision is also available for inspection in the local public document room for the Trojan facility, which is located at Multnomah County Library, Social Science & Science Department, 801 SW 10th Avenue, Portland, Oregon 97205. A copy will be filed with the Secretary for the Commission's review in accordance with 10 CFR 2.206(c).

As provided in 10 CFR 2.206(c), this Decision will become the final action of the agency twenty-five (25) days after issuance, unless the Commission, on its own motion, institutes review of this action within that time.

Dated at Bethesda, Maryland, this 21st day of May 1981.

For the Nuclear Regulatory Commission.

James H. Sniezek,

Acting Director, Office of Inspection and Enforcement.

BILLING CODE 7590-01-M

[Docket No. 50-311]

Public Service Electric and Gas Co. et al.; Notice of Issuance of Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Facility Operating License No. DPR-75, issued to the Public Service Electric and Gas Company, Philadelphia Electric Company, Delmarva Power and Light Company and the Atlantic City Electric Company, which authorizes operation of the Salem Nuclear Generating Station, Unit 2 at reactor core power levels not in excess of 3411 megawatts thermal (100% power) in accordance with the provisions of the license and the Technical Specifications.

The Salem Nuclear Generating Station, Unit 2 is a pressurized water nuclear reactor located at the licensees' site in Salem County, New Jersey. The license is effective as of its date of issuance.

The application for the license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in 10 CFR Chapter I, which are set forth in the license. Prior public notice of the overall action involving the proposed issuance of an operating license was issued in the **Federal Register** on October 20, 1972 (37 FR 22637).

The Commission has determined that the issuance of this license will not result in any environmental impacts other than those evaluated in the Final Environmental Statement since the activity authorized by this license is encompassed by the overall action evaluated in the Final Environmental Statement.

For further details with respect to this action, see (1) Facility Operating License No. DPR-75, complete with Technical Specifications; (2) License for Fuel Load and Low Power Testing dated April 18, 1980 and amendments thereto; (3) the reports of the Advisory Committee on Reactor Safeguards dated February 15, February 22 and August 14, 1979; (4) the Commission's Safety Evaluation Report (NUREG-0517) dated October 1974, Supplement 1 dated June 1976, Supplement 2 dated August 1976, Supplement 3 dated December 1978, Supplement 4 dated April 1980, Supplement 5 dated January 1981, and Supplement 6 dated May 1981; and (5) the Final Safety Analysis Report, docketed August 1971 and amendments thereto; (6) the Environmental Report prepared by Public Service Electric & Gas Company dated June 30, 1970, as supplemented and amended; (7) the Commission's Final Environmental Statement dated April 1973; (8) the NRC Flood Plain Review of the Salem Nuclear Generating Station Site dated April 18, 1980; and (9) the Discussion of

the Environmental Effects of the Uranium Fuel Cycle dated May 20, 1981.

These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the local public document room in the Salem Free Public Library, 112 West Broadway, Salem, New Jersey. A copy of item (1) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing, Office of Nuclear Reactor Regulation. Copies of Supplements 3, 4, 5 and 6 of NUREG–0517 may be purchased at current rates from the National Technical Information Service, Department of Commerce, 5285 Port Royal Road, Springfield, Virginia 22161, and through the NRC GPO sales program by writing to the U.S. Nuclear Regulatory Commission, Attention: Sales Manager, Washington, D.C. 20555. GPO deposit account holders can call 301–492–9530.

Dated at Bethesda, Maryland, this 20th day of May, 1981.

For the Nuclear Regulatory Commission.

Frank J. Miraglia,

Acting Chief, Licensing Branch No. 3, Division of Licensing.

BILLING CODE 7590-01-M

POSTAL RATE COMMISSION

[Docket No. MC81-3; Order No. 377]

Mail Classification Schedule, 1981 ZIP + 4 First-Class Subclasses; Order Granting Petitions for Intervention and Allowing Participation, Designating OOC, Establishing Procedural Schedule and Denying in Part Postal Service's Motion for Waiver

May 22, 1981.

On April 24, 1981, this Commission issued a Notice[1] stating that the United States Postal Service had filed a Request for a Recommended Decision on establishing two new subclasses of first class, ZIP + 4 letters and ZIP + 4 cards. The Notice directed those desiring to participate in the proceeding to file, on or before May 15, 1981, petitions for leave to intervene,[2] or requests to be heard as a limited participant.[3] In addition, persons wishing to express their views informally, but not desiring to become a party or limited participant, were permitted to file comments.[4]

In response to the Notice, this Commission has received ten petitions to intervene. These parties are listed in Attachment A. In addition, eight requests to be heard as limited participators were received. These parties are listed in Attachment B.

Any answers to such petitions are to be filed by May 26, 1981. In order to advise those filing petitions of their status at the earliest possible date, and to establish an initial service list for this proceeding, we have decided to rule on the petitions at this time, subject to reconsideration on the basis of any answers which may yet be filed.

The petitioners listed in Attachments A and B are either users of the mail or have otherwise demonstrated an interest in this proceeding. Accordingly, their requests for participation will be granted.[5]

Concurrent with the issuance of this Order, the Secretary is transmitting a service list to be employed by all parties, whether full or limited participants, in making filings in the proceeding. The Postal Service, pursuant to section 65 of our rules of practice [6] will be required to serve copies of its Request and its prepared direct evidence upon the parties identified in Attachments A and B, and upon the Officer of the Commission.

Where service upon more than one representative has been requested in the petition to intervene or leave to be heard as a limited participator, the service will be required only on the first two named representatives in the petition.[7]

The Officer of the Commission (OOC) designated to represent the interest of the general public in this proceeding will be Gerald E. Cerasale. During this proceeding, the OOC will direct the activities of Commission personnel assigned to assist him, and neither he nor such personnel will participate in or advise as to any Commission decision in this case.[8] The OOC will supply, for the record, at the appropriate time the names of all Commission personnel assigned to assist him in this case. In this proceeding, the OOC shall be separately served with three copies of all filings in addition to, and simultaneously with, service on the Commission of the 25 copies required by section 10(c) of the rules of practice.[9]

Procedural Schedule. We have established a tentative schedule, which balances the goal of expedition and the time necessary for adequate consideration of a proposal of such significance. The schedule is attached to this order as Attachment C.

Postal Service Motion for Waiver. On April 21, 1981, the Postal Service filed a motion for a waiver of certain provisions of the Commission's rules of practice and procedure. In our April 24, 1981 Notice we gave the parties until June 1, 1981, to address the Postal Service's motion. Upon further consideration of the motion we have decided at this time to deny the Postal Service's request for a temporary waiver of Rule 64(g).[10]

Performance data. In its motion, the Postal Service requests that the workpaper documentation requirement of Rule 64(g) be waived until the Service has completed its contracting procedure. The Postal Service does not want to produce the data gathered in its tests of the automated equipment—Optical Character Reader-Channel Sorters and Bar Code Sorters—it is procuring until the contracts have been awarded. These test data, however, are the bases for the amount of the proposed discount. Therefore they are of primary importance in this case.

We respect the Postal Service's interest in preserving competition in its procurement process. However, because these data are of primary importance in the Postal Service's case, the parties and the Commission should have access to them without delay. If the Commission is to accomplish its goal of expeditious consideration of this case, the Postal Service must cooperate by producing the relevant material.

We note that in R80–1, we used protective conditions to safeguard the Postal Service's interest with regard to material that was undeniably relevant but also deemed by the Postal Service to be inappropriate for general release.[11] We believe that the protective conditions worked well in R80–1 and are appropriate for this situation also.[12] We note that the Postal Service has no

[8] *See* 39 CFR 3001.8.

[9] 39 CFR 3001.10(c).

[10] Postal Service Motion, pp. 4–5.

[11] PRC Order No. 348

[12] The Postal Service, in another situation, found production of these data, with protective conditions, an acceptable balancing of its need to protect its contracting process and a decision-making body's need for information. The Postmaster General in a March 26, 1981, hearing offered to make these test results available, in executive session, to the House Subcommittee on Government Information and Individual Rights.

objection to providing this information after its procurement process is completed. Production of the information under protective conditions will protect the Service's interests in the integrity of its procurement process while assisting in the expedition of this case, since parties and the Commission can begin their analyses at an earlier time.

In R80–1, the Postal Service argued that it should not be required to produce certain requested information because one of the parties was a competitor who might be able to use the information to gain an unfair advantage. In response to that argument, we limited access to that information to outside consultants and attorneys. We do not have the same situation here because none of the parties appear to have any interest in the outcome of the procurement. However, to make certain that the production of the data will not affect the Postal Service's procurement process, any person requesting access to the information must include in the affidavit a statement that he or she has no personal or financial interest in the procurement. None of the parties granted intervention appear to be involved in the procurement. If anyone so involved petitions for late intervention, we will require that access be limited to outside consultants and attorneys of that party.

In its motion, the Postal Service requests limiting the production of test data to that of the particular equipment procured rather than that for all the equipment tested and found acceptable. We are denying this request for limitation at this time. As the procurement has not been completed, no one knows which equipment will be procured. The parties and the Commission can use the data in the same manner as the Postal Service witnesses as giving a range for the expected performance. When the Postal Service witnesses developed the proposal, they did not know which companies would be awarded the contracts. The parties and the Commission need the same data for an adequate analysis of the Postal Service's proposal. After the Postal Service has notified the Commission that it has completed its procurement process, the Commission will entertain any motions regarding the relevance of the test data for equipment not purchased.

The protective conditions are necessary only until the procurement process is completed. The Commission therefore anticipates that it will remove the conditions then, unless some supervening cause for continued confidentiality is shown.

The Commission Orders:

(1) Each of the petitioners identified in Attachment A to this Order is hereby permitted to intervene in this proceeding, subject to the provisions of paragraph (C), below.

(2) Each of the petitioners identified in Attachment B to this Order is hereby permitted to become a limited participator in this proceeding, subject to the provisions of paragraph (C), below.

(3) The participation of the intervenors and limited participators permitted by paragraphs (A) and (B), above, is subject to the rules and regulations of the Commission: *Provided, however,* That their participation shall be limited to matters affecting rights and interests specifically set forth in their respective petitions to intervene and requests to become limited participators: *And provided, further,* That the admission of such intervenors and limited participators shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(4) The Postal Service shall serve copies of its Request and its prepared direct evidence upon representatives of petitioners permitted to intervene and the representatives of the limited participators. For purposes of such service, where service upon more than one representative has been requested in the petition to intervene or in a request for leave to be heard as a limited participator, including those petitions and requests filed jointly and severally by two or more persons, only the first two named representatives in the petition need be served.

(5) The Officer of the Commission (OOC) designated to represent the interest of the general public in this proceeding will be Gerald E. Cerasale. During this proceeding, the OOC will direct the activities of Commission personnel assigned to assist him, and neither he nor such personnel will participate in or advise as to any Commission decision in this case. The OOC will supply, for the record, at the appropriate time the names of all Commission personnel assigned to assist him in this case. In this proceeding, the OOC shall be separately served with three copies of all filings in addition to, and simultaneously with, service on the Commission of the 25 copies required by section 10(c) of the rules of practice.

(6) The procedural schedule, Attachment C, is tentatively established.

(7) The Postal Service's Motion for waiver with regard to 64(g) is denied. The material is to be filed within seven days of the issuing of this Order. Unless and until the Commission orders otherwise, access to this material will be subject to the following conditions:

a. Inspection and analysis of this material is permitted solely for purposes of this proceeding. The material is to be kept confidential.

b. Prior to receipt of any materials, each party shall file with the Commission affidavits by each of the individuals who will be given access; such affidavits shall follow the format prescribed in Attachment D to this Order.

(8) The Postal Service will notify the Commission when it has awarded the contract(s) for purchase of Optical Character Reader-Channel Sorters. Any motion concerning the protective conditions or relevance of the test data provided concerning the Optical Character Reader-Channel Sorters is to be filed within seven days of that notice.

(9) The Postal Service will notify the Commission when it has awarded the contract(s) for the purchase of Bar Code Sorters. Any motion concerning the protective conditions or relevance of the test data provided concerning the Bar Code Sorters is to be filed within seven days of that Notice.

By the Commission.

David F. Harris,

Secretary.

BILLING CODE 7715–01–M

[Docket No. A81–3; Order No. 378]

Catherine W. Brown, Petitioner; Notice and Order of Filing of Appeal

Issued: May 22, 1981.

On May 15, 1981 the Commission received a letter from Catherine W. Brown (hereinafter "Petitioner") concerning alleged United States Postal Service plans to close the Oswego, South Carolina post office.

Although petitioner does not expressly refer to the Postal Reorganization Act (39 U.S.C. 101 *et seq.*) and does not attach a copy of the Postal Service's written determination, we believe her letter should be construed as a petition for review pursuant to section 404(b) of the Act to preserve her right to appeal and in light of Commission rules of practice that call for liberal construction to secure a just and speedy determination of issues.[1]

The Act requires that the Postal Service provide the affected community with at least 60 days' notice of a proposed post office closing to "ensure that such persons will have an opportunity to present their views."[2] The petition requests that the Oswego post office be kept open. From the face of the petition it is not clear whether any hearings have been held and whether a determination has been made under 39 U.S.C. 404(b)(3).

The Commission's rules of practice require the Postal Service to file the administrative record of the case within 15 days after the date on which the petition for review is filed with the Commission.[3]

The Postal Reorganization Act states:

> The Postal Service shall provide a maximum degree of effective and regular postal services to rural reas, communities, and small towns where post offices are not self-sustaining. No small post office shall be closed solely for operating at a deficit, it being the specific intent of the Congress that effective postal services be insured to residents of both urban and rural communities.[4]

Section 404(b)(2)(C) of the Act specifically includes consideration of this goal in determinations by the Postal Service to close post offices. The effect on the community is also a mandatory consideration under section 404(b)(2)(A) of the Act.

The petition appears to set forth the Postal Service action complained of in sufficient detail to warrant further inquiry to determine whether the Postal Service complied with its regulations for the discontinuance of post offices.[5]

Upon preliminary inspection, the petition appears to raise the following issues of law:

1. Did the Postal Service consider the effect of this post office closing on the community it served, in conformance with section 404(b)(2)(A)?

2. Did the Postal Service consider whether this closing is consistent with the policy of the Government that the Postal Service provide a maximum degree of effective and regular postal services to rural areas, communities and small towns where post offices are not self-sustaining, in conformance with section 404(b)(2)(C)?

Additional issues may emerge when the parties and the Commission review the Service's determination for consistency with the principles announced in *Lone Grove, Texas, et al.*, Docket Nos. A79–1, *et al.* (May 7, 1979) and the Commission's subsequent decisions on appeals of post office closings and consolidations. The determination may be found to resolve adequately one or more of the issues involved in the case.

In view of the above and in the interest of expediting this proceeding under the 120-day decisional deadline imposed by section 404(b)(5), the Postal Service is advised that the Commission reserves the right to request a legal memorandum from the Service on one or more of the issues described above and/or any further issues of law disclosed by the determination made in this case.

In the event the Commission finds a memorandum necessary to explain or clarify the Service's legal position or interpretation of any issue, it will, within 20 days of receiving the determination and record pursuant to section 113 of the rules of practice (39 CFR 3001.113) make a request by order and specify the issues to be addressed. If a request is issued, the Postal Service's memorandum shall be due within 20 days and the Service shall serve a copy of the memorandum on Petitioner. In briefing the case or in filing any motion to dismiss for want of prosecution, in appropriate circumstances the Service may incorporate by reference all or any portion of a legal memorandum filed pursuant to such an order.

The Act does not contemplate appointment of an Officer of the Commission in section 404(b) cases[6] and none is appointed. The Commission orders that:

(A) The letter received May 15, 1981 from Catherine W. Brown of Oswego, South Carolina be construed as a petition for review pursuant to section 404(b) of the Act (39 U.S.C. 404(b)).

[1] 39 U.S.C. 404(b)(5). 39 U.S.C. 404(b) was added to title 39 by Pub. L. 94–421 (September 24, 1976), 90 Stat. 1310–11. Our rules of practice governing these cases appear at 39 CFR 3001.110 *et seq.*

[2] 39 U.S.C. 404(b) (1).

[3] 39 CFR 3001.113(a). The Postal Rate Commission informs the Postal Service of its receipts of such an appeal by issuing PRC Form No. 56 to the Postal Service upon receipt of each appeal.

[4] 39 U.S.C. 101(b).

[5] 42 FR 59079–85 (11/17/77); the Commission's standard of review is set forth at 39 U.S.C. 404(b)(5).

[6] In the Matter of Gresham, S.C., Route #1, Docket No. A78–1 (May 11, 1978).

(B) The Secretary of the Commission shall publish this Notice and Order in the **Federal Register.**

(C) The Postal Service shall file the administrative record in this case on or before June 1, 1981, pursuant to the Commission's rules of practice (39 CFR 3001.113(a)).

By the Commission.

David F. Harris,

Secretary.

Appendix

May 15, 1981—Filing of Petition.
May 22, 1981—Notice and Order of Filing of Appeal.
June 1, 1981—Filing of record by Postal Service (*see* 39 CFR 3001.113(a)).
June 4, 1981—Last day for filing of petitions to intervene (*see* 39 CFR 3001.111(b)).
June 15, 1981—Petitioner's initial brief (*see* 39 CFR 3001.115(a)).
June 30, 1981—Postal Service answering brief (*see* 39 CFR 3001.115(b)).
July 15, 1981—(1) Petitioner's reply brief, should petitioner choose to file (*see* 39 CFR 3001.115(c)).

(2) Deadline for motions by any party requesting oral argument. The Commission will exercise its discretion, as the interests of prompt and just decision may require, in scheduling or dispensing with oral argument.

BILLING CODE 7715-01-M

SECURITIES AND EXCHANGE COMMISSION

Boston Stock Exchange, Inc.; Applications for Unlisted Trading Privileges and of Opportunity for Hearing

May 21, 1981.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the following stocks:

Apache Petroleum Company Depository Units, No Par Value (File No. 7-5917)
Barnett Banks of Florida, Inc. Common Stock, $2 Par Value (File No. 7-5918)
Cray Research, Inc. Common Stock, $1 Par Value (File No. 7-5919)
Deluxe Check Printers, Inc. Common Stock, $1 Par Value (File No. 7-5920)
Galveston-Houston Company Common Stock, $.33⅓ Par Value (File No. 7-5921)
MacMillan-Bloedel Ltd. Common Stock, No Par Value (File No. 7-5922)
Modular Computer Systems, Inc. Common Stock, $.05 Par Value (File No. 7-5923)
Moore Corporation Ltd. Common Stock, No Par Value (File No. 7-5924)
Noble Affiliates, Inc. Common Stock, $3.33⅓ Par Value (File No. 7-5925)
Permian Basin Royalty Trust Shares of Beneficial Interest, No Par Value (File No. 7-5926)
Recognition Equipment Inc. Common Stock, $.25 Par Value (File No. 7-5927)
Sullair Corporation Common Stock, No Par Value (File No. 7-5928)
Toys R Us, Inc. Common Stock, $1 Par Value (File No. 7-5929)

These securities are listed and registered on one or more other national securities exchanges and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before June 12, 1981 written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, Washington, D.C. 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Shirley E. Hollis,

Assistant Secretary.

Advisory Committee on Shareholder Communications; Meeting

This is to give public notice, pursuant to Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I, 10(a), that the Securities and Exchange Commission Advisory Committee on Shareholder Communications will conduct a meeting on June 17, 1981, at the American Stock Exchange, 86 Trinity Place, New York, New York, in the boardroom, 13th floor, beginning at 10:00 a.m. This meeting will be open to the public.

This will be the second meeting of the Advisory Committee. The purposes of the meeting are to: hear the reports of Subcommittees, review a draft release soliciting public comment and consider other issues related to communicating with the beneficial owners of securities registered in the name of a broker-dealer, bank or other nominee.

Further information on this matter may be obtained by contacting: Gregory H. Mathews, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549, (202) 272-2589.

Dated: May 22, 1981.

George A. Fitzsimmons,

Secretary.

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice CM-8/410]

Shipping Coordinating Committee, Safety of Life at Sea Subcommittee; Meeting

The U.S. SOLAS Working Group on International Multimodal Transport and Containers will conduct an open meeting on June 10, 1981, at 9:30 a.m., in Room 4234 of the Department of Transportation Building, 400 Seventh Street SW., Washington, D.C. 20590.

The purpose of this meeting is to discuss matters germane to multimodal transport and containers. The following specific issues will be addressed:

1. De-briefing and discussion on the 22nd Session of the IMCO Subcommittee on Containers and Cargoes which was held in London on January 26-30, 1981.

2. De-briefing and discussion on the 44th Session of the IMCO Maritime Safety Committee which was held in London on March 30-April 1, 1981 on matters concerning the 22nd Session of the IMCO Subcommittee on Containers and Cargoes.

3. Comments on the Report on the Convention on International Multimodal Transport of Goods.

4. Discussion of the U.S. position for the meeting of the Group of Experts on Combined Transport (GECT) to be held June 15-19, 1981, in Geneva.

5. Other matters.

For further information concerning this meeting contact Mr. Charles Hochman, U.S. Coast Guard (202) 426-1577 or Mr. Paul B. Larsen, Department of Transportation (202) 426-4710.

Dated: May 13, 1981.

John Todd Stewart,

Chairman, Shipping Coordinating Committee.

BILLING CODE 4710-07-M

[Public Notice CM-8/411]

Shipping Coordinating Committee, Safety of Life at Sea Subcommittee; Meeting

The open meeting of the SOLAS Working Group on the Carriage of Dangerous Goods originally scheduled for June 4, 1981, has been postponed. The meeting will now take place on June 23, 1981, at 9:30 a.m., in Room 3201 of the Coast Guard Headquarters Building, 2100 Second Street SW., Washington, D.C. 20593.

The purpose of this meeting will be to:

—Discuss the report of the XXXII Session of the IMCO Subcommittee on the Carriage of Dangerous Goods;

—Discuss progress of IMCO activities of a continuing nature such as implementation of the IMDG Code.

Requests for further information on the meeting should be directed to Lieutenant Kevin J. Eldridge, U.S. Coast Guard (G-MHM-2), 2100 Second Street SW., Washington, D.C. 20593. Telephone: (202) 426-1577.

Dated: May 13, 1981.

John Todd Stewart,

Chairman, Shipping Coordinating Committee.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Trade Policy Staff Committee; Generalized System of Preferences (GSP) Subcommittee; Results of Reviews of Petitions Requesting Changes in the List of Articles Eligible for Duty-Free Treatment Under the GSP

This publication describes results of the 1980 annual review of petitions requesting changes in the list of imported articles eligible for duty-free treatment under the U.S. Generalized System of Preferences (GSP). The GSP is provided for in the Trade Act of 1974 (88 Stat. 2066-2071, 19 U.S.C. 2461-2465). The review was conducted pursuant to regulations codified at 15 CFR Part 2007. Results of the review were implemented as of March 31, 1981, by Executive Order No. 12302 of April 1, 1981 (46 FR 19901). The disposition of the petitions accepted for review by the GSP Subcommittee of the Trade Policy Staff Committee (TPSC) and matters considered by the TPSC on its own motion are set forth in Annex I of this notice. Petitions that remain pending are listed in Annex II.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Development of Traffic Control Device: Self-Powered Vehicle Detector (SPVD); Public Meeting

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of public meeting.

SUMMARY: This document is to announce a meeting to discuss, with representatives of industry, the status of development and implementation activities concerning the self-powered vehicle detector (SPVD). The meeting is also being held to determine the level of interest among the manufacturers in picking up the SPVD concept and offering similar equipment to agencies with traffic control responsibility. All interested persons are invited to attend and participate in this meeting.

MEETING DATE: June 17, 1981.

TIME: 9 a.m.–Noon.

ADDRESS: Nassif Building, Room 7200, 400 Seventh Street, SW., Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT: Mr. Charles Stockfisch, Office of Development, 202–426–9211; or Mr. Wil Baccus, Office of the Chief Counsel, 202–426–0786, Federal Highway Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

SUPPLEMENTARY INFORMATION: The SPVD, which was developed by the Federal Highway Administration, is an electronic device that detects the presence of vehicles which pass over it and transmits radio signals to a roadside receiver without the need for pysical wire interconnection. These radio signals can be used for intersection traffic control, surveillance or data collection purposes. Minimal installation costs are required. The meeting will include a demonstration of the equipment, presentations relative to the research accomplishments, detailed description of components, operational details, results of field testing, etc. Copies of the research report will be available for distribution.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Research, Planning and Construction. The provisions of OMB Circular No. A–95 regarding State and local clearinghouse review of Federal and Federally assisted programs and projects apply to this program)

Issued: May 19, 1981.

L. P. Lamm,

Executive Director.

BILLING CODE 4910-22-M

National Highway Traffic Safety Administration

Denial of Petition on Motor Vehicle Defects and Hearings

This notice sets forth the reasons for the denial of a petition relating to safety-related defects in a motor vehicle.

On February 25, 1981, James L. Everett, Jr. of Miami Springs, Florida, asked NHTSA to determine whether Fiat Motors of North America had met its responsibility to correct a safety-related defect in his 1979 Fiat XL/9 car with respect to "carburetor hesitation." Mr. Everett had experienced delays with his dealer who had no repair parts. After inquiry by NHTSA, Fiat informed the agency that repairs had been effected on April 23, 1981. Since no hearing was necessary to resolve the problem, Mr. Everett's petition was denied on May 5, 1981.

(Sec. 156, Pub. L. 93–492, 38 Stat. 1470 (15 U.S.C. 1416); delegations of authority at 49 CFR 1.50 and 501.8)

Issued on May 22, 1981.

Lynn Bradford,

Associate Administrator for Enforcement.

BILLING CODE 4910-59-M

Saint Lawrence Seaway Development Corporation

National Environmental Policy Act (NEPA) Implementing Procedures

AGENCY: Saint Lawrence Seaway Development Corporation, DOT.

ACTION: Notice.

SUMMARY: This final order revises the Saint Lawrence Seaway Development Corporation procedures for considering environmental impacts to conform with the Council on Environmental Quality (CEQ) regulations for implementing the procedural provisions of the National Environmental Policy Act, issued November 29, 1978.

EFFECTIVE DATE: May 28, 1981.

FOR FURTHER INFORMATION CONTACT: M. Kirkey, Office of the Chief Engineer, Saint Lawrence Seaway Development Corporation, P.O. Box 520, Massena, N.Y. 13662, (315) 764–3254.

SUPPLEMENTARY INFORMATION:

1. Background

On November 29, 1978, the Council on Environmental Quality (CEQ) published regulations on the implementation of the National Environmental Policy Act (NEPA) (43 FR 55978). The CEQ regulations direct Federal Agencies to adopt procedures to implement the regulations (40 CFR 1507.3). The Department of Transportation (DOT) published DOT Order 5610.1C, October 1, 1979, (44 FR 56420), thereby providing implementing procedures for all elements within the DOT. This order, designated as SLSDC 10–5610.1C, sets forth specific responsibilities and instructions for Corporation implementation of the CEQ regulations. These implementing procedures outline only these Corporation-specific actions needed for compliance with the NEPA process and must be read in conjunction with the CEQ regulations and DOT Order 5610.1C. This order is an internal directive.

2. Response To Comment

The proposed Order and request for public comment was published on July 10, 1980. Comments were received from two federal agencies, one state agency, and one private environmental organization.

3. Principal Comment

Paragraph 6.b., Categorical Exclusions

The provision for categorical exclusion of several routine items caused concern in that the commenters felt that the excluded activities contained several items which could constitute major federal actions resulting in significant impacts on the environment.

As stated in the Corporation's proposed Order, under Supplemental Information, 1. Background, paragraph 2, the proposed Corporation's procedures must be read in conjunction with the DOT Order 5610.1C and the CEQ Regulations (40 CFR 1500–1508). Both the DOT Order and the CEQ Regulations contain language requiring that an environmental assessment or an EIS be prepared for any action which would otherwise be classified as categorically excluded, but which is likely to involve significant impacts on the environment, or substantial controversy (40 CFR 1508.4) (DOT 5610.1C, 20.b. 2). However, to further alleviate this concern, a statement has been added to Paragraph 6.b. (second sentence), which allows the actions listed under "Categorical Exclusions" to be performed as part of routine maintenance and construction, while insuring that should these activities be undertaken as part of a

major program, an environmental assessment or EIS will be prepared. This added statement should make it very clear that the items listed are not contemplated as part of the Great Lakes-St. Lawrence Seaway Navigation Season Extension Program. In addition to the aforementioned clarifying statement, categorically excluded Items 9. (Icebreaking) and 10. (Maintenance Dredging) have been further defined and limited.

The Advisory Council on Historic Preservation commented that a section should be included in the final regulations concerning compliance with Section 106 of the National Historic Preservation Act. It is felt that this is adequately covered in the DOT Order 5610.1C.

In consideration of the foregoing, the Saint Lawrence Seaway Development Corporation Order 10–5610.1C "Procedures for Considering Environmental Impacts" is promulgated to read as appears below.

Issued in Washington, D.C., on April 13, 1981.

David W. Oberlin,

Administrator, Saint Lawrence Seaway Development Corporation.

Department of Transportation

Saint Lawrence Seaway Development Corporation

Order—SLS 10–5610.1C

Procedures for Considering Environmental Impacts

1. *Purpose.* DOT Order 5610.1C establishes procedures for consideration of environmental impacts in decision making on proposed DOT actions. The Order provides that information on environmental impacts of proposed actions will be made available to public officials and citizens through environmental impact statements, environmental assessments or findings of no significant impact. These documents serve as the single vehicle for environmental findings and coordination. These procedures provide guidance for implementation of DOT Order 5610.1C.

2. *Cancellation.* SLS 10–5610.1B, Procedures for Implementation of DOT Order 5610.1B, issued March 31, 1975.

3. *Background.* The Council on Environmental Quality (CEQ) issued regulations for Implementing the Procedural Provisions of the National Environmental Policy Act on November 29, 1978 (43 FR 55978–56007). The CEQ regulations apply uniformly and are binding on all Federal agencies and direct agencies to adopt implementing procedures which relate the CEQ regulations to the specific needs of each agency's programs and operating procedures.

DOT Order 5610.1C implements NEPA and the CEQ regulations within the Department of Transportation and replaces Order DOT 5610.1B of 9–30–74. The Order provides instructions for implementation of relevant environmental laws and executive orders in addition to NEPA.

DOT Order 5610.1C provides that an operating administration may rely on the Order as its implementing procedures, with issuance of supplementary guidance applying the environmental process to the Administration's programs. Therefore, this notice presents the final SLSDC Order SLS 10–5610.1C, "Procedures for Considering Environmental Impacts", as guidelines for implementation of NEPA procedures, under DOT Order 5610.1C, within the Corporation.

4. *Definitions.* a. The term "Assistant Secretary" means the Assistant Secretary for Policy and International Affairs, Office of the Secretary, U.S. Department of Transportation, and his authorized representatives.

b. The term "Corporation" means the Saint Lawrence Seaway Development Corporation.

c. The term "Chief Engineer" means the Chief, Office of Engineering, Saint Lawrence Seaway Development Corporation and his authorized representatives.

d. The term "General Counsel" means the General Counsel, Saint Lawrence Seaway Development Corporation.

e. The term "Office Heads" includes the Director, Office of Program Review; Comptroller; General Counsel; Director, Office of Comprehensive Planning; Director, Office of Systems & Economic Analysis; Chief Engineer; Director, Office of Procurement & Supply; Director, Office of Administration; Chief, Office of Marine Services; Chief, Office of Maintenance and Chief, Office of Lock Operations, and their authorized representatives, Saint Lawrence Seaway Development Corporation.

5. *Scope.* These guidelines provide instructions for implementation of Section 102(2) of the National Environmental Policy Act of 1969 (Pub. L. 91–190, hereinafter "NEPA") and the Regulations for Implementing NEPA issued by the Council on Environmental Quality, 11–29–79 (40 CFR 1500–1508); Sections 2(b) and 4(f) of the Department of Transportation Act of 1966 (49 U.S.C. 1653, hereinafter "the DOT Act"); Sections 309 and 176 of the Clean Air Act, as amended (42 U.S.C. 7401 et seq.); Section 106 of the National Historic Preservation Act of 1966 (Pub. L. 89–665, hereinafter "the Historic Preservation Act"); Sections 303 and 307 of the Coastal Zone Management Act of 1972 (Pub. L. 92–583); Section 2 of the Fish and Wildlife Coordination Act (Pub. L. 85–624); Section 7 of the Endangered Species Act, as amended (16 U.S.C. 1533); the Federal Water Pollution Control Act, as amended (33 U.S.C. 1314 et seq.); and the various Executive Orders relating to environmental impacts.

6. *Environmental Processing Choice.*

a. *Environmental Impact Statements.* An EIS shall be prepared for any proposed major Federal action significantly affecting the environment. (See also: CEQ 1508.27, paragraphs 7 and 10.) Listed below are types of Corporation actions which normally require the preparation of an EIS:

1. Legislation. A Legislative EIS will be prepared to accompany a bill or legislative proposal to Congress, recommended by the Corporation, significantly affecting the quality of the human environment.

2. Construction Projects (major) involving significant disturbances to earth, air or water.

b. *Categorical Exclusions.* The following actions are not major Federal actions with a significant impact on the environment, and do not require either an environmental assessment or an environmental impact statement. In case of extraordinary circumstances whereby any of the following items, which are normally excluded, may have a significant effect on the environment, or cause substantial controversy, an environmental assessment or EIS will be prepared.

1. Administrative procurements (e.g. general supplies) and contracts for personal services;

2. Personnel Actions (e.g. promotions, hirings);

3. Project amendments (e.g. increases in costs) which do not significantly alter the environmental impact of the action;

4. Issuance of vessel passage permits as a matter of routine Seaway procedures;

5. Amendments to the Seaway Regulations;

6. Reconstruction, repair and maintenance of existing navigation aids and construction of new fixed aids;

7. De-icing equipment and measures at the locks and lock approaches;

8. Modifications to the Saint Lawrence Seaway Tariff of Tolls;

9. Icebreaking: Icebreaking activity is limited to the intermediate pool and approximately three miles above Eisenhower Lock (vicinity of Metropolitan Petroleum Co.) and one-

half mile below Snell Lock (training dike area.)

10. Maintenance dredging: In some areas, the river bottom has high spots caused by silting in from the banks, anchor dragging and/or river current. In these areas, Maintenance dredging is required to maintain our congressionally mandated 27 ft. waterway. No other dredging will be allowed under this category. Our maintenance dredging is performed under specific permit conditions approved by the New York State Department of Environmental Conservation and the U.S. Army, Corps of Engineers.

11. Modifications to and maintenance of lock operating equipment, vessel traffic control equipment, buildings, grounds, floating plant, and existing facilities;

12. Equipment purchases and operating expenses;

13. Grants of leases, licences, permits or easements for use of Corporation-owned property.

c. *Environmental Assessment.* An environmental assessment is a document concisely describing the need for the proposal, the environmental impacts of a proposed action, its alternatives and a list of agencies and persons consulted. If a decision has not been made to prepare an EIS and a proposed action has not been classified as a categorical exclusion, an environmental assessment shall be prepared. The assessment will be the basis for the Corporation's determination to prepare an EIS or to publish a finding of no significant impact (FONSI). (See CEQ 1508.9)

d. *Finding of No Significant Impact (FONSI).* 1. If the environmental assessment reveals that the proposed action will not have a significant impact on the environment, a FONSI shall be prepared and attached to the environmental assessment. The FONSI will not be coordinated outside the Corporation, except as set forth in Paragraph (2) below. Notice of availability will be provided to the public in accordance with CEQ 1506.6.

2. If the proposed action is similar to one which normally requires and EIS, the nature of the action is one without precedent, or the action is likely to have more than minimal impact on properties protected by Section 4 (f) and Section 106 of the Historic Preservation Act or is inconsistent with any Federal, State or local law or administrative determination relating to the environment, a copy of the environmental assessment shall be provided to the Assistant Secretary for Policy and International Affairs (Assistant Secretary), and the documents made available to the public (including state and areawide clearing houses) for a period of 30 days before the FONSI is made and the action is implemented. Consultation with other Federal agencies as suggested in DOT 5610.1C shall be accomplished during the 30-day period.

7. *Corporation Decision Making Procedures.* a. All Office Heads shall forward a description of proposed major programs or actions to the Chief Engineer for review at the time of initial technical studies.

b. All such proposed programs received by the Chief Engineer will be reviewed and a determination made, under these procedures, as to whether the program is one which (1) normally requires an EIS or (2) normally does not require an EIS or an environmental assessment (categorical exclusion). If the action is not covered by either of the foregoing, the Chief Engineer shall prepare an environmental assessment within 30 days of receipt of the document.

8. *Preparation and Processing of Draft Environmental Statements.* a. *Responsibility.* The Chief Engineer is responsible for the preparation and processing of Draft Environmental Impact Statements. Professional services for this preparation may be obtained from other Federal, State, or local agencies, universities, or consulting firms; however, the Chief Engineer must review and evaluate the documents. The Corporation's General Counsel shall review all Corporation environmental statements for legal sufficiency.

b. *Timing.* The Chief Engineer shall commence preparation of the draft EIS at the earliest practical time after receipt of notification of the proposed action and determination that the action will significantly affect the quality of the human environment. As soon as a decision to prepare a draft EIS has been made, the Chief Engineer shall undertake the scoping process identified in CEQ 1501.7. For construction projects directly undertaken by the Corporation, the EIS shall be prepared at the feasibility stage, and supplemented at a later date, if necessary.

c. *Preparation of Draft.* The Corporation will follow the Format and Content shown as Attachment 2 to DOT Order 5610.1C. See also CEQ Part 1502.

d. *Inviting Comments on the Draft EIS.* The Chief Engineer shall circulate the draft EIS for comment to (1) all Federal agencies which have jurisdiction by law or special expertise with respect to the environmental impact involved; (2) interested parties; (3) EPA Office of Federal Activities, and (4) the Assistant Secretary.

9. *Ensuring Environmental Documents are Actually Considered in Agency Decision Making.* Section 1505.1 of the NEPA regulations contains requirements to ensure adequate consideration of environmental documents in agency decision making. To implement these requirements, Corporation officials shall:

1. Consider all relevant environmental documents in evaluating proposals for agency action;

2. Make all relevant environmental documents, comments and responses part of the record in formal rule making or adjudicatory proceedings;

3. Ensure that all relevant environmental documents, comments and responses accompany the proposal through existing agency review processes;

4. Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating proposals for agency action;

5. Where an EIS has been prepared, consider the specific alternatives analyzed in the EIS when evaluating the proposal which is the subject of the EIS.

For each of the Corporation's principal programs, the following chart identifies the point at which the NEPA process begins, the point at which it ends, and the key agency officials or offices required to consider environmental documents in their decision making.

Principal Program	Start of NEPA process	Completion of NEPA process	Key officials or offices required to consider environmental documents
Construction Projects (major, involving sig. disturbances to earth, air or water).	When description of proposed project is received	At the time the Project is approved or denied.	Chief Engineer, General Counsel.

Mitigation measures identified in the EIS will be included in the construction contract with requirement for compliance by the Contractor. This requirement shall be monitored and enforced by the Project Officer for the project.

10. *Citizen Involvement.* As soon as the Chief Engineer decides that an Environmental Statement is to be prepared, the Chief Engineer shall solicit citizen comments by any or all of the following means: conducting hearings, making personal contact with interested parties, issuing press releases, placing notices in newspapers, and publishing a notice of intent in the **Federal Register.** The Chief Engineer shall develop lists of interested parties at the national, state and local levels. Citizen involvement and environmental issues raised in the public commenting process will be documented in the environmental statement. The Chief Engineer shall determine whether a public hearing is required and shall consider the following factors in making this determination: the magnitude of the costs, environmental impact, degree of interest evidenced by the public, the complexity of the issue and the extent to which public involvement has been achieved through other means. If a public hearing is to be held, the Office of the Chief Engineer shall make the draft EIS or environmental assessment available to the public at least 30 days prior to the hearing.

Interested persons may obtain information on Corporation environmental procedures and on the status of EISs issued by the Corporation from the Office of the Chief Engineer, Saint Lawrence Seaway Development Corporation, P.O. Box 520, Massena, New York 13662, telephone 315–764–3254.

11. *Final Environmental Impact Statement.* a. *Preparation.* The draft statement shall be revised as appropriate, reflecting comments received, issues raised, preferred alternatives, and measures to mitigate adverse impacts. The final statement shall reflect consultation and efforts made to resolve issues raised, including an explanation of why any remaining issues have not been resolved.

b. *Legal Review.* All Corporation final environmental statements shall be reviewed for legal sufficiency by the Corporation's General Counsel or his designee. The legal review should be completed within 30 days after receipt of the statement. When the review is complete, the General Counsel will return the statement to the Office of the Chief Engineer for final processing, as outlined in paragraph d. below.

c. *Internal Processing.* Final environmental impact statements may be approved by the Administrator or a designee originating the action, but only after concurrence of the Assistant Secretary. The Assistant Secretary after review of a draft EIS for a proposed action may decide that the final EIS may be processed without prior concurrence. (See DOT 5610.1C, para. 11. d. (6)). Concurrence of both the Assistant Secretary and the DOT General Counsel is required for actions which involve a 4(f) determination.

d. *Final Processing.* Two copies of final environmental statements, together with all comments received on the draft from responsible Federal, State and local agencies and private organizations shall be submitted to the Assistant Secretary, by the Chief Engineer, for concurrence. The final statement may be deemed to be concurred in by the Assistant Secretary unless, within two weeks after its receipt, the Assistant Secretary notifies the Chief Engineer to the contrary or requests an extension of the review period or unless it is a statement including a section 4(f) determination. Final statements for actions with section 4(f) involvement may be deemed concurred in by the Assistant Secretary and the DOT General Counsel after 30 days, unless the Assistant Secretary notifies the Chief Engineer to the contrary or requests an extension of the review period.

e. *Availability pending approval.* Proposed final statements, with a notation that the statement is not approved and filed, should be made available to the public and Federal, State or local agencies prior to final approval and filing with EPA.

f. *Availability of Statements to EPA and the Public.* After approval, copies of final statements shall be transmitted to EPA and commenting agencies and made available to the public as described in DOT 5610.1C, h. and CEQ 1506.9.

g. *Record of Decision.* The Office of the Chief Engineer shall prepare a draft record of decision which shall accompany the proposed final EIS through the approval process (See DOT 5610.1C, paragraph 11.i, and CEQ 1502.2.)

12 *Proposals for Legislation.* An EIS shall be prepared for any Corporation originated legislative proposal or when the Corporation develops the Departmental position on the report on proposed legislation for which DOT is primarily responsible. (See DOT 5610.1C, paragraph 15).

13. *Timing of Corporation Actions.* No decision shall be made on a proposed action sooner than the later of the following dates:

a. Thirty (30) days after a final EIS covering the action has been submitted to EPA, as measured from the date the EPA publishes a notice of the final EIS's availability in the **Federal Register**; or

b. Ninety (90) days after a draft EIS has been made available to the public, as measured from the date the EPA publishes a notice of the draft EIS's availability in the **Federal Register.**

When Corporation officials believe it is necessary to shorten the prescribed time periods for EIS processing, consultation with EPA through the Assistant Secretary is required.

Where emergency circumstances make it necessary to take on action with significant environmental impacts without observing the provisions of this Order, DOT 5610.1C and the CEQ requlations, the Chief Engineer shall consult with CEQ through the Assistant Secretary.

Fiscal Service

[Dept. Circ. 570, 1980 Rev., Supp. No. 24]

Surety Companies Acceptable on Federal Loans

A certificate of authority as an acceptable surety on Federal bonds is hereby issued to the following company under Sections 6 to 13 of Title 6 of the United States Code. An underwriting limitation of $4,695,000 has been established for the company.

Name of Company:
Iowa National Mutual Insurance Company
Business Address:
518 Second Ave., S. E.
Cedar Rapids, Iowa 52406
State of Incorporation:
Iowa

Certificates of authority expire on June 30 each year, unless renewed prior to that date or sooner revoked. The certificates are subject to subsequent annual renewal so long as the companies remain qualified (31 CFR, Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as

to underwriting limitations, areas in which licensed to transact surety business and other information. Federal bond-approving officers should annotate their reference copies of Treasury Circular 570, 1980 Revision, at page 44507 to reflect this addition. Copies of the circular, when issued, may be obtained from the Audit Staff, Bureau of Government Financial Operations, Department of the Treasury, Washington, D.C. 20226.

Dated: May 20, 1981.

W. E. Douglas,

Commissioner, Bureau of Government Financial Operations.

POSTAL SERVICE.

(Board of Governors)

The Board of Governors of the United States Postal Service, pursuant to its Bylaws (39 CFR 7.5) and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives notice that it intends to hold a meeting at 8:00 A.M. on Tuesday, June 2, 1981, in Conference Room 1101, Chicago Main Post Office, 433 West Van Buren Street, Chicago, Illinois. Except as indicated in the following paragraphs, this meeting is open to the public. The Board expects to discuss the matters stated in the agenda which is set forth below. Requests for information about the meeting should be addressed to the Secretary of the Board, Louis A. Cox, at (202) 245–4632.

At its meeting of May 4, 1981, the Board of Governors of the United States Postal Service voted to close to public observation portions of its next meeting which is expected to be attended by the following persons: Governors Babcock, Camp, Ching, Hardesty, Hughes, Hyde, Jenkins and Sullivan; Postmaster General Bolger; Deputy Postmaster General Benson; Secretary to the Board Cox; and Counsel to the Governors Califano.

The closed session will include a briefing on possible deferral of certain capital investments in view of prospective appropriations reductions and other revenue deficiencies. A portion of the meeting to be closed will involve a discussion of a proposed filing with the Postal Rate Commission concerning Red Tag mail. Another portion of the meeting to be closed will involve a continuation of the discussion of the Postal Service's labor relations strategies and positions.

Agenda

1. Minutes of the Previous Meeting.
2. Remarks of the Postmaster General.
   (In keeping with its consistent practice, the Board's agenda provides this opportunity for the Postmaster General to inform the members of miscellaneous current developments concerning the Postal Service. He might report, for example, the appointment or assignment of a key official, or the effect on postal operations of unusual weather or a major strike in the transportation industry. Nothing that requires a decision by the Board is brought up under this item.)
3. Adjustments of Certain Officers Salaries.
   (The Board will discuss adjustments in the compensation of certain officers.)
4. Report of Regional Postmaster General.
   (Mr. Carlin, Regional Postmaster General, will report on postal conditions in the Central Region.)
5. Report of Chief Postal Inspector.
   (The Board will consider a report on the Postal Inspection Service.)
6. Multi-Position Flat Sorting Machine Procurement.
   (The Board will consider a proposed capital investment for the purchase of 166 Model 775 Flat Sorting Machines.)
7. PRC Filing on Proposal for Attached Mailings.
   (The Board will consider a filing with the Postal Rate Commission on the rates to be paid for attached mail, where a host piece is accompanied by a piece or pieces from another class.)
8. Phasing Rates for Bulk or 3rd-Class Non-Profit, Carrier Route Presort Mail.
   (The Governors will consider possible actions in the light of the May 5, 1981, U.S. Court of Appeals (D.C. Circuit) Decision *National Easter Seal Society for Crippled Children and Adults* v. *U.S.P.S.*)
9. Report of Committee on Corporate Responsibility.
   (The Board will discuss the Committee's report in regard to Postal Service policy on equal employment opportunity and affirmative action.)

As stated in the Notice of Meeting, the part of the meeting that includes the

following matters will be closed to public observation.

10. Briefing on Possible Deferral of Capital Items.
(The Board will be briefed on the possible deferral of capital investment projects as a means of dealing with appropriations reductions and other revenue deficiencies.)
11. Red Tag Mail.
(The Board will consider a filing with the Postal Rate Commission on Red Tag mail.
12. Discussion of Labor Relations Strategies and Positions in connection with Anticipated Bargaining Negotiations.
(The Board will continue its discussion of the Postal Service's possible labor relations strategies and positions.)

Louis A. Cox,

Secretary.

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: To be published.

STATUS: Closed meeting/open meeting.

PLACE: Room 825, 500 North Capital Street, Washington, D.C.

DATE PREVIOUSLY ANNOUNCED: May 18, 1981.

CHANGES IN THE MEETING: Rescheduling/additional items.

The following item will not be considered at a closed meeting scheduled for Tuesday, May 26, 1981, at 10:00 a.m., but has been rescheduled for consideration at the closed meeting on Wednesday, May 27, 1981, following the 10:00 a.m. open meeting:

Litigation matter.

The following item will not be considered at the closed meeting scheduled for Wednesday, May 27, 1981:

Institution of injunctive action.

The following additional item will be considered at the open meeting scheduled for Wednesday, May 27, 1981, at 10:00 a.m.:

Consideration of whether to approve an application by the National Association of Investment Clubs for an extension of its exemption from the broker-dealer registration requirement of Section 15(a) of the Securities Exchange Act of 1934. For further information, please contact Joel M. Bludman at (202) 272-2847.

The following additional item will be considered at the closed meeting scheduled for Wednesday, May 27, 1981, following the 10:00 a.m. open meeting:

Litigation matter.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Paul Lowenstein at (202) 272-2468.

May 22, 1981.

Part II

Department of the Interior

Bureau of Land Management

Outer Continental Shelf, Gulf of Alaska; Oil and Gas Lease Sale No. RS-1; Leasing Systems

UNITED STATES
DEPARTMENT OF THE INTERIOR
Bureau of Land Management

Outer Continental Shelf, Gulf of Alaska
Oil and Gas Lease Sale No. RS-1

1. Authority. This notice is published pursuant to the Outer Continental Shelf Lands Act of 1953 (43 U.S.C. 1331-1343), as amended (92 Stat. 629), and the regulations issued thereunder (43 CFR Part 3300).

2. Filing of Bids. Sealed bids will be received by the Manager, Alaska Outer Continental Shelf (OCS) Office, Bureau of Land Management, 620 East 10th Avenue, P.O. Box 1159, Anchorage, Alaska 99510. Bids may be delivered, either by mail or in person, to the above address until June 29, 1981, 4:30 p.m., or by personal delivery to Federal Building, 701 C Street, Room C-117, Anchorage, Alaska, between the hours of 8:30 a.m., a.h.s.t., and 9:30 a.m., a.h.s.t., June 30, 1981. Bids received by the Manager later than the times and dates specified above will be returned unopened to the bidders. Bids may not be modified or withdrawn unless written modification or withdrawal is received by the Manager prior to 9:30 a.m., a.h.s.t., June 30, 1981. All bids must be submitted and will be considered in accordance with applicable regulations, including 43 CFR Part 3300. The list of restricted joint bidders which applies to this sale was published in 46 FR 22270, April 16, 1981.

3. Method of Bidding. A separate bid in a sealed envelope, labeled "Sealed Bid for Oil and Gas Lease (insert number of tract), not to be opened until 10 a.m., a.h.s.t., June 30, 1981," must be submitted for each tract. A suggested form appears in 43 CFR Part 3300, Appendix A. Bidders are advised that tract numbers are assigned solely for administrative purposes and are not the same as block numbers found on official protraction diagrams. All bids received shall be deemed submitted for a numbered tract. Bidders must submit with each bid one-fifth of the cash bonus in cash or by cashier's check, bank draft or certified

check, payable to the order of the Bureau of Land Management. No bid for less than a full tract as described in paragraph 12 will be considered. Bidders submitting joint bids must state on the bid form the proportionate interest of each participating bidder, in percent to a maximum of five decimal places, as well as submit a sworn statement that the bidder is not disqualified under 43 CFR Subpart 3316. The suggested form for this statement to be used in joint bids appears in 43 CFR Part 3300, Appendix B. Other documents may be required of bidders under 43 CFR 3316.4. Bidders are warned against violation of 18 U.S.C. 1860, prohibiting unlawful combination or intimidation of bidders.

4. Bidding Systems. All leases awarded for this sale will provide for a yearly rental of $8 per hectare or fraction thereof. Leases awarded under 4(a) and (c) will provide for a minimum royalty of $8 per hectare or fraction thereof. The following systems will be utilized.

(a) Bonus Bidding with a Fixed Sliding Scale Royalty. Bids on tracts R-55-138, R-55-139, R-55-159, R-55-160, R-55-161, R-55-162, R-55-182, R-55-183, R-55-184, R-55-185, R-55-195, R-55-196, R-55-206, R-55-207, R-55-208, R-55-218, R-55-219, R-55-230, R-55-231, R-55-326, R-55-327, R-55-328, R-55-329, R-55-330, R-55-341, R-55-342, R-55-343, R-55-344, and R-55-345 must be submitted on a cash bonus bid basis with the percent royalty due, in amount or value of production saved, removed or sold, fixed according to the sliding scale formula described below. This formula fixes the percent royalty at a level determined by the value of lease production during each calendar quarter. For purposes of determining the royalty percent due on production during a quarter, the value of production during the quarter will be adjusted for inflation as described below. The determination of the value of the production on which royalty is due will be made pursuant to 30 CFR 250.64.

The fixed sliding scale formula operates in the following way: when the quarterly value of production, adjusted for inflation, is less than or equal to $22.300636 million, a royalty of 16.66667 percent in amount or value of production saved, removed or sold will be due on the unadjusted value or amount of production. When the adjusted quarterly value of production is equal to or greater than $22.300637 million, but less than or equal to $4793.351779 million, the royalty percent due on the unadjusted value or amount of production is given by

$$Rj = b(\ln (Vj/S))$$

where

Rj = the percent royalty that is due and payable on the unadjusted amount or value of all production saved removed or sold in quarter j

b = 9.0

ln = natural logarithm

Vj = the value of production in quarter j, adjusted for inflation, in millions of dollars

S = 3.5

When the adjusted quarterly value of production is equal to or greater than $4793.351780 million, a royalty of 65.00000 percent in amount or value of production saved, removed or sold will be due on the unadjusted quarterly value of production. Thus, in no instance will the quarterly royalty due exceed 65.00000 percent in amount or value of quarterly production saved, removed or sold.

In determining the quarterly percent royalty due, Rj, the calculation will be carried to five decimal places (for example, 18.17612 percent). This calculation will incorporate the adjusted quarterly value of production, Vj, in millions of dollars, rounded to the sixth digit, i.e., to the nearest dollar (for example, 26.372765 millions of dollars).

The form of the sliding scale royalty schedule is illustrated in Figure 1. Note that the effective quarterly royalty rate depends upon the inflation adjusted quarterly value of production. However, this rate is applied to the unadjusted quarterly value of production to determine the royalty payments due.

TABLE 1. HYPOTHETICAL QUARTERLY ROYALTY CALCULATIONS

(A) Actual Value of Quarterly Production (Millions of Dollars)	(B) GNP Fixed Weighted Price Index	(C) Inflation Factor[1]	(D) Adjusted Value of Quarterly Production[2] (Vj, Millions of $)	(E) Percent Royalty Rate (Rj)	(F) Royalty Payment[3] (Millions of Dollars)
10.000000	200.0	4/3	7.500000	16.66667	1.666667
30.000000	200.0	4/3	22.500000	16.74677	5.024031
90.000000	200.0	4/3	67.500000	26.63428	23.970852
270.000000	200.0	4/3	202.500000	36.52179	98.608833
810.000000	200.0	4/3	607.500000	46.40930	375.915330
10.000000	250.0	5/3	6.000000	16.66667	1.666667
30.000000	250.0	5/3	18.000000	16.66667	5.000001
90.000000	250.0	5/3	54.000000	24.62599	22.163391
270.000000	250.0	5/3	162.000000	34.51350	93.186450
810.000000	250.0	5/3	486.000000	44.40101	359.648181

1 Column (B) divided by 150.0 (assumed value of GNP fixed weighted price index at time leases are issued).
2 Column (A) divided by Inflation Factor.
3 Column (A) times Column (E) divided by 100. All values are rounded for display purposes only.

In adjusting the quarterly value of production for use in calculating the percent royalty due on production during the quarter, the actual value of production will be adjusted to account for the effects of inflation by dividing the actual value of production by the following inflation adjustment factor. The inflation adjustment factor used will be the ratio of the GNP fixed weighted price index for the calendar quarter preceding the quarter of production to the value of that index for the quarter preceding the issuance of the lease. The GNP fixed weighted price index is published monthly in the Survey of Current Business by the Bureau of Economic Analysis, U.S. Department of Commerce. The percent royalty will be due and payable on the actual amount or value of production saved, removed, or sold as determined pursuant to 30 CFR 250.64. The timing of procedures for inflation adjustments and determinations of the royalty due will be specified at a later date. Table 1 provides hypothetical examples of quarterly royalty calculations using the sliding scale formula just described under two different values for the quarterly price index.

(b) Bonus Bidding with a Fixed Net Profit Share. Bids on tracts R-55-78, R-55-79, R-55-80, R-55-106, R-55-131, R-55-132, R-55-152, R-55-163, R-55-164, R-55-186, R-55-187, R-55-188, R-55-211, R-55-212, R-55-220, R-55-221, R-55-234, R-55-235, R-55-251, R-55-252, R-55-253, R-55-267, R-55-268, R-55-269, R-55-283, R-55-284, R-55-285, R-55-288, R-55-289, R-55-290, R-55-291, R-55-292, R-55-293, R-55-294, R-55-295, R-55-296, R-55-297, R-55-298, R-55-299, R-55-300, R-55-301, R-55-304, R-55-305, R-55-306, R-55-307, R-55-308, R-55-309, R-55-310, R-55-311, R-55-312, R-55-313, R-55-314, R-55-315, R-55-316, R-55-317, R-55-320, R-55-321, R-55-322, R-55-323, R-55-324, R-55-325, R-55-331, R-55-332,

R-55-333, R-55-335, R-55-336, R-55-337, R-55-338, R-55-339, R-55-340, R-55-346, and R-55-347 must be submitted on a cash bonus basis with a fixed net profit share rate of 40 percent and a 1.5 capital recovery factor. The net profit share payment shall be calculated according to the Department of Energy regulation in 10 CFR 390 (45 FR 36784, May 30, 1980).

(c) Bonus Bidding with a Fixed Constant Royalty. Bids on the remaining tracts must be on a cash bonus basis with a fixed royalty of 16-2/3 percent.

5. Equal Opportunity. Each bidder must have submitted by 9:30 a.m., a.h.s.t., June 30, 1981, the certification required by 41 CFR 60-1.7(b) and Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967, on the Compliance Report Certification Form, Form 1140-8 (November 1973), and the Affirmative Action Representation Form, Form 1140-7 (December 1971). See Section 14 below, "Information to Lessees."

6. Bid Opening. Bids will be opened on June 30, 1981, beginning at 10 a.m., a.h.s.t., at the second address stated in paragraph 2. The opening of the bids is for the sole purpose of publicly announcing and recording bids received and no bids will be accepted or rejected at that time. If the Department is prohibited for any reason from opening any bid before midnight, June 30, 1981, that bid will be returned unopened to the bidder as soon thereafter as possible.

7. Deposit of Payment. Any cash, cashier's checks, certified checks, or bank drafts submitted with a bid may be deposited in a suspense account in the Treasury during the period the bids are being considered. Such a deposit does not constitute and shall not be construed as acceptance of any bid on behalf of the United States.

8. Withdrawal of Tracts. The United States reserves the right to withdraw any tract from this sale prior to issuance of a written acceptance of a bid for that tract.

9. Acceptance or Rejection of Bids. The United States reserves the right to reject any and all bids for any tract. In any case, no bid for any tract will be accepted and no lease for any tract will be awarded to any bidder unless:

(a) The bidder has complied with all requirements of this notice and applicable regulations;

(b) The bid is the highest valid cash bonus bid; and

(c) The amount of the bid has been determined to be adequate by the Secretary of the Interior.

No bid will be considered for acceptance unless it offers a cash bonus in the amount of $62 or more per hectare or fraction thereof.

10. Successful Bidders. Each person who has submitted a bid accepted by the Secretary of the Interior will be required to execute copies of the lease specified below, pay the balance of the cash bonus bid together with the first year's annual rental and satisfy the bonding requirements of 43 CFR Subpart 3318 within the time provided in 43 CFR 3316.5.

11. Protraction Diagrams. Tracts offered for lease may be located on the following official protraction diagrams which are available from the Manager, Alaska Outer Continental Shelf Office, Bureau of Land Management, 620 East 10th Avenue, P.O. Box 1159, Anchorage, Alaska 99510, at $2 each.

(b) Outer Continental Shelf Official Protraction Diagram NO 7-4, Alsek Valley (approved 9/22/75)

12. Tract Descriptions. The tracts offered for bid are as follows:

NOTE--There may be gaps in the numbers of the tracts listed. Some of the blocks identified in the final environmental statement may not be included in this notice. For administrative reasons, the tract prefix has been changed to R-55- from R1-55-, which latter prefix appeared in the Proposed Notice of Sale.

13. Lease Terms and Stipulations. All leases issued as a result of this sale will be for an initial term of 5 years. Leases issued as a result of this sale will be on Form 3300-1 (September 1978), available from the Manager, Alaska Outer Continental Shelf Office, at the address stated in paragraph 2.

(a) For leases resulting from this sale for tracts offered on a cash bonus basis with fixed sliding scale royalty, listed in paragraph 4(a), Form 3300-1 will be amended as follows:

Sec. 6. Royalty on Production. The lessee agrees to pay the lessor a royalty of that percent in amount or value of production saved, removed or sold from the leased area as determined by the sliding scale royalty formula as follows. When the quarterly value of production, adjusted for inflation, is less than or equal to $22.300636 million, a royalty of 16.66667 percent in amount or value of production saved, removed or sold will be due on the unadjusted value or amount of production. When the adjusted quarterly value of production is equal to or greater than $22.300637 million, but less than or equal to $4793.351779 million, the royalty percent due on the unadjusted value or amount of production is given by

$$Rj = b(\ln (Vj/S))$$

where

Rj = the percent royalty that is due and payable on the unadjusted amount or value of all production saved, removed or sold in quarter j

b = 9.0

ln = natural logarithm

Vj = the value of production in quarter j, adjusted for inflation, in millions of dollars

S = 3.5

When the adjusted quarterly value of production is equal to or greater than $4793.351780 million, a royalty of 65.00000 percent in amount or value of production saved, removed or sold will be due on the unadjusted quarterly value of production. Thus, in no instance will the quarterly royalty due exceed 65.00000 percent in amount or value of quarterly production saved, removed or sold.

In determining the quarterly percent royalty due, Rj, the calculation will be carried to five decimal places (for example, 18.17612 percent). This calculation will incorporate the adjusted quarterly value of production, Vj, in millions of dollars, rounded to the sixth digit, i.e., to the nearest dollar (for example, 26.372765 millions of dollars). Gas of all kinds (except helium) is subject to royalty. The lessor shall determine whether production royalty shall be paid in amount or value.

(b) For leases resulting from this sale for tracts offered on a cash bonus basis with a fixed net profit share, listed in paragraph 4(b), Form 3300-1 will be amended as follows:

Sec. 4 Rentals. The phrase "which commences prior to a discovery in paying quantities of oil or gas on the leased area" is hereby deleted and replaced by "which commences prior to the date the first profit share payment becomes due."

Sec. 5. Minimum Royalty. Hereby deleted.

Sec. 6. Royalty on Production. Hereby replaced by Fixed Net Profit Share. The lessee agrees to pay a net profit share rate of 40 percent with a 1.50 capital recovery factor, calculated pursuant to 10 CFR 390.

(c) Except as otherwise noted, the following stipulations will be included in each lease resulting from this sale. In the following stipulations the term DCM refers to the Deputy Conservation Manager, Field Operations, Alaska Region, U.S. Geological Survey and the term Manager refers to the Manager of the Alaska OCS Office of the Bureau of Land Management.

Stipulation No. 1.

If the DCM, having reason to believe that a site, structure, or object of historical or archaeological significance, hereinafter referred to as a "cultural resource", may exist in the lease area, gives the lessee written notice that the lessor is invoking the provisions of this stipulation, the lessee shall upon receipt of such notice comply with the following requirements:

Prior to any drilling activity or the construction or placement of any structure for exploration or development on the lease, including but not limited to, well drilling and pipeline or platform placement, hereinafter in this stipulation referred to as "operation", the lessee shall conduct remote sensing surveys to determine the potential existence of any cultural resource that may be affected by such operations. All data produced by such remote sensing surveys, as well as other pertinent natural and cultural environmental data, shall be examined by a qualified marine survey archaeologist to determine if indications are present suggesting the existence of a cultural resource that may be adversely affected by such lease operation. A report of this survey and assessment prepared by the marine survey archaeologist shall be submitted by the lessee to the DCM and the Manager for review.

If such cultural resource indicators are present, the lessee shall (1) locate the site of such operation so as not to adversely affect the identified location; or (2) establish, to the satisfaction of the DCM, on the basis of further archaeological investigation conducted by a qualified marine survey archaeologist or underwater archaeologist using such survey equipment and techniques as deemed necessary by the DCM either that such operation shall not adversely affect the location identified or that the potential cultural resource suggested by the occurrence of the indicators does not exist.

A report of this investigation prepared by the marine survey archaeologist or underwater archaeologist shall be submitted to the DCM and the Manager, for their review. Should the DCM determine that the existence of a cultural resource which may be adversely affected by such operation is sufficiently established to warrant protection, the lessee shall take no action that may result in an adverse effect on such cultural resource until the DCM has given directions as to its preservation.

The lessee agrees that if any site, structure, or object of historical or archaeological significance should be discovered during the conduct of any operations on the lease area, he shall report immediately such findings to the DCM and make every reasonable effort to preserve and protect the cultural resource from damage until the DCM has given directions as to its preservation.

Stipulation No. 2.

The lessee shall include in any exploration and development plans submitted under 30 CFR 250.34 a proposed environmental training program for all personnel involved in exploration or development activities (including personnel of the lessee's contractors and subcontractors) for review and approval by the DCM. The program shall be designed to inform each person working on the project of specific types of environmental, social, and cultural concerns which relate to the individual's job. The program shall be formulated and implemented by qualified instructors experienced in pertinent fields of study, and shall employ effective methods to insure that personnel understand and use techniques necessary to preserve archaeological, geological, and biological resources including bird and sea mammal rookeries, and insuring avoidance and non-harassment of wildlife resources. - The program shall also be designed to increase the sensitivity and understanding of personnel to community values, customs, and lifestyles in areas in which such personnel will be operating.

The lessee shall also submit for review and approval a continuing technical environmental briefing program for supervisory and managerial personnel of the lessee and its agents, contractors, and subcontractors.

Stipulation No. 3.

Pipelines will be required, (a) if pipeline rights-of-way can be determined and obtained; (b) if laying such pipelines is technically feasible and environmentally preferable; and (c) if, in the opinion of the lessor, pipelines can be laid without net social loss, taking into account any incremental costs of pipelines over alternative methods of transportation and any incremental benefits in the form of increased environmental protection or reduced multiple use conflicts. The lessor specifically reserves the right to require that any pipeline used for transporting production to shore be placed in certain designated management areas. In selecting the means of transportation, consideration will be given to any recommendation of any intergovernmental coordinating committee.

All pipelines, including both flow lines and gathering lines for oil and gas, shall be designed and constructed to provide for adequate protection from water currents, storms, geohazards, and other hazards as determined on a case-by-case basis.

Following the development of sufficient pipeline capacity, no crude oil will be transported by surface vessel from offshore production sites, except in the case of emergency. Determinations as to emergency conditions and appropriate responses to these conditions will be made by the DCM.

Where the three criteria set forth in the first sentence of this stipulation are not met and surface transportation must be employed, all vessels used for carrying hydrocarbons to shore from the leased area will conform with all standards established for such vessels, pursuant to the Ports and Waterways Safety Act of 1972, as amended (46 U.S.C. 391a).

Stipulation No. 4.

(a) Wells: Subsea well-heads and temporary abandonments, or suspended operations that leave protrusions above the sea floor, shall be protected, if feasible, in such a manner as to allow commercial trawl gear to pass over the structure without snagging or otherwise damaging the structure or the fishing gear. Latitude and longitude coordinates of these structures, along with water depths, shall be submitted to the DCM. The coordinates of such structures will be determined by the lessee utilizing state-of-the-art navigation systems with accuracy of at least ± 50 ft. (15.25 m) at 200 mi. (322 kms).

(b) Pipelines: All pipelines, unless buried, including gathering lines, shall have a smooth-surface design. In the event that an irregular pipe surface is unavoidable due to the need for valves, anodes or other protrusions, they shall be shielded in such a manner as to allow trawl gear to pass over the object without snagging or otherwise damaging the structure or the fishing gear.

Stipulation No. 5.

(To be included only in the leases resulting from this sale for the sliding scale royalty tracts listed in paragraph 4 of this notice)

(a) The royalty rate on production saved, removed or sold from this lease is subject to consideration for reduction under the same authority that applies to all other oil and gas leases on the Outer Continental Shelf (30 CFR 250.21). The Director, U.S. Geological Survey, may grant a reduction for only one year at a time and reduction of royalty rates will not be approved unless production has been under way for one year or more.

(b) Although the royalty rate specified in section 6(a) of this lease or as subsequently modified in accordance with applicable regulations and stipulations is applicable to all production under this lease, not more than 16-2/3 percent of the production saved, removed or sold from the lease area may be taken as royalty in amount, except as provided in sec. 15(d): the royalty on any portion of the production saved, removed or sold from the lease in excess of 16-2/3 percent may only be taken in value of the production saved, removed or sold from the lease area.

Stipulation No. 6

No underwater blasting using high velocity explosives for the purposes of seismic exploration may be conducted. As used in this stipulation, "high velocity explosives" are those explosives with a burning rate

greater than 4,500 fps or creating a pressure curve with a sharp spike and rise time of less than 6 milliseconds. This stipulation is intended to protect marine life and the marine environment by precluding the use of conventional, high velocity explosives, such as dynamite, for seismic exploration. The stipulation is not intended to preclude U.S. Geological Survey approval of geophysical energy sources such as air guns, sparkers, sleeve exploders, and similar devices.

Stipulation No. 7

(To be included only in the leases resulting from this sale for the net profit share tracts listed in paragraph 4(b) of this notice).

The net profit share payment specified in Section 6 of this lease may be satisfied in whole or in part by the lessor taking production in amount rather than in value. However, not more than 16-2/3 percent of the production saved, removed, or sold from the lease area may be taken as a net profit share payment in amount, except as provided in Sec. 15(d); additional net profit share payments shall be calculated to include the value of such production in excess of 16-2/3 percent.

14. Information to Lessees. Bidders are advised that during the conduct of all activities related to leases issued as a result of this lease sale, the lessee and its agents, contractors and subcontractors will be subject to the provisions of the Marine Mammal Protection Act of 1972, the Endangered Species Act of 1973, as amended, and International Treaties. The lessee should contact the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service, as appropriate, regarding potential impacts of lease activities with regard to these laws.

To reduce the impacts of aircraft disturbance at seabird colonies and marine mammal rookeries along the coast, a distance of at least one-half mile from the coastline and an altitude of 1,500 feet should be maintained from Yakutat Bay to Dry Bay during the period of May 1 to September 15. To provide similar protection to waterfowl nesting and staging in Yakutat Bay and on the Yakutat forelands, a 1,500-foot altitude should be maintained over these areas during April 1 to October 31. The DCM shall identify the critical areas in the Yakutat forelands to lessees

and operators. The lessee is advised that all violations may be reported to the U.S. Fish and Wildlife Service, National Marine Fisheries Service, or the Alaska Department of Fish and Game, as appropriate, for disposition. Human safety will take precedence over the provisions of these restrictions.

Some of the tracts offered for lease may fall in areas which may be included in fairways, precautionary zones, or traffic separation schemes which may be established, among other reasons, for the purpose of protecting commercial fisheries. Bidders are advised that the United States reserves the right to designate necessary fairways through leased tracts pursuant to the Ports and Waterways Safety Act of 1972, as amended.

Corps of Engineers permits are required for construction of any artificial islands, installations and other devices permanently or temporarily attached to the seabed located on the Outer Continental Shelf in accordance with section 4(e) of the Outer Continental Shelf Lands Act of 1953, as amended.

Bidders are advised that the Departments of the Interior and Transportation have entered into a Memorandum of Understanding, dated May 6, 1976, concerning the design, installation, operation and maintenance of offshore pipelines. Bidders should consult both Departments for regulations applicable to offshore pipelines.

Bidders are also advised that in accordance with sec. 16 of each lease offered at this sale, the lessor may require a lessee to operate under a unit, pooling or drilling agreement, and that the lessor will give particular consideration to requiring unitization in instances where one or more reservoirs underlie two or more leases with either a

different royalty rate or a royalty rate based on a sliding scale, or a fixed net profit share.

Bidders for these tracts should recognize that the Department of Energy is authorized under section 302 (b) and (c) of the Department of Energy Organization Act, to establish production rates for all Federal oil and gas leases.

Revisions of Department of Labor regulations on Affirmative Action requirements for Government Contractors (including lessees) have been assigned a deferred effective date of June 29, 1981, pending review of those regulations (see Federal Register of April 28, 1981, at 46 F.R. 23742). Should those changes become effective at any time before the issuance of leases resulting from this sale, Section 18 of the lease form, Form 3300-1 (September 1978), would be deleted from leases resulting from this sale. In addition, existing stocks of the Affirmative Action Forms described in section 5 of this notice contain language that would be superseded by the revised regulations at 41 CFR 60-1.5(a)(1) and 60-1.7(a)(1) regarding the aggregate value of contracts over a 12-month period (see the Federal Register of December 30, 1980, at 45 F.R. 86231-86232).

Pending the issuance of revised versions of Forms 1140-7 and 1140-8 by the Bureau of Land Management, submission of Form 1140-7 (December 1971) and Form 1140-8 (November 1973) will not invalidate an otherwise acceptable bid, and the revised regulations' requirements will be deemed to be part of the existing Affirmative Action Forms.

15. OCS Orders. Operations on all leases resulting from this sale will be conducted in accordance with the provisions of all Gulf of Alaska Orders, as of their effective date, and any other applicable OCS Order as it becomes effective.

Outer Continental Shelf, Gulf of Alaska

Notice of Leasing Systems, Sale No. RS-1

Sec. 8(a)(8) (43 U.S.C. 1337 (a)(8)) of the Outer Continental Shelf (OCS) Lands Act, as amended, requires that, at least 30 days before any lease sale, a notice be submitted to the Congress and published in the Federal Register:

(A) identifying the bidding systems to be used and the reasons for such use; and

(B) designating the tracts to be offered under each bidding system and the reasons for such designation.

This notice is published pursuant to these requirements.

A. Bidding systems to be used. In OCS Sale No. RS-1, tracts will be offered under the following three bidding systems as authorized by Sec. 8(a)(1) (43 U.S.C. 1337 (a)(1)): (1) bonus bidding with a fixed net profit share on 72 tracts, (2) bonus bidding with a sliding scale royalty on 29 tracts, and (3) bonus bidding with a fixed 16-2/3 percent royalty on 74 tracts.

(1) Bonus Bidding with a Fixed Net Profit Share. This system is authorized by Sec. 8(a)(1)(D) of the OCS Lands Act, as amended. This system was established by Department of Energy (DOE) regulations effective May 14, 1980. OCS Sales A62, 55, and 62 included an offering of a total of 150 tracts under this system. The profit share system designed for this sale may increase competition by generating greater contingency payments to the Government and thereby reducing the initial cash bonus. It may also increase the volume of production, because certain allowable capital costs can be deducted prior to any liability for profit share payments. In addition, the profit share system may foster the development of marginal fields when compared to a royalty system since the Government shares more of the risk and the lessees' incremental costs are lower in the presence of a capital recovery.

A profit share system which uses cash bonus as the bid variable avoids percentage bids at high levels which would make future development either economically inefficient or simply uneconomic. In addition, it is easier to administer and unitize adjacent tracts with similar profit share rates. Furthermore, a fixed profit share better assures that firms who can produce at lower costs are more likely to obtain leases than would be the case if it were possible for less efficient firms to simply bid away higher percentages of lower profits.

Firms will be permitted to recover a factor of 1.50 over their actual allowable costs before any profit share payments are due. The profit share rate selected for this sale is 40 percent. These parameters were selected on the basis of DOE and DOI studies regarding the effect on bonuses, profit-share payments, government receipts, gross production, minimal economic tract sizes, and particularly on the incentive to alter the production profile.

(2) Bonus Bidding with Sliding Scale Royalty. This system is authorized by Sec. (8)(a)(1)(c) of the OCS Lands Act, as amended. The use of the sliding scale royalty system was introduced in OCS Sale 43 (March 28, 1978) and used again in the last 12 OCS lease sales.

The sliding scale is designed to establish higher royalty rates for larger reservoirs with higher production rates. As such, the expected bonus is reduced compared to a fixed one-sixth royalty system. This may improve competition for leases, and also tends to reduce the likelihood of production losses that could result if higher royalty rates are set by other means, such as royalty bidding, prior to reservoir delineation and production. The sliding scale formula provided for Sale RS-1 is based on the current assumed range of costs and well-head prices for this area.

The sliding scale used in Sales 43 and 45 was linear in form. Although this form is easy to describe it has three disadvantages which may affect the

socially optimal level of production. At certain levels of production, a linear schedule causes erratic fluctuations in the royalty charged on increments in output which may lead producers to make socially non-optimal production decisions in order to minimize these royalty impacts on net revenues. Marginal royalty rates also can reach very high levels even though the average rates are low. In addition, because production costs are non-linear it can be shown that the royalty rate schedule should conform more closely to the functional form of these costs in order to minimize production losses from non-development of otherwise profitable tracts.

The fixed sliding scale formula operates in the following way: when the quarterly value of production, adjusted for inflation, is less than or equal to $22.300636 million, a royalty of 16.66667 percent in amount or value of production saved, removed or sold will be due on the unadjusted value or amount of production. When the adjusted quarterly value of production is equal to or greater than $22.300637 million, but less than or equal to $4793.351779 million, the royalty percent due on the unadjusted value is given by the formula

$$Rj = b(Ln\ (Vj/S))$$

Where

Rj = the percent royalty that is due and payable on the unadjusted amount or value of all production saved, removed or sold in quarter j

b = 9.0

Ln = natural logarithm

Vj = the value of production in quarter j, adjusted for inflation, in millions of dollars

S = 3.5

When the adjusted quarterly value of production is equal to or greater than $4793.351780 million, a royalty of 65.00000 percent in amount or value of

production saved, removed or sold will be due on the unadjusted quarterly value of production. Thus, in no instance will the quarterly royalty due exceed 65.00000 percent in amount or value of quarterly production saved, removed or sold.

In adjusting the quarterly value of production for use in calculating the percent royalty due on production during the quarter, the actual value of production will be modified to account for the effects of inflation by dividing the actual value of production by an inflation correction factor. The inflation correction factor used will be the ratio of the GNP fixed weighted price index for the calendar quarter preceding the quarter of production to the value of that index for the quarter preceding the issuance of the lease. The GNP fixed weighted price index is published monthly in the "Survey of Current Business," by the Bureau of Economic Analysis, U.S. Department of Commerce. The percent royalty will be due and payable on the actual amount or value of production saved, removed, or sold.

(3) Bonus Bidding with a 16-2/3 Percent Royalty. This system is authorized by Sec. 8(a)(1)(A) of the OCS Lands Act, as amended. This relatively low royalty rate system has been used extensively since the passage of the OCS Lands Act in 1953 and imposes greater risks on the lessee, but may yield more rewards (i.e., lower contingency payments to the Government) if a commercial field is discovered. The relatively high front-end payments required may encourage rapid exploration. The use of this system will provide data to compare the performance of the alternative systems.

B. Designation of Tracts. The selection of tracts to be offered under the three systems was based on the following factors:

(1) Lease terms on adjacent tracts were considered in order to reduce administrative costs and barriers to unitization, and to enhance orderly development of each field.

(2) A sufficient number of tracts was needed to permit valid statistical analysis while limiting the risks of losses caused by unforeseen problems which could arise in the use of any new bidding system. The number of tracts must also be consistent with the requirements of Sec. 8(a)(5)(B) of the OCS Lands Act, as amended.

(3) The range and distribution of the characteristics of tracts were to be comparable for statistical purposes. Such characteristics include estimated resources, water depth, structure depth, favorable vs. unfavorable location of tracts on structures, and the location of tracts across trends.

The specific tracts to be offered under each system are as follows.

(a) Bonus Bidding with Sliding Scale Royalty—Tracts R-55-138, R-55-139, R-55-159, R-55-160, R-55-161, R-55-162, R-55-182, R-55-183, R-55-184, R-55-185, R-55-195, R-55-196, R-55-206, R-55-207, R-55-208, R-55-218, R-55-219, R-55-230, R-55-231, R-55-326, R-55-327, R-55-328, R-55-329, R-55-330, R-55-341, R-55-342, R-55-343, R-55-344, and R-55-345.

(b) Bonus Bidding with a Fixed Net Profit Share—Tracts R-55-78, R-55-79, R-55-80, R-55-106, R-55-131, R-55-132, R-55-152, R-55-163, R-55-164, R-55-186, R-55-187, R-55-188, R-55-211, R-55-212, R-55-220, R-55-221, R-55-234, R-55-235, R-55-251, R-55-252, R-55-253, R-55-267, R-55-268, R-55-269, R-55-283, R-55-284, R-55-285, R-55-288, R-55-289, R-55-290, R-55-291, R-55-292, R-55-293, R-55-294, R-55-295, R-55-296, R-55-297, R-55-298, R-55-299, R-55-300, R-55-301, R-55-304, R-55-305, R-55-306, R-55-307, R-55-308, R-55-309, R-55-310, R-55-311, R-55-312, R-55-313, R-55-314, R-55-315, R-55-316, R-55-317, R-55-320, R-55-321, R-55-322, R-55-323, R-55-324, R-55-325, R-55-331, R-55-332, R-55-333, R-55-335, R-55-336, R-55-337, R-55-338, R-55-339, R-55-340, R-55-346, and R-55-347.

(c) Bonus Bidding with 16-2/3 Percent Royalty—All remaining tracts.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

Last Listing May 5, 1981

THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 2½ hours) to present:

1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and the Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them, as part of the General Services Administration's efforts to encourage public participation in Government actions. There will be no discussion of specific agency regulations.

WHEN: June 12, 1981, at 9 a.m.

WHERE: Office of the Federal Register, Room 9409, 1100 L Street NW., Washington, D.C.

RESERVATIONS: Call King Banks, Workshop Coordinator, 202–523–5235.

federal register

Friday
May 29, 1981

Highlights

28833 **Extension of Credit to Romania** Presidential determination.

29190 **Social Security** HHS/SSA changes rules for administering the disability determination function. (Part V of this issue)

28885 **Food Stamps** USDA/FNS intends to sponsor demonstration projects on alternative methods of delivering food stamp benefits.

28845 **Occupational Noise Exposure** Labor/OSHA defers the effective date of amendments to the hearing conservation programs.

28845 **Occupational Exposure to Lead** Labor/OSHA defers until 7–1–81, the effective date of new trigger levels for medical removal protection for primary smelters and secondary smelters.

28842 **Occupational Safety and Health** Labor/OSHA revokes walkaround compensation regulation.

28841 **Housing Loans—Elderly and Handicapped** HUD/FHC lowers interest rates.

29220 **Incorporation by Reference** OFR announces final approval of March 31, 1981 extensions. (Part VI of this issue)

CONTINUED INSIDE

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register.**

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

28865 **Regulatory Agenda** DOD/Sec'y.

28895 **Grant Programs—Education** ED invites applicants for new projects under the International Understanding Program.

28892 **Grant Programs—Minority Businesses** Commerce/MBDA seeks applicants for its Specified Consultant Services Program.

28839 **Natural Gas** DOE/FERC publishes incremental pricing acquisition cost threshold prices for the month of June 1981.

29066 **Waste Treatment and Disposal** EPA publishes inventory of open dumps. (Part II of this issue)

29152 **Minimum Wages** Labor/ESA publishes minimum wages for Federal and federally assisted construction. (Part III of this issue)

29176 **Inventions and Patents** Commerce/PTO provides procedures for reexamination of patents. (Part IV of this issue)

28938 **Motor Vehicle** EPA publishes conclusions of the fuel economy retrofit device evaluation for automotive cylinder deactivator system.

28881 **Migratory Birds** Interior/FWS proposes to delete certain import and export permit requirements.

Privacy Act Documents

28949 HHS/PHS
28893 DOD/Navy

29022 **Sunshine Act Meetings**

Title 3—

The President

Presidential Determination No. 81–7 of May 20, 1981

Determination under Section 2(b)(2) of the Export-Import Bank Act of 1945, as amended—Socialist Republic of Romania

Memorandum for the Secretary of State

Pursuant to Section 2(b)(2) of the Export-Import Bank Act of 1945, as amended, I determine that it is in the national interest for the Export-Import Bank of the United States to extend a credit in the amount of $120,742,500 to the Socialist Republic of Romania in connection with its purchase of two nuclear steam turbine generators and related services and spare parts.

On my behalf, please transmit this determination to the Speaker of the House and the President of the Senate.

This determination shall be published in the **Federal Register**.

Rules and Regulations

Federal Register
Vol. 46, No. 103
Friday, May 29, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 910

[Lemon Reg. 307]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period May 31–June 6, 1981. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: May 31, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant," and not a major rule. This regulation is issued under the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1980–81. The marketing policy was recommended by the committee following discussion at a public meeting on July 8, 1980. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

The committee met again publicly on May 26, 1981, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

Forms required for operation under this part are subject to clearance by the Office of Management and Budget and are in the process of reviews. They shall not become effective until such time as clearance by the OMB has been obtained.

Section 910.607 is added as follows:

§ 910.607 Lemon Regulation 307.

The quantity of lemons grown in California and Arizona which may be handled during the period May 31, 1981, through June 6, 1981, is established at 320,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: May 28, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81–16341 Filed 5–28–81; 11:42 am]

BILLING CODE 3410–02–M

7 CFR Part 916

[Nectarine Reg. 13]

Nectarines Grown in California; Grade and Size Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim rule.

SUMMARY: This regulation sets minimum grade and size requirements for shipments of specified varieties of fresh California nectarines for the period June 1, 1981, through August 15, 1981. Such action is designed to promote orderly marketing of suitable quality and sizes of fresh California nectarines in the interest of producers and consumers.

DATE: Interim rule effective June 1, 1981; comments which are received by June 29, 1981 will be considered.

ADDRESS: Send two copies of comments to the Hearing Clerk, United States Department of Agriculture, Room 1077, South Building, Washington, D.C. 20250.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant" and not a major rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would not measurably affect costs for the directly regulated handlers.

This regulation is issued under the marketing agreement, as amended, and Order No. 916, as amended (7 CFR Part 916), regulating the handling of fresh nectarines grown in California. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This action is based upon the recommendations and information submitted by the Nectarine Administrative Committee, established under the order, and upon other information. It is hereby found that this action will tend to effectuate the declared policy of the act.

The committee met on May 7, 1981, to consider supply and market conditions and other factors affecting the need for

regulation. The committee estimates fresh shipments of California nectarines for 1981 at 16,206,000 packages, compared with 15,677,000 packages last season. The committee reports that the 1981 California nectarine crop is sizing normally and is of good quality.

The grade and size requirements are necessary to prevent the shipment of California nectarines of a lower grade or smaller size than specified and are designed to provide ample supplies of good quality fruit in the interest of producers and consumers pursuant to the declared policy of the act.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), and good cause exists for making these regulatory provisions effective as specified in that (1) shipment of the current crop of nectarines is in progress and this regulation should be applicable to all shipments during the season; (2) the current California nectarine regulation (45 FR 32308; 45252) will expire May 31, 1981; (3) the California nectarine regulation was recommended by the committee following discussion at a public meeting; (4) California nectarine handlers have been apprised of these requirements and the effective date; and (5) the requirements are essentially the same as those currently in effect.

Forms required for operation under this part are subject to clearance by the Office of Management and Budget and are in the process of review. They shall not become effective until such time as clearance by the OMB has been obtained.

Therefore, a new § 916.355 is added to read as follows: (§ 916.355 expires August 15, 1981, and will not be published in the annual Code of Federal Regulations).

§ 916.355 Nectarine Regulation 13.

(a) During the period June 1, 1981, through August 15, 1981, no handler shall handle:

(1) Any package or container of any variety of nectarines unless such nectarines meet the requirements of U.S. No. 1 grade: *Provided,* That maturity shall be determined by the application of color standards by variety or such other tests as determined to be proper by the Federal or Federal-State Inspection Service: *Provided further,* That nectarines 2 inches in diameter or smaller, shall not have fairly light colored, fairly smooth scars which exceed the aggregate area of a circle ⅜ inch in diameter, and nectarines larger than 2 inches in diameter shall not have fairly light colored, fairly smooth scars which exceed an aggregate area of a circle ½ inch in diameter: *Provided further,* That an additional tolerance of 25 percent shall be permitted for fruit that is not well formed but not badly misshapen.

(2) Any package or container of Mayred variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 112 nectarines in the lug box;

(ii) Such nectarines in any container when packed other than as specified in subdivision (i) of this subparagraph (2) are of a size that a 16-pound sample, representative of the nectarines in the package or container, contains not more than 105 nectarines.

(3) Any package or container of Aurelio Grand, Mayfair, Maybelle, or Royal Delight variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more thatn 108 nectarines in the lug box;

(ii) Such nectarines in any container when packed other than as specified in subdivision (i) of this subparagraph (3) are of a size that a 16-pound sample, representative of the nectarines in the package or container, contains not more than 98 nectarines.

(4) Any package or container of Apache, Armking, Arm Queen, Crimson Gold, Early Star, Gee Red, June Belle, June Grand, May Grand, Red June, Spring Grand, 73–40, or Zee Gold variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 96 nectarines in the lug box; or

(ii) Such nectarines in any container when packed other than as specified in subdivision (i) of this subparagraph (4) are of a size that a 16-pound sample, representative of the nectarines in the package or container, contains not more than 90 nectarines.

(5) Any package or container of Autumn Grand, Bob Grand, Clinton-Strawberry, Early Sun Grand, Ed's Red, Fairlane, Fantasia, Firebrite, Flamekist, Flavortop, Flavortop I, Gold King, Granderli, Hi-Red, Independence, Kent Grand, Late Le Grand, Le Grand, Moon Grand, Niagara Grand, Red Diamond, Red Free, Red Grand, Regal Grand, Richards Grand, Royal Giant, Royal Grand, Ruby Grand, September Grand, Tasty Free, Tom Grand, Honey Gold, Larry's Grand, Son Red, Spring Red, Star Grand, Summer Grand, Sun Grand, or Sun King variety nectarines unless:

(i) Such nectarines, when packed in molded forms (tray pack) in a No. 22D standard lug box, are of a size that will pack, in accordance with the requirements of a standard pack, not more than 84 nectarines in the lug box; or

(ii) Such nectarines in any container when packed other than specified in subdivision (i) of this subparagraph (5) are of a size that a 16-pound sample, representative of the nectarines in the package or container, contains not more than 75 nectarines.

(b) As used herein, "U.S. No. 1" and "standard pack" mean the same as defined in the United States Standards for Grades of Nectarines (7 CFR 2851.3145–3160); "No. 22D standard lug box" means the same as defined in Section 1380.19(17) of the "Regulations of the California Department of Food and Agriculture."

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: May 27, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81-16235 Filed 5-28-81; 8:45 am]

BILLING CODE 3410-02-M

Rural Electrification Administration

7 CFR Part 1701

Public Information; Appendix A—REA Bulletins

AGENCY: Rural Electrification Administration, USDA.

ACTION: Final rule.

SUMMARY: The Rural Electrification Administration (REA) hereby amends Appendix A—REA Bulletins to provide for a revision of REA Bulletin 40–7, "National Electrical Safety Code—ANSI C2, 1981 Edition." The revision changes the standards to which all REA-financed construction must comply from the 1977 edition of the National Electrical Safety Code to the 1981 edition.

EFFECTIVE DATE: May 19, 1981.

FOR FURTHER INFORMATION CONTACT: James C. Dedman, telephone (202) 447–7040. A Final Impact Statement has been prepared and is available from the Director, Engineering Standards Division, Rural Electrification Administration, Room 1270–S, U.S.

Department of Agriculture, Washington, D.C. 20250.

SUPPLEMENTARY INFORMATION: REA regulations are issued pursuant to the Rural Electrification Act as amended (7 U.S.C. 901 et seq.). REA hereby amends Appendix A–REA Bulletins to provide for a revision of REA Bulletin 40–7, "National Electrical Safety Code—ANSI C2, 1981 Edition." A Notice of Proposed Rulemaking was published in the **Federal Register** on February 3, 1981, Volume 46, No. 22. However, no public comments were received in response to this notice.

This final action has been issued in conformance with Executive Order 12291, Federal Regulation, and has been determined to be "not major."

This program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated: May 19, 1981.

Joe S. Zoller,

Acting Administrator.

[FR Doc. 81-15806 Filed 5-28-81; 8:45 am]

BILLING CODE 3410-15-M

Food Safety and Quality Service

9 CFR Part 331

[Docket Number 81-018F]

Designation of the State of Idaho Under the Federal Meat Inspection Act

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Final rule.

SUMMARY: The Secretary of Agriculture hereby designates the State of Idaho under section 301(c)(3) of the Federal Meat Inspection Act. The Governor of the State of Idaho has advised this Department that the State of Idaho is no longer in a position to continue administering a State meat inspection program after June 30, 1981. Accordingly, effective July 1, 1981, all establishments operating under the Idaho meat inspection program shall be subject to the provisions of titles I and IV of the Federal Meat Inspection Act. By this designation, the U.S. Department of Agriculture, pursuant to law, is assuming the responsibility, previously held by the State of Idaho, of administering the meat inspection program with respect to establishments operating, and intrastate operations and transactions, wholly within that State.

The provisions concerning designated States are found in Part 331, Subchapter A, Chapter III, Title 9 of the Code of Federal Regulations.

EFFECTIVE DATES: Effective date of this notice: May 31, 1981. Effective date of the application of the regulations will be July 1, 1981.

FOR FURTHER INFORMATION CONTACT: Dr. Joe Blair, Director, Federal-State Relations Branch, Field Operations, Meat and Poultry Inspection Program, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–6313.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This final rule is isued in conformance with Executive Order 12291, and has been determined to be not a "major rule." The U.S. Department of Agriculture, pursuant to law, is assuming the responsibility, previously held by the State of Idaho, of administering the meat inspection program with respect to establishments operating, and intrastate operations and transactions, wholly within that State. This action is being taken because the State of Idaho indicated it was no longer in a position to enforce requirements with respect to said establishments at least equal to those imposed under titles I and IV of the Federal Meat Inspection Act. Consequently, it should not result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Effect on Small Entities

Dr. Donald L. Houston, Administrator, Food Safety and Quality Service, has determined that this action will not have a significant impact on a substantial number of small entities. As stated above, the U.S. Department of Agriculture, pursuant to law, is assuming the responsibility, previously held by the State of Idaho, of administering the meat inspection program with respect to establishments operating, and operations and transactions, wholly within that State. This action will affect approximately 75 heretofore State inspected establishments in Idaho, most, if not all, of which may be presumed to be small businesses. However, this is not a substantial number of establishments given the approximately 10,000 small meat establishments nationwide, which are either federally or State inspected. Additionally, the application of certain Federal facility and other requirements to such establishments will be flexible insofar as each facility will be reviewed with regard to the circumstances peculiar to that establishment. Furthermore, it is not anticipated that significant costs will be incurred by these Idaho establishments as a result of this action. Those specific establishments for which some upgrading of facilities is indicated will be provided up to 36 months, in which to make such changes.

Background

The Governor of the State of Idaho has advised this Department that the State of Idaho is no longer in a position to continue administering the State meat inspection program after June 30, 1981, and has requested the Department to assume the responsibility for carrying out the provisions of titles I and IV of the Federal Meat Inspection Act, with respect to establishments within the State at which cattle, sheep, swine, goats, or equines are slaughtered or their carcasses, or parts or products thereof, are prepared for use as human food, solely for distribution within such State, and with respect to intrastate operations and transactions concerning meat products and other articles and animals subject to the Federal Meat Inspection Act, and persons, firms, and corporations engaged therein.

The Secretary heretofore determined that the State of Idaho had developed and activated requirements at least equal to the requirements under titles I and IV of the Federal Meat Inspection Act. However, such titles contemplate a continuous, ongoing program, and in view of the termination date now applicable to the Idaho program, it is hereby determined that Idaho is not effectively enforcing requirements at least equal to those imposed under titles I and IV of the Federal Meat Inspection Act. Therefore, notice is hereby given that the Secretary of Agriculture designates said State under section 301(c)(3) of the Federal Meat Inspection Act.

On July 1, 1981, the provisions of titles I and IV of the Federal Meat Inspection Act shall apply to intrastate operations and transactions in said State and to persons, firms, and corporations engaged therein, to the same extent and in the same manner as if such operations and transactions were conducted in or for "commerce", within the meaning of the Federal Meat Inspection Act, and any establishment

in the State which conducts any slaughtering or preparation of carcasses or parts or products thereof, as described above, must have Federal meat inspection or cease its operations, unless it qualifies for an exemption under section 23(a) or 301(c) of the Federal Meat Inspection Act.

Therefore, the operator of each such establishment who desires to continue any such operations after June 30, 1981, should immediately communicate with the Regional Director for Meat and Poultry Inspection, as listed below, for information concerning the requirements and exemptions under the Act and application for inspection and survey of the establishment: Dr. R. B. Albritton, Acting Director, Western Region, Meat and Poultry Inspection Program, U.S. Department of Agriculture, Building 2C, 620 Central Avenue, Alameda, California 94501, (415) 273–7402.

Accordingly, Part 331 is amended as follows:

1. The authority citation for Part 331 reads as follows:

Authority: Secs. 21 and 301, 81 Stat. 584, 588, 592, 593, 595; 21 U.S.C. 621, 661.

§ 331.2 [Amended]

2. The table in § 331.2 of the Federal meat inspection regulations (9 CFR 331.2) is amended as follows:

In the "State" column, "Idaho" is added immediately below "Guam".

In the "Effective date of application of Federal provisions" column, "July 1, 1981," is added on the line with "Idaho".

Dr. Donald L. Houston, Administrator, Food Safety and Quality Service, has determined that it is necessary to designate the State of Idaho immediately, in accordance with section 301(c) of the Federal Meat Inspection Act, in order to carry out the Secretary's responsibilities under the Act.

Therefore, it does not appear that additional relevant information would be made available to the Secretary by public participation in this rulemaking proceeding. Accordingly, under the administrative procedures provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedures are impracticable and contrary to public interest.

Done at Washington, DC, on: May 6, 1981.

Donald L. Houston,

Administrator, Food Safety and Quality Service.

[FR Doc. 81-16148 Filed 5-28-81; 8:45 am]

BILLING CODE 3410-DM-M

NUCLEAR REGULATORY COMMISSION

10 CFR Part 50

Emergency Planning; Correction.

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule; correction.

SUMMARY: The Commission is making two minor corrections to its emergency planning rules that appeared in the **Federal Register** of Tuesday, August 19, 1980 [45 FR 55402]. The two corrections are designed to bring the language of the rule into conformity with the Commission's intent.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Mark E. Chopko, Attorney, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555, 202–634–3224.

SUPPLEMENTARY INFORMATION: In approving the text of the final rules on emergency planning on July 23, 1980, the Commission gave considerable attention to whether the overall standard to be used in judging emergency preparedness should be "whether the state of onsite and offsite emergency preparedness provides reasonable assurance that *appropriate* protective measures can and will be taken in the event of a radiological emergency" or some other standard. *See* SECY–80–275, Encl. B at 1, Vol. 14 of Administrative Record of Emergency Planning Rulemaking (PR–50 (44 FR 75167)) [emphasis added]. After extensive debate, the Commission settled upon "adequate" instead of "appropriate." The final rule, with two inadvertent exceptions, reflects that change. 45 FR 55402 (August 19, 1980), Transcript of July 23, 1980 Meeting, 20–48 (Vol. 9 of Record, *supra*). As the record makes clear, the Commission specifically intended in its public deliberations that the word "appropriate" was to be changed accordingly, especially in the rules. *Id.* at 47–48, 123–124. Indeed, the Supplementary Information uses the intended formulation "adequate protective measures" with respect to both new licenses and operating facilities in describing the final rules. 45 FR at 55403. However, one passage in 10 CFR 50.54(s)(2) [45 FR at 55410] and one passage in Appendix E, § III [45 FR at 55411] had been inadvertently overlooked in editing the final rule for publication last July. These minor corrections will conform the passages noted to the Commission's intent by replacing "appropriate" with "adequate" in the phrase "reasonable assurance that . . . protective measures can and will be taken" in 10 CFR 50.54 and making a similar change in Appendix E, § III.

Because the change is of a minor nature to conform the rules to the Commission's intent as stated in the public record of the rulemaking and does not signal any change in the standards applied under the rule or any other change in NRC practice, the Commission finds good cause to publish the rule without advance notice and public comment thereon as unnecessary. For the same reasons, these corrections shall be effective as a final rule upon publication in the **Federal Register.**

Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and sections 552 and 553 of Title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Part 50, are published as documents subject to codification:

1. Section 50.54 is amended by revising paragraph (s)(2) as follows:

§ 50.54 Conditions of licenses.

* * * * *

(s) * * *

(2) For operating power reactors, the licensee, State, and local emergency response plans shall be implemented by April 1, 1981, except as provided in Section IV, D.3 of Appendix E of this Part. If, after April 1, 1981, the NRC finds that the state of emergency preparedness does not provide reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency and if the deficiencies are not corrected within four months of that finding, the Commission will determine whether the reactor shall be shut down until such deficiencies are remedied or whether other enforcement action is appropriate. In determining whether a shutdown or other enforcement action is appropriate, the Commission shall take into account, among other factors, whether the licensee can demonstrate to the Commission's satisfaction that the deficiencies in the plan are not significant for the plant in question, or that adequate interim compensating actions have been or will be taken promptly, or that there are other compelling reasons for continued operation.

2. Part 50, Appendix E is amended by revising the heading, and also revising the second paragraph of paragraph III, as follows [footnotes omitted]:

Appendix E—Emergency Planning and Preparedness for Production and Utilization Facilities

* * * * *

III. The Final Safety Analysis Report

* * * * *

The plans submitted must include a description of the elements set out in Section IV for the Emergency Planning Zones (EPZs) to an extent sufficient to demonstrate that the plans provide reasonable assurance that adequate protective measures can and will be taken in the event of an emergency.

(Sec. 161b., i., and o., Pub. L. 83–703, 68 Stat. 948 (42 U.S.C. 2201); Sec. 201, as amended, Pub. L. 93–438, 88 Stat. 1242, Pub. L. 94–79, 89 Stat. 413 (42 U.S.C. 5341))

Dated at Washington, DC, this 22d day of May, 1981.

For the Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

[FR Doc. 81-16145 Filed 5-28-81; 8:45 am]

BILLING CODE 7590-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 282

[Docket No. RM79–14]

Order of the Director, OPPR of Publication of Incremental Pricing Acquisition Cost Thresholds Under Title II of the NGPA

AGENCY: Federal Energy Regulatory Commission.

ACTION: Order prescribing incremental pricing thresholds.

SUMMARY: The Director of the Office of Pipeline and Producer Regulation is issuing the incremental pricing acquisition cost thresholds prescribed by Title II of the Natural Gas Policy Act and 18 CFR 282.304. The Act requires the Commission to compute and publish the threshold prices before the beginning of each month for which the figures apply. Any cost of natural gas above the applicable threshold is considered to be an incremental gas cost subject to incremental pricing surcharging.

EFFECTIVE DATE: June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Kenneth A. Williams, Federal Energy Regulatory Commission, 825 N. Capitol Street, NE., Washington, D.C. 20426, (202) 357–8500.

Order of the Director, OPPR

Issued: May 22, 1981

Publication of prescribed incremental pricing acquisition cost threshold of the NGPA of 1978. Docket No. RM79–14.

Section 203 of the NGPA requires that the Commission compute and make available incremental pricing acquisition cost threshold prices prescribed in Title II before the beginning of any month for which such figures apply.

Pursuant to that mandate and pursuant to § 375.307(1) of the Commission's regulations, delegating the publication of such prices to the Director of the Office of Pipeline and Producer Regulation, the incremental pricing acquisition cost threshold prices for the month of June 1981, is issued by the publication of a price table for the applicable month.

Kenneth A. Williams,

Director, Office of Pipeline and Producer Regulation.

Table I.—*Incremental pricing acquisition cost threshold prices*

	Calendar year 1980												Calendar year 1981					
	January	February	March	April	May	June	July	August	September	October	November	December	January	February	March	April	May	June
Incremental pricing threshold	$1.702	$1.736	$1.750	$1.762	$1.776	$1.790	$1.804	$1.819	$1.834	$1.849	$1.863	$1.877	$1.891	$1.906	$1.925	$1.942	$1.954	$1.967
NGPA section 102 threshold	2.358	2.381	2.404	2.428	2.453	2.478	2.504	2.532	2.560	2.588	2.614	2.640	2.667	2.696	2.729	2.761	2.787	2.813
NGPA section 109 threshold	1.786	1.799	1.812	1.825	1.839	1.853	1.867	1.883	1.899	1.915	1.929	1.943	1.957	1.975	1.993	2.011	2.024	2.037
130% of No. 2 fuel oil in New York City threshold	7.170	7.280	7.410	7.110	7.380	8.040	7.840	7.380	7.400	7.400	7.450	7.580	7.610	[1]7.960	8.260	9.010	9.510	9.430

[1] The $7.960 figure reflects the correct pricing threshold for high cost natural gas, effective February 1, 1981.

BILLING CODE 6450-85-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 145

[Docket No. 76P-0026]

Canned Pineapple; Amendment of Standard of Identity; Confirmation of Effective Date

AGENCY: Food and Drug Administration.

ACTION: Final Rule; Confirmation of Effective Date.

SUMMARY: The Food and Drug Administration (FDA) confirms the effective date for compliance with the amendment to the standard of identity for canned pineapple to provide for previously canned pineapple as an optional ingredient.

DATE: Effective July 1, 1983, for all affected products initially introduced or initially delivered for introduction into interstate commerce on or after this date. Voluntary compliance may have begun July 29, 1980.

FOR FURTHER INFORMATION CONTACT: F. Leo Kauffman, Bureau of Foods (HFF–214), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–245–1164.

SUPPLEMENTARY INFORMATION: FDA published a final rule in the **Federal Register** of July 10, 1979 (44 FR 40276) amending the U.S. standard of identity for canned pineapple. That standard required, in part, that canned pineapple be prepared from fresh pineapple. Except for provisions that may have been subsequently stayed by the filing of proper objections, the final rule had an effective date of July 1, 1981.

After considering the objections and requests for a hearing received, in the **Federal Register** of June 27, 1980 (45 FR 43389), FDA confirmed the July 1, 1981 effective date for compliance with all provisions of the amended U.S. standard of identity except for a further amendment of § 145.180(a)(1) (21 CFR 145.180(a)(1)) to provide for previously

canned pineapple as an optional ingredient. Any person who would be adversely affected by the further amendment could have, at any time on or before July 28, 1980, filed written objections and requested a hearing. No objections or requests for a hearing were filed.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 401, 701(e), 52 Stat. 1046 as amended, 70 Stat. 919 as amended (21 U.S.C. 341, 371(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), notice is given that 21 CFR 145.180(a)(1), as amended in the **Federal Register** of June 27, 1980 (45 FR 43389), will become effective July 1, 1983. Voluntary compliance may have begun July 29, 1980.

Dated: May 20, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Pyrantel Tartrate

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration amends the animal drug regulations to reflect approval of a new animal drug application (NADA) filed for Cadco, Inc., providing for safe and effective use of 9.6- and 19.2-gram-per-pound pyrantel tartrate premixes for making complete swine feeds.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Charles E. Haines, Bureau of Veterinary Medicine (HFV-138), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3410.

SUPPLEMENTARY INFORMATION: Cadco Inc., P.O. Box 3599, Des Moines, IA 50322 is the sponsor of NADA 119-062 submitted on its behalf by Pfizer, Inc. The NADA provides for use of premixes containing 9.6 and 19.2 grams of pyrantel tartrate per pound for making complete swine feeds used (1) as an aid in prevention of migration and establishment of large roundworm (*Ascaris suum*) infections, (2) as an aid in prevention of establishment of nodular worm (*Oesophagostomum*) infections, and (3) for removal and control of large roundworm (*Ascaris suum*) and nodular worm (*Oesophagostomum*) infections.

Approval of this application relies on safety and effectiveness data contained in Pfizer's approved NADA 43-290. Use of the data in NADA 43-290 to support this application has been authorized by Pfizer. This approval does not change the approved use of the drug. Consequently, approval of this NADA poses no increased human risk from exposure to residues of the animal drug, nor does it change the conditions of the drug's safe use in the target animal species. Accordingly, under the Bureau of Veterinary Medicine's supplemental approval policy, published in the **Federal Register** of December 23, 1977 (42 FR 64367), the approval of this NADA has been treated as would an approval of a Category II supplement and did not require reevaluation of the safety and effectiveness data in NADA 43-290.

The agency has determined pursuant to 21 CFR 25.24(d)(1)(i) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

In accordance with the freedom of information provisions of 21 CFR Part 20 and 21 CFR 514.11(e)(2)(ii), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))), and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) (formerly 21 CFR 5.1, see 46 FR 26052; May 11, 1981), and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Part 558 is amended in § 558.485 by adding paragraph (a)(8) to read as follows:

§ 558.485 Pyrantel tartrate.

(a) * * *

(8) To 011490: 9.6 and 19.2 grams per pound, paragraph (e)(1) through (3) of this section.

* * * * *

Effective date. May 29, 1981.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: May 20, 1981.

Gerald B. Guest,

Acting Director, Bureau of Veterinary Medicine.

[FR Doc. 81-15725 Filed 5-28-81; 8:45 am]

BILLING CODE 4110-03-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Parts 1301, 1303, 1304, 1308, 1311 and 1312

Change of Address and Nomenclature Changes

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Final rule.

SUMMARY: This final rule changes office designations and addresses which are currently listed in 21 CFR Part 1300 to End to accurately reflect changes in the Drug Enforcement Administration's organizational structure. No substantive changes in any of the regulations are included in this action. Therefore no comments are solicited and this action is issued as a final rule.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Howard McClain, Jr., Chief, Regulatory Control Division, Drug Enforcement Administration, Washington, D.C. 20537; Telephone: (202) 633-1366.

SUPPLEMENTARY INFORMATION: Sections of 21 CFR Part 1300 to End make reference to the Distribution Audit Branch of DEA as the designated office to which various documents should be sent. Reorganizations within DEA have transferred the function of the Distribution Audit Branch to other elements of the agency. In order to

ensure that the applications, reports and other correspondence required by the regulations in 21 CFR Part 1300 to End reach their proper destination as expeditiously as possible, certain of the DEA office designations must be changed. Additionally, the Department of Health, Education and Welfare has been renamed the Department of Health and Human Services, thus requiring a nomenclature change to any reference to this Department in 21 CFR Part 1300 to End.

Therefore, under the authority vested in the Attorney General by sections 301 and 501(b) of the Act (21 U.S.C. 821 and 871(b)), and delegated to the Administrator of the Drug Enforcement Administration by regulations of the Department of Justice (28 CFR 0.100), the Administrator hereby orders that Title 21 of the Code of Federal Regulations, Part 1300 to End be amended as follows:

§ 1301.26 [Amended]

21 CFR 1301.26(e) is amended by removing the words "Distribution Audit Branch" and inserting, in their place, the words "Compliance Division."

§ 1301.71 [Amended]

21 CFR 1301.71(d) is amended by removing the words "Compliance Investigations Division" and inserting, in their place, the words "Compliance Division."

§§ 1303.12, 1303.22, 1303.27, 1304.35 and 1308.24 [Amended]

21 CFR 1303.12 (b) and (d), 1303.22, 1303.27, 1304.35(a) and 1308.24(d) are amended by removing the words "Distribution Audit Branch" and inserting, in their place, the words "Regulatory Control Division."

§ 1304.37 [Amended]

21 CFR 1304.37(a) is amended by removing the words "Distribution Audit Branch, Drug Enforcement Administration, Department of Justice, Washington, D.C. 20537" and inserting, in their place, the words "ARCOS Unit, P.O. Box 28293, Central Station, Washington, D.C. 20005."

§§ 1304.37, 1308.39 and 1304.41 [Amended]

21 CFR 1304.37(b), 1304.39(d) and 1304.41(d) are amended by removing the words "Distribution Audit Branch" and inserting, in their place, the words "ARCOS Unit."

§ 1304.42 [Amended]

21 CFR 1304.42(a) is amended by removing the words "Regulatory Investigations Section" and inserting, in their place, the words "Regulatory Control Division."

§ 1308.04 [Amended]

21 CFR 1308.04(a) is amended by removing the words "Assistant Director for Scientific Support, Attention: Label Project, Drug Enforcement Administration, Department of Justice, Washington, D.C. 28083" and inserting, in their place, the words "Regulatory Support Division, Attention: Project Label, Drug Enforcement Administration, Department of Justice, Washington, D.C. 20537."

§ 1308.23 [Amended]

21 CFR 1308.23(b) is amended by removing the ZIP code number "28083" and inserting, in its place, the number "20537."

§ 1301.74 [Amended]

21 CFR 1301.74(k) is amended by removing the words "Secretary of Health, Education, and Welfare" and inserting, in their place, the words "Secretary of Health and Human Services."

§§ 1311.53 and 1312.15 [Amended]

21 CFR 1311.53(c) and 1312.15(b) are amended by removing the word "Bureau" and inserting, in its place, the word "Administration."

Peter B. Bensinger,

Administrator, Drug Enforcement Administration.

May 20, 1981.

BILLING CODE 4410-09-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 885

[Docket No. R-81-897]

Loans for Housing for the Elderly or Handicapped (Interest Rate Determination)

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Final rule.

SUMMARY: This rule changes the formula by which the interest rates for direct loans for housing for the elderly or handicapped will be calculated. The effect of this change will be lower interest rates.

Experience indicates that the level of default and resulting administrative costs for these loans are quite low. Accordingly, the Secretary has determined to reduce the charge for administrative costs and probable losses for purposes of establishing the interest rates for Section 202 loans. Instead of the present charge of 1 percent per annum during the construction period and ½ of 1 percent per annum during the permanent loan period; the charge will be ¼ of 1 percent per annum for both periods.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: George O. Hipps, Jr., Director, Office of Multifamily Housing Development, 451 7th Street SW., Room 6128, Washington, D.C. 20410, telephone (202) 755-5720. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Section 202 of the National Housing Act authorizes loans to encourage construction of housing for the elderly and handicapped. The interest rate for these loans is based on two factors: (1) a rate determined by the Secretary of the Treasury, taking into account the average interest rate on all interest-bearing obligations of the United States forming a part of the public debt and computed as of the end of the preceding fiscal year, and (2) a charge for administrative costs and probable losses determined by the Secretary of HUD.

Because of the remedial nature of the section 202 interest rate change and in order to avoid further delay in processing projects presently in development, the Department has determined that there is good cause for making this Rule effective as soon as possible.

The Catalog of Federal Domestic Assistance Program title and number is Housing for the Elderly or Handicapped, 14.157.

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations in 24 CFR Part 50, which implement section 102(2)(c) of the National Environmental Policy Act of 1969. The Finding of No Significant Impact is available for public inspection during regular business hours at the Office of the Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. In addition, the Chairmen and Ranking Minority Members of the Committee on Banking, Housing, and Urban Affairs of the Senate and the Committee on Banking, Finance and Urban Affairs of the House of Representatives have waived the delay of effective date required by

section 7(o)(3) of the Department of Housing and Urban Development Act.

Pursuant to section 605(b) of the Regulatory Flexibility Act, the undersigned hereby certifies that this rule does not have a significant economic impact on a substantial number of small entities.

Accordingly, 24 CFR 885.410(g) (1) and (2) is revised to read as follows:

§ 885.410 Amount and terms of financing.

* * * * *

(g) The loan shall bear interest at a rate established by the Secretary by adding:

(1) A rate determined by the Secretary of the Treasury to be the average interest rate on all interest-bearing obligations of the United States then forming a part of the public debt computed at the end of the fiscal year immediately prior to the date on which the loan is made; plus

(2) An allowance to cover administrative costs and probable losses under the program, which allowance has been determined by the Secretary of HUD to be one-fourth of one percent (.25%) per annum for both the construction and permanent loan periods.

* * * * *

(Sec. 202, Housing Act of 1959 (12 U.S.C. 1701q); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)))

Issued at Washington, D.C., April 27, 1981.

Philip D. Winn,

Assistant Secretary for Housing—Federal Housing Commissioner.

[FR Doc. 81-16094 Filed 5-28-81; 8:45 am]

BILLING CODE 4210-01-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1903

[Docket No. W-005A]

Revocation of Walkaround Compensation Regulation

AGENCY: Occupational Safety and Health Administration (OSHA), Department of Labor.

ACTION: Revocation of a regulation.

SUMMARY: This document revokes 29 CFR 1903.8(e), a regulation scheduled to become effective on May 30, 1981, which requires employers to compensate employee representatives who accompany OSHA inspectors during inspections ("walkarounds") and employees who engage in other inspection-related activities. The agency has concluded that the record does not establish that the regulation is necessary in order for the Secretary to conduct effective compliance inspections.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. H. Berrien Zettler, Office of Field Coordination, Occupational Safety and Health Administration, Room N-3603, U.S. Department of Labor, Washington, D.C. 20210 (Tel. 202-523-7725).

SUPPLEMENTARY INFORMATION:

I. Background

A. Introduction

On January 16, 1981, the Occupational Safety and Health Administration ("OSHA") promulgated a walkaround compensation regulation requiring employers to compensate employee representatives who participate in OSHA walkaround inspections and employees who engage in related activities, such as speaking with OSHA compliance officers during inspections. 46 FR 3852. The regulation was scheduled to go into effect on February 17, 1981, but on February 6, 1981, the effective date was delayed until March 30, 1981. Subsequently, the President issued Executive Order 12291, 46 FR 13193 (February 19, 1981), which, in part, required agencies to review regulations promulgated but not in effect as of the date of the order. Pursuant to that order, on March 27, 1981, OSHA published in the **Federal Register** a notice which further delayed the effective date of the walkaround compensation regulation until May 30, 1981, and proposed to revoke the regulation. 46 FR 18999.

The agency invited the public to submit written data, views, and arguments with respect to the proposed revocation and all issues involved therein. Comments were to be postmarked on or before April 30, 1981. The agency has received a number of comments from businesses, unions, trade associations, public interest groups and others. All timely submissions were made part of the record and were duly considered. In addition all comments and exhibits previously submitted on the regulation were re-evaluated and reconsidered.

B. Statutory Framework

Section 8(a) of the Occupational Safety and Health Act of 1970, 29 U.S.C. 651 *et. seq.* (the "Act" and the "OSH Act") authorizes the Secretary of Labor ("Secretary") to conduct inspections and investigations of workplaces in order to determine whether or not violations of the Act are present. With respect to inspections section 8(e) of the Act provides:

> Subject to regulations issued by the Secretary, a representative of the employer and a representative authorized by his employees shall be given an opportunity to accompany the Secretary or his authorized representative during the physical inspection of any workplace under subsection (a) for the purpose of aiding such inspection. Where there is no authorized employee representative, the Secretary or his authorized representative shall consult with a reasonable number of employees concerning matters of health and safety in the workplace.

In addition section 8(g)(2) of the Act provides:

> The Secretary and the Secretary of Health, Education and Welfare shall each prescribe such rules and regulations as he may deem necessary to carry out their responsibilities under this Act, including rules and regulations dealing with the inspection of an employer's establishment.

C. History of Walkaround Compensation Regulation

In 1973, the Assistant Secretary of Labor for Occupational Safety and Health, relying in part upon the Solicitor of Labor's opinion that walkaround time was not "hours worked" under the minimum wage and overtime provisions of the Fair Labor Standards Act ("FLSA"), 29 U.S.C. 203(o) (1976), concluded that an employer's failure to pay employees for the time spent with the OSHA inspector was not a *per se* violation of section 11(c) of the Act. *See* 28 FR 2684 (January 29, 1973) (codified at 29 CFR 1977.21(a)) (1975). Generally, that section provides that no person may discharge or discriminate against any employee because of the employee's exercise of his rights under the Act.

In 1974, a federal district court upheld the Department of Labor's interpretation in a civil action brought by employees to recover wages lost because of participation in an OSHA inspection. *Leone* v. *Mobil Oil Corp.*, 377 F. Supp. 1302 (D.D.C. 1974), *aff'd* 523 F.2d 1153 (D.C. Cir. 1975). In 1975, the U.S. Court of Appeals for the District of Columbia Circuit affirmed the district court's decision and held that because walkaround time primarily benefits employees and because the walkaround is conducted beyond the employer's control, walkaround time does not constitute "hours worked" under the FLSA. *Leone, supra*, 523 F.2d 1153, 1163-64. Furthermore, the court held that a walkaround payment requirement could not be inferred from the provisions of the Occupational Safety and Health Act. *Id.* at 1159-61.

In 1977, the Solicitor of Labor re-evaluated the original legal position and in September 1977, issued a new opinion which stated that walkaround time was "hours worked" under the FLSA, that an employer's failure to pay employees for that time chilled the exercise of the employees' walkaround right, and that therefore the failure to pay was discrimination prohibited by section 11(c)(1) of the Act. On September 20, 1977, the Assistant Secretary promulgated a rule declaring that "an employer's failure to pay employees for time during which they are engaged in walkaround inspections is discriminatory under section 11(c)." 42 FR 47344. Because the rule was considered "an interpretive rule and general statement of policy," 42 FR 47344, public participation was not provided in accordance with the provisions of the Administrative Procedure Act ("APA"). 5 U.S.C. 553.

In 1978, a federal district court, in an action challenging the validity of the new regulation, concluded that the regulation was interpretive and therefore exempt from the notice-and-comment procedures of the APA. *Chamber of Commerce of the United States of America* v. *OSHA*, 465 F. Supp. 10 (D.D.C. 1978), *rev'd* 636 F.2d 464 (D.C. Cir. 1980). The court helt that OSHA did not exceed its statutory authority in issuing the new regulation. On appeal, the U.S. Court of Appeals for the District of Columbia Circuit reversed the judgment of the district court and remanded the case to that court with instructions to vacate the regulation. *Chamber of Commerce of the United States of America* v. *OSHA*, 636 F.2d 464 (D.C. Cir. 1980). The Court of Appeals held that walkaround time did not constitute "hours worked" within the meaning of the FLSA because the employer did not select or regulate the employee representative during the walkaround, nor was the employer the primary beneficiary of the walkaround. The court also held that the Act itself neither prohibited nor compelled pay for walkaround time. Therefore, according to the court, the regulation was not interpretive but legislative. Because OSHA did not comply with the notice-and-comment procedures of the APA for the promulgation of legislative rules, the court concluded that the walkaround pay regulation was invalid and should be vacated.

On remand, the district court vacated the regulation. On October 31, 1980, the Assistant Secretary deleted the regulation, 45 FR 72118, and instructed OSHA field staff to cease enforcing its provisions.

On November 14, 1980, the Assistant Secretary proposed regulations requiring walkaround compensation. 45 FR 75232. The agency invited the public to submit written data, views, and arguments on the proposed regulations by December 29, 1981. Many comments were received. On January 16, 1981, the Assistant Secretary promulgated a walkaround compensation regulation at 29 CFR 1903.8(e). It was scheduled to become effective on February 17, 1981.

On January 29, 1981, the President issued a memorandum requiring agencies to delay for sixty days the effective date of regulations which had been promulgated and which were scheduled to become effective within sixty days from the date of the memorandum. 46 FR 11227. Pursuant to that memorandum, on February 6, 1981, the Acting Secretary of Labor delayed the effective date of the OSHA walkaround compensation regulation until March 30, 1981. 46 FR 11253. On February 17, 1981, the President issued Executive Order 12991, 46 FR 13193, which required agencies to review regulations promulgated but not in effect as of the date of the order. In reviewing regulations agencies were required, to the extent permitted by law, to base administrative decisions ". . . on adequate information concerning the need for and consequences of proposed government action" [section 2(a)] and not to undertake regulatory action "* * * unless the potential benefits to society for the regulation outweigh the potential costs to society" [section 2(b)], *inter alia*.

Pursuant to that executive order, on March 27, 1981, OSHA published in the **Federal Register** a notice which delayed the effective date of the walkaround compensation regulation until May 30, 1981, and proposed to revoke the regulation. 46 FR 18999. The agency invited the public to submit written comments with respect to the proposed revocation by April 30, 1981. A number of comments were received and they, as well as the comments and exhibits previously submitted on the regulation, were considered.

II. Basis and Purpose of the Revocation

A. Introduction

On the basis of a careful re-evaluation of the previous record and consideration of the new comments, the Secretary has determined that the walkaround compensation regulation is not necessary to carry out his responsibilities under the Act. Therefore, pursuant to sections 8(e) and 8(g)(2) of the Act, the Secretary revokes the regulation.

The rule, when promulgated, was based primarily on the theory that failure to compensate for time spent on the walkaround would chill employee participation in the inspection process. However, on the basis of the record, the agency finds that a walkaround compensation regulation would have only a negligible effect on the number of employees who participate in OSHA inspections and on the Secretary's enforcement efforts. As noted in the January 16, 1981 **Federal Register**, a considerable number of inspections are conducted in establishments in which there are no employee representatives and the OSHA inspector consults with a reasonable number of employees, in accordance with Section 8(e). *See* 46 FR 3588. In those cases in which an employee representative accompanies the OSHA inspector on the walkaround, the record indicates that the vast majority of representatives are in fact compensated for their time. Furthermore, in those cases in which compensation is not available, the record does not establish that the lack of pay operates as a significant disincentive to employee participation. Thus, it appears that a walkaround compensation regulation will encourage only a few employee representatives to participate in the walkaround. And, even where there is no walkaround representative, in accordance with the requirements of Section 8(e), the compliance officer consults with individual employees at the worksite. In view of its minimal impact on employee participation and on the Secretary's ability to effectively enforce the Act, the agency finds that the regulation is not a necessary exercise of his rulemaking authority.

B. Current Walkaround Compensation Practices

The record establishes that the vast majority of employee representatives are in fact compensated for time spent on walkaround. Throughout its ten-year enforcement history, the agency has found that a substantial percentage of employee representatives are paid for time during which they accompany or otherwise assist OSHA compliance officers during inspections. This experience is substantiated by memoranda submitted for the record by various OSHA compliance personnel. Several compliance officers stated that they had never encountered an instance in which an employee was denied walkaround compensation. *See* Exhibits 3–10 at p. 3; 3–11 at p. 1; 3–12 at p. 1; 3–13; 3–30 at pp. 8 and 21; 3–35. Other compliance officers noted that in general

they had experienced no difficulties with respect to compensation for employee representatives. *See* Exhibits 3–4 at p. 6; 3–5; 3–12 at p. 1; 3–18 at p. 1. Many inspectors noted specific instances of compensation by either the employer or a union. *See* Exhibits 3–9 at pp. 4, 5, 11, 12; 3–21; 3–25 at p. 2; 3–26 at p. 2; 3–27 at p. 3; 3–28 at pp. 1 and 2. On the other hand, although numerous memoranda were submitted for the record by compliance officers, area directors and regional administrators, only approximately 10 instances of non-payment were documented. *See* Exhibits 3–6 at p. 8; 3–7 at p. 2; 3–19 at pp. 7 and 11; 3–26; 3–28 at p. 1; 3–31 at pp. 3 and 5; 3–38. Indeed, it is not even clear from these submissions whether these employees were totally denied walkaround pay or were not paid by their employers but compensated by their unions. Thus, the agency's experience and the supporting evidence clearly establish that non-payment of walkaround compensation occurs only in limited, isolated instances and that the substantial majority of representatives are in fact paid. Furthermore, so far as appears from the record, there is no evidence that employees are not paid for time during which they are engaged in other inspection-related activities.

The agency's finding regarding compensation practices is supported by the paucity of non-payment cases submitted by the general public. Since November 1980, the agency has received over 400 comments on the walkaround compensation regulation. Of those comments which addressed the issue of compensation, several noted instances in which either the employer or the union paid the employee representative for time spent on the walkaround. *See* Exhibits 2–40; 2–145; 2–202; 2–209; 4–34. However, only a few comments noted specific instances in which no compensation was available from any source and the employee did not participate in the inspections. *See* Exhibits 2–276; 2–310. This further supports the agency's conclusion that an overwhelming majority of employees are compensated and that there is no need for the regulation.

The above conclusion is also supported by a study, sponsored by a labor organization, that was referred to by some commentors and cited by the U.S. Court of Appeals for the District of Columbia in *Leone* v. *Mobil Oil Corporation*, 523 F.2d 1153, 1161 (D.C. Cir. 1975). *See* Zalusky, "The Worker Views the Enforcement of Safety Laws," 26 Labor L.J. 224 (1975). This study revealed that, of the employee representatives responding to a survey, 93% of those who participated in the walkaround were paid by the employer and 4% were paid by the union. The remaining 3% included cases in which the employee received full pay, part of it from the union and part from the employer, and one instance in which the employee representative was not working and participated in the walkaround on his own time. Zalusky, *supra* at 230. The study also pointed out that an inspection often followed a grievance and that collective bargaining agreements often provide pay for employee time spent investigating grievances. *Id.* Based on the empirical data contained in the study, and in the absence of any body of evidence to the contrary, we believe that the study supports the conclusion that compensation is available to a substantial majority of employee representatives.

In reaching this conclusion, the agency is not unmindful of the commentors who expressed concern that employers would not provide walkaround compensation in the absence of a regulation requiring them to do so. *See* Exhibits 4–31; 6–2; 6–14; 6–34; 6–43; 6–49. However, this claim is belied by the results of the Zalusky study, *supra*, which showed that 93% of employee walkaround representatives who responded to the survey were paid walkaround compensation by the employer at a time when it was the Secretary's position that such compensation was not required by the Act. Moreover, aside from speculation, there is no evidence to indicate that employers who have paid walkaround compensation in the past will change their practice as a result of the revocation of the regulation.

C. Lack of Disincentive

We have discussed the question of whether there is a significant need for a walkaround compensation regulation in view of evidence that a considerable majority of employees are in fact paid for time spent on the walkaround. Quite apart from this question is the issue of whether the regulation would encourage employee participation in the inspection process. As noted in the preamble to the January 16, 1981 rule, the promulgation of the regulation was based to a large extent on the assumption that the loss of pay or other benefits operates as a significant disincentive to employee participation in an inspection. 46 FR 3855–56. After careful reevaluation of the previous record and consideration of the new comments, the agency finds that the record does not adequately support this assumption. Indeed, comments submitted by agency personnel and the general public note fewer than 10 instances in which an employee representative did not participate in the walkaround because of non-payment. *See* Exhibits 3–6 at p. 8; 3–19 at p. 11; 3–26 at p. 2; 3–38; 2–276; 2–310. On the other hand, OSHA compliance officers noted several instances in which employee representatives participated in an inspection despite the knowledge that they would not be compensated for the time involved. *See* Exhibits 3–19 at p. 7; 3–21; 3–26 at p. 1; 3–31 at pp. 3 and 5. Several employees stated that they had participated in a walkaround even though they were not paid. *See* Exhibits 2–252; 2–302. Other employees indicated that their participation in an inspection would not be discouraged by a lack of compensation. *See* Exhibit 6–45.

Based on the extremely small number of non-participation cases resulting from non-payment, and on the evidence that a substantial number of employee representatives take part in the inspection process, the record does not adequately establish that lack of compensation is in fact a significant disincentive to employee participation in the walkaround. Moreover, even to the limited extent that the lack of pay might discourage a few employees from participating in the inspection, the agency finds that a walkaround compensation regulation is not necessary since it would not have a significant effect on the Secretary's overall ability to conduct effective and efficient workplace inspections. In those limited cases in which an employee representative does not participate because he is not paid, the OSHA inspectors can rely on consultations with individual employees at the worksite, as provided Section 8(e) of the Act. Indeed, as noted earlier, a considerable number of workplace inspections are conducted in establishments in which there is no employee representative on the walkaround. In such cases, pursuant to the Act and OSHA instructions, compliance officers are required to consult with a reasonable number of employees at the worksite. Accordingly, on this record, the agency has decided not to require employers to pay for time spent on the walkaround. Rather, we conclude that the issue of walkaround compensation is best left to voluntary arrangements between employers and employees. In reaching this conclusion, the agency notes that its concern for securing employee participation in the walkaround is satisfied in an overwhelming percentage of inspections in which employee representatives have

been designated. Absent evidence that this rate of participation will decline substantially, the agency believes that the policies of the Act would best be effectuated if the parties negotiate payment arrangements between themselves.

Some commentors expressed the view that leaving walkaround compensation to collective bargaining is an inadequate solution in light of the fact that only approximately 20 percent of the U.S. workforce is unionized; thus, the vast majority of workers do not have access to collective bargaining and cannot obtain walkaround benefits. *See* Exhibits 6–14; 6–28; 6–45; 6–48. However, inspections of non-union establishments are typically conducted without the participation of employee representatives since none exists. As we have noted in the preamble to the original rule, the selection of employee representatives in non-union establishments would entail complex and time-consuming procedures that would seriously delay the conduct of inspections and effective and efficient enforcement of the Act. *See* 46 FR 3855. Thus, the issue of walkaround compensation generally does not arise in non-union establishments.

D. Conclusion

For approximately seven of the ten years of OSHA's existence, walkaround compensation was not required by the agency. During that period, OSHA generally conducted effective and efficient inspections, finding occupational hazards and issuing citations when violations were discovered. In view of this experience and the record in this case, the agency concludes that a walkaround compensation regulation is not necessary. Absent the need for the agency to require compensation to encourage employee participation in the walkaround, there is no need to discuss the related issue, discussed in the original rule at 46 FR 3856–57, of who should properly bear the burden of paying walkaround compensation.

III. Regulatory Assessment

Pursuant to Executive Order 12291, the costs of a regulation must not outweigh its benefits. Since this revocation relieves employers of the obligation to pay walkaround compensation, this agency action imposes no costs and therefore it meets the requirements of the Executive Order. Furthermore, because of the absence of an economic impact, no Regulatory Impact Analysis is required.

IV. Effective Date

The revocation of the walkaround compensation regulation is effective May 29, 1981. This effective date is permitted by 5 U.S.C. 553(d)(1), which provides that a substantive rule need not be published at least 30 days before its effective date if it "relieves a restriction." Since this revocation relieves employers of the obligation to pay walkaround compensation, the 30-day requirement need not be followed.

V. Authority

This document was prepared under the direction of Thorne G. Auchter, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Ave., N.W., Washington, D.C. 20210.

Accordingly, pursuant to sections 8(e) and 8(g)(2) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 657(e) and 657(g)(2)), 5 U.S.C. 553, and Secretary of Labor's Order 8–76 (41 FR 25059), OSHA amends Part 1903 of Title 29 of the Code of Federal Regulations by removing paragraph (e) of § 1903.8, as set forth below.

Signed at Washington, D.C., on this 27th day of May, 1981.

Thorne G. Auchter,

Assistant Secretary of Labor.

§ 1903.8 Representatives of employers and employees.

29 CFR Part 1910

[Docket No. H–004M]

Occupational Exposure to Lead, New Trigger Levels for Medical Removal Protection; Deferral of Effective Date

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Notice of further deferral of effective date of new trigger levels for medical removal protection for primary smelters and secondary smelters.

SUMMARY: For primary and secondary smelters only, OSHA is delaying the effective date of the new trigger levels for medical removal protection under the lead standard (29 CFR 1910.1025(k)) from the June 1, 1981 date previously announced in the **Federal Register** (46 FR 24558; May 1, 1981) to July 1, 1981. The background and basis in the record for the further delay of the effective date as to primary and secondary smelters are discussed in that prior notice. This action is taken to allow the Agency more time to complete its efforts to fashion appropriate relief for the involved lead industries; while at the same time providing necessary protection for employees.

DATES: For primary and secondary lead smelters, the temporary stay of the new trigger levels is extended to July 1, 1981.

FOR FURTHER INFORMATION CONTACT: Dr. Robert P. Beliles, Occupational Safety and Health Administration, Room N–3718, U.S. Department of Labor, Washington, D.C. 20210; telephone (202) 523–7081.

Signed at Washington, D.C., this 22nd day of May, 1981.

Thorne G. Auchter,

Assistant Secretary of Labor.

29 CFR Part 1910

Occupational Noise Exposure; Hearing Conservation Amendment; Deferral of Effective Date

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Final rule; deferral of effective date.

SUMMARY: On January 16, 1981 (46 FR 4078), OSHA published an amendment to its standard for occupational noise exposure (29 CFR 1910.95). The amendment set forth specific requirements for hearing conservation programs including monitoring of employee exposure, audiometric testing and use of hearing protectors. The amendment was to become effective on April 15, 1981, with various provisions being phased in over the next two years.

Following the publication of the amendment, the Agency received numerous requests for interpretation, petitions for administrative reconsideration of various provisions of the amendment, and petitions for administrative stay.

On April 10, 1981, the Agency deferred the effective date of the hearing conservation amendment until June 1, 1981 (46 FR 21365) so that the Agency could analyze all of the requests and petitions that had been submitted on the hearing conservation amendment. In view of the large number of requests and petitions received and the complexity of the issues raised, the

Agency needs more time to adequately consider these documents.

Accordingly, by this notice the Agency defers the effective date for the hearing conservation amendment until August 1, 1981. This action should allow the Agency to complete the analysis of the comments received to date. In view of this further deferral of the effective date, appropriate adjustments will be made, as necessary, in the effective dates of the various provisions of the standard which were scheduled to be phased in over time.

The need for further consideration of the public submissions constitutes good cause for the deferral of the effective date. Due to the short deferral period, notice and opportunity to comment on the deferral is impractical and unnecessary within the meaning of 5 U.S.C. 553 and 29 U.S.C. 655(b).

EFFECTIVE DATE: The effective date of § 1910.95 (c)–(s) and Appendixes A–I is deferred until August 1, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. James Foster, Room N–3641, Office of Public Affairs, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210, Telephone: (202) 523–8151.

Signed at Washington, D.C. this 22d day of May, 1981.

Thorne G. Auchter,

Assistant Secretary of Labor.

BILLING CODE 4510–26–M

DEPARTMENT OF THE INTERIOR

National Park Service

36 CFR Part 7

Special Regulations, Areas of the National Park System; Glacier Bay National Park and Preserve

AGENCY: National Park Service, Department of Interior.

ACTION: Deferral of effective date of final rule with request for comments.

SUMMARY: The National Park Service is further postponing the effective date of a final rule concerning protection of humpback whales in Glacier Bay National Park and Preserve which was previously postponed until May 29, 1981. This rule was published in the **Federal Register** on December 30, 1980 (45 FR 85741), and was scheduled to become effective on January 29, 1981. On the day a memorandum was issued by the President which, among other things, directed executive agencies to postpone for 60 days the effective dates of regulations which had been issued but were scheduled to become effective during that 60-day period.

In a notice published February 17, 1981 (46 FR 12496), the National Park Service postponed the effective date of this rule until March 30, 1981. Executive Order 12291, issued by the President on February 17, 1981 (46 FR 13193) directed agencies to suspend or postpone the effective dates of all rules that had been promulgated in final form but not yet become effective to the extent necessary to permit reconsideration of the rules in accordance with the Executive Order.

The Department of the Interior on March 30, 1981 (46 FR 19233) and the National Park Service on April 30, 1981 (46 FR 24178) issued notices delaying the effective date of the Glacier Bay regulations.

The interim rule for small vessels entering Glacier Bay during whale season (June 1—August 31) published in the **Federal Register** on May 15, 1981 (45 FR 32234) restricts entries to 520 on the basis that this represented the small boat entry level in the 1976 season. As further explained in the May 15, 1981 **Federal Register**, 1976 small boat entry level are required for protection of humpback whales. The final rule published on December 30, 1980, revised this number to 339 on the basis of new information as to the 1976 entry level. Further inquiries indicate that this number may be inaccurate. Accordingly, in order to permit the National Park Service time to redetermine the 1976 entry level for small boats, the effective date of this regulation is further extended to July 15, 1981. The interim rule calling for the 520 entry level remains in effect until the rule is finalized.

In addition to the above, the National Park Service is still conducting its review of these regulations under the criteria of E.O. 12291.

DATES: The new effective date for these final rules is July 15, 1981. Comments on this new effective date and on the 1976 Glacier Bay small boat entry level must be received on or before June 30, 1981.

ADDRESS: Written comments should be sent to Associate Director, Management and Operations, National Park Service, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Maureen Finnerty, Division of Ranger Activities and Protection, National Park Service, Washington, D.C. 20240. Telephone: 202–343–4874.

G. Ray Arnett,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310–70–M

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 201

[Docket RM 80–1]

General Provisions; Works Consisting of Sounds, Images, or Both: Advance Notice of Potential Infringement

AGENCY: Library of Congress, Copyright Office.

ACTION: Final regulation.

SUMMARY: This notice is issued to advise the public that the Copyright Office of the Library of Congress is adopting a new final regulation designed to implement paragraph (b) of section 411 of the Copyright Act of 1976, Title 17 of the United States Code, as amended by Pub. L. 94–553. This paragraph provides for the service of advance notices of potential infringement for the purpose of preventing the unauthorized use of certain works that are being transmitted "live" at the same time that they are being fixed in tangible form for the first time. The effect of the final regulation is to establish requirements governing the content and manner of service of the advance notices.

EFFECTIVE DATE: July 1, 1981.

FOR FURTHER INFORMATION CONTACT: Dorothy Schrader, General Counsel, Copyright Office, Library of Congress, Washington, D.C. 20559, (202) 287–8380.

SUPPLEMENTARY INFORMATION: Section 411(b) of the Copyright Act of 1976 [Act of October 19, 1976, 90 Stat. 2541] concerns the unauthorized use of works consisting of sounds, images, or both, that are fixed for the first time simultaneously with their transmission. It provides generally that the copyright owner may institute an action for infringement under section 501 of the Act, either before or after the first fixation takes place, and seek any or all of the remedies provided for by sections 502 through 506 and sections 509 and 510 of the Act so long as certain requirements are met.

In discussing the purpose of this provision, the Reports of the Judiciary Committees of the House of Representatives and the Senate [H.R.

Rep. 94–1476, 94th Cong., 2d Sess. (1976) at 157 and S. Rep. 94–473, 94th Cong. 1st Sess. (1975) at 140, respectively] state:

> Section 411(b) is intended to deal with the special situation presented by works that are being transmitted "live" at the same time they are being fixed in tangible form for the first time. Under certain circumstances, where the infringer has been given advance notice, an injunction could be obtained to prevent the unauthorized use of the "live" transmission.

Under the statute, this Advance Notice must be served on the person responsible for the potential infringement at least ten days but not more than thirty days before the first fixation of the work and must identify the work and specify the time and source of its first transmission. The Advance Notice must also include a declaration of "an intention to secure copyright in the work." Section 411(b) further provides that the Advance Notice must comply "with the requirements that the Register of Copyrights shall prescribe by regulation."

On July 31, 1980, the Copyright Office published in the **Federal Register** (45 FR 50823) a proposal to adopt a new regulation § 201.22 establishing requirements governing the content and manner of service of the Advance Notices. A total of six initial and reply comments were received in response to the Notice of Proposed Rulemaking.

A majority of these comments focused on the use of the Advance Notice procedure in connection with the rules of the Federal Communications Commission (FCC) governing retransmission by cable television systems of sports programing (47 CFR § 76.67). In general, under these FCC rules, the holder of broadcast rights to certain sporting events may request a cable television system to delete carriage of the event upon timely notification. The FCC rules require the notification to include: the name and address of the party requesting deletion, the date, time and expected duration of the sports event and, in some cases, the call letters of the television broadcast station(s) televising the event. Carriage by a cable television system in violation of these rules may be considered a violation of the system's compulsory license under section 111(c)(2)(A) of the copyright law possibly providing a basis for an infringement action under section 411 (a) or (b) of the Copyright Act. Section 111(c)(2) also provides, however, that the secondary transmission must be "willful or repeated" in order to give rise to copyright liability.

After careful consideration of all of the comments, and those comments concerning application of the provision in connection with the FCC sports exclusivity rules in particular, the Copyright Office has decided to adopt the proposed regulation with several changes. A discussion of the major substantive comments appears below.

1. Definition of Copyright Owner

Because section 411(b) requires the service of an Advance Notice before fixation of a work, no statutory copyright will exist at the time it must be served. As a result, the Copyright Office proposed in § 201.22(a)(2) to define a "copyright owner" in part as:

> The person who will be considered the author of the work upon its fixation (including, in the case of a work made for hire, the employer or other person for whom the work was prepared), or a person or organization that has obtained ownership of an exclusive right, initially owned by the person who will be considered the author of the work upon its fixation.

A comment submitted on behalf of a cable television system questioned the legitimacy of an Advance Notice served by a purported "copyright owner" as defined in the regulation. The comment suggested that the term "copyright owner" be limited to "all who have ownership in the work" and that reference to one who "has obtained ownership of an exclusive right" be eliminated.

The Copyright Office considers these suggestions contrary to the principles of copyright divisibility and ownership as set forth in sections 101 and 201 of the Copyright Act and, therefore, has not adopted them. Any questions arising as to the propriety of a particular Advance Notice should be resolved by the courts.

2. Authorship

Comments submitted on behalf of several professional sports leagues questioned the necessity of introducing the concept of authorship in the regulation on the ground that it complicates the advance notification procedure. While the Copyright Office is aware that questions of authorship and copyright ownership of televised sporting events have arisen between broadcasters and sports interests, the Office does not believe that identification of one author complicates the Advance Notice, and we have retained the requirement.

Under the Copyright Act, copyright vests initially in the author(s) of the work. Anyone who wishes to claim rights under the Act must be either the author or someone who obtains the rights from the author. Since section 411(b) requires that a copyright owner who brings an infringement action under that section make registration for the work within three months after its first transmission, it would ordinarily be necessary to identify the author at the time of registration. The Office therefore believes it is appropriate to include the information in the Advance Notice. However, the Office has modified paragraph (c)(1)(v) of the regulation to clarify that identification of "at least one person or entity that will be considered the author of the work upon its fixation" is sufficient.

3. Expected Duration of First Transmission

A comment submitted on behalf of a cable television system requested that an Advance Notice include the expected duration of the first transmission of a work. The comment notes that this information would permit a potential infringer closely to monitor its activities in order to reduce the possibility of unintentional infringements. The Copyright Office believes that a copyright owner should have within his or her knowledge the approximate duration of the first transmission of a work and should be able to include it in an Advance Notice without any burden; this is especially true with respect to copyright owners of sporting events since this information, as noted earlier, is required to be given as part of the FCC sports exclusivity notification procedure. Accordingly, the Office has accepted this request and has so revised paragraph (c)(1)(ii) of the regulation.

4. Identification of Primary Transmitters

A comment submitted on behalf of a cable television system proposed that an Advance Notice include the identity of the primary transmitter or transmitters of the work so that a potential infringer will be in a better position to comply with the Notice. This proposal was opposed by copyright owners of sporting events as being too burdensome; instead, they suggested that the identification of a particular network of stations to whom the rights have been sold should be sufficient.

The identification of a particular primary transmitter or transmitters could probably be justified as within the "identification of source" requirement of section 411(b)(1) and such identification is encouraged. However, the Copyright Office has decided not to require such specific identification at this time. If a potential infringer needs further information with respect to the particular transmitter or transmitters of the work subject to the Advance Notice, he or she may contact the copyright

owner or his or her duly authorized agent as identified in the notice.

5. Identification of the Copyright Owner

Paragraph (c)(1)(vi) of the proposed regulation requires an Advance Notice to include the identification of the copyright owner. A comment submitted on behalf of a cable television system suggested that this provision be amended to require in addition the address of the copyright owner, author, agent and primary transmitter of the work in order to facilitate clarification of a vague or incomplete notice.

The Copyright Office has not adopted this suggestion. Paragraph (d)(2) of the regulation specifies that an Advance Notice include the "full name, address, and telephone number" of the person signing the notice; this person either will be the copyright owner or his or her duly authorized agent. The Office believes that a potential infringer should be able to resolve any questions regarding a notice through this individual, particularly since the notice must be served at least ten days before a potential infringement.

6. Rights and Activities

Under paragraphs (c)(1)(vii) and (viii) of the proposed regulation, an Advance Notice had to describe the "nature of the rights" which might be infringed and the "relevant unauthorized activities" which would result in an infringement. A comment submitted on behalf of a cable television system urged that the regulation require that these descriptions be fully and precisely set forth. On the other hand, another commentator believed that the requirements as proposed place an unfair burden on copyright owners using the advance notification procedure and should be deleted.

The Copyright Office believes that general descriptions of the activities relating to a potential infringement are necessary and pertinent elements of an Advance Notice. The regulation, however, should not require such extensive and specific descriptions as to place an unfair burden on a copyright owner serving a notice. We have decided to delete clause (vii) as unnecessary and to retain and renumber clause (viii). If a potential infringer need further information with respect to the particular rights or activities addressed in an Advance Notice, he or she may contact the copyright owner or his or her duly authorized agent as identified in the notice. The Office intends that where the copyright owner gives a general description of potential infringing activities within his or her knowledge, any failure to specify other activities not within the copyright owner's knowledge will not constitute a waiver of such infringement claims.

7. Captioning

A comment submitted on behalf of a cable television system noted the large amounts of mail that cable television systems and other potential infringers ordinarily may receive. Because of this, the commentator proposed that an Advance Notice and the envelope containing an Advance Notice be captioned "ADVANCE NOTICE OF POTENTIAL INFRINGEMENT" so that the personnel of the potential infringer will be alerted to the importance of the notice and forward it promptly to the proper persons.

The Office agrees that such captioning would seem to be beneficial and has decided to require in paragraph (c)(1) of the final regulation that an Advance Notice be "clearly and prominenty captioned 'ADVANCE NOTICE OF POTENTIAL INFRINGEMENT'" so that it can be given prompt attention. Although similar captioning of the envelope containing a notice is strongly encouraged, the final regulations do not require it; since an envelope containing an Advance Notice must be served at least ten days before a potential infringement, a potential infringer should have adequate time to ascertain its contents.

8. Warning about unauthorized Activities

Under paragraph (c)(2)(i) of the proposed regulation, an Advance Notice must include a warning that "a failure to cease the unauthorized activities may subject the person responsible to further liability for copyright infringement." As discussion earlier, sports teams have declared an intention to use Advance Notices in connection with the FCC sports exclusivity notification procedure. Comments submitted on behalf of several sports leagues contend that when so used, it is difficult to impute "unauthorized activity" on the part of a cable system until a demand for protection under the FCC rules has been made; thus, they argue, it would be improper to address the consequences from a failure to "cease" these "unauthorized" activities.

The Copyright Office agrees that the reference to "unauthorized" activities raises unnecessary complications and has revised the warning to alert a potential infringer that the "relevant activities may, if carried out, subject the person responsible to liability for copyright infringement." Correspondingly, reference to "unauthorized" activities in paragraph (c)(1) of the regulation has been deleted.

9. Signature and Identification

Paragraph (d) of the proposed regulation requires an Advance Notice to contain the actual handwritten signature of the copyright owner or his or her duly authorized agent. Comments submitted on behalf of several professional sports leagues contend that this requirement creates an unfair, onerous burden since, they assert, a substantial number of Advance Notices are likely to be sent to various cable systems during the course of a team's playing season in connection with the FCC's sports exclusivity notification procedure. They further contend that this burden would be compounded if the regulation restricts an Advance Notice to one particular work.

Because of the important legal implications accompanying the filing of an Advance Notice and the greater assurance of validity provided by requiring an actual handwritten signature, the Copyright Office has decided to adopt paragraph (d) of the regulation as originally proposed. Moreover, the Office does not make the assumption that a substantial number of Advance Notices will be mailed each sports season. Another view is that section 411(b) constitutes an exceptional procedure that will be invoked sparingly. It clearly establishes an alternative procedure to 17 U.S.C. 411(a) for bringing a suit for copyright infringement. As such, the Office does not assume that section 411(b) will be invoked with greater frequency than section 411(a).

10. Types of Works Covered by the Advance Notice

Section 411(b) refers to "a work consisting of sounds, images or both." This concept has been incorporated in the definitions found in paragraph (a) of the proposed regulation. In the proposed rulemaking, the Office asked whether the regulation "should define more specifically the works that it covers, for example in terms of the types of works of authorship set forth in section 102(a) of the Copyright Act?" Several comments suggested that the regulation should be more specific in this respect; another comment felt that specificity would be useful for illustrative purposes only. In addition, comments submitted on behalf of sports leagues indicated that any list should include specific reference to copyrighted telecasts of live sporting events.

After careful consideration, the Copyright Office has decided not to

specify further the types of copyrighted works that may be the subject of an Advance Notice. In enacting section 411(b), Congress consciously determined that the Advance Notice provision should be applicable only to works "consisting of sounds, images, or both." The Office has concluded that further refinement of this term in particular situations should, if necessary, be left to the courts in infringement actions brought under this section. It should be noted, however, that the types of "live" transmissions that commonly will be the subject of an Advance Notice include sporting events, concerts, theatrical presentations and news and public affairs programs.

11. Multiple Works

Each Advance Notice, as contemplated in the proposed regulation, was limited to one particular work. Since it may be possible for a given transmission to contain multiple works, the Office asked whether the regulation should "permit an advance notice to accommodate more than one work, particularly where multiple copyright owners are involved?"

A comment submitted on behalf of a cable television system encouraged the Office to retain the singular work requirement as proposed. Comments submitted on behalf of sports interests, however, argued that the filing of a single notice covering multiple works not only would be beneficial to the particular copyright owner involved but also to potential infringers who otherwise might be inundated with notices. This contention, they asserted, is particularly true with respect to Advance Notices served in conjunction with the FCC sports exclusivity notification procedure. Furthermore, the sports interests argued that a singular work requirement would add enormous costs to the notification procedure and could render section 411(b) ineffective.

When the "multiple works" question was posited as part of the proposed rulemaking, the Copyright Office envisioned occasions where multiple works are included in a single transmission program rather than instances of multiple transmissions of different copyrighted works, such as different sporting event programs. The Copyright Office considers the Advance Notice procedure to be an important mechanism for protecting the rights of copyright owners whose works are first fixed simultaneously with their transmission. At the same time, the Office recognizes that this provision is unique and unprecedented in the copyright law. Under section 411(b) service of an Advance Notice of Potential Infringement is a prelude to court action and a probable request for an injunction to prohibit retransmission of programs in advance of their broadcast.

For these reasons, the Office believes that the regulation governing Advance Notices should permit service on reasonable terms but should not encourage indiscriminate service. The final regulation in paragraph (c)(1) modifies the proposed regulation by permitting service of a single notice with respect to all of the works of the copyright owner embodied in a specific "transmission program" using the definition of that term in 17 U.S.C. 101. However, separate Advance Notices must be served with respect to works embodied in different transmission programs.

12. Registration as a Condition Subsequent

In addition to service of an Advance Notice, section 411(b) further requires a copyright owner instituting an infringement action to make "registration for the work within three months after its first transmission." With respect to this requirement, the Copyright Office asked whether the mandate given the Register under section 411(b) authorizes him to compel registration for the work and/or provide certain penalties for a failure to register.

All of the comments responsive to this question urged the Office generally to forego imposition of penalties for failure to register. Comments submitted on behalf of the professional sports interests, for example, argued that the registration requirement is triggered only if the author or copyright owner proceeds to file an action for infringement. They indicated that they do not intend to register every work that is mentioned in an Advance Notice, but will of course register the works if an infringement action is brought. If registration is not made in such cases, they state the Register would have the authority to compel registration and to provide certain financial penalties for a failure to register timely.

The Copyright Office has decided not to promulgate any regulations on this point at this time. Since, under section 411(b), registration clearly is a condition subsequent to the institution of judicial proceedings, it is within the authority of the court to compel registration and/or provide certain penalties for a delay in meeting this statutory requirement.

The Office has therefore decided that it is not necessary to impose any penalties in a regulation and has also deleted the reference to registration in paragraph (c)(2)(ii) of the regulation. This provision would have required the copyright owner to declare in an Advance Notice that he or she intends "to make registration of the copyright claim for the work within three months from the date of its first transmission." Under the regulation as adopted, however, the copyright owner will be required to declare that he or she "intends to secure copyright in the work upon its fixation." This declaration tracks the statutory language and is intended to assure that the copyright owner does not plan to place the work in the public domain.

Final Regulation

Part 201 of 37 CFR Chapter II is amended by adding a new § 201.22 to read as follows:

§ 201.22 Advance notices of potential infringement of works consisting of sounds, images, or both.

(a) *Definitions.* (1) An "Advance Notice of Potential Infringement" is a notice which, if served in accordance with section 411(b) of title 17 of the United States Code, and in accordance with the provisions of this section, enables a copyright owner to institute an action for copyright infringement either before or after the first fixation of a work consisting of sounds, images, or both that is first fixed simultaneously with its transmission, and to enjoy the full remedies of said title 17 for copyright infringement, provided registration for the work is made within three months after its first transmission.

(2) For purposes of this section, the "copyright owner" of a work consisting of sounds, images, or both, the first fixation of which is made simultaneously with its transmission, is the person or entity that will be considered the author of the work upon its fixation (including, in the case of a work made for hire, the employer or other person or entity for whom the work was prepared), or a person or organization that has obtained ownership of an exclusive right, initially owned by the person or entity that will be considered the author of the work upon its fixation.

(3) A "transmission program" is a body of material that, as an aggregate, has been produced for the sole purpose of transmission to the public in sequence and as a unit.

(b) *Form.* The Copyright Office does not provide printed forms for the use of persons serving Advance Notices of Potential Infringement.

(c) *Contents.* (1) An Advance Notice of Potential Infringement shall be clearly and prominently captioned "ADVANCE

NOTICE OF POTENTIAL INFRINGEMENT" and must clearly state that the copyright owner objects to the relevant activities of the person responsible for the potential infringement, and must include all of the following:

(i) Reference to title 17, U.S.C. section 411(b) as the statutory authority on which the Advance Notice of Potential Infringement is based;

(ii) The date, specific time, and expected duration of the intended first transmission of the work or works contained in the specific transmission program;

(iii) The source of the intended first transmission of the work or works;

(iv) Clear identification, by title, of the work or works. A single Advance Notice of Potential Infringement may cover all of the works of the copyright owner embodied in a specific transmission program. If any work is untitled, the Advance Notice of Potential Infringement shall include a detailed description of that work;

(v) The name of at least one person or entity that will be considered the author of the work upon its fixation;

(vi) The identity of the copyright owner, as defined in paragraph (a)(2) of this section. If the copyright owner is not the person or entity that will be considered the author of the work upon its fixation, the Advance Notice of Potential Infringement also shall include a brief, general statement summarizing the means by which the copyright owner obtained ownership of the copyright and the particular rights that are owned; and

(vii) A description of the relevant activities of the person responsible for the potential infringement which would, if carried out, result in an infringement of the copyright.

(2) An Advance Notice of Potential Infringement must also include clear and prominent statements:

(i) Explaining that the relevant activities may, if carried out, subject the person responsible to liability for copyright infringement; and

(ii) Declaring that the copyright owner intends to secure copyright in the work upon its fixation.

(d) *Signature and Identification.* (1) An Advance Notice of Potential Infringement shall be in writing and signed by the copyright owner, or such owner's duly authorized agent.

(2) The signature of the owner or agent shall be an actual handwritten signature of an individual, accompanied by the date of signature and the full name, address, and telephone number of that person, typewritten or printed legibly by hand.

(3) If an Advance Notice of Potential Infringement is initially served in the form of a telegram or similar communication, as provided by paragraph (e)(2)(iii) of this section, the requirement for an individual's handwritten signature shall be considered waived if the further conditions of said paragraph (e) are met.

(e) *Service.* (1) An Advance Notice of Potential Infringement shall be served on the person responsible for the potential infringement at least ten days but not more than thirty days before the first fixation and simultaneous transmission of the work as provided by 17 U.S.C. 411(b)(1).

(2) Service of the Advance Notice may be effected by any of the following methods:

(i) Personal service;

(ii) First-class mail; or

(iii) Telegram, cablegram, or similar form of communication, if: (A) the Advance Notice meets all of the other conditions provided by this section; and (B) before the first fixation and simultaneous transmission take place, the person responsible for the potential infringement receives written confirmation of the Advance Notice, bearing the actual handwritten signature of the copyright owner or duly authorized agent.

(3) The date of service is the date the Advance Notice of Potential Infringement is received by the person responsible for the potential infringement or by any agent or employee of that person (17 U.S.C. 411, 702).

Dated: May 18, 1981.

BILLING CODE 1410-03-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 123

[SW-1-FRL 1831-4]

Hazardous Waste Management Program: Phase I Interim Authorization for Rhode Island

AGENCY: Environmental Protection Agency (EPA); Region I.

ACTION: Authorization of State hazardous waste program.

SUMMARY: The State of Rhode Island has applied for interim authorization of its hazardous waste program under Subtitle C of the Resource Conservation and Recovery Act and EPA guidelines for the approval of State hazardous waste programs (40 CFR Part 123). EPA has determined that the State's program meets all applicable statutory and regulatory requirements and is granting Phase I interim authorization to Rhode Island to operate a hazardous waste program in its jurisdiction in lieu of Phase I of the Federal hazardous waste program.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Kenneth E. Wenger, Waste Management Branch, U.S.E.P.A., Region I, John F. Kennedy Federal Building, Boston, Massachusetts 02203; telephone (617) 223-5775.

SUPPLEMENTARY INFORMATION:

I. Introduction

Subtitle C of the Resource Conservation and Recovery Act of 1976, as amended (RCRA), requires EPA to establish a comprehensive Federal program to assure the safe management of hazardous waste. Once a Federal program is established, EPA is authorized under Section 3006 of RCRA to approve State hazardous waste programs to operate in lieu of the Federal program in their jurisdictions.

Two types of State program approvals are authorized under RCRA. The first, "final authorization," is a permanent approval which may be granted to States whose programs are "equivalent to" and "consistent with" the Federal program and provide adequate enforcement. The second, "interim authorization," is a temporary approval for States which cannot meet the requirements of final authorization but whose programs are "substantially equivalent" to the Federal program. RCRA contemplates that States receiving interim authorization will use the interim authorization period to make the changes in their regulations and statutes necessary to qualify for final authorization.

On May 19, 1980, EPA published the first phase of the Federal hazardous waste program (40 CFR Parts 260–263 and 265) and guidelines for authorizing State hazardous waste programs under Section 3006 of RCRA (40 CFR Part 123).

These guidelines set forth the requirements for interim authorization and the procedures which EPA will follow in acting on State applications for interim authorization. They also provide that EPA will grant interim authorization in two major phases (Phase I and Phase II), corresponding to the two major phases of the Federal program.

The State of Rhode Island submitted a draft application for Phase I interim authorization on August 22, 1980. In its comments on the draft application, EPA identified several issues in the State's program description, memorandum of agreement, and Attorney General's statement which required further clarification or amendment. Most of these issues were addressed in the final application submitted to EPA on December 17, 1980, and the application was determined to be complete on that date.

In accordance with EPA guidelines, EPA provided public notice of receipt of the State's application and opportunity for comment on it. [46 FR 2120 (January 8, 1981)]. A hearing was held on the application on February 12, 1981, at the Cannon Building Auditorium in Providence, Rhode Island. All timely comments, whether presented at the hearing or in writing, were considered in reaching a decision on Rhode Island's application.

II. Major Issues

None of the issues raised by commenters on Rhode Island's application were major. A discussion of these issues and EPA's response thereto is contained in EPA's responsiveness summary to comments received on the Rhode Island application. The responsiveness summary is available at the EPA Region I Office in Boston (see "For Further Information Contact", above) and at EPA Headquarters in Washington, D.C.

III. Decision

EPA has reviewed the State of Rhode Island's complete application for Phase I interim authorization and determined that the state program is "substantially equivalent" to the Phase I Federal program as defined in 40 CFR Part 123. In accordance with Section 3006(c) of RCRA, the State of Rhode Island is hereby granted interim authorization to operate a hazardous waste program in lieu of Phase I of the Federal hazardous waste program. The practical effect of this decision is that generators, transporters, and owners and operators of hazardous waste management facilities in Rhode Island will be subject to the State of Rhode Island hazardous waste management program in lieu of the Phase I Federal hazardous waste management program (40 CFR Parts 260–263 and 265) and will not again be subject to the Phase I Federal program unless (1) the state fails to obtain final authorization by the deadline specified in 3006(c) of RCRA and implementing regulations or (2) authorization is withdrawn for cause by EPA.

IV. Compliance With Executive Order 12291

Under Executive Order 12291, EPA must prepare a Regulatory Impact Analysis on "major regulations." A "major regulation" is defined as any regulation that is likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

EPA's decision to approve Rhode Island's Phase I hazardous waste program is not a major regulation because its effect is to suspend the applicability of certain Federal regulations in the State of Rhode Island. In the absence of this decision, persons handling hazardous waste in Rhode Island would have to comply with Parts 260–263 and 265 of Title 40 of the Code of Federal Regulations in addition to all Rhode Island hazardous waste management regulations. For this reason it is virtually inconceivable that this regulation would result in the significant impacts that characterize a "major regulation."

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

V. Authority

This notice is issued under the authority of Sections 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act of 1976, as amended, 42 U.S.C. §§ 6912(a), 6926, and 6974(b).

Dated: April 27, 1981.

Leslie A. Carothers,

Acting Regional Administrator.

BILLING CODE 6560-38-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

43 CFR Public Land Order 5926

[CA-7804]

California; Revocation of Executive Order No. 9101

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes an Executive Order which withdrew lands in aid of legislation affecting approximately 163.34 acres of which 160 acres are privately owned. This action will restore 3.64 acres to operation of the public land laws generally, and to nonmetalliferous mineral location under the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Celia Anderson, California State Office 916–484–4431.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Executive Order No. 9101 of March 16, 1942, which withdrew the following described lands in aid of legislation, is hereby revoked in its entirety:

San Bernardino Meridian

T. 6 S., R. 22 E.,
Sec. 31, NE¼, that part of the NE¼SE¼ lying north of the north line of State Highway Route No. 64.

The area described aggregates approximately 163.64 acres in Riverside County.

2. Of the lands described in paragraph 1, the NE¼ (160 acres) is privately owned and not subject to disposition under the public land and mineral laws.

3. At 10 a.m. on June 23, 1981, the public land shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

4. At 10 a.m. on June 23, 1981, the land will be open to nonmetalliferous mineral location under the United States mining laws. The land has been open to applications and offers under the mineral leasing laws and to metalliferous mineral location under the United States mining laws.

Inquiries concerning the land should be addressed to the State Director, Bureau of Land Management, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310-84-M

43 CFR Public Land Order 5927

[CA-3394]

California; Partial Revocation of Public Land Order No. 3342

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order will partially revoke a Public Land Order which withdrew lands in the Eldorado National Forest for use as administrative sites and campgrounds. The lands will be open to such forms of disposition as may by law be made of national forest lands.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office 916-484-4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows: 1. Public Land Order No. 3342 of March 2, 1964, withdrawing certain national forest lands from prospecting, location, entry and purchase under the mining laws of the United States for the Department of Agriculture, Forest Service, is hereby revoked insofar as it affects the following described lands:

Eldorado National Forest

Mount Diablo Meridian

Administrative Sites

Haypress Meadows

T. 12 N., R. 17 E.,
Sec. 28, SW¼SE¼.

Stony Ridge

T. 13 N., R. 17 E.,
Sec. 18, SE¼NE¼.

Campground Areas

Crag Lake

T. 13 N., R. 16 E.,
Sec. 12, Lot 5.

Velma Lake

T. 13 N., R. 17 E.,
Sec. 31, Lot 9.

Fire Camp

T. 11 N., R. 18 E.,
Sec. 6, S½ of Lot 11.

Alpine

T. 11 N., R. 18 E.,
Sec. 17, S½NW¼SW¼, and N½SW¼ SW¼.

The areas described aggregate approximately 195.88 acres in El Dorado County.

2. At 10 a.m., on June 23, 1981, the lands shall be open to such forms of disposition as may by law be made of national forest lands.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310-84-M

43 CFR Public Land Order 5930

[CA 3589]

California; Revocation of Reclamation Project Withdrawal

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order will revoke a Departmental Order which withdrew 4,132.15 acres of land for the Iron Canyon Project in California. This action will restore 3,534.75 acres of land to the operation of the public land laws generally, including the mining laws. In addition, 279.11 acres are being restored to the mining laws only as they remain segregated from the public land laws for Federal Energy Regulatory Commission Project 2041. Of the balance, 18.85 acres remain withdrawn from the operation of the public land laws and the mining laws by Public Land Order No. 2719 of July 6, 1962, for recreation purposes under the administrative jurisdiction of the Bureau of Land Management and 299.44 acres are in private ownership and are not affected by this action.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office, 916-484-4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Departmental Order of November 3, 1913, withdrawing lands for the Iron Canyon Project, is hereby revoked in its entirety.

Mount Diablo Meridian

T. 28 N., R. 2 W.,
Sec. 6, lots 1 to 7, SE¼NW¼, NE¼SW¼, NE¼SE¼, S½SE¼;
Sec. 8, NW¼SW¼, SE¼SW¼, SE¼SE¼;
Sec. 18, lots 1 and 3, NW¼NE¼, SE¼NE¼, SE¼NW¼, SE¼SW¼, NW¼SE¼, SE¼SE¼;
Sec. 20, NW¼NE¼, NW¼NW¼, SE¼NW¼, NW¼SW¼.
T. 29 N., R. 2 W.,
Sec. 18, S½SE¼;
Sec. 20, SE¼NE¼, N½NW¼, SE¼SW¼, SE¼;
Sec. 30, lots 3 and 4, SE¼NE¼, NE¼SW¼, N½SE¼.
T. 27 N., R. 3 W.,
Sec. 2, lot 1, NW¼NE¼, S½NE¼.
T. 28 N., R. 3 W.,
Sec. 10, N½NE¼, SW¼NE¼, and E½NW¼;
Sec. 12, lots 1 and 2, N½NE¼, SW¼NE¼, S½NW¼, SW¼, NW¼SE¼, S½SE¼;
Sec. 14, NE¼NE¼;
Sec. 16, lots 1, 2, and 3, and W½SE¼;
Sec. 20, SW¼NW¼;
Sec. 24, NW¼NE¼, SE¼NE¼, NW¼, NW¼SW¼, SE¼SW¼, SE¼;
Sec. 26, N½NE¼, SE¼NE¼;
Sec. 32, SW¼SW¼ and SE¼SE¼.
T. 29 N., R. 3 W.,
Sec. 10, lots 3 and 9 (Goat Island);
Sec. 12, S½NW¼;
Sec. 22, lot 7;
Sec. 24, NW¼NW¼, NE¼SE¼, S½SE¼;
Sec. 26, NW¼NE¼, SW¼, NW¼SE¼, S½SE¼.
T. 29 N., R. 4 W.,
Sec. 12, S½SW¼.

The area described aggregates 4,132.15 acres in Tehama and Shasta Counties.

2. At 10 a.m. on June 23, 1981, the following described lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

Mount Diablo Meridian

T. 28 N., R. 2 W.,
Sec. 6, lots 1 to 7, SE¼NW¼, NE¼SW¼, NE¼SE¼, S½SE¼;
Sec. 8, NW¼SW¼, SE¼SW¼, SE¼SE¼;
Sec. 18, lots 1 and 3, NW¼NE¼, SE¼NE¼, SE¼NW¼, SE¼SW¼, NW¼SE¼, SE¼SE¼;
Sec. 20, NW¼NE¼, NW¼NW¼, SE¼NW¼, NW¼SW¼.
T. 29 N., R. 2 W.,
Sec. 18, S½SE¼;
Sec. 20, SE¼NE¼, N½NW¼, SE¼SW¼, SE¼;
Sec. 30, lot 4, NE¼SW¼, N½SE¼.
T. 27 N., R. 3 W.,
Sec. 2, lot 1, NW¼NE¼, S½NE¼.
T. 28 N., R. 3 W.,
Sec. 10, E½NW¼ and NW¼NE¼;
Sec. 12, lots 1 and 2, N½NE¼, SW¼NE¼, S½NW¼, SW¼, NW¼SE¼, S½SE¼;
Sec. 14, NE¼NE¼;
Sec. 24, NW¼NE¼, SE¼NE¼, NW¼, NW¼SW¼, SE¼SW¼, SE¼;

Sec. 26, E½NE¼;
Sec. 32, SW¼SW¼.
T. 29 N., R. 3 W.,
Sec. 12, S½NW¼;
Sec. 22, lot 7;
Sec. 24, NW¼NW¼, NE¼SE¼, S½SE¼;
Sec. 26, NW¼NE¼, NW¼SE¼, S½SE¼.
T. 29 N., R. 4 W.,
Sec. 12, S½SW¼.

The area described aggregates 3,534.75 acres.

3. At 10 a.m. on June 23, 1981, the lands described in paragraph 2 will be open to location under the United States mining laws. They have been and continue to be open to applications and offers under the mineral leasing laws.

4. The following described lands remain withdrawn from all forms of appropriation under the public land laws for Federal Power Project purposes. They will be open to location under the United States mining laws at 10 a.m. on June 23, 1981:

Mount Diablo Meridian

T. 29 N., R. 2 W.,
Sec. 30, lot 3 and SE¼NE¼.
T. 28 N., R. 3 W.,
Sec. 10, NE¼NE¼ and SW¼NE¼;
Sec. 20, SW¼NW¼;
Sec. 28, NW¼NE¼;
Sec. 32, SE¼SE¼.
T. 29 N., R. 3 W.,
Sec. 10, lot 3.

The area described aggregates 279.11 acres.

5. The following described lands remain withdrawn from all form of appropriation under the public land laws, including the mining laws, for recreation purposes by Public Land Order No. 2719 of July 6, 1962, and Federal Power Project purposes:

Mount Diablo Meridian

T. 29 N., R. 3 W.,
Sec. 10, lot 9 (Goat Island).

The area described aggregates 18.85 acres.

6. Of the lands described in paragraph 1, the following are privately owned and not subject to disposition under the public land laws:

Mount Diablo Meridian

T. 28 N., R. 3 W.,
Sec. 16, lots 1, 2, and 3, and W½SE¼.
T. 29 N., R. 3 W.,
Sec. 26, SW¼.

The area described aggregates 299.44 acres.

The lands described in paragraphs 4 and 5 have been and continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Bureau of Land Management, Room E–2841 Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

May 18, 1981.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

43 CFR Public Land Order 5931

[CA 4006]

California; Revocation of Public Land Order No. 2724

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order

SUMMARY: This order will restore 650.50 acres of public lands to operation of the public land laws, including the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie Getsman, California State Office, 916–484–4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Managment Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Public Land Order No. 2724 of July 17, 1962, which withdrew the following described public lands for use by the Department of the Army for military training purposes, is hereby revoked:

San Bernardino Meridian

T. 5 S., R. 8 E.,
Sec. 6.

The area aggregates 650.50 acres in Riverside County.

2. At 10 a.m. on June 23, 1981, the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981 shall be considered as simultaneously filed at the time. Those received thereafter shall be considered in order of filing.

3. The lands will be open to location under the United States mining laws at 10 a.m. on June 23, 1981. They have been open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands shall be addressed to the Bureau of Land Management, U.S. Department of the Interior, Room E–2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

May 18, 1981.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

43 CFR Public Land Order 5933

[S-2344]

California; Revocation of Public Land Order No. 1385

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a public land order which withdrew land for use by the Department of the Army as a radio station site. This action will restore the land to operation of the public land laws, including the mining and mineral leasing laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office 916–484–4431.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Public Land Order No. 1385 of January 24, 1957, which withdrew the following described public land for use in connection with the U.S. Strategic Communications Command, CONUS Facility, Middletown, California, is hereby revoked in its entirety:

Mount Diablo Meridian

T. 11 N., R. 6 W.,
Sec. 27, Lot 1.

The area described contains 16.47 acres in Lake County.

2. At 10 a.m. on June 23, 1981, the land shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. The land will be open to applications and offers under the mineral leasing laws and to location under the United States mining laws at 10 a.m. on June 23, 1981.

Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Room E–2841

Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310-84-M

43 CFR Public Land Order 5934

[CA 2455]

California; Revocation of National Forest Administrative Site Withdrawal

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This action revokes an Executive Order which withdrew public lands for use as a Forest Service ranger station and opens the lands to operation of the public land laws generally, including the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office, 916-484-4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Executive Order No. 3412 of February 25, 1921, withdrawing public land as a Forest Service administrative site, is hereby revoked:

Hayden Hill Lookout; Mount Diablo Meridian

T. 37 N., R. 10 E.,
Sec. 31, Lots 2 and 3.

The area described aggregates 77.22 acres in Lassen County.

2. At 10 a.m., on June 23, 1981, the lands shall be open to location and entry under the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals and the requirements of applicable law. All valid applications received at or prior to 10 a.m., on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10 a.m., on June 23, 1981, the lands will be open to location under the United States mining laws. They have been and continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Bureau of Land Management, U.S. Department of the Interior, Room E-2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

BILLING CODE 4310-84-M

43 CFR Public Land Order 5937

[CA-3718]

California; Partial Revocation of Public Water Reserve

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order will partially revoke an Executive Order of January 24, 1914, withdrawing certain lands in California as Public Water Reserve No. 14.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Marie Getsman, California State Office, 916-484-4431.

By virtue of the authority vested in the Secretary of the Interior pursuant to Section 204 of the Federal Land Policy and Management Act of October 21, 1976, 90 Stat. 2751 (43 U.S.C. 1714), it is ordered as follows:

1. The Executive Order of January 24, 1914, creating Public Water Reserve No. 14 is hereby revoked insofar as it affects the following described lands:

San Bernardino Meridian

T. 5 S., R. 20 E.,
Sec. 16, All land within one-quarter mile of McCoy Spring;
Sec. 17, All land within one-quarter mile of McCoy Spring.
T. 8 S., R. 17 E.,
Sec. 16, All land within one-quarter mile of Chuckwalla Spring.

The areas described aggregate 185 acres more or less in Riverside County.

Title to those portions of aforedescribed lands which lie within Section 16, T. 5 S., R. 20 E., and Section 16, T. 8 S., R. 17 E., S.B.M., shall immediately vest in the State of California.

The land in Section 17, T. 5 S., R. 20 E., continues to be segregated from disposition under the public land laws, including the mining laws, by Public Land Order No. 5224 of July 5, 1972.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310-84-M

43 CFR Public Land Order 5938

[CA 4441]

California; Partial Revocation of Potash Reserve No. 2

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order partially revokes Executive Order of February 21, 1913, which withdrew lands in California for Potash Reserve No. 2. Upon revocation, title will immediately vest in the State of California pursuant to the Act of May 2, 1932; 47 Stat. 140; 43 U.S.C. 870.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office, 916-484-4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order dated February 21, 1913, creating Potash Reserve No. 2, is hereby revoked insofar as it affects the following described lands:

Mount Diablo Meridian

T. 26 S., R. 43 E.,
Sec. 16.

The area contains 640 acres in San Bernardino County.

2. Upon promulgation of this order, title to the lands shall vest in the State of California as school grant land pursuant to the Act of May 2, 1932; 47 Stat. 140; 43 U.S.C. 870.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310-84-M

43 CFR Public Land Order 5939

[S 5574]

California; Revocation of Executive Order No. 6798

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This action will revoke an Executive Order which withdrew certain lands in California for use for lookout station purposes in connection with cooperative forest protection work. The lands will be opened to the mining laws; however, they remain segregated from the public land laws. The Bureau of Land Management will administer the

area as a part of the Clear Lake National Cooperative Land and Wildlife Management Area.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Marie M. Getsman, California State Office, 916–484–4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Executive Order No. 6798 of July 27, 1934, which withdrew and reserved public land for lookout station purposes in connection with cooperative forest protection work, is hereby revoked.

Mount Diablo Meridian

T. 9 N., R. 3 W.,
Sec. 4, Lot 2.

The area aggregates 39.94 acres in Napa County.

The land is located on the west slope of Berryessa Peak in the Vaca Mountains on the central east side of Napa County and about 41 air miles west-northwesterly of Sacramento, California.

2. The lands are withdrawn from all forms of appropriation under the public land laws by Public Land Order No. 2693 of June 7, 1962, for the Clear Lake National Cooperative Land and Wildlife Management Area and will remain so withdrawn.

3. The lands will be open to location under the United States mining laws at 10 a.m., on June 23, 1981. They have been and will continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the land should be addressed to the State Director, Bureau of Land Management, Room E–2841, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

43 CFR Public Land Order 5940

[CA 7442]

California; Revocation of Executive Order No. 7026

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a withdrawal affecting 40 acres of land withdrawn in connection with Federal and State cooperative forest-protection work. This action will restore the land to the operation of the public land laws, including the location of nonmetalliferous minerals under the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Celia Anderson, California State Office, 916–484–4431.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Executive Order No. 7026 of April 30, 1935, which withdrew the following described lands from settlement, location, sale or entry, for use as a lookout station in connection with Federal and State cooperative forest-protection work, is hereby revoked in its entirety:

San Bernardino Meridian

T. 18 S., R. 3 E.,
Sec. 28, NW¼NW¼.

The area described contains 40 acres in San Diego County.

2. At 10:00 a.m., on June 23, 1981, the land shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10:00 a.m., on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10:00 a.m., on June 23, 1981, the land will be open to nonmetalliferous mineral location under the United States mining laws. The land has been open to applications and offers under the mineral leasing laws and to metalliferous mineral location under the United States mining laws.

Inquiries concerning the land should be addressed to the Bureau of Land Management, Room E–2841, 2800 Cottage Way, Sacramento, California 95825.

43 CFR Public Land Order 5941

[CA–7370]

California; Revocation of Executive Order No. 4202

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes an Executive Order which withdrew lands in aid of legislation. The action will restore approximately 2,113 acres of land to the operation of the public land laws generally, including location of nonmetalliferous minerals under the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Celia Anderson, California State Office, 916–484–4431.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Executive Order No. 4202 of April 14, 1925, which withdrew the following described lands pending enactment of proposed legislation, is hereby revoked in its entirety:

San Bernardino Meridian

T. 7 N., R. 3 E.,
Sec. 2, lots 3 and 4, S½NW¼.
T. 17 S., R. 9 E.,
Sec. 32, S½.
T. 18 S., R. 9 E.,
Sec. 4, all;
Sec. 5, all;
Sec. 8, lots 3 to 6, inclusive, N½N½;
Sec. 9, lots 1 to 4, inclusive.

The area described aggregates 2,113.42 acres in Imperial and San Bernardino Counties.

2. At 10 a.m. on June 23, 1981, the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10 a.m. on June 23, 1981, the lands will be open to nonmetalliferous mineral location under the United States mining laws. They have been open to applications and offers under the mineral leasing laws and to metalliferous mineral location under the United States mining laws.

Inquiries concerning the lands should be addressed to the Bureau of Land Management, Room E–2841, 2800 Cottage Way, Sacramento, California 95825.

BILLING CODE 4310–84–M

43 CFR Public Land Order 5942

[CA-4706]

California; Modification of Public Land Order No. 431 to Make Lands Available for Leasing Under the Geothermal Steam Act of 1970

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order modifies Public Land Order No. 431 which withdrew lands for the China Lake Naval Weapons Center by making lands available for leasing of geothermal steam and associated geothermal resources under the provisions of the Geothermal Steam Act of 1970. This order also identifies those lands withdrawn by Executive Order No. 6206 which are and have been open to geothermal leasing on both a competitive and noncompetitive bid basis.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Walt Holmes, California State Office 916–484–4431.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2751, 43 U.S.C. 1714), it is ordered as follows:

1. Public Land Order No. 431 of December 19, 1947, withdrew public lands from appropriation under the public land laws, including the mining and mineral leasing laws, for use of Navy as a naval ordnance testing center and proving range. That order is hereby modified, but only to the following extent: the hereinafter described lands are restored and opened to leasing of the geothermal steam and associated geothermal resources under the provisions of the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) and the Act of February 28, 1958 (43 U.S.C. 155 et seq.). Such leasing will be only upon terms and conditions agreed to by the Secretary of the Interior and the Secretary of the Navy. The lands shall otherwise remain withdrawn from appropriation under all other public land laws including, but not limited to, the mining and remaining mineral leasing laws, for use by the Department of the Navy.

Navy Weapons Testing Center and Proving Range

China Lake, California

Mount Diablo Meridian

BILLING CODE 4310–84–M

43 CFR Public Land Order 5924

[M–41590]

Montana; Partial Revocation of Public Water Reserve No. 76

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes an Executive Order in part as to 40 acres of land withdrawn as a public water reserve. This action will restore the land to operation of the public land laws generally, including nonmetalliferous minerals under the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Roland F. Lee, Chief, Branch of Lands and Minerals Operations, Montana State Office, 406–657–6291.

By virtue of the authority vested in the Secretary of the Interior, by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Executive Order dated June 14, 1921, which withdrew certain lands for public water reserve purposes is hereby revoked insofar as it affects the following described land:

Public Water Reserve No. 76

Principal Meridian

T. 7 S., R. 11 W.,
Sec. 19, NW¼SE¼.
The area described contains 40 acres in Beaverhead County.

2. At 10 a.m. on June 23, 1981, the land shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in order of filing.

3. The land will be open to nonmetalliferous mineral location under the United States mining laws at 10 a.m. on June 23, 1981. It has been and continues to be open to metalliferous mineral location under the United States mining laws and to applications and offers under the mineral leasing laws.

Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 30157, Billings, Montana 59107.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

BILLING CODE 4310–84–M

43 CFR Public Land Order 5882

[OR–20234–A]

Oregon; Partial Revocation of Public Water Reserve No. 87

AGENCY: Bureau of Land Management.

ACTION: Public land order.

SUMMARY: This order revokes an Executive Order in part as to 160 acres of public land withdrawn as a public water reserve. This action will restore the lands to operation of the public land laws generally, including nonmetalliferous mineral location under the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503–231–6905.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of November 9, 1923, which withdrew certain lands for public water reserve purposes is hereby revoked so far as it affects the following described lands:

Willamette Meridian

Public Water Reserve No. 87

T. 34 S., R. 42 E.,
Sec. 14, NW¼SW¼.
T. 35 S., R. 44 E.,
Sec. 26, NE¼NW¼.
T. 37 S., R. 44 E.,
Sec. 17, SE¼NW¼ and NE¼SW¼.

The areas described aggregate 160 acres in Malheur County.

2. At 10 a.m., on June 23, 1981, the public lands described above shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m., on June 23, 1981, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

3. At 10 a.m., on June 23, 1981, the public lands described above will be open to nonmetalliferous mineral location under the United States mining laws. The lands have been and continue to be open to metalliferous mineral location under the United States mining laws and to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

May 18, 1981.

43 CFR Public Land Order 5889

[ORE–05274]

Oregon; Revocation of Public Land Order No. 1442

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes a public land order which withdrew 40 acres of land for use by the U.S. Air Force. The land and mineral estate have been determined to be unsuitable for return to the public domain and have been reported to the General Services Administration for disposition as excess property.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office 503–231–6905.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. Public Land Order 1442 of July 5, 1957, which withdrew the following described land for use by the U.S. Air Force is hereby revoked:

Willamette Meridian

Falcon Heights, Kingsley Field

T. 39 S., R. 9 E.,
Sec. 34, SW¼NW¼.
The area described contains 40 acres in Klamath County.

2. The land described above has been reported to the General Services Administration for disposition as excess property and will not be restored to operation of the public land laws, including the mining and mineral leasing laws.

Inquiries concerning the land should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

Garrey E. Carruthers,

Assistant Secretary of the Interior.

43 CFR Public Land Order 5890

[OR-20236-B]

Oregon; Partial Revocation of Public Water Reserve No. 91

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order revokes an Executive Order in part as to 339.89 acres of lands withdrawn as a public water reserve. This action will restore 279.89 acres to operation of the public land laws generally, including nonmetalliferous mineral location under the mining laws. Sixty acres remain segregated from operation of the public land laws, including the mining laws.

EFFECTIVE DATE: June 23, 1981.

FOR FURTHER INFORMATION CONTACT: Champ C. Vaughan, Jr., Oregon State Office, 503-231-6905.

By virtue of the authority contained in Section 204 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2751; 43 U.S.C. 1714, it is ordered as follows:

1. The Executive Order of June 13, 1925, which withdrew certain lands for public water reserve purposes, is hereby revoked so far as it affects the following described public lands:

Willamette Meridian

Public Water Reserve No. 91

T. 18 S., R. 39 E.,
Sec. 14, NW¼SW¼;
Sec. 18, SW¼SE¼;
Sec. 19, NW¼NE¼ and NE¼NW¼.
T. 28 S., R. 44 E.,
Sec. 21, NW¼SW¼ and N½SW¼SW¼.
T. 31 S., R. 43 E.,
Sec. 6, SE¼NW¼.
T. 34 S., R. 45 E.,
Sec. 7, Lots 10 and 11.

The areas described aggregate 339.89 acres in Malheur County.

2. The public land in T. 28 S., R. 44 E., is included in proposed protective withdrawal ORE 017370 and remains segregated from operation of the public land laws generally, including the United States mining laws.

3. At 10 a.m., on June 23, 1981, the public lands described in paragraph 1, except as provided in paragraph 2, will be open to operation of the public lands laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m., on June 23, 1981, will be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

4. At 10 a.m., on June 23, 1981, the public lands described in paragraph 1, except as provided in paragraph 2, will be open to nonmetalliferous mineral location under the United States mining laws. The public lands described in paragraph 1, except as provided in paragraph 2, have been and continue to be open to metalliferous mineral location under the United States mining laws. All the lands have been and continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the State Director, Bureau of Land Management, P.O. Box 2965, Portland, Oregon 97208.

May 18, 1981.

BILLING CODE 4310-84-M

FEDERAL MARITIME COMMISSION

46 CFR Part 503

[General Order 22; Amdt. 11]

Public Observation of Federal Maritime Commission Meetings and Public Access to Information Pertaining to Commission Meetings; Public Information

AGENCY: Federal Maritime Commission.

ACTION: Final rule.

SUMMARY: This amendment eliminates the current two week advance request requirement applicable to agency personnel for closure of items to be scheduled for "Sunshine" meetings. This change will provide greater flexibility to scheduling meetings, while still conforming to the notice requirements of the Sunshine Act.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Francis C. Hurney, Secretary, Federal Maritime Commission, 1100 L St. NW., Washington, D.C. 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: The Commission's current rule regarding requests by agency personnel to close items to be scheduled for a "Sunshine" meeting requires such requests to be submitted to the Secretary not later than two weeks prior to the Commencement of the meeting (46 CFR 503.74(a)). The purpose of the requirement is to allow the Secretary to schedule and accomplish a vote by the Commission on any such request to close in sufficient time to publish notice of the meeting within the seven day time restriction imposed by the Sunshine Act. Experience under this rule has shown that the two week advance request requirement is unnecessarily long and unduly restricts agency flexibility in scheduling items for meetings and in determining whether items can be closed to public observation.

To remedy this situation the Commission has determined to amend this rule to eliminate the rigid two-week requirement and to provide a more flexible procedure. Notice and public participation on this amendment are not required because the rule in question pertains solely to internal agency procedures, not affecting the public. For the same reason the requirements of the Regulatory Flexibility Act do not apply.

Therefore, pursuant to 5 U.S.C. 533(b)(A), paragraph (a) of § 503.74, Title 46 CFR is revised to read as follows:

§ 503.74 Procedures for closing a portion or portions of a meeting or a portion or portions of a series of meetings on agency initiated requests.

(a) Any member of the agency, the Managing Director, or the General Counsel of the agency may request that any portion or portions of a meeting or any portion or portions of a series of meetings be closed to public observation for any of the reasons provided in § 503.73 of this Subpart by submitting such request in writing to the Secretary of the agency in sufficient time to allow the Secretary to schedule a timely vote on the request pursuant to paragraph (b) of this section.

* * * * *

By the Commission May 13, 1981.[1]

Joseph C. Polking,

Acting Secretary.

[FR Doc. 81-16023 Filed 5-28-81; 8:45 am]

BILLING CODE 6730-01-M

[1] *Commissioner Daschbach dissenting.* Closure of agenda items deprives the public of its right to view the deliberations leading to agency actions which have a significant impact upon the public interest. Agenda items should therefore be closed only under *exceptional* circumstances, and provisions permitting such closures should be tightened rather than relaxed.

Proposed Rules

Federal Register
Vol. 46, No. 103
Friday, May 29, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Ch. IX

[Docket No. AO-379]

Carrots Grown in the Forty-Eight Contiguous States; Termination of Proceedings on Proposed Marketing Agreement and Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

SUMMARY: This document terminates the proposed marketing agreement and order for carrots grown in the 48 contiguous States. The proposal would primarily have authorized regulation of consumer-sized carrot bags and master containers. Considering the lapse of time, the record is so dated that there is no clear showing of a need for the program and its various provisions.

FOR FURTHER INFORMATION CONTACT: Charles W. Porter, Chief, Vegetable Branch, F&V, AMS, USDA, Washington, D.C. 20250 (202) 447-2615.

SUPPLEMENTARY INFORMATION: Prior documents in this proceeding:

Notice of Hearing—Issued September 13, 1976, and published September 16, 1976 (41 FR 39772)

Notice of Recommended Decision—Issued November 30, 1977, and published December 6, 1977 (42 FR 61599)

Preliminary Statement

A public hearing was held upon a proposed marketing agreement and order for carrots grown in the forty-eight contiguous States at Los Angeles, California, November 2, 1976, and continued at Dallas, Texas, on November 10, 1976.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.) and the applicable rules of practice (7 CFR Part 900). The Notice of Recommended Decision was issued November 30, 1977, and published December 6, 1977 (42 FR 61599).

However, because of the extensive time that has elapsed since the hearings and apparent lack of interest on the part of much of the industry, the Secretary hereby finds that the proposed marketing agreement and order are currently not in the public interest, and the proceedings are hereby terminated.

Signed at Washington, D.C., on May 22, 1981.

C. W. McMillan,

Assistant Secretary for Marketing and Transportation Services.

[FR Doc. 81-16149 Filed 5-28-81; 8:45 am]

BILLING CODE 3410-02-M

Food Safety and Quality Service

7 CFR Part 2851

[Docket No. 81-022N]

U.S. Standards for Grades of Shelled Peanuts; Withdrawal of Proposed Rule

AGENCY: Food Safety and Quality Service, USDA.

ACTION: Notice of withdrawal of proposed rule.

SUMMARY: This notice withdraws a December 14, 1979, notice of proposed rulemaking which would have combined the three current U.S. grade standards for shelled Virginia, Runner, and Spanish type peanuts into a single U.S. Standard for Grades of Shelled Peanuts. The proposed U.S. grade standards include additional kernel size classifications and changes in various tolerances for split kernels, defects, undersize and oversize kernels, and provisions to facilitate export trading. A Solicitation of Information, published Februrary 3, 1981, in the **Federal Register**, sought information from the public concerning several technical points of industry disagreement on the proposed U.S. standards for shelled peanuts.

The Agency received comments from the four major peanut sheller associations, the candy and peanut butter manufacturers' association, and individual manufacturers, shellers, and international brokers. The comments indicate the original areas of disagreement have not been resolved and the Food Safety and Quality Service (FSQS) alternate proposals presented are not acceptable to the shelled peanut industry. Therefore, FSQS has determined to withdraw the proposed U.S. Standards for Grades of Shelled Peanuts.

The Agency will consider proposing U.S. standards for shelled peanuts at another time if it receives a request to do so by a group representative of all segments of the peanut industry.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Michael A. Canon, Fruit and Vegetable Quality Division, Food Safety and Quality Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447-2093.

SUPPLEMENTARY INFORMATION: On December 14, 1979, the Agency published in the **Federal Register** (44 FR 72599-72602) a proposed rule, U.S. Standards for Grades of Shelled Peanuts. The Southeastern Peanut Association, the Southwestern Peanut Sheller Association, and the Virginia-Carolina Peanut Association requested revision of the standards to bring them in line with current marketing practices and to promote uniformity of requirements in the standards. The comments received differed widely among various industry sheller associations and manufacturer associations on the proposed rule and on alternate proposals presented in a Solicitation of Information, published in the **Federal Register** February 3, 1981 (46 FR 10498). Although considerable effort has been made by associations representing different segments of the industry, peanut shellers and the candy and peanut butter manufacturers, all parties remain in disagreement on several technical details. Therefore, the current standards, U.S. Standards for Grades of Shelled Runner Type Peanuts, U.S. Standards for Grades of Shelled Spanish Type Peanuts, and U.S. Standards for Grades of Shelled Virginia Type Peanuts, will remain in effect.

In consideration of the foregoing, the proposed U.S. Standard for Grades of Shelled Peanuts, published in the **Federal Register** on December 14, 1979, (44 FR 72599-72602), is hereby withdrawn.

Done in Washington, DC, on May 20, 1981.

Donald L. Houston,

Administrator, Food Safety and Quality Service.

[FR Doc. 81-15679 Filed 5-28-81; 8:45 am]

BILLING CODE 3410-DM-M

Animal and Plant Health Inspection Service

9 CFR Part 92

Importation of Horses

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Proposed Rule.

SUMMARY: This proposal would permit the importation of mares over 731 days of age into the United States from countries affected with contagious equine metritis (CEM) when specific requirements to prevent their introducing CEM into the United States are met. This action is needed to provide an additional means of importing such mares into the United States from CEM-affected countries when this can be done without undue risk to livestock of the United States. The effect of this action would be to permit the importation of mares over 731 days of age into the United States from CEM-affected countries when specified requirements are met.

DATE: Comments on or before July 28, 1981.

ADDRESSES: Written comments to Deputy Administrator, USDA, APHIS, VS, Room 870, Federal Building, Hyattsville, MD 20782.

FOR FURTHER INFORMATION CONTACT: Dr. D. E. Herrick, USDA, APHIS, VS, Federal Building, Room 815, Hyattsville, MD 20782, (301) 436-8170.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed in conformance with Executive Order 12291, and has been determined to be not a "major rule" because, if this proposed rule is adopted, the annual effect on the economy would be less than $100 million and should result in no increase in costs to consumers, individual industries, Federal, State or local governmental agencies or geographic regions. This action should have no adverse effect on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Additionally, Dr. Harry C. Mussman, Administrator of the Animal and Plant Health Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities. If finalized, the proposal would lift restrictions that were imposed in the fall of 1977 on the importation of certain horses from France, Ireland, and the United Kingdom, as well as restrictions added later on Australia, Belgium, Italy, the Federal Republic of Germany, and Japan. During that period of time any mares originating in any one of these countries had to spend at least one year in a CEM-free country in order to enter the United States.

It is anticipated that from 50 to 200 importers will bring in an additional 1 to 4 mares annually, making a maximum of 800 horses per year. There will probably be an initial heavy influx of mares in the fall in order for them to be acclimated prior to next spring's breeding season. The total number of horses of all classes imported into the United States from all countries during Fiscal Year 1980 was 14,666.

To the best of our knowledge, through the years the number of small entities involved in the importation of mares from the countries involved has been extremely limited because of factors such as the volume of animals sold; stallion fees ranging from $5,000 to $50,000; stallions syndicated up to $32,000,000 and the international operations involved. The average cost to import a horse is from $5,000 to $7,000, including preembarkation testing and treatment, the cost of transportation and post entry quarantine. Further, this rule would not affect many other small entities which import mares from other countries not affected by the rule.

Notice is hereby given in accordance with the Administrative procedure provisions in 5 U.S.C. 553, that, pursuant to section 2 of the Act of February 2, 1903, as amended; and sections 2, 3, 4, and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 134a, 134b, 134c, and 134f), the Animal and Plant Health Inspection Service is considering amending Part 92, Title 9, Code of Federal Regulations.

Section 92.2(i)(1) of the regulations prohibits the importation of certain horses into the United States from the countries of Australia, Belgium, Ireland, Italy, Federal Republic of Germany, France, Japan, the United Kingdom, and the Isle of Man, because of the existence of CEM in these countries.

Sections 92.2(i)(2)(ii), 92.2(i)(2)(iii), 92.2(i)(2)(iv) and 92.2(i)(2)(v) of the regulations provide for the importation into United States from countries in which CEM exists, of certain horses under certain specified conditions. Presently, the importation for permanent entry into the United States of mares over 731 days of age from countries in which CEM exists is prohibited.

The Department has conducted studies of horses affected with CEM organisms which have included the development and evaluation of surgical removal of the clitoral sinuses (clitoral sinusectomy) of mares over 731 days of age, swabbing and culture techniques, serological tests, and the effectiveness of treatment. These studies are available by contacting Dr. R. C. Knowles, USDA, APHIS, VS, Federal Building, Room 739, Hyattsville, MD 20782. Based on these studies, the Department believes that clitoral sinusectomy and certain topical treatments would be effective in freeing mares over 731 days of age from the contagion of CEM. Therefore, this proposal would provide a method for the importation into the United States of such mares under specified conditions which the Department believes will prevent the introduction of CEM into the United States.

This proposal would redesignate § 92.2(i)(2)(v) as § 92.2(i)(2)(vi) and would designate the requirements for the importation of mares over 731 days of age from countries in which CEM exists in this proposal as § 92.2(i)(2)(v) to provide better continuity and readability of the regulations regarding the importation of horses from CEM-affected countries.

Specifically, proposed § 92.2(i)(2)(v) would provide for the importation of any mare over 731 days of age if such mare is accompanied by an import permit as required in § 92.4 and if such mare is accompanied by a certificate which contains the information required by § 92.17, and is signed by a salaried veterinary officer of the national government of the country of origin. In addition, the certificate would state: (1) that all of the procedures which would be required by proposed § 92.2(i)(2)(v), discussed below, have been conducted under the direct supervision of the salaried veterinary officer of the national government of the country of origin who is signing the certificate; (2) the dates on which the surgery, treatment and cultures required by § 92.2(i)(2)(v) are performed; (3) the results of all cultures required by § 92.2(i)(2)(v) and the name of the laboratory conducting such cultures, and (4) that, except as provided in proposed § 92.2(i)(2)(v)(G), all specimens required to be cultured are found negative for CEM. This information would be required so that the Department can be assured that the procedures considered necessary to assure that mares over 731

days of age do not introduce CEM into the United States have been performed.

Experience in England and the United States has shown that the clitoral sinuses and the clitoral fossae are the most common sites for harboring CEM bacteria after the acute disease has subsided. Due to the minute size of the clitoral sinuses, it is difficult to obtain satisfactory specimens for culturing by swab, as well as difficult to adequately treat such areas for CEM. However, the Department believes that there will not be risk of spread of CEM by the importation of mares over 731 days of age if the clitoral sinuses are removed and their external genitalia and vaginal vestibule and clitoral fossa are cleaned and washed and treated as discussed below.

Proposed § 92.2(i)(2)(v)(D) would require that for 5 consecutive days, beginning the seventh day after removal of the clitoral sinuses, a licensed veterinarian shall clean and wash (scrub) the external genitalia and vaginal vestibule including the clitoral fossa with a solution of not less than 2 percent chlorhexidine in a detergent base. The clitoral fossa shall be filled and the external genitalia and vaginal vestibule shall be coated (packed) with an ointment of not less than 0.2 percent nitrofurozone. The 5 consecutive days postsurgical treatment is necessary to remove any contamination or possible spread of the CEM organism during the surgical procedure, and such treatment should provide reasonable assurance that the mare so treated will be free of the contagion of CEM. The postsurgical treatment must be postponed until 7 days after surgery to allow the mare to heal.

In addition, certain tests would be required to assure that the mare is free of CEM before it is imported into the United States.

Proposed § 92.2(i)(2)(v)(B) would require that a specimen (swab) be collected by a licensed veterinarian from the clitoral sinus of the mare within two hours prior to the removal of the clitoral sinuses and submitted by the licensed veterinarian to a laboratory approved to culture for CEM by the National Veterinary Service of the country of origin. The collection of these specimens and their culture appears to be necessary to identify those mares which are still harboring the CEM bacteria and which would, therefore, not be eligible to be exported to the United States.

Proposed § 92.2(i)(2)(v)(E) would require postsurgical cultures to provide further evidence that the mare is free of CEM. After an interim of 7 days following the fifth consecutive day of scrubbing the external genitalia and vaginal vestibule and filling the clitoral fossa, 3 separate specimens would be required to be collected by a licensed veterinarian from the clitoral fossa, at intervals of not less than 7 days between the collection of each set of specimens, and each such specimen would be required to be submitted by a licensed veterinarian to a laboratory approved to culture for CEM by the National Veterinary Service of the country of origin.

Proposed § 92.2(i)(2)(v)(E) would require that for nonpregnant mares an additional specimen also shall be collected by a licensed veterinarian from the endometrium of the uterus during estrus and all specimens shall be submitted by the veterinarian to a laboratory approved to culture for CEM by the National Veterinary Service of the country of origin.

Mares with any positive culture for CEM of specimens collected pursuant to these procedures would not be certified for export to the United States, except as provided in proposed § 92.2(i)(2)(v)(G). A negative finding for all of the specimens is necessary because any positive result would indicate that the mare is affected with CEM. Proposed § 92.2(i)(2)(v)(G) does provide a procedure whereby mares with one or more positive cultures may be imported into the United States. The Department believes that this procedure would insure that even those mares which have had one or more positive cultures are free of CEM. To import such mares into the United States, a licensed veterinarian would be required to collect three additional separate sets of specimens from the clitoral fossa at not less than 7 day intervals, with the first set collected not less than one year from the date of the last positive culture. One set shall be collected from the endometrium of the uterus during estrus and the last set shall be collected within 30 days prior to the date of export. If the three additional sets of specimens are found negative for CEM, at a laboratory approved to culture for CEM by the National Veterinary Services of the country of origin, the mare may be certified for export to the United States.

Experience has shown that many mares will cleanse themselves of the CEM organism, and this one year time period from the date of the last positive culture has generally been found to be sufficient to free the mare of CEM.

The Department would impose the requirement that the test be performed in a laboratory approved to culture for CEM by the National Veterinary Service of the country of origin to ensure the accuracy of the tests.

Intervals of not less than 7 days between the topical treatment and the first collection of specimens and between each set of specimens are necessary to allow any CEM organisms which may exist to grow, so that they may be detected. The department is requiring 3 separate sets of specimens because swabbing to collect specimens is not a precise technique. The experience of equine practitioners in Kentucky who have tested horses affected with CEM indicates that 3 separate sets of specimens collected from the prescribed anatomical areas at an interval of at least seven days between each set provide a sufficient diversity of specimens so that a test of such specimens for CEM is considered accurate.

Proposed § 92.2(i)(2)(v)(E) would require that the last of the 3 sets of specimens, which would be required by this procedure to be collected, be cultured negative within 30 days of the date of export of the mare to the United States. This requirement would be imposed to reduce the likelihood of a mare becoming affected with CEM after the last test and prior to exportation. The Department believes that requiring exportation within 30 days of the last test for CEM provides an importer with a reasonable time in which to arrange for the importation and does not constitute a great risk that the mare may become affected with CEM since the date of the last test.

Proposed § 92.2(i)(2)(v)(F) would require that a mare not be bred from the time the treatment described in § 92.2(i)(2)(v) was begun through the date of export. This requirement would ensure that the mare does not become affected with CEM by such breeding at any time from the start of the required procedures through the date of exportation.

As stated above, the certificate accompanying the mare must, among other things, state that the salaried veterinary officer of the National Government of the country of origin directly supervise the surgery, topical treatment and specimen collection procedures set forth in § 92.2(i)(2)(v); the Department intends that such veterinary officer be physically present to supervise the clitoral sinusectomy, topical treatment and specimen collection procedures as required. The Department would require this certification to ensure that the procedures in § 92.2(i)(2)(v) have in fact been complied with.

Section 92.17 of the regulations requires, among other things, that horses imported from any part of the world be

accompanied by a certificate showing that such horses have not been in any country listed in § 92.2(i)(1) as affected with CEM during the 12 months immediately prior to their importation into the United States. Horses which are imported from countries listed in § 92.2(i)(1) under the exemptions in §§ 92.2(i)(2) (i), (ii), (iii) and (iv) are presently exempt from that requirement.

This proposal would provide that mares over 731 days of age imported from countries listed in § 92.2(i)(1) for permanent entry under the exemptions in proposed § 92.2(i)(2)(v) would also be exempt from the requirement that the certificate accompanying them show that the horses have not been in any country listed in § 92.2(i)(1) during the last 12 months immediately prior to their importation into the United States.

The reason that such horses should be exempt from that requirement is that they appear to present no risk of introducing CEM into the United States. Therefore, there does not appear to be any reason for prohibiting the importation of such mares on the grounds that the certificate accompanying them indicates that they have been in a country listed in § 92.2(i)(1) during the last 12 months immediately prior to their importation into the United States.

As in the case of stallions over 731 days of age imported from CEM-affected countries, (see 9 CFR section 92.4(a)(5), (6), and (7); 45 FR 1003–1006), this amendment would provide additional procedures for mares over 731 days of age following their importation from CEM-affected countries into the United States. These procedures which are described below, are believed necessary to provide further assurance that CEM will not be disseminated in the United States.

Proposed § 92.4(a)(8) would also require that any mare over 731 days of age from a CEM-affected country, for which a permit is requested pursuant to § 92.2(i)(2)(v) of the regulations, must be consigned to a State which the Deputy Administrator of Veterinary Services, Animal and Plant Health Inspection Service, has approved to receive such mares. Import permits would only be issued for such mares if such a State is indicated as the place to which the mare is consigned. Proposed § 92.4(a)(8)(ii) would list those States which have been approved to receive mares over 731 days of age pursuant to § 92.2(i)(2)(v). Proposed § 92.4(a)(9) would require the State to have laws or regulations in effect to require additional inspection, treatment and testing of such mares to further insure their freedom from CEM. This proposal would establish the minimum standards which a State must meet in order to be approved to receive mares over 731 daysof age imported from CEM-affected countries for permanent entry. These standards contain treatment, testing and handling procedures which are believed necessary to ensure that such mares being imported into the United States are free of the contagion of CEM.

For a State to be approved to receive mares from CEM-affected countries pursuant to § 92.2(i)(2)(v) the State would be required to enter into a written agreement with the Deputy Administrator, Veterinary Services, whereby the State would agree to enforce State laws and regulations to control contagious equine metritis and to abide by the conditions of approval established by the regulations in Part 92.

This procedure is believed necessary to provide added assurance that a State will control the movement of mares over 731 days of age imported from CEM-affected countries to ensure that CEM is not disseminated in the United States.

Further, to be approved, the State would be required to quarantine mares over 731 days of age from CEM affected countries imported pursuant to § 92.2(i)(2)(v) of the regulations until the mare has been treated and found free of CEM in accordance with the provisions of proposed § 92.4(a)(9). The quarantine of such mares is deemed to be necessary to ensure that the mares, if infected with CEM, do not transmit this disease to other horses in the United States. To be approved, a State would be required to have laws and regulations to ensure that mares over 731 days of age from CEM affected countries imported pursuant to § 92.2(i)(2)(v) of the regulations are treated as follows: on 5 consecutive days, an accredited veterinarian shall aseptically clean and wash the external genitalia, vaginal vestibule and clitoral fossa, with a solution of not less than 2 percent chlorhexidine in a detergent base and then coat the external genitalia and vaginal vestibule with an ointment of not less than 0.2 percent nitrofurozone insuring that the clitoral fossa is filled. After an interim of 7 days following the fifth consecutive day of scrubbing the external genitalia and vaginal vestibule and filling the clitoral fossa, for pregnant mares, an accredited veterinarian would collect 3 separate specimens from the clitoral fossa at intervals of not less than 7 days between the collection of each set of specimens. The specimens would then be submitted to a State or Federal animal disease diagnostic laboratory for culture. Seven days after foaling, an accredited veterinarian would be required to collect one specimen from the endometrium of the uterus of the mare and one specimen from the foal. If the foal is female, this specimen would be collected from the vaginal vestibule; and, if a male, the specimen would be collected from the prepuce. Each of these specimens would be required to be submitted to a State or Federal animal disease diagnostic laboratory for culture.

For nonpregnant mares, an accredited veterinarian would be required to collect 3 separate sets of specimens from the clitoral fossa at an interval of not less than 7 days between the collection of each set of specimens with one additional specimen collected from the endometrium of the uterus during estrus. All such specimens would be required to be submitted to a State or Federal animal disease diagnostic laboratory for culture.

If any specimen required by proposed § 92.4(a)(9) were positive for CEM the mare would not be released from quarantine. To obtain release from quarantine, three additional sets of negative cultures on specimens collected from the clitoral fossa by an accredited veterinarian at an interval of not less than 7 days would be required. The first set of cultures would be required to be collected not less than one year from the date of the last positive culture, and one additional set of specimens would be collected during estrus from the endometrium of the uterus. Experience has shown that many mares will cleans themselves of the CEM organism and this one-year time period is believed to be a necessary adjunct to antibiotic therapy.

Proposed § 92.1 (x) and (y) would define the terms "accredited veterinarian" and "licensed veterinarian" to clarify the meaning of those two terms as used in this proposal and Part 92.

Accordingly, Part 92, Title 9, Code of Federal Regulations, would be amended in the following respects:

1. The authority citation for Part 92 would be amended to read as follows:

Authority: Sec. 203, 60 Stat. 1087, as amended, secs. 6, 7, 8, 10, 26 Stat. 416, as amended, 417, sec. 2, 32 Stat. 792, as amended, sec. 306, 46 Stat. 689, as amended, secs. 2, 3, 4, 5, 11, 76 Stat. 129, 130, 132, sec. 1, 84 Stat. 202, (7 U.S.C. 1622, 19 U.S.C. 1306, 21 U.S.C. 102–105, 111, 134a, 134b, 134c, 134d, 134f and 135).

2. In § 92.1, new paragraphs (x) and (y) would be added to read:

§ 92.1 Definitions.

* * * * *

(x) *Accredited Veterinarian.* A veterinarian approved by the Deputy Administrator in accordance with the provisions of Part 161 of the title to perform functions specified in Parts 1, 2, 3, and 11 of Subchapter A, and Subchapters B, C, and D of this chapter, and to perform functions required by cooperative State-Federal disease control and eradication programs.

(y) *Licensed veterinarian.* Any person licensed by any country or political subdivision thereof to practice veterinary medicine.

3. In § 92.2, paragraph (i)(2)(v) would be redesignated (i)(2)(vi) and a new paragraph (i)(2)(v) would be added to read:

* * * * *

§ 92.2 General prohibitions; exceptions.

(i) * * *

(2) * * *

(v) Any mare over 731 days of age imported, if:

(A)(*1*) The mare is accompanied by an import permit as required in § 92.4, and

(*2*) The mare is accompanied by a certificate, which contains the information required by § 92.17, is signed by a salaried veterinary officer of the national government of the country of origin and, in addition, states:

(*i*) That the salaried veterinary officer of the national government of the country of origin directly supervised the surgery, topical treatment and specimen collection required by paragraphs (i)(2)(v)(B), (i)(2)(v)(C), (i)(2)(v)(D), (i)(2)(v)(E) and (i)(2)(v)(G) of this section.

(*ii*) The dates on which the surgery, treatment and cultures required by paragraphs (i)(2)(v)(B), (i)(2)(v)(C) (i)(2)(v)(D) (i)(2)(v)(E) and (i)(2)(v)(G) of this section were performed.

(*iii*) The results of all cultures required by paragraph (i)(2)(v) of this section and the name of the laboratory that conducted such cultures.

(*iv*) That, except as provided in paragraph (i)(2)(v)(E) of this section, all specimens required to be cultured have been found negative for CEM; and

(B) A licensed veterinarian collects a specimen from the clitoral sinus of the mare within two hours prior to surgery required by paragraph (i)(2)(v)(C) of this section, and submits such specimen to a laboratory approved to culture for CEM by the National Veterinary Service of the country of origin; and

(C) A licensed veterinarian removes surgically the clitoral sinuses of the mare and submits such clitoral sinuses to a laboratory approved to culture for CEM by the National Veterinary Service of the country of origin; and

(D) For 5 consecutive days, beginning the seventh day after removal of the clitoral sinuses, a licensed veterinarian aseptically cleans and washes (scrubs) the external genitalia and vaginal vestibule, including the clitoral fossa with a solution of not less than 2 percent chlorhexidine in a detergent base and then fills the clitoral fossa and coats the external genitalia and vaginal vestibule with an ointment of not less than 0.2 percent nitrofurozone; and

(E) After an interim of 7 days following the 5th consecutive day of scrubbing the external genitalia and the vaginal vestibule and filling the clitoral fossa, a licensed veterinarian collects three separate specimens from the clitoral fossa, at an interval of not less than 7 days between the collection of each specimen, and each specimen is cultured with negative results for CEM at a laboratory approved to culture for CEM by the National Veterinary Service of the country of origin. For any nonpregnant mare, a licensed veterinarian collects an additional specimen during estrus from the endometrium of the uterus and the specimen is cultured with negative results for CEM at a laboratory approved to culture for CEM by the National Veterinary Service of the country of origin. The last of the three sets of specimens collected during this procedure is collected within 30 days of the date of export of the mare described on the certificate; and

(F) The mare described on the certificate is not bred from the time treatment required by this paragraph was begun through the date of export; and

(G) Any specimen required by paragraphs (i)(2)(v)(B), (i)(2)(v)(C), (i)(2)(v)(D), or (i)(2)(v)(E) of this section is found to be positive for CEM, and a licensed veterinarian collects three additional separate sets of specimens from the clitoral fossa at not less than 7-day intervals, with the first set collected not less than 1 year from the date of the last positive culture and each additional specimen is cultured with negative results at a laboratory approved to culture for CEM by the National Veterinary Services of the country of origin. One set shall be collected from the endometrium of the uterus during estrus and the last set shall be collected within 30 days prior to the date of export.

4. In § 92.4, new paragraphs (a)(8) and (a)(9) would be added to read:

§ 92.4 Import permits for ruminants, swine, horses from countries affected with CEM, poultry, poultry semen, animal semen, birds, and for animal specimens for diagnostic purposes.

(a) * * *

* * * * *

(8)(i) For mares over 731 days of age from countries listed in § 92.2(i)(1) and for which a permit is requested pursuant to § 92.2 (i)(2)(v), a permit will be issued only if the mare for which the permit is to be issued is consigned to a State which the Deputy Administrator, Veterinary Services, has approved to receive mares over 731 days of age in accordance with the provisions of paragraphs (a)(9) of this section.

(ii) The following States have been approved to receive mares over 731 days of age pursuant to § 92.2(i)(2)(v):

(9) In order for a State to be approved to receive mares over 731 days of age pursuant to § 92.2(i)(2)(v), the following conditions must be met:

(i) The State must enter into a written agreement with the Deputy Administrator, Veterinary Services, whereby the State agrees to enforce its laws and regulations to control contagious equine metritis and to abide by the conditions of approval established by the regulations in this part; and

(ii) The State must agree to quarantine all mares over 731 days of age imported from countries listed in § 92.2(i)(1), pursuant to § 92.2 (i)(2)(v), until such mares have been treated in accordance with the provisions of this paragraph; and

(iii) The State must have laws and regulations to insure that mares over 731 days of age imported from countries listed in § 92.2(i)(1), pursuant to § 92.2(i)(2)(v), have been treated and handled in the following manner:

(A) For 5 consecutive days, an accredited veterinarian shall aseptically clean and wash (scrub) the external genitalia and vaginal vestibule, including the clitoral fossa with a solution of not less than 2 percent chlorhexidine in a detergent base and then fill the clitoral fossa and coat the external genitalia and vaginal vestibule with an ointment of not less than 0.2 percent nitrofurozone.

(B) After an interim of 7 days following the 5th consecutive day of scrubbing the external genitalia and vaginal vestibule and filling the clitoral fossa:

(*1*) For any pregnant mare over 731 days of age, an accredited veterinarian shall collect three separate specimens from the clitoral fossa, at an interval of not less than 7 days between the

collection of each set of specimens, and shall submit each specimen to a State or Federal animal disease diagnostic laboratory for culture. Seven days after foaling, an accredited veterinarian shall collect one specimen from the endometrium of the uterus of the mare and one specimen from the foal, and each specimen shall be submitted by the accredited veterinarian to a State or Federal animal disease diagnostic laboratory for culture. If the foal is female, this specimen shall be collected from the vaginal vestible; and, if male, the specimen shall be collected from the prepuce.

(2) For any nonpregnant mare over 731 days of age, an accredited veterinarian shall collect three separate sets of specimens from the clitoral fossa, at an interval of not less than 7 days between the collection of each set of specimens, with one additional specimen collected from the endometrium of the uterus during estrus, and shall submit each specimen to a State or Federal animal disease diagnostic laboratory for culture.

(C) If any specimen required by this section is found to be positive for CEM, the mare shall not be released from State quarantine except as provided in this paragraph. For such mare, an accredited veterinarian shall collect three additional separate sets of specimens from the clitoral fossa at not less than 7 day intervals between each set, with the first set collected not less than 1 year from the date of the last positive culture; and, one additional set of specimens shall be collected from the endometrium of the uterus during estrus. If the additional sets of specimens are negative for CEM, the mare may be released from quarantine.

5. In § 92.17, that part of the first sentence after the fourth semicolon and before the fifth semicolon would be amended to read:

§ 92.17 Horses, certification, and accompanying equipment.

* * *; and, except as provided in § 92.(i)(2) (i), (ii), (iii), (iv), and (v), the horses have not been in any country listed in § 92.2(i)(1) as affected with CEM during the 12 months immediately prior to their importation into the United States; * * *

All written submissions made pursuant to this proposed rule will be made available for public inspection at the Federal Building, 6505 Belcrest Road, Room 870, Hyattsville, MD., during regular hours of business (8 a.m. to 430 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue in the **Federal Register.**

Done at Washington, D.C., this 22d day of May 1981.

C. W. McMillan,

Assistant Secretary for Marketing and Transportation Services.

BILLING CODE 3410-34-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Parts 1910 and 1918a

[Docket No. S-506]

Marine Terminals; Extension of Comment Period

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Extension of time for submission of comments.

SUMMARY: This notice extends the period for written comments concerning the rulemaking proceeding for marine terminals (29 CFR Part 1918a). In response to the requests made by several parties attending the public meeting on April 28, 1981 to have the comment period extended, OSHA has decided to grant an extension of time, until August 15, 1981.

As provided in the notice of January 16, 1981, interested persons may also file objections to the proposal and request that OSHA hold an informal public hearing to discuss these objections.

DATES: Written comments and any requests for a hearing must be postmarked on or before August 15, 1981.

ADDRESS: Written comments and requests for a hearing should be submitted to the Docket Officer, Docket No. S-506, Occupational Safety and Health Administration, Room S-6212, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210, (202) 523-7894.

FOR FURTHER INFORMATION CONTACT: Mr. Basil Needham, Director, Office of Maritime Safety Standards, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Room N3471, Washington, D.C. 20210, (202) 523-7234.

SUPPLEMENTARY INFORMATION: The Occupational Safety and Health Administration published a Notice of Proposed Rulemaking concerning the establishment of a new Part 1918a, for safety and health regulations covering marine terminals, on January 16, 1981 (46 FR 4182). Interested persons were given until May 15, 1981, to submit comments with respect to the proposal and to file objections and request a hearing. OSHA also provided these persons with the opportunity to attend informal public meetings in Washington, D.C. from April 28-30, 1981, to express their views on the contents of the proposal.

Several parties present at the public meeting held on April 28, 1981 indicated that they needed more time to analyze the proposal and submit their comments to the Agency. OSHA believes that the length and complexity of the proposal warrants approval of the requested extension. Therefore, OSHA has decided to extend the comment period until August 15, 1981.

As provided in the Notice of Proposed Rulemaking, interested persons may, in addition to submitting written comments also file objections to the proposal and request an informal public hearing with respect to those objections, in accordance with the following conditions:

(1) The objections must include the name and address of the objector;

(2) The objections must be postmarked on or before August 15, 1981, and submitted to the Docket Office;

(3) The objections must specify with particularity the provisions of the proposed rule to which objection is taken, and must state the ground therefor;

(4) Each objection must be separately stated and numbered; and

(5) The objections must be accompanied by a detailed summary of the evidence proposed to be adduced at the requested hearing.

All written comments and requests for a hearing must be postmarked on or before August 15, 1981, and submitted to the Docket Officer, Docket No. S-506, Room S-6212, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

This document was prepared under the direction of Thorne G. Auchter, Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

(Sec. 6, Pub. L. 91-596, 84 Stat. 1593 (29 U.S.C. 655), Sec. 41, 44 Stat. 1444 (33 U.S.C. 941); 29 CFR Part 1911, and Secretary of Labor's Order No. 8-76 (41 FR 25059))

Signed at Washington, D.C. this 21st day of May, 1981.

Thorne G. Auchter,

Assistant Secretary of Labor.

DEPARTMENT OF DEFENSE

Office of the Secretary

32 CFR Chs. I, V, VI, and VII

33 CFR Ch. II

36 CFR Ch. III

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Department of Defense.

ACTION: Publication of the Department's semiannual agenda of regulations under review or development by the Department of Defense and its components.

SUMMARY: The Department of Defense is publishing its sixth semiannual agenda of regulations for public information and comments. Initiated under E.O. 12044 in November of 1978 and voluntarily implemented throughout the Department under the DoD Regulatory Improvement Plan, this agenda continues the intent and purposes of those original objectives now part of the Department's rulemaking process. This agenda is the first under the new E.O. 12291, "Federal Regulations," and contains many of the provisions and objectives of the previous E.O. It also incorporates those objectives determined applicable under the new E.O. As experience is gained and the scope of the new E.O. broadened, future agendas may be modified to include additional rulemaking areas deemed relevant and appropriate to the revised objectives. Although the next agenda's official publication date under E.O. 12291 is scheduled for October of 1981, a supplemental, separate, or combined agenda may be published earlier if determined significant and relevant.

FOR FURTHER INFORMATION CONTACT: For information concerning the overall DoD Regulatory Improvement and general semiannual agenda information, contact Colonel Peter H. Karalus, telephone 202-695-4281 or write: Directorate for Organizational and Management Planning, OASD(C), Pentagon, Washington, D.C. 20301.

SUPPLEMENTARY INFORMATION: This consolidated agenda is composed of the regulatory status reports from the Office of the Secretary of Defense and the Departments of the Army, Navy and Air Force. As in previous agendas the regulations contained herein are not major regulations that impact significantly upon the public, the economy, nor state or private institutions as defined under the E.O. The regulations selected for publication were chosen to increase public knowledge of DoD actions in common areas of interest and allow for comment and participation in the Department's rulemaking process. This initial agenda under E.O. 12291, while continuing the review and comment process originated under the previous E.O., also contains additional items desired under the new E.O. Its format has also been modified to allow each DoD Component to incorporate the desired rulemaking information into their administrative reporting process. Each DoD Component's report should generally include the following information:

- Proposed regulations they have issued or expect to issue.
- Current effective rules under review pursuant to E.O. 12291, if applicable.
- Summary and nature of each rule being considered.
- Objectives and legal basis for issuance of each rule.
- Approximate schedule for completing action.
- List of existing regulations to be reviewed.
- Name and telephone number of knowledgeable official for rules published.
- Statement indicating whether the rule is major.

Although not a regulatory agency, the Department will continue to participate in regulatory initiatives designed to reduce economic costs and unnecessary burdens upon the public. Comments and recommendations are invited and should be addressed to the DoD Component representatives published in each section.

Individual component reporting variations of the above agenda requirements may be found within each section due to the separate mission, functions and responsibilities of the reporting components.

Included in this agenda is the initial regulatory report from the US Army, Corps of Engineers, whose civil works functions fall under the reporting requirements of the new E.O. Their agenda will reflect these requirements and be followed by further reporting actions determined necessary under the E.O.

This agenda is published voluntarily by the Department of Defense, consistent with Executive Order No. 12291, Federal Regulation, February 17, 1981, for the guidance and the interest of the public, notwithstanding the inapplicability of section 553 of title 5, United States Code, or any other legal requirement for such publication. The provisions of the Regulatory Flexibility Act, Pub. L. No. 96-354, 94 Stat. 1164, therefore, do not apply.

D. O. Cooke,

Deputy Assistant Secretary of Defense.

May 27, 1981.

Office of the Secretary—Improving Government Regulations: Semiannual Agenda

ACTION: Semiannual Agenda of Regulatory and Procedural Documents Under Development or published by the Office of the Secretary of Defense (OSD).

SUMMARY: The charts below list the DoD policy documents that were published during the period December 1, 1980 through May 29, 1981. This is the sixth semiannual agenda and the first submitted under E.O. 12291.

FOR FURTHER INFORMATION CONTACT: Where a contact official is indicated, contact that individual. For other information on the Agenda, contact Mrs. Margarete S. Healy, telephone 202-697-4111, or write to Directives Division, C&D, WHS, Room 2A286, Pentagon, Washington, D.C. 20301.

SUPPLEMENTARY INFORMATION: The impact and philosophy of E.O. 12291 as compared with E.O. 12044 have changed the direction of government regulation agenda requirements. Whereas E.O. 12044 focused on improving government regulations, strengthening agency head oversight, and providing opportunities for public participation in general terms, E.O. 12291 is specific in addressing the more far-reaching effect federal regulations may have on the U.S. economy.

In our previous agenda preambles, we maintained that the regulatory documents issued by the Office of the Secretary of Defense (OSD) are defense mission-directed, that the OSD is not considered a regulatory agency, and that OSD is largely exempt from the provisions of E.O. 12044. We agreed voluntarily, however, to participate in the effort to increase public knowledge on DoD implementation of laws and statutes.

In this agenda, we continue to list OSD regulatory documents, proposed and final, that were issued during the period December 1, 1980, and May 29, 1981.

None of the regulatory documents is a "major rule", nor does the Regulatory

Flexibility Act of 1980 apply; the documents have been published to comply with the provisions of 5 U.S.C. 552 and subsection (b) of 5 U.S.C. 553.

No major rules are presently under development.

Office of the Secretary Defense Regulations Published During Period Dec. 1, 1980, Through Apr. 30, 1981

CFR No.	Title	DOD directive/ instruction	Comments
32 CFR Part 41	Enlisted Administrative Separations	1332.14	Published 46 FR 9571, January 29, 1981, this was a reissuance of this Part (41 FR 9068), and incorporates 2 changes. Another revision of this part is now in coordination within the Department and will be published in the FEDERAL REGISTER as a proposed rule in June 1981. Contact official: LTC R. F. Baker, OASD(MRA&L) MPP, Washington, D.C. 20301, 202-697-9525.
32 CFR Part 46	Federal Voting Assistance Program	1000.4	Published 45 FR 84766, December 23, 1980. This rule implements E.O. 10646, The Federal Voting Assistance Act of 1955 and the Overseas Citizens Voting Rights Act of 1975. Contact official: Mr. H. Valentino, FVAP, WHS, Washington, D.C. 20301, 202-695-9300.
32 CFR Part 57	Hearings Required by the Education for All Handicapped Children Act of 1975.	6060.xx	This Part was published as an interim rule with request for comments, 46 FR 25440, May 7, 1981, pending issuance of a proposed rule to implement the Education for All Handicapped Children Act of 1975, and the Defense Dependants' Education Act of 1978. Contact official: Mr. Paul S. Koffsky, OGC, DoD, Washington, D.C. 20301, 202-695-3657.
32 CFR Part 59	Voluntary Military Pay Allotments	7330.1	Published 46 FR 10908, February 5, 1981, this reissuance updates policies that implement 37 U.S.C. Chapter 13 and governs voluntary allotments of pay and allowances for active duty and retired members. Contact official: Mr. J. Jasinski, OASD(C), Washington, D.C. 20301, 202-697-0536.
32 CFR Part 62a	Education and Training in Alcohol and Drug Abuse Prevention.	1010.5	Published 45 FR 84995, December 24, 1980, this rule establishes the DoD education and training policy in execution of 32 CFR Part 62, "Alcohol and Drug Abuse by DoD Personnel," which, in turn, implements standards in Pub. L. 92-255, as amended; 91-616, as amended; 92-129, as amended; and the FPM Sup. 792-2, February 1980. Contact official: Dr. John F. Mazzuchi, OASD(HA), Washington, D.C., 202-695-6800.
32 CFR Part 142	DoD Policy on Organizations That Seek to Represent or Organize Members of the Armed Forces in Negotiation or Collective Bargaining.	1354.1	Published 45 FR 84055, December 22, 1980, this reissuance incorporates the provisions of 10 U.S.C. 976, Pub. L. 95-610. A proposed rule (45 FR 43436) was published June 27, 1980, and comments solicited. Contact official: Colonel J. L. Fugh, OASD(MRA&L) MPP, Washington, D.C. 20301, 202-697-9283.
32 CFR Part 159	DoD Information Security Program	5200.1, 5200.1-R	Published 45 FR 79759, December 2, 1980, this regulation supplements Part 159 (5200.1)(44 FR 12670) published March 8, 1979, and implements section 5-402 of E.O. 12065. Contact official: Mr. Arthur F. Van Cook, ODUSDP, Washington, D.C., 202-695-2289.
32 CFR Part 166	Defense Contracting Reporting Procedure on Defense Related Employment.	7700.15	An amendment to this rule published 45 FR 83486, December 19, 1980, is the FY 80 update of the section listing DoD contractors receiving negotiated contract awards of $10 million or more, in compliance with provisions of Section 410, Pub. L. 91-121. Contact official: Ms. C. V. Springer, ODIO&R, WHS, Washington, D.C., 202-694-5614.
32 CFR Part 199	Implementation of the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS).	6010.8, 6010.8-R	A statement of policy published 46 FR 19818, April 1, 1981, gives public notice of a benefit policy decision on radial keratotomy, a surgical procedure to correct nearsightedness (myopia), as an experimental procedure. A technical change and statement of policy published 46 FR 21992, April 15, 1981, deletes the definition of conjoint therapy from the regulation, and announces a policy for payment of claims for collateral visits and conjoint therapy. Contact official: Ms. Lorraine F. Carpenter, OASD (HA), Washington, D.C. 20301, 202-697-5185.
32 CFR Part 201	Sale of Surplus Military Equipment to State and Local Law Enforcement and Firefighting Agencies.	4160.23	Published 46 FR 12494, February 17, 1981, this reissuance updates DoD policy and procedures governing the sale of certain DoD-owned surplus personal property to state and local law enforcement and firefighting agencies pursuant to title 10, U.S.C., Section 2576 (Pub. L. 90-500). Contact official: Mr. J. Marcus, OASD(MRA&L), Washington, D.C. 20301, 202-697-9196.
32 CFR Part 286	DoD Freedom of Information Act Program	5400.7, 5400.7-R	Published 45 FR 80502, this regulation supplements and revises Part 286 (5400.7) (45 FR 28323) published April 29, 1980, and prescribes uniform procedures in implementing the Freedom of Information Act (5 U.S.C. 552). Contact official: Colonel R. Farris, OASD(PA), Washington, D.C. 20301, 202-697-1180.

Department of the Army—Regulatory Agenda

AGENCY: Department of the Army.

ACTION: Publication of the Department of the Army's regulatory agenda of regulations as required by Pub. L. 96-354.

SUMMARY: The Department of the Army continues to receive and evaluate the need for existing regulations and to improve the quality of those deemed necessary. The Regulatory Agenda is a summary of regulations proposed or published by the Department during the last six months. The Regulatory Review List is a semiannual summary of existing or proposed regulations under internal review and coordination for revocation or revision. This review, however, is a continuing process under Army's directives management program; independent of Pub. L. 96-354; and only reflects those rules affecting the public.

SUPPLEMENTARY INFORMATION: The Agenda and Review List include regulations, which support the National Defense effort as well as the civil works activities of the Corps of Engineers, published in Titles 32 and 33 of the Code of Federal Regulations. The Agenda and Review List reflect the Department's efforts to conform with the spirit and intent of new legislation and an Executive Order recently promulgated.

Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) requires the designation of those regulations for which a regulatory flexibility analysis is prepared which would have an effect on a substantial number of small entities. With the exception of the civil works activities of the Corps of Engineers, Department of the Army regulations are essentially procedural and administrative and do not impose substantial requirements or costs on small entities or substantially alter their legal rights.

Review List

The Review List provided by the Army contains no regulation which would have a significant economic impact on small entities.

DEPARTMENT OF THE ARMY—SEMIANNUAL AGENDA

(Period December 1, 1980–April 30, 1981)

Part I—Status of Regulations Reviewed (Agenda November 30, 1980)

CFR No.	Title	Public comments	Status	Contact officer
32 CFR Parts 552.30 thru 552.36.	Acquisition of Real Property and Interests Therein (AR 405–10). 43 USC 315q and r 10 USC 2331, 2237, 3038.		Proposed Rule, 43 FR 59328, Dec. 19, 1978. No date for publication of Final Rule has been established.	Mr. Deimens, COE, Tel. (202) 272–0492.
32 CFR Part 553	Visitors Rules for Arlington National Cemetery, 24 USC Ch 7.	Two comments were received and considered.	Final Rule published. Item will be deleted from next Agenda.	Major J. P. King, Tel. (202) 695–0482.

Part II—Army Regulations Under Development

Description	Citation	Additional information
Obtaining Information from Financial Institutions (AR 190–xx).	32 CFR 504	*Summary.* To establish policy and procedures governing access to and disclosure of financial records maintained by financial institutions during the conduct of Army investigations or inquiries. It specifies that it is Department of the Army policy to seek consent of the customer in order to obtain a customer's financial records from a financial institution unless doing so would compromise or harmfully delay a legitimate law enforcement inquiry. If obtaining consent is not possible or if the customer declines to grant access, the proposed regulation details alternate means by which Army investigative elements may seek such access under the law. *Objective.* To comply with the Right to Financial Privacy Act of 1978. *Legal Basis.* 12 U.S.C. 3401. *Knowledgeable Official.* Major Hackett, DCSPER, Tel. (703) 756–1697. *Status.* Proposed Rule published February 10, 1981 (46 FR 11672) with a Final Rule to be published by mid-1981.
Private Organizations on Department of Army Installations.	32 CFR 556	*Summary.* Proposal to implement DoD Instruction 1000.15, "Private Organizations on Military Installations." This regulation would be applicable to all private organizations on Army installations except those under special Department of Defense sanction as set forth in separate agreements or regulations. *Objective.* To clarify the issues that private organizations are private and self-sustaining; are not officially affiliated with the United States Government or its instrumentalities; and are subject to state and local ordinances. *Legal Basis.* 10 U.S.C. 3102. *Knowledgeable Official.* Ms Terri Slocomb, TAGO, Tel. (202) 325–9370. *Status.* Proposed Rule published January 15, 1981 (46 FR 3561) with a Final Rule to be published by mid-1981.

Part III—Army Regulations Under Review

Summary: The following 10 Army Directives will be reviewed for elimination, consolidation, simplification, or addition to 32 CFR with the spirit of the Regulatory Flexibility Act and EO 12291.

Objective: To provide the Department of the Army staff and field operating agencies policies and procedures for implementing the captioned planning activity. These are non-significant regulations which impose no regulatory burden and are internal procedural documents. To keep requirements operationally current, only the CFR part, Army regulation number, summary (caption), and the identity of a contact officer are listed.

Description	Regulation	Summary (caption)	Knowledgeable official
32 CFR (new part, number unassigned)	AR 1–xx	Administering Appointed and Contracted Consultants and Experts for Supporting Army Studies.	Dr. Metzger, Tel. (202) 697–0026.
32 CFR (new part, number unassigned)	AR 190–24	Armed Forces Disciplinary Control Boards and Off-Installation Military Enforcement Service.	MAJ Case, Tel. (703) 756–1896.
32 CFR 518.51	AR 310–4	Publication of Rules Affecting the Public	Mr. Roach, Tel. (202) 325–6163.
32 CFR 518.1	AR 340–17	Release of Information and Records from Army Files	Mr. Walker, Tel. (202) 325–6163.
32 CFR 552.30 thru 552.74	AR 405–10	Acquisition of Real Property and Interests Therein	Mr. Deimens, Tel. (202) 272–0492.
32 CFR (new part, number unassigned)	AR 405–20	Federal Legislative Jurisdiction	Mr. Pracacek, Tel. (202) 272–0523.
32 CFR 645	AR 405–25	Real Estate Annexation	Mr. Pracacek, Tel. (202) 272–0523.
32 CFR 643	AR 405–80	Granting Use of Real Estate	Mr. Pracacek, Tel. (202) 272–0523.
32 CFR 652	AR 420–74	Natural Resources: Land, Forest, and Wildlife Management	Mr. Bandel, Tel. (202) 272–0592.
32 CFR 644	EP 405–1–2 Chapters 8 and 10.	Real Estate Handbook	Mr. Pracacek, Tel. (202) 272–0523.

Department of the Army—Corps of Engineers—Regulatory Agenda

AGENCY: U.S. Army Corps of Engineers.

SUMMARY: In response to Public Law 96–354, the "Regulation Flexibility Act," and Executive Order 12291, "Federal Regulation," the Army is publishing for public information a list of regulations pertaining to civil functions of the Department. These Civil Works regulations are either under development or under review.

FOR FURTHER INFORMATION CONTACT: The person designated as knowledgeable official at the telephone number listed, or write the official c/o Civil Works Directorate, Office of the Chief of Engineers, Washington, D.C. 20314. Inquiries can also be directed to Major (P) James Paul King, Office of the Assistant Secretary of the Army (Civil Works), telephone (202) 695–0482.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (RFA) and E.O. 12291 require semiannual publication, in April and October, of an agenda of regulations that are "likely to have a significant economic impact on a substantial number of small entities" and "major" regulations, respectively. The RFA and E.O. 12291 also require agencies to include in their agenda currently effective rules that are (or, in the case of the RFA after July 1, 1981, will be) under agency review. The following is the first semiannual agenda, for its Civil Works program, to be published by Army under the RFA and E.O. 12291. None of the regulations listed meet the standards required of a "major" regulation specified in E.O. 12291 or the economic impact specified in RFA.

Part I—Civil Works Regulations Under Development

Description	Citation	Additional information
Proposal to Amend Permit Regulations of the U.S. Corps of Engineers.	33 CFR 320–330	*Summary.* Proposal is to amend permit regulations published July 19, 1977, for controlling certain activities in waters of the United States, as required by law. Regulations were revised to reduce unnecessary regulatory burdens on the public by significantly expanding the nationwide permit program and to simplify procedures. *Objective.* Update to conform to laws, Executive Orders and judicial decisions which have occurred since current regulations were published (42 FR 37122–37164) and add section on nation-wide permits (33 CFR 330). *Legal Basis.* 33 USC 401 et seq., 33 USC 1344, 33 USC 1413. *Knowledgeable Official.* Mr. Goode, (202) 272–0200. *Status.* Proposed rules published September 19, 1980 (45 FR 62732–62777). Public comments received through December 1, 1980, and are under review. Final regulations scheduled to be published in late 1981 or early 1982.
Modification of Completed Projects	(Proposed)	*Summary.* Will coalesce policy on use of existing authorities for study and accomplishment of modifications to completed projects. *Objective.* Simplify existing guidance. *Legal Basis.* Sec. 216, P.L. 91–611. *Knowledgeable Official.* Mr. Teeters, (202) 272–0116. *Status.* Proposed rule scheduled for publication September 1981.
Implementation of E.O. 11990: Protection of Wetlands.	33 CFR 235	*Summary.* Provides instructions for implementing wetland protection (Engineer Regulation 1165–2–401). *Objective.* Clarifies Presidential guidance. *Legal Basis.* E.O. 11990. *Knowledgeable Official.* Mr. Teeters, (202) 272–0116. *Status.* Proposed rule published June 10, 1980. Comment period closed July 24, 1980. Final Rule scheduled for publication May 1981.
Use of Nonstructural Measures in Planning for Flood Damage Reducton.	(Proposed)	*Summary.* Will provide policies on formulation of plans incorporating nonstructural measures (Engineer Regulation 1165–2–122). *Objective.* Promote consistent formulation. *Legal Basis.* 33 USC 701b–11. *Knowledgeable Official.* Mr. Teeters, (202) 272–0116. *Status.* Proposed rule scheduled for publication August 1981.
Establishment of Wetlands in Connection with Dredging.	33 CFR 232	*Summary.* Provides guidance on establishing wetlands at water resources projects (Engineer Regulation 1165–2–27). *Objective.* Achieve uniform implementation. *Legal Basis.* Sec. 150, P.L. 94–587. *Knowledgeable Official.* Mr. Teeters, (202) 272–0116. *Status.* Proposed rule published October 24, 1979. Comments received to December 31, 1979. Final rule scheduled for publication June 1981.
Requirements for Local Participation	(Proposed)	*Summary.* Will set forth policies and procedures for ascertaining requirements of local cooperation to recommend to Congress (Engineer Regulation 1165–2–29). *Objective.* Achieve consistency from reporting officers. *Legal Basis.* 33 USC 547. *Knowledgeable Official.* Mr. Teeters, (202) 272–0116. *Status.* Proposed rule scheduled for publication July 1981.
Appendix C. Procedures for the Protection of Historic and Cultural Properties.	33 CFR 325	*Summary.* This appendix, jointly drafted by the Corps of Engineers and the President's Advisory Council on Historic Preservation was published for comment on April 3, 1980 (45 CFR 22112). Twenty-four letters of comment were received. The Corps and the Advisory Council will jointly draft the final regulation. *Objective.* To insure consistency in Corps' planning. *Legal Basis.* 16 USC 469. *Knowledgeable Official.* Mr. Goode, (202) 272–0200. *Status.* Currently on hold. Final rule to be published late 1981.

PART II—Civil Works Regulations Under Review

The following 22 Corps of Engineers' Engineer Regulations (ERs) appearing in 33 CFR will be reviewed for elimination, consolidation, or simplification within the spirit of E.O. 12291. For all of them, the following items of additional information apply:

Objective: Provide to Corps of Engineers' field operating agencies policies and procedures for implementing the captioned planning activity. The ERs are not regulations which themselves impose regulatory burdens. They are internal procedure documents.

Legal Basis: 10 USC 3036.

Knowledgeable Official: Dr. Wolff (202) 272–0146.

Description	Regulation	Summary (caption)
33 CFR 305	ER 1105–2–11	Identification and Administration of Cultural Resources.
33 CFR 252	ER 1105–2–14	Framework and River Basin Study Programs (Level A and Level B Studies).
33 CFR 264	ER 1105–2–22	Urban Studies Program.

Department of the Navy—Improving Government Regulations; Semiannual Agenda

ACTION: Semiannual agenda of regulatory information under review or development by the Navy Department as required by the DoD plan for Improving Government Regulations.

SUMMARY: The Department of the Navy published its first regulatory agenda in November 1978, and subsequent agendas thereafter, in compliance with Executive Order 12044 and the DoD plan for Improving Government Regulations. This agenda provides status of regulations that were previously reported under that Executive Order.

The Department of the Navy has no major regulations under development which meet the criteria of the new Executive Order 12291. Since Navy regulations are primarily directed toward supporting the Navy mission and its people, they do not normally impact upon the public directly.

The Navy will continue to voluntarily apply regulatory reform actions, including the agenda, to the regulatory process in compliance with Executive Order 12291.

FOR FURTHER INFORMATION CONTACT: Where a contact official is indicated, contact the specified individual. For general information contact Ms. Alcinda P. Wenberg, telephone 202–695–1921, or write to Chief of Naval Operations, OP–09B15, Department of the Navy, Washington, D.C. 20350.

Part I. Status of Regulations Previously Reviewed (Agenda Nov. 30, 1978)

Department of the Navy—*Regulatory Agenda*

[Nov. 30, 1980 through May 30, 1981]

CFR No.	Title	Status	Contact officer
32 Part 725	Disposition of cases Involving Physical Disability.	Under revision due to change in basic requirements. Will be forwarded to the Office of Federal Register by 1 September 1981*.	LCDR M. W. Kirkpatrick, NCPB, Tel: 696–4366.
32 Part 730	Administrative Discharges and Related Matters Concerning Separations from the Naval Service.	Awaiting issuance of DOD Directive, same subject. To be forwarded to the Office of Federal Register by 1 March 1981*.	Mr. Minick, NMPC, Tel: 694–3613.

Status of regulations previously under development (agenda Nov. 30, 1979)

CFR No.	Title	Status	Contact officer
32 Part 701.1	Availability to the Public of Department of the Navy Records.	Being revised to implement a DOD Regulation. Will be forwarded to the Office of Federal Register by 1 December 1981*.	Mr. Donald Carr, OPNAV, Tel: 697–2004.
32 Part 701.100	Personal Privacy and Rights of Individuals Regarding Their Personal Records.	To be forwarded to the Office of Federal Register by 1 August 1981*	Ms. Gwen Rhoads, OPNAV, Tel: 694–2004.

*Approximate completion date.

Part II. Regulations Under Development

The Department of the Navy has no major regulations under development that meet the criteria of the new Executive Order 12291.

Part III

The Department of the Navy has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to these Rules and that the provisions under subsection (b) of section 553 of title 5 of the United States Code does apply.

Department of the Air Force—Semiannual Agenda

December 1, 1980–May 30, 1981

ACTION: Publication of the Department of the Air Force sixth semiannual agenda of regulations under review.

SUMMARY: The agenda is submitted to voluntarily comply with Executive Order 12291, Federal Regulations, and contains the information formerly required by Executive Order 12044, Improving Government Regulations, and the DOD Implementation Plan. The agenda lists those regulations under review within the Department of the Air Force and the status of those regulations previously reported. These regulations are not "Major Rules" as expressed in Executive Order 12291 but are "in-house" in nature, and are listed to voluntarily comply with the Executive Order. There are no existing regulations to be reviewed as of this date; any forthcoming regulations will be listed in future agendas. The Department of the Air Force has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to these rules and that the provisions under subsection (b) of section 553 of Title 5 of the United States Code do apply.

FOR FURTHER INFORMATION CONTACT:
Where a contact person is indicated, contact that individual. For other information concerning the agenda, contact Mrs. Carol M. Rose, telephone (202) 697–1861 or write, Department of the Air Force, AS/DASJR, Pentagon, Washington, DC 20330.

Part I—Status of Regulations Previously Reported

Department of the Air Force Semiannual Agenda

[Dec. 1, 1980–May 30, 1981]

CFR No.	Title	Status	Approximate schedule for completing action
32 CFR 803	Disposition of Personal Property	Revision in draft status	January 1982.
32 CFR 806	Air Force Freedom of Information Act Program.	First coordination completed; expected to go to editors in early June	October 1981.
32 CFR 822	Information Audiovisual (AV) Activities	Revision in draft status	Fall 1982.
32 CFR 827a	Release of information on Accidents	Revision in draft status	Fall 1982.
32 CFR 837	Support of Nongovernment Groups	Revision in draft status	Fall 1982.
32 CFR 842	Claims Manual	Revision in draft status	May 1982.
32 CFR 865 (Subpart B)	Personnel Review Boards (AF Discharge Review Board).	Awaiting publication of DOD Directive 1332.28	Cannot estimate until DOD Directive is out.
32 CFR 892	Part-Time Career Employment	Published in the FR as proposed rule 21 March 1980 (45 FR 18405). Final manuscript being processed.	July 1981.
32 CFR 954	Acquisition of Information Concerning Persons and Organizations not Affiliated with the Department of Defense.	Revision in coordination process	Awaiting determination/interpretation of policy issues by OSD.
32 CFR 989	Environmental Impact Analysis Process	Published in the FR as proposed rule 26 July 1979 (44 FR 44119). Due to various changes, rule will go in FR again as proposed.	July 1981.
32 CFR (Part No. not assigned).	Real Property Management, Acquisition of Real Property.	Due to limited applicability to the general public, this regulation will not be published in the FR.	
32 CFR 834	Selecting Architect Firms for Professional Service by Negotiated Contracts.	Revision in coordination process	December 1981.
32 CFR 851	The United States AF Resources Protection Program.	Air Staff coordination completed; expected to go to editors by end of May	October 1981.
32 CFR 855	Use of USAF Installations by other than US DOD Aircraft.	Revision in coordination process	February 1982.
32 CFR (Part No. Not Assigned).	Environmental Impact Analysis Process (EIAP) Overseas.	Regulation in final review stages	July 1981.
32 CFR 860	Contractor's Flight Operations	Joint Regulation-services have not yet met to review need for revision—temporarily removing from the Agenda until revision gets underway.	
32 CFR 888e	Disposition of Conscientious Objectors	Revision in coordination process	November 1981.

Part II—Regulations Under Review

[Dec. 1, 1980–May 30, 1981]

CFR No.	Title	Purpose	Legal basis	Approximate schedule for completing action	Contact person
32 CFR 802	Air Force Technical Order System	Revision replaces the TO Council Charter for centralized Technical Order Management Group; clarifies job site criteria for critical tasks as nuclear or conventional weapon delivery systems; redefines JNWPs management; and explains the relationship.	10 U.S.C. 8012	October 1981	Mr. W. J. Stiegmann, AF/LEYE, 697-9179.
32 CFR 890	Filling Positions	Sets basic AF policy for filling positions, and specifies the priorities and restrictions that must be observed.	5 U.S.C. 301	December 1981	Mr. Peter Sharp, AF/MPKS, 694-2579.

The Department of the Air Force has no regulations under review which would require a Regulatory Impact Analysis since the Department does not normally promulgate Major Rules under the criteria expressed in E.O. 12291.

[FR Doc. 81-16209 Filed 5-28-81; 8:45 am]

BILLING CODE 3810-70-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-3-FRL 1829-3]

State of Maryland; Proposed Revision of the Maryland State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The State of Maryland has submitted a proposed revision of its State Implementation Plan (SIP) for sulfur content limitations for fuels and sulfur content limitations for coke ovens. This revision is a result of action by the Maryland Legislature removing the authority of the Secretary of Health and Mental Hygiene to establish more restrictive standards for pollutants for which National Ambient Air Quality Standards already exist. In addition, existing regulations were required to be amended to be no more restrictive than necessary to attain and maintain ambient air quality standards, provided that there is no conflict with Federal Requirements. A previous **Federal Register** notice proposed changes to the ambient air quality standards, total suspended particulate regulations, and other changes. This notice deals with the changes to the sulfur content in fuel regulations only. The following regulations have been amended by the State and proposed to EPA for inclusion in the State Implementation Plan:

Control and Prohibition of Gas and Vapor Emissions
(COMAR 10.18.02, .03, .06, .07)
(COMAR 10.18.04, .05)

This revision was accompanied by a demonstration from the State intended to show that National Ambient Air Quality Standards for sulfur oxides will not be violated as a result of these amendments and describing the techniques used in making this demonstration.

DATE: Comments must be submitted on or before June 29, 1981.

ADDRESSES: Copies of the proposed SIP revision and the accompanying support documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Air Programs Branch, Curtis Building, 6th & Walnut Streets, Philadelphia, PA 19106, Attn: Patricia Sheridan.

Air Quality Programs, State of Maryland, 201 W. Preston Street, Baltimore, MD 21201, Attn: Mr. George Ferreri, Administrator.

Public Information Reference Unit, Room 2922—EPA Library, U.S. Environmental Protection Agency, 401 M Street SW. (Waterside Mall) Washington, D.C. 20460.

All comments on the proposed revision submitted on or before 30 days from the publication of this notice will be considered and should be directed to: Mr. James E. Sydnor, Chief, DC, MD, VA Section, Air Programs Branch (3AH11), Air, Toxics and Hazardous Materials Division, U.S. Environmental Protection Agency, 6th & Walnut Streets, Philadelphia, PA 19106, Attn: AH023bMD.

FOR FURTHER INFORMATION CONTACT: Gregory Ham (3AH12), U.S. Enviromental Protection Agency, Region III, 6th & Walnut Streets, Philadelphia, PA 19106, tel. no. (215) 597-2745.

SUPPLEMENTARY INFORMATION: On October 24, 1979, Governor Harry Hughes submitted to EPA, Region III the proposed amendments to the Maryland Air Quality Control Regulations. Hearings were held on June 4, 5, and 8, 1979, and the regulations were adopted on October 9, 1979.

Description of the Regulation Changes

The Department of Health and Mental Hygiene (DHMH) has proposed amendments to Regulation .04, Control and Prohibition of Gas and Vapor Emissions in Areas I through VI. These changes are discussed in the following paragraphs.

For Areas I, II, V, and VI, Section B, Sulfur Content Limitations for Fuel, Subsection (2) has been changed to allow use of residual fuel oil with a sulfur content by weight not to exceed 2.0 percent. The previous federally approved regulation limited sulfur content to 1.0 percent.

Section D, Exceptions, Subsection (5), has been added, which sets emission standards of 1.8 lbs/mmBtu actual heat input per hour for solid fuel-burning sources, or limits sulfur content in residual oil to 1.0 percent by weight, for those sources in Area I which the Department determines would otherwise cause or exacerbate a violation of the National Ambient Air Quality Standards or Prevention of Significant Deterioration of Air Quality increments under the revised regulations. This is the level at which these sources are currently operating. The Department has indentified five sources to which this exception will apply. These sources are:

Celanese Corporation
Kelly-Springfield Tire Company
Potomac Edison Company
Fairchild Republic
Mack Trucks, Inc.

Any changes occurring in this list must be submitted to EPA as a revision to the Maryland SIP.

For Areas III and IV, the requirement in Regulation .04, Section B, Sulfur Content Limitations of Fuel, Subsection (4), that sulfur content in residual fuel be limited to 0.5 percent by weight on and after July 1, 1980, has been deleted. This allows a continuation of the existing limitations of 1 percent sulfur by weight in residual oil.

Subsection (5), Sulfur Content Limitations for Coke Ovens, has been renumbered Subsection (4) and has been changed to delete the requirement for a plant-wide average in any 2-hour period of the sulfur content by weight of coke oven gas used as fuel from coke ovens constructed before the effective date of this regulation not to exceed that permitted in residual fuel oils. This requirement was to have begun after June 30, 1983. Therefore, existing regulations remain in effect after this date.

The demonstration of air quality impacts resulting from this regulation consisted of developing concentration estimates using emission rates based on the proposed emission limitations. Because of the large area affected by this revision, several methods were used in this demonstration. The impact analyses for isolated sources were performed according to the *Guidelines for Air Quality Maintenance and Planning*, Vol. 10, Sec. 4.3. For most of the premises where more than one source was emitting, a modified CRSTER model was used. In addition, four sources had previously been modeled using the Valley model, and these results were adopted for this demonstration. Multi-source models capable of evaluating multisource interaction in urban areas were used in areas of high source density, and nearby major sources were included. One of

these models was the State's Multiple Source Dispersion Model, used for Frederick and Hagerstown. A version of EPA's model, C9M3D, was used for the Cumberland analysis. Major sources identified in the screening procedure used in this analysis as potentially causing or contributing to a violation of National Ambient Air Quality Standards or PSD increments under the revised regulations will be required to remain at emission levels required under existing regulations. Five sources are to be included in this exception for sulfur oxides. One major power plant is included in this exception. This is the only source to which the CEI evaluation criteria might apply. As this source is not included in this revision, EPA has determined that the CEI evaluation criteria does not apply to this revision. Concentrations resulting from other major sources and smaller interacting sources were estimated at levels less than those causing or exacerbating air quality standards or increments.

The modeling approach used in this demonstration has been reviewed by the Regional Office and was found to be consistent with modeling guidelines. Modeling in accordance with EPA's Modeling Guideline shows that these emission limits would not cause or contribute to a violation of the NAAQS for sulfur dioxide and would not cause significant degradation of air quality, in any other State. This emission limit, therefore, meets the requirements of Section 110(a)(2)(E) of the Clean Air Act, 42 U.S.C. 7410(a)(2)(E).

The State of Maryland submitted proof that public hearings were held in Hagerstown, Baltimore, and Salisbury, Maryland, on June 4, 5, and 8, 1979, respectively, in accordance with the requirements of 40 CFR 51.4.

Based on the foregoing, it is the tentative decision of the Administrator to approve the proposed revision of the Maryland SIP.

The public is invited to submit to the address above comments on whether the amendments of the State's regulations should be approved as a revision of the Maryland State Implementation Plan.

The Administrator's decision to approve or disapprove the proposed revision will be based on the comments received and on a determination of whether the amendment meets the requirements of Section 110(a)(2) of the Clean Air Act and 40 CFR Part 51, Requirements for Preparation, Adoption, and Submittal of State Implementation Plans.

Pursuant to the provisions of 5 U.S.C. 605(b) the Administrator has certified that SIP approvals under Sections 110 and 172 of the Clean Air Act will not have a significant economic impact on a substantial number of small entities (46 FR 8709 (January 27, 1981)). The attached rule, if promulgated, would constitute a SIP approval under Sections 110 and 172 within the terms of the January 27 certification. Moreover, due to the nature of the federal-state relationship, federal inquiry into the economic reasonableness of the state actions would serve no practical purpose and could well be improper.

Under Executive Order 12291, EPA also must judge whether a regulation is "major" and therefore subject to the requirement of a regulatory impact analysis. This rule is not "major" because it will not have an annual effect of $100 million or more or any other adverse impact on the economy. To the contrary, as noted above, this action will relieve financial burdens. Moreover, under the Clean Air Act, federal inquiry into the economic reasonableness of State SIP changes would serve no practical purpose and could well be improper.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

(42 U.S.C. 7401–642)

Dated: March 11, 1981.

Jack Schramm,

Regional Administrator.

40 CFR Part 81

[A-6-FRL-1826-7]

Designation of Areas for Air Quality Planning Purposes; State of Texas

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: This notice proposes to reaffirm the attainment designation for ozone (O_3) for McLennan County. This proposal is necessitated by the decision of the U.S. Court of Appeals for the Fifth Circuit remanding to EPA its (EPA's) redesignation of McLennan County from nonattainment to attainment for ozone. This proposed action, if made final, will reaffirm the ozone attainment designation for McLennan County. EPA solicits public comment on the proposed reaffirmation.

DATE: Comments must be submitted within on or before June 29, 1981.

ADDRESSES: Comments should be directed to Estela S. Wackerbarth, Chief, Implementation Plan Section, Air and Hazardous Materials, Environmental Protection Agency, Region 6, Dallas, Texas 75270, (214) 767–1518.

Information pertinent to the proposed designation is available for public inspection during normal business hours at the EPA Region VI office and at the following location: Publication Information Reference Unit, Room 2404 (EPA Library), 401 M Street SW., Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT: Estela Wackerbarth, Chief, Implementation Plan Section, Air and Hazardous Materials Division, Environmental Protection Agency, Region 6, Dallas, Texas 75270, (214) 767–1518.

SUPPLEMENTARY INFORMATION:

Introduction

Section 107(d)(1) of the Clean Air Act required the States to submit to the Administrator a list identifying, among other things, all air quality control regions, or portions thereof, that had not attained the National Ambient Air Quality Standards (NAAQS). Section 107(d)(2) required the Administrator to promulgate this list with such modifications as he deemed necessary. On March 3, 1978 (43 FR 9037) the Administrator promulgated designations for the State of Texas, including a nonattainment designation for ozone for McLennan County, Texas. These designations were effective immediately and public comment was solicited. On September 11, 1978 (43 FR 40412), in response to comments received, the Administrator revised certain of the original designations. The Administrator did not revise at that time the ozone nonattainment designation for McLennan County.

Pursuant to Section 107(d)(5), on April 6, 1979, the State of Texas submitted revisions to its original designation list to EPA. On October 12, 1979, (44 FR 58922), EPA proposed to revise the ozone designations for Travis and McLennan Counties from nonattainment to attainment in response to the State's request. EPA solicited public comment on this proposal. No comments were received, and by order signed April 8, 1980, EPA took final action modifying these two ozone designations to attainment (45 FR 25063, April 14, 1980).

However, on June 26, 1980, the United States Court of Appeals for the Fifth Circuit set aside the nonattainment ozone designation for McLennan County promulgated by EPA on March 3, 1978. The Court found that EPA had violated the notice and comment requirements of

the Administrative Procedure Act, 5 U.S.C. 553 (d) and (c), by failing to provide notice and opportunity to comment prior to taking final action on the original McLennan County nonattainment designation. The court also found that the revision to attainment promulgated on April 8, 1980, did not necessarily moot the controversy because, on the basis of the record before it, it could not find that a further redesignation of McLennan County to nonattainment was not imminent.

EPA believes that the ozone attainment designation promulgated on April 8, 1980, accurately reflects the most recent available ozone monitoring data for McLennan County. In addition, EPA complied with notice and comment requirements prior to promulgating this designation. Consequently, EPA believes that this April 8, 1980, designation moots the case before the Fifth Circuit. However, to satisfy the Court's remand order, EPA is today proposing to reaffirm the ozone attainment designation for McLennan County and is soliciting comments on this proposal.

Technical Basis for Designation

In February 1979, EPA relaxed the ozone NAAQS from 0.08 parts per million (ppm), maximum hourly average concentration, to 0.12 ppm (44 FR 8218, Feb. 8, 1979). EPA also promulgated a new method for determining violations of the O_3 standard. In this method, EPA averages the number of exceedances of the standard recorded at a particular monitoring site during the most recent three calendar years. As long as the average remains less than or equal to 1, the area is considered to be in compliance with the ozone standard. (See Appendix H to 40 CFR 50 (1979)). An exceedance is any monitored hourly average reading of over 0.12 ppm. If there are gaps in the daily data for a particular year or ozone season, the missing data can be estimated from existing data through the use of a mathematical formula.

To determine the status of McLennan County, EPA examined the most recent data submitted by Texas in support of its redesignation request. This data consisted of incomplete data for the calendar years 1977 and 1978.[1] EPA estimated the O_3 readings for the missing dates. For purposes of clarity in the following chart, the term "exceedance" is used to describe a daily maximum hourly average ozone measurement that is greater than the level of the standard. Therefore, the expected number of days with maximum hourly average ozone concentrations above the level of the standard may be simply stated as the "expected number of exceedances." The expected exceedances relate to accounting for incomplete sampling and the expected number is basically an arithmetic average.

Year	Highest reading (ppm)	2d highest reading (ppm)	Expected exceedances
1977	0.126	0.117	1.2
1978	.120	.120	0

EPA then averaged the number of exceedances for the two years to arrive at an average expected exceedance value of 0.6. Because this value is less than 1, EPA believes that McLennan County should properly be designated as attainment for ozone under the relaxed 0.12 ppm standard.

Proposed Action

EPA hereby proposes to reaffirm the ozone attainment status designation for McLennan County, Texas. EPA solicits public comment on this proposal.

EPA has determined that a thirty day comment period is sufficient because EPA has already provided an earlier thirty day comment period for consideration of these issues and this data. *See* 44 FR 58922 (October 12, 1979).

Pursuant to the provisions of 5 U.S.C. 605(b), EPA hereby certifies that the attached rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. This action imposes no regulatory requirements but only reaffirms an area air quality designation. Any regulatory requirements which may become necessary as a result of this action will be dealt with in a separate action.

Under Executive Order 12291, EPA must judge whether a regulation is Major and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not Major because it merely proposes to approve State actions. It imposes no new regulatory requirements. This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291. Any comments from OMB to EPA and any EPA response to those comments are available for public inspection at The Environmental Protection Agency, Region 6, Dallas, Texas 75270.

(Sec. 107(d), 171(2), and 301(a) of the Clean Air act, as amended, 42 U.S.C. 7407(d), 7501(2) and 7601(a))

Dated: April 8, 1981.

Frances E. Phillips,

Acting Regional Administrator.

[FR Doc. 81-16142 Filed 5-28-81; 8:45 am]

BILLING CODE 6560-38-M

[1] Texas did not supply EPA with O_3 data for 1979. Convinced that McLennan County had attained the standard, Texas relocated the McLennan County O_3 monitor to another area of the state for which additional monitoring data was needed.

---

40 CFR Part 434

[WH-FRL 1814-6]

Coal Mining Point Source Category, Effluent Limitations Guidelines and New Source Performance Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Changes to proposed rulemaking; notice of availability of development documents; initiation of the comment period; and corrections to the proposed regulation.

SUMMARY: On January 13, 1981, the EPA proposed regulations under the Clean Water Act to limit the discharge of effluents to waters of the United States from coal mining and preparation facilities (46 FR 3136).

Copies of the *Development Document for Proposed Effluent Limitations Guidelines, New Source Performance Standards and Pretreatment Standards for the Coal Mining Point Source Category* and *Economic Impact Analysis of Proposed Effluent Limitations Guidelines, New Source Performance Standards* and *Pretreatment Standards for the Coal Mining Point Source Category* are available from EPA on request.

One substantive change to the January 13, 1981 publication and corrections to typographical and grammatical errors are identified below.

DATE: Comments on the proposed regulation for the coal mining point source category must be submitted to the EPA by July 28, 1981.

ADDRESS: Send comments on all aspects of the proposed regulation to: Mr. William A. Telliard, Effluent Guidelines Division (WH-552), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460. Attention: EGD Docket Clerk, Coal Mining. The supporting information and all comments on this proposal will be available for inspection and copying at the EPA Public Information Unit, Room 2922 (EPA Library). The EPA public information regulation (40 CFR Part 2) provides that a reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Technical information and copies of technical documents may be obtained from Mr. William A. Telliard at the above address, (202) 426-2724. The economic analysis documents may be

obtained from Ms. Sandra Jones, Office of Analysis and Evaluation (WH-586), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, (202) 426-2617.

SUPPLEMENTARY INFORMATION: On January 13, 1981, EPA proposed effluent limitations guidelines and new source performance standards under the Clean Water Act, 33 U.S.C. 1251 et seq, for the coal mining point source category, 40 CFR Part 434, 46 FR 3136. These proposed limitations contain alternate effluent limitations that apply during precipitation events. See, *e.g.*, § 434.63. Since proposal of the regulation, the Agency has reconsidered the treatment facility design volume necessary to qualify for alternate effluent limitations during precipitation events. The storm exemption language in the January 13 proposal (*e.g.*, 434.63(c)(1)) required that treatment facility design, construction, operation, and maintenance be based upon water volumes from all surface water draining into it, including waters from the undisturbed (virgin) area and inactive (reclaimed) area, in addition to the active mining area. Today's proposal modifies the basis for the design volume by excluding from consideration waters from undisturbed areas which drain into the treatment facility. The Agency has received information that significant additional capital and operating costs are incurred in sizing a treatment facility to contain drainage from undisturbed areas and that such costs are unwarranted. Furthermore, safety considerations may preclude the sizing and placement of a facility large enough to contain all surface drainage, especially in steep-slope mining areas.

The Agency proposed to retain the requirement that in order to obtain the alternate limitations for the storm exemption the treatment facility must be designed to contain water volumes from the active and reclaimed mining areas. Collected drainage from the reclaimed area is often a source of significant amounts of sediment. A pond designed to contain drainage from the active and reclaimed areas assures adequate detention time for the sedimentation process and reasonable storage capacity for the entrained sediment.

In addition, the commingling provision, which has been rewritten for purposes of clarity in the January 13, 1981 proposal, explicitly includes coverage of drainage collected from reclamation areas (*e.g.*, § 434.61). For instance, commingled drainage from reclamation areas and acidic drainage from an active mining area would be subject to effluent limitations as follows:

Dry weather	Precip. < 10 yr [1]	Precip. > 10 yr [1]
(Base) condition	24 hr event	24 hr event
TSS, 35 mg/l avg	SS 0.5 ml/l max	pH 6 to 9.
Fe, 3.5 mg/l avg	pH 6 to 9	
Mn, 2.0 mg/l avg		
pH, 6 to 9		

[1] Where the treatment facility is designed, constructed, operated and maintained to contain the volume of water from the 10-year, 24-hour event draining from active mining areas and reclamation areas. Otherwise, effluent limitations for dry weather conditions apply.

For the purpose of regulating a commingled discharge, limitations for settleable solids need not be imposed when TSS limitations are applicable, as in the "Dry Weather" example above.

Regulatory Flexibility Analysis and Regulatory Impact Analysis: The Regulatory Flexibility Act, 5 U.S.C. 601 et seq., requires that EPA prepare an Initial Regulatory Flexibility Analysis for all proposed regulations that have a significant impact on a substantial number of small entities.

In addition, Executive Order 12291 requires that EPA prepare a Regulatory Impact Analysis for each major rule. The Order defines a "major rule" as any regulation that is likely to result in:

- An annual effect on the economy of $100 million or more;
- A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or
- Significant adverse effects on competition, employment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

These analyses may be done in conjunction with or as a part of any other analysis conducted by the Agency.

This notice merely corrects errors in the January 13, 1981 proposed regulation and, by reducing the volume of water which a facility must contain in order to qualify for the 10-year, 24-hour storm exemption, *decreases* any burden which earlier regulation may have imposed on industry. Therefore, this notice does not have a significant impact on a substantial number of small entities and is not a major rule. Accordingly, it does not trigger the requirements for a Regulatory Flexibility Analysis or Regulatory Impact Analysis.

This Notice was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Solicitation of Comments

EPA invites and encourages public participation in this rulemaking. The Agency asks that any deficiencies in the record supporting this proposal be pointed to with specificity and that suggested revisions or corrections be supported by data or other relevant information.

For the purpose of clarity, the entire January 13, 1981 proposed regulation is being published as part of today's notice. However, a substantial portion of the BPT requirements remain unaffected by today's proposal and are not being reproposed today; accordingly, comments addressed to these requirements are not appropriate to this rulemaking. EPA solicits comments only on those portions of BPT which change the prior BPT regulation—that is, the proposals covering post-mining discharges, the revised storm provision and the inclusion of western mines.

EPA is particularly interested in receiving comments and data on the following issues:

(1) Industry and other sources are invited to submit any data from pilot or commercial scale studies of the performance of flocculant addition or granular media filtration, particularly on the effectiveness of toxic metals removal. Although the Agency has undertaken a variety of treatability studies to address these technologies, EPA is aware of the possible variation of technology performance given the diverse characteristics of raw wastewaters extant in the coal mining industry.

(2) The Agency solicits comments on its proposal to establish national regulations until bond release, and on the need for establishing national regulations for existing and new mines beyond bond release.

(3) The Agency invites comments on the revised storm exemption language, particularly the requirement that treatment facility design be based upon water volumes from active mining areas and reclamation areas but not the undisturbed or virgin areas draining into the treatment facility. The Agency is interested in receiving additional case-specific examples which demonstrate the feasibility or infeasibility of designing a treatment facility to accommodate all such waters, i.e., active, reclaimed and undisturbed, with respect to containing the water volume from a 10-year, 24-hour precipitation event. This includes site-specific information on:

- Land availability for locating and constructing such a facility;
- Size of the total drainage area involved for the treatment facility;
- Ratios (or other similar expressions) of undisturbed areas, reclamation areas, and active mining areas comprising the total drainage area;
- Wastewater treatment capital and operating cost comparisons assuming:

(1) water volumes for only the active mining area; (2) water volumes from reclamation areas and active mining areas; and (3) water volumes from the entire drainage area;

• Capital and operating costs and benefits associated with diversion ditching/diking to eliminate or minimize commingling of waters from undisturbed areas with waters from active mining areas and reclamation areas;

• Effluent reduction benefits attributable to treatment facilities sized to accommodate the entire drainage area;

• Safety Safety considerations in construction and operation of the treatment facility to contain waters from the entire drainage area;

• Local geographical and geological factors affecting the location, design, performance and operation of the treatment facility; and

• Planned life of the treatment facility for: (1) the active mining phase and (2) the reclamation phase.

In order to properly assess the economic impacts of any such case-specific examples, the Agency would appreciate receiving the following related information:

• Present drainage diversion efforts;

• Current yearly production;

• Identification of market (contract or spot);

• Estimated remaining life of the mine;

• Age of the mine;

• Total annual mine operating costs, exclusive of wastewater treatment;

• Total annual wastewater treatment costs;

• F.O.B. price per short ton of coal; and

• Number of employees at the mine.

Corrections

Referring to the preamble in the January 13, 1981 **Federal Register** Notice (46 FR 3136):

1. Page 3139, column 2, line 63, "regional state" is corrected to read "regional and state".

2. Page 3140, column 1, line 20, "miles" is corrected to read "mines".

3. Page 3140, column 1, line 46, "will continue" is corrected to read "continued".

4. Page 3140, column 1, line 53, "estblish" is corrected to read "establish".

5. Page 3149, column 1, line 32, "prtovision" is corrected to read "provision".

Numerous typographical errors appeared in the regulation section of the January 13, 1981 publication. Most notably, the concentration units in the effluent limitations tables were incorrect. Additionally, a grammatical error in § 434.63, paragraph (c)(2) resulted in an incorrect reference to effluent limitations. These and numerous other typographical errors are corrected in the regulation appearing below.

Dated: May 20, 1981.

Walter C. Barber,

Acting Administrator.

It is hereby proposed to revise Part 434 of Title 40 as follows:

PART 434—COAL MINING POINT SOURCE CATEGORY, BPT, BAT, BCT LIMITATIONS AND NEW SOURCE PERFORMANCE STANDARDS

Subpart A—General Provisions

Sec.

434.10 Applicability.
434.11 General Definitions.

Subpart B—Coal Preparation Plants and Coal Preparation Plant-Associated Areas

434.20 Applicability.
434.21 [Reserved]
434.22 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available [BPT].
434.23 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable [BAT].
434.24 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology [BCT].
434.25 New Source Performance Standards [NSPS].

Subpart C—Acid or Ferruginous Mine Drainage

434.30 Applicability; description of the acid or ferruginous mine drainage subcategory.
434.31 [Reserved]
434.32 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available (BPT).
434.33 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable (BAT).
434.34 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).
434.35 New Source Performance Standards (NSPS).

Subpart D—Alkaline Mine Drainage

434.40 Applicability; description of the alkaline mine drainage subcategory.
434.41 [Reserved]
434.42 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available (BPT).
434.43 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable (BAT).
434.44 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).
434.45 New Source Performance Standards [NSPS].

Subpart E—Post-Mining Areas

434.50 Applicability.
434.51 [Reserved]
434.52 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available (BPT).
434.53 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable (BAT).
434.54 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).
434.55 New Source Performance Standards (NSPS).

Subpart F—Miscellaneous Provisions

434.60 Applicability.
434.61 Commingling of Waste Streams.
434.62 Alternate Effluent Limitations for pH.
434.63 Effluent Limitations During Precipation Events.
Appendix—Determination of Settleable Solids.

Authority: Sections 301, 304(b), (c), (e), and (g), 306(b) and (c), 307(b) and (c), and 501 of the Clean Water Act (the Federal Water Pollution Control Act Amendments of 1972, as amended by the Clean Water Act of 1977), (the "Act"); 33 U.S.C. 1311, 1314(b), (c), (e), and (g), 1316(b) and (c), 1317(b) and (c), and 1361; 86 Stat. 816, Pub. L. 92–500; 91 Stat. 1567, Pub. L. 95–217.

Subpart A—General Provisions

§ 434.10 Applicability.

This part applies to discharges from any coal mine at which the extraction of coal is taking place or is planned to be undertaken.

§ 434.11 General definitions.

(a) The term "acid or ferruginous mine drainage" means mine drainage which, before any treatment, either has a pH of less than 6.0 or a total iron concentration equal to or more then 10 mg/l.

(b) The term "active mining area" means the areas, on and beneath land,

used or disturbed in activity related to the extraction, removal, or recovery of coal from its natural deposits. This term excludes coal preparation plants, coal preparation plant-associated areas and post-mining areas.

(c) The term "alkaline mine drainage" means mine drainage which, before any treatment, has a pH equal to or more than 6.0 and a total iron concentration of less than 10 mg/l.

(d) The term "bond release" means the time at which the appropriate regulatory authority returns a reclamation or performance bond based upon its determination that reclamation work (including, in the case of underground mines, mine sealing and abandonment procedures) has been satisfactorily completed.

(e) The term "coal preparation plant" means a facility where coal is crushed, screened, sized, cleaned, dried, or otherwise prepared and loaded for transit to a consuming facility.

(f) The term "coal preparation plant—associated areas" means the coal preparation plant yards, immediate access roads, coal refuse piles, and coal storage piles and facilities.

(g) The term "coal preparation plant water circuit" means all pipes, channels, basins, tanks, and all other structures and equipment that convey, contain, treat, or process any water that is used in coal preparation processes within a coal preparation plant.

(h) The term "mine drainage" means any drainage, and any water pumped or siphoned, from an active mining area or a post-mining area.

(i) The abbreviation "ml/l" means milliliters per liter.

(j) The term "new source coal mine" means a coal mine (excluding coal preparation plants and coal preparation plant-associated areas):

(1) The construction of which is commenced after May 29, 1981; or

(2) Which is determined by the EPA Regional Administrator to constitute a "major alteration." In making this determination, the Regional Administrator shall take into account the occurrence of one or more of the following events, in connection with the mine for which the NPDES permit is being considered, after the date of proposal of applicable new source performance standards:

(i) A mine operation initiates extraction of a coal seam not previously extracted by that mine;

(ii) A mine operation discharges into a drainage area not previously affected by wastewater discharges from the mine;

(iii) A mine operation causes extensive new surface disruption;

(iv) A mine operation initiates construction of a new shaft, slope, or drift;

(v) A mine operation acquires additional land or mineral rights;

(vi) A mine operation makes significant capital investment in additional equipment or additional facilities; and

(vii) Such other factors as the Regional Administrator deems relevant.

(k) The term "post-mining area" means: (1) a reclamation area or (2) the underground workings of an underground coal mine after the extraction, removal, or recovery of coal from its natural deposit has ceased and prior to bond release.

(l) The term "reclamation area" means the surface area of a coal mine which has been returned to required contour and on which revegetation (specifically, seeding or planting) work has commenced.

(m) The term "settleable solids" is that matter measured by the volumetric method specified in the Appendix.

(n) The term "10-year, 24-hour precipitation event" means the maximum 24-hour precipitation event with a probable recurrence interval of once in ten years as defined by the National Weather Service and Technical Paper No. 40, "Rainfall Frequency Atlas of the U.S.," May 1961, or equivalent regional or rainfall probability information developed therefrom.

(o) The terms "treatment facility" and "treatment system" mean all stuctures which contain, convey, and as necessary, chemically treat coal mine drainage, coal preparation plant process wastewater, or drainage from coal preparation plant associated areas, which remove pollutants regulated by this Part from such waters. This includes all pipes, channels, ponds, basins, tanks and all other equipment serving such structures.

Subpart B—Coal Preparation Plants and Coal Preparation Plant-Associated Areas

§ 434.20 Applicability.

The provisions of this Subpart are applicable to discharges from coal preparation plants and coal preparation plant-associated areas, as indicated, including discharges which are pumped, siphoned, or drained from the coal preparation plant water circuit and coal storage, refuse storage, and ancillary areas related to the cleaning or beneficiation of coal of any rank including, but not limited to, bituminous, lignite, and anthracite.

§ 434.21 [Reserved]

§ 434.22 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available (BPT).

(a) Except as provided in 40 CFR 125.30–125.32, and sections 434.61, 434.62 and 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by any existing coal preparation plant and coal preparation plant-associated areas subject to the provisions of this Subpart after application of the best practicable control technology currently available if discharges from such point sources normally exhibit a pH of less than 6.0 prior to treatment:

BPT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/1	
Iron, total	7.0	3.5
Manganese, total	4.0	2.0
TSS	70	35
pH—Within the range of 6.0 to 9.0 at all times.		

(b) Except as provided in 40 CFR 125.30–125.32, and §§ 434.61 and 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by any existing coal preparation plant and coal preparation plant-associated areas subject to the provisions of the subpart after application of the best practicable control technology currently available if discharges from such point sources normally exhibit a pH equal to or greater than 6.0 prior to treatment:

BPT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/1	
Iron, total	7.0	3.5
TSS	70	35
pH—Within the range of 6.0 to 9.0 at all times.		

§ 434.23 Effluent limitations guidelines representing the degree of effluent reduction attainable by the appliction of the best available technology economically achievable (BAT).

(a) Except as provided in 40 CFR 125.30–125.32, and §§ 434.61, 434.62 and 434.63 of this Part 434, the following

limitations establish the concentration or quality of pollutants which may be discharged by any existing coal preparation plant and coal preparation plant-associated areas subject to the provisions of the Subpart after application of the best available technology economically achievable if discharges from such point sources normally exhibit a pH of less than 6.0 prior to treatment:

BAT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
Manganese, total	4.0	2.0

(b) Except as provided in 40 CFR 125.30–125.32, and §§ 434.61 and 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by any existing coal preparation plant and coal preparation plant-associated areas subject to the provisions of this Subpart after application of the best available technology economically achievable if discharges from such point sources normally exhibit a pH equal to or greater than 6.0 prior to treatment:

BAT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5

§ 434.24 Effluent limitations guidelines representing the degee of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).

Except as provided in 40 CFR 125.30–125.32, and §§434.61, 434.62 (in the case of discharges normally exhibiting a pH of less than 6.0 prior to treatment) and 434.63, the following limitations establish the concentration or quality of pollutants which may be discharged by any existing coal preparation plant and coal preparation plant-associated areas subject to the provisions of this Subpart after application of the best conventional pollutant control technology (BCT):

BCT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
TSS	70.0	35.0
pH—Within the range 6.0 to 9.0 at all times.		

§ 434.25 New Source Performance Standards (NSPS).

The following new source performance standards (NSPS) shall be achieved by any new source coal preparation plant and coal preparation plant-associated areas, as indicated:

(a) For new source coal preparation plants, there shall be no discharge of process wastewater pollutants from the coal preparation plant water circuit to surface waters.

(b) Except as provided in sections 434.61, 434.62 and 434.63 of this Part 434, the following new source performance standards shall apply for discharges from new source coal preparation plant-associated areas:

NSPS Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
Manganese	4.0	2.0
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

Subpart C—Acid or Ferruginous Mine Drainage

§ 434.30 Applicability; description of the acid or ferruginous mine drainage subcategory.

The provisions of this subpaart are applicable to acid or ferruginous mine drainage from an active mining area resulting from the mining of coal of any rank including, but not limited to, bituminous, lignite, and anthracite.

§ 434.31 [Reserved]

§ 434.32 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available (BPT).

Except as provided in 40 CFR 125.30–125.32, and §§ 434.61, 434.62 and, with respect to mine drainage from surface areas of a coal mine but not drainage from the underground workings of underground mines, § 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this Subpart after application of the best practicable control technology currently available:

BPT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
Manganese	4.0	2.0
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

§ 434.33 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable (BAT).

Except as provided in 40 CFR 125.30–125.32, and §§ 434.61, 434.62 and, with respect to mine drainage from surface areas of a coal mine but not drainage from the underground workings of underground mines, § 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this Subpart after application of the best available technology economically achievable:

BAT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
Manganese, total	4.0	2.0

§ 434.34 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).

Except as provided in 40 CFR 125.30–125.32, and §§ 434.61 434.62 and, with respect to mine drainage from surface areas of a coal mine but not drainage from the underground workings of underground mines, § 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by

a point source subject to the provisions of this Subpart after application of the best conventional pollutant control technology (BCT):

BCT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/1	
TSS	70.0	35.0
pH—Within the range 6.0 to 9.0 at all times.		

§ 434.35 New Source Performance Standards (NSPS).

Except as provided in §§ 434.61, 434.62 and, with respect to mine drainage from surface areas of a coal mine but not drainage from the underground workings of underground mines, § 434.63 of this Part 434, the following new source performance standards shall be achieved for any discharge from a new source subject to this Subpart:

NSPS Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/1	
Iron, total	7.0	3.5
Manganese, total	4.0	2.0
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

Subpart D—Alkaline Mine Drainage

§ 434.40 Applicability; description of the alkaline mine drainage subcategory.

The provisions of the Subpart are applicable to alkaline mine drainage from an active mining area resulting from the mining of coal of any rank including, but not limited to, bituminous, lignite, and anthracite.

§ 434.41 [Reserved]

§ 434.42 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available (BPT).

Except as provided in 40 CFR 125.30–125.32, § 434.61 and, with respect to mine drainage from surface areas of a coal mine but not drainage from the underground workings of underground mines, § 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this Subpart after application of the best practicable control technology currently available:

BPT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/1	
Iron, total	7.0	3.5
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

§ 434.43 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable (BAT).

Except as provided in 40 CFR 125.30–125.32, § 434.61 and, with respect to mine drainage from surface areas of a coal mine but not drainage from the underground workings of underground mines, § 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this Subpart after application of the best available technology economically achievable:

BAT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5

§ 434.44 Effluent limitatios guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).

Except as provided in 40 CFR 125.30–125.32, § 434.61 and, with respect to mine drainage from surface areas of a coal mine but not drainage from the underground workings of underground mines, § 434.63 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this Subpart after application of the best conventional pollutant control technology (BCT):

BCT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/1	
TSS	70.0	35.0
pH—Within the range 6.0 to 9.0 at all times.	—	

§ 434.45 New Source Performance Standards (NSPS).

Except as provided in § 434.61 and, with respect to mine drainage from surface areas of a coal mine but not drainage from the underground workings of underground mines, § 434.63 of this Part 434, the following new source performance standards shall be achieved for any discharge from a new source subject to this Subpart:

NSPS Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

Subpart E—Post-Mining Areas.

§ 434.50 Applicability.

The provisions of this subpart are applicable to discharges from post-mining areas.

§ 434.51 [Reserved]

§ 434.52 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available (BPT).

(a) Reclamation Areas

The limitations in this subsection apply to discharges from reclamation areas until bond release.

(1) Except as provided in 40 CFR 125.30–125.32, and § 434.61 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this subsection after application of the best practicable control technology currently available:

BPT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
Settleable solids	0.5 ml/l	
pH—Within the range 6.0 to 9.0 at all times.		

(2)(i) Any overflow, increase in volume of a discharge or discharge from a bypass system caused by precipitation within any 24-hour period greater than the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume) shall comply with the following limitations instead of the limitations set forth in paragraph (a)(1) of this section:

BPT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
pH—Within the range 6.0 to 9.0 at all times.		

(ii) The alternate limitations provided in paragraph (a)(2)(i) of this section shall apply only if:

(A) The treatment facility is designed, constructed, operated and maintained to contain the volume of water which would drain into the treatment facility from active mining areas and reclamation areas during a 10-year, 24-hour or larger precipitation event (or snowmelt of equivalent volume);

(B) The treatment facility is designed, constructed, operated and maintained to achieve the effluent limitations set forth in paragraph (a)(1) of this section at all times except during precipitation events greater than the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume); and

(C) The pH in the final effluent remains in the range of 6.0 to 9.0 during the precipitation event (or snowmelt).

The operator shall have the burden of proof that the preceding conditions have been met in order to qualify for the alternate limitations in paragraph (a)(2)(i) of this section.

(b) Underground Mine Drainage.

The limitations in this subsection apply to discharges from the underground workings of underground mines until bond release.

(1) Except as provided in 40 CFR 125.30–125.32, and §§ 434.61 and 434.62 of this Part 434, the following limitations establish the concentration or quality of pollutants in acid or ferruginous mine drainage subject to the provisions of this subsection after application of the best practicable control technology currently available:

BPT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
Manganese, total	4.0	2.0
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

(2) Except as provided in 40 CFR 125.30–125.32, and § 434.61 of this Part 434, the following limitations establish the concentration or quality of pollutants in alkaline mine drainage subject to the provisions of this subsection after application of the best practicable control technology currently available:

BPT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

§ 434.53 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable (BAT).

(a) Reclamation Areas.

The limitations of this subsection apply to discharges from reclamation areas until bond release.

(1) Except as provided in 40 CFR 125.30–125.32, and § 434.61 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this subsection after application of the best available technology economically achievable:

BAT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
Settleable solids	0.5 ml/l	
pH—Within the range 6.0 to 9.0 at all times.		

(2)(i). Any overflow, increase in volume of a discharge or discharge from a bypass system caused by precipitation within any 24-hour period greater than the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume) shall comply with the following limitations instead of the limitations set forth in paragraph (a)(1) of this section:

BAT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
pH—Within the range 6.0 to 9.0 at all times.		

(ii) The alternate limitations provided in paragraph (a)(2)(i) of this section shall apply only if:

(A) The treatment facility is designed, constructed, operated and maintained to contain the volume of water which would drain into the treatment facility from active mining areas and reclamation areas during a 10-year, 24-hour or larger precipitation event (or snowmelt of equivalent volume);

(B) The treatment facility is designed, constructed, operated and maintained to achieve the effluent limitations set forth in paragraph (a)(1) of this section at all times except during precipitation events greater than the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume); and

(C) The pH in the final effluent remains in the range of 6.0 to 9.0 during the precipitation event (or snowmelt).

The operator shall have the burden of proof that the preceding conditions have been met in order to qualify for the alternate limitations in paragraph (a)(2)(i) of this section.

(b) Underground Mine Drainage

The limitations in this subsection apply to discharges from the underground workings of underground mines until bond release.

(1) Except as provided in 40 CFR 125.30–125.32, and §§ 434.61 and 434.62 of this Part 434, the following limitations establish the concentration or quality of pollutants in acid or ferruginous mine drainage subject to the provisions of this subsection after application of the best available technology economically achievable:

BAT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
Manganese, total	4.0	2.0

(2) Except as provided in 40 CFR 125.30–125.32, and § 434.61 of this Part 434, the following limitations establish the concentration or quality of

pollutants in alkaline mine drainage subject to the provisions of this subsection after application of the best available technology economically achievable:

BAT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5

§ 434.54 effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best conventional pollutant control technology (BCT).

(a) Reclamation Areas. The limitations of this subsection apply to discharges from reclamation areas through bond release. Except as provided in 40 CFR 125.30–125.32 and § 434.61 of the Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this subsection after application of the best conventional pollutant control technology (BCT):

BCT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
pH—Within the range 6.0 to 9.0 at all times.		

(b) Underground Mine Drainage. The limitations of this subsection apply to discharges from the underground workings of underground mines until bond release. Except as provided in 40 CFR 125.30–125.32, and §§ 434.61 and 434.62 of this Part 434, the following limitations establish the concentration or quality of pollutants which may be discharged by a point source subject to the provisions of this subsection after application of the best conventional pollutant control technology:

BCT Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
TSS	70.0	35.0
pH—Within the range 6.0 to 9.0 at all times.		

§ 434.55 New Source Performance Standards (NSPS).

The following new source performance standards shall apply to the post-mining areas of all new source coal mines:

(a) *Reclamation Areas.* The standards of this subsection apply to discharges from reclamation areas at new source coal mines until bond release. (1) Except as provided in § 434.61 of this Part 434, the following new source performance standards shall be achieved for a discharge subject to the provisions of this subsection:

NSPS Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
Settleable solids	0.5 ml/l	
pH—Within the range 6.0 to 9.0 at all times.		

(2)(i). Any overflow, increase in volume of a discharge or discharge from a bypass system caused by precipitation within a 24-hour period greater than the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume) shall comply with the following limitations instead of the limitations set forth in paragraph (a)(1) of this section:

NSPS Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
pH—Within the range 6.0 to 9.0 at all times.		

(ii) The alternate limitations provided in paragraph (a)(2)(i) of this section shall apply only if:

(A) The treatment facility is designed, constructed, operated and maintained to contain the volume of water which would drain into the treatment facility from active mining areas and reclamation areas during a 10-year, 24-hour or larger precipitation event (or snowmelt of equivalent volume);

(B) The treatment facility is designed, constructed, operated and maintained to achieve the effluent limitations set forth in paragraph (a)(1) of this section at all times except during precipitation events greater than the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume); and

(C) The pH in the final effluent remains in the range of 6.0 to 9.0 during the precipitation event (or snowmelt).

The operator shall have the burden of proof that the preceding conditions have been met in order to qualify for the alternate limitations in paragraph (a)(2)(i) of this section.

(b) *Underground Mine Drainage.* The standards in this subsection apply to discharges from the underground workings of new source underground mines until bond release.

(1) Except as provided in §§ 434.61 and 434.62 of this Part 434, the following new source performance standards shall be achieved for the discharge of any acid or ferruginous mine drainage subject to this subsection:

NSPS Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
Manganese, total	4.0	2.0
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

(2) Except as provided in § 434.61 of this Part 434, the following new source performance standards shall be achieved for the discharge of any alkaline mine drainage subject to this subsection:

NSPS Effluent Limitations

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
	Concentration in mg/l	
Iron, total	7.0	3.5
TSS	70.	35.
pH—Within the range 6.0 to 9.0 at all times.		

Subpart F—Miscellaneous Provisions

§ 434.60 Applicability.

The provisions of this Subpart F apply to this Part 434 as specified in Subparts B, C, D and E.

§ 434.61 Commingling of Waste Streams.

Where waste streams from any facility covered by this Part are combined for treatment or discharge with waste streams from another facility, the concentration of each pollutant in the combined discharge may not exceed the most stringent limitations for the pollutant applicable to any component waste stream of the discharge.

§ 434.62 Alternate Effluent Limitation for pH.

Where the application of

neutralization and sedimentation treatment technology results in inability to comply with the otherwise applicable manganese limitations, the permit issuer may allow the pH level in the final effluent to exceed 9.0 to a small extent in order that the manganese limitations can be achieved.

§ 434.63 Effluent Limitations During Precipitation Events.

(a) Any overflow, increase in volume of a discharge or discharge from a bypass system caused by precipitation within any 24-hour period less than or equal to the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume) shall comply with the following limitations instead of the otherwise applicable limitations:

Effluent Limitations During Precipitation

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
Settleable solids	0.5 ml/l	
pH—Within the range of 6.0 to 9.0 at all times.		

(b) Any overflow, increase in volume of a discharge or discharge from a bypass system caused by precipitation within any 24-hour period greater than the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume) shall comply with the following limitations instead of the otherwise applicable limitations:

Effluent Limitations During Precipitation

Pollutant or pollutant property	Maximum for any 1 day	Average of daily values for 30 consecutive days
pH—Within the range of 6.0 to 9.0 at all times.		

(c) The alternate limitations provided in paragraphs (a) and (b) of this section shall apply only if:

(1) The treatment facility is designed, constructed, operated and maintained to contain at a minimum the volume of water which would drain into the treatment facility from active mining areas and reclamation areas during the 10-year, 24-hour precipitation event (or snowmelt of equivalent volume);

(2) The treatment facility is designed, constructed, operated and maintained to consistently achieve the effluent limitations set forth in § 434.22 (a), § 434.22 (b), § 434.23 (a), § 434.23 (b), § 434.24 (a), § 434.25 (b), § 434.32 (a), § 434.33 (a), § 434.34 (a), § 434.35 (a), § 434.42 (a), § 434.43 (a), § 434.44 (a), or § 434.45 (a) of this Part during periods of no precipitation (or snowmelt); and

(3) The pH in the final effluent remains in the range of 6.0 to 9.0 during the precipitation event (or snowmelt).

The operator shall have the burden of proof that the preceding conditions have been met in order to qualify for the alternate limitations in paragraphs (a) and (b) of this section:

Appendix—Determination of Settleable Solids

The following procedure is used to determine settleable solids:

Fill an Imhoff cone to the one-liter mark with a thoroughly mixed sample. Allow to settle undisturbed for 45 minutes. Gently stir along the inside surface of the cone with a stirring rod. Allow to settle undisturbed for 15 minutes longer. Record the volume of settled material in the cone as milliliters per liter. Where a separation of settleable and floating materials occurs, do not include the floating material in the reading.

[FR Doc. 81-10053 Filed 5-28-81; 8:45 am]

BILLING CODE 6560-29-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Parts 13 and 21

Deletion of the Permit Requirement To Import or Export Migratory Birds

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed Rule.

SUMMARY: The Service would amend 50 CFR Part 21, which is promulgated under authority of the Migratory Bird Treaty Act, to delete the import and export permit requirement found at 50 CFR 21.21. Importers and exporters of lawfully possessed migratory birds, including parts and products, would no longer be required to obtain a permit from the Service, but still would have to comply with other applicable provisions of State and Federal law. The import and export permit requirement was established in 1961, before a number of statutes were enacted which collectively restrict or prohibit the importation or exportation of most migratory birds. Also, the possession of migratory birds is now highly regulated. The combined effect on migratory birds of the other import and export controls and the Service's own enforcement of the possession prohibitions enables the Service to maintain effective enforcement of the Migratory Bird Treaty Act without the import and export permit requirement.

DATES: Comments on the proposed rule must be received on or before June 29, 1981.

ADDRESSES: The policy of the Department of the Interior is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed regulations. Comments may be mailed to Director (LE), Fish and wildlife Service, P.O. Box 28006, Washington, D.C. 20005, or delivered weekdays to the Division of Law Enforcement, Fish and Wildlife Service, 3rd Floor, 1375 K Street, N.W., Washington, D.C. 20005, between 7:45 a.m. and 4:15 p.m. Comments should bear the identifying notation REG 21-02-12. All materials received may also be inspected weekdays during normal business hours at the Service's Division of Law Enforcement, 3rd Floor, 1375 K Street, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: John T. Webb, Branch of Investigations, Division of Law Enforcement, Fish and Wildlife Service, U.S. Department of the Interior, P.O. Box 28006, Washington, D.C. 20005, telephone: (202) 343-9242.

SUPPLEMENTARY INFORMATION:

Background

Among the various wildlife laws enforced by the Service is the Migratory Bird Treaty Act, 16 U.S.C. 703-712. The purpose of the Migratory Bird Treaty Act (hereinafter "MBTA") is to implement four bilateral treaties which the United States has signed with Canada, Mexico, Japan, and the Soviet Union for the conservation of migratory birds. Section 2 of the MBTA (16 U.S.C. 703) lists the comprehensive prohibitions developed to implement those treaties, and reads in part as follows:

Unless and except as permitted by regulations made as hereinafter provided in this subchapter, *it shall be unlawful at any time, by any means or in any manner, to* pursue, hunt, take, capture, kill, attempt to take, capture, or kill, possess, offer for sale, sell, offer to barter, barter, offer to purchase, purchase, deliver for shipment, ship, export, *import*, cause to be shipped, exported, or imported, deliver for transportation, transport or cause to be transported, carry or cause to be carried, or receive for shipment, transportation, carriage, *or export any migratory bird*, any part, nest, or egg of any such bird, or any product, whether or not manufactured, which consists, or is composed in whole or part, of any such bird or any part, nest, or egg thereof * * * [Emphasis added.]

In response to these prohibitions, Federal regulations have been promulgated to authorize activities with migratory birds which otherwise are prohibited. These regulations now appear in 50 CFR Parts 20 and 21, and initially were published under the authority of 16 U.S.C. 704, but now are also published under the authority of 16 U.S.C. 712. These regulations authorize a number of activities without a Service permit, such as migratory game bird hunting. However, since 1918 a permit has been required to import or export all but a few migratory birds which are not killed while hunting. Until 1961 authority to import or export migratory birds was routinely authorized by standard form permits issued for propagating and scientific collecting. A separate permit to import or export migratory birds distinct from the other standard form permits was not created until November 29, 1961 (26 FR 11247). This import and export permit requirement is now found at 50 CFR 21.21. The other standard form permits found in 50 CFR Part 21 no longer routinely authorize import and export of migratory birds.

Need for the Amendment

Rules appearing at 50 CFR Part 21 now require a Service permit issued under 50 CFR 21.21 to import or export lawfully possessed migratory birds. The term "migratory bird" is broadly defined by 50 CFR 10.12 as follows:

> "Migratory bird" means any bird, whatever its origin and whether or not raised in captivity, which belongs to a species listed in 10.13, or which is a mutation or a hybrid of any such species, including any part, nest, or egg of any such bird, or any product, whether or not manufactured, which consists, or is composed in whole or part, of any such bird or any part, nest, or egg thereof.

This permit requirement, which is not mandated by the MBTA, would be eliminated in favor of other existing controls which regulate the importation or exportation of certain species of migratory birds. For instance, Service regulations promulgated under authority of the Endangered Species Act of 1973 (50 CFR Part 17), the Convention on International Trade in Endangered Species of Wild Fauna and Flora (50 CFR Part 23), and the Eagle Protection Act (50 CFR Part 22) would continue to restrict or prohibit the importation or exportation of particular species of migratory birds. Further, Department of Agriculture regulations (9 CFR Parts 92 and 94) would continue to regulate the importation of live poultry (which includes some migratory birds) and other live birds (which includes the remaining migratory birds), and the importation of the carcasses, parts, products, and eggs of poultry, game birds, and other birds. Finally, the Tariff Classification Act of 1962 (16 U.S.C. 1202) would continue to prohibit the importation of most migratory bird feathers and skins.

The Service's enforcement effort under the MBTA would also remain effective. It now concentrates upon the taking, possession, and commercial use of migratory birds, and not upon their importation or exportation. Of these, reliance upon the Service's regulation of possession would be an effective substitute for the import/export permit. Generally, a valid permit is required to lawfully possess a migratory bird. Exceptions to this requirement include the possession of: (1) migratory game birds taken while hunting, (2) migratory birds lawfully acquired prior to the effective date of Federal protection under the Migratory Bird Treaty Act, and (3) captive-reared and properly marked mallard ducks and other migratory waterfowl. While no figures are available on the number of possession permits outstanding, during 1980 only 92 import or export permits were issued under 50 CFR 21.21. Even some of these permits were joint permits issued under the authority of both the MBTA and the Convention on International Trade in Endangered Species of Wild Fauna and Flora. Because there is now little enforcement value to the migratory bird import/export permit, this requirement has been identified by the Department as excessive, unnecessary, and burdensome.

Description of the Proposed Rule

Where necessary the Service would amend 50 CFR Part 21 to allow the importation or exportation of lawfully possessed migratory birds (as defined by 50 CFR 10.12) without an import or export permit issued by the Service under 50 CFR 21.21. This action would not affect the other prohibitions applicable to migratory birds. Therefore, in most instances a permit is still required to lawfully possess any migratory bird. Also, it would not affect the restrictions, conditions, or requirements placed by 50 CFR Part 20 on the importation or exportation of migratory game birds taken while hunting.

Determinations of Effects

Executive Order 12291 "Federal Regulation"—Is this a "major" rule?

This action would have no economic effect and no expected increases in costs or prices for consumers, individual industries, Federal, State, or local governments, agencies, or geographic regions. The commercial use of migratory birds is severely limited by regulations promulgated under the Migratory Bird Treaty Act (50 CFR Parts 20 and 21). Restricted commercial uses are authorized only for the feathers of migratory waterfowl killed by hunting and for captive-reared, properly marked mallard ducks and other migratory waterfowl. As noted above, the importation of most migratory bird feathers would remain prohibited by the Tariff Classification Act of 1962. However, lawfully possessed feathers could be exported without a migratory bird export permit. Waterfowl propagators could import or export properly marked waterfowl, whether alive or dead, without a migratory bird import or export permit, thereby eliminating some previous restrictions.

Also, this action would have no adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in export markets that were previously closed because of export prohibitions. However, restriction on the lawful possession of migratory birds will not make the converse true. Foreign-based enterprises would be given no edge in domestic markets by eliminating the import permit requirement.

Therefore, in accordance with Executive Order 12291, the Department of the Interior has determined that the proposed rule described above is not major.

Regulatory Flexibility Act and 43 CFR Part 14—Will this rule have a significant economic effect on a substantial number of small entities?

The small entities likely to be affected by the deletion of the import/export permit requirement are waterfowl propagators, migratory bird researchers, and falconers. These are the same small entities who have obtained import/export permits. During 1980, 92 permits were issued as follows: approximately 65 to waterfowl propagators, approximately 18 to migratory bird researchers, and approximately 9 to falconers. However, the percentage of each group of small entities affected is very low. There are approximately 5,000 waterfowl propagators and between 2,000 and 3,000 falconers in the United States. No figures are available on the number of migratory bird researchers. Except for waterfowl propagators the economic effect of this action would be incidental, because the migratory birds are not possessed for commercial activity. For waterfowl propagators this action would eliminate existing

administrative burdens for a small number of them in those instances where current rules prohibit the importation or exportation of captive-bred migratory waterfowl without a permit. Even for waterfowl propagators the economic effect is minimal. Most of the waterfowl propagators are hobbyists and only a small percentage of the migratory waterfowl possessed by them are for commercial purposes. Because of the very limited lawful commercial uses of migratory birds and the few small entities affected by this action, in accordance with the Regulatory Flexibility Act and 43 CFR Part 14, the Department of the Interior has certified that the proposed rule described above will not have a significant economic effect on a substantial number of small entities.

National Environmental Policy Act

A draft environmental assessment has been prepared in conjunction with this proposal. It is on file in the Service's Division of Law Enforcement 1375 K Street, N.W., Suite 300, Washington, D.C. 20005, and may be examined during regular business hours. Single copies also are available upon request. Comments on the draft environmental assessment should be mailed or delivered to the address given at the beginning of this proposal during the comment period on the proposed rule.

Public Comments Invited

As noted above, the policy of the Department of the Interior is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Interested persons are invited to submit written comments regarding the proposed rule or the draft environmental assessment. These comments and any additional information received will be considered by the Departement in adopting a final rule. Correspondence should be mailed or delivered to the address given at the beginning of this proposal.

The primary author of this proposed rule is John T. Webb, Division of Law Enforcement, U.S. Fish and Wildlife Service.

Regulation Promulgation

For the reason set out in the preamble, Subchapter B, Chapter I of Title 50, *Code of Federal Regulations* is proposed to be amended as follows:

PART 13—GENERAL PERMIT PROCEDURES

1. The authority citation for Part 13 reads as follows:

Authority: Lacey Act, 62 Stat. 687, as amended, 63 Stat. 89, 74 Stat. 753, and 83 Stat. 281 (187 U.S.C. 42–44); Black Bass Act, sec. 5, 44 Stat. 576, as amended, 46 Stat. 846 (16 U.S.C. 852c); Migratory Bird Treaty Act, sec. 3, 40 Stat. 755 (16 U.S.C. 704); Bald Eagle Protection Act, sec. 2, 54 Stat. 251 (16 U.S.C. 668a); Tariff Classification Act of 1962, 19 U.S.C. 1202, "Schedule 1, Part 15D, Headnote 2(d), Tariff Schedules of the United States," 76 Stat. 72, Endangered Species Act of 1973, section 11(f), 87 Stat. 884; Fish and Wildlife Act of 1956, sec. 13(d), 86 Stat. 905 amending 85 Stat. 480 (16 U.S.C. 742j–1); Marine Mammal Protection Act of 1972, sec. 112(a), 86 Stat. 1042 (16 U.S.C. 1382); Act of August 31, 1951, Ch. 376, Title 5, section 501, 65 Stat. 290 (31 U.S.C. 483a).

§ 13.12 [Amended]

2. Amend § 13.12(b) by removing the entry "Import or export . . . 21.21" under Migratory bird permits on the list of types of permits.

PART 21—MIGRATORY BIRD PERMITS

3. Revise the authority citation for Part 21 to read as follows:

Authority: Migratory Bird Treaty Act, Sec. 3, Pub. L. 65–186, 40 Stat. 755 (16 U.S.C. 704); Sec 3(h)(3), Pub. L. 95–616, 92 Stat. 3112 (16 U.S.C. 712).

4. Amend the Table of Contents by removing the entry "Import and export permit" after § 21.21 and replacing it with the entry "[Reserved]."

§ 21.1 [Amended]

5. Amend § 21.1 by removing the words "imported, exported" immediately after the word "barter" and immediately before the word "banding."

§ 21.2 [Amended]

6. Amended § 21.2(a) by removing the words "imported, exported" immediately after the word "be" and immediately before the word "purchased."

7. Amend § 21.2 by adding a new paragraph (d) to read as follows:

§ 21.2 Scope of regulations.

* * * * *

(d) Migratory birds, their parts, nests or eggs which are lawfully possessed may be imported or exported without a Federal migratory bird permit.

§ 21.11 [Amended]

8. Amend § 21.11 by removing the words "export or import" immediately after the word "barter" and immediately before the word "any."

21.13 [Amended]

9. Amend the introductory paragraph of § 21.13 by removing the phrase "exported (but not imported)" immediately after the word "transported" and immediately before the words "and disposed."

§ 21.21 [Removed]

10. § 21.21 is removed and reserved.

Dated: May 11, 1981.

C. F. Layton,

Acting Deputy, Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310-55-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 682

Western Pacific Fishery Management Council; Public Hearings

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Public Hearings.

SUMMARY: The Western Pacific Fishery Management Council announces a series of hearings to receive comments on a proposed fishery management program for billfish fisheries of the Western Pacific Region as described in the Draft Environmental Impact Statement/Fishery Management Plan (DEIS/FMP). A concise summary of the proposed billfish management program will be provided at each public hearing. These hearings are being held in accordance with Section 302(h)(3) of the Magnuson Fishery Conservation and Management Act and Section 1506.6(c) of the Council on Environmental Quality's National Environmental Policy Act regulations. Comments received at these hearings and on the DEIS/FMP, as well as any written comments received, will be taken into account and addressed in the preparation of the Final Environmental Impact Statement/Fishery Management Plan.

DATES: Comments must be received on or before July 13, 1981. Individuals or organizations wishing to comment on the DEIS/FMP may do so at public hearings to be held as follows:

June 16, 1981 Honolulu, Hawaii
June 17, 1981 Hilo, Hawaii
June 18, 1981 Kona, Hawaii
June 25, 1981 Pago Pago, American Samoa
June 29, 1981 Lihue, Kauai
June 30, 1981 Kahului, Maui
July 13, 1981 Agana, Guam

ADDRESS: Send comments to: Chairman, Western Pacific Fishery Management Council, 1164 Bishop Street, Honolulu, Hawaii 96813.

Public hearing locations:

June 16, 1981 West Room, Pagoda Hotel, 1525 Rycroft Street, Honolulu, Hawaii 7:00 p.m.
June 17, 1981 Hilo County Council Room, 25 Aupuni Street, Hilo, Hawaii 7:00 p.m.
June 18, 1981 Kona, Hawaii 5:30 p.m. (site to be announced)
June 25, 1981 Conference Center, Rainmaker Hotel, Pago Pago, American Samoa 7:00 p.m.
June 29, 1981 Lihue Library, 4344 Hardy Street, Lihue, Kauai 6:30 p.m.
June 30, 1981 Kahului, Maui 6:30 p.m. (site to be announced)
July 13, 1981 Guam Reef Hotel, Tumon Bay, Agana, Guam 7:00 p.m.

Copies of the DEIS/FMP are available at the Council office as well as the following locations:

Guam: Division of Aquatic and Wildlife Resources, Government of Guam, P.O. Box 2367, Guam, M.I. 96921
American Samoa: Office of Marine Resources, Government of American Samoa, P.O. Box 3730, Pago Pago, American Samoa 96799
Honolulu: Division of Fish and Game, Hawaii Department of Land and Natural Resources, 1151 Punchbowl Street, Honolulu, Hawaii 96813
Terminal Island: Southwest Region, National Marine Fisheries Service, 300 S. Ferry Street, Terminal Island, California 90731.

FOR FURTHER INFORMATION CONTACT:

Mr. Svein Fougner, Executive Director, Western Pacific Fishery Management Council, 1164 Bishop Street, Suite 1608, Honolulu, Hawaii 96813, (808) 523–1368

or

Mr. Doyle Gates, Western Pacific Program Office, Southwest Region, NMFS, P.O. Box 3830, Honolulu, Hawaii 96812, (808) 946–2181.

SUPPLEMENTARY INFORMATION: The Western Pacific Fishery Management Council and the National Oceanic and Atmospheric Administration propose to adopt and implement an FMP for Billfish Fisheries of the Western Pacific. The FMP recommends a conservation and management program for harvesting billfish in the fishery conservation zone (FCZ) of the central and western Pacific Ocean. The FMP presents management measures and reporting requirements to regulate the take of billfish by foreign longline vessels in the FCZ surrounding Hawaii, Guam, and American Samoa. The FMP recommends continuation and strengthening of State and Territorial reporting requirements to better monitor domestic participation in the billfish fisheries. The proposed conservation and management program is intended to achieve the optimum yield (OY) for the various billfish fisheries conducted in the FCZ of the Western Pacific Region. A complementary management program is proposed for consideration and adoption by the Department of Commerce for the longline fisheries conducted by foreign vessels in the FCZ around U.S. island possessions in the Pacific Ocean.

Dated: May 26, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

Friday, May 29, 1981

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

Food Stamp Program; Demonstration Project, Alternative Methods of Delivering Benefits

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice of Intent.

SUMMARY: This Notice announces the Department of Agriculture's intention to sponsor demonstrations of alternative methods of delivering food stamp benefits, under the authority of Subsections 17 (a) and (b) of the Food Stamp Act of 1977. "Delivery" of benefits encompasses the entire process of state food stamp issuance to eligible households and their redemption at retail food stores. These activities include: requisitioning by and delivery of coupons to the state agency; accountability and storage; generation and maintenance of household participation files; production and distribution of authorization cards; coupon issuance and transaction; and, ultimately, reconciliation and reporting. The Department solicits applications from interested state agencies with innovative methods involving all or part of the issuance process at the state or local project level. Particular emphasis is placed in this demonstration on alternative methods which seek to reduce administrative costs, streamline operations, and improve accountability and security, while maintaining or improving service to recipients.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Marilyn Carpenter, Chief, Program Research and Analysis Branch, Program Development Division, Family Nutrition Programs, Food and Nutrition Service, USDA, Washington, D.C. 20250. Telephone (202) 447–8332.

SUPPLEMENTARY INFORMATION: Currently, Food Stamp Program benefits are distributed to participating households through a variety of different issuance systems or methods—each administered by state and local agencies. There are three basic systems: (1) manual household issuance record (HIR) system in which an HIR card maintained in a local issuance office documents each certified household's eligibility to obtain, and its receipt, of food coupons; (2) an authorization to participate (ATP) system in which an ATP card showing a household's authorized allotment is mailed to or picked up by the participant and surrendered to local issuance agents in exchange for coupons; and (3) mail issuance of coupons directly to certified households.

Numerous variables exist within each of these systems. This has the effect of creating many different systems, most of which are unique to the state, project area, or geographical location it serves. Inherent in these systems, and accounting for the degree of variability, are numerous sub-processes and activities necessary to their successful operation. These sub-functions include requisitioning by and delivery of coupons to the state agency; accountability and storage; generation and maintenance of household participation files; production and distribution of authorization cards; coupon issuance and transaction; and ultimately, reconciliation and reporting.

With the sharp increase in program participation experienced over the past decade, the Department has become increasingly aware of the need to creatively develop an issuance system which both meets the needs of participants and maintains an acceptable level of service quality and accountability. The increasing emphasis on fiscal restraints has sharpened the focus on reducing potential losses resulting from the design and operation of current food stamp issuance systems. The Department is hereby seeking suggestions for refining and improving existing systems, and for developing alternative approaches.

Currently several Food Stamp State Agencies have submitted suggestions for innovative issuance procedures. Others have implemented corrective actions designed to improve the operations of current systems. Because of the activities in this area and its potential for program improvement, the Department is proposing to undertake a unified effort to coordinate these projects and thereby expand program knowledge and the general state of the art related to coupon issuance operations. Therefore, to more effectively tap this potential, and in recognition of the limited availability of state funds to support project development, the Department announces its intent to aid the development of alternative issuance ideas which may have application either to the program as a whole or to special areas (e.g., urban, high crime, etc.). Such assistance will take the form of grants to the state agencies involved or, if applicable, their counterpart at the local agency level. The following Notice of Intent solicits applications from interested state agencies or their local counterparts.

Notice of Intent

Subsection 17(a) of the Food Stamp Act of 1977 permits the Department of Agriculture to undertake research that will "* * * improve the administration and effectiveness of the Food Stamp Program in delivering nutrition-related benefits." Accordingly, the Department announces its intention to provide grants to state welfare agencies to conduct research or developmental activities that will improve the issuance of food stamp benefits to eligible households.

The types of alternative issuance projects known to the Department encompass a wide-ranging variety of techniques and procedures. Examples of some of the large/scale efforts suggested to FNS, under consideration, or being demonstrated include:

- A direct delivery program which requires participants in areas with historically high loss rates to travel to designated issuance sites to collect their authorization-to-purchase (ATP) cards and redeem them for coupons. The direct delivery system permits some control over the schedule of ATP redemption to reduce crowds at issuance sites, reduces the number of lost or stolen ATPs, and decreases the likelihood of fraudulent acquisition of coupons.
- Automated issuance of food coupons by an electronic teller machine similar to those now provided by banks

for cash transactions. This procedure, if feasible, would permit closer control of the amount of coupons issued to households, eliminate the need for separate distribution of ATPs (relying instead on special identification cards), and reduce issuance staffing.

• Adaptation of an electronic funds transfer system to provide benefits for special categories of Food Stamp Program participants, such as the elderly and SSI recipients, at participating banks.

• Replacement of ATPs and coupons by a credit authorization system permitting households to present a credit card at the retail food store and obtain food products. Direct computer links between the retailer and state agency food stamp files would permit rapid verification of entitlement and authorization of food purchase by store personnel.

Although most of these examples have a technological orientation requiring new equipment and machinery, FNS is equally interested in less radical changes to current issuance procedures, for example, state and local agencies are encouraged to submit proposals to examine alternative means of identification or new approaches to reconcile issuance transactions, identify and investigate possibly fraudulent redemptions, process claims, and initiate prosecution when appropriate.

Requirements for Alternative Issuance Systems

An issuance system must attempt to satisfy a number of basic operational and service requirements. For alternative issuance projects, the requirements to be met will vary according to the extent to which the suggested alternatives would replace the existing issuance system. Complete satisfaction of every item listed below may be inappropriate or impossible for certain alternatives. the following list contains the basic requirements which the Department would like the alternatives to address, as appropriate:

1. The alternative issuance system should maintain at least the same level of access and equality of treatment now afforded participants in receiving their coupons and obtaining food from retail outlets.

2. System access should be limited, as under current guidelines, to only those participants authorized to receive benefits and those employees necessary to provide the benefits.

3. Current guidelines for separation of responsibilities should be followed. No one person or group should create and maintain household issuance records *and* provide benefits to households.

4. The system should be able to handle peak demands for service without breakdown or delay. For example, in a computerized delivery system, numerous simultaneous inquiries must be possible without overloading equipment or imposing lengthy access delays.

5. The system should contain appropriate back-up procedures for use during mechanical system failures or natural disasters to maintain timely and accurate benefit delivery. Descriptions of the back-up system should be included in any application for Federal assistance.

6. The alternative issuance system should maintain at least the same level of accountability for program funds now required of state agencies, and should provide readily accessible records which identify households and the amount of benefits received through the alternative system provided.

7. The system should be able to quickly identify and follow-up on system input or participant errors which come to the agency's attention.

8. Households entitled to expedited service would have to be provided benefits in accordance with § 274.2(g) of the Food Stamp Program Regulations.

9. Households moving to other project areas would have to be provided benefits on a timely basis as stipulated in § 273.19 of the Food Stamp Program Regulations. For alternative systems which substitute other forms of benefits for coupons, the state agency must provide coupons before the household departs the project area, so that benefits may continue uninterrupted in project areas outside of the demonstration.

Contractor Negotiations

Except as noted below, selection of a contractor to operate or assist in the operation of the alternative issuance system shall be the responsibility of the state agency or the local counterpart delegated this responsibility. Selection shall be in accordance with prescribed state agency contracting procedures. Applicants should not however begin contract negotiations prior to notification from FNS that their full application has been approved.

Applications

Who Can Apply

State welfare agencies or their local counterparts responsible for the administration of the Food Stamp Program may seek assistance from FNS for alternative issuance demonstration projects. All applications shall be submitted in accordance with all appropriate requirements as established under Office of Management and Budget (OMB) Circular A–95 and must be signed by the representative with the authority to commit the sponsor to the demonstration project. To ensure that no commitment is made without the advice and consent of appropriate officials, the following requirements must be met before the Department will consider the application:

(1) If any local administrative unit (e.g., county or district) submits an application to conduct an issuance demonstration, written concurrence from the state central office must accompany the application.

(2) If other state agencies or units/functions within the state agency will be involved in this project (e.g., in the delivery of benefits or notification of participants about the demonstration), their willingness to participate must be documented as well.

How to Apply

State agencies seeking FNS' assistance for an alternative issuance project should initially contact FNS with a letter describing the basic design of the proposed system and providing a rationale for its implementation.

Some estimation of the feasibility and cost-effectiveness of the system planned should be provided, including a rough estimate of the differences in costs associated with the innovation and the system it replaces. If the system involves the use of machinery, equipment, or other technical services which are not currently available commercially, the state agency should be quite specific about how they plan to procure these services.

The letter shall be submitted to: Director, Program Development Division, Family Nutrition Programs, Food and Nutrition Service, USDA, Room 658 GHI Building, Washington, D.C. 20250. If the letter originates at a level below the state agency (e.g., a local project wishes to try a new automated issuance program), then the endorsement of an appropriate state agency official shall be included. The letter should also contain the name, address, and telephone number of the person(s) to contact about the idea. The deadline for submission of the letter shall be 90 days from the date of this notice; letters postmarked after that date may not be considered.

After screening of the initial ideas, and within 60 days of the deadline cited above, selected state and local agencies will be asked to submit a complete application for assistance. Applicants shall use the Application for Federal Assistance Form (Standard Form AD–

623), prescribed by the OMB Circular A–102, for this purpose. Application kits containing AD–623 and other pertinent materials will be available from FNS by contacting the Program Development Division at (202) 447–8332. Any questions about the project may also be directed to that office. Completed applications shall be submitted in one original and two copies within 60 days of notification to the: Director, Program Development Division, Family Nutrition Programs, Food and Nutrition Service, USDA, Room 658, GHI Building, Washington, D.C. 20250. *Attention:* Alternative Issuance Demonstration Project.

What Must be Included on the Application

Full applications should be submitted only after the sponsor has received preliminary approval from the Department of the Initial letter. Sponsor applications must include as a minimum, the information outlined below:

I. Background

A. Description of proposed test site(s), including:

1. Demographic and socioeconomic characteristics of general population and food stamp participants.

2. Number of participants and value of issuance, both currently and historically.

B. Description of current issuance procedures.

C. Rationale for modification of current procedure (include magnitude of specific issuance problems, e.g., replacement ATPs, deficient reconciliation, restricted service).

D. Brief overview of proposed system or modifications including proposed duration of the project. (Present rationale for the time-period chosen, especially for those which exceed twelve-months duration.)

II. Description of Proposed System

A. Detailed description of proposed issuance procedures noting any:

1. Revisions to state or local program guidelines, instructions, and procedures.

2. Data processing or other equipment needs.

B. Identification of waivers of Food Stamp Program Regulations, as needed. (State agencies are responsible for providing the Department with appropriate waiver requests.)

C. Anticipated effects.

III. Work Plan

A. Description of implementation requirements, including:

1. Plans for transition to new system, including contingency plans in the event that "start-up" problems encountered delay the placement of households on the new program or provision of benefits.

2. Plans for informing participants, both current and potentially eligible, prior to project initiation and termination.

3. Any proposed contractual agreements with private firms, local service agencies, clearly contrasting responsibilities of the state or local agency with those of the contractor and other agencies.

4. Staffing needs.

a. Hire or assign project staff.

b. Staff training.

5. Acquisition of facilities or equipment.

6. Revision of guidelines, handbooks, instructions.

B. Discussion of foreseeable problems and potential solutions.

C. Schedule for development and implementation.

D. Staffing patterns (including designation of project director).

IV. Budget

Detailed budget information should be provided as prescribed on Form AD–623. Pertinent explanations of cited budget items should be provided, if their inclusion is not self-explanatory.

Departmental Responsibilities

The Department's Food and Nutrition Service (FNS) will monitor the operation of the demonstration as provided under "Monitoring" (below). FNS will provide funding for the demonstration project based on the budget negotiated with the State agency. FNS will, under separate contract, provide for an evaluation of selected projects, in order to assess cost-effectiveness and suitability for large scale replication. (Appendix A of the Statement of Work contained in the Department's RFP for this evaluation contract, provides a conceptual framework for the development of criteria to assess alternative food stamp issuance systems. Interested parties may find this a useful aid in developing their projects. Copies will be available upon request from the same office as application kits.)

Records

All records pertaining to this demonstration shall be available to FNS representatives or their designees upon request for purposes of inspection and verification. Such records shall be maintained for a period of three (3) years from the date of project completion.

Federal Financial Participation

During the time period established for the demonstration by the state agency and FNS, FNS shall pay 100 percent of those approved administrative costs specifically associated with the test of the alternative issuance system, *to the extent* that these costs exceed such costs as are usual and customary for coupon issuance operations. A determination of usual and customary issuance costs shall be made by FNS, using an average of the issuance-related expenditures available for the six month period immediately preceding the initiation of the alternative issuance service. For statewide projects, this will likely involve the use of a monthly Standard Form SF–269 (Food Stamps), Quarterly Expenditure Report.

Funding for the demonstration shall be provided through the established state agency program Letter of Credit for costs incurred in conducting the demonstration.

Should the state agency elect to continue operating the experimental system beyond the time-period authorized for the demonstration, the level of Federal financial participation would be reduced to the established level of funding appropriate to ongoing operations for that state.

Monitoring

Although the conduct of the demonstration of alternative issuance will be the responsibility of the state agency, FNS will review project operations on a schedule negotiated by the state agency and FNS.

In addition, FNS is planning a comprehensive assessment of the operational, performance, and cost characteristics of food stamp issuance systems. Under a separate contract, FNS will evaluate the effects and responsibility of selected issuance demonstration projects. This may require the sponsoring state or local agency to compile and maintain information about the system's effectiveness, accountability, feasibility, and efficency.

Specific recordkeeping and reporting requirements will be determined in consultation with FNS, state and local agencies, and the evaluation contractor. Such records would have to be made available to Departmental representatives, upon request.

Selection of Sites

A panel of FNS representatives will

review and select applications for assistance by state agencies or their local counterparts proposing to engage in research or development of alternative issuance procedures.

Selections will be made on the basis of the following criteria:

1. Relevancy to FNS' objectives of improved service, lower costs, and greater accountability.

2. Potential applicability of demonstration to other areas.

3. Prospects for providing more effective, accountable, feasible, and efficient issuance.

4. Adequacy, clarity, and completeness of work plans, including extent to which it identifies and offers solutions to procedural problems that may be encountered.

5. The qualifications of key personnel and the applicants' accessibility to adequate facilities and other resources.

6. Cost and potential cost-effectiveness.

Forest Service

Uinta National Forest Grazing Advisory Board; Meeting

The Uinta National Forest Grazing Advisory Board will meet at 9 a.m. on Wednesday, June 17, 1981, at the general store in Woodland, Utah.

The purpose of this meeting is to have a field review of the current allotment management plans and proposed criteria for the planning and utilization of the Range Betterment Fund.

The meeting will be open to the public. Those who participate will need to supply their own saddle horse and equipment. Persons who wish to attend should notify Ward F. Savage, Uinta National Forest Supervisor's Office, P.O. Box 1428, Provo, Utah 84601, telephone 801–377–5780. Written statements may be filed with the Board before or after the meeting.

Dated: May 22, 1981.

Don T. Nebeker,

Forest Supervisor.

BILLING CODE 3410-11-M

Rural Electrification Administration

Wabash Valley Power Association, Inc.; Finding of No Significant Impact

Notice is hereby given that the Rural Electrification Administration (REA) has prepared a Finding of No Significant Impact which concludes that there is no need to prepare an Environmental Impact Statement in connection with proposed financing assistance by REA to Wabash Valley Power Association, Inc., (WVPA) of Indianapolis, Indiana. The financing assistance will be used by WVPA for their proposed purchase of 25 percent (156 MW) undivided ownership interest in Unit 5 of the Gibson Generating Station from the Public Service Company of Indiana. Unit 5 is a 625 MW (net) coal-fired steam electric generating unit presently under construction at an existing 5,000 acre (2,024 hectare) site in Gibson County, Indiana. As of August 1980, Unit 5 was 30 percent complete with completion scheduled for 1982. The Gibson Site has four operating coal-fired units. Unit 5 will complete the development of the site. WVPA has prepared a Borrower's Environmental Report concerning the proposed participation. An Environmental Assessment was prepared by REA.

Threatened and endangered species, important farmland, archaeological and historic sites, wetlands and floodplains and other potential impacts of the Unit 5 addition are adequately considered in the environmental evaluations prepared by WVPA and REA.

REA's independent evaluation of the proposed action leads it to conclude that its proposed financing assistance for this project does not represent a major Federal action that will significantly affect the quality of the human environment.

Based on this independent evaluation, the REA Environmental Assessment, and a review of WVPA's Borrower's Environmental Report, a Finding of No Significant Impact was reached in accordance with Section IV.B and IV.D of REA Bulletin 20–21:320–21, Part 1.

Various alternatives to the proposed participation arrangement were reviewed by WVPA and REA. The alternatives include no action, energy conservation and load management and construction of WVPA's own generation facilities. The proposed purchase of 25 percent undivided ownership of Gibson Unit 5 is the most viable alternative that would provide power for the existing and future loads of WVPA's members.

Copies of REA's Finding of No Significant Impact, REA's Environmental Assessment and WVPA's Borrower's Environmental Report may be reviewed in the office of the Director, Power Supply Division, Room 5168, South Agriculture Building, Rural Electrification Administration, Washington, D.C. 20250, and at the offices of Wabash Valley Power Cooperative, Inc., 700 North High School Road, P.O. Box 24700, Indianapolis, Indiana 46224.

(This Federal Assistance Program is listed in the Catalog of Federal Domestic Assistance as 10.850-Rural Electrification Loans and Loan Guarantees).

Dated at Washington, D.C., this 22nd day of May, 1981.

Joe S. Zoller,

Acting Administrator, Rural Electrification Administration.

[Order 81-5-127]

Air Wisconsin Addition of Akron/Canton Proceeding

AGENCY: Civil Aeronautics Board.

ACTION: Notice of order to show cause (81-5-127).

SUMMARY: The Board is instituting the *Air Wisconsin Addition of Akron/Canton Proceeding* and is proposing to grant unrestricted authority to Air Wisconsin at Akron/Canton under expedited procedures of Subpart Q of its Procedural Regulations. The tentative findings and conclusions will become final if no objections are filed.

The complete text of this order is available as noted below.

DATES: All interested persons having objections to the Board issuing the proposed authority shall file, and serve on all persons listed below, no later than June 5, 1981, a statement of objections, together with a summary of the testimony, statistical data and other material expected to be relied upon to support the stated objections.

ADDRESS: Objections to the issuance of a final order should be filed in Docket 39556, which we have entitled the *Air Wisconsin Addition of Akron/Canton Proceeding*. They should be addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428.

In addition, copies of such filings should be served upon all parties in the service list to Order 81-5-127.

FOR FURTHER INFORMATION CONTACT: Mary Catherine Terry, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428, (202) 673-5384.

SUPPLEMENTARY INFORMATION: The complete text of Order 81-5-127 is available from our Distribution Section, Room 516, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428. Persons outside the metropolitan area may send a postcard request for Order 81-5-127 to that address.

By the Bureau of Domestic Aviation: May 22, 1981.

BILLING CODE 6320–01–M

[Order 81–5–97]

Foreign Air Carriers; Issued to Various Foreign Air Freight Forwarders

In the matter of Foreign Air Carrier Permits issued to various foreign air freight forwarders under section 402 of the Federal Aviation Act of 1958, as amended; adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 24th day of March 1981; Order.

The Board, by ER–1159, effective January 3, 1980 (44 FR 69633, December 4, 1979) adopted simplified procedures to grant operating authority to foreign air freight forwarders.[1] These procedures, set forth in Part 297 of the Board's Economic Regulations (14 CFR Part 297), were patterned after the deregulation of U.S. air freight forwarders in ER–1094 (44 FR 6634, January 31, 1979) and provide a simplified registration system in place of the previous formal hearing procedures under section 402 of the Act.

Under a heading entitled "Termination of Existing Permit Authority," and subtitled "Important Notice," the Board stated in ER–1159 that it planned to issue an order terminating all existing permit authority held by foreign air freight forwarders under section 402. The Board further admonished all foreign air freight forwarders holding section 402 permits to apply for registration under Part 297 by January 28, 1980, to avoid a gap in authority. A copy of the rule was served on all foreign air freight forwarders, and those forwarders which did not later submit an application for registration were notified by certified letter of the necessity to apply and the Board's intention to terminate then existing section 402 permit authority. All of the carriers listed in Appendix A, except for Daetwyler Airfreight Corp. (Swiss), d.b.a. Interamerican Air Freight Corp. (U.S.A.), have applied for and received a foreign freight forwarder registration under Part 297.[2]

We therefore conclude that no purpose would be served by allowing the Foreign Air Carrier Permits shown in Appendix A to continue to exist, and pursuant to section 402(f)(1) of the Act, we find that it is in the public interest to revoke the named permits. It should be emphasized that this action will not withdraw forwarding authority from any operating foreign air carrier. Rather we are simply canceling an outdated, redundant form of authority, permitting each carrier to continue to operate under the new form of authority.

Accordingly,

1. We revoke the section 402 foreign air carrier permits issued to the 19 foreign air freight forwarders listed in Appendix A;

2. Unless disapproved by the President of the United States under section 801(a) of the Act, this order shall become effective on the 61st day after the submission to the President,[3] or upon the date of receipt of advice from the President that he does not intend to disapprove the Board's order under that section, whichever is earlier; and

3. We are serving this order on all the carriers named in the appendix to this order, and on the U.S. Departments of State and Transportation.

This order shall be published in the **Federal Register.**

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

[FR Doc. 81–16104 Filed 5–28–81; 8:45 am]

BILLING CODE 6320–01–M

---

[1] The original regulation was proposed May 29, 1979 (EDR–378, 44 FR 30694, May 29, 1979).

[2] In addition to a copy of ER–1159 Daetwyler Air Freight Corp. (Swiss), d.b.a. Interamerican Air Freight Corp. (U.S.A.) was specifically notified of the Board's intention to cancel its permit by certified letter on September 2, 1980. No response has been received. Daetwyler Airfreight Corp. has been sold to new owners. (See Order 79–4–31, April 6, 1979 and Order 79–6–81, May 3, 1979).

[3] This order was submitted to the President on March 30, 1981. We received notification that the President did not intend to disapprove the Board's order on May 18, 1981.

DEPARTMENT OF COMMERCE

International Trade Administration

Stainless Steel Wire Rods From France; Preliminary Results of Administrative Review of Antidumping Finding

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of preliminary results of administrative review of antidumping finding.

SUMMARY: The Department of Commerce has conducted an administrative review of the antidumping finding on stainless steel wire rods from France. This review covers the one known manufacturer/exporter of this merchandise covered by the finding and consecutive periods from January, 1974 through June, 1980. This review indicates the existence of dumping margins during certain periods.

As a result of this review, the Department has preliminarily determined to assess dumping duties equal to the calculated differences between foreign market value and United States price on shipments occurring during those periods. Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Dennis U. Askey, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202–377–4793).

SUPPLEMENTARY INFORMATION:

Procedural Background

On August 28, 1973, a dumping finding with respect to stainless steel wire rods from France was published in the **Federal Register** as Treasury Decision 73–243 (38 FR 9094). On January 1, 1980, the provisions of title I of the Trade Agreements Act of 1979 became effective. Title I replaced the provisions of the Antidumping Act of 1921 ("the 1921 Act") with a new title VII to the Tariff Act of 1930 ("the Tariff Act"). On January 2, 1980, the authority for administering the antidumping duty law was transferred from the Department of the Treasury to the Department of Commerce ("the Department"). The Department published in the **Federal Register** of March 28, 1980 (45 FR 20511–12) a notice of intent to conduct administrative reviews of all outstanding dumping findings. As required by section 751 of the Tariff Act, the Department has conducted an administrative review of the finding on stainless steel wire rods from France. The substantive provisions of the 1921 Act and the appropriate Customs Service regulations apply to all unliquidated entries made prior to January 1, 1980.

Scope of the Review

Imports covered by this review are shipments of stainless alloy steel wire rods, tempered, treated, or partly manufactured, currently classifiable under item 607.4300 of the Tariff Schedules of the United States Annotated (TSUSA). The Department knows of two manufacturers/exporters of stainless steel wire rods to the United States. One firm, Creusot-Loire, was excluded from the original finding. This review covers the other known exporter, Ugine Aciers, and all time periods from January, 1974 through June, 1980 during which shipments of stainless steel wire rods may have been made to the United States and for which appraisement instructions ("master lists") have not been issued. The issue of the Department's obligation to conduct administrative review of entries, unliquidated as of January 1, 1980 and covered by such master lists, is under review. Liquidation has been suspended pending disposition of this issue.

United States Price

In calculating United States price the Department used purchase price, as defined in section 772 of the Tariff Act and section 203 of the 1921 Act, since all sales were made to an unrelated U.S. purchaser. Purchase price was calculated on the basis of delivered prices with deductions, where applicable, for ocean freight, marine insurance, French inland freight and loading charges, and a commission to an unrelated party. No other adjustments were claimed or allowed.

Foreign Market Value

In calculating foreign market value, the Department used home market price, as defined in section 773 of the Tariff Act and section 205 of the 1921 Act, since sufficient quantities of such or similar merchandise were sold in the home market to provide a basis for comparison. Ugine Aciers sold at least 28% of its total sales in the home market, and home market sales were at least 56% of all sales for export to countries other than the U.S. during the total period covered. The home market prices were based on delivered prices and an adjustment was made for inland freight. An adjustment was also made for differences in credit terms in accordance with sections 153.10 of the Customs Regulations and 353.15 of the Commerce Regulations. No other adjustments were claimed or allowed.

Preliminary Results of the Review

As a result of our comparison of United States price to foreign market value, we preliminarily determine that the following weighted average margins exist:

Time Period	Margin (Percent)
1974	2.62
1975	0.87
1976	0.039
1977	0.765
Jan. 1, 1978 to June 30, 1978	4.33
July 1, 1978 to Dec. 31, 1978	0.50
1979	1.95
Jan. 1, 1980 to June 30, 1980	

Interested parties may submit written comments on these preliminary results on or before June 29, 1981 and may request disclosure and/or a hearing on or before June 15, 1981. Any request for an administrative protective order must be made no later than June 3, 1981. The Department will publish the final results of the administrative review including the results of its analysis of any such comments or hearing.

The Department shall determine, and the U.S. Customs Service shall assess, dumping duties on all entries made with purchase dates during the time periods involved. Individual differences between United States price and foreign market value may vary from the percentages stated above. The Department will issue appraisement instructions separately directly to the Customs Service.

Further, as required by § 353.48(b) of the Commerce Regulations, a cash deposit based upon the most recent of the margins calculated above shall be required on all shipments of stainless steel wire rods entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results. This requirement shall remain in effect until publication of the final results of the next administrative review.

(Sec. 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53))

May 26, 1981.

B. Waring Partridge III,

Acting Deputy Assistant Secretary for Import Administration.

[FR Doc. 81–16051 Filed 5–28–81; 8:45 am]

BILLING CODE 3510–25–M

Minority Business Development Agency

Financial Assistance Application Announcement

AGENCY: Department of Commerce, Minority Business Development Agency.

ACTION: Notice.

SUMMARY: The Minority Business Development Agency (MBDA) announces that it is seeking applications under its Specialized Consultant Services Program to operate one project for a 12 month period beginning October 1, 1981 within the States of Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, Kansas and Nebraska.

The project will operate at a cost not to exceed $320,000 and the project I.D. Number is 05–10–25774–00.

Program Description

The Specialized Consultant Services Program of the Minority Business Development Agency (MBDA) provides technical assistance to minority business persons and firms for the purpose of improving their stability by increasing their management and marketing capabilities. MBDA offers competitive grants to consulting firms (either "Not for Profit" or Commercial Entities). These firms must be capable of providing such services as:

—feasibility studies
—financial management
—production management
—personnel management
—marketing

and a broad range of other business services excluding legal services.

Eligibility Requirements

Any for-profit or non-profit institution is eligible to submit an application. If an award is made, continuation awards for up to two additional years may be made to the successful recipient without competition, provided that funds have been appropriated for a project of this kind, and MBDA has determined that such funds are available, there is a continuing need for a project of this kind, and the recipient has performed satisfactorily.

Application Materials

An application kit for these projects may be requested in writing to the following address: U.S. Department of Commerce, Minority Business Development Agency, Grants Administration Unit, 55 East Monroe Street, Suite 1440, Chicago, IL 60603, Attn: LaVenia Webb, Grant Technician, Tel. (312) 353–0192.

Two (2) self-addressed mailing labels should be furnished in order to expedite forwarding of your application kit. When requesting an application kit, the applicant must specify its profit status; i.e., State or local government, federally recognized Indian Tribal unit, educational institution, hospital, or other type of profit or non-profit institution. This information is necessary to enable MBDA to include the appropriate cost principles in the application kit.

Award Process

All applications that are submitted in accordance with the instructions in the application kit will be submitted to a panel for review and ranking. Specific criteria by which applications will be evaluated is included in the application kit.

Closing Date

Applicants are encouraged to obtain an application kit as soon as possible in order to allow sufficient time to prepare and submit an application before the closing date of July 10, 1981. Applications received after July 10, 1981 will not be considered.

Pre-Application Conference

A pre-application conference for all interested applicants will be held at 10:30 a.m., June 19, 1981 at the John C. Kluczynski Building, 230 S. Dearborn, Room 349, Chicago, IL.

(11.800 Minority Business Development Catalog of Federal Domestic Assistance. This program is not subject to the requirements of OMB Circular A–95)

Dated: May 21, 1981.

Stanley W. Tate,

Regional Director.

BILLING CODE 1350–53–M

National Technical Information Service

Intent To Grant Limited Exclusive Patent License

The National Technical Information Service (NTIS), U.S. Department of Commerce, intends to grant to Nuclear Associates a limited exclusive right in the United States to manufacture, use and sell products embodied in the invention, "Contrast Resolution Tissue Equivalent Ultrasound Test Object."

The invention is protected by U.S. Patent Application No. 186,381 (dated September 11, 1980). Copies of the application may be purchased from NTIS, Springfield, VA 22161 at five dollars per copy. The patent rights in this invention have been assigned to the United States of America, as represented by the Secretary of Health and Human Services. Custody of the right to license this invention has been transferred to the Secretary of Commerce.

The availability of this invention for licensing was announced in the **Federal Register** (46 FR 15308, March 5, 1981); *Government Inventions for Licensing* (March 3, 1981); and the Patent and Trademark Office's *Official Gazette* (March 31, 1981). To date, these and other promotional efforts have not resulted in any applications for nonexclusive licenses under this patent. The proposed limited exclusive license will be royalty-bearing and will expire five years from the date of the license agreement. The terms and conditions of the license will comply with 35 U.S.C. 209 (Pub. L. 96–517) and 41 CFR 101–4.1.

The proposed license may be granted unless, within sixty days from the date of publication of this Notice, NTIS receives (1) an application for a nonexclusive license from a responsible applicant intending to practice the invention in the United States and NTIS determines that such applicant is likely to bring the invention to the point of practical application within a reasonable period of time; or (2) written evidence and argument which establishes that the grant of the proposed limited exclusive license would not serve the public interest.

Inquiries, comments and other materials relating to the proposed limited exclusive license must be submitted to the Office of Government Inventions and Patents, NTIS, Springfield, VA 22161. NTIS will maintain and make available for public inspection a file containing all inquiries, comments and other written materials received in response to this Notice and a record of all decisions made in this matter (including the basis therefor).

Dated: May 18, 1981.

Melvin S. Day,

Director.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OFFER SEVERELY HANDICAPPED

Procurement List 1981; Addition

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Addition to Procurement List.

SUMMARY: This action adds to Procurement List 1981 a commodity to

be produced by workshops for the blind and other severely handicapped.

EFFECTIVE DATE: May 29, 1981.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: On January 30, 1981, the Committee for Purchase from the Blind an Other Severely Handicapped published a notice (46 FR 9982) of proposed addition to Procurement List 1981, November 12, 1980 (45 FR 74836).

After consideration of the revelant matter presented, the Committee has determined that the commodity listed below is suitable for procurement by the Federal Government under 41 U.S.C. 46–48c, 85 Stat 77.

Accordingly, the following commodity hereby added to Procurement List 1981:

Class 1660

Harness Assembly
1660–00–066–2078

C. W. Fletcher,

Executive Director.

BILLING CODE 6820–33–M

Procurement List 1981; Proposed Addition

AGENCY: Committee for Purchase from the Blind and Other Severely handicapped.

ACTION: Proposed Addition to Procurement List.

SUMMARY: The Committee has received a proposal to add to Procurement List 1981 a commodity to be produced by workshops for the blind and other severely handicapped.

COMMENTS MUST BE RECEIVED ON OR BEFORE: July 1, 1981.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th Street North, Suite 610, Arlington, Virginia 22201.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to 41 U.S.C. 47(a) (2), 85 Stat. 77. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed action.

If the Committee approves the proposed addition, all entities of the Federal Government will be required to procure the commodity listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodity to Procurement List 1981, november 12, 1980 (45 FR 74836):

Class

Kit, Suture Removal
6515–00–690–6911

C. W. Fletcher,

Executive Director.

DEPARTMENT OF DEFENSE

Department of the Navy

Secretary of the Navy's Advisory Board on Education and Training; Notice of Meeting

Pursuant to section 10, paragraph (a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given of an open meeting of the Secretary of the Navy's Advisory Board on Education and Training (SABET) to be held July 16–17, 1981. The July 16 session will begin at 7:30 a.m. and continue until 3:00 p.m. The July 17 session will begin at 8:45 a.m. and continue until 12:00 noon. The Board will meet at the Naval War College and the Naval Education and Training Center in Newport, Rhode Island.

As part of the meeting, the Board will tour the Officer Accession Programs and Officer Specialized Training Programs and attend the Officer Candidate School Pass in Review. Briefings will concern the Navy Post Graduate and Professional Development Education Plans and Policies and the Naval War College Curriculum. Matters of continuing interest to be included at the SABET working session are the report on initiatives of the Naval Education and Training Command to reduce attrition at the Surface Warfare Officers School and a committee report on future plans.

Dated: May 19, 1981.

P. B. Walker,

Captain, JAGC, U.S. Navy, Alternate Federal Register Liaison Officer.

BILLING CODE 3810–71–M

Privacy Act of 1974; Addition of New System of Records

AGENCY: Department of the Navy (DON).

ACTION: Addition of one new system of records.

SUMMARY: The Department of the Navy proposes to add one new system of records to its inventory of systems of records subject to the Privacy Act of 1974. The system notice for this system of records is set forth below.

DATES: The proposed action will be effective without further notice on June 29, 1981, unless comments are received which would result in a contrary determination.

ADDRESSES: Any comments, to include written data, views or arguments concerning the action proposed should be addressed to the system manager identified in the system notice.

FOR FURTHER INFORMATION CONTACT: Mrs. Gwendolyn R. Rhoads, Privacy Act Coordinator, Office of the Chief of Naval Operations (OP–09B1P), Department of the Navy, The Pentagon, Washington, DC 20350. Telephone 202/694–2004.

SUPPLEMENTARY INFORMATION: The Department of the Navy inventory of systems of records notices as prescribed by the Privacy Act of 1974, Title 5, United States Code, Section 552a (Pub. L. 93–579; 88 Stat. 1897, et seq.) have been published in the **Federal Register** at:

FR Doc. 81–897 (46 FR 6696) January 21, 1981
FR Doc. 81–3277 (46 FR 9693) January 29, 1981
FR Doc. 81–13803 (46 FR 25337), May 6, 1981
FR Doc. 81–14113 (46 FR 26094), May 11, 1981

The Navy submitted a new system report for this system under the provisions of 5 U.S.C. 552a(o) on April 17, 1981.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

May 26, 1981.

SYSTEM NAME:

USN/USMC Nuclear Test Personnel Review Program.

SYSTEM LOCATION:

Primary Navy System exists at the Project Manager's Office, Navy Nuclear Test Personnel Review, Room 756, Commonwealth Building, 1300 Wilson Boulevard, Arlington, VA 22209. Automated segments exist at Navy Regional Data Automation Center, Washington Navy Yard, Washington, D.C. 20374 and J. A. Young Corporation, 205 South Whiting Street, Alexandria, VA 22304. The entire Marine Corps system exists at the Project Coordinator's Office, Marine Corps Nuclear Test Personnel Review, Records Branch, Personnel Services Division, Headquarters Marine Corps, Washington, D.C. 20380. Extracts of individualized records of both Navy and Marine Corps reside at Headquarters, Defense Nuclear Agency, Washington, D.C. 20305.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Navy and Marine Corps military and civilian personnel and/or contractor personnel in support of the Navy and Marine Corps who may have been exposed to radiation as the direct result of government sponsored atmospheric nuclear detonations occurring between 1945 and 1962.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, rank/grade, service number, social security account number, currrent or last known address, dates of test participation, radiation exposure (if any) and dose data, Navy and Marine Corps unit/office of assignment at time of exposure, current medical status, next-of-kin data, and extracts of service medical data such as CBC's, bioassay data and radiation sickness sequellae.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5031;

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

By the Department of the Navy to identify personnel who either were exposed to or participated in the atmospheric nuclear detonation program and to collect radiation exposure information so as to determine appropriate government-provided medical treatment, and to answer inquiries.

By the Veterans Administration to process/adjudicate claims in which service-connected disabilities resulting from radiation exposure are alleged.

By the Department of Defense components—For the purpose of preparing histories of atmospheric nuclear test participation and for use in litigation between test participants or their representatives and the Department of Defense.

By the Defense Nuclear Agency Contractors—For the purpose of assisting DoD components in preparation of histories of atmospheric nuclear test participation, to reconstruct individual dosimetry data based on research and application of mathematical factors and responding to the inquiries and concerns of individuals who may have participated in the test programs and/or their representatives.

By the National Research Council and the Center for Disease Control—For the limited purpose of conducting epidemiological studies of the effects of ionizing radiation from the atmospheric nuclear weapons tests on DoD participants in those tests.

By the Department of Energy—For the limited purpose of identifying AEC and AEC-contractor personnel exposed to ionizing radiation during nuclear testing and for conducting epidemiological studies of radiation effects of individuals so identified; and for use in litigation between the DoD and any of the individuals so identified.

By the Department of Transportation—For the limited purpose of identifying DOT and DOT-affiliated personnel exposed to ionizing radiation during nuclear testing and for use in litigation between the DOT and any of the individuals so identified.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; computer magnetic tapes, disks, and computer printouts.

RETRIEVABILITY:

By individual's name and/or service number/SSAN, or listed in conjunction with a unit (ship, air squadron, etc.) associated with atmospheric nuclear testing.

SAFEGUARDS:

Access is limited to properly cleared personnel having need for the information in the performance of official duties. Paper records are maintained in an office which is locked during non-working hours. The building in which both offices are located maintains continuous security guard surveillance during non-working hours. Magnetic tapes and disks are stored in secured computer areas, access to which is controlled by password.

RETENTION AND DISPOSAL:

Paper records are retained after data is transferred to magnetic tapes. Personnel and health records are retained by the National Personnel Records Center, St. Louis, Missouri. Other paper records will be retired to Naval and Marine Corps Historical Offices after completion of Nuclear Test Personnel Review effort. Magnetic tapes and disks are retained indefinitely.

SYSTEM MANAGER(S) AND ADDRESSES:

Program Manager, Navy Nuclear Test Personnel Review, Room 756, Commonwealth Building, 1300 Wilson Boulevard, Arlington, VA 22209 and Project Coordinator, Marine Corps Nuclear Test Personnel Review, Commandant of the Marine Corps, (MSRB–60), Washington, D.C. 20380.

NOTIFICATION PROCEDURE:

Individuals seeking to determine whether this system contains information pertinent to them shall either write or visit the system manager. Signed letters or proper identification are required.

RECORD ACCESS PROCEDURES:

Individuals may access records pertaining to them by furnishing full name and SSAN and/or service number. Additional information such as unit to which assigned at time or radiation exposure as well as place and approximate dates of exposure expedite recovery of desired records.

CONTESTING RECORDS PROCEDURES:

The agencies' rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the respective system manager.

RECORD SOURCE CATEGORIES:

From the individual; Navy and Marine Corps organizational, personnel, and medical records; the Veterans Administration, Department of Energy, Defense Nuclear Agency and other military departments.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

BILLING CODE 3810-71-M

DEPARTMENT OF EDUCATION

Advisory Panel on Financing Elementary and Secondary Education; Hearing and Meeting

AGENCY: Advisory Panel on Financing Elementary and Secondary Education.

ACTION: Notice of Hearing and Meeting.

SUMMARY: This notice is to inform the general public of its opportunity to attend and participate in the forthcoming hearing and meeting of tP.O. Box he Advisory Panel on Financing Elementary and Secondary Education. The notice sets forth the schedule and proposed agenda for the hearing and meeting and describes the functions of the Advisory Panel. Notice of the hearing and meeting is required under the Federal Advisory Committee Act, Section 10(a)(2).

TENTATIVE SCHEDULE: June 29, 1981, Hearing, 9:00 a.m.–5:00 p.m., Federal Office Building, Room 209, 50 United Nations Plaza, San Francisco, California.

June 30, 1981, Hearing, 9:00 a.m.–Noon, Federal Office Building, Room 209, 50 United Nations Plaza, San Francisco, California. Meeting, 3:00 p.m.–5:00 p.m.,

Faculty Club Library, University of California, Berkeley, California.

July 1, 1981, Meeting, 9:00 a.m.–5:00 p.m., Faculty Club Library, University of California, Berkeley, California.

FOR FURTHER INFORMATION CONTACT: Will S. Myers, Executive Director, Advisory Panel on Financing Elementary and Secondary Education, P.O. Box 19128, Washington, D.C. 20036, (202) 653–8278.

SUPPLEMENTARY INFORMATION: The Advisory Panel on Financing Elementary and Secondary Education was established by Section 1203, Title XII of the Education Amendments of 1978 (Pub. L. 95–561). The Panel provides the Secretary and the Congress with advice and counsel concerning public policies on raising and distributing revenues to support elementary and secondary education. The Advisory panel also provides advice to the Secretary concerning the conduct of studies authorized by Section 1203. The Advisory Panel will make interim reports to the President and the Congress in 1981 and 1982 and a final report in 1983. The Advisory Panel will also provide recommendations for legislation or other appropriate action to Congress.

Agenda

The proposed agenda includes:

Hearing

Testimony by invited witnesses and other persons from the State, local, academic, and nonpublic school communities on the prospects for adequate State-local financing of schools in the 1980's and the effects on schools of the diverse sources of Federal financial support.

Meeting

Report by the Chairman and Executive Director, Adequacy of State-local school support systems, State-local respose to changes in Federal support for schools, Alternative proposals for public support for private schools. Development of policy recommendations, Agenda items for the next Panel meeting and hearing.

Persons are invited to submit written testimony for the hearing record. Those interested in presenting oral testimony should contact the Executive Director no later than June 9, 1981. The Advisory Panel asks that testimony, either oral or written, be directed to the topic of the hearing. Both the hearing and meeting of the Advisory Panel are open to the public.

Records are kept of all Advisory Panel proceedings and are available for public inspection at the office of the Advisory Panel on Financing Elementary and Secondary Education located at 1200 19th Street N.W., Suite 725, Washington, D.C.

Signed at Washington, D.C. on May 22, 1981.

Will S. Myers,

Executive Director, Advisory Panel on Financing Elementary and Secondary Education.

[FR Doc. 81-16012 Filed 5-28-81; 8:45 am]

BILLING CODE 4000-01-M

Office of Postsecondary Education

International Understanding Program; Application Notice for New Projects for Fiscal Year 1981

Applications are invited for new projects under the International Understanding Program.

Authority for this program is contained in Part N of Title III of the Elementary and Secondary Education Act of 1965 (Pub. L. 89–10) as amended by the Education Amendments of 1980.

This program issues awards to any public or private agency or organization including, but not limited to, institutions of higher education, State and local educational agencies, professional associations, educational consortia, and organizations of teachers.

The purpose of the awards is to stimulate, at all levels of education, programs to increase the understanding of students and the public in the United States about the cultures, actions and interconnections of nations and peoples to enable the students and public to better evaluate the international and domestic impact of major policies and actions of the United States.

Effective Date: Unless Congress takes certain adjournments, the priorities included in this notice will take effect July 13, 1981. If you want to know if there has been a change in the effective date of these priorities, call or write the Department of Education contact person. At a future date the Secretary will publish a notice in the **Federal Register** stating the effective date of these priorities.

Closing date for transmittal of applications: Applications for awards must be mailed or hand-delivered by July 20, 1981.

Applications delivered by mail: An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: 84.095, International Understanding Program, Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the U.S. Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing: (1) a private metered postmark, or (2) a mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or at least first class mail. Each late applicant will be notified that its application will not be considered.

Applications delivered by hand: An application that is hand-delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, 7th and D Streets, S.W., Washington, D.C. between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturday, Sunday, or Federal holidays. Applications that are hand-delivered will not be accepted after 4:30 p.m. on the closing date.

Program information: Regulations governing evaluation and eligibility requirements for the International Understanding Program were published in the **Federal Register** on December 31, 1980, 45 FR 86883–86884.

Funds under this program may be used to carry out the following activities:

(1) The in-service training of teachers and other educational personnel with regard to the cultures, actions and interconnections of nations and peoples.

(2) The develoment of materials to link language learning to international studies.

(3) The compilation of existing information and resources pertaining to the purpose of the International Understanding Program in forms useful to various types of educational programs.

(4) The dissemination of information and resources pertaining to the cultures, actions and interconnections of nations.

(5) The introduction, by local educational agencies, of instruction in foreign languages designated by the

Secretary as having critical importance to the nation which have not been offered by the schools of the local educational agencies in the three academic years preceding 1981. Language projects proposed by local educational agencies must focus on instruction in major world languages except Spanish, French, or German.

Available funds and program priorities: Under the Second Continuing Resolution, Pub. L. 96–536, in effect through June 5, 1981, $2,000,000 is available for this program for fiscal year 1981. However, as part of the President's Economic Recovery Plan, $500,000 of this amount is proposed for rescission. The revised funding level for the program would provide for between 20 and 35 grants ranging from $5,000 to $100,000. If the Congress does not accept the President's proposed rescission, there will be an increase in the number of grants awarded.

These estimates, however, do not bind the U.S. Department of Education to a specific number of grants or to the amount of any grant unless that amount is otherwise specified by statute or regulations.

For all levels of funding, priority will be given to those projects which propose new programs or modify existing programs to increase students' and the public's understanding about (1) the cultures, actions and interconnections of nations and peoples, or (2) issues of global concern which will enhance students' and the public's ability to make informed judgments with respect to the politics and actions of the United States.

Specifically, priority will be given to those projects which:

(a) Provide in-service training to those teachers and other educational personnel who have participated or will participate in a program of teaching abroad in order to maximize the impact of this experience on increasing the international awareness of students;

(b) Involve State or local education leaders such as principals, superintendents, and school board members and/or State education department officials, in training and dissemination activities;

(c) Use electronic or print media; or

(d) Conduct programs related to community, adult, continuing or cooperative education programs.

Applications for all grants will be evaluated competitively under the funding criteria in 34 CFR 655.31 and 667.31.

There are no continuation grants in the International Understanding Program. Awards will be made for a one-year period.

Application forms:

Application forms and program information packages are expected to be ready for mailing by June 5, 1981. They may be obtained by writing the International Studies Branch, Division of International Services and Improvement, Office of International Education, U.S. Department of Education (Room 3669, ROB–3), 400 Maryland Avenue, S.W., Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the program information packages.

Applicable regulations: Regulations applicable to this program include the following:

(a) Regulations governing the International Understanding Program (34 CFR Parts 655 and 667) published in the **Federal Register** on December 31, 1980.

(b) Education Department General Administrative Regulations (EDGAR) (34 CFR Parts 74, 75 and 77). See 45 CFR Parts 100a and 100c published in the **Federal Register** on April 3, 1980.

Further information: For further information contact Mr. Steven G. Pappas, Office of International Education, U.S. Department of Education (Room 3669, ROB–3), 400 Maryland Avenue, S.W., Washington, D.C. 20202. Telephone: (202) 245–2794.

(20 U.S.C. 3064(b)(1))

(Catalog of Federal Domestic Assistance No. 84.095 International Understanding Program)

Dated: May 21, 1981.

T. H. Bell,

Secretary of Education.

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

Encorp, Inc.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy..

ACTION: Notice of Action taken and opportunity for comment on Consent Order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces action taken to execute a Consent Order and provides an opportunity for public comment on the Consent Order and on potential claims against the refunds deposited in an escrow account established pursuant to the Consent Order.

DATE: Effective date: May 8, 1981. Comments by: June 29, 1981.

ADDRESS: Send comments to: Wayne I. Tucker, District Manager of Enforcement, Southwest District Office, Department of Energy, P.O. Box 35228, Dallas, Texas 75235.

FOR FURTHER INFORMATION CONTACT: Wayne I. Tucker, District Manager of Enforcement, Southwest District Office, Department of Energy, P.O. Box 35228, Dallas, Texas 75235, Phone 214/767–7745.

SUPPLEMENTARY INFORMATION: On May 8, 1981, the Office of Enforcement of the ERA executed a Consent Order with Encorp, Inc. of Abilene, Texas. Under 10 CFR 205.199J(b), a Consent Order which involves a sum of less than $500,000 in the aggregate, excluding penalties and interest, becomes effective upon its execution.

Because the DOE and Encorp, Inc. wish to expeditiously resolve this matter as agreed and to avoid delay in the payment of refunds, the DOE has determined that it is in the public interest to make the Consent Order with Encorp, Inc. effective as of the date of its execution by the DOE and Encorp, Inc.

I. Consent Order

Encorp, Inc. with its home office in Abilene, Texas is a firm engaged in the resale of crude oil and is subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR, Parts 210, 211, 212. The Office of Enforcement of the Economic Regulatory Administration (ERA) and Encorp, Inc. entered into a Consent Order to resolve certain civil actions which could be brought by ERA as a result of its audit of the crude oil resales by Encorp, Inc. The significant terms of the Consent Order with Encorp, Inc. are as follows:

1. This Consent Order concerns the sale of certain volumes of crude oil sold by Encorp, Inc. during the period January 1, 1978 through February 1979, and is intended by Encorp, Inc. and DOE to resolve only those matters set forth in this Consent Order.

2. Encorp, Inc. allegedly applied the provisions of 10 CFR 212.185(c) and 212.186 incorrectly when determining the prices to be charged for certain domestic crude oil.

3. The Consent Order constitutes neither an admission by Encorp that DOE regulations have been violated nor a finding by the DOE that Encorp has violated DOE regulations.

4. The provisions of 10 CFR 205.199J, including the publication of this Notice, are applicable to the Consent Order.

II. Disposition of Refunded Overcharges

In the Consent Order, Encorp, Inc. agrees to refund, in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcement, ERA, arising out of the transactions specified in I.1. above, the sum or $5,000, including interest, on or before 30 days after the effective date of this Consent Order. Refunded overcharges will be in the form of a certified check made payable to the United States Department of Energy and will be delivered to the Assistant Administrator for Enforcement, ERA. These funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amount in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system, it is likely that overcharges have either been passed through as higher prices to subsequent purchasers or offset through devices such as the Old Oil Allocation (Entitlements) Program, 10 CFR 211.67. In fact, the adverse effects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected person, in which case disposition of the refunds will be made in the general public interest by an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199I(a).

III. Submission of Written Comments

Potential Claimants: Interested persons who believe that they have a claim to all or a portion of the refund amount should provide written notification of the claim to the ERA at this time. Proof of claims is not now being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim within the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other claimants or to the general public interest.

Other Comments: The ERA invites persons to comment on the terms, conditions, or procedural aspects of this Consent Order. You should send your comments or written notification of a claim to Wayne I. Tucker, District Manager of Enforcement, Southwest District Office, Department of Energy, P.O. Box 35228, Dallas, Texas 75235. You may obtain a free copy of this Consent Order by writing to the same address or by calling 214/767–7745.

You should identify your comments or written notification of a claim on the outside of your envelope and on the documents you submit with the designation, "Comments on Encorp, Inc.'s Consent Order." We will consider all comments we receive by 4:30 p.m., local time, within 30 days after this publication. You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the procedures in 10 CFR 205.9(f).

Issued in Dallas, Texas, on the 19th day of May 1981.

Wayne I. Tucker,

District Manager of Enforcement, Southwest District Office, Economic Regulatory Administration.

[FR Doc. 81-15999 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-01-M

Phillips Oil Operating Co.; Action Taken on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of action taken and opportunity for comment on Consent Order.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces action taken to execute a Consent Order and provides an opportunity for public comment on the Consent Order and on potential claims against the refunds deposited in an escrow account established pursuant to the Consent Order.

EFFECTIVE DATE: May 11, 1981.

COMMENTS BY: June 29, 1981.

ADDRESS: Send comments to: Wayne I. Tucker, Southwest District Manager, Economic Regulatory Administration, Department of Energy, P.O. Box 35228, Dallas, Texas 75235, Phone: 214/767–7745.

FOR FURTHER INFORMATION CONTACT: Wayne I. Tucker, Southwest District Manager, Economic Regulatory Administration, Department of Energy, P.O. Box 35228, Dallas, Texas 75235, Phone: 214/767–7745.

SUPPLEMENTARY INFORMATION: On May 11, 1981 the Office of Enforcement of the ERA executed a Consent Order with Phillips Oil Operating Company of Enid, Oklahoma. Under 10 CFR 205.199J(b) a Consent Order which involves a sum of $500,000 or less in the aggregate excluding penalties and interest, becomes effective upon its execution.

Because the DOE and Phillips wish to expeditiously resolve this matter as agreed and to avoid delay in the payment of refunds, the DOE has determined that it is in the public interest to make the Consent Order with Phillips effective as of the date of its execution by the DOE and Phillips.

I. The Consent Order

Phillips Oil Operating Company is a firm engaged in the production of crude oil and was subject to the Mandatory Petroleum Price and Allocation Regulations at 10 CFR Parts 210, 211, and 212. To resolve certain civil actions which could be brought by the Office of Enforcement of the Economic Regulatory Administration as a result of its audit of Phillips the Office of Enforcement, ERA and Phillips entered into a Consent Order, the significant terms of which are as follows:

1. During the period September 1, 1973 through January 27, 1981 Phillips allegedly sold crude oil above the allowable prices specified at 10 CFR Part 212, Subpart D.

2. Phillips and the DOE have agreed to a settlement of $43,000. This amount will be refunded by Phillips on or before June 10, 1981. The negotiated settlement was determined to be in the public interest as well as the best interest of the DOE and Phillips.

3. This Consent Order constitutes neither an admission by Phillips that ERA regulations have been violated nor a finding by the ERA that Phillips has violated ERA regulations.

4. The provisions of 10 CFR 205.199J, including the publication of this Notice, are applicable to the Consent Order.

II. Disposition of Refunded Overcharges

In this Consent Order, Phillips agrees to refund in full settlement of any civil liability with respect to actions which might be brought by the Office of Enforcemet, ERA arising out of the transactions specified in I.1. above, the sum of $43,000 in the manner specified in I.2. above. Refunded overcharges will be in the form of certified checks made payable to the United States Department of Energy and will be delivered to the Assistant Administrator for Enforcement, ERA. The funds will remain in a suitable account pending the determination of their proper disposition.

The DOE intends to distribute the refund amounts in a just and equitable manner in accordance with applicable laws and regulations. Accordingly, distribution of such refunded overcharges requires that only those "persons" (as defined at 10 CFR 205.2) who actually suffered a loss as a result of the transactions described in the Consent Order receive appropriate refunds. Because of the petroleum industry's complex marketing system, it is likely that overcharges have either been passed through as higher prices to subsequent purchasers or offset through devices such as the Old Oil Allocation (Entitlements) Program, 10 CFR 211.67. In fact, the adverse affects of the overcharges may have become so diffused that it is a practical impossibility to identify specific, adversely affected persons, in which case disposition of the refunds will be made in the general public interest by an appropriate means such as payment to the Treasury of the United States pursuant to 10 CFR 205.199l(a).

III. Submission of Written Comments

A. *Potential Claimants:* Interested persons who believe that they have a claim to all or a portion of the refund amount should provide written notification of the claims to the ERA at this time. Proof of claims is not being required. Written notification to the ERA at this time is requested primarily for the purpose of identifying valid potential claims to the refund amount. After potential claims are identified, procedures for the making of proof of claims may be established. Failure by a person to provide written notification of a potential claim within the comment period for this Notice may result in the DOE irrevocably disbursing the funds to other climants or to the general public interest.

B. *Other Comments:* The ERA invites interested persons to comment on the term, conditions, or procedural aspects of this Consent Order. You should send your comments or written notificaton of a claim to Wayne I. Tucker, Southwest District Manager, Economic Regulatory Administration, Department of Energy, P.O. Box 35228, Dallas, Texas 75235. You may obtain a free copy of this Consent Order by writing to the same address or by calling 214/767–7745.

You should identify your comments or written notificaiton of a claim on the outside of your envelope and on the documents you submit with the designation "Comments on the Phillips Oil Operating Company Consent Order". We will consider all comments we received by 4:30 p.m., local time (30 days after publication). You should identify any information or data which, in your opinion, is confidential and submit it in accordance with the Procedures in 10 CFR 205.9(f).

Issued in Dallas, Texas on the 19th day of May 1981.

Wayne I. Tucker,

Southwest District Manager, Economic Regulatory Administration.

BILLING CODE 6450-01-M

[OFC Case Nos. 55119-9193-01-12, 55119-9193-02-12, and 55119-91933-03-12; Docket No. ERA-FC-81-005]

Powerplant and Industrial Fuel Uses; General Motors Corp.; Tentative Staff Analysis

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of Availability of Tentative Staff Analysis..

SUMMARY: On December 4, 1980, General Motors Corporation (GM) filed a petition with the Economic Regulatory Administration (ERA) for an order which would exempt three new major fuel burning installations (MFBI's) from the prohibitions of the Powerplant Industrial Fuel Use Act of 1978 (42 U.S.C. 8301 *et seq.), (FUA or the Act). Title II of FUA prohibits the use of petroleum or natural gas as a primary energy source in certain new MFBI's unless an exemption has been granted by ERA. Criteria for petitioning for exemption from the prohibitions of FUA are contained in 10 CFR Parts 500 and 501, and 10 CFR Part 503, published on June 6, 1980, at 45 FR 38276 and 38302 respectively. This rule became effective August 5, 1980.*

Under the provisions of 10 CFR 503.38(d), GM petitioned for a permanent fuels mixture exemption for each of three new boilers to be installed at GM's Assembly Division, Shreveport, Louisiana plant.

ERA accepted the petition on March 27, 1981, and published notice of its acceptance in the **Federal Register** on April 3, 1981, at 46 FR 20267. The Notice of Acceptance provided for a 45-day comment period during which interested persons could submit written comments and request a public hearing on the petition for exemption. That period expired on May 18, 1981. No comments were received nor was a public hearing requested.

Based upon the ERA staff's review and analysis of the information presently contained in the record of this proceeding, a Tentative Staff Analysis has been completed which recommends that ERA issue an order which would grant the requested exemption. Pursuant to 10 CFR § 501.64, notice of the availability of the Tentative Staff Analysis is hereby issued and interested persons are invited to submit written comments in regard to this matter, and any interested person may submit a written request that ERA convene a public hearing.

DATES: Written comments on the Tentative Staff Analysis are due on or before June 12, 1981. A request for public hearing must also be made within the same 14-day comment period.

ADDRESSES: Fifteen copies of written comments or a request for public hearing should be submitted to: Economic Regulatory Administration, Case Control Unit (Fuel Use Act), Box 4629, Room 3214, 2000 M Street NW., Washington, DC 20461.

Docket Number ERA–FC–81–005 should be printed clearly on the outside of the envelope and on the document contained therein.

FOR FURTHER INFORMATION CONTACT:

Edward J. Peters, Jr., Case Manager, New MFBI Branch, Office of Fuels Conversion, Economic Regulatory Administration, 2000 M Street NW., Room 3128–M, Washington, D.C. 20461, Phone (202) 653–3934.

Allan J. Stein, Office of the General Counsel, Department of Energy, Forrestal Building, Room 6B–178, 1000 Independence Avenue SW., Washington, D.C. 20585, Phone (202) 252–2967.

ERA will issue a final order granting or denying GM's petition for permanent exemption within six months after the public comment period provided for in this notice has expired, unless ERA extends such period. Notice of any extension, together with a statement of reasons for such extension, will be published in the **Federal Register.**

The public file containing a copy of the Tentative Staff Analysis and other documents and supporting materials on this proceeding is available for inspection upon request at: ERA, Room B–110, 2000 M Street NW., Washington, D.C., Monday through Friday, 8:00 a.m.–4:30 p.m.

SUPPLEMENTARY INFORMATION: The MFBI's for which the petition exemption has been filed are three new field-erected boilers (identified as boilers Nos. 1, 2, and 3), each having a design heat input rate of approximately 177 million Btu's per hour with a steam generating capacity of 150,000 pounds per hour. Each boiler is designed to burn coal, natural gas, or oil. GM, in its petition, seeks a permanent exemption

to burn a mixture of coal and natural gas, alternately, in each unit. GM has certified that the amount of natural gas which will be used in the mixture for each of the three boilers will not exceed 25 percent of the total annual Btu heat input rate of the primary energy sources of each boiler.

Eligibility and evidentiary requirements governing the permanent fuels mixture exemption, as authorized under section 212(d) of FUA, are set forth at 10 CFR 503.38. Under subsection (d) of that section, a certification alternative is available for MFBI's which will use a mixture containing less than 25 percent petroleum or natural gas, providing simplified evidentiary requirements for such facilities. GM has petitioned for a permanent exemption from the prohibitions of Title II of FUA for each of its boiler Nos. 1, 2 and 3, under 10 CFR 503.38(d), based upon use of a mixture containing less than 25 percent natural gas in each unit and has included in its petition, as amended by letter dated March 2, 1981, the following information and duly executed certifications:

(1) The amount of natural gas to be used in the fuels mixture in each boiler identified in its petition will not exceed 25 percent of the total annual Btu heat input of the primary energy sources of each installation;

(2) Pursuant to 10 CFR 503.15(b), GM will, prior to operating the boilers which are the subject of its petition, secure all applicable environmental permits and approvals pursuant to, but not limited to, the following: Clean Air Act, Clean Water Act, Rivers and Harbors Act, Coastal Zone Management Act, and the Resource Conservation and Recovery Act;

(3) The information required by the Environmental Checklist pursuant to 10 CR 503.15(b); and

(4) That it will, upon grant of the requested exemptions, agree to the terms and conditions specified in 10 CFR 503.38(e).

In addition, pursuant to 10 CFR 503.38(d)(3), GM provided a description of the fuels mixture, component elements and percentages and quantity of each component to be utilized in each boiler. The ERA staff reviewed the description of the fuels mixture and is satisfied that the percentage and quantity of each component of the fuels mixture projected to be used annually in each boiler identified in its petition is consistent with GM's certifications that the amounts of natural gas to be used in each of the boilers will not exceed 25 percent of the total annual Btu heat input of that unit's primary energy sources. GM did not include a request for an exemption to use petroleum in the units identified in its petition.

The ERA staff has examined the certifications made by GM in its petition, and other information contained therein, and has determined that the petition fulfills the requirements of 10 CFR 503.38(d). The ERA staff also finds that the amount of natural gas proposed to be used by GM in each unit would not exceed the minimum percentage of the total annual Btu heat input of the primary energy sources needed to maintain operational reliability of the unit consistent with maintaining a reasonable level of fuel efficiency. Accordingly, the ERA staff has completed a Tentative Staff Analysis which recommends that an order be issued, subject to the terms and conditions specified below, which would grant GM the requested exemptions for its three boilers.

TERMS AND CONDITIONS: Section 214(a) of FUA gives ERA the authority to attach appropriate terms and conditions to any order granting an exemption under Title II of the Act. By petitioning for exemption under the provisions of 10 CFR 503.38(d), GM, in accordance with 10 CFR 503.38(e), agreed, upon grant of each exemption, to the standard terms and conditions specified in that subsection. Based upon its review of the record in this matter, ERA staff recommends that the following terms and conditions be attached to any order which would grant GM's requested exemption.

(1) The amount of natural gas to be used in a mixture with alternate fuel in each of the boilers will not exceed 25 percent of the total annual Btu heat input of the primary energy sources of each unit.

(2) Prior to operating each of the boilers, GM will secure all applicable environmental permits and approvals pursuant to, but not limited to the following: Clean Air Act, Clean Water Act, Rivers and Harbors Act, Coastal Zone Management Act and the Resource Conservation and Recovery Act.

REPORTING REQUIREMENTS: In addition to the above terms and conditions, GM must, pursuant to 10 CFR 503.38(g), upon grant of this exemption, certify to ERA the date each of the three boilers is first operated under the provisions of this order, and must, annually thereafter at not later than 30 days after each anniversary of that date, file with ERA a certification that the amount of natural gas used in each boiler during the preceding year did not exceed 25 percent of the total annual Btu heat input of the primary energy sources of that MFBI. Such certifications shall be executed by a duly authorized representative of GM.

On August 11, 1980, DOE published in the **Federal Register** (45 FR 53199) a notice of proposed amendments to guidelines for compliance with the National Environmental Policy Act of 1969 (NEPA). Pursuant to the guidelines, the granting or denial of certain FUA permanent exemptions, including the permanent fuels mixture exemption by certification in which the use of petroleum or natural gas in a mixture with an alternate fuel(s) will not exceed 25 percent of the exempted MFBI's total annual Btu heat input of its primary energy sources, were identified as classes of actions which normally do not require the preparation of an Environmental Impact Statement or an Environmental Assessment.

This classification raises a rebuttable presumption that the granting or denial of these exemptions will not significantly affect the quality of the human environment. GM has certified that it will secure all applicable permits and approvals prior to commencement of operation of each new MFBI under exemption. The Environmental Checklist completed and certified to by GM pursuant to 10 CFR 503.15(b) has been reviewed by DOE's Office of Environment, with consultation from the Office of the General Counsel, and it has been determined that GM's responses to the questions therein indicate that the operation of each of the three boilers under this exemption will have no significant impact on those areas regulated by specified laws that impose consultation requirements on DOE, and otherwise affirms the applicability of the categorical exclusion to these FUA actions. No contrary information has come to the attention of ERA; therefore, unless substantial questions regarding the categorical exclusion in this instance are raised during the proceeding on GM's petition which would indicate otherwise, no additional environmental review is deemed to be required.

The Tentative Staff Analysis does not constitute a decision by ERA to grant the requested exemption. Such a decision will be made in accordance with 10 CFR 501.68 on the basis of the entire record of this proceeding, including any comments received on this Tentative Staff Analysis.

Issued in Washington, D.C., on May 21, 1981.

Robert L. Davies,

Director, Office of Fuels Conversion, Economic Regulatory Administration.

[FR Doc. 81-16001 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Project No. 4503-000]

Central Maine Power Co.; Application for Preliminary Permit

May 22, 1982.

Take notice that Central Maine Power Company (Applicant) filed on April 9, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for proposed Project No. 4503 to be known as the Cold Stream Project located on the Kennebec River in Somerset County, Maine. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Elwin W. Thurlow, President, Central Maine Power Company, Edison Drive, Augusta, Maine 04336. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a new 200-foot high, 1,400-foot long, zoned earth embankment or rock-fill dam; (2) a 250-foot long concrete spillway; (3) a reservoir with a surface area of 835 acres with a gross storage capacity of 66,343 acre feet at elevation 800 feet m.s.l.; (4) a 1,000-foot long power canal; (5) a 32-foot diameter, 200-foot long penstock; (6) a powerhouse containing a single 83-MW turbine-generator unit initially and space available for two additional 83-MW turbine-generator units; (7) a 3.7-mile long, 115-kV transmission line and (8) appurtenant facilities. The Applicant estimates that the average annual energy output initially would be 250,000,000 kWh and might be increased to a maximum of 295,000,000 kWh through the addition of additional units.

Purpose of Project—Energy produced at the project would be fed into the Applicant's system.

Proposed Scope and Cost of Studies Under Permit—The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on results of these studies, Applicant would decide whether to proceed with more detailed studies and the preparation of an application for license to construct and operate the project. The Applicant has requested a preliminary permit term of three years. The cost of the studies under the preliminary permit has been estimated by the Applicant to be $1,000,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 10, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interest person to file the competing application no later than October 9, 1981. A notice of intent must conform with the requirements of 18 CFR § 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR § 1.8 or §1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in §1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 10, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions, to intervene must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION," "COMPETING APPLICATION," "PROTEST," "PETITION TO INTERVENE," as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4503. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16034 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ID-1956-000]

William T. Coleman, Jr.; Filing

May 21, 1981.

The filing individual submits the following:

Take notice that on May 11, 1981, William T. Coleman, Jr. filed a petition for a declaratory order pursuant to section 1.7(c) of the Commission's regulations that INA Corporation (INA) is not a firm authorized by law to underwrite or participate in the marketing of securities of a public utility within the meaning of section 305(b) of the Federal Power Act, and, thus, that the holding of the positions of director of the Philadelphia Electric Company (PEC) and director of INA does not fall within the purview of section 305(b) of the Federal Power Act.

Mr. Coleman states that PEC is a public utility as defined by § 45.2(b)(1) of the Commission's regulations. Mr. Coleman states that INA's principle businesses include property-casualty insurance, life insurance, and health care. Mr. Coleman states that INA engages in investment activities and through two wholly-owned subsidiaries owns capital stock in Paine Webber Incorporated (Paine). Mr. Coleman states that Paine has several subsidiaries which are authorized by law to underwrite or participate in the marketing of public utility securities as defined by § 45.2(b)(2) of the Commission's regulations. Mr. Coleman asks that the Commission declare that INA does not constitute a firm authorized by law to underwrite or participate in the marketing of securities of a public utility within the meaning of section 305(b) of the Federal Power Act and that the holding of the positions of director of PEC and director of INA does not fall within the purview of section 305(b) of the Federal Power Act.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (1.8 CFR 1.8, 1.10).

All such petitions or protests should be filed on or before June 10, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16054 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4329-000]

Consolidated Hydroelectric, Inc.; Notice of Application for Preliminary Permit

May 22, 1981.

Take notice that Consolidated Hydroelectric, Inc. (Applicant) filed on March 12, 1981, an application for preliminary permit (pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)) for proposed Project No. 4329 to be known as The Willow Creek Tehama Power Project located on the Willow Creek in Tehama County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. L. Porter Davis, Vice President, Consolidated Hydroelectric, Inc., 698 Azalea Avenue, Redding, California 96002. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 140-foot long, 5-foot high concrete and rock diversion structure; (2) a 10,000-foot long diversion conduit or channel; (3) a 1,200-foot long, 44-inch diameter steel penstock; (4) a powerhouse containing generating units with a total rated capacity of 4,580 kW; and (5) a 13-mile long 12.5-kV transmission line.

The Applicant estimates that the average annual energy output would be 16 million kWh.

Purpose of Project—The project energy would be sold to Pacific Gas and Electric Company.

Proposed Scope and Cost of Studies Under Permit—The Applicant seeks a preliminary permit for a period of 36 months, during which time it would conduct engineering, environmental, and economic feasibility studies and prepare an FERC license application. No new roads will be required to conduct these studies. The cost of conducting these studies and preparing an FERC license application has been estimated to be between $80,000 and $140,000.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and environmental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 10, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than October 9, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 10, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION," "COMPETING APPLICATION," "PROTEST," or "PETITION TO INTERVENE," as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4329. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, N.W., Washington, D.C. 20426. A copy of

any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16035 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket Nos. ER81-353-000, ER81-354-000, and ER81-381-000]

Dayton Power and Light Co.; Order Accepting for Filing and Suspending Revised Rates, Denying Motions, Denying Waiver of Notice, Granting Intervention, Consolidating Dockets, and Establishing Price Squeeze and Hearing Procedures

Issued: May 22, 1981.

On March 24, 1981, in Docket No. ER81-354-000, Dayton Power and Light Company (Dayton) filed increased rates for firm power service to 14 municipal customers served under its present electric tariff. Dayton concurrently filed, in Docket No. ER81-353-000, proposed rates for partial requirements and transmission services not previously offered to Dayton's wholesale customers. Although there are no customers currently taking the partial requirements or transmission services, Dayton states that it has been informed by a number of municipal customers that purchases from third parties are imminent. Thus, the company desires to have this alternate tariff on file at this time. Dayton also filed, on March 31, 1981, in Docket No. ER81-381-000, increased rates for firm power service to its remaining wholesale customer, the City of Piqua, Ohio (Piqua), which is served under a separate interconnection agreement.[1]

The proposed rates applicable to these 15 municipal customers would result in increased revenues of approximately $6,452,566 (40.52%) for the twelve months ending March 31, 1982. Dayton requests an effective date of sixty days after filing for the respective rate changes, *i.e.*, May 23, 1981, for the 14 municipals served under the tariff and May 30, 1981, for Piqua. Dayton also requests waiver of the notice requirements to permit the new partial requirements and transmission service tariff to become effective as of the filing date, March 24, 1981.

Notices of the filings were issued on March 31, 1981, in docket Nos. ER81353-000, and ER81-354-000, and on April 7, 1981, in Docket No. ER81-381-000, with responses in all three dockets due on or before April 20, 1981. On April 20, 1981, the municipal customers currently served under Dayton's electric tariff (Municipals) filed a protest, motion to reject, and petition to intervene in Docket No. ER81-354-000.[2] Municipals protest the rate increase as being excessive, seek rejection of the submittal asserting that it violates the Commission's filing requirements, and, alternatively, request a five month suspension. Municipals further contend that Dayton has used a number of improper cost of service procedures or allocations, and that the proposed rates will create a price squeeze.

On April 20, 1981, Piqua filed a protest and petition to intervene in Docket No. ER81-381-000. Piqua raises no independent objections, but states that it incorporates by reference the protest filed by the Municipals in Docket No. ER81-354-000.

Also on April 20, 1981, the Municipals filed a protest and petition to intervene in Docket No. ER81-353-000. Municipals state that they desire to have the partial requirements and transmission tariff available for immediate use, but that the customers should not be penalized by having to pay an excessive rate for such services. Therefore, Municipals request that the Commission grant waiver of the notice requirements and suspend the terms and conditions of the partial requirements and transmission tariff for one day, but suspend the *rates* for five months, allowing them to become effective subject to refund on the same date as the full requirements rates. In addition, Municipals request that Dayton be required to compute and file partial requirements and transmission rates based on the same cost data used to derive its present rates for firm service. Under the Municipals' proposal, these rates would then be collected during the interim period prior to the effective date of the proposed rates for partial requirements and transmission services. Municipals further request that any rate charged for the transmission of power and energy from Buckeye Power, Inc., be collected subject to refund pending the outcome of a complaint filed by the City of St. Marys in Docket No. EL81-14-000.[3] Municipals also object to proposed partial requirements and transmission service tariff.

Discussion

Municipals' motion to reject the filing is based on the allegation that Dayton has failed to file sufficiently detailed testimony and sufficient support for certain Period II estimates and cost of service adjustments. The Commission finds that Dayton has substantially complied with the requirements of section 35.13 of the regulations, and therefore the motion to reject will be denied.[4]

Muncipals' request for Dayton to compute and file interim partial requirements and transmission rates based on cost data used in the derivation of their present rates is inappropriate and will be denied. Dayton's choice of a test period is consistent with section 35.13 of the regulations and the Commission will not require Dayton to use historical data to derive rates for services to be rendered in the future.[5]

Our analysis of Dayton's filings indicates that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Therefore we shall accept the rates for filing and suspend them as directed below.

In a number of suspension orders,[6] we have addressed the considerations underlying the Commission's policy regarding rate suspensions. For the reasons given there, we have concluded that rate filings should generally be suspended for the maximum period permitted by statute where preliminary study leads the Commission to believe that the filing may be unjust and unreasonable or that it may run afoul of other statutory standards. We have acknowledged, however, that shorter suspensions may be warranted in circumstances where suspension for the maximum period may lead to harsh and inequitable results. Such circumstances have been presented here. As noted, Dayton's last general rate increase to its wholesale customers became effective in 1976. Moreover, according to our

---

[1] *See* Attachment A for rate schedule designations.

[2] The cities and villages are Arcan, Celina, Eldorado, Jackson Center, Lakeview, Mendon, Minister, New Bremen, New Knoxville, St. Marys, Tipp City, Versailles, Waynesfield, and Yellow Springs.

[3] On April 16, 1981, the City of St. Marys and American Municipal Power-Ohio, Inc. filed a complaint against Dayton alleging that Dayton's refusal to transmit power from Buckeye Power to St. Marys is in violation of its obligations under the Buckeye Power Delivery Agreement. No action has been taken in Docket No. EL81-14-000 to date.

[4] *See Municipal Light Boards of Reading and Wakefield, Massachusetts* v. *FPC*, 450 F.2d 1341 (D.C. Cir. 1971).

[5] We note that Dayton's last general rate increase to its wholesale customers became effective in November of 1976.

[6] *E.g., Boston Edison Company*, Docket No. ER80-508 (August 29, 1980) (five-month suspension); *Alabama Power Co.*, Docket Nos. ER80-506, *et al.* (August 29, 1980) (one-day suspension); *Cleveland Electric Illuminating Co.*, Docket No. ER80-218 (August 22, 1980) (one-day suspension).

review, the full requirements rates, including the rates to Piqua, may not yield substantially excessive revenues. Under these circumstances, a nominal suspension and a refund obligation should provide adequate protection to the affected customers pending the outcome of a hearing. Accordingly, the Commission will suspend these full requirements rates for one day to become effective, subject to refund, on May 24, 1981, for all customers except Piqua, and on May 31, 1981, for Piqua.

The partial requirements and transmission rates cover services not previously offered to Dayton's wholesale customers. As noted above, Dayton has requested waiver of the notice requirements to allow the proposed partial requirements and transmission tariff to become effective on March 24, 1981. Although the intervening customers have supported the request for waiver with respect to the tariff terms and conditions, their support is premised on their further request that the Commission suspend the associated rates for the full five months. However, for the reasons stated with regard to the full requirements rates, we believe that a one day suspension is appropriate as to the remaining rates as well. Moreover, it does not appear that any customer has arranged for the subject services and, since the 60-day period following the filing will elapse shortly, denial of waiver should pose no obstacle to customers who may desire partial requirements or transmission service. We find that good cause does not exist to grant waiver and we shall therefore suspend the partial requirements transmission tariff and rates for one day to become effective, subject to refund, on May 24, 1981.

Since Docket Nos. ER81–353–000, ER81–354–000 and ER81–381–000 present common questions of law and fact, we shall consolidate those dockets for purposes of hearing and decision.

In accordance with the Commission's policy established in *Arkansas Power and Light Company*, Docket No. ER79–339, order issued August 6, 1979, we shall phase the price squeeze issue. This procedure will allow a decision first to be reached on the cost of service, capitalization and rate of return issues. If, in view of the intervenors or staff, a price squeeze persists, a second phase of the proceeding may follow.

The Commission finds that participation in this proceeding by each of the petitioners is in the public interest. Accordingly, the petitions to intervene will be granted.

The Municipals have requested that any rate charged for the transmission of power and energy from Buckeye Power, Inc. be collected subject to refund pending the outcome of the complaint proceeding in Docket No. EL81–14–000. The transmission rates currently proposed by Dayton are being suspended and set for hearing by this order. Consequently, the rate that Dayton would charge for transmission, including that involving Buckeye Power, Inc., will be collected subject to refund, irrespective of the proceedings in Docket No. EL81–14–000. Docket No. EL81–14–000 is at a very early stage, with comments and protests being due on May 22, 1981. We shall decline to take further action at this time pending consideration of the complaint.

The Commission orders:

(A) The Municipals' motion to reject is hereby denied.

(B) The Municipals' request to require Dayton to file interim rates for partial requirements and transmission service is hereby denied.

(C) Dayton's general rate increase for firm service and the increase to the City of Piqua are hereby accepted for filing and suspended for one day to become effective May 24, 1981, and May 31, 1981, respectively, subject to refund.

(D) Dayton's request for waiver of the notice requirements to allow the partial requirements and transmission service tariff to become effective as of the filing date is hereby denied, and such tariff and rates are hereby accepted for filing and suspended for one day from sixty days after filing to become effective May 24, 1981, subject to refund.

(E) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act [18 CFR, Chapter I (1980)], a public hearing shall be held concerning the justness and reasonableness of Dayton's rates.

(F) The petitioners are hereby permitted to intervene in this proceeding subject to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act: *Provided, however,* that participation by such intervenors shall be limited to the matters set forth in the petitions to intervene; and, *provided, further,* that the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders entered by the Commission in this proceeding.

(G) Docket Nos. ER81–353–000, ER81–354–000 and ER81–381–000 are hereby consolidated for purposes of hearing and decision.

(H) We hereby order initiation of price squeeze procedures and further order that the proceeding be phased so that the price squeeze procedures begin after issuance of a Commission opinion establishing the rate which, but for a consideration of price squeeze, would be just and reasonable. The presiding judge may order a change in this schedule for good cause. The price squeeze portion of this case shall be governed by the procedures set forth in section 2.17 of the Commission's regulations as they may be modified prior to the initiation of the price squeeze phase of this proceeding.

(I) The Commission staff shall serve top sheets in this proceeding on or before May 24, 1981.

(J) A presiding administrative law judge, to be designated by the Chief Administrative Law Judge for that purpose, shall convene a conference in this proceeding to be held within approximately fifteen (15) days after service of top sheets, in a hearing room of the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426. The presiding judge is authorized to establish procedural dates and to rule on all motions (except motions to consolidate or sever and motions to dismiss) as provided for in the Commission's Rules of Practice and Procedure.

(K) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. CP81-121-000]

El Paso Natural Gas Co. and Amoco Production Co.; Renotice of Application

May 22, 1981.

Take notice that on December 29, 1980, El Paso Natural Gas Company (El Paso), P.O. Box 1492, EL Paso, Texas 79978, and Amoco Production Company (Amoco), P.O. Box 3092, Houston, Texas 77001, filed in Docket No. CP81-121-000 a joint application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

El Paso states that it sells and delivers quantities of return residue gas to Amoco which are in excess of casinghead gas quantities which El Paso has purchased from Amoco pursuant to a casinghead gas contract and letter agreement. It is stated that Amoco uses this gas in association with the production of oil and gas in the Bakke Field located in Andrews County, Texas. It is further stated that since the residue gas has been reclassified to Priority 3 delivery, Amoco is concerned that production in the Bakke Field could be seriously affected as a result of the extensive periods of total or partial curtailment of Priority 3 deliveries which have occurred and are expected to continue to occur on El Paso's interstate transmission system.

In consideration of Amoco's concern, Applicants state they have entered into a gas exchange agreement dated May 1, 1980, which supersedes the previous letter agreement and which provides for Amoco to utilize its own source of natural gas supply for assurance of reliability of natural gas service required to maintain the production of oil and gas reserves attributable to the Bakke Field. Pursuant to the agreement, it is stated that El Paso has acquired a new source of natural gas supply from Amoco's Lansdale "D" Federal Com. No. 1 well located in Lea County, New Mexico. It is further stated that Amoco has dedicated 75 percent of its natural gas reserves produced from the well to El Paso and reserved the right to receive in kind up to the remaining 25 percent of the production for use in its operation of the Bakke Field facilities. Applicants state that Amoco would deliver to El Paso noncommitted quantities of in-kind takes and that El Paso would deliver equivalent quantities of natural gas on a volumetric basis to Amoco at existing delivery points located in Andrews County, Texas. It is stated that the exchange arrangement can be accomplished by use of existing facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 3, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16019 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket Nos. ER 80-327 and ER80-328]

Georgia Power Co.; Compliance Report

May 21, 1981.

The filing company submits the following:

Take notice that on May 11, 1981, Georgia Power Company (GPC) filed a Compliance Report for Docket Nos. ER80-327 and ER80-328 ordered to be filed by the Commission's order of April 21, 1981, which approved the settlement agreements filed and approved by the Commission in the above-mentioned dockets.

GPC states that it has refunded to the Oglethorpe Power Corporation (OPC), the Municipal Electric Authority of Georgia (MEAG), and to the City of Dalton, Georgia (Dalton) a total of $4,459,942.89 in settlement of the PR-5 rate. This amount included a principal refund of $4,346,823.00 and interest in the amount of $113,119.89. This total refund was made in Docket No. ER80-328 for the partial requirements customers.

GPC also refunded to the Cities of Acworth and Hampton, Georgia a total of $33,942.43 in settlement of the FR-3 rate which is embodied in Docket No. ER80-327. These cities are full requirements customers. This amount included a principal refund of $33,285.22 and interest in the amount of $657.21.

Any person desiring to be heard or to make any protest with reference to said Compliance Report should on or before June 11, 1981, file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestant a party to the proceeding. Any person wishing to become a party must file a petition of Intervention in accordance with the Commission's Rules of Practice and Procedure.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16037 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ES81-46-000]

Gulf States Utilities Co.; Application

May 21, 1981.

Take notice that on May 13, 1981, Gulf States Utilities Company (Applicant)

filed an application seeking an order pursuant to Section 204 of the Federal Power Act authorizing the issuance of 588,000 Shares of Additional Common Stock.

The Applicant proposes to issue the new securities in exchange for all of the outstanding capital stock of the Prudential Drilling Company, a Texas corporation which is in the business of oil and gas exploration and development. The Applicant then proposes to continue and expand the exploration and development program of such subsidiary.

Any person desiring to be heard or to make any protest with reference to said Application should on or before June 3, 1981, file with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16038 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket Nos. ER80-259, ER80-793-000, ER80-793-001, ER81-355-000, ER81-356-000, and ER81-357-000]

Kansas Gas and Electric Co.; Order Accepting for Filing and Suspending Proposed Rates, Granting Intervention, Waiving Filing Requirements, Denying Motions To Reject, Consolidating Proceedings, and Establishing Price Squeeze and Hearing Procedures

Issued: May 26, 1981.

On March 24, 1981, Kansas Gas and Electric Company (KG&E) tendered for filing three unexecuted service agreements [1] providing for an increase in rates for service to the Cities of Wellington (Docket No. ER81-355-000), Winfield (Docket No. ER81-356-000), and Girard (Docket No. ER81-357-000), Kansas collectively referred to as Cities) to supersede existing agreements between KG&E and each city.[2] The new agreements incorporate rates for service to the Cities which are identical to those proposed by KG&E and currently subject to investigation in Docket Nos. ER80-259, *et al.*[3] KG&E indicates that the rates will be modified to reflect the Commission's conclusions in the prior dockets.

KG&E's submittals reflect an increase in revenues from Wellington of $240,446 and from Winfield of $43,006 for the 12-month period ending May 31, 1981. The increase to Girard represents additional revenues of $141,163 for the 12-month period ending June 30, 1981. With respect to Wellington and Winfield, KG&E requests acceptance of its filing as of May 31, 1981, in order to permit the rates to commence, after a one day suspension, on June 1, 1981, subject to refund. With respect to Girard, KG&E requests acceptance as of June 30, 1981, to permit that rate to commence, after a one day suspension, on July 1, 1981, subject to refund. These dates represent the day after termination of the respective agreements.

KG&E asserts that its filings in these dockets contain agreements in all respects similar to the one filed in Docket No. ER80-793 for service to the City of Burlington, Kansas (Burlington), which was amended in Docket No. ER80-793-001. As in the instant filings, the rates for Burlington were the same rates as those proposed in Docket No. ER80-259. By orders issued November 28, 1980, and March 4, 1981, the Commission, *inter alia*, waived the filing requirements, accepted for filing and suspended the submittals applicable to Burlington for one day, and consolidated those proceedings with Docket No. ER80-259. KG&E requests similar treatment for the instant submittals.

Notices of the filings were issued on March 31, 1981, with comments, protests, or petitions to intervene due on or before April 20, 1981. On April 16, 1981, Wellington filed in Docket No. ER81-356-000, a petition to intervene, which was withdrawn by petition filed April 20, 1981. On April 20, 1981, Wellington, Winfield, and Girard filed petitions to intervene, protests, motions to reject, and alternative requests for five-month suspension and consolidation. In support of their motions to reject, Cities assert that the filings (1) fail to comply with Commission orders, (2) are not supported by cost data, and (3) are excessive, unreasonable, anticompetitive, discriminatory, and would create a price squeeze. Alternatively, Cities urge a five-month suspension period to be compatible with the Commission's general policy for maximum suspension of rate filings inasmuch as they assert that no special circumstances warrant a departure from that policy. KG&E filed answers to the protests on May 5, 1981.

Discussion

Initially, we find that participation by Cities in this proceeding is in the public interest. Consequently, we shall grant the petitions to intervene.

As noted above, in Docket No. ER80-793-000, the proposed rates were the same as those submitted in Docket No. ER80-259, and KG&E's cost of service in the earlier docket included the costs of providing service to Burlington. We, therefore, granted KG&E's request for waiver of the filing requirements and test period time constraints of our regulations. The circumstances presented by the instant filings are identical and, therefore, the rationale stated in our November 28, 1980 order is equally applicable here. As a result, we shall grant KG&E's requests for waiver in Docket Nos. ER81-355-000, ER81-356-000, and ER81-357-000, and permit the use of the cost of service data filed in Docket No. ER80-259 to support the rates currently proposed.

Further, we do not believe that the remaining arguments made by Cities provide an adequate basis for rejecting KG&E's filings. Those issues should be resolved together with the issues raised in the Docket No. ER80-259 proceeding. We shall therefore deny the motions to reject KG&E's filings and we shall grant the requests to consolidate the dockets for purposes of hearing and decision.

Our analysis of KG&E's filings indicates that the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Accordingly, we shall accept the

---

[1] *See* Attachment A for rate schedule designations.

[2] On May 3, 1978, the requisite written notice of contract termination was served on each city.

[3] In its filing in Docket No. ER80-259, KG&E acknowledged that the Commission's prior orders in Docket No. ER77-578 held that increases in firm power rates to seven of its partial requirements municipal customers (Burlington, Chanute, Coffeyville, Fredonia, Girard, Iola, and Winfield) were subject to the stricter *Sierra* burden of proof in requesting rate changes. *(United Gas Pipeline Co.* v. *Mobile Gas Service Corp.*, 350 U.S. (1956) and *F.P.C.* v. *Sierra Pacific Power Co.*, 350 U.S. 348 (1956)). Thus, increases to those customers were not proposed in Docket No. ER80-259. However, the cost of providing firm service to those customers was included in KG&E's cost of service. KG&E's contract with Wellington has been interpreted as permitting only prospective rate changes but under the just and reasonable burden of proof. *(See Kansas Gas & Electric Company*, Docket No. ER77-578, order issued February 1, 1978; *see also* Opinion No. 80, Docket No. ER77-578, issued March 19, 1980).

proposed agreements for filing and suspend them as ordered below.

In a number of suspension orders,[4] we have addressed the considerations underlying the Commission's policy regarding rate suspensions. For the reasons given there, we have concluded that rate filings should generally be suspended for the maximum period permitted by statute where preliminary study leads the Commission to believe that the filing may be unjust and unreasonable or that it may run afoul of other statutory standards. We have acknowledged, however, that shorter suspension periods may be warranted in circumstances where suspension for the maximum period may lead to harsh and inequitable results. Such circumstances have been presented here. With respect to the increased rates to Burlington in Docket No. ER80–793–000, we imposed a one-day suspension. In our order of November 28, 1980, we fully explained our reasons for concluding that it would be unfair to KG&E to suspend the same rates for an extended period each time they become applicable to a new customer by reason of a contract termination. The same rationale applies to the instant filings. Consequently, we shall suspend the rates for one day, permitting them to take effect subject to refund as hereinafter ordered.

Generally, the Commission provides that price squeeze issues should be phased in accordance with the policy established in *Arkansas Power and Light Company*, Docket No. ER79–339 (August 6, 1979). However, in the order issued in Docket No. ER80–259 on May 30, 1980, we elected not to phase this issue because the proceeding involved in part an application for increased rates that could not become effective until the Commission determined the lawful rate. The Commission did, however, permit the judge to exercise discretion in this matter. With respect to the price squeeze allegations raised by Cities we shall authorize the presiding judge previously designated in Docket Nos. ER80–259, *et al.* to establish such procedures are are deemed appropriate for consideration of this issue in light of any procedural schedule previously adopted.

The Commission orders:

(A) The motions to reject the filing submitted by Cities are hereby denied.

(B) KG&E's rates tendered for filing in Docket Nos. ER81–355–000 and ER81–356–000 are hereby accepted for filing and suspended for one day, to become effective on June 1, 1981, subject to refund; KG&E's rates tendered for filing in Docket No. ER81–357–000 are hereby accepted for filing and suspended for one day, to become effective, subject to refund, on July 1, 1981.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the DOE Act and by the Federal Power Act, particularly sections 205 and 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power [18 CFR, Chapter I (1980)], a public hearing shall be held concerning the lawfulness of the rates filed by KG&E.

(D) Cities' petitions to intervene are hereby granted subject to the rules and regulations of the Commission; *Provided, however,* that participation by the intervenors shall be limited to matters set forth in their petitions to intervene; and *provided, further,* that the admission of the intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders by the Commission entered in this proceeding.

(E) Docket Nos. ER80–259, ER80–793–000, ER80–793–001, ER81–355–000, ER81–356–000, and ER81–357–000, are hereby consolidated for purposes of hearing and decision.

(F) The price squeeze portion of this case shall be governed by the procedures set forth in section 2.17 of the Commission's regulations as modified by Commission orders.

(G) The administrative law judge previously designated to preside in Docket Nos. ER80–259, *et al.* shall determine and implement such procedures as are necessary to accommodate consolidation of the instant dockets with the pending proceeding, including those related to the price squeeze issue.

(H) The Secretary shall promptly publish this order in the **Federal Register.**

By the Commission.

Kenneth F. Plumb,

Secretary.

Attachment A—Kansas Gas & Electric Company Rate Schedule Designations

Designation and Description

Docket No.: ER81–355–000

Other Party: City of Wellington, Kansas

Rate Schedule FERC No. 145 (Supersedes Rate Schedule FPC No. 98 as supplemented)—Electric Service Agreement

Supplement No. 1 to Rate Schedule FERC No. 145—Service Schedule A Firm Power Service

Supplement No. 2 to Rate Schedule FERC No. 145—Service Schedule B Emergency Service

Supplement No. 3 to Rate Schedule FERC No. 145—Service Schedule C Supplement Energy Service

Supplement No. 4 to Rate Schedule FERC No. 145—Fuel Adjustment Clause

Docket No.: ER81–356–000

Other Party: City of Winfield, Kansas

Rate Schedule FERC No. 146 (Supersedes Rate Schedule FPC No. 110 as supplemented)—Electric Service Agreement

Supplement No. 1 to Rate Schedule FERC No.146—Service Schedule A Firm Power Service

Supplement No. 2 to Rate Schedule FERC No. 146—Service Schedule B Emergency Service

Supplement No. 3 to Rate Schedule FERC No. 146—Service Schedule C Supplement Energy Service

Supplement No. 4 to Rate Schedule FERC No. 146—Fuel Adjustment Clause

[Docket No. ER81–460–000]

The Kansas Power & Light Co.; Filing

May 21, 1981.

The filing Company submits the following:

Take notice that on May 11, 1981, The Kansas Power and Light Company (Kansas) tendered for filing an amendment dated March 16, 1981, to that Certain Contract dated September 21, 1973, with Leavenworth-Jefferson Electric Cooperative, Inc. for wholesale service to that Cooperative. Kansas states that this is a supplement to a contract dated September 1, 1973, and designated KPL Rate Schedule FPC No. 157. This amendment will provide for the deletion of one delivery point known as 'New Oskaloosa', and the change in maximum capacity for the delivery point known as "New Tonganoxie". The

proposed effective date is March 16, 1981 and Kansas requests that the Commission waive the notice requirements as allowed in Section 35.11 of its regulations. According to Kansas, the net billing for the twelve months succeeding the proposed change in agreements is $1,182,441.53. In addition, Kansas states that copies of the agreement have been mailed to Leavenworth-Jefferson Electric Cooperative, Inc. and the State Corporation Commission of Kansas.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 8, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-461-000]

Missouri Edison Co.; Filing

May 21, 1981.

The filing Company submits the following:

Take notice that Missouri Edison Company (Missouri) on May 12, 1981 tendered for filing a new increased FERC Electric Service Tariff to replace its current Electric Service Tariff No. 3. The proposed changes would increase revenues from its Wholesale Municipal Customer by $26,266 based on the twelve-month period ended June 30, 1981.

Missouri Edison Company's proposed increase in rates is due primary to wholesale power cost increases incurred by the Company.

A copy of the filing was served upon the City of Clarksville and the Missouri Public Service Commission has been notified of the proposed tariff and rate schedule changes.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 8, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. RP81-62-000]

National Fuel Gas Supply Corp.; Revision to FERC Gas Tariff

May 21, 1981.

Take notice that on May 13, 1981, National Fuel Gas Supply Corporation ("National Fuel"), Ten Lafayette Square, Buffalo, New York 14203, filed in Docket No. RP81-62-000 its Revision to FERC Gas Tariff to Clarify Interest Period, through its FERC Gas Tariff, Original Volume No. 1, Second Revised Sheet No. 36D. The filing seeks to clarify the point in time when carrying charges on supplier refunds are required, all as more fully set forth in the revision which is on file with the Commission and is open for public inspection.

National Fuel states that on November 30, 1980, it was required by the Commission to pay carrying charges on its suppliers' refunds from the date of receipt to the date of disbursements although the cash refunds, which are isolated in a separate account, are analogous to refunds that would flow through Account No. 191. National Fuel further states that it was recently informed by the Commission Staff that its interest period is inconsistent with the treatment of carrying charges by other pipelines. National Fuel has, therefore, requested authorization of Second Revised Sheet No. 36D which conforms the interest treatment of National Fuel's refunds to the interest treatment accorded to refunds which flow through Account No. 191.

National Fuel states that although it is unaware of any waivers necessary for the Commission to make this tariff sheet effective as proposed, National Fuel respectfully requests that the Commission grant such waivers as it deems necessary.

Finally, National Fuel states that this filing will not result in any increase in National Fuel's revenues and is necessitated by the amount of time involved in processing its supplier refunds. National Fuel proposes that this filing become effective May 14, 1981.

Any person desiring to be heard or to make any protest with reference to said filing should on or before June 9, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 157.79). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this filing if no petition to intervene is filed within the time required herein, if the Commission on its own review of permission and approval for the proposed revision are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion belives that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Petitioner to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket Nos. RP80-97, etc.]

Tennessee Gas Pipeline Co. et al.; Informal Settlement Conference

May 21, 1981.

In the matter of Tennessee Gas Pipeline Co., Docket No. RP80-97; Michigan Wisconsin Pipe Line Co., Docket No. RP80-100; Southern Natural Gas Co., Docket No. RP80-102; Natural Gas Pipe Line Company of America, Docket No. RP80-107; Transcontinental Gas Pipe Line Corp., Docket No. RP80-117; United Gas Pipe Line Co., Docket No. RP80-121; Trunkline Gas Co.,

Docket No. RP80–106; Columbia Gulf Transmission Co., Docket No. RP80–145; Columbia Gas Transmission Corp.; Docket No. RP80–146; Sea Robin Pipeline Co., Docket Nos. RP80–55 & RP80–118; Florida Gas Transmission Co., Docket No. RP81–7; High Island Offshore System, Docket No. RP81–18; U–T Offshore System, Docket No. RP81–20.

Take notice that on June 1, 1981, at 1:30 p.m., and if necessary on June 2, 1981, at 10:00 a.m., there will be an informal conference of all interested persons for the purposes of discussing settlement of issues pertaining to the allocation of transmission costs between the transportation of natural gas and liquids and liquefiable hydrocarbons. Such issues appear to arise in the above-captioned dockets, which while not consolidated, will be the subject of joint discussions as a matter of convenience and to assure consistency in the resolution of these issues to the extent possible.

The meeting place for this conference will be at the offices of the Federal Energy Regulatory Commission, Hearing Room A, 825 North Capitol Street, N.E., Washington, D.C. 20426.

Customers, those retaining an interest in the subject liquids and liquefiable hydrocarbons and other interested persons will be permitted to attend this conference, but if such persons have not previously been permitted to intervene in any of the above-captioned dockets by order of the Commission or of a Presiding Administrative Law Judge attendance will not be deemed to authorize intervention as a party in any of these proceedings nor will attendance by a person granted intervention in one or more of the above-captioned proceedings be deemed to authorize intervention in any other docket.

All parties will be expected to come fully prepared to discuss the merits of the issues arising in those proceedings in which they have a pertinent and cognizable interest and to make commitments with respect to such issues and to any offer of settlement or stipulations discussed at the conference.

Interested persons may contact Lawrence Acker or Norma Rosner at (202) 357–8565 for additional information.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450–85–M

[Docket No. TA81–2–58–000 (PGA 79–4)]

Texas Gas Pipe Line Corp.; Tariff Sheet Filing

May 21, 1981.

Take notice that on May 11, 1981, Texas Gas Pipe Line Corporation, pursuant to § 154.38 of the Commission Regulations under the Natural Gas Act, filed a Third Revised Sheet No. 4a to its FERC Tariff, Second Revised Volume No. 1. Texas Gas states that the filed Tariff Sheets relate to the Unrecovered Purchased Gas Cost Account of the Purchased Gas Adjustment Provision contained in section 12 and the Incremental Pricing Surcharge Provision contained in section 13 of the General Terms and Conditions of the Tariff. More specifically, Third Revised Sheet No. 4a reflects a net increase under that currently being collected to 25.30¢ per Mcf (at 14.65 psia) to be effective June 1, 1981.

Any person desiring to be heard and to make protest with reference to said filing should on or before June 9, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All protests filed with the Commission will be considered by it but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing must file petitions to intervene in accordance with the Commission rules. Texas Gas' Tariff filing is on file with the Commission and available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceeding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before June 15, 1981.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" after the section code. Estimated annual production (PROD) is in million cubic feet (MMcf). An (*) preceding the control number indicates that other purchasers are listed at the end of the notice.

The applications for determination in these proceedings together with a copy or description of other materials in the record on which such determinations were made are available for inspection, except to the extent such material is treated as confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol Street, NE., Washington, D.C. 20426.

Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 18 CFR 275.204, file a protest with the Commission on or before June 15, 1981.

Please reference the FERC Control Number (JD No) in all correspondence related to these determinations.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-16056 Filed 5-27-81; 8:45 am]

BILLING CODE 6450-85-M

Office of Hearing and Appeals

Cases Filed; Week of May 8 through May 15, 1981

During the week of May 8 through May 15, 1981, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under DOE procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

George B. Breznay,

Director, Office of Hearings and Appeals.

May 21, 1981.

List of Cases Received by the Office of Hearings and Appeals

[Week of May 8 through May 15, 1981]

Date	Name and location of applicant	Case No.	Type of Submission
May 8, 1981	Chevron USA Inc., Washington, D.C	BES-0157	Request for Stay. If granted: Chevron USA Inc. would receive a stay of the April 27, 1981 Decision and Order (Case No. BED-0110) issued to Asamera Oil (U.S.) Inc. by the Office of Hearings and Appeals.
May 8, 1981	Little America Refining Co., Washington, D.C	BES-0158	Request for Stay. If granted: Little America Refining Co. would receive a stay of the April 27, 1981 Decision and Order (Case No. BED-0110) issued to Asamera Oil (U.S.) Inc. by the Office of Hearings and Appeals.
May 8, 1981	Masonite Corp., Chicago, Ill	BEA-0670; BES-0670	Appeal of the Entitlements Notice and Request for Stay. If granted: The March 1981 Entitlements Notice would be modified with respect to Masonite Corp.'s participation in the Entitlements Program. Masonite Corp. would receive a stay of the provisions of 10 CFR 211.67 pending a final determination on its Appeal.
May 8, 1981	Office of Enforcement (Gorco), Washington, D.C	BRX-0208	Request for Supplemental Order. If granted: The May 16, 1977 Decision and Order (Case No. FES-4105) issued to Guam Oil and Refining Co. would be rescinded.
May 8, 1981	Public Systems, Washington, D.C	BRZ-0099 through BRZ-0103.	Interlocutory Order. If granted: Public Systems would be provided with unexpurgated copies of all pleadings in remedial order processings involving Atlantic Richfield Company, Gulf Oil Corporation, Standard Oil Co. of California, Standard Oil Co. (Ohio), and Texaco, Inc. (Case Nos. DRO-0193, DRO-0194, DRO-0196, DRO-0197, and DRO-0199, respectively) and would be made a party to all protective orders.
May 11, 1981	A. O. Smith Corp., Milwaukee, Wis	BEE-1661; BEL-1661	Exception and Temporary Exception from the Energy Conservation Program for Consumer Products. If granted: A. O. Smith Corp. would not be required to perform energy efficiency tests of its gas-fired water heaters equipped with thermal compensating dip tubes.
May 11, 1981	Husky Oil Co., Denver, Colo	BEX-0210	Supplemental Order. If granted: The Office of Hearings and Appeals would review the financial information submitted by Husky Oil Co. for the period March 1978 through January 1981 to determine the appropriate level of entitlements exception relief for the firm.
May 11, 1981	Michelle Pailthorp, Seattle, Wash	BFA-0671	Appeal of Information Request Denial. If granted: The Information Request Denial issued by the Bonneville Power Administration would be rescinded, and Michelle Pailthorp would receive access to certain DOE information.
May 11, 1981	Texaco, Inc., White Plains, N.Y	BES-0156	Request for Stay. If granted: Texaco, Inc. would receive a stay of the April 27, 1981 Decision and Order (Case No. BED-0110) issued to Asamera Oil (U.S.) Inc. by the Office of Hearings and Appeals.
May 11, 1981	Tricentennial Corp., Washington, D.C	BEE-1662	Exception to Reporting Requirements. If granted: Tricentennial Corp. would not be required to file Form EIA-9A ("No. 2 Distillate Price Monitoring Report").
May 12, 1981	Atlantic Richfield Co., Los Angeles, Calif	BRR-0127	Motion for Modification/Rescission. If granted: The January 30, 1981 Decision and Order (Case Nos. BRD-1247 and BRH-1247) issued to Atlantic Richfield Co. by the Office of Hearings and Appeals would be rescinded.
May 12, 1981	Kern County Refinery, Inc., Bakersfield, Calif	BES-0159	Request for Stay. If granted: Kern County Refinery, Inc. would receive a stay of the April 22, 1981 Decision and Order (Case No. DEX-0195) regarding its entitlements purchase obligation.
May 12, 1981	Uncle Ben's Foods, Inc., Houston, Tex	BEA-0672; BES-0672	Appeal of the Entitlements Notice and Request for Stay. If granted: The March 1981 Entitlements Notice would be modified with respect to Uncle Ben's Foods, Inc.'s participation in the Entitlements Program. The firm would receive a stay of the provisions of 10 CFR 211.67 pending a final determination on its Appeal.
May 12, 1981	Warrior Asphalt Co. of Alabama, Tuscaloosa, Ala	BYR-0137	Request for Modification. If granted: The April 20, 1981 Decision and Order (Case No. DEX-0211) issued to Warrior Asphalt Co. of Alabama by the Office of Hearings and Appeals would be modified with respect to the firm's entitlements purchase obligations.
May 13, 1981	Cranston Oil Service Co., Providence, R.I	BEX-0209	Supplemental Order. If granted: The Office of Hearings and Appeals would direct the disbursement of an escrow account containing overcharge refunds of the Cranston Service Co.

List of Cases Received by the Office of Hearings and Appeals—Continued

[Week of May 8 through May 15, 1981]

Date	Name and location of applicant	Case No.	Type of Submission
May 13, 1981	Little America Refining Co./Chevron USA Inc., Washington, D.C.	BEJ-0196	Protective Order. If granted: Little America Refining Co. and Chevron USA Inc. would enter into a Protective Order regarding the exchange of proprietary information in connection with Little America Refining Co.'s, Application for Exception (Case No. BEE-1084).
May 13, 1981	Miller & Chevalier, Washington, D.C.	BFA-0673	Appeal of Information Request Denial. If granted: The April 9, 1981 Information Request Denial issued by the Office of Hearings and Appeals would be rescinded, and Miller & Chevalier would receive access to documents relating to the 341 Tract Unit of the Citronelle Field.
May 13, 1981	Office of Enforcement (J & C Drilling Company), Corpus Christi, Tex.	BEF-0050	Implementation of Special Refund Procedures. If granted: The Office of Hearings and Appeals would implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V in connection with the July 25, 1979 Consent Order entered into by J & C Drilling Co.
May 13, 1981	Office of Enforcement (Perry Gas Processors, Inc.), Odessa, Tex.	BEF-0048	Implementation of Special Refund Procedures. If granted: The Office of Hearings and Appeals would implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V in connection with the August 13, 1979 Consent Order entered into by Perry Gas Processors, Inc.
May 13, 1981	Office of Enforcement (Worldwide Energy Corporation), Denver, Colo.	BEF-0049	Implementation of Special Refund Procedures. If granted: The Office of Hearings and Appeals would implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V in connection with the February 26, 1980 Consent Order entered into by Worldwide Energy Corp.
May 15, 1981	Marcum Oil Co., Savannah, Mo.	BRR-0138	Request for Modification or Rescission. If granted: The December 18, 1978 Decision and Order (Case No. DRO-0214) issued to Marcum Oil Co. by the Office of Hearings and Appeals would be rescinded.

Notices of Objection Received

[Week of May 8 through May 15, 1981]

Date	Name and location of applicant	Case No.
April 17, 1981	Texas City Refining, Inc., Washington, D.C.	BEE-1419.
May 12, 1981	Clark Oil & Refining Corporation, Washington, D.C.	BEE-1582.
May 12, 1981	Marlex Oil & Refining, Inc., Los Angeles, California	BEE-1481.

[FR Doc. 81-16081 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-01-M

Implementation of Special Refund Procedures

AGENCY: Office of Hearings and Appeals, Department of Energy.

ACTION: Notice of implementation of special refund procedures and solicitation of comments.

SUMMARY: The Office of Hearings and Appeals of the Department of Energy solicits comments concerning the appropriate procedures to be followed in refunding to adversely affected parties $4,436,679.97 obtained by the DOE under the terms of consent orders entered into with four natural gas processors. The funds were provided by the four firms in order to settle enforcement proceedings brought by the Office of Enforcement in the matters of Belridge Oil Company ($95,821.49), Texas Oil and Gas Corporation ($4,200,000), Triton Oil and Gas Corporation ($78,358.48), and Liquid Products Recovery, Inc. ($62,500).

DATE AND ADDRESS: Comments must be filed on or before June 29, 1981, and should be addressed to the Office of Hearings and Appeals, Department of Energy, 2000 M Street, N.W., Washington, D.C. 20461. All comments should display conspicuously a reference to case numbers BEF-0014, BEF-0027, BEF-0038, and BEF-0029.

FOR FURTHER INFORMATION CONTACT: Thomas O. Mann, Acting Deputy Director, Office of Hearing and Appeals, Department of Energy, 2000 M Street, N.W., Washington, D.C. 20461, (202) 653-3137.

SUPPLEMENTARY INFORMATION: In accordance with § 205.282(b) of the procedural regulations of the Department of Energy, 10 CFR 205.282(b), notice is hereby given of the issuance of the Proposed Decision and Order set out below. The Proposed Decision and Order tentatively establishes procedures to distribute to adversely affected parties a total of $4,436,679.97 obtained by the DOE under the terms of consent orders entered into with four natural gas processors: Belridge Oil Company ($95,821.49), Texas Oil and Gas Corporation ($4,200,000.00), Triton Oil and Gas Corporation ($78,358.48), and Liquid Products Recovery, Inc. ($62,500). The funds were provided to the DOE by the four firms in order to settle all claims and disputes between the firms and the DOE regarding the first sales prices of natural gas liquids (NGLs) charged by each of the firms during differing periods between September 1973 and August 1979. In each of the four consent orders, the parties stipulated that the funds were to be distributed by the DOE pursuant to 10 CFR, Part 205, Subpart V.

The Proposed Decision and Order sets forth the procedures and standards that the DOE has tentatively formulated in order to distribute the contents of the escrow accounts funded by the four firms. The DOE has tentatively decided that Applications for Refund should be accepted from the seventeen initial purchasers of NGLs from the four firms during the covered periods. In addition, the DOE determined that Applications for Refund also should be accepted from persons who bought products produced with or from the NGLs sold by Belridge, TOGCO, Triton, or LPR during the relevant time periods. The Proposed Decision and Order states that in order to be entitled to receive any portion of the settlement funds, a purchaser must furnish the DOE with evidence that the claimant was injured by the alleged unlawful prices for NGLs charged by the natural gas processors, including specific documentation concerning the date, place, price, and volume of product purchased, whether the increased costs were absorbed by the claimant or passed through to other purchasers, and the extent of any injury alleged to have been suffered.

The Proposed Decision and Order also provides for the distrubution of any funds remaining after all valid claims are paid. The Proposed Decision and Order states DOE's view that the

remainder of the consent order funds should be distributed through the seventeen initial purchasers to persons or groups of persons who are likely to have been injured by the alleged unlawful sales price for NGLs charged by Belridge, TOGCO, Triton, or LPR. The DOE therefore invites those seventeen firms to develop and submit plans for distributing the funds to the parties who likely paid increased prices as a result of the alleged overcharges. The DOE also solicits proposals from other interested parties as well.

In the Proposed Decision and Order the DOE recognizes that in some cases a firm may not be inclined to spend the time and resources necessary to develop and implement an effective restitution plan. This is particularly the case where the costs associated with developing and administering a restitution plan exceed the fund available for distribution. Therefore, the DOE is proposing that any remaining funds which would otherwise go undistributed be deposited in the Treasury of the United States. It should be pointed out that until final procedures are adopted, no claims for refunds will be accepted. Applications for Refund therefore should *not* be filed at this time. Appropriate public notice, including notice published in the **Federal Register**, will be provided prior to the acceptance of claims.

Any member of the public may submit written comments regarding the proposed refund procedures. Commenting parties are requested to submit two copies of their comments. Comments should be submitted on or before June 29, 1981 and should be sent to the address set forth at the beginning of this notice. All comments received in this proceeding will be available for public inspection in the Public Docket Room of the Office of Hearings and Appeals, Room B–120, 2000 M Street, N.W., Washington, D.C. between the hours of 1:00 to 5:00 p.m., Monday through Friday, except Federal holidays.

Issued in Washington, D.C., on May 22, 1981.

George B. Breznay,

Director, Office of Hearing and Appeals.

Department of Energy,
Washington, D.C.
May 22, 1981.

Proposed Decision and Order of the Department of Energy

Special Refund Procedures

Name of Petitioner: Office of Enforcement, Economic Regulatory Administration: In the Matters of Belridge Oil Company, Texas Oil and Gas Corporation, Triton Oil and Gas Corporation, and Liquid Products Recovery, Inc.

Dates of Filing: December 5, 1980, January 7, 1981, March 16, 1981, January 29, 1981.

Case Numbers: BEF–0014, BEF–0027, BEF–0036, BEF–0029.

Under the procedural regulations of the Department of Energy, the Economic Regulatory Administration's Office of Enforcement (OE) may request the Office of Hearings and Appeals (OHA) to formulate and implement special procedures to make refunds to injured persons in order to remedy the effects of alleged violations of the DOE regulations. See 10 CFR, Part 205, Subpart V.

In accordance with these regulatory provisions, the OE recently filed Petitions for the Implementation of Special Refund Procedures in connection with Consent Orders entered into with Belridge Oil Company (Belridge), Texas Oil and Gas Corporation (TOGCO), Triton Oil and Gas Corporation (Triton), and Liquid Products Recovery, Inc. (LPR). Under the terms of these Consent Orders, the four firms agreed to make refunds for their alleged violations of the DOE price regulations in the following amounts: $95,821.49 (Belridge), $4,200,000 (TOGCO), $78,358.48 (Triton), and $62,500 (LPR). The funds have been paid to the DOE and are now being held in an escrow account under the jurisdiction of the DOE pending receipt of instructions from the Office of Hearings and Appeals regarding their final distribution.

I. Background

Belridge, TOGCO, Triton, and LPR are all "gas plant operators" as that term is defined in 10 CFR § 212.162. During the relevant time periods, they were therefore subject to the Mandatory Petroleum Price Regulations set forth in 6 CFR, Part 150, Subpart L and 10 CFR, Part 212, Subparts E and K. Those regulations governed the maximum prices that could lawfully be charged in the first sales of natural gas liquids and products (NGLs). As a part of its enforcement activities, the OE conducted audits of a number of these firms' natural gas processing plants. The funds involved in these proceedings were obtained as a result of consent orders agreed to in settlement of alleged overcharges in the sales of NGLs by the four firms.

An audit of Belridge's natural gas processing plants revealed possible pricing violations with respect to the firm's first sales of NGLs during the period August 1, 1975 through July 31, 1979. Included among Belridge's first purchasers at that time were the Standard Oil Company of California (Chevron) and Coast Gas, Inc. (Coast). In order to settle all claims and disputes between Belridge and the DOE regarding Belridge's first sale prices of NGLs, Belridge and the DOE entered into a Consent Order on July 10, 1980, in which Belridge agreed to refund $95,821.49 to the DOE. The parties further agreed that the funds remitted by Belridge would be distributed by the DOE pursuant to 10 CFR, Part 205, Subpart V. Notice of the Consent Order was published in the **Federal Register** on August 28, 1980. *See* 45 FR 57520 (1980). Interested parties were invited to submit written notice to the DOE of potential claims against the settlement fund. On September 24, 1980, Chevron notified the DOE that it intended to file a claim against the settlement fund.

The OE audit of TOGCO's natural gas processing plants also revealed possible pricing violations with respect to TOGCO's first sales of NGLs during the period September 1973 to March 1976. TOGCO's first purchasers during this period included Conoco, Inc., Mobil Oil Corporation (Mobil), the Coastal Corporation (Coastal), Koch Oil Company (Koch), Warren Petroleum Corporation (Warren), Wanda Petroleum Company (Wanda), and UPG, Inc. (UPG). On March 12, 1980, TOGCO and the DOE entered into a Consent Order in order to settle all claims and disputes between the parties arising from TOGCO's first sales of NGLs during the audit period. Under the terms of the Consent Order, TOGCO agreed to remit $4,200,000 to the DOE. The parties further stipulated that these funds would be distributed by the DOE in accordance with 10 CFR Part 205, Subpart V. The terms of the Consent Order were published in the **Federal Register** on April 8, 1980, *see* 45 FR 23720 (1980), and interested parties were invited to comment on the terms of the Consent Order and to submit written notice of claims against the settlement fund. Mobil, Koch, Coastal, and Conoco responded and identified themselves as potential claimants.

In its audits of Triton's gas plants, the OE found possible violations with respect to Triton's first sales of NGLs during the period September 1, 1973 to July 31, 1976. Triton sold the NGLs to four companies: Tenneco Oil Company (Tenneco), American Oil Company, Cities Service Oil Company (CITGO), and Dorchester Gas Processing Company (Dorchester). On June 27, 1979, the DOE and Triton entered into a Consent Order under which Triton agreed to refund $78,358.48 to the DOE in settlement of all claims and disputes between the parties arising from the audits of Triton's gas plants. The parties also stipulated that the funds were to be distributed by the DOE pursuant to 10 CFR Part 205, Subpart V. The terms of the final consent order were published in the **Federal Register** on July 11, 1979. *See* 44 FR 40548 (1979). Interested parties were given an opportunity to comment on the terms of the Consent Order and to submit written notice of potential claims against the refund account. The DOE received no claims in response to that notice.

The DOE's audit of LPR revealed possible overcharges with respect to first sales of NGLs during the period September 1, 1973 through June 30, 1976. In order to settle all claims and disputes between the parties regarding the firm's first sales of NGLs, LPR and the OE entered into a Consent Order in which LPR agreed to pay $62,500 to the DOE. The parties further agreed that this sum would be distributed by the DOE pursuant to 10 CFR Part 205, Subpart V. Notice of the Consent Order was published in the **Federal Register** on September 11, 1979. *See* 44 FR 52862 (1979). Interested persons were provided an opportunity to comment on the terms of the Consent Order and to submit notice of potential claims against the settlement funds. No claims or comments were received by the DOE.

Tables listing the firms which were the first purchasers of NGLs from Belridge, TOGCO, Triton, and LPR and the amounts of their respective purchases expressed as a percentage of the total sales from the plants during the periods covered by the Consent Orders, appear in the Appendix to this Proposed Decision and Order.

II. Subpart V Jurisdiction and Authority to Fashion Refund Procedures

In an Interlocutory Order issued on April 6, 1981, the Office of Hearings and Appeals determined that the jurisdictional prerequisites had been satisfied in each of the cases presently before us. *Office of Enforcement, Economic Regulatory Administration: In The Matters of National Helium,* 8 DOE ¶——, No. BRZ–0091 (April 6, 1981).

In several recent decisions we have considered Petitions for the Implementation of Special Refund Procedures under 10 CFR Part 205, Subpart V. *See, e.g., Office of Enforcement,* No. DFF–0006 (February 27, 1981) (proposed decision), 46 FR 15320 (1981) (hereinafter referred to as *Vickers*); *Office of Enforcement,* No. BEF–0021 (March 13, 1981) (proposed decision), 46 FR 17639 (1981) (hereinafter referred to as *Alcoa*); *Office of Enforcement,* No. BEF–0030 (May 1, 1981), 46 FR 25535 (1981) (hereinafter referred to as *Fagadau*). Subpart V authorizes the Office of Hearings and Appeals, upon request by the appropriate enforcement official, to fashion special procedures to distribute refunds obtained as part of settlement agreements. 10 CFR 205.281, 205.282. The special refund procedures are part of an overall regulatory program which is intended to implement several different statutes. Congress provided for the mandatory allocation and pricing of crude oil, residual fuel oil, and refined petroleum products in the Emergency Petroleum Allocation Act of 1973 (EPAA), 15 U.S.C. § 751 *et seq.* (1976). Natural gas liquids are included within the definition of petroleum products and were therefore subject to the provisions of the DOE price regulations during the periods covered by the consent orders. *Mobil Oil Corp. v. FEA,* 566 F.2d 87 (Temp. Emer. Ct. App. 1977).

The authority to enforce regulations issued under the EPAA was granted by the Economic Stabilization Act (ESA), 12 U.S.C. 1904 note (1970). EPAA, § 5(a), 15 U.S.C. 754(a). The statutory authority to enforce the regulations governing the allocation and pricing of petroleum products was delegated to the Administrator of the Federal Energy Administration and subsequently to the Secretary of Energy. Federal Energy Administration Act (FEAA), § 5, 15 U.S.C. 765 (1974); Department of Energy Organization Act (DOE Act), § 201(a), 42 U.S.C. 7151(a) (1979). To carry out these statutory mandates, the regulations of the Cost of Living Council, the Federal Energy Office, the Federal Energy Administration, and the Department of Energy have provided throughout the existence of the price control program for the issuance of remedial orders "requiring a person to cease a violation or to eliminate or compensate for the effects of a violation, or both." 6 CFR 155.81(b) (1973); 10 CFR 205.2 (1974) (defining "remedial order").

In order to implement these statutory and regulatory goals, the DOE's enforcement process is designed to accomplish two independent purposes: disgorgement of the fruits of a regulatory violation from the wrongdoers, and restitution to persons injured by the regulatory violation. *See generally Vickers,* slip op. at 4; *Sauder* v. *DOE,* —— F.2d ——, No. 10–25 (Temp. Emer. Ct. App. April 24, 1981). The latter objective—restitution to overcharged persons—furthers the specific EPAA goal of providing for the "equitable distribution of . . . refined petroleum products at equitable prices . . . among all users." 15 U.S.C. 753(b)(1)(F).

III. Proposed Refund Procedures

In view of the objectives expressed in the statutes and regulations discussed above, and the Consent Orders themselves, the procedures to be implemented in these four cases should, to the maximum extent practicable, provide for the distribution of the refund amounts to parties on whose behalf the settlements were negotiated.

As we have stated before, restitution is the primary focus of Subpart V, which authorizes the Office of Hearings and Appeals to formulate and implement a process "pursuant to which refunds may be made to injured persons in order to remedy the effects of a violation" of DOE regulations. 10 CFR 205.280; *see Alcoa, Vickers.* It offers a means of compensating many individuals who, because they either lack the resources or do not have a substantial financial stake in the outcome to institute their own private lawsuits under Section 210 of the ESA, have suffered injuries which would otherwise go unredressed. The Subpart V process is also an efficient administrative mechanism for returning overcharges to injured parties because it eliminates the need for long and costly court actions.

The distribution of funds to overcharged persons should generally take place in two primary ways: (i) payment to persons and firms who file applications for refunds and prove they are entitled to a portion of the funds held in trust, and (ii) payment on behalf of injured persons to entities which are in a position to devise and implement compensatory measures which effectuate the restitutionary purposes discussed above. *Fagadau,* slip op. at 6; *Alcoa,* slip op. at 6; *Vickers,* slip op. at 6. Finally, in the event that implementation of the methods discussed above would not accomplish its intended objectives or fails to exhaust all of the settlement fund, Section 205.288(c) provides that "any remaining funds . . . shall bne deposited in the United States Treasury or distributed in any other manner specified in the Decision and Order referred to in Section 205.282(c)." 10 CFR 205.288(c).

A. Refunds to Identifiable Purchasers

As a first step, the consent order funds should be distributed to claimants who satisfactorily demonstrate that they have been adversely affected by the alleged overcharges in sales of NGLs by Belridge, TOGCO, Triton, or LPR. While we recognize that it is likely that the first purchasers listed in the Appendix to this Decision and Order passed on some portions of the alleged overcharges to their own customers, they will of course be given an opportunity to demonstrate that they were in fact injured and the extent of that injury. To the extent that any of these firms can establish that it absorbed the overcharges rather than passed them on to its customers, it will be entitled to a *pro rata* share of the consent order funds. In order to qualify for a refund, however, a first purchaser will be required to demonstrate that during the period covered by the relevant Consent Order it could have kept its prices at the same level had it experienced a cost reduction equal to the amount of the refund claimed. In other words, a firm must demonstrate that at the time it purchased covered products from its supplier it had unrecovered product costs which were at least equal to the amount of the refund claimed, and that market conditions would not permit it to increase its prices to pass through the higher costs. In addition, the firm must have maintained a "bank" of unrecovered costs during each month thereafter in order to demonstrate that it did not subsequently recover these costs by increasing its prices. The amount of the refund will be limited to the amount of unrecovered costs available to the claimant for recovery through price increases. *See Office of Special Counsel for Compliance,* 4 DOE ¶ 82,511 (1979). If the initial purchasers are able to make these showings, the entire amount of the funds at issue in this proceeding will be disbursed to them. In the event they are unable to make a satisfactory showing, the next group of persons who will be entitled to receive a portion of these funds are those firms and individuals who purchased NGLs from the first purchasers.

In order to establish entitlement to a refund, any person claiming to be an injured party must satisfactorily demonstrate that it purchased, during the relevant time period, a specific quantity of products which were produced with or from the NGLs sold by Belridge, TOGCO, Triton, or LPR. Privity with either the firm or one of its first purchasers need not be established; evidence need only be presented that the products purchased by the claimants flowed through a chain of distribution leading back to one of the natural gas processors. In addition, unless the purchaser is an ultimate consumer, it must demonstrate that it did not pass through any cost increases resulting from the alleged overcharges to its own customers. For example, purchasers who resold the identified product must show that market conditions did not permit them to raise prices charged to downstream customers, and that consequently they were forced to absorb any cost increase incurred. In the absence of that showing, we must conclude that the claimant was not injured in a monetary sense by the alleged overcharge. *See Vickers,* slip. op. at 8; *Office of Special Counsel for Compliance,* 4 DOE ¶ 82,511 at 85,043–44. Refunds to first purchasers who establish their entitlement to a refund would be made on a volumetric basis—i.e., the refund would be based on the proportion of NGLs purchased by the applicant to the total amount of NGLs sold by its supplier during the relevant period.

Any purchaser claiming a portion of the refund amount will be entitled to file an Application for Refund pursuant to 10 C.F.R. § 205.283. Applications should provide all relevant information necessary to establish a claim, including specific documentation concerning the date, place, price, and volume of product purchased, the retention of increased costs, and the extent of any injury alleged.

Detailed procedures for filing applications will be provided in a final Decision and Order. Before disposing of any of the funds received as a result of the consent orders involved in this proceeding, we intend to widely publicize the distribution process and to provide an opportunity for any affected party to file a claim. In addition to publishing notice in the **Federal Register**, notice will be provided in trade journals and in other publications in the areas in which the first purchasers identified in the Appendix marketed their respective products during the period covered by the Consent Orders. As a final matter, we note that refund applications filed on behalf of groups of claimants identifying themselves as adversely affected purchasers also will be considered. Applications that are submitted on behalf of groups of purchasers will be evaluated on a case-by-case basis.

B. Distribution of the Remainder of the Refund Amount

After all of the claims of parties identifying themselves as adversely affected purchasers of the NGLs sold by Belridge, TOGCO, Triton and LPR have been filed and the share of the settlement fund to which they are entitled has been determined, the settlement fund provided by each firm pursuant to its Consent Order, while diminished, is not likely to be exhausted. In view of the relatively small sums of money likely to be involved in many ultimate consumer claims, and the improbability that such consumers will possess the detailed records necessary to establish their claims, we anticipate that only a limited number of persons will be able to prove that they are entitled to receive refunds. *See Vickers*, slip. op. at 7. The fact that claims to specific refunds may not have been proven, however, does not mean that injuries to ultimate consumers have not occurred. Rather, the absence of claims for the full amount of the settlement would tend to reflect the difficulty such parties encounter in establishing a valid claim for a portion of the consent order funds.

As discussed above, the remainder of the funds should be distributed in accordance with the goals set forth in the DOE's enabling legislation and implementing regulations. Consequently, the remaining funds should, if administratively and economically feasible, be distributed to groups of ultimate consumers who were likely to have borne a portion of the higher prices charged by Belridge, TOGCO, Triton and LPR. This conclusion was reached in our recent decision in *Vickers*, in which we proposed to return unclaimed portions of the consent order funds to ultimate consumers through public utilities which are required by law to pass through to their customers the benefits of any cost reductions. In that proposed decision we stated our belief that the class of customers of public utilities in the affected area was likely to bear a close relationship to the class of customers, *viz.*, persons who purchased gasoline through independent retail outlets, who were adversely affected by Vickers' pricing policies. *See Vickers*, slip. op at 8–10.

However, in *Alcoa* we recognized that the marketing and distribution of NGLs differs significantly from the marketing of motor gasoline through independent retail outlets in a particular geographic region. It is very possible that a significant portion of the NGLs involved in these cases were purchased for processing into other types of products. Moreover, nothing in the record indicates that the impact of any unlawful price increase was confined to an identifiable geographic area, and it is likely that these products were quite widely distributed.

In *Alcoa* and *Fagadau* we observed that the first purchasers of NGLS are in the best position to assist the DOE in identifying and distributing refunds to those persons who were injured by the alleged overcharges. *Alcoa*, slip op. at 9; *Fagadau*, slip op. at 9. In this case as well, we believe that the first purchasers of NGLs from Belridge, TOGCO, Triton, and LPR can most effectively assist the DOE in channeling the remaining consent order funds to persons who are most likely to have been injured by the overcharges. Consequently, we propose that after payments are made to successful claimants, any remaining funds be distributed through the first purchasers listed in the Appendix. We invite those firms to develop and submit to this Office a plan for returning these funds to the parties who likely paid increased prices as a result of the alleged overcharges. The plans should identify the end-users, or groups of end-users, who were most likely to have been adversely affected by the alleged unlawful conduct of Belridge, TOGCO, Triton, and LPR. To this end, each firm should take into account its distribution and marketing system and its method of calculating prices during the relevant period. To the extent that product purchases from particular gas plants can be isolated in the appropriate distribution system, the plans should limit the proposed refunds to customers who were downstream purchasers of the NGLs covered by the Consent Orders. The plans should also be designed to exclude from participation in this stage of the refund proceeding any purchasers who recovered a portion of the consent order funds during the prior distribution to successful claimants. In developing the plans, first purchasers should give paramount consideration to the cost efficiency and administrative ease of any proposed refund plan. For example, to the extent that the NGLs were used by agricultural producers, the plan may propose to distribute funds through agricultural cooperatives in the affected areas rather than to individuals. *See Fagadau*, slip op. at 10; *Alcoa*, slip op. at 9.

Although the primary aim of the Subpart V process is to distribute the consent order funds to the parties who were injured as a result of alleged unlawful activity, we recognize that in some cases a firm would not be inclined to spend the time or resources necessary to develop and implement an effective restitutionary plan and thus, in several instances injuries may go unredressed. For example, the funds to be distributed by a particular firm may be so small in relation to the number of parties entitled to share in the proceeds that the economic costs to the firm would far outweigh the intended benefits of the plan. In this regard, we note that preliminary data supplied by the OE indicates that four of LPR's first purchasers, Forest Oil Company, Petro Lewis Corporation, Koch Oil Company, and Sun Oil Company, would have available for distribution the following amounts: $56.25, $43.75, $518.75, and $537.50. It may very well be the case that the costs associated with administering a plan which any of these firms proposed would actually exceed the fund available for distribution. In such circumstances, the firm would have to absorb the administrative costs if the intended purpose of making whole the parties who were injured by the alleged overcharge is to be accomplished. The greater likelihood, however, is that a firm would not be inclined to develop and implement a restitutionary plan unless it be permitted to recoup its administrative costs from the fund, in which case the injured parties will not receive the full amount of the refund to which they are entitled.

In view of these considerations, we are proposing that the portion of the settlement fund which, because of prohibitive administrative costs, would otherwise go undistributed, be deposited in the Treasury of the United States. Subpart V regulations specifically sanction this course of action, *see* 10 C.F.R. § 205.288(c), and direct payments to the Treasury may well be appropriate in those cases where other remedies would be ineffectual or administratively burdensome. *See Citronelle-Mobile Gathering, Inc.* v. *O'Leary*, 499 F. Supp. 871 (S. D. Ala. 1980); *Golden Eagle Oil Company*, 6 DOE ¶83,005 at 86,065 (1980). *Cf. Chana's Auto Service Center*, 8 DOE ¶ ——, No. BRO–0458 (April 20, 1981).

Although we believe that the first purchasers of Belridge, TOGCO, Triton, and LPR are, in the present cases, uniquely situated to develop and implement an effective plan for distributing the settlement funds to the parties who absorbed the overcharges, nothing contained herein should be interpreted to suggest that we are discouraging the submission by other parties of proposals containing alternative distribution schemes. We will fully consider any plan submitted and we encourage any party interested in submitting such a plan to do so.

It is therefore ordered that:

The settlement funds provided by Belridge, TOGCO, Triton, and LPR in the amounts of $95,821.49, $4,200,000, $78,358.48, and $82,500, respectively, will be distributed in accordance with this Decision.

Appendix

Table I.—*Belridge Oil Company, Settlement Fund: $95,821.49*

Name of first purchaser	Percentage of NGLs[1]
Coast Gas, Inc.	18.7684
Standard Oil Company of California (Chevron)	81.2336

[1] Bought by first purchaser.

Table II.—*Texas Oil and Gas Corporation, Settlement Fund: $4,200,000*

Name of first purchaser	Percentage of NGLs[1]
Continental Oil Company	.06
The Coastal Corporation	1.44
Koch Oil Company	36.06
Mobil Oil Corporation	41.21
UPG	2.59
Wanda Petroleum Company	12.79
Warren Petroleum Company	3.32

[1] Bought by first purchaser.

Table III.—*Triton Oil and Gas Corporation, Settlement Fund: $78,358.48*

Name of first purchaser	Percentage of NGLs[1]
American Oil Company	36.0436
Cities Service Oil Company	10.1640
Dorchester Gas Processing Company	42.6789
Tenneco Oil Company	10.5845

[1] Bought by first purchaser.

Table IV.—*Liquid Products Recovery, Inc., Settlement Fund: $62,500*

BILLING CODE 6450-01-M

Issuance of Decisions and Orders; Week of April 20 Through April 24, 1981

During the week of April 20 through April 24, 1981, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Ephraim and Flint, 4/20/81, BFA-0623

The law firm of Ephraim and Flint filed an Appeal from a partial denial by the Director of Contract Execution Division "A" of the Office of Procurement Operations of the DOE of a Request for Information which the firm had submitted under the Freedom of Information Act (the FOIA). In considering the Appeal, the DOE found that certain of the documents which were initially withheld under exemptions 4 and 6 should be released to the public. Important issues that were considered in the Decision and Order were whether exemption 4 protects from mandatory disclosure the names of employees designated as key employees on DOE contracts and whether release of the names of such persons would constitute a clearly unwarranted invasion of privacy.

Larkin, Hoffman, Daly & Lindgren, 4/22/81, BFA-0634

Larkin, Hoffman, Daly & Lindgren filed an Appeal from a denial by the Disclosure Officer, Office of Special Counsel for Compliance, of a request for information submitted by the firm under the Freedom of Information Act. The DOE found that although the documents contained material exempt from public disclosure pursuant to 10 CFR 1004.10(b) (4) and (5), certain portions of the documents relating to the history of the audited firm and to the fact that an audit had been conducted contained reasonably segregable factual information which should be released to the public. The DOE ordered these portions of the documents released. In addition, the DOE found that the request required further identification of the records being sought. Accordingly, the DOE remanded this matter to the Disclosure Officer to clarify the scope of the request pursuant to 10 CFR 1004.4(c)(2) and to determine the releasability of any documents found responsive to the clarified request.

Pester Refining Company, 4/21/81, BEA-0370

Pester Refining Company filed an Appeal from a denial by the Economic Regulatory Administration of an application the firm had filed under § 211.65(c)(2) of the DOE Crude Oil Buy/Sell Program. In considering the Appeal, the DOE found that the ERA Order denying the application did not contain sufficient findings to support its determinations with respect to whether Pester's application contained statements explaining why the firm believed it had exhausted all supply possibilities, whether the firm's effort to secure crude oil supplies was sufficient, and whether the prices offered Pester were significantly in excess of the range of prices being paid for most crude oil purchased on the world market. The DOE therefore rescinded the ERA Order and remanded the matter to the ERA for appropriate Action.

Rock Island Refining Corporation, 4/20/81, BEA-0383

Rock Island Refining Corporation filed an Appeal from a denial by the Economic Regulatory Administration of an application the firm had filed under § 211.65(c)(2) of the DOE Crude Oil Buy/Sell Program. In considering the Appeal, the DOE found that the ERA Order denying the application did not contain sufficient findings to support its determination with respect to whether the prices for crude oil offered to Rock Island were significantly in excess of the range of prices being paid for most crude oil purchased on the world market. The DOE therefore rescinded the ERA Order and remanded the matter to the ERA for appropriate action.

Thriftway Company, 4/22/81, BEA-0585

Thriftway Company filed an Appeal from a Decision and Order issued to the firm on December 10, 1980, by the Economic Regulatory Administration. That Order denied an application for a buy/sell allocation of crude oil that Thriftway had sought for its Bloomfield, New Mexico, refinery. On April 22, 1981, the Office of Hearings and Appeals issued a Decision and Order which upheld the ERA's denial of Thriftway's buy/sell application and denied the firm's Appeal.

Remedial Orders

Chana's Auto Service Center, 4/20/81, BRO-0458

Chana's Auto Service Center objected to a Proposed Remedial Order which the Western District Office of Enforcement of the ERA issued to the firm on October 12, 1979. In the Proposed Remedial Order, the ERA found that Chana had violated the provisions of 10 CFR 212.93 by selling motor gasoline to its retail customers at prices which exceeded the firm's maximum lawful selling price. After considering the firm's objections, the DOE concluded that the Proposed Remedial Order should be issued as a final Order of the Department of Energy. The important issues resolved in the Decision and Order include (i) whether Section 324 of the Clean Air Act Amendments, 42 U.S.C. 7624, supercedes the DOE's fixed cents per gallon markup rule embodied in 10 CFR 212.93 and (ii) whether the provisions in the PRO requiring Chana to implement a price roll-back in order to refund to its retail customers the amounts by which they had been overcharged by Chana should be modified, in light of Executive Order 12287, to require Chana to make restitution directly to the United States Treasury.

Remedial Order

In the following case involving a Proposed Remedial Order and/or Interim Remedial Order for Immediate Compliance, no Statement of Objections was filed. The DOE therefore issued the order in final form.

Company Name and Case No.

West Ashley Exxon (Montgomery), BRW-0094

Requests for Exception

American Agri-Fuels Corporation, 4/20/81, BXE-1255

American Agri-Fuels Corporation filed an Application for Exception in which it sought an extension of exception relief previously granted in *American Agri-Fuels Corp.*, 4 DOE ¶81,139 (1979). In the prior proceeding the firm had been granted an allocation of unleaded motor gasoline for the purpose of blending and marketing gasohol. The DOE tentatively granted the firm's request on September 3, 1980 and issued an Interim Order immediately implementing the exception

relief. Three of the assigned suppliers filed Statements of Objections to the grant of exception relief. In considering the matter, the DOE noted that because of the Executive Order decontrolling petroleum products, the Interim Order no longer had any current effect. The DOE found that only one of the objecting parties, Getty Refining and Marketing Company, had supplied ACF with any unleaded motor gasoline prior to the Executive Order and was therefore the only party with a material interest in the proceeding. Since Getty raised no new issues in its Statement of Objections that had not been considered in the Proposed Decision, the DOE concluded that the Proposed Decision should be issued as a final Order.

Dunigan Operating Company, Inc., 4/24/81, BEE-1233

Dunigan Operating Company, Inc. filed an application for Exception from the provisions of 10 CFR Part 212 in which the firm sought to classify the M. B. Davis Lease as a stripper well property. In considering the request, the DOE found that the firm was not experiencing a financial hardship or gross inequity as a result of the lease's classification. Accordingly, exception relief was denied.

National Pest Control Association, 4/22/81, BEE-1522

The National Pest Control Association filed an Application for Exception from the provisions of 10 CFR Part 211 in which the firm sought first priority status for structural pest control operators in the allocation of motor gasoline. In considering the request, the DOE found that the applicant's concern was purely speculative and that it related not to any adverse affect of DOE regulations on the current operations of its members but to the potential effect that future restrictions might have on its members in the event of a future motor gasoline shortage. Accordingly, the exception relief was dismissed.

Northern Arizona Gas Service, Inc., 4/21/81, BEE-0438

Northern Arizona Gas Service, Inc., filed an application for Exception from the provisions of 10 CFR Part 211 in which the firm requested that it be assigned a new base period supplier of propane. Northern requested that the DOE proceed with its consideration of the application for Exception notwithstanding the January 28, 1981 executive order that immediately exempted motor gasoline, crude oil and propane from the provisions of the DOE Mandatory Petroleum Price and Allocation Regulations. The firm stated that it believes that the Mandatory Petroleum Price and Allocation Regulations will be revived by a judicial ruling or an executive order. The DOE concluded that the possibility that these regulations will be reinstituted is extremely unlikely at this time, and that any opinion which might be issued on the merits of the case would be purely advisory. The firm's request for further consideration of its exception was therefore denied.

Motion for Discovery

Atlantic Richfield Company, 4/23/81, BRD-0193

Atlantic Richfield Company (ARCO) filed a Motion for Depositions in connection with its objections to a Proposed Remedial Order which the DOE Office of Special Counsel issued to the firm on May 1, 1979. In considering the motion, the DOE determined that deposition discovery could not be granted until ARCO identified specific factual disputes at issue in the enforcement proceeding. Accordingly, ARCO's Motion for Depositions was denied, but the firm was provided with an opportunity to file a revised Motion for Depositions after it filed its Statement of Factual Objections.

Supplemental Orders

Beacon Oil Company, 4/22/81, DEX-0153

On April 22, 1981, the DOE issued a Decision and Order to Beacon Oil Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1978 fiscal year. The Decision and Order determined that Beacon received excessive relief during its 1978 fiscal year.

Beacon Oil Company, 4/22/81, BEX-0051

On April 22, 1981, the DOE issued a Decision and Order to Beacon Oil Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that Beacon received insufficient relief during its 1979 fiscal year.

Robert E. Brain, Cooper & Brain, Inc., 4/21/81, BEX-0188

On April 21, 1981 the DOE issued a Supplemental Order modifying certain provisions of a December 3, 1980 Decision and Order issued to Robert E. Brain and Cooper & Brain, Inc. The Supplemental Order modified a provision ordering the Director of the DOE Division of FOI and Privacy Acts Activities to refund to petitioners a portion of charges they had been assessed because both parties had subsequently discovered that the charges had not been paid.

Caribou Four Corners, Inc., 4/20/81, BEX-0082

On April 20, 1981, the DOE issued a Decision and Order to Caribou Four Corners, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 C.F.R. § 211.67 during its 1980 fiscal year. The Decision and Order determined that Caribou received excessive relief during its 1980 fiscal year.

Champlin Petroleum Company, 4/21/81, BRX-0147

Champlin Petroleum Company filed a Motion to Clarify the terms of a stay of the requirements of a Modified Remedial Order granted the firm by Decisions and Orders issued November 21 and December 22, 1980. In its motion, Champlin sought to be relieved of any present obligation to file certain calculations that the Modified Remedial Order directed the firm to submit. In considering the Motion, the DOE determined that the requirement that Champlin prepare such calculations was not inconsistent with an earlier Decision and Order issued to Champlin in this enforcement proceeding, that Champlin's disregard of prior directives of the Office of Hearings and Appeals to submit the calculations militated against the approval of its request for equitable relief, and that the public interest strongly favored an expeditious resolution of the Champlin enforcement proceeding. Consequently, the Champlin Motion to Clarify was denied.

Charter Oil Company, 4/20/81, DEX-0152

On April 20, 1981, the DOE issued a Decision and Order to Charter Oil Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1978 fiscal year. The Decision and Order determined that Charter received excessive relief during its 1978 fiscal year.

Edgington Oil Company, 4/20/81, DEX-0160

On April 20, 1981, the DOE issued a Decision and Order to Edgington Oil Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1978 fiscal year. The Decision and Order determined that Edgington received insufficient relief during its 1970 fiscal year.

Edgington Oil Company, 4/20/81, BEX-0042

On April 20, 1981, the DOE issued a Decision and Order to Edgington Oil Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that Edgington received excessive relief during its 1979 fiscal year.

Edgington Oil Company, 4/20/81, DEX-0060

On April 20, 1981, the DOE issued a Decision and Order to Edgington Oil Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1977 fiscal year. The Decision and Order determined that Edgington received excessive relief during its 1977 fiscal year.

Kern County Refinery, Inc., 4/20/81, BEX-0083

On April 20, 1981, the DOE issued a Decision and Order to Kern County Refinery, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1980 fiscal year. The Decision and Order determined that Kern received insufficient relief during its 1980 fiscal year.

Kern County Refinery, Inc., 4/22/81, DEX-0195

On April 22, 1981, the DOE issued a Decision and Order to Kern County Refinery, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that Kern received excessive relief during its 1979 fiscal year.

Laketon Asphalt Refining, Inc., 4/20/81, DEX-0155

On April 20, 1981, the DOE issued a Decision and Order to Laketon Asphalt Refining, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1978 fiscal year. The Decision and Order

determined that Laketon received excessive relief during its 1978 fiscal year.

Laketon Asphalt Refining, Inc., 4/22/81, BEX-0062

On April 22, 1981, the DOE issued a Decision and Order to Laketon Asphalt Refining, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that Laketon received insufficient relief during its 1979 fiscal year.

Laketon Asphalt Refining, Inc., 4/20/81, DEX-0053

On April 20, 1981, the DOE issued a Decision and Order to Laketon Asphalt Refining, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1977 fiscal year. The Decision and Order determined that Laketon received excessive relief during its 1977 fiscal year.

Lunday-Thagard Oil Company, 4/20/81, BEX-0002

On April 20, 1981, the DOE issued a Decision and Order to Lunday-Thagard Oil Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that Lunday-Thagard received insufficient relief during its 1979 fiscal year.

Newhall Refining Company, Inc., 4/20/81, DEX-0133

On April 20, 1981, the DOE issued a Decision and Order to Newhall Refining Company, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1978 fiscal year. The Decision and Order determined that Newhall received excessive relief during its 1978 fiscal year.

Sage Creek Refining Company, Inc., 4/20/81, BEX-0144

On April 20, 1981, the DOE issued a Decision and Order to Sage Creek Refining Company, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1980 fiscal year. The Decision and Order determined that Sage Creek received excessive relief during its 1980 fiscal year.

San Joaquin Refining Company, 4/20/81, DEX-0201

On April 20, 1981, the DOE issued a Decision and Order to San Joaquin Refining Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that San Joaquin received excessive relief during its 1979 fiscal year.

Southwestern Refining Company, Inc., 4/22/81, BEX-0091

On April 22, 1981, the DOE issued a Decision and Order to Southwestern Refining Company, Inc. that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1980 fiscal year. The Decision and Order determined that Southwestern received excessive relief during its 1980 fiscal year.

Warrior Asphalt Company of Alabama, Inc., 4/20/81, DEX-0211

On April 20, 1981, the DOE issued a Decision and Order to Warrior Asphalt Company that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that Warrior received insufficient relief during its 1979 fiscal year.

Young Refining Corporation, 4/20/81, BEX-0080

On April 20, 1981, the DOE issued a Decision and Order to Young Refining Corporation that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1980 fiscal year. The Decision and Order determined that Young received excessive relief during its 1980 fiscal year.

Young Refining Corporation, 4/20/81, DEX-0190

On April 20, 1981, the DOE issued a Decision and Order to Young Refining Corporation that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that Young received excessive relief during its 1979 fiscal year.

Young Refining Corporation, 4/22/81, DEX-0104

On April 22, 1981, the DOE issued a Decision and Order to Young Refining Corporation that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1978 fiscal year. The Decision and Order determined that Young received excessive relief during its 1978 fiscal year.

Petitions Involving the Motor Gasoline Allocation Regulations

The following firm filed an Application for Exception from the provisions of the Motor Gasoline Allocation Regulations. The DOE issued a Decision and Order which determined that the request be dismissed:

Company Name and Case No.

Mountain View Coach Lines, Inc., BEO-1013

DISMISSALS

The following submissions were dismissed:

Company Name and Case No.

Amoco Oil Company, BEL-0045
Arizona Fuels Corporation, BEX-0050
Husky Oil Company of Delaware, DXE-0079
J. J. Doherty and Co., Inc., BEE-0739
O. K. Petroleum Products Corporation, BEA-0559
Oklahoma Refining Company, BEL-0925

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except Federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercially published loose leaf reporter system.

George B. Breznay,

Director, Office of Hearings and Appeals.

May 21, 1981.

[FR Doc. 81-16085 Filed 5-28-81; 8:45 am]

BILLING CODE 6450-01-M

Issuance of Proposed Decisions and Orders; Period of May 4 Through May 15, 1981

During the period May 4 through May 15, 1981, the proposed decisions and orders summarized below were issued by the Office of Hearings and Appeals of the Department of Energy with regard to applications for exception.

Under the procedural regulations that apply to exception proceedings (10 CFR Part 205, Subpart D), any person who will be aggrieved by the issuance of a proposed decision and order in final form may file a written notice of objection within ten days of service. For purposes of the procedural regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date an aggrieved person receives actual notice, whichever occurs first.

The procedural regulations provide that an aggrieved party who fails to file a Notice of Objection within the time period specified in the regulations will be deemed to consent to the issuance of the proposed decision and order in final form. An aggrieved party who wishes to contest a determination made in a proposed decision and order must also file a detailed statement of objections within 30 days of the date of service of the proposed decision and order. In the statement of objections, the aggrieved party must specify each issue of fact or law that it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of these proposed decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays.

May 21, 1981.

George B. Breznay,

Director, Office of Hearings and Appeals.

Golden Gate Petroleum Co., Emeryville, California, BEE-1644 Reporting Requirements

Golden Gate Petroleum Co. filed an Application for Exception from the reporting requirements of Form EIA-9A ("No. 2 Distillate Price Monitoring Report"). The

exception request, if granted, would relieve Golden Gate of the obligation to prepare and submit Form EIA–9A. On May 11, 1981, the Department of Energy issued a Proposed Decision and Order in which it tentatively determined that the exception request should be denied.

Oasis Petro Energy Corp., Culver City, California, DEE–7983 crude oil

Oasis Petro Energy Corp. filed an Application for Exception from the provisions of 10 CFR 212.183. The exception request, if granted, would permit Oasis to apply a portion of the crude oil reseller price rules applicable to resellers that did not sell crude oil prior to December 1, 1977 in calculating its maximum legal selling prices for the period January 1979 through November 1980. On May 11, 1981, the Department of Energy issued a Proposed Decision and Order in which it tentatively determined that the exception request should be granted.

Placid Refining Company, Washington, D.C., BEE–1352 crude oil

Placid Refining Company filed an Application for Exception from the provisions of 10 CFR 211.67 (the Entitlement Program). The exception request, if granted, would permit Placid to receive additional entitlements benefits for the crude oil the firm purchased to establish a starting inventory for its Mount Belview refinery. On May 15, 1981, the Department of Energy issued a Proposed Decision and Order in which it tentatively determined that the exception request should be denied.

Ross Oil Company, Holden, Missouri, BEE–1592 reporting requirements

Ross Oil Company filed an Application for Exception from the reporting requirements of Form EIA–172 ("Sales of Fuel Oil and Kerosene"). The exception request, if granted, would relieve Ross of the obligation to complete and file Form EIA–172 for calendar year 1979. On May 11, 1981, the Department of Energy issued a Proposed Decision and Order in which it tentatively determined that exception relief should be granted.

Shell Oil Company, Houston, Texas, BEE–0889; BEE–1307 crude oil

Shell Oil Company filed two Applications for Exception from the provisions of 10 CFR 212.75. The exception requests, if granted, would permit the firm to establish the base production control level and to calculate the volumes of imputed stripper and upper tier crude oil for the North Hobbs and the South Wasson Units in a manner different from that set forth under 212.75. On May 11, 1981, the Department of Energy issued a Proposed Decision and Order in which it tentatively determined that exception relief should be denied.

BILLING CODE 6450–01–M

ENVIRONMENTAL PROTECTION AGENCY

[A–7–FRL–1839–4]

Approval of PSD Permit to American Modern Food Energy Systems, Inc., Ames, Iowa

Notice is hereby given that the Environmental Protection Agency (EPA) has issued a construction permit under the Prevention of Significant Air Quality Deterioration (PSD) regulations (40 CFR 52.21) as amended August 7, 1980 (45 FR 52735) to: American Modern Food Energy Systems, Inc.

On April 15, 1981, the EPA formally approved, with conditions, a proposal by the American Modern Food Energy Systems, Inc. to construct a new anhydrous ethanol plant to be located in Ames, Iowa. The facility is considered a major source of air pollution because it will have potential emissions of sulfur dioxide (SO_2) and nitrogen oxides (NO_x) both in excess of 100 tons per year. All other applicable pollutant emissions will each be controlled to less than 100 tons per year.

Under Section 307(b)(1) of the Clean Air Act, as amended in August 1977, judicial review of the above action is available only by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today. Under Section 307(b)(2) of the Clean Air Act, as amended in August 1977, the requirements which are the subject of today's notice may not be challenged later in civil or criminal proceedings brought by the EPA to enforce these requirements.

In this case, the appropriate court is the Eighth Circuit Court of Appeals. A petition for review must be filed with this court on or before July 28, 1981.

Copies of this permit and related information are available for public inspection at: U.S. Environmental Protection Agency, Air and Hazardous Materials Division, Air, Noise and Radiation Branch, 324 East 11th Street, Kansas City, Missouri 64106.

Dated: May 18, 1981.

William W. Rice,

Acting Regional Administrator, Region VII.

BILLING CODE 6560–38–M

[A–7–FRL–1839]

Non-Applicability of PSD Regulation to Cargill Inc., Wichita, Kansas

Notice is hereby given that the Environmental Protection Agency (EPA), on April 2, 1981, pursuant to the regulations for the prevention of significant deterioration, 40 CFR 52.21, as amended August 7, 1980, at 45 FR 52735, issued a non-applicability determination to Cargill Inc. for the modification of their edible oil refinery located in Wichita, Kansas.

The modification will consist of two boilers with a total heat input of about 44 million BTU's per hour. Emissions of all pollutants will be less than the de minimis level qualifying the project as a major modification as defined in 40 CFR 52.21(b)(2), as amended, under Section 307(b)(1) of the Clean Air Act, as amended in August 1977, judicial review of this determination is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today.

In this case, the appropriate court is the Tenth Circuit Court of Appeals. A petition for review must be filed with this court on or before July 28, 1981.

This determination and related background information are available for public inspection at: U.S. Environmental Protection Agency, Air and Hazardous Materials Division, Air, Noise and Radiation Branch, 324 East 11th Street, Kansas City, Missouri 64106.

Dated: May 18, 1981.

William W. Rice,

Acting Regional Administrator, Region VII.

BILLING CODE 6560–38–M

[A–7–FRL–1839–6]

Approval of PSD Permit to General Motors, Kansas City, Kansas

Notice is hereby given that the Environmental Protection Agency (EPA) has issued a construction permit under the Prevention of Significant Air Quality Deterioration (PSD) regulations (40 CFR 52.21) as amended August 7, 1980 (45 FR 52735) to: General Motors Corporation.

On April 13, 1981, the EPA formally approved, with conditions, a proposal to construct a new passenger car assembly plant in Kansas City, Kansas. The proposed plant is subject to PSD review because it will have the potential to emit the following pollutants in excess of 100 tons per year: sulfur dioxide (SO_2), nitrogen oxides (NO_x), carbon monoxide (CO), and particulate matter. The major pollution emitting components of the source will be proposed coal-fired boiler units (and related coal handling operations), auto painting facilities, and gas-fired paint curing ovens.

Under Section 307(b)(1) of the Clean Air Act, as amended in August 1977, judicial review of the above action is available *only* by the filing of a petition

for review in the United States Court of Appeals for the appropriate circuit within 60 days from today. Under Section 307(b)(2) of the Clean Air Act, as amended in August 1977, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by the EPA to enforce these requirements.

In this case, the appropriate court is the Tenth Circuit Court of Appeals. A petition for review must be filed with this court on or before July 28, 1981.

Copies of this permit and related information are available for public inspection at: U.S. Environmental Protection Agency, Air and Hazardous Materials Division, Air, Noise and Radiation Branch, 324 East 11th Street, Kansas City, Missouri 64106.

Dated: May 18, 1981.

William W. Rice,

Acting Regional Administrator, Region VII.

BILLING CODE 6560-38-M

[A-7-FRL-1839-5]

Nonapplicability of PSD Regulations to Gulf Coast Grain Inc., Commanche, Iowa, et al.

Notice is hereby given that the Environmental Protection Agency (EPA) has determined that construction proposals by the above companies are not subject to the review requirements of the Prevention of Significant Air Quality Deterioration (PSD) regulations (40 CFR 52.21), as amended August 7, 1980, (45 FR 52735).

On March 4, 1981, the EPA issued a non-applicability determination to Gulf Coast Grain Incorporated, Commanche, Iowa. This determination is based on calculations showing that the emissions will not qualify the facility as a major stationary source, as defined in 40 CFR 52.21(b)(1), as amended.

On April 9, 1981, the EPA issued a non-applicability determination to Union Carbide Corporation, Centerville, Iowa, for the proposed expansion in Centerville, Iowa. The emissions of all applicable pollutants will not exceed amounts qualifying the project as a major modification, as defined in 40 CFR 52.21(b)(2), as amended.

On March 17, 1981, the EPA issued a non-applicability determination to Van Buren County Alcohol Incorporated in Bonaparte, Iowa. This determination of non-applicability was based on a determination that emissions from the source in compliance with emission limitations established standards in the permit they received from the Iowa Department of Environmental Quality, will not exceed amounts qualifying the project as a major stationary source as defined in 40 CFR 52.21(b)(1), as amended. Under Section 307(b)(1) of the Clean Air Act, as amended in 1977, judicial review of any of these determinations is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit within 60 days of today.

In these cases, the appropriate court is the Eighth Circuit Court of Appeals. A petition for review must be filed with this court on or before July 28, 1981.

These determinations and related background information are available for public inspection at: U.S. Environmental Protection Agency, Air and Hazardous Materials Division, Air, Noise and Radiation Branch, 324 East 11th Street, Kansas City, Missouri 64106.

Dated: May 18, 1981.

Availability of Environmental Impact Statements

AGENCY: Office of Federal Activities (A-104), Environmental Protection Agency.

PURPOSE: This notice lists the Environmental Impact Statements (EISS) which have been officially filed with the EPA and distributed to federal agencies and interested groups, organizations and individuals for review pursuant to the Council on Environmental Quality's regulations (40 CFR Part 1506.9) during the week of May 18, 1981 to May 22, 1981.

REVIEW PERIODS: The 45-day review period for Draft EISs' listed in this notice is calculated from May 29, 1981 and will end on July 13, 1981. The 30-day review period for Final EISs' as calculated from May 29, 1981 will end on June 29, 1981.

EIS AVAILABILITY: To obtain a copy of an EIS listed in this notice you should contact the federal agency which prepared the EIS. If a federal agency does not have the EIS available upon request you may contact the Office of Federal Activities, EPA, for further information. Copies of EIS's previously filed with EPA or CEQ which are no longer available from the orginating agency are available with charge from the following source: Information Resources Press, 1700 North Moore Street, Arlington, Virginia 22209, (703) 558-8270.

FOR FURTHER INFORMATION CONTACT: Kathi L. Wilson, Office of Federal Activities, Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, (202) 245-3006.

Dated: May 26, 1981.

Fuel Economy Retrofit Devices; Announcement of Fuel Economy Retrofit Device Evaluation for "Automotive Cylinder Deactvator System"

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of fuel economy retrofit device evaluation.

SUMMARY: This document announces the conclusions of the EPA evaluation of the "Automotive Cylinder Deactoivator System" Device under provisions of Section 511 of the Motor Vehicle Information and Cost Savings Act.

BACKGROUND INFORMATION: Section 511(b)(1) and section 511(c) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2011(b)) requires that:

(b)(1) "Upon application of any manufacturer of a retrofit device (or prototype thereof), upon the request of the Federal Trade Commission pursuant to subsection (a), or upon his own motion, the EPA Administrator shall evaluate, in accordance with rules prescribed under subsection (d), any retrofit device to determine whether the retrofit device increases fuel economy and to determine whether the representations (if any) made with respect to such retrofit devices are accurate."

(c) "The EPA Administrator shall publish in the **Federal Register** a summary of the results of all tests conducted under this section, together with the EPA Administrator's conclusions as to—

(1) The effect of any retrofit device on fuel economy;

(2) The effect of any such device on emmissions of air pollutants; and

(3) Any other information which the Administrator determines to be relevant in evaluating such device."

EPA published final regulations establishing procedures for conducting fuel economy retrofit device evaluations on March 23, 1979 [44 FR 17946].

Origin of request for evaluation: On October 2, 1979, the EPA received a request from ACDS, Inc. for evaluation of a fuel saving device termed "Automotive Cylinder Deactivator System (ACDS)." This Device is designed to deactivate engine cylinders as a means of increasing a vehicle's fuel economy.

Availability of Evaluation Report: An evaluation has been made and the results are described completely in a report entitled: "EPA Evaluation of the Automotive Cylinder Deactivator System (ACDS) Under Section 511 of the Motor Vehicle Information and Cost Savings Act," report number EPA-AA-TEB-511-81-7 consisting of 97 pages including all attachments.

EPA also tested the Automotive Cylinder Deactivator System (ACDS) Device. The EPA testing is described completely in the report "Emissions and Fuel Economy of the Automotive Cylinder Deactivator System (ACDS)," EPA-AA-TEB-81-7, consisting of 40 pages. This report is contained in the preceding Automotive Cylinder Deactivator System (ACDS) 511 Evaluation as an attachment.

Copies of these reports may be obtained from the National Technical Information Service by using the above report numbers. Address requests to: National Technical Information Service, U.S. Department of Commerce, Springfield, VA 22161, Phone: Federal Telecommunications System (FTS) 737-4650, Commercial 703-487-4650.

Summary of Evaluation

EPA fully considered all of the information submitted by the Device manufacturer in the Application. The evaluation of the "Automotive Cylinder Deactivator System (ACDS)" Device was based on that information and the results of the EPA test program.

Test data submitted by the Applicant did indicate the ACDS system could significantly improve fuel economy. However, the data did not quantify the amount of improvement.

The Applicant did not clearly identify either the device model/models to be marketed or their design.

The suitability of the ACDS system for engines with valve rocker shafts is unknown. ACDS does claim to have developed hardware for these engines.

The suitability of the ACDS hydraulic cylinder deactivation system is unknown since detailed information on this hardware was not provided.

Installation of the ACDS system would require the skills of a trained mechanic. Activation and deactivation of cylinders (manual system) may require similar skills.

The EPA evaluation of the ACDS system included vehicle testing by the Federal Test Procedure (FTP) urban driving cycle and the Highway Fuel Economy Test (HFET) highway driving cycle. During these tests, measurements were made of the fuel economy (FE) and the emissions of hydrocarbon (HC), carbon monoxide (CO), carbon dioxide (CO_2), and oxides of nitrogen (NO_x).

The testing performed by EPA showed:

A. The operation of an 8 cylinder engine on 4 cylinders through the use of the ACDS hardware caused an increase in vehicle CO and NO_x emissions to levels exceeding the 1979 standards. FTP CO emissions were typically increased several times to levels near or above the standards. FTP NO_x emissions were typically twice the standard. HC emissions were relatively unaffected. These emission increases violate the tampering provisions of the Clean Air Act. (See "F" below).

B. The operation of an 8 cylinder engine on 4 cylinders through the use of the ACDS hardware did improve vehicle fuel economy 5 to 16% for the FTP and 3 to 20% for the HFET for the vehicles tested, but with the associated emission increases described in "A" above.

C. The vehicles tested had poor driveability when using the ACDS to operate an 8 cylinder engine on 4 cylinders.

D. Vehicle acceleration times were substantially increased when the 8 cylinder vehicles were operated with 4 cylinders using ACDS. Acceleration times were typically double the comparable times for 8 cylinder operation.

E. The operation of a vehicle on 4 cylinders caused a serious loss of braking power assist under some driving conditions.

F. Because EPA tests showed that use of this Device on the vehicles tested caused emissions to exceed applicable

standards, the installation of this Device by a person in the business of servicing, repairing, selling, leasing, or trading motor vehicles, fleet operators, or new car dealers will be considered a violation of section 203(a)(3), the Federal prohibition against tampering with emission control systems. That is, there is currently no reasonable basis for believing that the installation or use of this Device will not adversely affect emission performance. This determination does not preclude the use of the ACDS device on a different vehicle or vehicles than those tested by EPA if Federal Test Procedure tests performed on such vehicles clearly establish that emission performance on such vehicles is not adversely affected.

Many state laws prohibit the operation or registration for use on public highways of a motor vehicle on which the emission control device has been removed or rendered inoperative. EPA has concluded that this Device will render inoperative an element of design of the emission control devices or systems of a motor vehicle on which it is installed. Therefore, the installation or use of this Device by individuals may be prohibited under some state laws.

FOR FURTHER INFORMATION CONTACT: Merrill W. Korth, Emission Control Technology Division, Office of Mobile Source Air Pollution Control, Environmental Protection Agency, 2565 Plymouth Road, Ann Arbor, Michigan 48105, 313–668–4299.

Dated: May 20, 1981.

Edward F. Tuerk,

Acting Assistant Administrator for Air, Noise, and Radiation.

Intent To Prepare a Draft Environmental Impact Statement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of intent to prepare a draft environmental impact statement (EIS).

PURPOSE: To fulfill the requirements of Section 102(2)(C) of the National Environmental Policy Act, EPA has identified a need to prepare an EIS and therefore issues this Notice of Intent pursuant to 40 CFR 1501.7.

FOR FURTHER INFORMATION CONTACT: Gene Wojcik, Environmental Engineering Branch (5WEE), U.S. Environmental Protection Agency, Region V, 230 South Dearborn Street, Chicago, Illinois 60604, Telephone: (Commercial) 312/353–2157, (FTS) 8–353–2157.

SUMMARY:

Description of Proposed Action: The EPA action would be the approval of a sludge management plan and the issuance of grant monies for the implementation of a cost-effective and environmentally sound plan located in the City of Indianapolis, Marion County, Indiana.

Scoping: Region V will hold a scoping meeting to discuss the alternatives and the scope of the draft EIS. The meeting will be held on June 10, 1981, at 7:00 pm at the Public Assembly Room of the City-County Building in Indianapolis, Indiana. Full participation by interested Federal, State and local agencies as well as other interested private organizations and parties is invited. The public will be involved to the maximum extent possible and is encouraged to participate in the planning process.

Timing: EPA estimates the draft EIS will be available for public review and comment around June 1982 or approximately one month following the release of the draft sludge management plan being developed by the City of Indianapolis. All interested parties are encouraged to submit their name and address to the person indicated above for inclusion on the distribution list for the draft EIS and related public notices.

Dated: May 21, 1981.

William N. Hedeman, Jr.,

Director, Office of Federal Activities (A–104).

[FR Doc. 81–16152 Filed 5–28–81; 8:45 am]

BILLING CODE 6560–37–M

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

OFFICE OF THE FEDERAL INSPECTOR FOR THE ALASKA NATURAL GAS TRANSPORTATION SYSTEM

Memorandum of Understanding Establishing Discrimination Complaint Handling and Information Sharing Procedures

AGENCIES: Equal Employment Opportunity Commission and Office of the Federal Inspector.

ACTION: Final notice.

SUMMARY: This document sets forth a Memorandum of Understanding between the Equal Employment Opportunity Commission (EEOC) and the Office of the Federal Inspector (OFI) of the Alaska Natural Gas Transportation System (ANGTS) for the handling of complaints of employment discrimination and for the sharing of information. Both agencies have equal employment opportunity responsibilities and wish to administer these responsibilities in a manner that promotes efficiency and eliminates conflict, competition, duplication and inconsistency in the operation of their programs.

EFFECTIVE DATE: This Memorandum of Understanding is effective May 29, 1981.

FOR FURTHER INFORMATION CONTACT: Francesta E. Farmer, Director, Office of Interagency Coordination, Equal Employment Opportunity Commission, 2401 "E" Street, N.W., Room 4208, Washington, D.C. 20506, Area Code (202) 634–6916, or John Alexander, Director, Office of Equal Employment Opportunity and Minority Business Enterprise, Alaska Natural Gas Transportation System, Room 3212, Post Office Building, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20044, Area Code (202) 275–0582.

SUPPLEMENTARY INFORMATION: On September 11, 1980, the EEOC and the OFI published for comment a proposed memorandum of understanding (MOU). See 45 FR 60368. The purpose of the MOU is to establish procedures for handling complaints of employment discrimination within the jurisdiction of both agencies which may be filed during the construction of the Alaska Natural Gas Transportation System in a manner which promotes efficiency and eliminates conflict, competition, duplication and inconsistency between the agencies.

The EEOC and the OFI have adopted the MOU which appears below. The final MOU differs in a number of respects from the proposal which appeared in the **Federal Register**. In large part, the changes have been adopted in response to public comment received concerning the proposal.

Summary of Comments Received and Changes Made

The agencies received two comments on the proposal. The State of Alaska Human Rights Commission favored the proposal, "because it represents an orderly and rational division of workload between the EEOC and the Federal Inspector and will make appropriate use of the EEOC's expertise in processing discrimination complaints under Title VII (of the Civil Rights Act of 1964)." The State recommended a number of modifications to its worksharing arrangements with EEOC which do not affect this MOU.

The project sponsors, i.e. the three companies which are financing and will

own the pipeline, felt that the proposal provided "help in clarifying the possible overlap in functions between the EEOC and the OFI." Nevertheless, they raised a number of concerns. Their principal problems are summarized below. They are addressed in an order which corresponds sequentially to the final memorandum.

1. *Exchange of Information.* The project sponsors had several objections to the section on exchange of information. Their major concern was that the restrictions on the sharing of information "provide little or no indication of what restriction on information sharing and release will be placed on the EEOC." They believed that information collected by one agency should remain subject to that agency's confidentiality requirements. They recommended, therefore, that the MOU "provide that EEOC will not disclose to third parties information which it has obtained from the OFI; rather the EEOC should refer such requests for information back to the OFI." In addition, they argued that the MOU should limit types of information that the OFI shares with the EEOC to information directly related to a specific charge of employment discrimination and that the nature of the information to be shared should be specifically enumerated in the memorandum.

The section dealing with the exchange of information has been rewritten, and responds to some of the concerns raised by the sponsors.

The EEOC and OFI are bound by the confidentiality provisions of their respective statutes and regulations. The agencies see no need to reiterate such requirements in this memorandum. The OFI is not bound by the confidentiality requirements of Title VII when the EEOC investigates a complaint on the OFI's behalf, because the information received by the EEOC during the course of such an investigation is obtained pursuant to the Alaska Natural Gas Transportation Act (ANGTA) and its implementing regulations, as well as pursuant to Title VII. The final MOU makes explicit that the OFI is, therefore, entitled to use information collected by the EEOC in an ANGTA enforcement proceeding.

The EEOC and the OFI do not believe that the Freedom of Information Act allows them to fail to respond to requests made to them by third parties, notwithstanding that the information requested was initially collected by another federal agency. The policy of the EEOC is to coordinate requests for information which originated in another federal agency with the originating agency and to honor its decision with respect to such data. 29 CFR 1610.6 (1980). The proposed policy of the OFI is similar.

Finally, the EEOC and the OFI reject the project sponsors' assertion that the MOU should definitively state the type of information that the OFI will make available to the EEOC and that such information should be directly relevant to a specific charge of employment discrimination. The MOU lists examples of the types of information that will be exchanged. It also makes clear the intent to exchange information relevant to the concurrent jurisdiction of the agencies. The EEOC and the OFI believe, however, that they need the flexibility in sharing information. The EEOC may need pre-charge access to employment information possessed by the OFI to assist the Commission's systemic unit in making informed recommendations for the initiation of systemic cases. During the course of processing a charge, the EEOC may become aware of information possessed by the OFI which is relevant to a charge, but which is not enumerated in the memorandum. The EEOC needs the flexibility to request and receive such information from the OFI. The MOU allows such flexibility.

2. *Standards of Liability.* The project sponsors questioned the assertion in Part II of the MOU that the standard governing employment discrimination for ANGTS is substantially similar under the governing statutes of the OFI and the EEOC. They argued that the MOU "should take into consideration the fact that the coverage and procedures under (Title VII and Section 17 of ANGTS) will not always coincide."

The EEOC and the OFI do in fact recognize differences in coverage and procedures. This MOU, for instance, does not give EEOC any authority to monitor compliance by the sponsors and then contractors of their affirmative action obligations. With respect to the standards for determining, and the remedies to cure, employment discrimination, however, the EEOC and the OFI simply cannot ignore the existence of nearly two decades of case law under Title VII, nor the expertise of EEOC in the area. EEOC cannot ignore its responsibilities under Executive Order 12067 "to maximize effort, promote efficiency, and eliminate conflict, competition, duplication and inconsistency among the operations, functions and jurisdictions" of federal agencies with responsibility to enforce equal employment opportunity statutes. In addition, the sponsors, their contractors and the general public have a need and a right to know the standards by which their actions will be judged. The EEOC and the OFI believe that this MOU meets the needs of both agencies and provides certainty as to the standards which will be applicable under Section 17. Finally, the MOU makes an effort to mesh the procedures of the two agencies in order to avoid duplicative or inconsistent efforts by each.

3. *Third Party, Systemic and Commission Charges.* The project sponsors pointed out that the proposed MOU failed to deal with third party charges, systemic charges and charges brought by an EEOC Commissioner. As to third party charges and charges alleging systemic discrimination, the memorandum provides at Section III(B)(4) that EEOC will process compaints that it receives under the memorandum according to its normal procedures. Therefore, no special procedures need be adopted in the memorandum.

As to an EEOC Commissioner charge, a new Section III(B)(5) has been added. The new section sets up special procedures for EEOC Commissioner charges to avoid any delays that might be attendant on charges processed under Section III(B)(4) and III(C). More specifically, with respect to an EEOC Commissioner charge, the OFI will utilize its authority to assist the EEOC in all stages of the processing of the charge. Because of the OFI's involvement in the processing of a Commissioner charge, it will be unnecessary to provide the OFI additional time to attempt to conciliate the charge when it appears that EEOC's own efforts may fail.

Signed at Washington, D.C. this 22nd day of May, 1981.

For the Equal Employment Opportunity Commission.

J. Clay Smith, Jr.,

Acting Chairman.

For the Office of the Federal Inspector.

John T. Rhett,

Federal Inspector, Alaska Natural Gas Transportation System.

Memorandum of Understanding

This Memorandum of Understanding between the Office of the Federal Inspector (OFI) and the Equal Employment Opportunity Commission (EEOC) is being implemented to further the objectives of both agencies in assuring against employment discrimination during the construction of the Alaska Natural Gas Transportation System (ANGTS). According to Reorganization Plan No. 1 of 1979, the OFI has exclusive responsibility for

enforcement of Section 17 of the Alaska Natural Gas Transportation Act of 1976 (ANGTS), Condition No. 11 of the President's *Decision and Report to Congress on the Alaska Natural Gas Transportation System* (the President's *Decision*), the regulations (45 FR 31,095) (May 12, 1980) (to appear at 43 CFR Part 34) and terms and conditions established pursuant to Section 17 and Condition 11, and all other Federal statutes which related in any manner to the pre-construction, construction, and initial operation of ANGTS.

The EEOC, pursuant to Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. Sec. 2000e, is responsible for the elimination of discriminatory employment policies and practices. It has adopted guidelines, rules and procedures designed to assure equal employment opportunities to all persons without regard to their race, color, religion, natural origin, or sex. In addition, the EEOC has jurisdiction over complaints alleging violations of the Equal Pay Act of 1963 (EPA), 29 U.S.C. Sec. 206(d) and the Age Discrimination in Employment Act (ADEA), 29 U.S.C. Sec. 621.

I. Exchange of Information

The EEOC and OFI shall make available to appropriate officials from the other agency information which may assist each agency in carrying out its responsibilities. This information will relate to the employment policies and practices of the ANGTS sponsors, contractors, sub-contractors or other ANGTS-related persons, including corporations, associations, firms, partnerships, joint stock companies, labor unions, employment agencies and individuals. Such information shall include, but shall not necessarily be limited to, affirmative action programs, annual employment reports, complaints, investigative files, conciliation or compliance agreements, and compliance review reports and files.[1] Additionally, the EEOC will send to the OFI *quarterly reports* to keep the OFI informed of all charges against ANGTS related persons. To the extent that the EEOC provides to the OFI information gathered by the EEOC pursuant to OFI's authority, the OFI shall treat such information in accordance with its own confidentiality requirements as set forth in the OFI's regulations governing, gathering, handling, and disclosing information. — FR — (to be codified at 10 CFR Part 1504). The OFI may use information collected by the EEOC in enforcement proceedings brought under ANGTS.

All requests by third parties for disclosure of information shall be coordinated with the agency which initially collected the information.

II. Complaint Procedures

The standard governing employment discrimination for ANGTS is substantially similar under the governing statutes of the OFI and the EEOC. Thus, while there are certain differences in terms of coverage, sanctions, and procedures, most instances of employment discrimination would be actionable by either the OFI or the EEOC. The EEOC and OFI share the common goal of assuring against discriminatory employment policies and practices during the pre-construction, construction and the initial operation of ANGTS. In pursuit of this common goal, and to promote efficiency and to eliminate potential conflict, competition, duplication, and inconsistency the EEOC and OFI hereby agree as follows:

A. Filing Discrimination Complaints

A complaint received by either agency alleging violations actionable under both Section 17 and Title VII shall be deemed a charge filed with both. For the purpose of determining the timeliness of the charge (under any statute within the jurisdiction of the EEOC) which is first received by the OFI, the date that the matter was received by the OFI shall be deemed the date it was received by EEOC.

B. Processing Discrimination Complaints

If a charge is filed with either the EEOC or the OFI alleging discrimination in employment by an ANGTS related person, the EEOC and the OFI will proceed as follows:

(1) The agency receiving the complaint shall:

(a) date stamp the complaint;

(b) notify the complainant of its receipt; and

(c) notify the ANGTS respondent(s) named in the complaint that such a complaint has been received, and, in the event that the complaint is forwarded by the receiving agency to the other, so notify both the complainant and the ANGTS respondent. In every instance, the OFI and the EEOC will inform each other of ANGTS complaints initially received.[2]

(2) If the EEOC receives a discrimination complaint which does not fall within the jurisdiction of either the EEOC or a State or local agency to which the EEOC must defer pursuant to Section 706 of the Civil Rights Act of 1964, the EEOC shall forward the complaint to the OFI. The OFI shall process such complaints in accordance with its own rules, policies and procedures. Upon request, the EEOC shall provide technical advice and guidance to the OFI in its investigation of such complaint.

(3) If the OFI receives an employment discrimination complaint which does not fall within the jurisdiction of the OFI as prescribed by ANGTS, the President's *Decision*, and Reorganization Plan No. 1 of 1979, the OFI shall forward it to the EEOC. The EEOC shall process such complaints according to its normal procedures, which may include referral to an appropriate State or local agency. An example of a complaint contemplated by this subsection is one which alleges a violation of the Age Discrimination in Employment Act.

(4) If the EEOC or the OFI receives a discrimination complaint, other than a charge filed by an EEOC Commissioner, which falls within the jurisdiction of both the EEOC and the OFI, the complaint shall be processed by the EEOC or the Section 706 agency according to its normal procedures, except as provided below in Section C.

(5) If a charge filed by an EEOC Commissioner falls within the jurisdiction of both the EEOC and the OFI, it will be processed by EEOC in accordance with EEOC procedures applicable to Commissioner charges, except as follows:

(a) The EEOC will forward a copy of the charge to the OFI, and will notify the OFI of any reasonable cause determination, conciliation agreement, or contemplated enforcement action relating to the charge.

(b) Upon agreement of the EEOC and the OFI, the OFI will utilize its authority to assist the EEOC in the investigation, conciliation, and/or enforcement of the Commissioner charge.

---

[1] It is the intent of the OFI and the EEOC to exchange information relevant to matters of concurrent jurisdiction. Therefore, for example, the EEOC will not provide the OFI with information relating to claims of age discrimination. The OFI will not ordinarily provide EEOC with information relating to its minority and female business enterprise programs.

[2] The procedures outlined above do not apply to EPA complaints or ADEA complaints or charges. Potentially aggrieved individuals will be counseled that they have the option of filing confidential EPA and ADEA complaints, whereby the respondent is not notified that a complaint has been received. The individual also has a right to file an ADEA charge which is a written statement which identifies the respondent and generally describes the unlawful practices. Filing an ADEA charge assures the individual's right to file a private suit. EEOC or an appropriate Section 706 agency will notify the respondent of receipt of an ADEA charge.

C. Action on Discrimination Complaints

(1) The EEOC will notify the OFI by letter of all reasonable cause determinations on discrimination charges involving an ANGTS respondent and, upon specific request, will provide the OFI with any additional information regarding the determination. However, nothing herein is intended to prevent an ANGTS respondent from entering into a conciliation agreement with EEOC, if the ANGTS respondent so desires.

(2) When the EEOC determines that an ANGTS respondent is in violation of employment discrimination laws, but appears unable to resolve the matter by conciliation, it shall so notify the OFI. In those cases processed under Section B(4) of the Memorandum of Understanding, the OFI may then attempt to resolve the matter by conciliation. EEOC shall allow the OFI thirty (30) days to attempt such conciliation. If the OFI's conciliation efforts resolve the matter to the satisfaction of the OFI and the EEOC, the terms of the agreement shall be reduced to writing and signed by the designated representatives of both agencies.

(3) If the OFI and the EEOC's efforts are unable to resolve the matter, the EEOC shall take appropriate action according to its normal procedures.

(4) For those cases of employment discrimination acted upon by EEOC under Subsection C(3) the OFI shall consult with the EEOC before taking further actions as deemed appropriate by the OFI pursuant to the OFI's enforcement authorities (Section 11 of the ANGTS and Section 102(h)(1) of the Reorganization Plan).

III. Liaison and Monitoring

To provide for complete exchange of information, so that both agencies will be utilized to the maximum effectiveness in the public interest, each agency will designate a liaison officer to serve as the primary contact. These liaison officers will be responsible for informing each other of proposed proceedings and of developments in areas of joint concern. Additionally, the parties shall review implementation of this agreement to assure proper effectuation. Meetings between appropriate senior officials of both agencies (to exchange views on matters of common interest and responsibility) shall be held from time to time, as determined by such laision officers to be necessary.

Designated liaison officers:

(a) Equal Employment Opportunity Commission—The Executive Director or his designee.

(b) The Office of the Federal Inspector—The EEO/MBE Director or his designee.

IV. Amendment and Termination

This agreement, when signed by both parties, shall continue in effect. It may be modified by or expanded with the mutual consent of both parties, or it may be terminated by either party upon thirty (30) days' advance written notice. As provided in Section 203(a) of the Reorganization Plan No. 1 of 1979, however, this agreement shall not exceed the first anniversary of the date of the initial operation of ANGTS or the abolishment of the Office of the Federal Inspector on that date. All cases filed with, and in the processing, investigation or resolution stages with EEOC will continue to be the responsibility of the EEOC.

Approved and accepted for the Equal Employment Opportunity Commission.

J. Clay Smith, Jr.,

Acting Chairman, Equal Employment Opportunity Commission.

Approved and accepted for the Office of the Federal Inspector for the Alaska Natural Gas Transportation System.

John T. Rhett, Jr.,

Federal Inspector, Alaska Natural Gas Transportation System.

Signed at Washington, D.C. this 22nd day of May, 1981.

FEDERAL COMMUNICATIONS COMMISSION

Study Group A of the U.S. Organization for the International Telegraph and Telephone Consultative Committee (CCITT); Address Change of Public Meeting

May 21, 1981.

In the April 15, 1981 FCC Public Notice of the meeting of Study Group A of the U.S. CCITT National Committee (46 FR 23531), it was stated that the next meeting of this Study Group would be held on May 28, 1981, at the offices of the FCC.

This notice is to advise that the meeting will take place as scheduled, but in Room 856, at 1919 M Street, NW., at the original time of 10:00 a.m. on May 28.

As indicated, members of the general public may attend the meeting and join in the discussion subject to instructions of the Chairman.

Requests for further information should be directed to Earl S. Barbely, Federal Communications Commission, Washington, D.C., telephone number (202) 632-3214.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712-02-M

FEDERAL ELECTION COMMISSION

[Notice 1981-7]

Filing Dates for Pennsylvania Special Election

AGENCY: Federal Election Commission.

ACTION: Notice of filing dates for Pennsylvania special election.

SUMMARY: Committees required to file reports in connection with the special election to be held in the 3rd Congressional District of Pennsylvania on July 21, 1981 must file the 12-day pre-election report by July 9, 1981 and the 30-day post-election report by August 20, 1981.

The semi-annual report is waived for committees involved in the special election.

FOR FURTHER INFORMATION CONTACT: Ms. Judith Corley, Public Information Office, 1325 K Street, N.W., Washington, D.C. 20463, Tel. (202) 523-4068, Toll-free: (800) 424-9530.

Notice of Filing Dates for Special General Election, 3rd Congressional District, Pennsylvania

All principal campaign committees of candidates in the special election and all other political committees not filing monthly that support candidates in this special election shall file a 12-day pre-election report due on July 9, 1981, with coverage dates from date of candidacy, or last report, through July 1, 1981 and a 30-day post-election report due on August 20, 1981, with coverage dates from July 2, 1981 through August 10, 1981.

The semi-annual report is waived for committees involved in the special election.

Dated: May 22, 1981.

John Warren McGarry,

Chairman, Federal Election Commission.

BILLING CODE 6715-01-M

FEDERAL MARITIME COMMISSION

[Agreement No. 10419]

Agreement Between Frederick Richards, Inc. and Frederick Richards of Georgia, Inc.; Availability of Finding of No Significant Impact

Upon completion of an environmental assessment, the Federal Maritime Commission's Office of Energy and Environmental Impact has determined that the Commission's decision on Agreement No. 10419 will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, and that preparation of an environmental impact statement is not required. The agreement, between Frederick Richards, Inc., and Frederick Richards of Georgia, Inc., is for the purpose of allowing a marketing manager presently employed by Frederick Richards of Georgia to solicit cargo and clients for Frederick Richards, Inc.

This Finding of No Significant Impact (FONSI) will become final within 20 days unless a petition for review is filed pursuant to 46 CFR 547.6(b).

The FONSI and related environmental assessment are available for inspection on request from the Office of the Secretary, Room 11101, Federal Maritime Commission, Washington, D.C. 20573, telephone (202) 523–5725.

Francis C. Hurney,

Secretary.

BILLING CODE 6730–01–M

[Agreement No. 10107–10]

Application for Approval of Intermodal Authority; Availability of Finding of No Significant Impact

Upon completion of an environmental assessment, the Federal Maritime Commission's Office of Energy and Environmental Impact has determined that the Commission's decision on Agreement No. 10107–10 will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*; and that preparation of an environmental impact statement is not required. The agreement is a rate-making agreement covering the all-water trades from Hong Kong, Taiwan and Macao to Pacific Coast ports of the United States. Members of the agreement desire to enlarge its scope to include intermodal authority.

This Finding of No Significant Impact (FONSI) will become final within 10 days unless a petition for review is filed pursuant to 46 C.F.R. 547.6(b).

The FONSI and related environmental assessment are available for inspection on request from the Office of the Secretary, Room 11101, Federal Maritime Commission, Washington, D.C. 20573, telephone (202) 523–5725.

Francis C. Hurney,

Secretary.

BILLING CODE 6730–01–M

[Docket No. 81–34]

California Freight Specialists, West Coast/Puerto Rico Tariff FMC–F No. 2; Order To Show Cause

The domestic offshore tariff files of the Federal Maritime Commission contain Tariff FMC–F No. 2, which was filed with this Commission by California Freight Specialists (CFS), a nonvessel operating common carrier, on March 3, 1980, and became effective April 2, 1980. This publication holds out service for commodities from Los Angeles, California to San Juan, Puerto Rico.

The underlying carriers proposed to be utilized by CFS are the Puerto Rico Maritime Shipping Authority, Sea-Land Service, Inc., and Trailer Marine Transport Corporation, all of which offer only intermodal rail/water and truck/water service from the West Coast to Puerto Rico. Such intermodal service from the mainland United States to Puerto Rico is within the exclusive jurisdiction of the Interstate Commerce Commission. *Trailer Marine Transport Corporation* v. *FMC*, 602 F. 2d 379 (D.C. Cir. 1979); *Puerto Rico Maritime Shipping Authority* v. *ICC*, D.C. Cir. No. 79–2228 March 27, 1981. The Federal Maritime Commission, therefore, does not have jurisdiction over nonvessel operating common carriers, such as CFS, participating in this form of through intermodal movement. There presently is no all-water, FMC-regulated service from the West Coast to Puerto Rico. Should a carrier institute such a service in the future, CFS could utilize that carrier and file an appropriate tariff with the FMC; however, at this time, CFS's tariff is "inactive" with respect to all-water service. See *Publication of Inactive Tariffs by Carriers in Foreign Commerce*, 20 F.M.C. 433 (1978).

Since August 12, 1980, correspondence and phone advice have been directed to CFS explaining the apparent lack of Federal Maritime Commission jurisdiction and advising that CFS's Tariff FMC–F No. 2 appears to reflect inaccurate information to the shipping public and serves no useful purpose in the Commission's files. However, the numerous attempts by the Commission's staff to obtain voluntary cancellation by CFS of its tariff have proven unsuccessful. It is, therefore, necessary to institute formal proceedings and require CFS to show cause why its tariff should not be cancelled.

Now, therefore, it is ordered, That pursuant to sections 18(a) and 22 of the Shipping Act, 1916, and section 2 of the Intercoastal Shipping Act, 1933, California Freight Specialists be named respondent in this proceeding, and be ordered to show cause why its Tarriff FMC–F No. 2 indicating rates for the common carriage of commodities from Los Angeles, California to San Juan, Puerto Rico, should not be cancelled;

It is further ordered, That in accordance with Rule 42 of the Commission's Rules of Practice and Procedure (46 CFR 502.42), the Bureau of Investigation and Enforcement shall be a party to this proceeding;

It is further ordered, That this proceeding shall be limited to the submission of affidavits of fact and memoranda of law and replies thereto pursuant to the following schedule:

By the close of business June 26, 1981, affidavits of fact and memoranda of law shall be filed by respondent and served upon all parties.

By the close of business July 24, 1981 reply affidavits and memoranda shall be filed by the Commission's Bureau of Investigation & Enforcement and served upon all parties.

By the close of business July 31, 1981 all parties must file requests for evidentiary hearing and/or discovery, if desired, which requests must be accompanied by a statement setting forth in detail the facts to be proven or developed, their relevance to the issues in this proceeding and why such proof cannot be submitted through further affidavit.

Oral argument will be scheduled at a later date if requested and/or deemed necessary by the Commission;

It is further ordered, That a notice of this Order be published in the **Federal Register** and that a copy thereof be served upon respondent;

It is further ordered, That persons other than those already parties to this proceeding who desire to become parties to this proceeding and to participate therein shall file a petition to intervene pursuant to Rule 72 of the Commission's Rule of Practice and Procedure (46 CFR 502.72) no later than close of business on June 1, 1981.

It is further ordered, That persons permitted to intervene in support of Respondent's position shall conform to the filing schedule assigned to California Freight Specialists; and, that persons permitted to intervene in opposition to Respondent's position shall conform to the filing schedule assigned to the Commission's Bureau of Investigation and Enforcement.

It is further ordered, That all documents submitted by any party of record in this proceedings shall be directed to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, in an original and fifteen copies as well as being mailed directly to all parties of record.

By the Commission.

Joseph C. Polking,

Acting Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Eldorado Bancorp; Formation of Bank Holding Company

Eldorado Bancorp, Tustin, California, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 100 per cent of the voting shares of Eldorado Bank, Tustin, California. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than June 20, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, May 20, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

[FR Doc. 81-16092 Filed 5-28-81; 8:45 am]

BILLING CODE 6210-01-M

United Michigan Corporation; Formation of Bank Holding Company

United Michigan Corporation, Flint, Michigan, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by being the successor by merger to a Delware bank holding company, United Michigan Corporation, and thus acquiring Genesee Merchants Bank & Trust Co., Flint, Michigan, and The Peoples State Bank of Caro, Caro, Michigan, and Community State Bank of Fowlerville, Fowlerville, Michigan. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

United Michigan Corporation, Flint, Michigan, has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 2254.4(2)), for permission to acquire voting shares of United Michigan Mortgage Corporation, Flint, Michigan.

Applicant states that the proposed subsidiary would engage in the activities of originating and servicing all types of mortgages. These activities would be performed from offices of Applicant's subsidiary in Flint, Michigan, and the geographic areas to be served are Flint, Michigan and the vicinity. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the pubic, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Reserve Bank not later than June 20, 1981.

Board of Governors of the Federal Reserve System, May 21, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

GENERAL ACCOUNTING OFFICE

Regulatory Reports Review; Information Requests Issued Under Generic Clearance R0072 by the Nuclear Regulatory Commission

The following information requests used to collect information from operating licensees, permit holders, and applicants for license were issued by the NRC under a special generic clearance B-180225 (R0072) during the period November 26, 1980, through March 31, 1981. This generic clearance was granted by GAO to permit NRC to make information collections without additional clearance in instances where a health or safety incident at one licensee's plant indicated an immediate potential for occurrence at other licensees' plants having the same type system or equipment.

The purpose of publishing this notice in the **Federal Register** is to inform the public of the uses made of this generic clearance from the last issuance by GAO on November 26, 1980, to the time GAO's clearance activities were transferred to OMB by the Paperwork Reduction Act of 1980 on April 1, 1981. This notice is intended only to show the instances in which NRC cited the generic clearance as authority for information collections. It is not intended to imply either concurrence or nonconcurrence with the conditions of the generic clearance agreement. One case of nonconcurrence was the subject of a **Federal Register** notice. (See 46 FR 24299.)

The following table identifies the individual information requests and respondent burden data for each use of the generic clearance made by NRC during the period November 26, 1980, through March 31, 1981.

Information Requests Issued Under Generic Clearance R0072

[During the period Nov. 26, 1980, through Mar. 31, 1981]

Date of issue	Title	Number	Type of respondent	Number of respondents	Average staff hour burden	Total staff hour burden
IE Bulletin						
Dec. 18, 1980	Operating Problems with Target Rock Safety Relief Valves at BRW's.	I & E 80-25	Operating Licensees	71	19	1,350
Generic Letters						
Dec. 22, 1980	Control of Heavy Loads	NA	Operating Licensees, Applicants, and Permit Holders.	98	16	1,560
Feb. 16, 1981	Implementation of NUREG-0313, Rev. 1, "Technical Report on Material Selection and Processing Guidelines for BWR Coolant Pressure Boundary Piping".	81-03	Applicant for License and Permit Holders for BWR's.	26	102	2,652
Feb. 25, 1981	Emergency Procedures and Training for Station Blackout Events.	81-04	Operating Licensees and Applicants	31	40	1,240
Feb. 18, 1981	Post TMI Requirements for the Emergency Operations Facility	81-10	Operating Licensees and Permit Holders	46	40	1,840
Feb. 10, 1981	Seismic Qualification of Auxiliary Feedwater Systems	81-14	Operating PWR Licensees	43	320	13,760

Norman F. Heyl,

BILLING CODE 1610-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Alcohol, Drug Abuse, and Mental Health Administration

Interagency Committee on Federal Activities for Alcohol Abuse and Alcoholism; Federal Employee Alcoholism Programs Work Group; Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following national advisory body scheduled to assemble during the month of June 1981.

The Federal Employee Alcoholism Programs Work Group of the Interagency Committee on Federal Activities For Alcohol Abuse and Alcoholism

June 9; 1:00–4:00 p.m. Open
Conference Room 4131, North Building, Department of Health and Human Services, 330 Independence Avenue, SW., Washington, D.C. 20201
Contact: Ms. Lisa Teems, Room 509–F, Hubert H. Humphrey Building, 200 Independence Avenue, SW., Washington, D.C. 20201 202–245–7153

Purpose: The Federal Employee Alcoholism Programs (FEAP) Work Group: (1) evaluates the adequacy and technical soundness of all internal programs dealing with employee alcoholism within all Federal military and civilian organizations of 1,000 employees or more; (2) provides for the communication and exchange of information necessary to maintain the coordination and effectiveness of such programs and activities; (3) seeks to coordinate efforts among Federal agencies for internal employee alcoholism programs; and (4) submits reports and recommendations to the Interagency Committee as necessary in order to perform the above functions.

Agenda: The meeting will consist of a discussion on future activities for the FEAP Work Group and possible appointment of a subcommittee to address this issue, a study of consortia and standards for their development, a report on regional FEAP activities, and reports by Federal agencies.

The Notice was delayed because of late plans to convene the Work Group prior to a meeting of the Interagency Committee on June 23, 1981.

Substantive program information may be obtained from the contact person listed above. Summary of the meeting and roster of Committee members may be obtained from Mrs. Helen Garrett, Committee Management Officer, Room 16C–21, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857 301–443–2860.

Dated: May 26, 1981.

Elizabeth A. Connolly,

Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

[FR Doc. 81-16084 Filed 5-28-81; 8:45 am]

BILLING CODE 4110-88

Alcohol Human Resource Development Review Committee et al.; Notice of Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. Appendix I), announcement is made of the following national advisory bodies scheduled to assemble during the month of June 1981.

Alcohol Human Resource Development Review Committee

June 4–5; 6:30 p.m.
Bethesda Marriott Hotel, The Gaithersburg Room, 5151 Pooks Hill Road, Bethesda, Maryland 20014
Open—June 4; 6:30–10:00 p.m.
Closed—June 5; 9:00 a.m.—Adjournment
Contact: Ms. Doris L. Banks, Room 14C–17, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857 301–443–4640

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute on Alcohol Abuse and Alcoholism, relating to manpower and training activities and makes recommendations to the National Advisory Council on Alcohol Abuse and Alcoholism for final review.

Agenda: From 6:30–10:00 p.m., June 4, the meeting will be open for discussion of administrative announcements, and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration, pursuant to the provisions of Section 552b(c)(6), Title 5 U.S. Code and Section 10(d) of Public Law 92–463 (5 U.S.C. Appendix I).

Community Alcoholism Services Review Committee

June 17–22; 7:00 p.m.
Key Bridge Marriott Hotel, 1401 Lee Highway, P.O. Box 9191, Arlington, Virginia 22209
Open—June 17; 7:00–9:30 p.m.
Closed—Otherwise
Contact: Mr. Phillip Dawes, Room 16C–26, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857 301–443–2473

Purpose: The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Institute on Alcohol Abuse and Alcoholism, relating to alcoholism service activities and makes recommendations to the National Advisory Council on Alcohol Abuse and Alcoholism for final review.

Agenda: From 7:00–9:30 p.m., June 17, the meeting will be open for reports and discussion of administrative and program developments. Otherwise, the Committee will be performing initial review of grant applications for Federal assistance and will not be open to the public in accordance with the determination by the Acting Administrator, Alcohol, Drug Abuse, and

Mental Health Administration, pursuant to the provisions of Section 552b(c)(6), Title 5 U.S. Code and Section 10(d) of Public Law 92–463 (5 U.S.C. Appendix 1).

The Secretary of Health and Human Services recently approved a charter for the Alcohol Human Resource Development Review Committee and the Community Alcoholism Services Review Committee. The notification of the scheduled meetings had to be delayed until authority for the Committees' continuation was given.

Substantive program information may be obtained from the contact persons listed above. Summaries of the meetings and rosters of Committee members may be obtained from Mrs. Helen Garrett, Committee Management Officer, Room 16C–21, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857 301–443–2860.

Dated: May 26, 1981.

Elizabeth A. Connolly,

Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.

[FR Doc. 81–16083 Filed 5–28–81; 8:45 am]

BILLING CODE 4110–88–M

Food and Drug Administration

[Docket No. 80P–0234/P]

Hearing on Petition of the Health Research Group To Withdraw Premarket Approval for Gonorrhea Test Kits (GAT's)

AGENCY: Food and Drug Administration.

ACTION: Notice of Hearing.

SUMMARY: The Food and Drug Administration (FDA) announces that a public hearing will be held on the petition of the Health Research Group requesting FDA to withdraw premarket approval of gonorrhea antibody test kits (GAT's). In preparing a final response to the petition, FDA will consider the administrative record of the hearing along with all comments and other information received.

DATES: The time, date, and place of the hearing will be announced in the **Federal Register** in the near future. Written notices of participation must be filed by June 29, 1981; Applications for reimbursement by June 23, 1981.

ADDRESS: Written notices of participation or applications for reimbursement should be sent to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT:

Tenny Neprud, Office of Regulatory Affairs (HFC–10), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3480.

SUPPLEMENTARY INFORMATION: FDA announced in the **Federal Register** of June 13, 1980 (45 FR 40234 and 40235), the approval of three gonorrhea antibody test kits (GAT's). FDA also announced that summaries of safety and effectiveness data relating to the approved devices were available to the public under the authority of section 520(h) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360j(h)). Further, FDA announced an opportunity for interested persons to seek review of the approval orders in accordance with section 515(d) of the act (21 U.S.C. 360e(d)). Prior to this action, on July 18, 1979, FDA approved the three devices by orders delivered to Fisher Scientific Co., Bioquest, and Organon Diagnostics, the manufacturers of the GAT's.

On June 5, 1980, the Health Research Group petitioned FDA to require the agency to remove the products from the market on the grounds that the approval orders were illegally issued, that the approval orders should be rescinded if effective, that the products should be seized as misbranded and adulterated, and that the summaries of safety and effectiveness data were inadequate.

The petition was amended on July 13, 1980, to include a request for a hearing. The petitioner waived its right to a formal evidentiary hearing under section 515(g) of the act and Part 12 (21 CFR Part 12). The waiver was made on the condition that FDA grant an informal public hearing before either the Commissioner of Food and Drugs under Part 15 (21 CFR Part 15), or the Microbiology Section of the Immunology and Microbiology Devices Panel (an FDA scientific advisory committee), expanded to include recognized experts who have not previously addressed the issue.

By letter of May 22, 1981, FDA, in part, denied the petition and, in part, reserved final decision on the petition. For the reasons stated in the May 22, 1981 response, FDA accepted petitioner's waiver of its right to the formal hearing under section 515(g) of the act and Part 12 and granted petitioner an informal hearing under 21 CFR Part 15. FDA believes that a public discussion of whether there is a basis for FDA to initiate proceedings to withdraw approval of these products is in the public interest. Pending the outcome of this hearing, FDA is reserving decision on the petitioner's request that FDA initiate proceedings to withdraw approval of the GAT's. FDA denied all other portions of the petition. The petition and the May 22, 1981 response to the petition are on file in the Dockets Management Branch (address above), and may be seen by interested persons between 9 a.m. and 4 p.m., Monday through Friday.

The procedures governing the hearing are those applicable to a public hearing before the Commissioner under Part 15. The parties to the hearing will be the Health Research Group and the Bureau of Medical Devices. The time, date, and place of the hearing and the designation of the presiding officer will be announced in the **Federal Register** in the near future. The hearing will be confined to scientific and factual matters related to whether FDA should initiate proceedings under section 515(e) of the act to withdraw approval of the devices. The Health Research Group, as petitioner, will have the burden of coming forward with evidence sufficient to require FDA to initiate such proceedings and the burden of persuasion in whether sufficient evidence has been presented.

The parties, and other interested persons who wish to participate, must file a notice of participation, on or before June 29, 1981, in the Dockets Management Branch, Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857. All notices submitted should be identified with the docket number found in brackets in the heading of this notice and should contain the name, address, telephone number, any business affiliation of the person desiring to make a presentation, a brief summary of the presentation, and the approximate amount of time requested for the presentation.

Groups having similar interests are requested to consolidate their comments and present them through a single representative. FDA may require joint presentations by persons with common interests. After reviewing the notices of participation, FDA will notify each participant of the schedule and time allotted to each person.

FDA has established a pilot program for financial assistance to participants in certain agency proceedings, including hearings under Part 15. This program is described in 21 CFR Part 10, Subpart C. Subject to the availability of funds and other factors, FDA may reimburse participants meeting the criteria set forth in these regulations for certain costs of participating in this proceeding. Applications for reimbursement must be filed by June 23, 1981 in accordance with § 10.210(a) (21 CFR 10.210(a)). For more information regarding the

reimbursement program, contact Alexander Grant, Office of Consumer Affairs (HFE–1), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–5006.

The administrative record will remain open for 15 days after the hearing to allow comment on matters raised at the hearing.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 515, 90 Stat. 552–559 (21 U.S.C. 360e)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1).

Dated: May 21, 1981.

Mark Novitch,

Acting Commissioner of Food and Drugs.

[FR Doc. 81–16080 Filed 5–28–81; 8:45 am]

BILLING CODE 4110–03–M

[Docket No. 81N–0140]

Safety of Certain Food Ingredients; Opportunity for Public Hearing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces an opportunity for public hearing on the safety of diferrous, dipotassium ferrous and potassium ferrocyanides, sodium metasilicate, and sodium zinc metasilicate to determine whether they are generally recognized as safe (GRAS) or subject to a prior sanction. This action accords with procedures of a comprehensive safety review that the agency is conducting. Interested persons are invited to give their views on the safety of these substances.

DATE: Requests to make oral presentations to the public hearing must be postmarked on or before June 29, 1981.

ADDRESSES: Written requests to the Select Committee on GRAS Substances, Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20014, and to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857. .

FOR FURTHER INFORMATION CONTACT: Hortense S. Macon, Bureau of Foods (HFF–335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–426–8950.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of July 26, 1973 (38 FR 20053), FDA issued a notice advising the public that an opportunity would be provided for oral presentation of data, information, and views at public hearings to be conducted by the Select Committee on GRAS Substances of the Life Sciences Research Office, Federation of American Societies for Experimental Biology (the Select Committee) about the safety of ingredients used in food to determine whether they are GRAS or subject to a prior sanction. The agency now announes that the Select Committee is prepared to conduct a public hearing on diferrous, dipotassium ferrous and potassium ferrocyanides, sodium metasilicate, and sodium zinc metasilicate as direct and indirect food ingredients. The public hearing will provide an opportunity for interested persons to present to the Select Committee scientific data, information, and views on the safety of these substances.

The Select Committee has reviewed all the available data and information on the food ingredients listed above and has reached one of the following five tentative conclusions on the status of each:

1. There is no evidence in the available information that demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when the substance is used at levels that are now current or that might reasonably be expected in the future.

2. There is no evidence in the available information that demonstrates, or suggests reasonable grounds to suspect, a hazard to the public when the substance is used at levels that are now current and in the manner now practiced. However, it is not possible to determine, without additional data, whether a significant increase in consumption would constitute a dietary hazard. (This finding does not apply to the substances covered by this notice.)

3. Although no evidence in the available information demonstrates a hazard to the public when the substance is used at levels that are now current and in the manner now practiced, uncertainties exist requiring that additional studies be conducted. (This finding does not apply to the substances covered by this notice.)

4. The evidence is insufficient to determine that the adverse effects reported are not deleterious to the public health when the substance is used at levels that are now current and in the manner now practiced. (This finding does not apply to the substances covered by this notice.)

5. The information available is not sufficient to make a tentative conclusion.

The Select Committee will evaluate the information received at the public hearing and use it in reaching its conclusion.

The following table lists the ingredients, the Select Committee's tentative conclusions (keyed to the five types of conclusions listed above), and the available information on which the Select Committee reached its conclusions:

Substance	Select committee tentative conclusion	Order no., price code, price[1]		Other information
		Scientific literature review	Animal study report	
Diferrous, dipotassium ferrous and potassium ferrocyanides.	1	PB 289–591; A04; $8.00		1. Committee on GRAS List Survey—Phase III. The 1977 survey of industry on the use of food additives. (PB 113418; E19; $50.50) 2. Letter, February 6, 1979, P. L. Crantz, Finer Filter Products, Newark, CA, to F. R. Senti, FASEB, Bethesda, MD. 3. Letter, June 1, 1959, J. L. Day, Wyandotte Chemical Corp., Wyandotte, MI.

Substance	Select committee tentative conclusion	Order no., price code, price[1] Scientific literature review	Animal study report	Other information
				3. Technical bulletins on anhydrous sodium metasilicate and pentahydrate sodium metasilicate (1978), Philadelphia Quartz Co., Valley Forge, PA. 4. Memorandum, September 2, 1975, W. M. Schaefer, FDA, Washington, DC. 5. Evaluation of the health aspects of certain silicates as food ingredients. (SCOGS–61) (PB 301–402; A03; $6.50.) 6. Subcommittee on Review of the GRAS List—Phase II. A comprehensive survey of industry on the use of food chemicals generally recognized as safe (GRAS), Table 1, Part A. (PB 221–921; A02; $5.00.)

[1] Price subject to change.

Reports in the table with "PB" prefixes may be obtained from the National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Rd., Springfield, VA 22161.

In addition to the information contained in the documents listed in the table above, the Select Committee supplemented its reviews, where appropriate, with specific information from specialized sources as announced in a previous hearing opportunity notice published in the **Federal Register** of September 23, 1974 (39 FR 34218).

The Select Committee's tentative reports on diferrous, dipotassium ferrous and potassium ferrocyanides, sodium metasilicate and sodium zinc metasilicate are available for review at the Dockets Management Branch (HFA–305), Food and Drug Administration, (address above), and also at the Public Information Office, Food and Drug Administration, Rm. 3807, 200 C St. SW., Washington, DC 20204. In addition, all reports and documents used by the Select Committee to review the ingredients are available for review at the Dockets Management Branch.

To schedule the public hearing, the Select Committee must be informed of the number of persons who wish to attend and the time required to give their views. Accordingly, any interested person who wishes to appear at the public hearing to make an oral presentation shall inform the Select Committee in writing addressed to the Select Committee on GRAS Substances, Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20014. A copy of each request shall be sent to the Dockets Management Branch, Food and Drug Administration. All requests will be placed on public display in the Dockets Management Branch. Any such request must be received by or postmarked on or before June 29, 1981. Requests shall state the substances on which an opportunity to present oral views is requested and how much time is being requested for the presentation. As soon as possible after the request deadline, a notice announcing the date, time, and place of scheduled presentations for any public hearing that has been requested will be published in the **Federal Register**.

The purpose of the public hearing is to receive data, information, and views not previously available to the Select Committee about the substances listed above. Information, already contained in the scientific literature reviews and in the tentative Select Committee reports shall not be duplicated, although views on the interpretation of this material may be presented.

Depending on the number of requests for opportunity to make oral presentations it receives, the Select Committee may reduce the time requested for any presentation. Because of time limitations, individuals and organizations with common interests are urged to consolidate their presentations. Any interested person, in lieu of an oral presentation, may submit written views, which shall be considered by the Select Committee. Three copies of such written views, identified with the docket number found in brackets in the heading of this notice shall be addressed to the Select Committee at the address noted above and must be postmarked not later than 10 days before the scheduled date of the hearing. A copy of any written views shall be sent to the Dockets Management Branch, Food and Drug Administration, and will be placed on public display in that office.

A public hearing will be presided over by a member of the Select Committee. Hearings will be transcribed by a reporting service. A transcript of each hearing may be purchased directly from the reporting service and will be placed on public display in the Dockets Management Branch, Food and Drug Administration.

Dated: May 22, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 81–16009 Filed 5–28–81; 8:45 am]

BILLING CODE 4110–03–M

[Docket No. 81P–0143]

Tomato Juice Deviating From Identity Standard; Temporary Permit for Market Testing

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces that a temporary permit has been issued to California Canners and Growers to market test tomato juice from concentrate to which ascorbic acid is added to attain a vitamin C level of 3.5 milligrams per fluid ounce. The purpose of this temporary permit is to permit the applicant to measure consumer acceptance of the food.

DATES: This permit is effective for 15 months, beginning on the date the food is introduced into or caused to be introduced into interstate commerce, but no later than August 27, 1981. The permit, however, may terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978 (43 FR 19864). If the proposal is affirmed, the permit will terminate on the effective date of the final regulation. If the proposal is rejected, the permit will expire 30 days after such negative ruling on the proposal.

FOR FURTHER INFORMATION CONTACT: F. Leo Kauffman, Bureau of Foods (HFF–214), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–245–1164.

SUPPLEMENTARY INFORMATION: In accordance with § 130.17 (21 CFR 130.17) concerning temporary permits to facilitate market testing of foods

deviating from the requirements of the standards of identity promulgated under section 401 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 341), notice is given that a temporary permit has been issued to California Canners and Growers, San Francisco, CA 94106. The permit covers limited interstate marketing tests of tomato juice that deviates from the standard of identity prescribed for tomato juice under § 156.145 (21 CFR 156.145). The product is prepared from tomato paste that complies with the requirements of § 155.191(a)(1) (21 CFR 155.191(a)(1)). The test product is equivalent to a single-strength tomato juice normally found in the marketplace. The finished produce contains not less than 5.5 percent tomato-soluble solids. In addition, ascorbic acid is added to attain a level of 3.5 milligrams per fluid ounce of vitamin C in the finished product. The permit provides for the temporary marketing of 167,000 cases of twelve 46-ounce cans, 42,000 cases of forty-eight 6-ounce cans, 13,000 cases of twenty-four 18-ounce cans, 2,000 cases of twenty-four 12-ounce cans, and 5,000 cases of twelve 32-ounce glass containers per month in all States, the District of Columbia, and the Commonwealth of Puerto Rico.

The test product is to be packed at California Canners and Growers Plant 4 in San Jose, CA, and Plant 6 in Thornton, CA; Juice-Bowl Products, Inc., Lakeland, FL; Hanover Brands, Hanover, PA, and Keystone Packing in Northeast, PA.

The principal display panel of the label states the product's name as "tomato juice from concentrate". Each of the ingredients used is stated on the label as required by the applicable sections of 21 CFR Part 101, except that the tomato ingredient complying with the requirements of § 155.191(a)(1) is declared as "tomato concentrate". This permit is effective for 15 months, beginning on the date the food is introduced or caused to be introduced into interstate commerce, but no later than August 27, 1981. The permit, however, may terminate sooner, depending upon the final action on FDA's proposal to amend the standard of identity for tomato juice published in the **Federal Register** of May 9, 1978. If the proposal is affirmed, the permit will terminate on the effective date of the final regulation. If the proposal is rejected, the permit will expire 30 days after such negative ruling on the proposal.

Dated: May 21, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 81-15863 Filed 5-28-81; 8:45 am]

BILLING CODE 4110-03-M

Public Health Service

Privacy Act of 1974; New System Notice

AGENCY: Department of Health and Human Services; Public Health Service.

ACTION: Notification of a proposed new system of records, "Records of Subjects in Certification, Testing and Safety Studies of Personal Protective Devices for Hazardous Work Environments," HHS/CDC/NIOSH, 09-20-0159.

SUMMARY: In accordance with the requirements of the Privacy Act, the Public Health Service (PHS) is publishing notice of a proposal to establish a new system of records to permit acquisition of information related to certification of personal protective equipment, hazard-measuring devices, and safety research studies. The information acquired will be used to develop performance standards for instruments and equipment utilized in the workplace to protect workers or to identify hazardous work environments. The system of records will be maintained by the National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control (CDC). PHS invites interested persons to submit comments on the proposed routine uses on or before June 29, 1981.

DATES: PHS has sent a report of the new system to the Congress and to the Office of Management and Budget (OMB) on May 20, 1981. The system of records will be effective 60 days from the date submitted to OMB unless PHS receives comments on the routine uses which would result in a contrary determination.

ADDRESS: Comments should be addressed to: Director, Division of Safety Research, National Institute for Occupational Safety and Health, Room S-117, 944 Chestnut Ridge Road, Morgantown, West Virginia 26505. Comments received will be available for inspection at that address from 8:00 a.m. to 4:30 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: James H. Cavender, Program Management Officer, DSR/NIOSH, 944 Chestnut Ridge Road, Morgantown, West Virginia 26505, (304) 599-7595.

SUPPLEMENTARY INFORMATION: The purpose of this system is to assist in the development of performance standards for instruments and equipment utilized in the workplace to protect workers and to identify hazardous work environments and work tasks, allowing rigorous scientific studies to be carried out as a part of the Division of Safety Research's (DSR) injury epidemiology program. The use of human subjects for research and evaluation of both personal protective devices and hazard-measuring instruments requires the establishment and maintenance of subject "pools." Case-control studies of injured workers and their non-injured co-workers will require that the system of records be developed in a way that allows for scientific testing and validation of previously gathered data.

Name, assigned number, plant name, and year tested are some of the indices used to retrieve records from these systems. Other retrieval methods are utilized as individual research dictates. Two or more safeguards will be selected from the following list, as appropriate to the type of records to be secured: locked buildings, locked rooms, locked file cabinets, personnel screening, locked computer room and computer tape vaults, 24-hour guard service, and limited access only to authorized personnel.

NIOSH has examined a number of alternative means of accomplishing these investigations, including the option to maintain no Privacy Act system of records. The Institute concluded that maintenance of a system of records is necessary for the investigations, and that the relatively minor risk to personal privacy involved in furnishing NIOSH researchers with individually identifiable medical records is outweighed by the potential improvement in worker well-being which will be derived from the research.

A variety of individuals will be covered by this system of records. Included are individuals exposed to hazardous work environments and individuals selected as control groups. Additionally, the system pertains to individuals selected to test the interaction between personal protection or safety equipment, users of such equipment, and identification of hazardous work environments. Some examples include: individuals selected to perform respirator facepiece fit tests, to evaluate hearing protectors, lifting and manual handling studies, strength test studies, and hand speed tests.

The records will be retained for use solely within the agency unless releases are made in conjunction with the routine uses or which are otherwise permitted under Section 552a(b) of the Privacy Act. The proposed releases outlined in

the routine use section will allow the Institute to effectively perform the proposed research, and ensure that no releases are made for purposes which are not the same or compatible with those for which the information is originally collected, without the individual's permission.

Dated: May 20, 1981.

Peter J. Bersano,

Acting Director, Office of Management.

09-20-0159

SYSTEM NAME:

Records of Subjects in Certification, Testing and Safety Studies of Personal Protective Devices for Hazardous Work Environments—HHS/CDC/NIOSH.

SECURITY CLASSIFICATION:

None.

SYSTEM LOCATION:

Division of Safety Research (DSR), National Institute for Occupational Safety and Health (NIOSH), 944 Chestnut Ridge Road, Morgantown, West Virginia 26505.

Data are also occasionally located at field worksites and contractor sites as studies are developed, data collected and reports written. A list of field and contractor sites where individually identifiable data are currently located is available upon request to the System Manager.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals exposed to hazardous work environments and individuals selected as control groups will be covered by this system. Additionally, the system pertains to individuals selected to test the interaction between people, personal protection or safety equipment, users of such equipment, and a hazardous environment. Some examples include individuals selected to: perform respirator facepiece fit tests, evaluate hearing protectors, perform lifting and manual materials handling studies, perform strength test studies, and perform hand speed tests.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system will contain such records as physical examinations, questionnaires, results of laboratory test (physiological acceleration measures, and performance tests), workplace performance records, results of hearing tests, occupational histories, medical histories, demographic data, and related medical information. The specific types of records to be collected and maintained are determined by the needs of the individual study.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

The Public Health Service Act, Section 301 (42 U.S.C. 241); the Occupational Safety and Health Act, Section 20 (29 U.S.C. 669); and the Coal Mine Health and Safety Act, Section 501 (30 U.S.C. 951).

PURPOSE OF SYSTEM:

The purpose of this system is to permit acquistion of information related to certification of personal protective equipment, hazard-measuring devices, and safety research studies.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Disclosures may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office, made at the the requrest of that individual.

In the event of litigation where the defendant is (a) the Department, any component of the Department, or any employee of the Department in his or her official capacity; (b) the United States where the Department determines that the claim, if successful, is likely to directly affect the operations of the Department or any of its components; or (c) any Department employee in his or her individual capacity where the Justice Department has agreed to represent such employee, the Department may disclose such records as it deems desirable or necessary to the Department of Justice to enable that Department to present an effective defense, provided such disclosure is compatible with the purpose for which the records were collected. For example, records may be released to the Department of Justice in defending claims against the U.S. when the claim is based upon an individual's mental or physical condition and is alleged to have arisen because of activities of the Public Health Service in connection with such individual.

In the event of litigation initiated at the request of NIOSH, the Institute may disclose such records as it deems desirable or necessary to the Department of Justice to enable the Department to effectively represent the Institute, provided such disclosure is compatible with the purpose for which the records were collected. The only types of litigative proceedings that NIOSH is authorized to request are (1) enforcement of a subpoena issued to an employer to provide relevant information, or (2) contempt citation against an employer for failure to comply with a warrant obtained by the Institute.

Portions of records (name, Social Security number if known, date of birth, and last known address) may be disclosed to one or more sources selected from those listed in Appendix I. This may be done to determine if the individual has died so that a death certificate can be obtained. Knowing the cause of death will enable NIOSH to evaluate whether excess occupationally-related mortality is occurring.

Records subject to the Privacy Act will be disclosed to private firms for data entry, computer systems analysis, and computer programming services. The contractors will promptly return all data entry records, and all computer work will be done on Government-owned computers. The contractors will be required to maintain Privacy Act safeguards.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Manual files, computer tape, microfilm, computer cards, index audiogram files, audiograms, questionnaire forms.

RETRIEVABILITY:

Name, assigned number, plant name, and year tested are some of the indices used to retrieve records from these systems. Other retrieval methods are utilized as individual research dictates.

SAFEGUARDS:

Locked buildings, locked rooms, locked file cabinets, personnel screening, locked computer room and computer tape vaults, 24-hour guard service, limited access only to authorized personnel. The particular safeguards used are selected as appropriate for the type of records covered by an individual study. For computerized records, safeguards are in accordance with Part 6, ADP Systems Security, of the HHS/ADP Systems Manual. Safeguards for non-automated records are in accordance with the NIOSH Sensitive Data Security Program Briefing Booklet.

RETENTION AND DISPOSAL:

Records will be maintained from three to twenty years in accordance with retention schedules. Personal identifiers will be stripped from records, and records will be destroyed when they are no longer needed. All paper records which are disposed of will be shredded or burned and computer tapes will be erased.

SYSTEM MANAGER(S) AND ADDRESS:

Program Management Officer (PMO), Division of Safety Research, NIOSH, 944 Chestnut Ridge Road, Morgantown, WV 26505.

NOTIFICATION PROCEDURE:

An individual may learn if a record exists about herself/himself upon written request, with notarized signature if request is made by mail, or with suitable identification (i.e., driver's license, passport) if request is made in person. All individuals requesting records will be informed that anyone who knowingly and willfully requests access to a record pertaining to an individual under false pretenses is committing a criminal offense under the Act and subject to a maximum fine of 5,000 dollars.

To determine if a record exists, write to: Director, Division of Safety Research, NIOSH, 944 Chestnut Ridge Road, Morgantown, WV 26505.

An individual who requests notification of or access to medical records shall, at the time the request is made, (1) provide a written notarized request designating a responsible representative who will be willing to review the record and inform the subject individual of its contents at the representative's discretion, (2) supply the name of the study, if known, (3) provide the approximate date and place of the study, if known, and (4) provide the approximate date and place of treatment or questionnaire administration.

RECORD ACCESS PROCEDURES:

Same as notification procedures.

CONTESTING RECORD PROCEDURES:

Contact the official at the address specified under notification procedures above and reasonably identify the record and specify the information to be contested.

RECORD SOURCE CATEGORIES:

Information needed is obtained either directly from the individual, or from employee records whenever possible. Other sources may include those listed in Appendix I.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

Appendix I: Potential Sources for Determination of Vital Status

Military Records
Appropriate State Motor Vehicle Registration Departments
Appropriate State Drivers' License Departments
Appropriate State Government Divisions of: Assistance Payments (Welfare), Social Services, Medical Services, Food Stamp Program, Child Support, Board of Corrections, Aging, Indian Affairs, Workers' Compensation, Disability Insurance

BILLING CODE 4110-87-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Outer Continental Shelf Offshore Southern California; Availability of Draft Environmental Impact Statement and Locations and Dates of Public Hearings Regarding Proposed Oil and Gas Lease Sale No. 68

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management has prepared a draft environmental impact statement relating to a proposed Outer Continental Shelf (OCS) oil and gas lease sale of 218 tracts consisting of 445,190 hectares (1,112,975 acres) of submerged Federal lands off the coast of southern California.

Single copies of the draft environmental impact statement can be obtained from the Office of the Manager, Pacific Outer Continental Shelf Office, Bureau of Land Management, 1340 West 6th Street, Los Angeles, California 90017, and from the Office of Public Affairs, Bureau of Land Management (130), Washington, D.C. 20240. Copies of the draft statement will also be available for review at the following public libraries:

W. Valley Reg. Branch Library, 19036 Vanowen Street, Reseda, CA 91335
San Bernardino County Free Library, 104 W. 4th Street, San Bernardino, CA 92401
University of California Library, Government Publications Dept., P.O. Box 5900, Riverside, CA 95207
San Diego County Library, 5555 Overland Avenue, San Diego, CA 92123
Riverside Public Library, P.O. Box 468, Riverside, CA 92506
Anaheim Public Library, 500 West Broadway, Anaheim, CA 92805

In accordance with 43 CFR 3314.1, public hearings on the draft environmental impact statement will be held in Santa Barbara, California at the Santa Barbara High School, 700 Anapamu Street, on July 28, 1981, from 8:00 a.m. to 10:00 p.m., and on July 29, 1981, from 8:00 a.m. to 1:00 p.m., and in Long Beach, California at the Long Beach Convention Center, 300 East Ocean Boulevard on July 30, 1981, from 8:00 a.m. to 10:00 p.m. and, if necessary, on July 31, 1981 from 8:00 a.m. to 1:00 p.m.

The hearings will provide the Secretary of the Interior with information from government agencies, public and private groups to help evaluate the potential effects of the proposed offering. Comments are solicited concerning effects of exploration, development and production resulting from the proposed sale on marine, cultural, recreational and other resources of the southern California region.

Interested individuals, representatives or organizations, and public officials wishing to testify at the public hearings are requested to contact the Manager, Pacific Outer Continental Shelf Office, Bureau of Land Management, at the above address by 4:00 p.m., July 24, 1981. Written comments from those unable to attend the hearing also should be addressed to the Manager, Pacific Outer Continental Shelf, Bureau of Land Management at the above address. The Bureau will accept written testimony and comments on the draft environmental impact statement until August 7, 1981. This will allow those unable to testify at the hearings to make their views known, and those presenting oral testimony to submit supplemental materials. Time limitations make it necessary to limit the length of oral presentations to ten (10) minutes. An oral statement may be supplemented, however, by a more complete written statement which may be submitted to a hearing official at the time of presentation. To the extent that time is available after presentation of oral statements by those who have given advance notice, others present will be given opportunity to be heard.

After all testimony and comments have been received and considered, a final environmental impact statement will be prepared.

Ed Hastey,

Associate Director, Bureau of Land Management.

Approved:

Cecil S. Hoffmann,

Special Assistant to Assistant Secretary of the Interior.

BILLING CODE 4310-84-M

Arizona; Wilderness Inventory Appeals

This announcement is to release the results of the appeal period for the Arizona Wilderness Study Area Final Decision and the Hualapai Aquarius and the Palo Verde-Devers Special Inventories.

The following units that were identified as Wilderness Study Areas (WSAs) have been appealed:

Unit name	Unit No.
Ferry Swale	AZ-010-006A.
Judd Hollow	AZ-010-006B.
Paria Rim	AZ-010-006C.
Cedar Mountain	AZ-010-006D.
Paria Plateau	AZ-010-006A/19.
Overlook	AZ-010-006B.
Emmett Wash	AZ-010-009.
Kanab Creek	AZ-010-031.
Hack Canyon (A)	AZ-010-033A.
Robinson	AZ-010-034.
Cottonwood Point	AZ-010-041.
Toroweap	AZ-010-050.
Mt. Logan	AZ-010-051.
Mt. Trumbull	AZ-010-052.
Poverty Mountain	AZ-010-091.
Parashaunt	AZ-010-093.
Damsil Canyon	AZ-010-096A.
Grassy Mountain	AZ-010-096C.
Andrus Canyon	AZ-010-096D.
North Dellenbaugh	AZ-010-097.
G&F	AZ-010-099.
Salt House	AZ-010-104A.
Mustang Point	AZ-010-104B.
Last Chance	AZ-010-111.

BILLING CODE 4310-84-M

Medford District Advisory Council; Notice of Meeting

Notice is hereby given in accordance with 43 CFR 1780 that a sub-committee meeting of the Medford District Advisory Council will be held on Friday, June 12.

The meeting will begin at 9 AM and will continue until 3 PM in the Oregon Room of the Bureau of Land Management Office at 3040 Biddle Road, Medford, Oregon.

The agenda for the meeting will include:

1. A discussion of BLM's "Program Priority Guides for Oregon and Washington, Fiscal Years 1982–1989."
2. A discussion of BLM's "Draft Wilderness Management Policy" and BLM's "Wilderness Study Policy."

The meeting is open to the public and news media. Summary minutes of the Council meeting will be maintained at the District Office and be available for public inspection and reproduction at the cost of duplication.

Hugh Shera,

District Manager.

May 19, 1981.

[FR Doc. 81-15994 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

Susanville District Grazing Advisory Board; Meeting

Notice is hereby given in accordance with Pub. L. 94–579 (FLPMA) that a meeting of the Susanville District Grazing Advisory Board will be held on June 9, 1981.

The meeting will begin at 10:00 a.m. in the Susanville District Office of the Bureau of Land Management, Susanville, California.

The agenda for the meeting will include:

1. RCD Participation in Range Improvements.
2. Cowhead/Massacre Consultation.
3. Contributions for Range Improvement Projects.
4. Other Comments.
5. Public Comments.

The meeting is open to the public. Interested persons may make oral statements to the Board between 3:30 p.m. and 4:30 p.m., or file a written statement for the Board's consideration. Anyone wishing to make an oral statement must notify the District Manager, Bureau of Land Management, P.O. Box 1090, Susanville, California, 96130, by June 4, 1981. Depending on the number of persons wishing to make oral statements, a per person list limit may be established.

Summary minutes of the Board Meeting will be maintained in the District Office and will be available for public inspection and reproduction (during regular business hours) within 30 days following the meeting.

C. Rex Cleary,

District Manager.

BILLING CODE 4310-84-M

[NM 929, Amdt. 1]

New Mexico; Classification Partially Terminated; Lands Open to Entry

May 21, 1981.

1. On April 22, 1970 (FR, Vol. 35, No. 78, page 6444) lands listed under paragraphs 3 and 4 of said notice were segregated from all forms of appropriation under the public land laws, including the general mining, but not the mineral leasing laws. Lands described under paragraph 4 were further segregated from issuance of rights-of-way.

2. Pursuant to the regulations set forth in 43 CFR 2461.5(c)(2), the classification is hereby terminated as to the following described land:

New Mexico Principal Meridian

T. 10 S., R. 30 E.,
  Sec. 26, SW¼ and that part of the S½NW¼ lying south of the U.S. Highway 380;
  Sec. 27, S½ and that part of S½N½ lying south of U.S. Highway 380;
  Sec. 28, S½ and that part of S½N½ lying south of U.S. Highway 380;
  Sec. 33, all;
  Sec. 34, W½;
  Sec. 35, E½.
T. 11 S., R. 30 E.,
  Sec. 1, lots 1, 2, 3, 4 and S½;
  Secs. 11, 12, 13, 14, 23 and 24;
  Sec. 25, N½N½;
  Secs. 26 and 35.
T. 11 S., R. 31 E.,
  Sec. 6, lots 3, 4, 5, 6 and E½SW¼;
  Sec. 7, lots 1, 2, 3, 4 and E½W½;
  Sec. 19, lots 1, 2, 3, 4 and E½W½;
  Sec. 30, lot 1, N½NE¼ and NE¼NW¼.
T. 12 S., R. 30 E.,
  Sec. 23, SW¼NE¼ and S½NW¼;
  Sec. 24, SW¼NE¼ and S½NW¼.
T. 12 S., R. 31 E.,
  Sec. 19, lot 2, SW¼NE¼ and SE¼NW¼.

The areas described aggregate 9,177 acres, more or less.

3. At 10:00 a.m., on June 22, 1981, the lands described under paragraph 2 above will be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10:00 a.m., on June 22, 1981 shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

4. The lands will also be open to location under the United States mining laws at 10:00 a.m. on June 22, 1981.

Inquiries concerning these lands should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501.

Leroy C. Montoya,

Chief, Division of Technical Services.

[FR Doc. 81-16004 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

[NM 929, Amdt. 2]

New Mexico; Classification Partially Terminated; Lands Open to Entry

May 19, 1981.

1. On August 27, 1970 (FR, Vol. 35, No. 167, page 13670) the following described lands were classified for multiple use management under the Act of September 19, 1964 and segregated from all forms of appropriation under the public land laws, including the general mining and mineral leasing laws:

New Mexico Principal Meridian

T. 10 S., R. 30 E.,
  Sec. 1, lots 1, 2, S½NE¼, and N½SE¼.
T. 10 S., R. 31 E.,
  Sec. 6, lots 4, 5 and 6.

The areas described aggregate 362.34 acres in Chaves County.

2. Pursuant to the regulations set forth in 43 CFR 2461.5(c)(2), the classification is hereby partially terminated as to the following described lands:

New Mexico Principal Meridian

T. 10 S., R. 30 E.,
  Sec. 1, N½SE¼.
T. 10 S., R. 31 E.,
  Sec. 6, lot 6.

Aggregating approximately 120.80 acres.

Subject to valid existing rights, and the requirements of applicable law, at 10:00 a.m. on June 22, 1981, the public lands described under paragraph 2 of this notice shall be open to the operation of the public land laws generally, including the mining and mineral leasing laws. For oil and gas leasing, the land must first be made available on the simultaneous lands available list.

Inquiries concerning these lands should be addressed to the Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501.

Leroy C. Montoya,

Chief, Division of Technical Services.

[NM 40314]

New Mexico; Notice of Conveyance

May 20, 1981.

Notice is hereby given that pursuant to sections 206 and 208 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1716, 1718) and the regulations in 43 CFR 2201.7(a), a patent issued to Lauro Guaderrama and Jose M. and Magdalena A. Acosta on May 20, 1981 for the following described land in Dona Ana County:

New Mexico Principal Meridian, New Mexico

T. 26 S., R. 3 E.,
Sec. 11, lots 22 to 25, inclusive;
Sec. 14, lots 4 to 9, inclusive, lots 15 to 18, inclusive, lots 26 to 28, inclusive and lot 42.

Containing 44.95 acres.

A warranty deed issued to the U.S. for the following land, which becomes public land subject to administration by the Bureau of Land Management, New Mexico State Office:

T. 22 S., R. 4 E.,
Sec. 20, N½N½NE¼SE¼, S½NE¼SE¼, NW¼SE¼ and N½N½S½SE¼.

Containing 90.00 acres.

Leroy C. Montoya,

Chief, Division of Technical Services.

[FR Doc. 81-16075 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

New Mexico; Release of Wilderness Study Areas New Mexico

May 22, 1981.

AGENCY: Bureau of Land Management; Interior.

ACTION: Notice of Release of Wilderness Study Areas From Further Wilderness Consideration.

SUMMARY: Notice is hereby given of the release of the following New Mexico Wilderness Study Areas from further wilderness consideration:

BLM district	Name	Number	Total acreage
Las Cruces	Sacramento Escarpment	NM-030-104	3,510
Las Cruces	Guadaloupe Escarpment	NM-030-114	7,053

The BLM areas were identified as areas to receive further wilderness study in the November 14, 1980, Federal Register ("Notice of Final Intensive Wilderness Inventory Decisions," pp. 75590–75593).

Both of the BLM areas are divided into several parcels. Each parcel contains less than 5,000 acres of contiguous BLM-administered public land. The BLM areas were slated for wilderness study because they were contiguous with U.S. Forest Service RARE II areas, West Face of the Sacramento Mountains (3–072) and Little Dog and Pup Canyons (3–074), recommended for further planning. Neither of the BLM areas satisfy the size criterion for wilderness in the Wilderness Act of 1964 without consideration of the above contiguous Forest Service RARE II areas.

The New Mexico Wilderness Act (Pub. L. 96–550) which was signed into law December 19, 1980, released the RARE II areas (3–072 and 2–074) from management restrictions to protect wilderness suitability. The Act also specified that such areas received adequate wilderness review and shall not be evaluated for wildeness prior to revision of the Forest Service initial land management plans and in no case before 1985.

Since the BLM areas no longer satisfy the size criterion for wilderness, they are dropped from the Wilderness Review Process and are no longer protected by interim management restrictions. The final decision announced in this notice will become effective upon publication in the Federal Register. There is no public comment period on this decision.

ADDRESS: Send inquiries to: State Director (932), Bureau of Land Management, United States Post Office and Federal Building, South Federal Place, P.O. Box 1449, Santa Fe, New Mexico 87501.

FURTHER INFORMATION CONTACT: Dan Wood at the above Santa Fe, New Mexico address or call (505) 988–6227.

Larry L. Woodard,

Acting State Director.

[FR Doc. 81-16005 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

[W-33229]

Wyoming; Termination of Classification

May 20, 1981.

On June 29, 1972 a classification decision was issued classifying the following described lands in Fremont County, Wyoming as suitable for lease or purchase under the Recreation and Public Purposes Act of June 14, 1926, 43 U.S.C. 869 et seq. (1976). This classification action was taken in response to a petition-application filed by the Wyoming Recreation Commission who subsequently withdrew their application October 23, 1980. It has been determined by the responsible Resource Area Manager with concurrence of the District Manager that the classification is no longer necessary.

Accordingly, pursuant to 43 CFR 2450.6, Notice of Classification, Wyoming 33229, affecting the following described lands, is hereby terminated in its entirety:

Sixth Principal Meridian, Wyoming

T. 32 N., R. 100 W.,
Sec. 17, E½NE¼, SE¼SW¼, SE¼.

The area described contains 280 acres, in Fremont County, Wyoming.

At 10:00 a.m. on June 22, 1981 the lands shall be open to operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at, or prior to, 10:00 a.m. on June 22, 1981, shall be considered as simultaneously filed at that time. Those received thereafter will be considered in the order of filing.

The lands will be open to location under the United States mining laws at 10:00 a.m. on June 22, 1981. They have been and will continue to be open to applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 1828, 2515 Warren Avenue, Cheyenne, Wyoming 82001.

Maxwell T. Lieurance,

State Director.

[FR Doc. 81-16086 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

[W-74551]

Wyoming; Application

May 21, 1981.

Notice is hereby given that pursuant to Sec. 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Cities Service Gas Company of Oklahoma City, Oklahoma, filed an application for a right-of-way to construct 4½ inch pipelines for the purpose of transporting natural gas across the following described public lands:

Sixth Principal Meridian, Wyoming

T. 17 N., R. 95 W.,
Sec. 18.
T. 17 N., R. 96 W.,
Secs. 14, 20, 24, 30 & 32.
T. 16 N., R. 97 W.,
Secs. 6, 18 & 20.
T. 17 N., R. 97 W.,
Sec. 32.
T. 15 N., R. 98 W.,
Sec. 12.
T. 16 N., R. 98 W.,
Secs. 10, 22, 28 & 34.

The proposed pipelines will serve to transport natural gas as additions to Cities Service Gas Company's gathering system within Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, Highway 187 N., P.O. Box 1869, Rock Springs, Wyoming 82901.

Harold G. Stinchcomb,

Chief, Branch of Lands and Minerals Operations.

Sec. 36, N½NE¼, SE¼NE¼.

The proposed pipelines will serve to transport natural gas as additions to Cities Service Gas Company's gathering system within Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should do so promptly. Persons submitting comments should include their name and address and send them to the District Manager, Bureau of Land Management, 1300 Third St., P.O. Box 670, Rawlins, Wyoming 82301.

Harold G. Stinchcomb,

Chief, Branch of Lands and Minerals Operations.

Wyoming; Proposed Continuation of Withdrawal

The Bureau of Land Management, U.S. Department of the Interior proposes to continue the existing withdrawal of the following public lands made by Public Land Order 4752, for a 20-year period pursuant to Section 204 of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2751; 43 U.S.C. 1714):

Sixth Principal Meridian, Wyoming

T. 17 N., R. 86 W.,
Sec. 17, N½, SW¼, and N½SE¼;
Sec. 18;
Sec. 19, Lots 1, 3 and 4, NW¼NE¼, NE¼NW¼, E½SW¼, and SE¼;
Sec. 20, E½NE¼, SW¼NE¼, S½NW¼, SW¼, and NW¼SE¼;
Sec. 21, N½NW¼, and SW¼NW¼;
Sec. 29, NW¼NW¼;
Sec. 30, Lots 1 to 4, incl., NE¼, E½W½, and NW¼SE¼.
T. 17 N., R. 87 W.,
Secs. 13, 14, 22 and 23;
Sec. 24, S½N½, and S½;
Sec. 25;
Sec. 26, N½, N½S½, and SE¼SE¼.

The areas described aggregate 6,899.02 acres in Carbon County, Wyoming.

The purpose of the withdrawal is to protect the Stratton Sagebrush Hydrology Study Area which is operated by the U.S. Forest Service under a cooperative agreement with the Bureau of Land Management and the State of Wyoming.

Comments, suggestions, or objections to this proposed withdrawal continuation must be submitted in writing to the undersigned authorized officer of the Bureau of Land Managment, on or before July 6, 1981.

Notice is hereby given that an opportunity for a public hearing is afforded in connection with the proposed withdrawal continuation. All interested persons who desire to be heard on the proposal must submit a written request for a hearing to the undersigned before July 6, 1981. Upon determination by the State Director, Bureau of Land Management, that a public hearing will be held, a notice will be published in the **Federal Register** giving the time and place of such hearing. Public hearings are scheduled and conducted in accordance with BLM Manual, Section 2351.16B.

The authorized officer of the Bureau of Land Management will make necessary investigations to determine the existing and potential demands for the land and its resources and review the withdrawal rejustification to insure that continuation would be consistent with the statutory objectives of the programs for which the land is dedicated. He will also prepare a report for consideration by the Secretary of the Interior, the President, and Congress, who will determine whether or not the withdrawal will be continued and, if so, for how long. The final determination on the continuation of the withdrawal will be published in the **Federal Register**. The existing withdrawal will continue until such final determination is made.

All communications in connection with this proposed withdrawal continuation should be sent to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, 2515 Warren Avenue, P.O. Box 1828, Cheyenne, Wyoming 82001.

Harold G. Stinchcomb,

Chief, Branch of Lands and Minerals Operations.

[FR Doc. 81-16067 Filed 5-28-81; 8:45 am]
BILLING CODE 4310-84-M

Alabama; Coal Lease Offerings by Sealed Bid; Southern Appalachian Federal Coal Production Region

U.S. Department of the Interior, Bureau of Land Management, Eastern States Office, 350 South Pickett Street, Alexandria, Virginia 22304. Notice is hereby given that certain coal resources in the tracts described below in Alabama will be offered for competitive lease by sealed bid of $25.00 or more per acre to the qualified bidder submitting the highest bonus bid in accordance with the provisions of the Mineral Leasing Act of 1920 (41 Stat. 437), as amended, and the Department of Energy Organization Act of August 4, 1977 (91 Stat. 565, 42 U.S.C. 7101). The sale will be held at 2:00 p.m., June 25, 1981, at the State Capitol, House Chambers, Montgomery, Alabama. All bids must be submitted to BLM, Tuscaloosa District Office, 1315 McFarland Boulevard, East,

Tuscaloosa, Alabama 35401. No bids received after 4:00 p.m., June 24, 1981, will be considered.

Coal Offfered: Goodwin Creek Tract, ES 26900

The strippable coal resource to be offered is included in one coal bed in the following land located approximately 12 miles northeast of Winfield in Marion County, Alabama:

Huntsville Meridian (Walker County)

T. 12 S., R. 10 W.,
Sec. 19, SE¼SE¼;
Sec. 30, SW¼NE¼, W½NW¼, SE¼NW¼.

Containing 201.21 Acres.

Resources have been calculated for surface mining. In place mineable reserves are estimated to be 466,000 tons. The coal should average 14,257 Btu/lb. with 3.2% ash and 1.2% sulfur. This would classify the coal as high volatile "A" bituminous.

Coal Offered: North River Tract, ES 26901

The coal resource to be offered is included in one coal bed in the following land located approximately five miles south of Berry, Fayette County, Alabama:

Huntsville Meridian (Tuscaloosa County)

T. 17 S., R. 10 W.,
Sec. 3, NE¼, E½SE¼;
Sec. 4, N½SW¼, SW¼NW¼;
Sec. 5, E½SE¼, NE¼SW¼, E½NW¼;
Sec. 10, NW¼NE¼, NE¼NW¼;
Sec. 12, SE¼SE¼;
Sec. 13, E½SE¼;
Sec. 15, N½NE¼, SE¼NE¼;
Sec. 17, SE¼NE¼, W½SE¼;
Sec. 21, SW¼NE¼, NW¼SE¼;
Sec. 22, N½NE¼, SW¼SW¼.

Containing 1,197.50 Acres.

Resources have been calculated for undergound mining. In place mineable reserves are estimated at 5.9 million tons.

The coal should average 12,225 Btu/lb. with 13.0% ash and 2.4% sulfur. This would classify the coal as high volatile "A" bituminous.

Coal Offered: Upper North River Tract, ES 26902

The coal resource to be offered includes one coal bed in the following lands, located approximately two miles south of Berry, Fayette County, Alabama:

Huntsville Meridian (Fayette County)

T. 16 S., R. 10 W.,
Sec. 28, NW¼SW¼.

Containing 40.05 Acres.

Resources have been calculated for undergound mining. In place mineable reserves are estimated to be 338,000 tons. The coal should average 11,908 Btu/lb. with 13.8% ash and 2.0% sulfur. This would classify the coal as high volatile "A" bituminous.

Coal Offered: Rock Springs Church Tract, ES 27072

The coal resource to be offered is in two beds, the upper and lower Blue Creek beds in the following lands, located approximately 16 miles southeast of Berry, Fayette County, Alabama:

Huntsville Meridian (Tuscaloosa County)

T. 17 S., R. 9 W.,
Sec. 2, NW¼SE¼, NW¼SW¼;
Sec. 3, SW¼SE¼, SW¼;
Sec. 4, NE¼NE¼, S½NE¼, S½SW¼;
Sec. 9, E½, SW¼;
Sec. 10, NW¼SE¼, N½, SW¼;
Sec. 11, SE¼SE¼, W½NW¼;
Sec. 12, E½SE¼;
Sec. 13, N½NE¼, N½SW¼;
Sec. 14, E½NE¼, N½SE¼, SE¼SE¼, E½NW¼;
Sec. 15, W½NE¼, NW¼SE¼, NW¼SW¼, NW¼;
Sec. 22, E½SE¼, NE¼NW¼;
Sec. 23, S½NE¼, NE¼SE¼;
Sec. 24, E½SE¼, SW¼NW¼;
Sec. 25, NE¼NE¼, NE¼SE¼, E½SW¼;
Sec. 26, NW¼NW¼;
Sec. 27, NE¼NE¼;
Sec. 36, E½, NE¼SW¼.

Containing 3,479.98 Acres.

Resources have been calculated for underground mining. In place mineable reserves are estimated to be 30.9 million tons. The coal should average 12,337 Btu/lb. with 16.6% ash and 2.3% sulfur. This would classify the coal as high volatile "A" bituminous.

Rental and Royalty: Leases issued as a result of this offering will provide for payment of an annual rental of $3.00 per acre and a royalty payable to the United States of 12.5 percent of the value of coal produced by strip or auger mining methods and 6.6 percent of the value of coal produced by underground mining methods. The value of coal shall be determined in accordance with 30 CFR 211.63. The Department of Interior recognizes that the Federal royalty for surface-mined coal may be inconsistent with local prevailing rates. By order of the Secretary, the Department will, after lease issuance, immediately entertain applications for surface mining royalty reductions to the level of the prevailing market rate in the area. The Department does not guarantee that any applications for a royalty reduction will be granted.

Roger L. Hildebeidel,

Eastern States Director.

[FR Doc. 81-16060 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

Alabama; Small Business Set-Aside Coal Lease Offering by Sealed Bid; Southern Appalachian Federal Coal Production Region

U.S. Department of the Interior, Bureau of Land Management, Eastern States Office, 350 South Pickett Street, Alexandria, Virginia 22304. Notice is hereby given that certain coal resources in the tracts described below in Walker and Fayette Counties, Alabama will be offered for competitive lease by sealed bid of $25.00 or more per acre to the qualified bidder submitting the highest bonus bid in accordance with the provisions of the Mineral Leasing Act of 1920 (41 Stat. 437), as amended, and the Department of Energy Organization Act of August 4, 1977 (91 Stat. 565, 42 U.S.C. 7101). The sale will be held at 2:00 p.m., June 25, 1981, at the State Capitol House Chambers, Montgomery, Alabama. No bids received after 4:00 p.m., June 24, 1981, will be considered. All bids must be submitted to BLM, Tuscaloosa District Office, 1315 McFarland Boulevard, East, Tuscaloosa, Alabama 35401.

Coal Offered: Upper Sulfur Springs Church Tract (SBA), ES 26904

The coal resource to be offered its limited to coal recoverable by surface mining methods in the following land located approximately 10 miles southeast of Berry, Fayette County, Alabama.

Huntsville Meridian

T. 16 S., R. 9 W.,
Sec. 34, all of the NE¼SE¼ excepting that portion of a tract (one acre more or less) described in Deed Book 100, Page 477 on file in the Fayette County Court House, Fayette, Alabama.

Containing 38.94 acres.

Three surface mineable beds occur in the tract. In place mineable reserves are estimated to be 48,900 tons.

The coal quality is expected to average 14,005 Btu/lb. with 5.1% ash and 1.6% sulfur.

Coal Offered: Elm Grove Tract, ES 27220

The coal resource to be offered is limited to coal recoverable by surface mining methods in the following lands located approxiately 2 miles southwest of Carbon Hill.

Huntsville Meridian

T. 14 S., R. 10 W.,
Sec. 4, SW¼SW¼;
Sec. 5, NE¼SE¼.

Containing 79.40 acres.

One surface mineable bed occurs in this tract. In place mineable reserves are estiumated to be 69,000 tons.

The coal quality is expected to average 12,270 Btu/lb. with 14.7% ash and 2.0% sulfur.

Rental and Royalty: A lease issued as a result of this offering will provide for payment of an annual rental of $3.00 per acre and a royalty payable to the United States of 12.5 percent of the value of coal mined by surface methods. The value of coal shall be determined in accordance with 30 CFR 211.63. The Department of the Interior recognizes that the Federal royalty for surface-mined coal may be inconsistent with local prevailing rates. Therefore, by order of the Secretary, after lease issuance we will immediately entertain applications for surface mining royalty reductions to the level of the prevailing market rate in the area. However, we do not guarantee that any application for a royalty reduction will be granted.

Special Bidder Qualifications: This tract is being offered for competitive lease under the small business set-aside provision of the Federal Coal Management Program. Bidders must meet the small business qualification requirements established by the Small Business Administration in addition to meeting the Federal coal lease qualification requirements of the Federal Coal Management Program.

Notice of Availability: Bidding instructions and bidder qualifications are included in the Detailed Statement of the Lease Sale. Copies of the Statement and of the proposed coal leases are available at the Bureau of Land Management, Eastern States Office, 350 South Pickett Street, Alexandria, Virginia 22304 and the Tuscaloosa District Office. Case file documents are available for public inspection only at the Eastern States Office.

Note.—The Harris Cemetery Tract will not be offered on June 25, 1981, because of lack of surface owner consent.

Roger L. Hildebeidel,

Eastern States Director.

[FR Doc. 16091 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

Alabama; Lease Sale Schedule for Federal Coal in the Southern Appalachian Federal Coal Production Region, Alabama Subregion

AGENCY: Bureau of Land Management, Interior.

ACTION: Announcement of regional lease sale schedule.

SUMMARY: In accordance with 43 CFR 3420.7–1 and in compliance with 40 CFR 1502.2, this notice contains the Secretary of the Interior's decision for a regional lease sale schedule, as announced on April 22, 1981, for Federal coal lease tracts in the Alabama Subregion of the Southern Appalachian Federal Coal Production Region.

DATES: The first sale is scheduled for June 5, 1981. Subsequent sale dates, see the Supplementary Information section.

ADDRESSES: The June 1981 lease sale will be held at the Alabama State Capitol, Montgomery, Alabama. The location of the remaining sale will be announced at a later date.

FOR FURTHER INFORMATION CONTACT: Roger Hildebeidel, Director, Easter States Office, Bureau of Land Management, 350 South Pickett Street, Alexandria, Virginia 22304, (703) 235–2833.

SUPPLEMENTARY INFORMATION: This notice, as required by 43 CFR 3420.7–1 and 40 CFR 1505.2, is to inform the public that the Secretary of the Interior has selected 13 tracts located in the Alabama Subregion of the Southern Appalachian Federal Coal Production Region and has announced the schedule for the competitive sale of those tracts. The legal descriptions for the tracts to be offered for sale are listed at the end of this notice.

The tracts to be offered have been scheduled in two sales. The first sale will be on June 25, 1981, with the second sale no later than December 1981. If the competitive interest shown at the two sales is significant, additional tracts beyond the 13 will be considered for lease offering at a third sale to be held as soon as possible in Calendar Year 1982.

The 13 tracts for sale in 1981 have been scheduled as follows:

First Sale—June 25, 1981

Upper North River
North River
Goodwin Creek
Harris Cemetery
Upper Sulfur Springs Church
Rock Springs Church
Elm Grove

Second Sale—No Later Than December 1981

Wiley
Dividing Ridge
Jess Creek
Windham Springs
Piney Woods Church
Howard

As part of the Secretary's decision, the Geological Survey (GS) has been directed to examine the royalty rates for non-Federal coal mined by both surface and underground methods in Alabama. The GS is to report its findings to the Secretary so an appropriate royalty rate for the Federal coal can be determined prior to the lease sales for the underground tracts in Alabama. For the surface mineable coal tracts, the Department will, after lease issuance, entertain applications for a royalty reduction, *if justified under the standards in Section 39 of the Mineral Leasing Act, 30 U.S.C. 209,* to the prevailing market rate in Alabama.

A total of 26 tracts were analyzed in the regional lease sale environmental impact statement (EIS). The 13 tracts being offered for sale contain an estimated 109 million tons of Federal mineable reserves that could result in 8 million tons of new annual coal production in the Alabama Subregion by 1987. For some of the 13 recommended tracts, the Secretary's decision allows a "phased-in leading" approach that will ensure a higher degree of protection to the quality of the water supply for the City of Tuscaloosa. The EIS, released in January 1981, showed a possible significant environmental impact could occur to the water quality for Tuscaloosa if all the coal tracts were developed around the same time.

Three of the 13 tracts to be offered may prevent the bypass of Federal coal or will provide for maintenance of present production levels at existing mines. Three other tracts (Harris Cemetery, Upper Sulfur Springs Church, and Elm Grove) will be set aside for bidding by small businesses at the June 1981 sale.

The Secretarial Issue Document that includes the Secretary's decision and discusses the alternatives for leasing and the national policies considered in reaching the decision is available upon request from the Eastern States Director at the above address.

Arnold E. Petty,

Acting Associate Director, Bureau of Land Management.

Approved:

David C. Russell,

Assistant Secretary, Land and Water Resources.

BILLING CODE 4310-84-M

New Mexico & Colorado San Juan River Regional Coal Team Meeting

May 22, 1981.

AGENCY: Bureau of Land Management.

ACTION: Public Hearing and Opening of a Comment Period.

SUMMARY: The New Mexico State Office of the Bureau of Land Management advises the public that hearings will be held to receive oral and written comments in order to assist the Secretary of the Interior through the San Juan River Regional Coal Team, in his review of the Federal coal production goals for the San Juan River Coal Production Region. The hearings will be held in Albuquerque and Farmington, New Mexico. Individuals wishing to comment orally at the public hearings are asked to provide written copies of their remarks if possible. Oral and written comments will be accepted at the public hearings. Written comments should be addressed to the New Mexico State Director at the address given below.

DATE: Written comments will be accepted until close of business, August 17, 1981. Public hearings will be held in Albuquerque, New Mexico on July 13, 1981 and in Farmington, New Mexico on July 16, 1981. The hearings will start at 10:00 a.m.

ADDRESS: Written comments on the production goals should be addressed to Bureau of Land Management, New Mexico State Director, P.O. Box 1449, Santa Fe, New Mexico 87501. The public hearing will be held in Albuquerque, New Mexico, in the Cochiti-Taos Rooms, Albuquerque Convention Center and in Farmington, New Mexico, at The Inn, 700 Scott Ave.

FOR FURTHER INFORMATION CONTACT: Gene Day, San Juan River Project Manager, Bureau of Land Management, P.O. Box 1449, Santa Fe, New Mexico 87501. Telephone (505) 988-6226.

SUPPLEMENTARY INFORMATION: The Department of Energy (DOE) issued updated national and regional coal production goals on January 26, 1981. These coal production goals are intended to guide the Department of the Interior (DOI) and the Regional Coal Team (RCT) in setting a Federal leasing target for the San Juan River Federal Coal Production Region

DOE Final Production Goals San Juan River Region

(Million tons annually)

	1990	1995
Low	54.5	57.8
Medium	57.6	61.2
High	58.9	63.7

The coal production goals developed by DOE are provided at three levels of energy consumption growth rates—low, medium and high. Due to the uncertainties regarding coal consumption over the next 10–15 years, especially for electric utilities and synthetic fuels, the range in the goals is substantial. The DOE final production goals have been provided to the San Juan River RCT.

The Federal Coal Management Regulations (43 CFR 3420.3–2(d)) require that the RCT consider the regional situation and recommend adjustments to the regional production goals based on such factors as: (1) public comment received in writing or in hearing(s) held by the team in the region, (2) State Government, Bureau of Land Management State Office, Indian Tribe and regional development policies, (3) administrative capacity to satisfy the indicated level of leasing based on the final production goals, and (4) other information available to the Regional Coal Team which they believe should receive consideration by the Secretary in his review of the final regional production goals.

The purpose of this notice is to call for public comment on the production goals in order to assist the RCT in formulating its recommendations to the Secretary.

Larry L. Woodard,

Associate State Director.

[FR Doc. 81-16077 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

[3350-1]

Outer Continental Shelf Advisory Board; Alaska Regional Technical Working Group Committee; Meeting

This notice is issued in accordance with the provisions of the Federal Advisory Committee Act, Pub. L. 92-643.

The Alaska Regional Technical Working Group Commitee of the National Advisory Board will hold a meeting on June 24–25, 1981, beginning at 9 a.m. in Mountainview Conference Room, Alaska OCS Office, 620 East 10th Avenue, Anchorage, Alaska.

The meeting will cover the following principal subjects:

—The proposed April 1981 OCS leasing schedule
—The supplemental EIS on the April 1981 proposed schedule
—The planning unit concept
—The streamlining process
—Fiscal year 1982 technical development plans for studies
—Fiscal year 1983 Regional Studies Plan
—Scale 60 proposed notice of sale
—NERBC study products

The meeting is open to the public. Public attendance may be limited by the space available. Summary minutes of the meeting will be available at the Alaska OCS Office for public inspection and copying 3 weeks after the meeting.

For further information, contact Gordy Euler at the Alaska OCS Office, (907) 276-2955.

Dated: May 19, 1981.

Robert J. Brock,

Acting Manager, Alaska OCS Office.

[FR Doc. 81-16074 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-84-M

Shoshone and Benewah Counties, Idaho; Realty Action, Exchange of Public Lands

May 22, 1981.

The following described lands have been examined and determined through the public land use planning process to be suitable for disposal by exchange under Section 206 of the Federal Land Policy and Management Act of October 21, 1976, 43 U.S.C. 1716:

B.M.—Shoshone County, Idaho

T. 48 N., R. 3 E.,
Sec. 10—lot 2, NW¼SW¼.
70.25 acres.

The public lands are hereby segregated from all forms of appropriation under the public land laws including the mining laws for a period of two (2) years.

The classification decision of May 24, 1978 as it affects Lot 2, Sec. 10, T. 48 N., R. 3 E., B.M. is hereby ammended to allow the transfer of title by exchange under Sec. 206 of the Federal Land Policy and Management Act (FLPMA) of October 21, 1976.

In exchange for these lands, the Federal Government will acquire a tract of private land in Benewah County, Idaho described as follows:

B.M—Benewah County, Idaho

T. 47 N., R .1 W.,
Sec. 31—SE¼NE¼, NE¼SE¼, Lot 11.
110.42 acres.

The purpose of this exchange is to allow various actions as follows:

1. Allow the Sunshine Mining Company to obtain fee title to lands they partially developed as part of a Golf and Tennis Club facility as authorized under Recreation and Public Purposes Lease I-14403 for the Shoshone Golf and Tennis Club, Inc.

2. Make possible the fee title transfer of the land and facilities thereon to the Shoshone Golf and Tennis Club, Inc. as agreed upon by the Sunshine Mining Co.:

3. Make possible for transfer of the roads constructed to county acceptance standards to Shoshone County as agreed upon with the Shoshone County Commissioners;

4. Allow the development, maintenance, management and control of a water system which will serve the Shoshone Golf and Tennis Club, the executive housing for the Sunshine Mine, and the mines metal processing facilities and offices; and

5. Allow for the full development of the lands adjacent to this golf course and mine properties without repeated applications and grants of rights-of-way and other permits which may be required by the Bureau of Land Management.

Construction of this golf course replaced the course now occupied by the Sunshine Mining Company's tailings impoundment.

The Shoshone Golf and Tennis Club, Inc. is a non-profit organization which is supported by the local mining industry and other private and county organizations.

The Shoshone Golf and Tennis Club, Inc. desires and needs a new locations for a water storage facility and waterlines in the NE¼SW¼, Sec. 10, T. 48 N., R. 3 E., B.M. to provide adequate water for fire protection and domestic use for the club's facilities. The Sunshine Mining Company has agreed to construct these facilities in accord with Public Health and Safety Standards to provide sufficient water for domestic and fire protection use.

Examination of the public land records and the public land involved revealed there are mining claims of record. The Sunshine Mining company is attempting to deal with all claimants equitably. All claimants of record should contact the Bureau of Land Management and the Sunshine Mining company to resolve any claim to minerals that may be in these lands.

The public interest will be well served by making this exchange. The terms and conditions applicable to the exchange are:

1. The exchange will be for fee title transfer for all lands involved on an equal value basis with monetary equalization if necessary. Preliminary value estimates indicate the lands involved are near equal value.

2. The public lands selected and proposed to be patented will be subject to the following reservations:

a. A ditches and canals reservation common to all patents issued.

b. A right-of-way for 50 feet on either side of the centerline of the existing Washington Water Power transmission line as authorized under Serial No. I-09108 and Federal Power Commission (FPC) license for Power Project 1072 as withdrawn by FPC Order of December 3, 1941.

c. A right-of-way for 25 feet on either side of the centerline at the existing Washington Water Power natural gas pipeline as authorized under Serial Number I-016691.

d. A road right-of-way as surveyed for 30 feet on either side of its centerline from the intersection with the road to be transferred to Shoshone County along the existing ridge road southerly to the south boundary of the NW¼SW¼, Sec. 10, T.48N., R.3E., B.M.

The lands the Sunshine Mining Company proposes to deed to the United States in exchange would not be affected by any reservations other than the ditches and canal reservation originally reserved by the United States.

The publication of this notice in the **Federal Register** will segregate the public lands described above from appropriation under the public land laws, including the mining laws. As provided by the regulations of 43 CFR 2201.1(b), any subsequently tendered application, allowance of which is discretionary, shall not be accepted and shall be returned to the applicant.

Detailed information concerning the exchange, including the environmental assessment and the record of public discussions, is available for review at the Coeur d'Alene District Office, P.O. Box 1889, 1808 North 3rd, Coeur d'Alene, Idaho 83814. For a period of 45 days interested parties may submit comments to the District Manager, Coeur d'Alene District Office, Bureau of Land Management, at the above address.

Any adverse comments will be evaluated by the authorized officer who may vacate or modify this realty action and issue a final determination. In the absence of any adverse comments, this realty action will become the final determination of the department.

Wayne Jinne,

Acting District Manager.

BILLING CODE 4310-84-M

Fish and Wildlife Service

Endangered Species Permit; Receipt of Applications

The applicants listed below wish to conduct various activities with Endangered Species:

Applicant: Louisiana Department of Wildlife and Fisheries, New Orleans, LA; PRT 2-7994

The applicant requests a permit to capture, handle, mark, radio-tag, relocate and release American alligators (*Alligator mississippiensis*) for the purpose of scientific research in the state of Louisiana.

Applicant: Terry Lilley, Morro Bay, CA; PRT 2-7998

The applicant requests a permit to import five (5) Jamaican boas (*Epicrates subflavus*) from the Hope Zoo, Kingston, Jamaica to Morro Bay, California for enhancement of propagation and scientific research.

Humane care and treatment during transport, if applicable, has been indicated by the applicants.

Documents and other information submitted with these applications are available to the public during normal business hours in Room 601, 1000 N. Glebe Road, Arlington, Virginia, or by writing to the U.S. Fish and Wildlife Service, WPO, P.O. Box 3654, Arlington, VA 22203.

Interested persons may comment on these applications on or before June 29, 1981, by submitting written data, views, or arguments to the Director at the above address.

Dated: May 21, 1981.

Larry LaRochelle,

Acting Chief, Permit Branch, Federal Wildlife Permit Office, U.S. Fish and Wildlife Service.

BILLING CODE 4310-55-M

Endangered Species Permit; Receipt of Applications

The applicants listed below wish to conduct various activities with endangered Species:

Applicant: Knoxville Zoological Park, Knoxville, TN; PRT 2-7737

The applicant requests a permit to be authorized to receive and possess injured or orphaned endangered birds brought to the zoo by private citizens for enhancement of survival, rehabilitation, and release to the wild.

Applicant: Tennessee Valley Authority, Norris, TN; PRT 2-4252

The applicant requests a permit to take up to ten (10) gravid Cumberland monkeyface pearly mussels *(Quadrula intremedia)* per year in 1981 and 1982 from the Powell River in Virginia and Tennessee to obtain glochidia to be used for scientific research to determine the fish host(s).

Humane care and treatment during transport, if applicable, has been indicated by the applicants.

Documents and other information submitted with these applications are available to the public during normal business hours in Room 601, 1000 N. Glebe Road, Arlington, Virginia, or by writing to the U.S. Fish and Wildlife Service, WPO, P.O. Box 3654, Arlington, VA 22203.

Interested persons may comment on these applications on or before June 29, 1981, by submitting written data, views, or arguments to the Director at the above address.

Dated: May 26, 1981.

Steve Funderburk,

Acting Chief, Branch of Permits, Federal Wildlife Permit Office, U.S. Fish and Wildlife Service.

BILLING CODE 4310-55-M

Receipt of Application for Permit

Notice is hereby given that an Applicant has applied in due form for an amendment to his Permit to take sea otters as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), and the regulations governing the taking and importing of Marine Mammals (50 CFR Part 18).

1. Applicant:
   a. Name: Donald B. Siniff and John R. Tester.
   b. Address: University of Minnesota, Minneapolis, MN 55455.
2. Type of permit: Scientific Research.
3. Name and Number of Animals: 300 sea otters (*Enhydra lutris*).
4. Type of Activity: capture for tagging and extraction of premolar.
5. Location of Activity: 100 otters will be taken at Amchitka Island, AK; 200 in Prince William Sound.
6. Period of Activity: until 31 July 1982.

The purpose of this application is to (1) gather data on population dynamics and social behavior (2) investigate use of premolars in aging technique and (3) determine feasibility of using a capture pistol for territorial males.

Concurrent with the publication of this notice in the **Federal Register** the Federal Wildlife Permit Office is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

The application has been assigned file number PRT 2-4114. Written data or views, or requests for copies of the complete application or for a public hearing on this application should be submitted to the Director, U.S. Fish and Wildlife Service (WPO), Washington, D.C. 20240, on or before June 29, 1981. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate. The holding of such hearing is at the discretion of the Director.

All statements and opinions contained in this application are summaries of those of the Applicant and do not necessarily reflect the views of the United States Fish and Wildlife Service.

Documents submitted in connection with the above application are available for review during normal business hours in Room 605, 1000 North Glebe Road, Arlington, Virginia.

Dated: May 21, 1981.

Larry LaRochelle,

Acting Chief, Branch of Permits, Federal Wildlife Permit Office.

BILLING CODE 4310-55-M

Geological Survey

Request for Public Comment on Maximum Economic Recovery and Fair Market Value

AGENCY: Geological Survey, Department of the Interior.

The U.S. Geological Survey has delineated two tracts, one known as the China Butte tract and the other as the Red Rim tract, as candidates for possible lease sale in the Green River-Hams Fork coal production region in Wyoming. These two tracts are currently under consideration for leasing by the Department of the Interior. Each tract lies within a checkerboard ownership pattern as a result of a Federal railroad land grant. The Federal acreages included in the China Butte tract, if offered, will be offered for lease singly, i.e., not in conjunction with the interspersed private tracts.

The U.S. Department of the Interior is currently attempting to reach a cooperative agreement with the holder of the interspersed private coal sections in the Red Rim tract. If such a cooperative agreement is reached, the private coal sections would be offered in conjunction with the Federal Red Rim sections. The results of those negotiations cannot be determined at this time; however, the U.S. Geological Survey is requesting comments on fair market value for the Federal coal, whether the Red Rim tract is offered for lease sale with or without a cooperative agreement.

A description of the two tracts is contained in Table I. More complete geologic data on these tracts are available in the tract delineation reports and the economic recovery potential analysis report for each tract. These reports are available for public inspection at the Office of the Deputy Conservation Manager for Resource Evaluation, North Central Region, Conservation Division, U.S. Geological Survey, 100 East "B" Street, Room 2001, Casper, Wyoming 82601. Additional

data on these tracts are available from the Final Environmental Impact Statement (FEIS). Copies of the FEIS are available from the Bureau of Land Management (BLM) State Office, 2515 Warren Avenue, Cheyenne, Wyoming 82001.

The public is invited to submit written comments on the fair market value of the listed tracts to the U.S. Geological Survey. Comments should address, but not necessarily be limited to, the following:

1. The quantity and quality of the coal resource for each tract by seam(s).
2. The mining method or methods which would achieve maximum economic recovery of the coal, including specification of seams to be mined on each tract and the most desirable timing and the rate of production.
3. The demonstrated and recoverable reserves of coal on each tract by seam(s).
4. Which of the tracts, if any, should be evaluated as part of a larger mining unit (i.e., those tracts which do not in themselves form a logical mining unit).
5. The configuration of the larger mining unit of which the tract may be a part.
6. Restrictions to mining which may affect coal recovery.
7. The price that the mined coal would bring in the marketplace.
8. The cost of producing the coal including mining and reclamation costs.
9. The percentage rate at which anticipated income streams should be discounted, either in the absence of inflation or including inflation, in which case the anticipated rate of inflation should be given.
10. Depreciation and other accounting factors.
11. The value of the surface estate where privately held.
12. Documented information on the terms and conditions of recent and similar coal land transactions in the lease sale area.

If information submitted is considered to be proprietary, the information should be so labeled in the first page of any written comment(s). The U.S. Geological Survey will treat any submitted information as being confidential if so requested by any person(s), firm(s), or organization(s) and if authorized by the exemption provisions of the Freedom of Information Act. Comments should be sent to the Conservation Manager, North Central Region, Conservation Division, U.S. Geological Survey, 100 East "B" Street, Room 4130, Casper, Wyoming 82601. Comments should be received no later than 30 days after publication of this notice.

This request for comments should not be interpreted as a firm commitment by the Federal Government to lease either of the tracts listed herein. Any decision to offer for public lease sale either or both of these tracts will be made in a public notice of sale issued by the BLM not less than 30 days prior to any sale. These procedures are in accordance with the procedures specified in the 43 CFR 3400 series, Federal Coal Management Regulations.

In addition to the information regarding reserves (Table I), the Departmental policy calls for release of all nonproprietary data which are used as input in the discounted cash flow evaluation model. Under this policy, we are releasing for public comment and review our initial estimates of: (1) "the coal selling price," which is an estimate of the range of current market prices and is based upon the quality of the coal; (2) "the unit mining cost," which is an estimate of the range of all operating costs used to produce the coal; and (3) a discount rate of 10 percent and a nine percent inflation factor.

It should be noted that these values are current estimates only and may or may not change as a result of comments received from the public and/or changes in market conditions between now and when any final evaluations are completed.

Table I—*Description of possible lease tracts in the Green River-Hams Fork Wyoming coal region*

Tract name	County, township and range	Acreage	Demonstrated reserve base estimate (millions of tons)	Probable mine type	As received Btu/per pound	Sulfur content (percent)	ash content (percent)
Red Rim	Carbon, T. 19–20–21 N.; Sweetwater, R. 89–90–91 W.	9,715.49	40.5	Surface	8,560	0.45	9.30
China Butte	Carbon, T. 17–18–19 N., R. 91 W.	5,974.09	73.9	Surface	8,800	0.56	7.35

Our geologic reports and reports on preliminary economic data are on file and available for public inspection and review at the U.S. Geological Survey office cited in this public notice.

Dwayne E. Hull,

Conservation Manager, North Central Region.

BILLING CODE 4310-31-M

Oil, Gas and Sulphur Operations in the Outer Continental Shelf; Mesa Petroleum Co.

AGENCY: Geological Survey, Interior.

ACTION: Notice of the Receipt of a Proposed Development and Production Plan.

SUMMARY: Notice is hereby given that Mesa Petroleum Company has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS–G 3588, Block 12, portion, South Pelto Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Geological Survey is considering approval of the Plan and that it is available for public review at the offices of the Conservation Manager, Gulf of Mexico OCS Region, U.S. Geological Survey, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: U.S. Geological Survey, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837–4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the U.S. Geological Survey makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested

parties became effective December 13, 1979 (44 FR 53685). Those practices and procedures are set out in a revised Section 250.34 of Title 30 of the Code of Federal Regulations.

Dated: May 22, 1981.

Lowell G. Hammons,

Conservation Manager, Gulf of Mexico OCS Region.

[FR Doc. 81-15982 Filed 5-28-81; 8:45 am]

BILLING CODE 4310-31-M

INTERNATIONAL CONVENTION ADVISORY COMMISSION

Meeting

Notice is hereby given in accordance with Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. Appendix I, that a meeting of the International Convention Advisory Commission will be held on Tuesday, June 30, 1981, 9:30 p.m., Council on Environmental Quality, 722 Jackson Place, NW., Washington, D.C.

The Commission will consider a report on vertebrate species in trade, a report on trade in parrots, and miscellaneous other business.

For further information contact Dr. William Y. Brown, Executive Secretary, International Convention Advisory Commission, Suite 220, 1010 Wisconsin Avenue, NW., Washington, D.C. 20007, telephone 202/343-7407. Opportunity will be given for oral or written presentations provided that appointments are made with Dr. Brown by 5:00 p.m., June 26, 1981.

Dated: May 26, 1981.

William Y. Brown,

Executive Secretary, International Convention Advisory Commission.

BILLING CODE 4310-68-M

INTERSTATE COMMERCE COMMISSION

[Volume No. OP1-155]

Motor Carriers; Permanent Authority Decision; Decision-Notice

Decided: May 21, 1981.

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the Federal Register. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of an application, together with applicant's supporting evidence, can be obtain from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdiction problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the qualify of the human environment nor does it appear to quality as a major regulatory action under the Energy Policy and Conservation Act of 1975.

We also find that the transaction is consistent with the public interest, will enable the rail carrier to use motor carrier transportation to public advantage in its operation, and will not unreasonably restrain competition.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, it the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

By the Commission, Review Board Number 1, Members Parker, Chandler, and Fortier.

Agatha L. Mergenovich,

Secretary.

MC-F-14625, filed April 30, 1981. PACIFIC MOTOR TRUCKING COMPANY (PMT) (1766 El Camino Real, Burlingame, CA 94010)—Continuance in control—LOUIS HELLER, INCORPORATED (Heller) (1235 Glendale Rd., Sparks, NV 89431). Representatives: Lloyd M. Roach, 7600 South Central Expressway, P.O. Box 226187, Dallas, TX 75266; John MacDonald Smith, Southern Pacific Bldg., Room 813, One Market Plaza, San Francisco, CA 94105. PMT seeks authority to continue in control of Heller upon the institution by Heller of operations, in interstate or foreign commerce, as a motor contract carrier. Southern Pacific Transportation Co. (SPT), the sole stockholder of PMT, and in turn, Southern Pacific Company, a publicly held non-carrier and the sole stockholder of SPT, seek authority to acquire control of said rights and property through the transaction. PMT is a motor carrier pursuant to authority issued in MC-78786 and MC-78787. SPT, a rail carrier, controls Southern Pacific Transportation of Texas and Louisiana (MC-30319), Pacific Motor Transport Company (MC-54696), Southern Pacific Marine Transport, Inc., a freight forwarder (FF-514), and controls through 99.87% stock ownership, St. Louis Southwestern Railroad Company, a rail carrier which controls by 100% stock ownership, Southwestern Transportation Company (MC-59488). Condition: Approval and authorization of this transaction is conditioned upon the prior receipt by the Commission of an affidavit signed by officers of Southern Pacific Company and Southern Pacific Transportation Co. stating that they are persons in control of Heller and that they join in this application.

Note.—A directly related application has been filed and docketed MC–152491 and published in this same **Federal Register** issue.

Motor Carriers; Permanent Authority Decision; Decision-Notice

Decided: May 21, 1981.

The following operating rights applications, filed on or after July 3, 1980, are filed in connection with pending finance applications under 49 U.S.C. 10926, 11343 or 11344. The applications are governed by Special Rule 252 of the Commission's General Rules of Practice (49 CFR 1100.252).

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Persons submitting protests to applications filed in connection with pending finance applications are requested to indicate across the front page of all documents and letters submitted that the involved proceeding is directly related to a finance application and the finance docket number should be provided. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. However, the Commission may have modified the applications to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each applicant has demonstrated that its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requierments of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements as to the finance application *or* to the following operating rights applications directly related thereto filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except where the application involves duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board Number 1, Parker, Chandler and Fortier.

Agatha L. Mergenovich,
Secretary.

MC 152491, filed April 30, 1981. Applicant: LOUIS HELLER, INCORPORATED, 1766 El Camino Real, Burlingame, CA 94010. Representatives: Lloyd M. Roach, 7600 South Central Expressway, P.O. Box 226187, Dallas, TX 75266, (214) 376–4423; John MacDonald Smith, Southern Pacific Bldg., Rm. 813, One Market Plaza, San Francisco, CA 94105, (415) 362–1212 (Ext. 21354). Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with St. Louis Southwestern Railway Company, of San Francisco, CA.

Note.—This application is directly related to MC–F–14625, published in this same **Federal Register** issue.

[FR Doc. 81-15937 Filed 5-28-81; 8:45 am]
BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1–151

Decided: May 19, 1981.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier.

MC 10321 (Sub-7), filed May 11, 1981. Applicant: J. A. CARMAN TRUCKING CO., INC., One Anderson Dr., P.O. Box 11–530, Albany, NY 12211. Representative: Michael R. Werner, P.O. BILLING CODE 7035-01-M

Motor Carriers; Finance Applications; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly Section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell.

MC-FC-78620, filed May 16, 1980 (supplemental publication) (previously published in the **Federal Register** on July 16, 1980), BLUE RIBBON TRUCKING, INC. (BLUE RIBBON) (167 Fairfield Road, Fairfield, NV 07006). (Transferee—Red Arrow Trucking Co. (Red Arrow) (611 Tonnele Avenue, Jersey City, NJ 07307) Representative: Michael R. Werner, Esq., P.O. Box 1409, 167 Fairfield Road, Fairfield, NJ 07006). The purpose of this supplemental publication is to include in the scope of authority which Blue Ribbon proposes to acquire the authority recently issued to Red Arrow in certificate No. MC-44523 (Sub-No. 4) on March 24, 1981. This certificate authorizes transportation, as a motor common carrier, in interstate or foreign commerce, over irregular routes of (1) commodities as are dealt in or used by grocery stores, department stores, between Crawford, NJ and Philadelphia, PA.

MC-FC-78869. By decision of March 30, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to CAPITAL MOVERS, INC., Dover, Delaware of certificate No. MC-133536 Sub 1 and Sub 2 issued July 24, 1970 to Dover Moving and Storage, Inc., Dover, Delaware authorizing the common carrier transportation over irregular routes: Sub-1 *used household goods*, between points in Delaware, points in Northhampton and Accomack Counties, VA, and points in Caroline, Cecil, Dorchester, Kent, Queen Annes, Somerset, Talbot, Wicomico, and Worcester Counties, MD; Sub 2 *household goods*, as defined by the Commission, between points in Delaware on the one hand, New York, New Jersey, Maryland, Pennsylvania, Virginia, and the District of Columbia. Applicant's representative is J. Richard Berry, President, Capitol Movers, Inc., 773 N. DuPont Highway, Dover, Delaware 19901.

MC-FC-78893 (supplemental). By decision of April 23, 1981, Review Board Number 3 granted reopening of this proceeding and substitution of BAKER TRUCK LEASING & SALES, INC., of Wilson, NC, as transferee in lieu of Carolina Agricultural Distributors, Inc. By decision of December 19, 1980, which was published in the **Federal Register** on January 16, 1981, Review Board Number 5 approved the transfer to Carolina Agricuiltural Distributors, Inc., of certain operating rights held by Pantego Distributing Co., Inc., of Pantego, NC, in Certificate No. MC-145928 and (Sub-Nos. 2, 4, and 5) as described in the prior publication. Baker and Carolina are non-carrier affiliates. Representative: Peter A. Greene, 1920 N St., N.W., Washington, D.C. 20036.

MC-FC-78901, filed December 11, 1980. (Supplemental publication). Previously published in the **Federal Register** issue of April 1, 1981. CRETEWAYS TRANSPORTATION, INC., Crete, NE—Transferee and Texas Continental Express, Inc., Joseph W. Colvin, Trustee, Ft. Worth, TX. Representative: Max H. Johnson, Box 6597, Lincoln, NE 68506. The purpose of this supplemental publication is to remove the condition requiring the cancellation of the outstanding lease of the identical authority by Caravan Refrigerated Cargo, Inc. The authority to be transferred herein is listed in the previous publication.

MC-FC-78946. By decision of May 1, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132 Review Board Number 3 approved the transfer to McBURNEY TRANSPORT LIMITED of Hagersville, Ontario, Canada, of Certificate No. MC-119133 issued March 15, 1960 to Cronkwright Transport Ltd., Simcoe, Ontario, Canada, authorizing the transportation by irregular routes of *frozen fruits, frozen berries,* and *frozen vegetables,* between points on the International Boundary between the United States and Canada, on the one hand, and, on the other, points in Delaware, Illinois, Indiana, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, and the District of Columbia, through ports of entry at or near the Detroit, Niagara, St. Clair, St. Mary's and St. Lawrence Rivers, restricted (a) against the transportation of shipments from Detroit or Port Huron, MI, to the International Boundary on the Detroit or St. Clair Rivers, and (b) to shipments moving to or from points in Canada. Applicant's representative: William J. Hirsch, 1125 Convention Tower, 43 Court St., Buffalo, NY 14202.

MC-FC-79039. By decision of March 9, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132. Review Board Number 3 approved the transfer to O'NEAL, JERRY and MIKE MELTON d.b.a. O'NEAL MELTON & SONS of Certificate No. MC-146010 (Sub-No. 2F) issued December 4, 1980 to Freeman Cole and Billy G. Hall, a partnership, d.b.a. Cole and Hall Trucking Co. of Camden, TN authorizing the transportation of *silica sand and natural bonded molding sand,* in bulk, in dump and tank vehicles, from points in Benton County, TN, to points in Alabama, Arkansas, Florida, Georgia, Iowa, Illinois, Indiana, Kansas, Kentucky, Louisiana, Michigan, Missouri, Mississippi, Ohio, Pennsylvania, Tennessee, Texas, and Wisconsin. Applicant's representative is: Abraham A. Diamond, 29 South La Salle St., Chicago, IL. TA application has been filed.

Note.—Republish to show territory left out in publication issue of April 10, 1981.

MC–FC–79114. By decision of May 1, 1981 issued under 49 U.S.C. 10928 and the transfer rules at 49 C.F.R. Part 1132, Review Board Number 3 approved the transfer to JOHNSON TRUCK LINE, INC., of Osborne, KS, of Certificate No. MC–140241 (Sub-Nos. 12F, 17F, and 26F) issued June 5, 1979, June 21, 1979, and November 5, 1979, respectively, to DALKE TRANSPORT, INC. (Ernest McRae, Trustee in Bankruptcy) of Wichita, KS, authorizing the transportation of *Wrought Iron Pipe*, from the facilities of Unarco-Leavitt, at Blue Island, Evanston, and Chicago, IL to points in Iowa, Nebraska, Kansas, Oklahoma and Texas, restricted to the transportation of traffic originating at the above named origin facilities: (1) *Bentonite Clay and Lignite coal* (except in bulk), (a) from the facilities of American Colloid Company in Phillips County, MT to points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming, and (b) from the facilities of American Colloid Company in Big Horn and Crook Counties, WY to points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Iowa, Kansas, Louisiana, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming (except from the facilities of American Colloid Company in Big Horn County, WY, to points in Washington); and (2) *Lignite coal* (except in bulk), from the facilities of American Colloid Company in Bowman County, ND, to points in Arizona, California, Louisiana, New Mexico, Oklahoma, and Texas; *iron and Steel Articles*, from the facilities of Northwestern Steel and Wire Company, at or near Sterling, IL and Rock Falls, IL to points in Kansas, Missouri, Nebraska, Iowa, Oklahoma, Arkansas, and Texas, restricted to the transportation of traffic originating at the named facilities. BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the **Federal Register** of July 3, 1980, at 45 FR 45539.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.gs., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant as demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed) appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notice that the decision-notice is effective. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP3–233

Decided: May 21, 1981.

By the Commission, Review Board No. 3, Members Krock, Joyce and Dowell.

MC 152134 (Sub-3), filed January 19, 1981, previously noticed in the **Federal Register** of February 24, 1981. Applicant: BESTWAY TRANSPORT CO., a corporation, Route #2, Willard, OH 44890. Representative: Lewis S. Witnerspoon, 88 East Broad Street, Columbus, OH 43215. Transporting *food*

and related products, between the facilities used by Chef's Pantry, Inc., in and east of MN, IA, MO, AR, and TX.

Note.—This republication clarifies the territorial description.

Volume No. OP3–234

Decided: May 21, 1981.

By the Commission, Review Board No. 3, Members Krock, Joyce and Dowell.

MC 135444 (Sub-7), filed January 29, 1981, previously published in the **Federal Register** issue of March 5, 1981. Applicant: SOUTHERN OHIO TRUCK LINES, INC., 3585 Hamilton Trenton Rd., Hamilton, OH 45011. Representative: Earl N. Merwin, 85 East Gay St., Columbus, OH 43215. Transporting *general commodities* (except classes A and B explosives), between Cleveland, OH, and points in Lake County, OH, on the one hand, and, on the other, points in KY and IN.

Note.—This republication corrects the territorial description.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later become unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OP1–152

Decided: May 19, 1981.

By the Commission, Review Board No. 1 Members Parker, Chandler and Fortier.

MC 150141 (Sub-3), filed May 11, 1981. Applicant: MINNESOTA CONSUMER SUPPLY CO., INC., 5720 East River Rd., Apt. 102, Minneapolis, MN 55432. Representative: Stanley C. Olsen, Jr., 5200 Willson Rd., Suite 307, Edina, MN 55424, (612) 927–8855. Transporting, for or on behalf of the United States Government, *general commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), between points in the U.S.

MC 155930, filed May 11, 1981. Applicant: EAGLE EXPRESS MESSENGER, INC., 136 Patrick Road, Norwalk, CT 06851. Representative: Gerald A. [FR Doc. 81–16129 Filed 5–28–81; 8:45 am]

BILLING CODE 7035–01–M

[Volume No. 89]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: May 22, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 31438 (Sub-17)X, filed April 21, 1981. Applicant: ROY O. WETZ, d.b.a. R. O. WETZ TRANSPORTATION, 212 Pike Street, Marietta, OH 45750. Representative: A. Charles Tell, Suite 1800, 100 East Broad Street, Columbus, OH 43215. Applicant seeks to remove restrictions in its lead and Sub-Nos. 4, 5, 7, 10, 11, 12, 14, 16F certificates and Sub E–1 letter notice to (1) broaden the commodity descriptions to "food and related products" from farm products, evaporated milk, farm produce and agricultural commodities, in part of the lead and Sub-No. E–1; from canned evaporated milk, in Sub-No. 5; from general commodities (with exceptions) to "general commodities (except classes A and B explosives)," in part of the lead; to "metal products" from ferro alloys, in Sub-Nos. 10 and 11; from mine roof bolts, plates and wedges, and expansion shells, and iron and steel articles, in Sub-No. 16F; from mine roof bolts, plates and wedges, expansion shells and ferro alloys, in Sub-No. E–1; to "contractors equipment, materials and supplies" from precast concrete products and materials, parts and accessories moving with such products and used in erecting or assembling such products, in Sub-No. 7; from precast concrete products and materials, parts and accessories moving with such products, in Sub-No. E–1; to "plastic and lumber products, and containers" from pallets and empty containers, in Sub-Nos. 10 and 11; to "chemicals and related products" from silica, in Sub-No. 14; to "containers" from empty containers, in Sub-No. 16F; and to "lumber and wood products" from lumber (except plywood and veneer), (2) broaden the territorial description by substituting county-wide for city-wide authority and named facilities: Washington County, OH (for Marietta, Waterford, Waterford Township and the plantsite in Waterford Township, in the lead and Sub-Nos. 4, 5, 7, 10, 11, 14, 16 and E–1; and Onandaga County, NY (for Solvay, NY), in Sub-No. 4, (3) replace one-way with radial authority in the lead and Sub-Nos. 4, 5, 7, 10, 11, 12, 14, 16F and E–1, (4) remove the "in bulk" restrictions in Sub-Nos. 10 and 14 and (5) remove the "in containers" limitations in Sub-No. 7; weight limitations, and the size and weight restriction, in the lead.

MC 45134 (Sub-14)X, filed May 11, 1981. Applicant: COLLINS TRUCK LINES, INC., 1229 Osborne Rd., Minneapolis, MN 55432. Representative: John B. Van De North, Jr., 2200 First National Bank Building, St. Paul, MN 55101. Applicant seeks to remove restrictions in its lead and Sub-Nos. 11 and 13 to (1) broaden the commodity description by removing exceptions of automobiles and household goods from its general commodities authority and removing "dry, in bags" from manufactured fertilizer in its lead; and remove exceptions of iron and steel, in bulk and size and weight commodities from building, roofing, and insulation materials in Sub-No. 11; (2) remove facilities limitations at St. Paul-Minneapolis, MN, in its lead, and Scott County, MN, in Sub-No. 11; (3) remove an originating at restriction in Sub-No. 11; (4) remove for delivery or pick up only and joinder only restrictions on its regular and alternate routes, authorize service at all intermediate points, only in its regular routes and authorize two-way service on its regular and alternate routes in MN and ND in its lead; and (5) replace one-way with radial authority between St. Paul-Minneapolis, MN, and, MT and ND in the irregular route portion of the lead, between Scott County and 15 western and midwestern States in Sub-No. 11, and between Wahpeton, ND, and ND in Sub-No. 13F.

MC 67450 (Sub-115)X, filed April 22, 1981. Applicant: PETERLIN CARTAGE CO., 9651 S. Ewing Avenue, Chicago, IL 60617. Representative: Joseph Winter, 29 South La Salle Street, Chicago, IL 60603. Applicant seeks to remove restrictions in its Sub-Nos. 22, 30, 31, 36, 42, 44, 45, 46, 53, 62, 64, 71F, 73F, 76F, 77F, 78F, 83F, 84F, 85F, 90F, 91F, 92F, 97F, and 100F certificates and E19, E20, E36, E37, E40, E41, E42, E43, E44, E45, E46, E47, E48, E49, E50, E51, E52, E53, E54, E55, E56, E58, E60, E67, E68, E69, E72, E73, E77, E85, E87, E90, and E91 letter-notices, to (1) broaden the commodity description to "food and related products" from starch and blends thereof, and corn products, in Sub-No. 30, food, foodstuffs, food preparations, cooking oils, shortening, advertising matter, and materials, equipment and supplies used by persons engaged in the manufacture, sale, and distribution of the foregoing commodities in, Sub-No. 31, flour in Sub-Nos. 44, E36, E37, E40, E41, E42, E43, E44, E45, E46, E47, E48, E49, E50, E51, E52, E53, E54, E55, E56, E58, E60, E67, E68, E69, E72, E73, E77, E85, E87, E90, and E91, foodstuffs and food preparations in Sub-No. 46 in part, products of corn in Sub-No. 53, from foodstuffs and materials, equipment and supplies used in the manufacture or distribution of foodstuffs in Sub-No. 73F, foodstuffs, prepared animal feed, and materials and supplies used in the manufacture and
